> * * * FOR CONGRESS.

Our remarks in another column about the necessity of seeing that every Republican vote is polled for the Legislative candidates, applies with equal force to the candidate for Congress from this District, the Hou, E. L. Hamilton. Desperate efforts will be made by our Democratic friends to secure control of one branch, at least; of Congress, and every Republican should be on the alert to see that Mr. Hamilton's ma jority is a big one, and effectuall settle the question as to the Republicans of this District. Mr. Hamilton

> * * * THE LEGISLATIVE TICKET.

back by your vote.

has made a good record. Send him

The Republican voters of this county should not fail to look after the interests of the candidate on the Legislative ticket, for this year is an important one in this respect in our state. At the next Legislative session a United States Senator is to be selected, and a vote against any candidate on the Republican Legistative ticket on election day will mean a States Senator. See to it than that you cast your vote for Edwin A. Blakeslee for Senator, and Joel H. Gillette for Representative. As Republicans, we cannot afford to turn back on the splendid record of our party in the last 19 months, and a vote against either of these candidates would be a vote against our party record. Be sure and make no

> * * * COUNTY SEAT NEWS.

Burzlaff, Herman Biastoch, Chas. Luff and Frank Biastoch of Bainbridge; Albert Fetke, Gustav Fetke and Chas Fetke of Royalton, all natives of Germany, and Gotleib Bank of Sodus, a native of Russia, were naturalized last week Wednesday, and Emanuel Gysel of Benton Harbol, a native of Netherlands, and Wm. McEwan of St. Joseph, a native of Scotland, and John Kreiger of Lake township, and of Germany, were also naturalized.

Carl Gersonde of St. Joseph, natives Lina M. Whitney of Coloma by her attorney, A. P. Cady, has filed a bill of divorce from her husband, Harry D. Whitney, on the ground of

Friday night Judge Coolidge pronounced four sentences: Rose O'Donnel, one of the "trousers" shoplifters, was sentenced to Jackson for two years and nine months, but she will be transferred to the state house of correction at Detroit; Thomas Campbell, the other guilty shoplifter, was sentenced to the state reformatory at Ionia for two years and nine months; Joseph A. Watts, one of the St. Joseph check forgers, was sentenced to two years at Ionia; Martin Wright, also connected with the St. Joseph forgery, was sentenced to Ionia for a year and a half. Thus a quartette of criminals has been disposed of, and

Sheriff Ferguson took the four to their respective destination on Satur-The trial of the case of the People vs Charles L. Bainton, for accepting a bribe, was resumed Friday mornvote against a Republican United | ing. Mr. Will Bainton, a brother of the defendent, was on the stand and gave some interesting testimony. He said William Burke, the saloon keeper, had mentioned the matter of his liquor bond accepted at the Council meeting soon to be held, and Burke wondered if Ald. Chas. Bainton would vote for the bonds for money. When the witness asked his brother about the matter, he replied, "All the money in the state of Michigan would not buy that vote." Mr. Will Bainton also testified that Burke made this statement: "If the vote goes right, I will give you \$100. Further than this the witness refused to explain how this might make the vote go right. The promise of \$100 was marked on a post. Later Burke gave a note payable to Bainton Bros, which Mr. Will Bainton took to the First National Bank of Buchanan, where it was discounted and placed to the account of Bainton Bros. On the day book, however, it is entered

as Will Bainton's account. "Person-

al deal" is marked in lead pencil at

this account. The prosecution is attempting to prove that these points EDITOR RECORD:

are to cover up. The scope of Mr. Will Bainton's testimony was to the effect that concerning the vote, it was distinctly understood between Wm. Burke that the defendant, Chas. L. Bainton, should know nothing about the transaction. Wm. Bainton also testifies, that his brother Charles knew nothing of the note until the spring of 1897, after Burke had openly stated on the streets of Buchanan that he had bribed Chas. Bainton the year before, when, upon inquiry the defendant learned that such a note had been given. The defendant, Chas. L. Baniton, took the stand and told of the conversation testified to by Burke on May 20. 1896, wherein he stated that Burke offered him \$100 for his vote. The witness told him that he could not buy his vote. At this time the liquor bond of Frank Barr was pending for approval befere the Council. On May 22 Chas. Bainton voted against Barr's bond. The witness testified that he had no more conversation with Burke about the matter until Burke, a year afterward claimed that he had bribed bribed him. On Juna 15, 1896 the bond of B. F. Case was presented for approval and Ald. Bainton voted for it. Mr. Bainton testified that between the time the bond of F. Barr was rejected and that of Case was approved he had no convarsation with Wm. Burke, and it was a great surprise to him to know that his brother had accepted the note of \$100. Prosecuting Attorney Valentine and A. A. Worthington made their final pleas on Saturday, and on Monday Attorney V. M. Gore and Mr. Valentine concluded their pleas, after which the jury retired, at 4:15 o'clock p. m., in charge of Deputy Sheriff Tenant. After remaining out four and one-half hours, the jury returned at 8:45 o'clock in the evening with the verdict of not guilty, and Charles L. Bainton is a free man. Mr. Bainton and his friends were overwhelmed with joy and congratulations were in order. An affecting incident occurred after the verdict had been announced, when Judge Coolidge stepped up to Mr. Bainton and putting his arm around him, said to him: "My boy, I am glad you | have gotten out of this so nicely, for I never believed you were guilty of

such a charge." The case of Willis Cooper vs. J. V Bowersox, Charles A. Bowersox, Ira A. Smith and Press Publishing & Stereotyping Company, asking for a receiver and injunction and making other complaints against the management of the St. Joseph Evening Press, has been dismissed.

Rosa Scott, 20, Hagar; Dora Robinson,

On Sunday last Chicago began to celebrate the Peace Jubilee. It was the theme from nearly every pulpit, accompanied with elaborate musical services and a large amount was raised to assist the Army and Navy League in its laudable work of caring for the distressed, caused by enlistment during our recent war with Spain. In the evening union services were held at the Auditorium, Studebaker Hall and First Methodist Episcopal church, full military bands being in attendance and soloists with choirs numbering about three hundred at each place, composed of various choral unions and the choirs from the churches of this city. The speakers appeared at each place of meeting, and delivered an address of twenty minutes. Seldom have such representative men appeared on the same platform and addressed an andience. The Rev. Thomas P. Hodnett D. D. of the Roman Catholic church, who is one of her leading orators, Rabbi Emil G. Hirsch Ph. G. whose name is familiar to every reader of the secular press and an exnonent of advanced Judaism, Booker r. Washington, the coming "Moses" of the colored race, who so electrified the country, at the opening of the Cotton Exposition at Atlanta four years ago and who is destined to do more to solve the black problem than any negro now living, that is known to the public at large, Rev. John Henry Barrows D. D. whose work is world wide, who formulated the idea of the Congress of Religions at the World's Fair, bringing together for the first time all known religions, who is fresh from a tour of over a year in the Orient and the lecture field in this country, these four men spoke as one, that God directed every hand that was raised to relieve distress, to assist humanity, and to secure to man his liberty, Monday was given to reception of guests, with informal gatherings. In the evening a bscycle parade, which was postponed on account of the rain. Friday morning the Jubilee of Peace was opened at the Auditorium tinguished being present. If any person thinks that our prssident is not loved by his countrymen, regardless of political affiliations, he should have been present at this meeting, for it was not a convention, nor mass meeting, it was an assembly of Americans filled with thanksgiving that peace once more reigned o'er our fair land. How much was accomplished euch an array of leaders of thought, men representing sdeas so varied. Yet they spoke as patriots only can, of the grandeur of our country, the and the indomitable courage that made the victories of Manilla and Santiago possible. The Rev, Frank

W. Gunsaulus was chaplain, Charles Truax introduced Hon. Geo. R. Peck who was the chairman of the meeting and who delivered a masterful address. Mayor Carter H. Harrison made a short trial trip yesterday made an address of welcome. Arch morning against a strong north wind bishop Ireland of St. Paul, who is of about 70 feet, skimming along the termed the fighting priest and also beach of the lake like a bird, but not much above the surface: - Light ed the silver tongued orator of the Roman Catholic church. Judge Emory S. Peer of Georgia, who served under Gen. Joe Wheeler during the War of the Rebellion and who is among the foremost orators of the South. President McKinley delivered an andress of few words at the conclusion. . This

Buchanan, Mich. INDIGESTION--DYSPEPSIA.

Results of the New Cure for Indigestion and Nervous Dyspepsia.

Drake's Dyspepsia Cure and Nerve Restorer, a well-spring of life, is pouring into thousands of homes today; stubborn cases that have baffled all other remedies yield to the efficacy manent cures are the inevitable results from its use. For sale by W. F. Runner, Buch-

A book on Stomach and Nerve troubles, their symptoms and cure, will be given free for the asking at above mentioned drug store. Read following statement:-"To Whom It May Concern; To those suffering from stomach and nerve troubles I wish to Recommend Drake's Dyspepsia Cure and Nerve Restorer. About 20 years ago I be-

gan to be troubled with my stomach. It gradually grew worse, even under treatment until it became difficult for me to eat any kind of food with comfort. For the past five years I have been able to retain very little food of the simplest nature long enough to digest it. Seldom during this time have I enjoyed sleep throughout the entire night and usually have been obliged to leave my bed in consequence of my stomach and nerve troubles. My bowels were very much relaxed, said to be due to inflammation of the membrane of the intestines. I was treated by physicians and tried nearly every known recommended for my troubles with no lasting benefit, and usually not temporary relief. On the 5th day of January '98, I purchased a package of Drake's Dyspepsia Cure and Nerve Restorer and I wish every dyspeptic knew how much I have improved from its use. My food does not distress me as it did and I have no trouble in retaining it. I sleep well and feel refreshed therefrom, and although I have used only one package of the medicine I can safely say that

I am 75 per cent better than I have been during the past 20 years." Yours respectfully, MRS. GIDEON STODDARD.

President McKinley with other disfirm which deals in bends, at a prein so brief a period of time! With spirit that controls true citizenship

afternoon five meetings were held with such men as Generals Shafter, Miles, Wheeler, Duffield and Chaffee, with many distinguished Judges, Theologians, Educators and Civilians. All of these speakers were uniten in their zeal for country, praising the valor of our men at sea and on land and rejoicing that war was no more, pointing out the dangers that lie befors us and those now passed. The account of General W. F. Shafter at the First Armory of the plan of campaign is the first full one that has been given for it was impossible to do so until many of the secret orders given were placed before the commission now in session on the conduct of the war by Secretary of War Alger, he being at liberty to now use them publicly. In a plain, honest and careful manner the story of this marvelous campaign. How it How loyal the cheers and how the people flocked to grasp his hand! It has been the writer's privilege to listen to many of our most honored men, in nearly all parts of our country but never in such a brief period of time, so much to consider destiny. This city is aglow with patriotic pride. With thousands of electric lights, festooned across its

sonic hall on Wednesday, Nov. 2, 1898. G. W. Matron of Michigan will be present. MAY F. STRYKER, W. M. * * *

DON'T FORGET TO VOTE.

Every Republican should be thoroughly aroused to the necessity of to vote, and in seeing that his neighbors do likewise. This campaign is cause anyone to relax a single effort, | a Berrien county official. - Benton but work all the harder.

Complimentary, and True. Congressman E. L. Hamilton was in the city Wednesday, en route to Volinia, where he spoke in the evening to a crowded house. Mr. Hamilton is pursuing a dignified, courteous course in this campaign, and daily making new friends. He is advocating those measures that insure the welfare of a commonwealth when fostered and encouraged by its lawmakers, and his record in congress shows him to be a man capable and competent to trust with the affairs of the people. To the soldier seeking information, advice or assistance from the pension department Mr. Hamilton has been especially considerate and faithful, promptly answering all questions, generously giving his time, and in most cases being successful in securing the help asked. As a citizen, as a business man, orator, diplomat and counselor he has been tried and worthily filled the positions

that came to him .- Dowagiac Repub

WILL SPEAK HERE, NOV. 4.

hear him.

For Prosecuting Attorney. There is no good reason why the vote given to reelect Geo. M. Valentine as prosecuting attorney should not be as large any cast in Berrien County, Nov. 8; He has made an ideal officer-faithful, persistent and industrious, devoted to his work day and night and look-

tine. His success should be the recognition of work well done and du-

ward. There is not the slightest reason why any Republican should scratch the name of Mr. Valentine, even admitting that any such intention exists. His competitor may be the very prince of "good fellows," but he cannot exceed Mr. Valentine either in courtesy or geniality. He may be and is an excellent lawyer, but there is none more studious, or whose legal judgement is to be trusted, or whose ripe experience in law better equips him for this place than Geo. M. Valentine. To reelect the latter would

public servant. We all know Mr. Valentine, and we have had ample opportunity to judge bonding every energy in getting out of his industry and consciettious forcefuliness in this office of prosecuting attorney; let us keep him there an "off year", but that should not | by the biggest majority ever cast for

R. G. Dun & Co.'s Weekly says:

HON. V. M. GORE

The RECORD is pleased to announce that Hon, Victor M. Gore will speak at Rough's opera house on Friday evening of next week, Nov. 4. Remember this date and arrange to

ing after every detail as efficiently

and intelligently as any predecessor who ever held the office. It is natural to expect the whole class of law-breakers and their abettors and sympathizers, to be "down" on Mr. Valentine, for he has gone at them with characteristic vigor throughout the whole of his term, It is expected they will contribute not only influence but money to compass his defeat, and that no tale of or vindictiveness will be to monstrous for them to utter and circulate; but for this very reason every lover of law and justice, every one who wishes to see good order and right-living enforced should stand by Mr. Valen-

ties fearlessly met without fear of personal consequence or hope of re-

be no disparagement of his competitor, but the just dues of a faithful

Harbor Palladium.

With growing foreign demand for American products exchange is influenced mainly by political uncertainties aboard. While Europe waits for the outcome between England and France about the upper Nile, the financiers of all European countries are frying to force upon each other the burden of providing cash for the enormous demands of the United States. England has so managed as to make France and Germany send most of the gold, and the resulting war of exchanges between foreign nations checks for the moment the movement of gold this way. Yet these and all other causes do not so for hinder business as to prevent an excess over the most prosperous of previous years. The exchange through all clearing houses for the past week have been .6 per cent larger than last year, and 1.7 per cent larger than in 1892, but outside New

York for the week transactions were

smaller than in 1892.

POULTRY COLUMN Conducted by R. F. Greene.

Our readers are invited to send in any que for information on this subject, and any co nications bearing on poultry will be receive leasure and will be fully discussed in

The Poultry Yard.

WINTER QUARTERS. It will cost but little to paper the outer walls of a poultry house with waterproof paper. It is better to place the paper on the outside as it then protects the boards from becoming wet. One plan, however, is to strip the boards on the outside and paper the house inside. This can be done with any ordinary paper, wrapping paper being excellent, two thicknesses being applied, and it can be removed in summer, as it will then afford a harboring place for lice. The better plan, however, is to procure paper, which may be painted and will last for years. SELLING THE PRODUCE.

Before selling eggs or poultry by tion. Surely it does seem as though some restrictions should govern this | shipping to a distance, to be handled by a commission merchant, seek the The philanthropic work which has | nearest town and make known to buyers the fact that you have the best quality of goods, but be sure and sell only such as is prime and firstclass. It is a well-known principle in trade that no matter how low prices may be there are always some who are willing to pay an extra price for the best that the market contains. COLD STORAGE EGGS.

Cold storage enables those who handle large numbers of eggs to hold them until prices are higher, which is regarded unfavorable by farmers storage eggs in preference to those

CAPONIZING.

newly laid.

are ten weeks old. The profits therefrom depend on the prices to be obtained for chicks, as it may be better to sell the young stock as broilers than to keep the birds a year. It requires room, time, and labor to raise capons, but they pay when the business is in the hands of an experienced

Every farmer knows that when there are several days of very cold As an example of the success of this weather the hens stop laying, while work, the following cases are given: during warm weather they all seem One day a woman appeared with a | to begin to lay at once. This fact is one which is a problem to some, as little boy presented a distressing it is not always due to the kind of sight. His weight could not have food or the quantity that the eggs are increased or reduced in number. When the quarters are warm and comfortable in winter the hens will not be so quickly affected by any changes in the weather, but there is no flock, desperation the poor mother begged | no matter how well managed, that that something might done for the | does not fall off in eggs to a certain extent when the weather is severely cold. This is probably the instinct of the wild hen, though only partially so, which prompts her to avoid bringing forth her young under extremely unfavorable conditions, but it is safe to claim that as the hen will work under summer conditions the best mode of securing eggs is to have summer conditions in the poultry

COMPOSITION OF AN EGG. An egg is complete as a food because it contains all the elements essential to the embryo chick, the flesh, fat, bone, and internal organs being stored within the egg before it is incubated. The three principal parts of an egg are shell, yolk, and white. The shell is mostly carbonate of lime, being almost entirely free from moisture, there being, in 100 parts of shell, 91 parts of carbonate of lime, 6 parts phosphate of lime, and three parts of nitrogenous organic matter. In 100 parts of white there are 84.8 parts water, 12 of albumen, 2 of fat, sugar, and membranes, and 1.2 of mineral matter. The yolk contains, in 100 parts, of water 51.5 parts, casein and albumen 15, oil and fat 30.1, pigments, extractives, etc., 2.2, and mineral matter 1.5. The mineral matter consists of lime, magnesia, potash, salt, sulphur, etc. Eight eggs should weigh one pound (on the average), though some eggs are heavier or

lighter than others. P. H. JACOBS.

FREDERICK A. PLATT,

His collegiate education has been supbest literature of our language.

uous and systematic reading of the ucational matters. He was for several years a teacher in the school for the deaf in Flint, and was later principal of the same. He has been for several years one of the most useful members of the Flint Board of Education where his influence for correct scholarship has been pronounced and universally recognized. He is peculiarly well fitted to perform the duties of a mem-ber of the State Board of Education, and confers credit on the State by accepting the office, which should always be filled by a man of recognized scholarship. The only position politically he has ever filled was that of City Treasurer of Flint, to which he was elected twice without opposition.

The guns taken from Cervera's sun-ken ships are said to be worth half a million dollars. They might be worth tall times that in a scrimmage if they had Yankee gunners behind them.

OUR WAR GOVERNOR.

of the Unique Figures in American

of the most attractive personages in American public life to-day. This is not due to the fact that he is a Republican or that he is governor of the great State of Michigan so much as it is to the firm position he has taken in his public life, in favor of reforms in the interest of the masses, and against the selfishness of large corporate interests and combinations. He comes from the ranks of the working men, the common people, and knows from experience and contact the hardships endured by the American toiler in his struggle for existence. When he strikes a blow at the various forms of oppression as he finds them, he touches a responsive and sympathetic chord in the breast of every honest, liberty-loving toiler in

Hazen S. Pingree was born in Denmark, Maine, August 30, 1840, where he pursued the course incident to the life of a farmer boy until his 14th year when he secured employment in a cotton mill at Saco, Maine, where he remained four years when he removed to Hopkinton, Mass., and took up the trade of a shoemaker a: . . . llowed his vocation until, when, in 1562, on August 1, he enlisted in Co. F., 1st Massachusetts Heavy Artillery, and for three years followed the fortunes of battling for principles of equality and justice; participating in many of the fiercest battles of the war, enduring for six months the hardships and miseries of Andersonville and Salisbury as a prisoner, was finally exchanged and rejoined his regiment in front of Petersburg and was mustered out in August, 1865, having served his country with honor during the most

trying years of her history. After the war, Mr. Pingree came to Detroit and secured employment in the shoe factory of H. P. Baldwin & Co. and with the knowledge acquired in this line in Massachusetts was enabled to start in business for himself with C. H. Smith as partner in 1866. To-day the firm of Pingree & Smith is known wherever shoe leather is worn, and from this small beginning they now furnish employment for seven hundred persons with an output of nearly a million of dollars per year.

Mr. Pingree's varied life as farmer, soldier, shoemaker and manager of a large establishment furnished him the rugged discipline so necessary to en able him to meet and combat successfully the great questions of government with which he is now thrown in contact, and illustrates the possibili ties of American boyhood and Amer-

ican opportunities. Twelve years ago Mr. Pingree was unknown in political circles, but was an active, enterprising business man enjoying the respect and confidence of all who knew him. Knowing he possessed those heroic and sterling qualities which make men useful in times of great need, his friends persuaded him to forsake the ways of civil life rescuing the City of Detroit from a corrupt and non-progressive manage for so many years.

The marked ability with which he managed the affairs of the city as mayor attracted the attention of municipal reformers throughout the length and breadth of the land, and after serving the city as its chief executive for seven years he was elected governor of Michigan in 1896, and renominated for a second term by the troit on September 21st last. To-day he is in the midst of an active cam paign, battling with his usual force and earnestness for the principles of equality and justice, with which his name is so closely allied the country

HON, ORRIN W. ROBINSON,

Next Lieutenant-Governor and President Of colonial stock, descended from revolutionary heroes, reared amid the rugged hills of New England, in whose schools he received his education, Orrin W. Robinson was by heritage and environment fitted for a successful career in the hardy clime of the Upper Peninsula of Michigan or to compete for wealth and position with the venturesome spirits ever ready to brave danger and hardship in the develop ment of new countries. He enjoyed the advantages of the district schools famous. When 19 years of age he moved to Ontonagon, Mich., for two years. He then made a trip to Green Bay, Wis., going overland on snowshoes. He was two weeks in making the journey. He then made a trip further west and remained for a time in Iowa. In 1862, he returned to Hancock, Mich., where he engaged as shipping clerk for the Quincy Mill Com-pany, which position he filled twelve years. In 1873 he organized the Sturgeon River Lumber Company and built mills at Hancock which were later re moved to Chassell in the same coun-

ty; and has been the company's super-Mr. Robinson has served a term as deputy collector of customs, superintendent of the poor for Houghton county, and in 1892 he was a delegate to the National Republican convengan House of Representatives in 1895 and has just completed a term in the State Senate. During his term in the House he was an ardent advocate of lower passenger fares and so ably advocated his bill to reduce the fares in the upper peninsula that it passed the House, but was defeated in the Senate. During his term in the Senate he was again one of the foremost advocates of reduced fares. His work as a legislator indicates a careful, earnest worker who advocates only such bills as he believes are for the public good. Mr. Robinson has the proud satisfaction of saying that he never voted anything but the Republican ticket, straight, since he attained his majority. He has also been found every campaign in the ranks of the workers of the Grand Cld Party, ever ready to do all possible to forward its success and its principles. For years he was chairman of the organization in his county when there were but a handful of adherents with him, Mr. Robinson has always been an enthusiastic supporter of the reform measures advocated by Governor Pingree, and will do all possible to assist in rearranging the taxation system of the State so it shall rest equally on all property alike. As presiding officer of the State Senate he will be able to aid in this great work very materially. We anticipate for Mr. Robinson a very suc-

Some of the Madrid papers say that "Spain will detend her rights in the "Allippines with the greatest energy." They neglect to say, however, whether he people whom Spain will select to the defending intend to swim over try to make the trib on a raft.

Deafness Can't Be Cured By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. this tube gets inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely clos ed deafness is the result, and unless the inflammation can be taken and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catairh, which is nothing but an inflamed condition of the mucous

surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

FARM AND DAIRY Conducted by Percy G. Skirven.

Our readers are invited to send in any questions for information on this subject, and any commu-lications bearing on dairying will be received with pleasure and will be fully discussed in this

The following article which we copy from Hoard's Dairyman, will afford interesting reading alike to farmers and townsmen, setting forth, as it does, so clearly the necessity of cleanliness in handling of milk in delivering from dairies to the cities and towns, therefore avoiding, as far as possible, the cause and spread of disease. It is so essential that those who are in the business of producing and selling in towns should be conversant with all the scientific as well as practical parts of the handling of milk, that it does seem as though the state would put such persons through a course of examinations to find how nearly they come to being fit persons to be entrusted with the health of a certain portion of the towns popula-

class of tradesmen: been carried on in New York City since 1893, by Mr. Nathan Straus, deserves a wider notice than it has had up to the present time. Mr. Straus had noticed the greatly increased death rate among the children during the summer months, and becoming convinced that it was largely due to the poor milk supply, concluded that milk properly treated would do much to strengthen the children against the dry heat of the summer months in New York City.

The death rate among the children is often increased in the summer months, and medical men have not hesitated to claim that by far the larger part of this increase was due to the poor quality of the milk sup-

Upon request of Mr. Straus, the New York Board of Health granted him the use of a pier in the heart of the most populous district in the world. Here a laboratory was built with all the necessary appliances for the scientific handling of milk, and with a competent expert in ditectics at the head of it, the work of saving children's lives was begun. The results were seen at once, and the difference between the stale city milk, almost poisonous, from long keeping and the presence of bacteria, and the clean pasteurized milk furnished by the laboratory, was soon evident. As the summer passed, it became certain that in this method of handling milk was found the solution of a question that had baffled the doctors.

two-vear-old child in her arms. The been more than that of a three-months' old infant. His face was pinched and drawn, his blue eves were glazed. his tiny hands transparent. The shadow of death lay upon him. In child. The doctor; had told her the baby had catarrh of the stomach and that the case was hopeless. A bottle of the modified milk was heated and Mr. Kinkead undertook to feed the child. The little fellow drank the milk almost greedily and his stomach retained it. The mother came again and again. Today her baby is

a strapping boy. An English woman in fairly good circumstances, wheeled a perambulator onto the pier one hot day and showed Mr. Straus' people twins barely alive. They had been ill with summer complaint so long that they were worn to skin and bone. They were fed on the modified milk and were well in a few days. Subsequently one of the twins fell ill and the doctor dispared of saving its life. The mother sought the pier once

more and in the modified milk found the remedy for the baby's ills. During the first summer over 34,-000 bottles of milk were distributed, and the demand was so great, that larger quarters were required. The second year 811,891 bottles were put

up, and 1897 the figures were 647,728. The result of this work on the infant mortality of the city is well shown by the reports of the Department of Health. When the work began in 1893, the death rate among children under five years of age was 89.42 per thousand. Every year, since the adoption of the Straus methods, has shown a decided reduction in the death rate. until in 1897 it was 68 in a thousand, and the rate for the year 1898 is estimated by re-

ports to show a death rate of a little The statistics show a reduction in the death rate of children under one year of 48 points, under two years 46 points and under five years 23

There is not the slightest doubt that almost all of the above reduction in the death rate of infants is due to the improvement in the milk consumed. All of the milk has been sold at exactly cost price, besides which 38,400 coupons, each calling for five bottles of milk, have been giving to individuals and charitable institutions. The benefit of such work cannot be estimated in dollars and cents. A human life cannot be so estimated, and it is evident that Mr. Straus is doing a work that cannot help but have a far reaching influence on the moral condition, as well as the health, of the poorer

classes of New York City,

The Fourteenth Annual Report of the Bureau of Animal Industry contains a comprehensive illustrated article on "Sheep scab; Its nature and treatment," by Dr. D. E. Salmon and Dr. Ch. Wardell Stiles. The article gives a brief history of the sheep scab. as well as a full description of the four kinds. All the methods of treatment are considered, including the ment are considered, including the formulas of the different kinds of cips in use. The various dipping plants are fully illustrated and described.

The milk house of Mr. R. S. Tambling burned on Sunday afternoon. The fire caught from the boiler in the room adjoining the aerator room. The aerator was saved, but the building was burned. Lcss, about \$100.

Last Thursday was 79th birthday of Rev. J. W. Lister, and in honor of the occasion he was given a dinner at the home Mr. and Mrs. Harry Binns. About twenty guests were present and an enjoyable time was had by all present.

The home of Mr. and Mrs. John Griswold was the scene of a pleasant event on Tuesday morning. The occasion was the marriage of their daughter, Miss Lillie, to Mr. Wm. H. File. The ceremony took place at eight o'clock, and was performed by Rev. Frank W. Mutchler. Mr. and Mrs. File left on the 9:47 Michi-

gan Central train, for a visit with

relatives and friends at South Bend.

John Searls lost a valuable mare from the bursting of a blood vessel and bleeding to death. Last Friday Mr. Searls and Frank Beck tried the speed of their roadsters, and when they reached town Mr. Searls discovered his mare was suffering from hemorrhage of the lungs, blood flowing freely from the month. The mare was taken to the Klondyke livery barn where she died on Saturday

> *** * *** The County S. S. Convention.

The twentieth annual convention of the Berrien County Sunday School Association is to be held in Three Oaks on Nov. 9 and 10, commencing Wednesday evening and closing with the Thursday evening session.

This association was organized in Benton Harbor twenty years ago, has held unnual conventions all these years, which have not only been largely attended, but have been full of interest for those who were interested in Sunday school work. Many of the workers who were present at the organization, and attended the meetings of those early years are still living. It is intended that the convention at Three Oaks shall be a reunion of the older Sunday school workers of the county as well as a rallying of the new and younger members. Many of the prominent workers of the county have already signified their intention of being present. It is earnestly hoped that every Sunday school in the county

done in Berrien county, both by Commissioner Clarke and the schools under his charge.

The recent manual published by Commissioner Clarke for this county is full of valuable information, part of which, in substance, these columns have furnished from time to time. The last paragraph in the book, under the head of "Teachers' Examinations and Certificates", contains this bit of valuable informa-

tion: Teachers who fail as instructors or disciplinarians, who are careless and negligent in regard to following the course of study, and report as directed to the commissioner, who never attend teachers' meetings, who are doing no professional reading or taking no educational journal must not expect a high mark in theory and art of teaching. In fact, a total neglect of these points, no matter what the scholarship may be, will deprive

SANTIAGO SCHOOLS. tional move in Santiago. The schools were opened Oct. 1, and compulsary attendance was the feature of this educational start The Scientific American of last week says: "English will be taught and thirty teachers, at a salary of \$60 a month, have been engaged, a superintendant, at \$125 a month, has also been appointed. Much gratification has been expresed over the law-abiding nature Batten, Goldie Edgin were perfect in of the people in the province, as there has been no murder since the occupation of the Americans, and the few crimes which have been committed are all of a petty nature. The city of Santiago is being put in an excellent sanitary condition".

BUCHANAN SCHOOLS. The boys and girls in our schools will be the men and women of the future, the immortals of eternity. Because of what they will be, the re- patronage for the fall orders, and is sponsibility of the parent and teach- a general headquarters for good er is very great. The affections of the | goods at moderate prices.

parents, naturally centering in the welfare of their children, leads to a desire that they, the objects of their dearest thoughts, may receive the best education possible. But no matter how earnestly and presistently the teacher tries to help the pupil, the best results will not be forthcoming unless there is the heartiest cooperation and warmest sympathy between parents, teacher and pupils. As it is impossible for parents to visit the schools frequently, a monthly report will be sent to parents having children in all grades above the Second, that they may know how their children are prospering in each study. It will enable the parent to see how the latest report compares with the previous record, and is intended to be a summary pretaining to the school life of the child. Parents will please examine the standings carefully, sign the card and return it promply by the pupil. The mere fact of signing the card is in no sense endorsing the standing of the pupil. It is only evidence that the parent is aware of the standing of the pupil, The parent is requested to act upon the informations in the report and if the standings are low, please call up-

child and the teacher. Parents of the Buchanan schools are requested to aid in securing compliance with the rules of the school. This is not only necessary for the best interests of others, but ready obedience to proper authority is a lesson which every child should learn. Pupils should not only behave properly, but they should acquire the habit of being punctual, regular in attendance, studious, kind, courteous and neat. They should be taught to think of every action as a moral act, tending to form habits and determining moral character. For the sake of their present and future welfare, kindly help the teacher in efforts to secure these and other desirable ends.

THE STATE'S FINANCES.

G. A. Steele, Michigan's Treasurer, Will

George A. Steele, State Treasurer, was born in St. Johns, this state, in 1862. He acquired his early education in the public schools of that place. In 1878 he went to Minnesota, where he took a position as hookkeeper and manager of an extensive firm of bridge constructors, and later, discharged similar duties for a firm at St. Paul. In 1879 he was engaged in Nevada as paymaster of the Central Railway of that state during its construction. The following year he was paymaster and purchasing agent of the Oregon Construction Company in of r: ilway in that state, and had full charge of the finances of the company, disbursing ten millions of dollars during a period of five years. In 1885 he returned to his native state and be-came interested in banking, mercanmanufacturing industries and real estate. He has been vice-president of the St. Johns National Bank since its organization. He also organized and became president of the Ithaca Savings Bank. In 1895 he entered a partnership in Detroit under the firm name of Steele, Smith & Company for the purpose of carrying on the business of buying and selling municipal bonds. He has been a member of the Republican State Central Committee for several terms, a member of the State Senate, and has now served two years as State Treasurer to the eminent satisfaction of the entire

which he will be elected by a largely increased majority.

state. His business qualifications and

experience qualify and entitle him to

HOPE OF SPAIN

the November Election. Washington, Oct. 20.-The hope of a Democrat victory at the polls in No vemler has given the Madrid government insidiration to delay negotiations for a treaty of peace. The defeat of the Republicans at the polls will be construed, not only in Madrid, but throughout all Europe, as a popular disapproval of the war. Such a verdict will encourage the Spaniards to look for better terms and lead them to renewed efforts to secure the intervention of "friendly nations." For the purpose of delay the Spanish peace commissioners are vigorously contend-ing that the United States, in the assumption of any control whatever over Cuban affairs, will become responsible for the Cuban debt. Advices from Paris to-day are to the effect that +1-American commissioners have declared that this government will not assume sovereignty in Cuba, but that it will bend its efforts to giving the people of the island a stable inde-pendent government of their own. This plain statement disposes of the Spanish contention and does not leave them a leg to stand on, although the Madrid diplomats still insist that unless the Americans withdraw entirely from the island after Blanco's evacuation the pledge of disinterestedness

cannot be regarded as sincere. This empty claim will serve as an excuse for further argument, and argument :... is delay. Delay means ii intimated in official quarters that a determined effort will be made by the Americans in Paris to oring the Spaniards sharply to terms. No hint is given as to the method which will be adopted to effect this result, but it is very evident that dillydallying for the purpose of delay will not be tolerated. The backbone of the American peace commissioners in Paris has been greatly stiffened by recent messages from the president. Mr. McKinley's tour to the west has brought him in close contact with peo-ple of many sections, and inspired him vith renewed assurances that they will support him in an unyielding stand for the full fruits of the war, and that they will view with impa-tience concessions to demands not based on entire equity.

On Tuesday of this week the Spanish flag, as a sign of government, disappeared forever from Porto Rico. Ouba is to be cleared of the same rubbish by December 1st. The administration is quietly but effectively pushing Spain off this side of the earth. And in these islands within a very few years will be the happy, prosperous homes of thousands of American people. See that your State Senator and your Representative is a Republican and thus do your part toward baying the mass of Michigan equitably required.

The recent threats of outburst of esuvius give timeliness to an article by H. J. W. Dam on "The Mystery of Vesuvius," to appear in the November numder of McClure's Magazine. Mr Dam and the artist C. K. Linson made a recent exploration of the volcano, for McClure's; and the article embraces much new information thus gained. It will be illustrated from special drawings made by Mr. Linson on the

Some Statistics. There are three cities in this county and those three cities have twelve members in the board of supervisors. a supervisor each—enough to control the board and they all have a valuation of \$5,140,270. Those five townships are Chikaming, Hagar, Lincoln,

Then there are six townships with only six members in the board having an assesed valuation of \$5,892,385. Those townships are Berrien, Benton, Bertrand, Buchanan, Niles, and Oronoko. Royal makes the food pure,

SITUATION IS EARNESTLY DISCUSSED.

President Faure Has Been Unable as Yet to Decide Between Ribot and De Frexcinet for the Premiership.

Chicago, Oct. 27, 5 a. m.-A bulletin from Paris declares that the story from London that President Faure had been assassinated is absolutely false.

Situation in Paris. Paris, Oct. 27.-Although there is evidence of suppressed excitement on all sides here, there was no disturbance of public order Wednesday. The police and municipal guards are cut in strong force and they will not permit the crowds to assume dangerous strength. But the situation was engerly discussed by excited groups in

the main streets. President Faure received in audience Senator Loubet, president of the senate, and M. Deschanel, president of the chamber of deputies.

It is the intention of M. Faure to form a new cabinet as rapidly as possible, and the names of MM. Ribot and De Freycinet are the most prominently mentioned in connection with the premiership.

During the afternoon M. Faure consulted with M. Leygues, vice president of the chamber of deputies, who advised the formation of a concentration cabinet, to include among its members MM. Ribot and Dupuy as the principal ministers.

In the lobbies of the chamber of deputies Wednesday the deputies of all shades of opinion expressed the conviction that M. Delcasse should remain at the head of the foreign office, in order to assure the continuity of the Fashoda negotiations.

Ready to Yield Fashoda. Paris, Oct. 27 .- The Soir hears in diplomatic circles that France is prepared to evacuate Fashoda, with the reserva tion that she shall receive some com pensation, to be arranged hereafter. A feeling distinctly more peaceable

regarding the Fasheda affair prevails in Paris. President Faure is taking the crisis quietly and the belief is stronger than it was that M. Brisson fell be cause he wished to fall. It is now rumored that Gen. Chanoine resigned the war office portfolio out of pique at the refusal of the general staff committee to give him command of an army corps. Extraordinary police precautions have been ordered against possible disturbances at the court of cassation to-day when the Dreyfus revision appeal will be heard. Salisbury Cannot Recede.

London, Oct. 27 .- Wednesday evening witnessed a great outpouring of oratory on the Fashoda question Speeches were made at various places. All of the speakers recognized the gravity of the situation, but declared that even at the risk of war it was impossible for Lord Salisbury to recede from his position.

A report was in circulation in the city that the Rothschilds had been informed that France had agreed to evacno information on this subject. The activity in naval preparations continues on both sides of the channel.

UPHOLD SECRET SOCIETIES.

Reports to the National Council of Women Present Their Sociolo-

gical Usefulness. Omaha, Neb., Oct. 27 .- The sociological usefulness of secret societies engaged the attention of the national council of women at its public session Wednesday, reports from the ladies of the Maccabees and the Rathbone Sisters being presented respectively by Mrs. Lillian M. Hollister, of Detroit, president of the former, and Mrs. Jeannette B. S. Neubert, of Kansas City, Kan., president of the latter, both the organizations being identified with the council. The main paper had been prepared by Mrs. Bina M. West, of the Maccabees, but as she is attending a convention of her order in West Virginia, it was read by Mrs. Hollister. There was also an interesting paper from Miss Gertrude Beeks, of Chicago, president of the National Association of Women Stenographers, on the business development of woman in her reaching out in various avocations. The claims of Wimodaughsis were presented by Rev. Anna Shaw. This is a Washington organization which helps women through civil service examinations. Mrs. Minnie J. Snow, of Salt Lake City, told of the work of the Young Ladies' Mutual Improvement association. Man's gallantry in street cars, the tobacco and gum-chewing habits, and the ideal home were discussed before adjournment. Rev. Anna Shaw said quite as many men as women chew gum.

Snow in Michigan. Detroit, Mich., Oct. 27.—Snow has been general throughout the state, in some places as much as six inches falling. A blizzard is accompanying the snow in most places and considerable damage has been done to crops. Detroit has had a raw, cold wind all day, but up to midnight no snow had fallen. Farmers will suffer considerable loss from potatoes, which are still in the ground. The temperature has fallen from ten to twenty degrees throughout the state, but no loss of life has been

Pittsburgh, Pa., Oct. 27.—Edward Groetzinger has entered a plea of bankruptcy, placing his liabilities at \$325,686 and assets at \$187,752. It is said the carpet firm composed of Edward Groetzinger and his son, Edward Groetzinger, Jr., will not be affected.

To Inspect Military Post, Denver, Col., Oct. 27.—Gen. E. V. Sumner, commanding the departments of the Missouri and the Colorado, and Capt. William H. Beck. inspector general of the department of the Missouri, left here for Sheridan, Wyo., on a special train over the Burlington & Missouri road. The object of the trip is to make an inspection with a view to the establishment of

a military post at Sheridan Miraculous Escape. Racine, Wis., Oct. 27. — While a large crowd of people were watching a tug entering the harbor with a car ferry belonging to the Lake Michigan Car Ferry company and loaded with 28 cars, the sidewalk, which had been undermined by the seas, gave way, and let the crowd into the lake. About 50 people went down, but all escaped but two lit-

tle girls, who were slightly injured. License Revoked.

Lansing, Mich., Oct. 27. - State Inprance Commissioner Cahill Wednes day revoked the license of the Northern Assurance company of London, because said company has, as alleged, written insurance in Michigan in other manner than through a duly authorized agent.

The Plague in Vienna. Vienna, Oct. 27.-Dr. Poch, who has been attending the victims of the bubonic plague in Vienna, together with Hochegger, another of the nurses, have developed symptoms of the disease.

Electrician Meets Death. Beloit, Wis., Oct. 27,-Fred B. Whetstone, a young married man connected with the Beloit Electric Light com-pany, was killed Wednesday night while adjusting a strasslemm

WHEN HER SOLDIERS RETURN.

The Internal Crisis in Spain Will

Then Have Begun in Bitter

Earnest.

The loss of our (Spanish) colonies

means the absolute disappearance of

all industry and commerce which the

inhabitants of those islands were

forced to support, says "A Spaniard" in

Fortnightly Review. Factories, work-

shops, magazines—all must be closed,

and thousands upon thousands of op-

eratives turned adrift on the world,

homeless and helpless. A hundred

thousand soldiers will come home to

swell their ranks, sickly, mutilated

men, no longer needed to fight their

country's battles, and no longer able

to carry on the struggle for existence

under the ruins of the old order of

things. The greater number of of 30,000

military officers will be deprived of

their command and placed on the re-

serve list, where the pay is such that a

diers the kind of people who take kind-

fields. When these multitudes have felt

the pinch of hunger, and see them-

loved ones from dying, then the inter-

nal crisis will have begun in very truth,

and the tocsin of the revolution will

have sounded. In that day the army

will decide, by its attitude, whether

Carlists or republicans shall triumph.

SPANISH MUSIC.

The National Character of Spain Is

Very Well Defined by its

Harmonies.

It is interesting to note how a na-

tion's favorite musical instrument is a

key to the national character. Thus,

for instance, England's musical instru-

ment is the organ, Scotland's the bag-

pipe, Ireland's the harp, Italy's the

violin, Spain's the guitar, Germany's

the flute, the United States—south the

banjo and north the piano. Spain's

affinity seems strongest, and, just now,

is of especial public interest. The gui-

tar is ubiquitous in Spain. Its tink-

ling, sweetish harmonies may be heard

on the battlefield, in my lady's bower.

in the mule cart, in the barber's shop,

in saloon, hotel and the highways and

byways. Spanish music is pretty

rather than powerful; its boleros,

rigadvous and fandangos gay rather

than grand. It savors more of dagger

and hatpin than bayonet and bomb.

Glancing back in guitar history to the

days of King David, when this instru-

ment was known as a kinnor, one sees

that while it was used to refresh Saul,

it was also carried by depraved female

minstrels, as evidenced by the Prophet

Isaiah's ironical suggestion to them

to "take a kinnor, go about the city,

make sweet melody, sing many songs,

that you may not be forgotten." The

popular Spanish air of "El Sereney"

is a capital illustration of the charac-

teristics of Spanish music and Spain.

Its pretty, thin strains remind one of

the country of the muleteer and friar.

USE OF HASHEESH.

It Is Said to Be the Cause of Much

Insanity Among the Natives

of India.

The reports of the asylum at Cairo,

Egypt, as to the native patients there

exhibiting the nature of the mental

disturbance associated with the exces-

sive use of hasheesh are said to show

some remarkable facts, it appearing

that in 41 per cent. of all the male pa-

tients hasheesh alone, or in combina-

tion with alcohol, caused the mental

symptoms, while this was the case with

only seven per cent. of the females.

As to whether there is a special recog-

nizable form of mental disturbance

produced by hasheesh, authorities con-

clude that in a considerable number of

cases in Egypt the hasheesh is the chief

if not the only cause of such mental dis-

ease. The usual types of the disease

are hasheesh intoxication—that is, an

elated and reckless swaggering state,

with optical delusions and hallucina-

tions. Acute mania is another form of

hasheesh insanity, incoherence and ex-

haustion; again, there is exhibited a

weak-mindedness, the patients, though

well behaved, being excitable about

small things and unconcerned as to the

Five Dollars Postage for Letters.

W. F. Bailey contributes an article to

Century on "The Pony Express," from

St. Joseph, Mo., to San Francisco.

were originally \$5 for each letter of one-

half ounce or less; but afterward this

was reduced to \$2.50 for each letter

not exceeding one-half ounce, this

being in addition to the regular United

States postage. Specially made light-

weight paper was generally used to

reduce the expense. Special editions

of the eastern newspapers were print-

ed on tissue-paper to enable them to

reach subscribers on the Pacific coast.

This, however, was more as an ad-

vertisement, there being little demand

for them at their necessarily large

This Is the Disposition of the Philippines-Spanish Case Presented with Great Ability-Arguments of No Avail.

APPROACH THE END

Washington, Oct. 27 .- There are indications that the peace commissioners in Paris are approaching the end of the consideration of Cuba and Puerto Rico, and officials here would not be surprised if the commission has concluded those subjects, leaving the commission free to take up the most important matter in the protocol, namely, the disposition of the Philippines. The Spanish case has been presented with an ability and adroitness that commands the admiration of diplomats without regard to nationality, and even our own officials have been compelled to yield a tribute of respect to the arguments produced, but they have been of no avail in effecting any substantial change in the first attitude of the American commissioners, who are holding firmly to the line of procedure originally outlined. It is expected here that henceforth, after the courteous intimation that has been conveyed to the Spanish commissioners that it is time to regard the Cuban and Puerto Rican matters as settled, better progress will be made towards the final conclusion of a treaty of peace,

Wednesday's Session. Paris, Oct. 27.—The American peace commissioners held a session of several hours' duration Wednesday prior to the joint session of the two commissions, which opened at four o'clock

in the afternoon. The Americans fully realize that they are approaching the discussion of the chief question intrusted to them, namely, the future of the Philippine islands, and it may be taken for granted that they are well prepared to take the matter up if is broached by the Spaniards.

The meeting of the commissioners lasted an hour and five minutes and was adjourned until to-day. Both the Spanish and the American commissioners were more reticent after this session than ever before. The Americans fully appreciate not only their own serious responsibilities, but also the delicate position of their Spanish colleagues, to the burden of whose duties here is now added the critical political situation at Madrid, which may compel the president of the Spanish commission (who is also president of the Spanish senate), Senor Montero Rios, to leave Paris.

Spain's Latest Proposal. London, Oct. 27.—The Paris correspondent of the Times says: At Wednesday's sitting the Spanish peace commissioners presented a new counter memorandum declaring their readiress, provisionally, to accept an arfamily to support, receives about two ticle of a preliminary treaty stipulat-ing that "Spain shall relinquish all rights of sovereignty in Cuba without not support these legions of famishing formulating any other claim," and to leave in suspense all remaining questions, especially the Philippines. The ly to the hard humdrum life of the Americans asked until to-day to reply o this new memorandum garded as a favorable sign, being a selves thrown back upon the laws of slight relaxation of the rigidity the nature to keep themselves and their Americans have hitherto shown. Won't End Negotiations.

> Washington, Oct. 27. - Some apprehension has been manifested in certain quarters as to the possible adverse effect upon the peace commission at Paris of an upheaval in France. It has been suggested that the Spanish cause is in such shape that the Spanish government has nothing to lose and everything to gain by any change that can be brought about. However, it may be stated that in the opinion of the state department here there is little danger of the situation in Paris becoming so acute as to justify an abandonment of the work of the commission on the ground that the commissioners themselves are in physical danger. It is always possible that the Spanish commissioners, in despair over their failure to force the Cuban debt upon the United States in any shape, may break off the sessions, but this is not regarded as probable. It is suspected the Spanish programme is to trump up as mauy points of difference as possible, relying upon the sympathy sure to be excited among European nations by their abandonment of each point under compulsion from the American commissioners, as the basis for a supremestand at the end on the Philippines.

LAND IN PALESTINE

Sixty Japs Drowned. Kobe, Japan, Oct. 27. — The Japanese steamer Majagala was sunk Wednesday, almost immediately after having been in collision with the Japanese steamer Kinshiu-Naru. Sixty Japanese were drowned.

Death of a Rough Rider. Boston, Oct. 27 .- Edward Tanger, aged 30 years, of Hancock. Mich., a rough rider, died Wednesday of ma

A DRENCHING RAIN.

It Spoils One of Philadelphia's Jubiles Parades-Banquet to the President.

Philadelphia, Oct. 27. - President and Mrs. McKinley, accompanied by Secretary Hay, Secretary and Mrs. Secretary and Mrs. Wilson, Secretary Bliss, Solicitor General Richards and Mr. Porter and Mr. Cortelyou, secretaries to the president, arrived here at noon Wednesday, but instead of finding the city in the midst of the enjoyment of its peace celebration, they found a dreary, desolate condition of affairs and many thousand citizens and visitors disappointed at the interruption of the

jubilee exercises by the rain. The day's jubilee programme included the civic parade, the greater portion of which it was expected would be witnessed by the president, Gen. Miles and other distinguished visitors. At five o'clock in the morning, however, rain began to fall heavily and until ten o'clock there was a heavy downpour. During the remainder of the day, heavy

rain fell at frequent intervals.

Early in the day the citizens' committee concluded to abandon the day's programme and to postpone the parade until Friday. The rededication of Independence hall was also postponed until

evening tendered a dinner and reception at the Union League. The dinner was entirely informal, and was given

there were fully 4,000 guests. The crowd was so great that the president was not even asked to say anything. He stood in one of the side rooms, the line of visitors passing and shaking him by the hand. The Marine band and the First Pennsylvania regiment band, and the regular orchestra of the league were in attendance.

WRECKED BY THE STORM. Many Vessels on Lake Michigan Are

Abandoned or in Peril-Damage on Shore.

Chicago, Oct. 27.—The great storm from the north and northwest, which began at seven o'clock Tuesday eyen ing blew itself out at ten o'clock Wednesday night on Lake Michigan, but at that hour the wind showed no indications of decreasing in violence on Lake Huron, where it attained a greater velocity even than on Lake Michigan. Widespread damage was done to lake shipping. As for the great lakes, the losses, though large, have been small compared with the historic storms of the past. October 14 1892. was the record breaker of the present decade, when property reaching a million dollars was lost, together with 66 lives. Until the missing vessels are accounted for underwriters say they could make no estimates on the money losses of the storm. Chicago's storm experience of Tues-

day night and Wednesday proved more disastrous to shore property than any blow in recent years, not excepting the fatal gale of May, 1894. Hundreds of people visited the Lake Shore drive and other park territory where rocks and flag stones had been made the sport of waves. Many vessels were brought safely to port by heroic tug crews and many sailors were rescued from peril by the life-savers. No life was lost. A total of 16 vessels are recorted either abandoned or in great neril on Lake Michigan. The shore losses in and about Chicago reach \$81.

Special dispatches from Illinois, Indiana, Michigan and other points indicated that corn crops in some localities have been damaged by the continued rains which ended in storms of violence or Monday and Tuesday.

SHIPS' MASCOTS IN BATTLE The Detroit's Goat Particularly Dis

tinguished Himself While

Under Fire.

"Scared?" said an engineer of the Terror, speaking of San Juan. "Well, guess I was. It was awfully hot beow, and we couldn't see a thing, and the concussion of the guns and the knowledge that we were in a rain of shells were mighty unpleasant. The cat and I were very badly frightened. I guess the cat was worse than I. But, then, you know, the cat and I were the

only folks on board that minded it." He had evidently forgotten the celebrated goat, William Terror, who excited so much interest when the monitor was in New York last winter, says the Chicago Inter Ocean. Billy is very young. They call him an apprentice goat. It was his first time under fire, and he behaved very badly. When the action opened he was on the upper deck, and at the first broadside became panic-stricken. He tore about the deck. A sailor had to carry him below, and in the depth of the ship, alone and ancomforted, he trembled and bleated

till the last gun was silent. The Detroit's goat was braver. He had a station on the gundeck, and while the firing was going on and the shells were whirring over him he remained absolutely quiet. But whenever there came a lull he capered madly about. There is a difference of opinion as to why he was so composed during all the confusion. His friends among the crew say he was interested, and was watching the battle with a critical eye, and that his subsequent capers were but an expression of satisfaction at its results. His detractors contend that he was paralyzed with fear, and that when the noise ceased the spell' was broken, and he gave vent to his feelings of terror by his wild antics.

EMPRESS ELIZABETH

The Ill-Fated Lady Positively Declined to Submit Herself to X-Ray Photography.

An interesting picture is drawn by Miss Emma Penther, a nurse who waited upon the ill-fated Elizabeth, empress of Austria, during the time when the victim of the assassin's knife was recuperating at Nauheim. In a letter to the Frankfurter Finanz Her-

ald she says among other things: "To assist in making a proper diagnosis of the heart trouble of the royal lady, Dr. Schott, her attending physisian, made an X-ray photograph of her. When a second attempt was made to use the X-rays her majesty said: 'No, no, professor; I'll not tolerate it agin.' 'But, your majesty, it is absolutely necessary.' 'Perhaps for you and my brother, but not for me, I will not be dissected alive. Take a photograph of one of the peasant boys about here, and send it to my brother as a picture of my heart.' To me the empress said afterward: 'I do not like to be photographed. Every time I have had by photograph taken some misfortune has happened to me. Otherwise the empress was a most. obedient patient. Her nature was naturally refined. She scorned artificial means to add to her natural beauty. Her figure was faultless, and her beautiful hair lay like a crown upon her head. She never wore any jewels, and the only thing of value she carried was a watch with a Greek inscription. An active correspondence was kept up between her and the emperor during her sojourn at Nauheim."

PIG WITH A BROKEN LEG.

An Indiana Woman's Effort to Have Her Queer Pet's Injured Member Set.

The physicians at the city dispensary have all sorts of patients, but a new record was made the other day, says the Indianapolis News, when a woman brought a pig there to have its leg set. She drove up in a carriage, and exhibited a five-weeks-old pig, with a broken leg, and entered into negotiations to have the injured member repaired. While she was talking she paused ever and anon to hold a milkbottle to the little sufferer's mouth, to

stop its pitiful cries. Dr. Kennedy informed her that it was not in their regular line to practice on pigs, but the case might be taken—for a consideration. Dr. Pink asked her why she did not go to a veterinary surgeon, and she said he would charge too much for the work. Dr. Pink offered to set the limb for 50 cents.

"Oh, you're awful high," the woman almost screamed. "I studied medicine myself, and have an idea of what you ought to charge. I'll give you a quar-But Dr. Pink would not come down,

and the woman finally consented to pay

the price. The doctor was about to begin the operation, and had given the pig's leg a preliminary pull, which made the bottle again necessary, when the woman was struck with an idea. "Isuppose you guarantee your work." she said. "I think so much of the little DEPARTMENT OF STATE.

Justus S. Stearns, Our Coming Secretary and Chairman of Board of Auditors.

Justus S. Stearns, of Ludington, the nominee of the Republicans for Secretary of State, is a broad-gauged busof school, during which he worked for iness man. He will, therefore, be a his board. Next, as a struggling stu valuable acquisition to the Board of dent at Hillsdale and Michigan Agri State Auditors. Fourten years ago he was a clerk in a feed store at Ludington. In 1884 he engaged in the mannfacture of lumber in a small way and he has developed his business until to-day he is the largest manufacturer of lumber residing in the State of Michigan. His lumber output for the year has reached the enormous aggregate of one hundred and twenty million feet. His lumber interests are located at Ludington and Stearns, Michigan, and at Lac-du-Flambeau anl Odanah. Wisconsin. He has associated with him in the conduct of the extensive business which he directs in person, men who

so thoroughly understand his plans and purposes that his private interests would not suffer should he be called upon to serve the people, whose interests are very dear to him, in the important office of Secretary of State. Aside from being chairman of the Board of State Auditors, which has absolute control of all State expenditures not specifically provided for by the constitution and statutes, the Secretary of State is, by virtue of his office, a member of the State Board of Canvassers, State Board of Equalization, the Board which assesses telephone and telegraph companies, and several other boards of equal importance. The advisability of having on these important boards and for Secretary of State a thorough-going, broad-gauged business man who is entirely familiar with the needs of the State and of its citizens, is apparent.

Mr. Stearns is a courteous gentle-man whom it is a pleasure to meet on any occasion. He is positive in his convictions and never seeks to compromise of dodge an issue. He is tactful, good-natured, and the people of Michigan are to be congratulated in that he is willing to serve the State in the capacity above mentioned.

HON. WM. A. FRENCH,

Commissioner of the Michigan State Land Office.

Hon, William A. French, who has in a most satisfactory manner discharged the duties of the Commissioner of the State Land Office for five years, is well and favorably known throughout the State, and is a resident of Bell, Presque Isle county. He was born in Pelham, Canada, March 2, 1849. He schools and in 1876 moved to Chicago, where he was engaged as night mana ger of the Ohicago & Northwestern Railroad. He served four years in this capacity, when he moved to Dundee, Michigan, where he was agent of the Chicago & Canadian Southern. He was also engaged in the saw-milling

Mr. French has always been an active Republican, and his influence has ever been felt where it has been placed. He was elected to the Legislature of 1883-84, and was appreciated as being an exceedingly useful member. At the close of his term he moved to Bell, where he has since resided, and is engaged in the lumbering business. He served as a member of the Republican State Central Com mittee for four years. March 20, 1894, Gov. Rich appointed him Commissioner of the State Land Office. In the convention later in the year he was nominated to succeed himself, and during this term of two years his services were so satisfactory that at the next convention he was nominated

by acclamation and re-elected. During his incumbency he has done much toward making the Land Office a benefit to the people. He was instrumental in having a law enacted providing for the paying of a bounty upon sugar manufactured in the State from beets raised in the State. As a result a large factory is being erected at Bay City, which will cousume beets raised by farmers upon thirty-five hundred acres of land. This will cause to be distributed among the farmers over \$200,000 this fall and will also furnish labor to a large num-ber of people. He has spent a large part of his time in furnishing information which would be of benefit to all interested in this new industry, which promises to be of great good to der the law of 1893 the tax homestead lands were placed in his charge, and thousands of acres of then worthless lands have been rendered useful and are now the homes of industrious farmers. This law was materially affected by a recent decision of the Supreme Court and the State's title to certain lands likewise affected, but Commissioner French has been tireless in protecting these homesteaders; had a law enacted at the special session deferring any action until after the next session, when he hopes, and undoubtedly will have enacted a law which will give to the State an absolute title and thus furnish absolute protection to the homesteader. As a member of the State Board of Auditors he has discharged his duties in an impartial and satisfactors manner, his decisions always being just and fair to both the State and parties con-

J. BYRON JUDKINS. Candidate for Regent of the State Uni-

versity, for the Long Term. Mr. J. Byron Judkins, of Grand

Rapids, candidate for the long term Regency, is a well-known and muchesteemed afformey of the Second City. He was born in 1851 at Coldwater, Mercer county, Ohio. He was educated in the public schools of Coldwater, the Celina High School, and at Liber College, Indiana, Moved to Michigan with his parents in 1870, was admitted to the bar in 1875, and practiced until March, 1880, at Hersey, Osceola county, this State. Was appointed Judge of the 19th Circuit by Judge Creswell, March 9th, 1880, and served continuovsly until January 1st, 1894, at which time he voluntarily left the bench, and declining a renomination, removed to Grand Rapids, where he has since been engaged in the practice of law. He is at the head of the law firm of Judkins & Perkins, and is doing a firstclass business in his profession. Mr. Judkins has always been a stanch Republican. He belongs to the Lincoln Club and the McKinley Club of Grand Rapids, to the Michigan Bar Association, and to the Association of Judges of this State. He attends the First Congregational church, of which his wife and daughters are members.

the nomination to the office of Regent, and knew nothing about his name beand knew nothing about his name being mentioned in connection therewith until the evening before the convention, when he was requested to accept the nomination, and replied that he did not want the office, but would accept it if given him. Mr. Judkins' father lives in Mecosta county, and was a captain in an Ohio regiment during the late civil war, We are confident he will be a very efficient member of the Board of Regents of the great university. JASON E. HAMMOND.

Our Efficient Superintendent of Public

The renomination by acclamation of our State Superintendent of Public Instruction, has given well merited approval to the work of his first term, which has been such as not only to call forth the commendation of all classes throughout Michigan, but has also given him an enviable reputation in other States, as is evidenced by the words of President Draper, of the University of Illinois, who wrote to Supt. Hammond: "I know something of the work of state superintendents and feel bound to say, what you are doing, as indicated by your publications, is among the very best which has been performed in the country." This success is no surprise to those familiar with his history throughout the few years which have intervened since he, a motherless country lad, bagan to show signs of the persevering pluck which has placed him in his present position of trust and responsibility. First a 1 and working and ambitious youth, he, in summer, earned on the farm the wherewithal to carry him through the winter term

> cultural Colleges, he eked out his slender means by all sorts of odd jobs with an occasional term of teaching After graduating with honors from the Agricultural College, he became such an earnest and efficient teacher that he was in a few years given the responsible position of county commissioner of schools in his native county. In this enlarged field his executive ability was manifested by the successful method whereby he se cured the grading of the Hillsdale county schools, and the use of an almost uniform series of text-books. Then followed what was perhaps the greatest surprise of his life in his unsolicited selection by Supt. Pattengill as Deputy Superintendent of Public Instruction. Here again his energy, systematic habits, and comprehensiv grasp of details made themselves felt in such a successful conduct of the routine work and large office correspondence as left Supt. Pattengill at liberty to devote much of his time to personal work among teachers and school officers. Meanwhile the hardworking deputy found time to compile and publish a handy little volume on Michigan School Law which has proven a boon to school officers and teachers.

He has turned a large measure of his attention toward the betterment of the rural schools and has issued several publications specially for their benefit. The revised State Manual and Course of Study, and booklet of Suggestive Special Day Programs, are eagerly sought and used, scores of letters commending them as "the most helpful publications sent out from the Department of Public Instruction." So good an authority as State Superintendent Skinner, of New York, writes of them as follows: "These publications show careful preparation and do great credit to your department. Your Suggestive Special Day Exercises is the best publication of the kind ever brought out." His tour of inspection through dif-

ferent parts of the state last winter was another expedient for placing himself in touch with the needs of teachers in country districts; and a full report of existing conditions appears in his recently issued annual report, in a finely illustrated write-up of these rural schools. This report also contains some helpful suggestions on school architecture, given for the remodeling of old buildings or the building of new

It is into such practical channels as this that Supt. Hammond has directed his energy; and all his tours about the state bear fruit, soon or late, in helpful suggestions for existing evils. His most recent publication, "Textbook Legislation—Facts and Figures," is especially timely, furnishing to the numerous districts which are this year compelled to vote on this important question, the means to do so intelli-

He has the courage of his convictions and has recently registered a timely protest against the reprehensible methods of some text-book publishers, expressing his belief that school-book agents sometimes exercise undue influence in this matter of text-books. He does not hesitate to assert his conviction that "the time has come when school officers, teachers, and others, should face the questions which confront them, and not rely upon publishers and book lobbyists for their information.

Only a practical and progressive man who is keenly alive to all the educational interests of the State, and who devotes his entire time to official duties, could have accomplished so much dumna a aist term; and when to this record is added the fact that Supt. Hame and is a man of unsullied reputation at a patriotic, stanch Rewithout saying that the people and a November pile up a big majorit; to show their approval of the State Convention's choice, and their appreciation of his efficient ad-* * *

HON. ROSCOE D. DIX,

Ropublican Candidate for Re-election to the Office of Auditor General.

Few men in Michigan are better or more favorably known in the State than Hon. Roscoe D. Dix, of Berrien County, the present head of the most important departments of the State government-that of the Auditor-General.

His life, from the time the echoes from Fort Sumter rolled across the Peninsular State in 1861 to the time of his unopposed renomination at the recent Republican convention, is one full of encouragement for every boy struggling to get on in the world. It is an object lesson that tells the growing young manhood and womanhood that "honesty is the best policy;" that a man controlled by the firm conviction that right must forever prevail against wrong, will do his fellow men no injury; that justice to one's self is doing justice to all mankind. Such is the character of Roscoe D. Dix-the soul of honor, fearless in every act he believes to be right and just, and upright in all his private and official con-

Enlisting at Kalamazoo on April 26 1861, in Co. K, 2nd Michigan Infantry, he followed the fortunes of his company through every engagement until November 24, 1863, when he was so severely wounded at Knoxville as to become permanently disabled and was honorably discharged May 25, 1864. Returning to Berrien county, he was honored again and again by those who knew him best in being elected four times to the office of Register of terms.

tional Council of Administration

ficial relations with him during the

asked each to forward to the State Treasurer all moneys held by them belonging to the State, This request was promptly complied with and asked each to forward to the State Treasurer all moneys held by them belonging to the State. This request was promptly complied with and March 31st, 1897, there was on hand, after paying the above deficiency, \$538,225. About May 15th, there was paid to the Primary School fund \$376, 000 and on June 30th, the end of the fiscal year, six months after General Dix took charge of the Auditor's office, there was in the State treasury

to that date paid without borrowing a Arditor General Dix 1 1s, from the date of his first instalment into the office of Auditor General, persisted in the most vigilant scrutiny of all dis-bursements for which he has drawn his warrant upon the State Treasurer, and has insisted upon the most rigid practicable economy; and applying the same careful rules and principles to the management of State affairs which he would give to his own private business, has saved to the State many times the amount of his salary over that which would result from careless and extravagant direction of the office. It is needless to say that the name of such a man will be an element of great strength to the ticket.

Birch Conoes for the Orient. Bangor manufacturers are sending anoes of birch and canvas to Pales tine, Japan, India and China. One recently sent to India was to the order of a British officer, and the cost of transportation was more than \$75. canoe just ordered is intended for trip up the river Jordan.

Rattroads Needed in Brazil. The facilities for inland transportation are so limited in Brazil that the inhabitants of the ports find it cheaper to import grain from North America than from their own farms.
