Dr. T. A. Bunbury has a card in this week's RECORD which will interest lovers of horses.

### THE VERDICT RENDERED.

On Tuesday the people of the counry by their votes rendered their verdict upon the issues of the campaign just closed. The result has been an overwhelming endorsement of the policy of the Republican administration in every particular, National, State, Congressional, Legislative, and County. The Republican party will now feel that they will be supported in their efforts to give an administration to the people of this country that will bring prosperity to all homes and

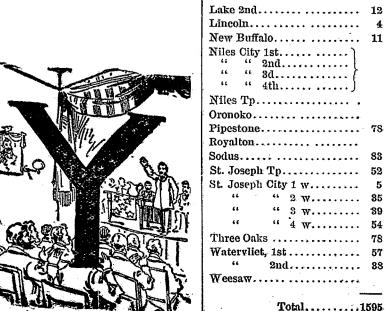

Sheriff Ferguson has had an ample vindication of his administration. \* \* \*

### MORE THAN EVER.

Buchanan's Vote Shows Heavy Republican Gains.

The result of the election in Buchanan affords much saisfaction to the republicans of this vicinity. The total vote polled was 726 about 130 short of two years ago, but the majorities all showed a substantial increase for the republicans. Hard work on the part of the republicans together with a systematic getting out the party vote, contributed largely to this result. An endeavor to "knife" one or two candidates failed to produce any appreciable effect on the result as the people had made up their mind how they were going to vote. The following is the complete returns. The republican straight tickets were 336. Democratic straight 213, Prohibition 13. BUCHANAN TOWNSHIP.

After the music, Mr. Dodd introduced Hon, V. Wooder half-dellar Underwear in- M. Gore, who made a magnificent cheding children's Union Suits, at speech which was received with the Total of samples of \$1 quality closest attention. At the conclusion , of the address, music was furnished by the Glee Club, and then those We are not airaid to tell the price present gave three rousing cheers for we only buy and sell all hands on the ticket, closing in this manner one of the most enthusiastic meetings of the campaign.

R. G. Dan & Co's Review says: Not even the election has disturbed business nor industries on the financial side this week. Although many are doubtless waiting for the votes before borrowing, the volumne of business through clearing houses is 8.5 per cent. larger than last year and 1.54 per cent. larger than in 1892. While political doubts may count for much, they can only have prevented a growth of business which might have been much more than has We offer Ladies' Dunlap Street been realized. Failure returns for for October are curiously puzzling We ofter Trimmed Hats at \$1, 81.50 | compare remarkably well with those of previous years, and also the failures of \$100,000 or more in about two thirds of the business classes, there were large failures in a few branches, not generally due to present business conditions, which made the aggregate \$14,000,000, but neither the Sawyer woolen failures, nor others, excepting some in machinery and boots and shoes and leather, indicate difficulties beyond those of the particular concerns failing.

\* \* \*

"Pending Problems" form the theme of a paper of national importance furnished by the Hon. Hannis Taylor, late United States Minister to Spain, to the North American Review for November. "No successful attempt can be made," maintains Mr. Taylor, "to master the grave and farreaching questions for national and international policy that have been suddenly put before us through the result of recent war, without a clear direction of Mr. Reau Campbell, Gencomprehension of the fact that that | eral Manager of THE AMERICAN TOURwar was the inevitable outcome of IST ASSOCIATION. A limited number our national development, which has drawn after it, as a necessary consequence, a vast and rapid territorial expansion."

Among the short articles in the November North American Review are: "The Zionist Conference," by the Rev. Dr. H. Pereira Mendes; "Postal Currency for Small Remittances," by C. W. Post; "The Canadian Plebiscite," by Edward Porritt; "The Science of home Management," by Mary Clark Barnes, and "The Unlucky Right Wing," by Gilbert Tompkins.

In timleiness, variety, and positiveness of quality and interest the November number of McClure's must be pronounced a rare magazine. A character sketch of Colonel Theodore Roosevelt presents, in its full picturesqueness, the personality of one of the independent, original, and forceful of living Americans, "The Inner History Admiral Sampson's Campaign," related mainly in hitherto unpublished official despatches, gives for the first time the full and true story of the finding and securing of Cevera's fleet. "A True Story of the Fire Patrol," and Mr. E. A. Fitz-Gerald's account of his own experience in leading a party for the time in human record to the tops of the two highest mountain peaks in the Western Hemisphere, and perhaps the highest ever climbed, exhibit human power and endurance in their strongest, most heroic manifestatiou, And Mr. H. J. W. Dam's portraval of The Mystery of Vesuvius," as it was exhibited to him in his own recent explorations of the volcano, gives a sense of profundity and mightiness of the great earth-dragon not to be had from any other writing on the subject. Then there are three or four very strong short stories - one by Stephen Crane that shows him to great advantage in an entirely new field. The pictures of the number are notable also - illustrating the several articles with singular truth and spirit, also contributing interest as

The Best and Cheapest.

The New York Independent, the leading weekly newspaper of the world, and one whose pages exercise the widest influence, is entering upon its fiftieth year of publication. The Independent emphasizes its fiftieth year by changing its form to that of a magazine, and by reducing its annual subscription price from \$3.00 to \$2.00; single copies from 10 to 5 cents. The Independent because, while the small failures in its new form will print 3,640 pages of reading matter per year at a prominent magazines, which sell for \$400 a year, print only about 2,000 pages. The subscriber to The Independent gets 82 per cent. more of equally good reading matter at onehalf the cost! It is not only the leading family weekly newspaper but by far the cheapest and best. A free specimen copy may be had by addressing The Independent, 130 Fulton Street, New York.

The Battleship Wisconsin Will be launched in San Francisco, Saturday, Nov. 26th. The Official Train carrying State Officials and the Christenlug Party will start from Marinetts, Milwaukee and Chicago, Saturday, Nov. 19th, going via the Chicago, Milwaukee & St. Paul R'y. Stops will be made at St. Paul, Tacoma, Portland, San Francisco, Los Angles, and Denver. Pullman Palace Sleeping Cars, Dining Cars, Observation Cars for the exclusive use of the party for the entire trip, under the of tickets at reduced rates covering all expenses will be sold: they include Railway and Sleeping Car fares, meals in Dining Cars, Hotels, Carriages, etc. For details address The American Tourist Association, 1124 Marquette

POULTRY COLUMN

Conducted by R. F. Greene Our readers are invited to send in any questions for information on this subject, and any communications bearing on poultry will be received with leasure and will be fully discussed in this column.

The Poultry Yard. FRESH EGGS.

Dealers will sell all eggs as "strictly fresh" if they can do so. They carefully "candle" the eggs received and the majority of customers are unable to distinguish the good from the inferior. But customers will buy the best when they know the eggs to be fresh, and it is in catering to the customers wants that a trade in choice eggs can be established almost anywhere, It is not necessary to ship eggs to a distance to sell them as there is a market the whole year for strictly choice eggs, but the farmer or poultryman will have to take the pains to let the customers know all the facts and his work will then be more than half done.

HATCHING IN WINTER.

It is uscless to attempt to raise young chicks with hens in winter unless a house is prepared for them, and it does not pay to do so with only one or two hens. It is easy enough for a hen to keep a few chicks warm at first, but after they grow a little they become too large for the hen to cover them, especially at night and they consequently perish, dying one or two at a time.

Always allow the fowls outside if they prefer to leave the poultry house, as they will find gravel and many other things that may be seruicible but keep them up on stormy days. Northeast storms do more harm than snows, and it would be well to store leaves in a dry place for winter use. A lot of leaves on the poultry house floor prevents draughts of air from below and they are a standing invitation to the hens to scratch and work, especially if a tablespoonful of millet seed is scattered therein. Do not keep the birds too closely confined if it can be avoided, as air and sunshine are enjoyed by them during every season of the year.

ECONOMY IN PURE BREEDS.

The farmer who refuses to pay a few dollars for pure bred fowls is not economical. There are some who do not hesitate to pay good prices for the best cattle to be had, yet the cow produces but a single calf in a year while a hen will lay a sufficient number of eggs to enable her owner to to obtain a hundred or more chicks. As the hen is so prolific the cost of improvement of poultry is much less, proportionately, than for any other class of stock on a farm. There is really no excuse for having a single common fowl on a farm because it is so easy to make a change, the cost is so little, and the time required so short. One may be extravagantly economical in not using pure breeds. A difference of only ten eggs in a year in a small flock of common fowls and a flock of pure breeds would pay the cost of improvement, and hence all can take advantage of the breeds .- P. H. Jacobs.

ELEPHANT GREAT IN CRIME.

The Animai's Intellectual Powers are Most Apparent in His Schemes for Revenge.

Few more impressive confidences can be imparted than one in which a Hindoo describes how he knows his elephant intends to destroy him It is all so seemingly trivial, and yet in reality of such deadly significance. His story is so full of details that prove the man's profound understanding of what he is talking about that one remains equally amazed at the brute's power to dissemble and its intended victim's insight into the would-be murderer's character. And yet, from the psychological standpoint, an elephant never gives any other such indication of mental power as is exhibited in its revenge. That patient, watchful, implacable hatred, often provoked simply because a man is in attendance upon another animal (for it is the rule with tuskers to detest their next neighbors), speaks more conclusively of a high intellectual guide than all stories, true or false, that have been told of their ability. Such concentration and fixedness of purpose, such careful, unrelaxed vigilance, such perfect and consistent pretense, and when the time comes. such desperate, unhesitating energy as homicidal animals exhibit, are impossible without a very considerable, although in this instance, very irregular, development, says Outing.

No one can deny that if this creature is great at all its greatness shows itself in its crimes. These have caused it to be worshiped in the east, where men venerate nothing but merciless, irresponsible force, and where an excost to subscribers of \$2.00 while the | hibition of those qualities and traits described fully account for the formula: "My lord, the elephant."

NOT A COWARD.

The Strange Effect of Nervous Strain on a Brave Little Soldier in Cuba.

Nervous excitement is responsible for much that might pass for cowardice. The author of "A Cuban Expedition" speaks of one dreadful day, when he and his comrades sat in a wet ditch and waited, concealed, while the Spaniards were so near that escape seemed almost impossible.

The discomfort of our predicament -up to the middle in mud and water, with the rain pouring down on uswas at the moment unfelt, in our excitement and eagerness in watching the enemy. Little Joe Storey, who was next to me, was trembling all over. Suddenly he grasped my arm and whispered:

"Oh, what shall I do? I must scream or fire off my rifle! I can't help it!" I, too, felt that he would do either the one or the other, and I whispered back the first thing that occurred to

"Storey," I said, "if you make the least noise, I'll stab you to death!" Then I told him to keep his eyes closed, and try to think of something else, until he heard the first shot fired. After that he might shout as loudly as he liked. I put one arm about his neck and drew him close to me. There, trembling, he rested like a quiet child? Presently his excitement wore off, and he became used to the situation; then he was heartily ashamed of his break-

But Storey was not a coward. He was a gallant little soul in action, and only his tortured nerves were responsible for this temporary revolt.

MONTH OF METEORS.

INTERESTING STORY OF THESE STRANGE RAMBLERS OF THE SKY.

> This is the month of meteors. Those who look at the clear sky-especially those who are away at summer resorts or in the suburbs where the heavens are not obscured by the smoke of the city—note sudden flashes of light across the celestial vault. These are usually called shooting stars, but are known to astronomers as meteors. During the latter part of July they begin to be frequently seen at night, becoming

more frequent as August approaches

and passes until the 10th, 11th and 12th

of the month, when they are most bril-

liant, The same phenomenon is re-

The Aerolites-August and November

Always Develope Them-Friction of

Their Journey Produce the Heat They

peated in November, when they appear most numerously on the 12th. Every one has noticed the brilliant heavenly pyrotechnics, and probably nearly every one with an inquisitive nature has wondered where they came from and where they go.

Their story is this. Twice a year, in August and November, while the earth

is traveling its annual journey around the sun, our planet crosses the path of a great band of meteors. Those in the belt encountered in August have been named Perseids and those of November Leonids. They merely glow for an instant in a path of light between the stars and disappear. Their exact origin is unknown, but their regular return gives them the dignity of a constellation and precludes the possibility of their being comet-like. The regularity is explained only by conceiving them to be a part of the solar system. If we suppose a ring composed of an immense number of particles and conceive this ring to have such a position around the sun that the earth will pass into it in August and November, then we should have just such a display. Accordingly this explanation is accepted as correct. As for the origin of the ring, that is to an even greater extent an object of speculation, although one theory that is popular is that a comet has been arrested in its flight around the earth or one of the planets and distributed in a ring around the sun, its gases and vapors condensed into par-ticles too small to be seen until fired by

contact with the air. However that may be, their destiny is known. When the earth enters the belt the operation of the laws of gravitation is sufficient to attract these particles to the terrestrial sphere. Plunging into the atmosphere of the earth at a distance of seventy or eighty miles from the surface, the resistance of the air is sufficient to check their flight. So great is the friction caused by the tremendous speed at which the meteor is traveling that the heat is sufficient to dissolve the stone in a streak of fiery vapor. It is like the lighting of a match when it is struck on a rough surface.

But for the protection afforded by the atmosphere the continuous celestial combardment might have disastrous results, for the meteors, though small, are numerous. Many are not visible to the naked eye, and thousands fall during the day, when their fire is dimmed by the greater glory of the sun.

These meteors finally reach the earth, though not in their original form. The particles are dissolved into vapor and the vapor is condensed into dust, which is absorbed, almost without any one knowing it, by the globe. On mountain tops, in arctic regions, and in African deserts a brown dust has been found which upon analysis has been believed to be of meteoric origin. There must be a good deal of it added to the world during the course of a few centuries. It is estimated that 140,000 meteors annually fall into our atmosphere, and if the dust of each weighs only a grain then each year 20,000,000 pounds, or 10,000 tons of meteor dust are added to the earth, and the weight of the earth must annually increase by that amount.

Each thirty-three years the earth passes through that part of the meteoric belt where the meteors are largest and most numerous, and then the finest meteoric displays are seen. The last great display was in 1866, and so astronomers have scheduled the next as when passing through the November belt on the 13th of the month. .

Those heavenly bodies which fall to the earth in chunks are called meteorites, or more properly aerolites (air stone). There is no regularity about their fall, and experts say that nothing can be known of their origin, although there are those who believe that they are of the same material as meteors, while others hold that they are entirely different. Iron, nickel and cobal: are found in them.

Every museum has its collection of meteorites. There is one in Yale that weighs 1,000 pounds, but this is overshadowed by the Cape York meteorite discovered by Peary on the northwestern coast of Greenland, which is twelve feet long and eight feet wide, weighing 100 tons. While there are legends of larger meteorites, the Peary meteorite is the largest known. The depression in canyon Diablo, Arizona, nearly a mile in diameter and 100 feet deep, is attributed to an enormous meteor, but the largest fragment picked up in the vicinity weighs only half a ton. There is absolutely no regularity about the falls, and sometimes they tumble singly and sometimes in pairs, while in New Concordia, Ohio, in 1860, nearly 200 hot stones fell in a field in broad daylight. hTis was surpassed by a fall near L'Aigle, in France, where upward of 3,000 separate stones fell over an area of thirty-two square miles in an hour.

These falls were regarded with superstitious reverence in olden times. Sacred traditions of many races contain reference to them, and the stones coming from heaven were regarded as gifts from God. The holy stone of Mecca and the great stone of the pyramid of Cholula, in Mexico, are supposed to be meteoric, while the image of Diana of the Ephesians, which, as mentioned in Acts, was supposed to have fallen from Jupiter, is probably of similar or-

An Irishman's Reply. The Irishman was a talkative witness, but he did not come down to essential facts, and finally the court be

came provoked. "Look here!" the judge exclaimed, "I want to know if you saw this yourself or simply heard it." "That's no evidence. Step down."

The Irishman was surprised and puzzled. He hesitated or a moment and then as he left the witness chair he glanced over at a group of his friends and laughed aloud. "Come back here!" shouted the court, "Don't you know that you are liable to a fine for contempt of court. How dare you laugh in that manner?" "Did I laugh, your honor?"

"You did." "Did you see me laugh, or did you hear me laugh?" "I heard you." Even the court joined in the laugh. -Chicago Times Herald.

A former member of the House of Representatives, who has voted the Republican ticket ever since he was naturalized, visited St. Paul the other day and encountered an old friend, who questioned him about his method of voting in the House. "I always voted Republican," he said, with a smile of pride. "But how did you vote on questions

before the House?" "A Republican sat beside me?" answered the statesman, "and ven he say 'yes,' I say 'yes,' too." "But suppose he was absent when a vote was taken; what would you do then? "Vell. a Democrat he sit, behind me.

and ven he say 'yes,' I say 'no.' "-St.

Paul Globe.

AD. WRITERS AND THE WAR.

Lines of Goods Brought Out to Fitthe Prevailing Topic of the Time. The war has been quite as prominent

a feature of the advertising columns of newspapers all over the country as of the news pages. It isn't strange, for advertisement writers keep in touch with the predominant news topics of the day, which furnish the best material for the exercise of their ingenuity. When the Klondike was discovered, "gold." "nuggets," "rich strikes" and similar words and phrases headed the advertising columns as well as the news stories, but these are all dropped now for the up-to-date war expressions

The most common phrases are "war

on prices," "Victory over our competi-tors" and "Wanted, ten thousand volunteers-to buy our goods," the last four words being in small type, of course. "Manila has fallen, and so have our prices," is another. About in the same class are these: "War is not a new experience for us; for forty years we have been fighting the makers and dealers in cheap and worthless goods," and "The latest bulletin from the seat of war is absorbing the attention of the people just now, and while you are waiting for the next cast your eye over these prices." "We are not going to war at present," frankly admits one firm, "but will remain at the old stand." "Bombarding Havana will be an easy matter," says another, "but we are putting up batteries in the way of large stock and low prices that make

our position impregnable." In an up State paper this bid is made by a bank for New York business: the Spanish fleet should bombard New York, valuables in the safe deposit vaults there would be unsafe. Take a box in our vaults now." "Remember the Maine!" has been a favorite headline, and "The Maine question is where to buy the best goods for the least

money," has been much used. Dewey's victory brought out a new series. This is one: "Dewey cleaned 'em out. It was such a glorious victory that we would like to name one of our stoves the Dewey, but we have so many good ones it is hard to choose the most appropriate." And this is an-"The Maine has been remembered at Manila, and your Uncle Sam is in a little better mood. Merit always win. Therefore, the unfounded success of our goods."

One of the simplest but best achievements in this line is this, from an optician: "Spain will be driven from Cuba without a doubt. From now on you will read every line of war news. Will your eyes stand it? A pair of glasses fitted by us will prevent permanent injury."-New York Sun.

Tales of Magicians. One of the most charming and fascinating tales of magicians is that of the old wizard who possessed a selfacting drawing paper, by which he showed people engaged in every sort of occupation or pleasure, and a wonderful talking box which repeated every word which they said. In addition to these marvels he had the power of making instantaneous pictures of objects in the exact form and color of the original. The self-acting drawing paper (the sensitive plate) and the talking box (the phonograph) are now articles of every day use, and there is no doubt that before many years the secret of his wonderful colored pictures will be known, and anyone may, make them as easily as did the clever wizard. The first successful colored photographs were those produced by what is called the interference of light waves, the experiment being founded

upon the optical law that when two oulses of light are so near together as to appear to the eye but one colors begin to appear, and that the same rays of light falling upon the same point of an object will turn into all sorts of colors, as, for instance, the colors in a soap bubble. Working on this law of interference, the process being too long to be explained here, a colored picture is produced, which, however, like the dagueri civue, must be viewed by reflection - Harper's Round Table.

A Valuable Almanac. From the earliest days, man in all lands, has been interested in the weather, and has made records of times and seasons. The ancient civilizations -Assyrian, Chaldean, Egyptian-all had their chronology and their almanacs. A daily paper gives us these facts about existing ones:

The most valuable almanac ever made is that now in the British Museum, which is priceless. It is believed to be at least three thousand years old. The days are written in red ink on papyrus, in columns, and under each is a figure, followed by three characters signifying the probable state of the weather for that day. The most elaborate almanac in the world is that issued by the Chinese government in twelve thick volumes, which gives full information as to lucky times and places for performing the acts of every-day life, which is considered an essential of success by every good Chi-

The most curious calendar at present in use is that of the natives of Central America, where the months are only twenty days long, and are named after animals. Among most modern European ones the "Almanach de Gotha" has been longest in continuous circulation-upward of one hundred and thirty-five years.

Moors Hope to Return.
Visitors to Tangier and other settlements of Morocco notice the keys that are carefully kept in safety in tho houses of some of the families of ancient descent. These keys belong to the houses in Spain once occupied by the Moors before their expulsion from their homes many centuries ago. The Spaniards occupy these old houses, but the descendants of the Moorish owners still guard the keys, in the hope that the day will come when they can return to Grenada and once more resume control of the property from which they were driven by Spanish arms. Tangier is delightfully Oriental, like a leaf out of the Arabian Nights. Nowhere east of Damascus, it is said, do you get such a good idea of the Orient. One sees the eadi administering justice. In the houses are the courts, with fountains playing in the centre, and all the interior detail of Arabian architecture. Tall jars in which the "Forty Thieves" might hide stand in the hous

FEATURE OF LIBRARIES.

They Never Can Keep Up With Public Demand.

The experience of the Boston Public Library shows that in the case of books each increase of facilities creates an increased demand. The trustees of 1852 boasted that they were providing for as many as fifty readers at a time; the trustees of 1887 thought themselves venturesome in providing for 500 readers at a time; and within a month after the new building was opened it was forced to accommodate over 700 at a time. Every week over 30,000 persons enter the Central Library Building, and every year 1,200,000 volumes are drawn for home use by the 65,000 cardholders. Yet these figures represent still but a portion of the persons to be reached and the work to be done. Nor can. facilities for distribution keep pace with the need. For a city of a half million people spread over an area of forty square miles adequate library facilities cannot ever be provided. A municipality which even approximates the adequate in providing buildings. equipment, administration and general literature at the public expense must still look to private gift for the specialized material necessary to a great reference collection. That the Boston Public Library is

next to the British Museum in Shakespeariana is, to be sure, the result of a special expenditure by the city. But the larger part of its special collections which have given it distinction as a great scholars' library has come from private gift; the Ticknor collection of Spanish literature, the Bowditch collection of mathematics, the Chamberlain collection of autographs, the Brown collection of music and many others. And a city which erects for its public library a building which is monumental is putting forward the most attractive invitation to private gift. North American Review.

BEES IN HIS HUNTING COAT. Pockets Full of Honey for a Soldier When He Came Home from

the War.

Asa Witham, a farmer of Blanchard, Me., has been a member of the Dover company, Maine volunteer militia, for two years, and is counted one of the best marksmen in his regiment. Last May when he was waiting for the government to call the troops to Augusta he went out one afternoon and shot six rabbits. On his return a messenger met him in the doorway and told him he must take the next train for the state capital. As his canvas hunting coat was wet with the blood of the rabbits he hung it up on the limb of an apple tree, remarking that it would be

well washed by the time he returned from the war. Witham was mustered in and went to Chickamauga, where he was on duty every day until a month ago, when his regiment was ordered back to Augusta. He was sent home on a month's furlough. Being somewhat exhausted from a continuous diet of hardtack and bacon, he thought he would try his luck at partridge shooting before setting down to farmwork. The canvas coat was hanging from the limb in the orchard, but when Witham went to put it on he found that it was already or cupied by a swarm of bees, which had taken possession of the garment during his absence. With the aid of a sulphur smudge fire he expelled the insects, and

secured 22 pounds of white comb honey. A Queer Verdict. Upon the Isle of Man, where sheepstealing is evidently a serious offense, John Dixon was recently sentenced to three years' imprisonment for it. The exact words of the jury were: "Not having satisfactorily accounted to the minds of the jury for the possession of the sheep, we find the prisoner, guilty," What puzzles the lawyers is this: Can a man be legally falled on

Parted in a Dream. Not a war song, but a love song of the war-a pathetic yet hopeful recital of the actual parting in a dream that occurred during one of the bat-tles before Santiago de Cuba. The sweetheart of a brave American sol-dier who was killed in that campaign, in a dream saw him die. He again appeared to her and bade her good bye. In the farewell he asked her to wear for him a rose in her hair, that he might surely know her when she came to meet him. The The story is well told in the words and the music has been pronounced as admirably suited thereto. The song is full of pathos, yet breathes a spirit of hope for a future meeting when fond hearts shall be united. The words and music were both composed by Halbert L. Hoard, of Fort Atkinson, Wis. Copies may be obtained from Jos. Flannan, 211-215 Grand Ave., Milwaukee, or through

local music dealers. \* \* \* Letters unclaimed remaining in the P. O. at Buchanan, for week ending Nov. 7. Call for advertised letters. tain \$5,000 for damages received by |-Mrs. E. Link, Mr. Wm. Mizer, Mr. and Mrs. Bremer, Samuel O'Neill, P.

The principal attractions offered by The Youth's Companion for the remaining weeks of 1898 provide a foretaste of the good things to follow in the new volume for 1899. To the first issue in November Frank R. Stockton will contribute a humorous sketch, entitled "Some of My Dogs," and in the issue for the week of November 10th will appear Rudyard Kipling's thrilling story of the heroism of soldiers in the ranks, "The Burning of the Sarah Sands." In the seven itsues to follow there will be contributions by Lord Duff-erin, William D. Howells, J. E. Chamberlin, the American war correspondent, Mary E. Wilkins, Hon. Thomas B. Reed, the Marquis of Lorne, Mme. Lillian Nor diea and I. Zaugwill. Those who sub-scribe now for the 1899 volume will receive every November and December issue of The Companion from the time of subto the end of the year free, the Companion Calendar for 1899 free, and then the entire 52 issues of The Companion to Janu ary 1, 1900. An illustrated announcement of the 1899 volume and sample copies will

be sent free to any one addressing

The Life-Plant Visitors to Bermuda often bring back to this country as a souvenir of their trip the leaves of a very interesting plant of the houseleek family. It is known as the life-plant, and when the leaves begin to shrivel and fade they

send out little shoots, which in turn bear leaves that continue to grow and remain fresh and green for months. The leaves are about four inches long, rich green in color, and of a smooth, waxen texture. If you take one of the leaves and pin it to the wall indoors, it will begin to sprout within three or four days, be it winter or sum-mer. At first the top portion of the leaf will begin to wither and shrivel up, and this is likely to continue until the upper half has lost its green color. Then tiny white roots will sprout from the edges, and, in time, diminutive green leaves will appear on these. These little offshoots will sometimes grow to be an inch long, and contain several pairs of leaves. The limit of their existence seems to depend upon the amount of heat and light they can

A Stand for Manliness. The rebukes we give to ourselves are far more potent than any outside rebuke. No amount of admonition from tutors and professors would have had the effect produced upon a crowd of collegians by the simple speech of one of themselves, as chronicled in the Youth's ompanion.

In a fraternity hall some months ago, a score of young men were talking loudly and vehemently about an action of the college faculty, which all thought was an intringement upon their rights. Speech after speech was made, invectives grew as they passed from mouth to month, and threats came fast. Finally one little fellow, beckoning the rest to be silent, said: "It has just occurred to me that we call ourselves gentlemen. We do not

"To Whom It May Concern; To those suffering from stomach and nerve troubles I wish to Recommend Drake's Dyspepsia Cure and Nerve Restorer. About 20 years ago I be-gan to be troubled with my stomach. It gradually grew worse, even under treatment until it became difficult for me to cat any kind of food with comfort. For the past five years I have been able to retain very little food of the simplest nature long enough to digest it. Seldom during this time have I enjoyed sleep throughout the entire night and usually have been obliged to leave my bed in consequence of my stomach and nerve troubles. My bowels were very much relaxed, said to be due to ians and tried nearly every known recommended for my troubles with no lasting benefit, and usually not temporary relief. On the 5th day of January '98, I purchased a package of Drake's Dyspepsia Cure and Nerve Restorer and I wish every dyspeptic trouble in retaining it. I sleep well and feel refreshed therefrom, and albeen during the past 20 years."

### RESULTS IN MOST OF THE STATES.

Reosevelt's Plurality Is More Than 21,000, While That of Pingree May Reach 70,000-Indiana Undoubtedly Goes Republican.

New York, Nov. 16.—Corrected returns received up to midnight show: Roosevelt plurality, all outside of Greater New York, 187,736. Van Wyck's pluralities in Albany, Chemung, Clinton, Erle, Rensselaer and Scheharie counties and Greater New York, 16.436. Roosevelt's plurality, 21,235.

The result on congressmen in this state seems to have surprised even the democrats themselves. Mineteen of their candidates were elected, the republicans getting but 15. In the present house the New York delegation stands 27 republicans to 6 democratic candidates were elected.

After the gubernatorial contest as much interest was taken in the state legislature as in anything else. The state senate will be republican by four and the assembly by 20.

Political interest from now on will center Political interest from now on will center about the senatorship, and already discussion as to the probable aspirants has begun. So far there is no announced candidate and the republican organization has not declared itself.

Celumbus, O., Nev. 18.—Unofficial returns from all but one county make the plurality of Kinney (rep.) for secretary of state of Kinney (rep.) for secretary of state 50.00.

Columbus, O., Nov. 10.—The only continued interest in Ohio election returns are those in the Third and Seventh congressional districts. Early in the day the republicans were claiming the Third as well as the Seventh. Later in the day the democrats were claiming the Seventh as well as the Third. It is believed that the republicans elect Weaver in the Seventh by It plurality and the democrats reclect Bremer in the Third by 37, which leaves the Ohio list of congressmen as given in these dispatches Tucsday night, 15 republicans and 6 Gemeerats. The official count is not expected to change these close results. Illinois.

Chicago, Nov. 10.—Returns almost completed show that the republicans have elected practically all their county ticket in Cook by plarafities ranging from \$600 to 12.00. Whittemore, republican nominee for state treasurer, is elected by \$5.000 majority in the whole state, but loses Chicago by \$4.00. The country towns give him 5.000 majority, so he carries Cook county by about 10.0. The congressional returns show election of a total of 11 republicans and eight democrats sure, and three reand eight democrats sure, and three re-publicans in doubt, a net gain of three to the democrats and a possibility of a gain publicates in doubt, a net gain of three to the democrates and a possibility of a gain of six.

Fickowing are the congressmen elected from Hilhois, being a net gain of two for the democrates: First, James R. Mann (rep.); Second, William Lorimer (rep.); Third, George P. Foster (dem.); Fourth, Thomas Cresck (dem.); Fifth, Edward T. Noonan (dem.); Sixth, Henry S. Beutell (rep.); Seventh, George E. Foss (rep.); Eighth, Albert J. Hopkins (rep.); Ninth, Robert R. Hitt (r. p.); Tenth, George W. Prince (rep.); Eleventh, Walter Reeves (rep.); Twelfth, J. seph G. Cannon (rep.); Thirteenth, Vespasian Warner (rep.); Fourteenth, Joseph V. Graff (rep.); Fifeenth, Benjamin F. Marsh (rep.); Sixteenth, W. E. Williams (dem.); Seventeenth, B. F. Caidwell (dem.); Twentfieth, J. B. Williams (dem.); Twenty-first, W. A. Rodenberg (rep.); Twenty-second, George W. Smith (rep.);
Chicago Nov. 10.—Returns from all but II precincts in Cook county show that the republicans have elected their entire ticket, with the exception of two judges of the superior court. Of the six judges dected the republicans have secured four. Plurclifies of republicans have secured four. Plurclifies of republicans, and their pluralities now exceed all predictions made regarding them Tuesday night. The vote, however, shows a decided falling off on the part of the republicans, as McKinley carried the county by 70.00.

Indianapolis, Ind., Nov. 10.—The republicars have carried Indiana by a majority between 15,000 and 15,000. Chairman Martin, of the democratic state committee, figuring upon efficial and estimated returns from all but three of the 92 counties, concoled a republican plurality of 14,500. He states upon the returns at hand that the democrats have made a net spin over the presidential vote of 1886 of 1,862. Later and dutiently returns, however, may change the present indicated result from 2,000 to 5,000. The republicans claim the state has been applied.

to 5.60. The republicans claim the state by 2.000.

The legislature will be republican and the estimate based upon the latest returns shows that in the senate the republicans will have Stand the democrats 22; in the lawer house the republicans will have 56 and the democrats 44. This will give the republicans a majority of 18 on joint ballot, and means the election of a republican to the United States senate to succeed Senator Turple. The official returns from all over the state may change these figures some, but it is a result that both parties have practically agreed is true.

The vote in Indiana will fall far short of the vote in 1896 and the returns are coming in slower than they ever did before in the history of Indiana elections.

Indianapolis, Ind., Nov. 18.—Advices received up to ten o'clock Wednesday night indicate the following congressional results in Indiana: First, J. A. Hemingway (rep.); Second, Robert W. Miers (dem.); Third, W. T. Senor (dem.); Fourth, F. M. Griffith (dem.); Fifth, in doubt; Sixth, James A. Watson (rep.); Seventh, Jesse Oversireet (rep.); Eighth, George W. Cromer (rep.); Ninth, C. B. Landis (rep.); Tenth, E. D. Crumpacker (rep.); Eleventh, George W. Fieele (rep.); Twelfth, Dr. C. B. Stevens (rep.); Thirdeenth, A. L. Brick (rep.). The Pifth district is claimed by both Hamill (dem.) and Faris (rep.) for congress. It will require a recount to determine the contest. The vote is almost a tie.

Wisconsin.

Milwaukee, Wis., Nov. 10.—The latest returns from the Second congressional district give Herman B. Dahle, republican, 1,000 majority over James H. Jones, democrat, thus insuring a solid republican congressional delegation from Wisconsin. Later state returns swell Gov. Scofield's plurality to 41,000.

Town.

Des Moless In Nov. 10—All Jowa re-

Des Moines, Ia., Nov. 10.—All lowa republican candidates have been elected by big majorities, as follows: First district, Hedge, 2,00, estimated; Second, Lane, 1,438, actual count: Third. Henderson, 6,273, estimated; Fourth, Haughen, 7,274, estimated; Fifth, Cousins, 5,379, actual; Sixth, Lacey, 1,234, actual; Seventh, Hull, 7,524, actual; Eighth, Hepburn, 3,728, actual; Ninth, McPherson, 4,468, actual; Tenth, Dollivar, 8,624, actual; Eleventh, Thomas, 6,93, estimated. State plurality, 60,675, nearly equaling that of 1896. Michigan.

Michigan.

Detreit, Mich., Nev. 10.—According to more complete returns Gov. Pingree's plurality will reach about 78,600. Pingree's plurality will reach about 78,600. This will be a properionate increase over his plurality of 83,400 of two years ago, the vote cast having been probably about a fourth smaller this year. The republicans have elected a solid representation of 12 congressmen by majorities ranging from 1,100 for Sheldon in the Tweifth (upper peninsula) district. The democrats will have a dozen senators and representatives in the legislature, about equally divided between the two houses. Senator Burrows' reelection now seems absolutely assured, notwithstanding Gov. Pingree strongly favors the candidacy of Albert Pack. Gov. Pingree's railroad taxation measures are regarded as certain of enactment. railroad taxation measures are regarded as certain of enactment.

Lansing, Mich., Nov. 10.—While Gov. Pingree won a great personal victory Tuesday, he failed signally in his campaign against United States Senator Burrows. So many districts had instructed their nominees for Lurrows that the only danger of the latter lay in the probability that the republican majority on joint ballot would be so small that a few legislators could prevent decisive action by refusing to participate in the republican caucus. This danger was not realized, as there will be not to exceed ten fusion legislators out of the entire 132. Burrows claims 75 votes sure, with a chance of increasing the number.

St. Paul, Minn., Nov. 10.—John Lind (silver rep.), with democratic and populist indorsement, who, a few years ago as a republican, represented a Minnesota district in the national congress, will have not less than 10,000 plurality in the state over Eustis (rep.). but Lind is the only fusion candidate to win. His plurality may go several thousand above that stated, Democratic Chairman Rosing putting the figure at between 15,000 and 29,000, which was the claim made by him two days before the election. The balance of the republican ticket will be chosen by majorities even greater than that for Lind. All seven republican congressmen have been elected. Eddy, who was classed as doubtful, claims 3,000 plurality and thinks more may be possible. Morris, in the close Sixth district, has defeated Charles A. Towne by a small margin, but it may exceed his plurality of two years ago, when he won by less than 700. The legislature will be republican, but not by so great a majority as at one time thought. Already 77 republicans are known to have been elected, and but 92 are needed to carry on joint ballot. As fully half of the balance are in the doubtful, because unreported, column, there seems no question of the reelection of United States Senator Davis by this legislature.

St. Louist Nov. 10.—At midnight it is Minnesota.

St. Louis; Now. 10.—At midnight it is conceded by the republicans that John Dougherty (dem!) has been elected in the Third congressional district, James Cooney (dem.) in the Seventh congressional district and Edward S. Robb (dem.) in the Thirteenth congressional district. There is still some doubt about the Fourteenth district, George M. Miley (rep.), in that district, George M. Miley (rep.), in that district, does not concede his defeat by the election of W. D. Vandiver (dem.). The seneral belief of the republicans is, however, that Vandiver is elected. This being true, the democrats have elected 12 congressmen and the republicans three. Champ Clark's (dem.) plurality in the Ninth congressional district is 3.09. Richard P. Bland (dem.) won in the Elighth district by a majority of 8,00. Figures do not change the result of the city election and the republicans have carried their ticket by majorities from 1,200 to 7,000. Missourt.

Pennsylvania. Pennsylvania.

Philadelphia, Nov. 10.—The delegation from Pennsylvania in the next congress will comprise 21 republicans and nine democratis, a democratic gain of six. The present delegation is composed of 27 republicans and three democratis. The districts gained by the democratis are the Eighth, Twelfth, Thirteenth, Seventeanth, Twelft ty-seventh and Twenty-aighth. The successful democrats in these districts.

Davenport, James W. Ryan Rifus K. Polk, Joseph C. Sibley and James K. Polk, Joseph C. Sibley and James K. P. Hall. In each of these districts, except the Seventeenth, the present republican representative was a candidate for reelection. They are in the order named: William S. Kirkpatrick, Morgan B. Williams, Charles N. Brun, Charles W. Stone and William C. Arnold. The Seventeenth districtisnow represented by Monroe H. Kulp. The defeated republican candidate in this district is William H. Woodin. William McAleer, who was reelected from the Third district, is a sound money democrat, and the republicans made no nomination against him.

Philadelphia, Nov. 10.—The complete vote of the state, with four counties missing, give Stone (rep.) 455,782; Jonks (dem.), 333,783; Swallow (pro.) and honest government, 124,437; a plurality for Stone of 122,089, which will be increased to about 125,000 by the complete returns. The total vote in the state will approximate 950,000.

New Jersey.

New Jersey. Newark, N. J., Nov. 10.—The New Jersey legislature will stand exactly as it did last year. On joint ballot the republicans will have 51 votes, against a total democratic

Boston, Nov. 10.—The total vote for governor was: Wolcott (rep.), 190,246; Bruce (dem.), 166,898; republican majority, 83,348.

Delnware.

Edwin Ridgely, of the Third district, will be the only populist congressman from Kansas. The republicans elect two state senators, which gives them 11 members in that body. They also elect 97 representatives out of 125. This gives them a majority of 52 on joint ballot in the legislature, and insures the election of a republican state printer.

North Dakota.

Fargo, N. D., Nov. 10.—All returns arriving from over the state have swelled the republican majority. Spalding, republican nominee, gets the largest vote, and will probably reach a majority of 5,000. The balance of the ticket averages 4,500 to 4,700 except Halland, who may have 1,500 to spare. There was a great landslide on the legislature. Returns show 21 out of 31 senators are sure republican, while in the house 54 republicans out of 62 have been elected, with four more doubtful. This gives the republicans 56 majority on joint ballot, which ought to make a republican successor to Senator Roach certain. South Dakota.

Sioux Falis, S. D., Nov. 10.—Almost complete returns from the state give Phillips (rep.) for governor a majority of 1,200. Later returns will not materially alter this majority. Gamble (rep.) is elected to congress by 4,000 and Burke (rep.) by 3,500. The entire republican state ticket is elected. entire republican state ticket is elected. The legislature will have a republican majority. In 1896 the Black Hills gave a fusion majority of 1,419. Phillips carried that section of the state by 700. Wroming.

Cheyenne, Wyo., Nov. 10.—Wyoming has gone republican on state and congressional tickets in majorities ranging from 1,600 to 1,800 votes. The legislature is also undoubtedly republican and will elect a republican senator to succeed C. D. Clark. Utah.

Salt Lake City, Utah, Nov. 10.—The dem-ocrats have elected Roberts to congress and carried the legislature, which will elect a United States senator.

San Francisco. Nov. 10.—Less than half of the vote of California has been count-cally lill complete precincts out of 2,4% give Gage, republican for governor, 9,540 plurality. At this rate, his vote will be 20,000 in excess of Maguire. It is reasonably sure also that the republicans have ably sure also that the republicans have carried the rest of the state ticket, with the exception, perhaps, of secretary of state and two judges of the supreme court. The vote on these are close, with the chances in favor of the democratic candidates. It is certain that the republicans have gained at least two congressmen, with a third one in doubt. The legislature will be republican.

San Francisco, Nov. 10.—James D. Phelan (Gem.) has been reelected mayor of San Francisco, after a contest of extraordinary keenness.

Salt Lake, Utah, Nov. 10.—Enough returns are at hand to indicate beyond doubt that Baskin (dem.) for supreme court judge has been elected over Zane (rep.). From the best estimate on latest returns the legislature will stand 41 democrats, 18 republicans and 4 fusion. Washington.

Washington.

Seattle, Wash., Nov. 10.—Returns from the state of Washington are yet incomplete, but eneugh are at hand to make it certain that the republicans have overcome the fusion majority of 12.00 two years ago, elected both congressmen and two supreme court justices by a majority of at least 3.00. Later returns will, it is thought, increase rather than decrease this estimate. The legislature, which will elect a United States senator, will be republican on joint ballot by at least 40 out of a membership of 112. This estimate gives the fusionists all the doubtful districts. They retain control of the senate. The legislature now stands: Senate, republicans, 15; fusion, 19. House, republicans, 61; fusion, 17. The two amendments to the state convention—woman suffrage and local option in municipal taxation—are overwhelmingly defeated.

Tennessee.

Nashville, Tenn., Nov. 10.—Complete and partial returns from \$4 out of \$6 counties give McMillin (dem.) an estimated majority of \$5,000 for governor. These figures will, however, be reduced by full returns, and it seems that his majority will be between \$25,000 and \$30,000. The decrease in the republican vote is so phenomenal that an accurate estimate of the total vote in the state is impossible.

Virginia. Richmond, Va., Nov. 10.—Additional re-urns from Tuesday's election make it cer-

Texas. Dallas, Tex., Nov. 10.—State Chairman Bell, of the democratic executive committee, concedes the election of Hawley (rep.) in the Tenth (Galveston) district by a substantial plurality. All other 12 districts, he says, are absolutely safe for the democrats.

Kentucky.

Louisville, Ky., Nov. 10.—The democrtis of Kentucky won a sweeping victory Tuesday by electing nine and possibly ten congressmen out of 11, and prevented the republicans from gaining control of the court of appeals.

Louisville, Ky., Nov. 10.—Five congressional nominees—Fowler, in the Second district; Creel, of the Third; Blanford, of the Fourth: Davison, of the Eighth, and Seitz, of the Tenth district—wired the Louisville Commercial that they would contest the election on account of the Goebel election laws. Pugh, in the Ninth district, has signified his intention of confessing if an investigation satisfies him that he is elected.

West Virginia. West Virginia.

Wheeling, W. Va., Nov. 10.—The republicans have elected two congressmen in West Virginia, sure, Dovener in the First (Wheeling) by 1,800 majority and Freer in the Fourth by 1,000 majority. Both parties claim the Second and Third. Mr. Dayton (rep.) claims his election in the Second by 891 and Edwards (rep.) claims 200 in the Third. Chairman Dawson, of the republican state committee, claims the election of seven republicans and six democrats to the state senate and 40 republicans and 31 democrats to the house of delegates. With the hold-over senators this will give the republicans a majority on joint ballot of 13 and insure the election of a republican United States senator as successor to Faulkner (dem.).

Tragedy in Montreal. Montreal, Can., Nov. 10.-Norman Cole shot and instantly killed Mathilde Lavigueur Wednesday, then turned his revolver on himself and sent a bullet through his brain. The murder and suicide took place in a little candy store kept by the young woman's mother. Ccle left a letter stating that he in-

Six Men Killed and Five Wounded in Brawls in Various Counties in

Texas on Tuesday.

Dallas, Tex., Nov. 10.-Tuesday was a bloody election day in Texas. At Hubbard, Stephens county, Rosere McCarthy, Joseph Ramby and Jefferson Squires were killed and J. F. McCarthy and Riley Squires probably mortally wounded in an election quarrel. At Steuber, in Hopkins county, R. E. Şutton and George Young were killed. William Young is in jail as a party to the killing of Sutton, who had murdered Young's brother. At Aubrey, Denton county, Deputy Sheriff A. Taylor was shot through the neck by Lee Webb and dangerously wounded. He shot Webb through the leg. At Sheffield, in Trinity county, J. W. Ashefield was killed and his father probably fatally wounded by persons whose names have not been learned. Many minor affairs occurred in various parts of the state as the result of election differences.

OUITS THE BENCH. Associate Justice Pinney, of the Wisconsin Supreme Court, Has

Resigned. Madison, Wis., Nov. 10.-Associate Justice Silas U. Pinney, of the state supreme court, handed in his resignation to Gov. Scofield Wednesday, It is understood that Justice Pinney had contemplated the step for some time, but did not come to a final decision in the matter until Wednesday. He has been on the state supreme bench many years, has sat in many important cases. It is understood Judge Pinney's resignation was brought about on account of ill

Comment of the London Press. London, Nov. 10 .- The comment made by the afternoon newspapers here on the result of the elections in the United States is mainly congratulations extended to Col. Roosevelt on his victory in the contest for the governorship of New York state. The Westminster Gazette says: "The elections will give Spain little cause to revive the old hope of a division among the Americans and: the Spanish commissioners will be wise if they abandon all hopes that the democratic successes will prove advantageous to Spain."

WEATHER SIGNS IN THE SOUTH When the Forecasting Was All Done by the Darkies and the Poor "White Trash."

"The prediction of Ezekiel Bouzy, of Maine, the forecaster of winter weather by the goose bone, stirred up some weather recollections of the time when I lived in the south," said a former resident of a Dixie state the other day, says the New York Sun.

"We got our forecasts then from the darkies or from what was called the 'white trash.' When the catin the corner 'washed her face' the housemaid assured her mistress that 'it was goin' to rain.' The severity of the winter was foreshadowed by the industry of the squirrel. If it stored up nuts early, that meant an early freeze and an early snow. If you have ever sat in front of an open fireplace where wood was burned you may remember the different sounds made by different varieties of wood while being consumed. There was one variety which made a noise like the dripping of water from a roof. When a darky heard that he always said: 'It's gwine to snow. Lissen to de snow drappin' in de hot ashes?

"Cornstalks that grew no tassels 'meant something.' Ears of corn which wer**e ir**regular, or peculiar, were a sure 'orecast of a hard winter.' "If the smoke from the old chimney went straight up, good weather for the next day was predicted from the

He or She. The word "ship" is masculine in French, Italian, Spanish and Portuguese, and possesses no sex in Teutonic and Scandinavian. Perhaps it would not be an error to trace the custom back to the Greeks, who called all ships by feminine names, probably out of deference to Athene, goddess of the sea. But the sailor assigns no such reasons. The ship to him is a veritable sweetheart. She possesses a waist, collars, stays, laces, bonnets, ties, ribbons, chain, watches and dozens of other feminine val-

Lightest of All Liquids. Additional experiments by Prof. Dewar have shown that liquid hydrogen is by far the lightest of all known liquids. Its density is one-fourteenth that of water, and, curiously enough, this happens to be the same ratio of density that hydrogen in the gaseous state bears to air. Heretofore the lightest liquid known has been liquified marsh gas, which possesses about

two-fifths the density of water. To Extend Cuban Railways. Washington, Oct. 13 .- Secretary Alger will recommend to congress that the existing railroad system in Cuba be extended so as to form a line running directly from Cape Maysi, at the east end of the island, to Cape Antonio, on the western extremity. He will also recommend that this work be undertaken by the United States government and that congress appropriate the necessary funds. The road is a military necessity, and, moreover, the construction of the railroad will give work to many of the unemployed native laborers. As the road progresses sections of the country will be opened up that are now inaccessible to trade.

Apostolic Delegate to Cuba. Washington, Oct. 13. - Cardinal Gibbons, who is here attending the meeting of the archbishops of the Catholic university, received a cablegram from Rome Wednesday announcing that the pope has appointed Archbishop Chappelle, of New Orleans, as apostolic delegate to Cuba. He will retain his position at New Orleans, his new field being a special mission. Archbishop Chapnelle is now in Rome.

Given Comfortable Quarters New York, Oct. 13.—A hundred and sixty soldiers from the Obdam, which arrived Tuesday, were taken in charge by Miss Helen Gould's agent Wednesday and comfortably housed in "Camp Walworth," on East Fifteenth street. The men are members of the First Kentucky, Fourth Ohio, Third Wisconsin, Twelfth Wisconsin and First United States volunteer engineer corps.

GOT EVEN WITH THE HOUSE. How a Saratoga Waiter Turned the Balance of a Damage Ac-

count. With summer hotels closed and winter resorts in the south still suffering on account of the war, there are hundreds of waiters out of work, and they spend their days in the various offices and resorts where people are likely to go when they look for a colored man servant, says the New York Tribune. There accounts of summer experi-

ences are exchanged, and landlor

head waiters' good and bad qualities

discussed "I got the best of our boss last summer," said one waiter who had served his term at Saratoga. "We had to pay 25 cents apiece for everything we broke, and one week I had three pieces to pay for, and every cent came hard because the horses didn't come right for me that week. It didn't make any difference if the piece was a teacup or a teapot, it was 25 cents apiece, and on pay day I just dropped a big vegetable dish for luck. It made the 75 cents one dollar, but I got even with the

banquet was afterward spread. The Japan Mail says a petition has been sent to the government by foreign consuls requesting that beheading be discontinued.

Extraordinary Marriage Vows. An English rural clergyman says that in his parish it was quite the fashion for the man, when giving the ring in the marriage ceremony, to say to the woman: "With my body I thee wash up, and with all my hurdle goods I thee and thou." He said the women were better up in this part of the service than the men. One day, however, a bride startled him by promising, in what she supposed to be the language of the Prayer book, to take her husband "to 'ave and to 'old from this day forni't for betterer horse, for richerer power, in siggerness health, to love cherries and to bay." What meaning this extraordinary vow conveyed to

SCHOOL NOTES.

BUCHANAN SCHOOLS. пісн вспоот.

The class in Botan - have begun the study of seeds and fruits. Mr. Niles of Benton Harbor was visitor at the High school, last week. The Chemical laborartory is being nicely fitted np with a new stock of

chemicals and apparatus. Mr. Churchill, kindly loaned a valuble fossil for the benefit of the class in physical Geography. It is the petrified vertebra of a whale and was found in Montana. The High school Engilsh class is

making a critical study of Macbeth. Miss Edna Morgan is obliged to leave school for the present, owing ill health. The Algebra class has begun the

study of fraction. EIGHTH GRADE. Lenora Churchill has made a very good representation of the paper design hanging in Mr. Runner's win-

Mabel Powers and Murry Harner nave entered, making an enrollment

of 47 pupils. Gracic Corbus brought in the most peautiful autumn leaf. Gean Earle showed the best tastes in the arrangement of her leaves. The decision

was made by vote of the school. Tuesday morning Division I in Civil Government discussed the question: Should farmers living outside the corporation be taxed to help keep up the village?

The President of the class, Clevie Brant, has appointed a committee to arrange a Thanksgiving program to take place Thursday evening, Nov. 25, at the home of Lee Mead.

Cora Smith, who has been absent from school for about three weeks on account of sickness, is back again. Elmer Power is a new pupil in the

FIFTH GRADE. Libbie Chambers is back in school again.

Ruth East and Winifred Wooden are absent on account of sickness. The language classes have been writing stories about "The Migra-

tion of Birds," Mrs. A. Mead. Misses Edna Spaulding and Mabel Redden and Mr. Frank Sawin were visitors last week.

FOURTH GRADE. Cecil Raymond and Fred Roc are organists, this week. Following are the names of pupils

who have been neither tardy or absent during tne year: Lucile Brocket, Nate Brown, Merle Eldredge, Eva File, Ward Hamilton, Ralph Hamilton, Claude McGowen, Clifford Peters, Fred Roe, Carl Tourje, Effic Vite, Cora White, Zelda Wooden, Earl Camp, and Laverne Elliott.

We have had several visitors durng the week.

In the spelling contest, Friday, there were four pupils, Gertrude Leonard, .Cecil Raymond, Florence Schwartz, and Lucile Brockett, who could not be spelled down on the words leaned during the year. THIRD GRADE.

The pupils are preparing an exercise for Thanksgiving. Julia Long is absent on account of

SECOND GRADE. Story of Pilgrim Fathers' first

Thanksgiving. Development of the idea of giving. Mrs. Phineas Binns very kindly sent some of the cocoons of the silk worm, which has added much to the interest in the story of Pense, the little Chinese Girl.

This is Whittier month the story of his life has been taken up for additional reading and some of his shorter poems are being memorized. A beautiful geranium, the gift of Arthur Harper adds to the cheerfulness of our school room.

FIRST GRADE. Every pupil belonging to 1st grade

was present on Friday. In the spelling contest on Friday, of all the words learned during the year the following could not be spelled down: Irma Deisner, Kenneth Peters, Warren Avery, Goldie Edgin, James Aldrich.

Dana Avery is back in school this The children are drawing Thanksgiving turkeys.

and the second s OBITUARY.

CATHERINE FRASCHLA (nee Keller) as born in Lorain county, Obio, June 20, 1836. She came to Michigan with her parents in 1851, and was united in marriage to Andrew Fraschla in Sept. 1860. This umion was blessed with two children, Mary and Anna, both living at New Troy, Mich. She was converted when 18 years of age and united with the Evangelical church, to which she proved faithful until her death, Nov. 4, 1898. Her last words were, "I trust".

The funeral took place on Sunday, Nov. 6, from the M. E. church of New Troy, in the presence of a large concourse of people. The services were conducted by Rev. F. C. Berger, assisted by I. H. Ewing. Besides her two daughters, she leaves dredged from great depth often reach two grand-children, one brother, two the surface in a most lamentable condition, with eyes protruding and viscora sisters and a large circle of friends The said bearing the said of the to mourn her departure.

Estate of Wilson Womer, deceased. First publication October 20, 1898.

NATE OF MICHIGAN, County of Berrien, —ss. NAt a session of the Probate Court for said County, held at the Probate office, in the city of St Joseph, on the 17th day of October, in the year one thousand eight hundred and ninety-eight.

Present, JACOB J. VAN RIPEN, Judge of Probate. In the matter of the estate of Wilson Womer, deceased.

In the matter of the estate of Wilson Womer, deceased.

On reading and filing the petition, duly verified, of Ella J. Womer, praying that administration of said estate may be granted to 'Percival Rongh, or to some other suitable person.'

Thereupon it is ordered, that Monday, the 14th day of November, next, at ten o'clock in the fore noon be assigned for the hearing of said petitions and that the heirs at law of said deceased and all other persons interested in said estate are required to appear at a session of said court, then to be holden in the Probate office, in the city of St. Joseph, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that the said petitioner give notice to the persons interested in said estate, of the pendency of said petition and the hearing thereof, by causing a copy-of this order to be published in the Brchanan Record, a newspaper printed and circulated in said county, three successive weeks previous to said day of hearing.

SEND ALL ORDERS TO THE BE CORD

Massachusetts.

Wilmington, Del., Nov. 10.—Revised returns show that the senate will be democratic by 9 to 8 and the house republican by 21 to 14, vote on joint ballot, 29 to 28.

The control of the state senate by the democrats will prevent any partisan legislation by the republican majority, even without respect to the veto power of Gov. Tunnell, who is a democrat.

The republicans will thus elect a United States senator in place of Gray (dem.).

Colorado. Colorado.

Denver, Col., Nov. 10.—The entire fusion state ticket, headed by Charles S. Thomas for governor, is elected by a majority approximating about 30,000. This is by far the largest majority ever given a condition approximating about 30,000. This is by far the largest majority ever given a candidate for governor in Colorado, but is less than half of Bryan's majority for president. Aranahoe county, including Denver, gave about 10,000 fusion majority, and El Paso county, including Colorado Springs, 4,000. The republicans won in only the counties in the eastern part of the state. Of 17 hold-over state senators it appears the republicans have secured two, and in three districts the result is doubtful. The fusionists have an overwhelming majority in the legislature.

Nebraska.

Lincoln. Neb., Nov. 10.—Returns by coun-

Nebruska.

Lincoln, Neb., Noy. 10.—Returns by counties, which come with provoking slowness, indicate a scaling off of republican gains of Tuesday right and Wednesday, making the state ticket in doubt, and so close that an official count may be required. The legislature is probably republican on joint ballot, but Senator Allen will not concede it. Neither state committee made such extravagant claims as on Tuesday night. Secretary Thompson, of the fusion committee, conceded the election of republican congressmen in the First and Second districts, but claimed the other four, admitting Fourth and Fifth were close. On the state ticket and legislature he said: "The result is in doubt and may not be known until official count is made." Chairman Schneider, of the republican committee, said he could see no reason to materially change his previous estimate of 3,000 to 5,000 for state ticket. The legislature, he said, was republican, sure.

Kansas.

Topeka, Kan., Nov. 10.—The latest returns indicate that the plurality of Stanley, republican candidate for governor, will probably reach 18,000. Taylor Riddle, the populist state chairman, makes no further claims, and practically concedes the defeat of Vincent for congress in the Fifth, and of Jerry Simpson in the Seventh. The republican leaders confidently claim that Chester I. Long has defeated Simpson in the Seventh, and that W. A. Calderhead has defeated Congressman Vincent in the Fifth. If these claims shall prove correct Edwin Ridgely, of the Third district, will be the only populist Congressman from

California.

Tennessee.

Helena, Mont., Nov. 10.—Campbell (dem.) is elected to congress by a plurality exceeding 4,000. The legislature is demoratic by a decided majority. Complete returns will not alter materially the situation as stated.

tain that the democrats carried every congressional district.

Oklahoma. Guthrie, Okla., Nov. 10.—The republicans have been victorious in Oklahoma. Denhave been victorious in Oklahoma. Dennis T. Flynn (rep.) is elected delegate to congress by probably 6,000 plurality; both branches of the territorial legislature are safely republican, and the republicans claim to have elected their local tickets in a majority of the counties.

tended to kill himself for love of Mathilde Layloneph

BLOODY ELECTION DAY.

The ease with which brakemen on railroad trains remove from passengers' eyes cinders which fly into them every time the engine sends out a puff of smoke is a cause for comment. On a New York Central train running between here and Niagara Falls is a young man who is a genius and an occulist, and his services are in great demand. It is whispered among the trainhands that his income is very largely increased through his ability and that gratifude after the removal of the disturbing cinder is not measured and his largesse is real and in proportion to the pain borne by the

of the New York Central service withwhom I talked recently while on a train for Niagara Falls told me that he was kept busy after the train had crossed the Harlem bridge in remov-"They accumulate in the tunnel," he said, "and I always walk through the train after we leave the One Hundred and Thirty-eighth street station and relieve the sufferers. By that time they have succeeded in rubbing the cinder into a bad corner and are ready for any kind of treatment. When I

times over." AMERICANS ARE GIANTS.

The Puerto Ricans, who as a rule are rather undersized, have reached the conclusion that Americans are giants. This iden'is largely due to the fact that in the first regiments landed at Ponce extremely tall men predominated. A correspondent of the New York Sun writes: "Among the big and hand-some men of Gen. Wilson's staff is Maj. Hoyle, the ordnance officer. He is tall and although trim of figure solid. He stepped into a native shop recently to get some matches. After he had been vaited on and was about to go out the proprietor beckoned to him. The gesture, Maj. Hoyle says, was such as back country storekeeper in America would use to indicate that he wanted you to step into a back room and try a nip of moonshine whisky. Maj. Hoyle says he has accepted such invitations frequently, but upon this occasion it was his intention to refuse, and he was brushing up the Spanish in his mind to say so when the man's manner overcame his scruples and he followed him in. They went through a winding passage and presently emerged into a back apartment. Here, however, instead of finding a bottle with whisky clear as water, such as the moonshiner makes, there stood some platform scales, and

and Children. According to late Vancouver (B. C.) mail advices from China eight subordinate leaders of the Kwangski rebellion have been beheaded at Wu Chow. They were carried in baskets through the principal streets as a warning spectacle amid the laughter and jeers of men, women and children. Ten thousand people witnessed the decapitation and made it a gala day. Little children copied their parents who joked at the dying rebels a second

the children played among the headless, bleeding corpses and made sport Mandarins and headmen improvised a sort of May pole and the heads of the rebels were placed on top in tiers, the children dancing around them. The governor advised the mandarins to make the beheading as festive as possible, so as to inspire disgust for the
