BUCHANAN RECORD. VOLUME XXXII. BUCHANAN, BERRIEN COUNTY, MICHIGAN, THURSDAY, OCTOBER 20, 1898. NUMBER 38.

BIG FIRE. Early this morning—No Alarm Given. About 6 o'clock this (Thursday) morning, one of our prominent citizens arose and quietly sneaking down stairs he rushed up to one of Rough's 20th Century Stoves and opened the fire draft. In less than one minute the fire was burning rapidly. The party quickly turned and calling (up stairs) to his wife—'come quick and see this wonderful heater.' She at once appeared. 'Now, I hereby agree to get up every morning this winter, without grumbling, and build all the fires, providing we keep the 20th Century, as all I will have to do is to open the draft and everything is lovely. Yes, it keeps fire thirty-six hours, too, besides, we can do most of our cooking on it if desired. Not only that, my dear, as it is running on half the expense I can buy you a new clock this winter.

'Oh, John,' said the wife, 'it really seems that you are living in the next world, and to think that 20th Century stove has done it all. It almost seems impossible.'

Look at the 1-38 front view with the engraved top, the pretty nickle shell door, nickle foot rails, nickle name plate, nickle knobs, etc., and look at the

Another Roadblock Busted.

The shyness papers have been howling and straggling about the 'roadblock' which Lieut. Col. White was said to have perpetrated upon the State, in drawing two salaries at 'one and the same time' as the other faculty say 'the fact is, and it is the easiest matter in the world to verify it, his salary as quartermaster ceased the day he was mustered into the United States service, in the same manner, Lieut. Col. Smith's salary as assistant quartermaster, stopped when he made the same change. These lies are so stupid, and so easily turned down, it is surprising anyone claiming a modicum of sense should undertake to work them on the State. But rats caught at straws.

RECAPITULATION.

The buffalo is a noble animal, and it was very thoughtful and gracious on the part of the government to bestow its name on a warship—Union and Advertiser.

A large congregation gathered at the Christian church, last Sunday morning, to consider the resignation of their pastor, E. R. Black, and by an unanimous vote, not one dissenting, requested Elder Black to continue as their pastor. Miss Cora Bird gave her 4th annual musical, at the home of Mr. Will Scott, Cottage Hill, Oct. 18. The house was tastefully decorated with autumn leaves. Many guests assembled, in spite of the inclemency of the weather, and were delightfully entertained by the class of eighteen pupils. The selections were rendered in a way that showed careful preparation and skillful training. The improvement over last year's work was marked, and it is evident that Miss Bird's duties as an instructor in music here has been faithfully performed, and that her efforts were appreciated were shown by the kind attention and hearty praises also the widening circle of friends and pupils.

A special meeting of the "30 Club" was held at the home of Mrs. H. D. Rough, last Thursday evening. Owing to the inclemency of the weather, the attendance was small. An excellent program, however, was given, at the close of which the members responded to roll-call. Laughable sayings and conundrums were then indulged in, some of the latter causing much merriment. The phonograph came in for its share of honors. At the close.

The Bay View Reading Circle had a very pleasant meeting at the home of Miss Cora Dumbolton Tuesday evening. The history lesson proved to be a very enjoyable one. Spark, our popular barber, was in Benton Harbor on Tuesday, and while there purchased from the young couple, married during the Carnival, the handsome steel range donated to them by Mr. Chas. C. Swoet of Benton Harbor. As the young couple had rented furnished apartments in Chicago, they had no use for the range and Mr. Sparks hearing of the possibility of securing the range, went to Benton Harbor and closed the deal.

Fire at Coloma. The main portion of Coloma was destroyed by fire at 2:30 o'clock last Wednesday night. P. C. Wimer's box factory and office, the opera house, steam laundry, the residence of S. Morgan, and other buildings were burned, and several other houses and stores were badly damaged. The loss is \$25,000 with \$15,000 insurance.

The fire started in the boiler-room of the box factory, and is believed to be of incendiary origin, because the ropes of the chutes and at the hose-hoses were found tied. Flames spread rapidly, and the citizens had no facilities for fire. Assistance was asked from Benton Harbor, but the department was unable to get there.

County School Notes.

A regular teachers' examination for Second and Third grade certificates will be held in Niles, Oct. 20 and 21.

A joint reading circle will be held in Niles, Oct. 22.

Joint township teachers' and patrons institutes will be held at Eau Claire, Nov. 6, at Coloma and Baroda, Nov. 12; Nov. 19, at Galien; Nov. 26, at Howe school house; Dec. 3, at Berrien Centre; Dec. 10, at Pearl Grange Hall; Dec. 10, at Hollywood; Dec. 19, at Three Oaks.

At a recent meeting the Baroda district decided to finish a room in the second story of their school building and employ a third teacher, for the remainder of the year.

The Drew district, Chikming, recently purchased a five-acre tract for a school site, and will move the present building back and build a large addition, and in the future employ two teachers. The long drawn-out troubles of this district thus ends, and a new school era begins.

The Sugratan district, Watervliet, has changed its school site and will build a new house in the spring.

Messrs. Stevens and Benson, present school examiners were recently granted state certificates by the State Board of education.

Coloma, Galien, Berrien Springs, Buchanan and New Buffalo start in this year with revised courses of study.

Lafayette Day in School.

October 20, the anniversary of the Surrender of Cornwallis at Yorktown has been selected for the celebration of the National Peace Jubilee, and will also be known as Lafayette Day.

It is proposed that the United States dedicate a monument to General Lafayette in Paris, July 4, 1900, United States Day at the Paris Exposition. The school children of America are asked to raise the necessary funds to build this monument. Both of these celebrations are of a patriotic character—one to celebrate the heroic conduct of officers and men of the present day, and the other to pay a fitting tribute to one who rendered aid to our country in its greatest peril.

The schools of the county should have suitable exercises on this day, charge a small admission fee or allow pupils to solicit from parents or acquaintances amounts ranging from one cent to ten. Teachers may then forward the amount with names of donors and schools to Hon. Chas.

G. Dawes, Comptroller of the currency, Washington, D. C. The Government of the United States has sanctioned this movement.

We hope that the teachers of every school in the county will have their scholars take part in these patriotic exercises, at least send a few cents for the monument fund, and thus have their pupils feel that they have an interest in this tribute to the honored Lafayette.

Deafness Can't Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken and this tube restored to its normal condition, hearing is destroyed, for ever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

MOSQUITO COMMISSIONER.

is the Title of a New Official with Extraordinary Powers, in Mexico.

The following from the Venezuelan Herald will be of interest to Venezuelans:

"The Mexican Central Railway company is engaged in a new experiment, which, if it is all that is claimed for it, will be of inestimable value to the residents of this city. To show how earnest they are in the matter, they have created a new office, that of mosquito commissioner, and the portfolio was awarded to Capt. George C. Sperry, superintendent of telegraphs for the company.

Experiments in different parts of the United States, and in New Jersey, in particular, have demonstrated the fact that the extermination of the mosquito can be successfully accomplished."

An exchange, in discussing the matter, says:

"Scientific investigation has disclosed the fact that a few grains of permanganate of potash will destroy all the embryos of mosquitoes in a very large area of mosquito swamps. It costs only one acre all the mosquitoes can be killed off for a space of 30 days, and as the breeding time is but two months, four cents will assure protection for the entire year. This places it within the possibility of every individual citizen, and to entirely rid itself of a great nuisance."

April and May are the two months in which the mosquito breeds. They are purely local in their habits, and do not migrate, as some suppose, and they seldom move more than a hundred feet from the place of their birth. Hence to exterminate the breed in a certain locality would rid that locality of the pest for that season at least, and the method of extermination is so inexpensive that an entire community may be rid of them at a very small expense.

MOTOR VEHICLES.

There is One Style Which is Intended for Gentlemen with Bilibious Tendencies.

A recent parade of about 100 motor cars in London exhibited all the latest and best devices in the line of horseless vehicles, and many new designs brought over from the continent were seen for the first time on English roads, reports the Baltimore Sun.

Lighter modes of construction were especially noticeable, and some of the turnouts stand comparison with first-class victrolas and gramophones. One car in particular, which has earned for itself the sobriquet of the "drunkard's car," by reason of its adaptation for alcoholics, attracted not a little attention. It is steered by a hand lever, which is kept slightly pressed down when running, but if the pressure is relieved or the handle is turned in wide and erratic fashion it runs off the pressing pin and the motor automatically stops.

The motor bicycle was also represented in the procession—a neat little machine, hardly distinguishable from the ordinary safety bicycle, except by the addition of a tiny petroleum engine attached to the handle bars, which is joined up by an endless band to the front wheel, so that it is both a front and a rear drive. In ordinary use the pedals can be used as bicycle rests, but the petroleum can be switched off and the machine driven by pedal and chain the ordinary way at the rider's pleasure, and the motive power restored when a steep hill has to be overcome. Complete, this motor bicycle weighs about 65 pounds.

AN UNUSED TYPE

Golden-Gray Eyes Have Been Neglected by Modern Novelists and Poets.

I might like Ossa upon Pelion in the way of descriptions of gray eyes culled from fiction. There is, however, one type of gray eyes whose appearance in fiction I have not yet noted, says Nina B. Hien in "Lippincott's."

We have had gray eyes which resembled nothing so much as moss agates; sea-gray eyes are not uncommon. Amelie Rives has bestowed upon Iva, in "The Witness of the Sun," a pair of gray eyes which resembled amethysts," while Mr. Paul Leplester Ford has recently introduced us to a pair of slate-colored eyes.

But, at the present writing, I have yet to meet with the golden-gray eyes in fiction. They are to be found, however, in nature, the most luminous of all eyes, I think, the iris about the edge a soft old-gold or golden brown, gradually melting toward the pupil into a warm gray. The lovely color I have seen in the eyes of a dog and of a child—the eyes of the dog wistful, appealing, pathetic with unutterable things, the child's speaking of a prison house, and splendid with the light that never was on sea or land.

To the novelist desiring something new in eyes, I would respectfully recommend the golden-gray.

A SINGULAR FACT. Chlroyant Examinations Free. The first and most important thing for the proper understanding of and rational treatment of chronic or lingering disease of any kind, is its thorough examinations and true diagnosis. You can secure this with a full explanation of the cause, nature and extent of your disorder free of charge by enclosing a lock of hair, with name and age, to Dr. E. F. Butterfield, Syracuse, N. Y. Sept. 1-10-100

Keep the stomach in good order with Drake's Dyspepsia Cure and Nerve Restorer and you need not fear disease. The reason why this remedy is unailing in the treatment of stomach and nerve troubles is because it is designed for the peculiar troubles only, being a combined treatment. A great mistake is made by persons thus afflicted in neglecting to treat themselves at this season of the year, thus the advantages of summer are neglected, because through the docility of the stomach they are led to believe themselves free, until the inclemency of winter deprives them of proper exercise, together with a change of diet, when they find themselves worse than they were the preceding year. Drake's Dyspepsia Cure and Nerve Restorer is prepared in tablet form, is pleasant to take, and is agreeable to the most delicate stomach. Any one suffering from Indigestion, Nervous Dyspepsia, Sour Stomach, Headache, Acidty, Gases, Belching, flatulency, and other troubles, can get a quick relief, but a radical cure.
