OBITUARY. J. W. SCHERMERHORN Sr., died, at his home near Buchanan, Michigan, Wednesday, March 22, 1899. Mr. Schermerhorn had been in failing health for some months, but was confined to his bed only for about two weeks prior to his death. He was born in Schenectady county, New York, April 20, 1824, and, with his parents, removed to St. Joseph county, Michigan, at the age of ten years and during his residence in said county, was, for about 20 years, engaged in the mercantile business at Nottawa. In the spring of 1893 Mr. Schermerhorn removed from Nottawa to his farm four miles west of Buchanan, where he resided at the time of his death. He is survived by his wife Mary E. and seven children, William, John Jr., Sylvia and Susie of Springfield Ill., Charles of Peoria, Ill., and Norman and Marion, who reside with their mother on the farm, all of whom were in attendance at his bedside during the last few days of his illness. The remains were taken to Nottawa, Mich., this (Thursday) morning for interment. Rev. Jas. Provan accompanying the funeral party.

An Old Injury Causes Trouble. Some eighteen months ago Mr. Gotlieb Kramer who resides near Glendora, sustained a fall from a wagon, and has been troubled from injuries sustained by his head. Last Saturday Dr. Henderson who has attended him, resolved to resort to the operation of trepanning in hopes of affording Mr. Kramer some relief. The operation was successfully performed by Dr. Henderson assisted by Dr. J. A. Garland, a piece of bone about the size of a silver quarter being removed. Dr. Henderson found that one cause of the difficulty was due to a fall received by Mr. Kramer when a lad of twelve. He had sustained a bad fall upon a barn floor which at the time did not cause any inconvenience. When Dr. Henderson came to remove the bone he found that the membranes of the brain had grown fast to the depressed portion of the skull, and that the recent fall had aggravated the injuries received so long ago, and this had caused all of the suffering endured by Mr. Kramer. After the operation Mr. Kramer's condition seemed greatly improved.

Call and see Claude Moulton for a fine job of paper hanging. Ladies don't fail to attend the Easter Millinery Opening at the Presbyterian Church Basement, Friday evening, March 24th. Men trimmers.

REPUBLICAN NOMINATION.

STATE TICKET.
For Justice of Supreme Court—
CLAUDIUS B. GRANT, of Marquette
For Regents of University—
ELI R. SUTTON, of Wayne.
HENRY S. DEAN, of Washtenaw.

JUDICIAL.
For Circuit Judge, Second District—
ORVILLE W. WOOLIDGE, of Niles
COUNTY TICKET.
For School Commissioner—
ERNEST P. CLARKE, of St. Joseph.

The Republican Ticket.

As election day approaches, the wisdom exercised by the Republicans state convention in renominating Judge Claudius B. Grant, becomes more apparent. He is a man invulnerable to attack from any quarter. Furthermore, he is a man around whom the citizens and voters rally without reference to previous party affiliations. The citizens of Berrien are essentially law abiding people, and they believe with Judge Grant that the laws are made to be enforced. Judge Grant has never dodged an issue.

No doubt exists as to his position on questions of public importance. He is absolutely fearless in the discharge of his duties as a judge, and the question of personal expediency receives no consideration at his hands. Much has been said to the effect that Judge Grant is a prohibitionist, and that he advocates a complete eradication of the liquor traffic. Not one word can be found in any public utterance of his to confirm this statement. To the contrary, he has ever advocated this and nothing more; that the laws as they appear on our statute books should be enforced. He asks nothing more and refuses to accept less. If any law on the statute books is either inherently wrong or burdensome to the people, he holds that it should be repealed. There is not a law abiding citizen in Michigan who will take issue with Judge Grant on this proposition. It is not because he has sometimes advocated the enforcement of the law, but that he has insisted upon the absolute enforcement of all laws at all times irrespective of party and personal expediency that we admire him. Judge Grant brings to the Supreme bench a dignity which we all expect to find in that august body. The interests of the common people are near and dear to him.

He is now in the very prime of his magnificent manhood. Strong and vigorous mentally and physically, he is better prepared than ever before to give to the intricate problems which confront the court of last resort of our state the benefit of his experience on the bench, together with his masterful grasp of the ethics of his profession. The soldiers of 1861—1865 who served with him in the rebellion of that period are loud in his praise, and it is safe to say that the man who stood so close to the common people then cannot have drifted far astray in the years which have intervened.

For Regents of the University of Michigan appear the names of Col. Henry S. Dean and Col. Eli R. Sutton. Both are strong men and in accepting this nomination are prompted by motives of purest patriotism, namely, the welfare of our great university.

The ticket is a strong one. It appeals to the sober, intelligent voter irrespective of party. The legal profession, the business man, the laboring man, and the boys of the Grand Army will rally around this ticket in April and give it the stamp of their approval.

Harsen D. Smith Appointed.
Harsen D. Smith, of Cassopolis, has been appointed judge by Governor Pingree of the thirty-sixth judicial circuit, comprising Cass and Vac Buren counties, to fill the vacancy caused by the creation of the new circuit. He will hold office until next January and his commission is a reward for withdrawing from the judicial contest at Lawton.

A Handsome Easter Souvenir.
The Publishers of *The Detroit Free Press* will give absolutely free to all subscribers and purchasers of *The Sunday Free Press* of April 2nd, a handsome Colored Supplement, size 8x12. Notwithstanding the great expense of getting out this beautiful picture no increase will be made in the price of paper, and consequently there will be an enormous demand. We would therefore advise those who wish to get one to place their order with their newsdealer or newsboy at once.

POULTRY YARD

Our readers are invited to send in any questions for information on this subject, and any communications bearing on poultry will be received with pleasure and will be fully discussed in this column.

PRODUCTION AND COST.
In experiments with several breeds it was found that results varied according to size and breed. The Dorkings laid 130 eggs per year, the average weight of the eggs being 2 ounces, or 8 to the pound. This gives 10 1/2 pounds of eggs per year. The food eaten per day was six ounces, or nearly 137 pounds for the year. This was heavy feeding, and consisted of variety of grain and grass, being over a pound of food for each egg apparently, but it must be considered that a large portion of the food was directed to growth, as the record was kept from the first six months of age to one year and one-half. And the birds were also kept over winter, when a large amount of food was directed to heat. The production of eggs was good, but as the birds were forced the cost was excessive, though the cocks had made ten pounds growth when six months old.

HARD GRAINS THE BEST.
The only advantage in feeding soft food is that in such shape the corn meal, condition powder, medicine, cooked meat, or general mixture may be more easily fed, but the best food is whole grains. Hens will not prefer soft food if they can get hard grains unless it be that the soft food contains material of which they are in need. Early in the morning is the best time for feeding soft food, as then the hens can more quickly digest it and appease their hunger, but they should go on the roosts at night with their crops full of hard grain. Fowls often refuse grain when but one kind only is allowed. This is because the system demands something which the grain does not supply, and a change is required. Whenever the hens refuse to eat grain that they have been receiving, such as wheat, give them oats, and if in cold weather give corn, and it may be noticed that they will eat as if very hungry. After a week or more they will want the old kind again. For this reason—the necessity of a change—the food should consist of a variety, in order that all the wants of the fowls may be satisfied.

WATER FOR CHICKS.
It has been urged that very young chicks should not be given water to drink, and some claim that the chicks do best under such treatment. The giving of water depends upon how the chicks are fed. If the food is soft it will contain sufficient water if the weather is not very warm, or the chicks subjected to a high degree of warmth—about 100 degrees—as the warmth will create thirst. If hard food only is given the chicks must have water, or the food cannot be digested and assimilated. Before the food can nourish the system it must be converted into blood, and as blood is composed largely of water the water must be provided, either as drink or in the soft food. It is also claimed that chicks do best when they are allowed no water, but this claim rests upon the fact that in the majority of cases the water is given in such a manner as to cause them to get damp, which is more injurious than anything else. If chicks are given all the water they can drink, but in a vessel so arranged that they can get at the water with their beaks only, they will thrive.

GUINEA FOWLS.
By watching the guineas the hens will always make known their hiding places after laying, as they are noisy. They should not be allowed to hatch and raise their own young, as they get them too wild and untamable. When the eggs are not taken from the nests the result is sometimes a loss, as foxes, minks, and snakes may secure them. Guinea fowls should be fed at the barnyard every evening in order to induce them to come up at night.

MAKING FOR BEST RESULTS.
There should always be a disparity in the ages of the males and females if possible. When cockerels and pullets are mated the eggs do not hatch well at first. The rule is to mate cockerels with hens, and cocks (birds over one year old) with pullets. A two-year old drake should always be with young ducks, while the mating of geese of the same age, when they are young, usually results in failure. The keeping of young gobblers should be done away with, as a two-year old male with yearling hens, gives stronger young ones.

ACTIVE FORAGERS.
The best hens for sitters are those that are active and of medium size. A clumsy hen should not be used. Small and active hens also usually make excellent layers, as they do not become fat so readily. As long as a hen is laying regularly, there is but

little liability of her becoming too fat, as the production of eggs demands all the nutriment of the food, but such food should not consist largely of corn or corn meal. As soon as a hen ceases to lay she will become fat, and the food should then consist principally of grass, with grain at night. Hens that are too small fly over tall fences, while those too large are clumsy, and the best for general purposes is one of medium size.
P. H. JACOBS.

Arden Mich., 3-15 '99.

While the readers of this bright newsy paper have, the high prices paid for eggs the past winter fresh in their minds, I did not know but it would be a timely subject to refer to a former article in these columns, "Does Poultry Pay." At Benton Harbor for a few days eggs brought sixty cents per dozen and for a period of two or three weeks forty cents per dozen. Had they been a dollar per dozen they could not have been had: because they were none on the market. Look up Chicago's winter prices and you will find them sixty cents and scarce at that figure. At this time of the year think well before you set your hens. Look out for the variety that will give you the most eggs in the winter when eggs are high; and then get eggs from those varieties and be ready for the time when you can make a good days pay by properly taking care of your laying pullets. The feed and care of laying hens in the winter is a problem hard to solve for some; but, think when you can do hard work on wholly corn or wheat and water you need a more strengthening food with this and you can stand it and feel that you can take hold with will and have pleasant smile on your countenance while doing so. Give them vegetables and meat: This used judiciously with your corn and wheat will fill your egg basket and that means money in your pocket. Make them work for all they get in litter and have some grit near by to grind their food and I am positive you will reap a beautiful reward. To get winter laying hens you must get them out not later than April 1st for the large breeds and not later than May 1st for the smaller kinds.

Keep their quarters clean and free from the louse and Mrs. Hen will please your eye by depositing a beautiful egg nearly each day to show you her appreciation for the kind care you bestow upon her.

Yours truly,
R. F. GREEN.

BUCHANAN RECORD.
THURSDAY, MAR. 23, 1899.

Entered at the Post-office at Buchanan, Mich., as second-class matter.

Only 100 out of a possible 100 of the weekly newspapers in Michigan are accorded a circulation in actual figures by the American Newspaper Directory for 1898, and the publishers of the Buchanan Record will guarantee the accuracy of its rating by a reward of one hundred dollars to the first person who successfully accuses it. Advertisers should note the fact that the Buchanan Record is one of the few that are not afraid to let their customers know just what they are buying.

Miss Jennie Churchill will sing a Solo at the Christian church next Sunday evening.

If any one is at all interested in mechanics they should just walk down Oak street and see the automatic pumping arrangement used by Liverman W. D. House.

The members of the U. B. church made their pastor and his wife a very pleasant surprise last Friday evening; a nice donation was left, and the social hour was greatly enjoyed by all present.

The members of the Presbyterian church gave their pastor Rev. Jas. Provan a pound surprise party, Monday evening. Every one present enjoyed themselves hugely and the surprise was a complete one.

The Michigan Central have been building a new bridge on the road between here and Niles, completing the structure last week. The bridge is a fine steel structure and will be an improvement over the old wooden bridge.

Last week's issue of Success had a fine article, and an excellent half tone portrait of Gov. John R. Rogers of Washington. Our readers will remember that Gov. Rogers is the brother of Mrs. L. H. Dodd of Buchanan, and Mrs. H. C. Storm of Benton Harbor.

In our list of real estate changes will be seen several transfers of Buchanan property. Mr. J. A. Arthur having purchased the building occupied by Richards & Emerson on Main street. Mr. Ed. Bird has purchased the property lot 7, block c of the A. C. Day addition to the Village, and Mr. J. K. Woods has purchased the Atwood house on Detroit street.

The Self Culture Class will meet at Mrs. M. Dodd's, Friday, March, 31st.

PROGRAM.
Roll Call.—Current events.
History—1779 to 1780.
Reading—Washington Irving, Miss C. Hubbell.
Recitation—Lexington, Miss C. Smith.
Reading—"The Battle of Monmouth," Mrs. F. White.
Music, Miss C. Hubbell.
Bible Study, Mrs. M. East.

Just the Thing for Sugar Beets.
Mr. Geo. H. Black manufacturer of the celebrated "Queen of the Garden" cultivator has found a new use for his machine. A firm in the sugar beet belt of Nebraska writes him that his weeder attachment is just the thing for sugar beet culture and asking exclusive sale of the implement in that section. Mr. Black's orders are coming in with a rush this season showing that much better times are at hand.

A Great Music Offer.
What is said to be one of the most original and fascinating pieces of music for piano entitled "Flight of the Butterflies" by Rad. Knauer has just been published. Every piano performer should send for it. To introduce it, the publishers will mail a copy of this fine piece and their music roll containing 18 pages of popular music arranged for piano and organ on receipt of 50 cents. Address: POPULAR MUSIC CO., Indianapolis, Ind.

Peach Orchard Ruined.
Mr. James R. White who is one of our prominent fruit growers, has been very successful in raising peaches. He has had a fine orchard of fifteen hundred thirty trees but he informed a Record representative that his entire orchard was killed by the recent severe cold weather, not a single tree remaining alive. Mr. White also states that every orchard he has visited shows practically the same result. This will mean that home grown peaches will be very scarce in this section this coming season.

R. G. Dan's Review says—In business, this year cannot be compared with any other. It can be said that payments through the principal clearing houses for the past week have been 87.4 per cent. greater than in 1898, and 45.6 per cent. greater than in 1899, but that exaggerates the gain in some branches of business, while in others it falls far short of the gain.

Thus the February exports of manufactured products have about doubled since 1892. Omitting New York clearings, where speculation in stocks is most active, payments through the other principal clearing houses for the same week show increase of 87.0 per cent. over 1892, and 27.1 per cent. over last year. But without regard to such details all realize that the volume of business in all branches is the greatest ever known. Such performances as the rise in Sugar on Thursday from \$14 to \$17.75 and its reaction to \$15 within an hour have not much to do with real business, but show the inflammable state of public feeling.

EDUCATIONAL.
SCHOOL NOTES.

BUCHANAN SCHOOLS.
Miss Robinson, science teacher, will pass her vacation at her home in Ann Arbor. Miss Bary, language teacher, will visit Chicago during vacation. The Schoolmasters of Michigan meet at Ypsilanti March 31. The Northern Indiana Teachers meet at Fort Wayne, Ind. the same date; also there will be a teachers meeting at the Auditorium, Chicago, the same date. One would be at a loss which to attend.

The health officer will fumigate the school buildings vacation week.

EIGHTH GRADE.
Last week the school was divided into four divisions and series of contests were given to determine who is our best grammarian. Friday came finding four remaining on the floor—Theoda Treat, Cleve Brant, Jay Wells, Elsie Smith. A special exercise was arranged for these four, the contest resulting in a victory for Elsie Smith. The final mistake was made in disposing of the infinitive in the sentence, "My friend is about to leave us."

Theodor Treat has supplied each pupil with a booklet containing the history of our flag. We shall use them in the U. S. history class.

Lazell Riley brought into Friday's History class blocks from the Charter Oak and from Perry's battleship "Lawrence."

The following pupils stood 100 in the oral examination in Grammar Tuesday:—Division I.—Ward Smith, Fred Knight, Ivey Shook, Leah Ray, Orna Babcock, Cleve Brant, Jean Earl, Lee Mead, Clinton Vorhees, Edna Pollock. Division II.—Hazel Miles, Lazell Riley, Vera Jennings, Lee White, Walter East, Mabel Kissinger, Daisy Dalrymple, Jay Wells, Grace Mutchler, Theoda Treat, Eva Morris, Walter Koons, Dan Merson, Glen Baker, Netta Burt.

Next week the Grammar class will have some practice in proof-reading. Original proof sheets from the Record office will be obtained for the purpose.

SEVENTH GRADE.
Those standing 100 in Arithmetic last week are: John Cunningham, Manna Fyell, Hazel Thayer, Fred Tourje and Oufbret Rance.

In a reading contest Tuesday, the class voted Clarence Van Every to have read the best.

Credit marks are given for neatness. There is quite an improvement in the looks of the interior of the desks.

Historical cards of Michigan are being used the first fifteen minutes of each morning. Friday afternoon, we are going to choose sides and have a contest.

Some good compositions on "Twenty-five Years from now" were handed in Friday. The best ones being those of Louis Rumber, Rex Lamb, Edith Shinn, Maude Scott, Roy Glover, Ethel Stryker, and John Cunningham.

SIXTH GRADE.
Walter Clevenger, who was out of school last week, is with us again. Little Mabel Paul visited us last Friday afternoon.

Some good reproductions of the story, Rip Van Winkle, were handed in by the language classes this week. Celia Aldrich has left school, her parents having moved to Niles.

FIFTH GRADE.
Robert Davis has returned to school. Della Batten is absent on account of sickness.

We have finished reading the story of "Little Blue Hood."

Some very good maps of the New England states have been drawn this week.

The A division are reading stories about Columbus in which the pupils are much interested.

The following pupils stood 100 in arithmetic last week: Elmer Ray, Fanny Mead, Bessie Davis, Eva Jepson and Margaret Devin.

FOURTH GRADE.
Some fine specimens of coral have been brought in to illustrate the lesson on that subject.

Vacation will be cordially welcomed by all. Several of the pupils are planning to spend the week out of town.

Frank Pollock brought us an interesting account of how beet sugar is made.

An item box for school uses is a new feature. Hereafter the pupils will furnish at least a part of the items each week.

THIRD GRADE.
Mary Aldrich has moved with her parents to Niles. Alfred Fox is a new pupil. Richard Henderson has been absent on account of sickness. Mrs. Mattie Hiberling was a visitor Monday.

In a test in spelling Monday the following pupils spelled all the words correctly: Cloyd Treat, Myrtle Jepson, Mary Glidden, Ross Batten, Louise Arrey, Glenn Kugler, Iva McGowan, Irene Trontferer, George Wood, Julia Long, Harry Beistle, Agnes Walker, Blanch Metz, Floyd Gardner, Fred Clark.

Topics of nature study for March are: The children of Holland, Transportation by water, the wind as a force, Boats, wind-mills, mills, Story of Robert Fulton and the first steam boat, What we live in, The carpenter, The Woodman, The Awakening of Spring, The study of buds, The Wil-

Shooting the Nile Rapids. Arab boys are expert swimmers, and, like boys in general, are fond of displaying their skill before strangers, if only they are rewarded by some small coin. They shoot the rapids of the Nile in the following manner:

Seating themselves astride a log of wood about six feet long, and buoyant enough to support them waist high out of the water, they ride it with the seat and gestures of a jockey, and with hands and feet keep it straight with the line of the current.

The fall is shot with an ease and grace that does away with the sense of danger one would expect to feel at seeing a man hurried along amid such a pull and turmoil of waters; but once at the bottom they have a hard struggle to induce their horses to turn out of the course.

To do this they avail themselves of the impetus acquired by the log in its shot, and throwing themselves full length upon it, they seem, with a sudden stroke from the left leg and arm, to drive it and themselves out of the current.

To fall in this would be dangerous even to a babbling stripling. Immediately below lie the ugly rocks, on which the heavy stream breaks with fearful violence.

A King's Ambition.
The little King of Spain, Alfonso XIII, has his boyish ambitions, it seems, even though he is a king. He is now six years old, and he is no longer a "baby king." Recently, it is related by a correspondent at Madrid, the celebrated sculptor, Senor Querol, was engaged to make a statue of the young king.

The sculptor had great difficulty in finding a pose for his subject, which should be at once spirited and natural, and sat one day in a brown study, regarding the boy as he looked out at the window.

All at once the sound of a band of music was heard in the street. The king sprang up, and brought his hand to his forehead in the military salute.

"The flag, sir! The flag!" the boy exclaimed. "Salute it!"

The sculptor had found the pose he sought, and made his statue represent the king in the act of saluting his country's flag.

As he was at work, the boy asked the artist, "Are you going to make me big?"

"The statue will represent your majesty a little larger than you are," said Senor Querol.

"Well," said the six-year-old, "I want you to make me very big, with a long mustache."

Within Driving Distance of Elkhart.

There are hundreds and perhaps thousands of people who are in need of vehicles and harness, who live within easy driving distance of our factories. They may not know that right here in Elkhart, right at home, we have the most extensive manufacturing of vehicles and harness in the world selling goods to the consumer direct.

Being close at hand they could easily drive in and spend some time profitably in looking through our large repository and show rooms, where everything we make can be seen and carefully examined before buying.

WE HAVE NO AGENTS

and you cannot buy our vehicles and harness from dealers or agents. WE SELL TO THE CONSUMER DIRECT and thereby save you an average of about 80 per cent on the first cost. This is a saving worth consideration by every careful man.

We Make 170 Styles of Vehicles and 65 Styles of Harness.

You take no risk in buying from us, for if you come in to examine the goods for yourself there can be no doubt left in your mind as to quality, style, finish, etc. If you should send in your order by mail we will ship anything you may select subject to your examination and guarantee entire satisfaction. Better drive in and see us. We shall be pleased to show you through our factories where you can see just how everything is made, and through our warehouses where you can see how the goods look when finished. If it is not convenient for you to come in, send for our large free illustrated catalogue. You can buy with perfect assurance and safety from its pages. A postal card will bring a copy.
