Buchanan's Opportunity.

We publish elsewhere an article relative to the proposition submitted by the Beckwith estate to our citizens. This proposition is submitted in good faith by a concern that is abundantly able to fulfill any and all promises made, it should be carefully considered and should not be lightly treated. The future prosperity of our village depends upon the manufacturing and industrial conditions, and if our citizens want Buchanan to grow more factories must be secured, and that means more business done by our merchants. Think over to the matter carefully and then come to the meeting, Friday, and be prepared to act promptly and decisively.

Commencement Folders.

We are in receipt of a full line of commencement and graduation folders which we will be pleased to show to all who are interested. The prices are right, and the folders are beautiful. If you are interested call at the Record office and see them.

Samuel Neely, of Benton Harbor, has been granted an increase of pension.

The township and village assessors are out on the war path. Be prepared to hold up your hand and make a statement as to your taxable property.

Edwards Bros, who conducted the Boston Store for over a year, have removed their stock to Colan, Mich., where they will engage in business at that place.

The delivery team of G. E. Smith & Co., grocers, created a little diversion by taking a run for exercise, yesterday morning. No great damage except a bent axle on a buggy that happened to be in the way.

Mr. Chris Myer purchased a cow of Mr. Chas. Hoffman, on Tuesday, and in taking the animal through town, furnished amusement for the entire business portion, as the cow had some decided objections.

The Michigan State Board of Health has re-elected Hon. Frank Wells as President for the ensuing two years. In his biennial address President Wells congratulated the members of the board on their successful work of the past two years. A committee was appointed to arrange for a conference of local health officers, with the state board, about the latter part of June.

The office of the Cross Roads Weekly, at Metamora, was sacked Saturday night, the presses smashed and the type piled. Enemies of Editor E. E. Doty are accused of perpetrating the outrage. The loss is \$1,000. Three traps are in jail at Lapeer charged with being concerned in the wrecking of the office. It is supposed the men were hired to do the job.

Miss Addie Kelsey entertained a number of her Buchanan friends, Tuesday evening. The evening was passed very pleasantly with recitations and games, dainty refreshments being served at the conclusion of the games. Those present from Buchanan were, Misses Carrie Boyle, Minnie Shafer, Carrie Shafer, Winifred Noble, Alice Slocum, Florence Redden, Lulu Morris, Lou Moulton, Edith Logan, Daisy Emery and Mrs. W. R. Hicks.

In my greatest affliction, I remember to thank those who have so generously done all they possibly could to assist me when in need and make my burden as light as possible. I hope I may be called to mourn a great loss as I have met.

F. H. WEISGERBER.

NOW IS YOUR CHANCE.

If You Believe in Buchanan's Future Act at Once.

Buchanan has an opportunity offered now that is well worth taking hold of and pushing through to a successful conclusion. The plant offered our village is one about which there is no question as to its being a successful one. The Beckwith Estate of Dowagiac are so crowded with orders for their celebrated furnace and ranges that enlarged factory facilities are necessary, and it now rests with our citizens to say whether the proposed addition shall be built at Dowagiac or Buchanan. Buchanan is offered the first chance and Mr. D. E. White, real estate man of the institution is now in town with a proposition for the consideration of our citizens.

Manager F. E. Lee of the Beck with Estate has approved of plans for a moulding room 80x200 ft and warehouse 70x150 ft which if decided to be built in Buchanan will be built of brick and located east of the Axle works. Mr. White states that he has been authorized to let the contract for these buildings provided the citizens of Buchanan will purchase 100 lots from their property located between the village and the axle works. If our citizens take hold of this matter and close the deal, the Beckwith Estate say they will begin operations at once and will employ as many Buchanan people as they can handle, giving preference to Buchanan people. They propose to bring two skilled men from Dowagiac who will teach the trade to those whom they engage with in this vicinity. It is their intention to put on about 35 men to start with and increase the force as rapidly as possible.

The Buchanan Commercial Club have taken hold of the matter and have invited our citizens to attend a conference to be held tomorrow (Friday) evening at the club rooms. If you want to hear the matter discussed be sure to attend this meeting and if you believe the factory will be a good thing for Buchanan, put your shoulder to the wheel and push.

Mr. Frank A. Stryker has some fine tomato and cabbage plants at his green house.

The township library has been removed to the store of village clerk Claude Montlon, on Main street. Patrons of the library will find a fine line of rebound volumes just placed on the shelves.

The "30 Club" held an interesting meeting yesterday afternoon with Mrs. E. S. Roe. The review was conducted by Mrs. H. D. Rough, who also read a paper on "The Influence of French Literature." Quotations were from Victor Hugo, and music by Mrs. D. H. Bower. The meeting next week will be at the home of Mrs. C. D. Kent.

The regular meeting of Sylvia Chapter No. 74, O. E. S., was held last night and three candidates were initiated in the order. Interesting exercises consisting of solos by Mrs. D. H. Bower and Dr. Claude B. Roe and recitation by Mrs. Jennie Russell, were followed by refreshments consisting of ice cream and cake, served in the banquet room.

Here is a little item from the Marshall Statesman which farmers would do well to ponder over: "We often wonder how much a farmer would really save in a year by living on a good hard road, over which he could haul a load to town whenever he saw fit, regardless of the weather or season. He would save great wear on his teams; he would save time; he could draw larger loads, and in case of a rise in grain would sometimes be able to gain more on a single crop than the entire tax would cost him. The only way to get good roads is to begin by building them."

The Self Culture Class will meet with Mrs. White Friday April 28. Program. Washington's administration. - Mrs. N. Sparks. A Sketch of Washington's Life. - Mrs. M. Pierce. Dames of the Washington Household. - Miss E. Morgan. The Personal Side of Washington. - Mrs. E. G. Knight. Music. - Miss C. Hubbell.

Roll Call - Dates of Revolutionary Battles. Bible study. The Day View Reading Circle will meet with Mrs. Chas. Treat next Tuesday evening. The program is as follows: Music, Mr. Light. Roll call. Original rhymes. Magazine Article: "The Popular Songs of France." Miss Dumbolton. Recitation, Miss Gertrude Simmons. Reading, Castel - Cullie. - Miss Dispennette. Music, Mrs. Cunningham. History, Chapters V and VI. Literature, pp. 207-247.

Baso Ball. The Buchanan Wolverines play Niles Spartans, at Buchanan April 23. This is the opening game of the season, so everybody come. Admission only 10 cents.

A Card of Thanks. In my greatest affliction, I remember to thank those who have so generously done all they possibly could to assist me when in need and make my burden as light as possible. I hope I may be called to mourn a great loss as I have met.

EDUCATIONAL.

SCHOOL NOTES.

EIGHTH GRADE. Rose Batchelor was first to find that Henry Clay was called "The great pacificator."

All but eight are now in the Advance Class in arithmetic.

The reading class are learning the familiar quotation from Lovell's "Sir Launfal," which begins "What is so rare as a day in June?"

In the oral examination on Longfellow's life and his works, there were 10 pupils in Division 1, and 13 in Division 2 who made no mistake.

Monday a. m. the civic class debated the question of "Women's Suffrage." Agnes Slocum was the only one in the class who was not in favor of women voting or holding office. She held her ground well against twenty-one wide awake debaters.

Gracie Corliss and Rose Batchelor were first to diagram correctly the following words from Whittier: "We share ourselves to joy or fear, Of which the coming life is made."

The class had trouble with the sentence and it was "left over" to see who could get it first.

The class in civics have finished the chapter on "Alms Giving." Each pupil wrote a page expressing their idea of giving. Florence Plimpton wrote: "In olden times people gave alms, but found that it did more harm than good, because many people became professional beggars; they preferred to live on what others earned rather than to work."

"The modern idea of charity is 'not alms, but a friend.' It is more friendly to search out the needs of the poor and to supply those needs than to give money to those of whom we know nothing and who may spend the money for intoxicating drink."

"There are probably many deserving men who would use money rightly and who suffer because there are so many dishonest men who beg when they are able to work."

"The best way to help the poor man is to find him employment and educate his children. This is true charity."

SEVENTH GRADE.

The classics "Evangeline" came Saturday, so that we were enabled Monday to have our first lesson. Biographies of the poet, Longfellow, are being prepared.

Notle Wenger, Willard Wade, and Edith Shinn handed in some extra good maps of Canada, Friday.

We were all delighted to see Howard Wynn among us again. He returned from Niles, Monday.

This week the arithmetic classes are doing mental work in miscellaneous problems.

SIXTH GRADE.

Several selections from the "Lady of the Lake" have been learned by the classes in reading.

An imaginary journey through the North Central States, visiting the chief places of interest, is being taken by the pupils.

In the arithmetic contest, Monday, Mary Keller worked the greatest number of problems in denominate numbers correctly, having worked ten in ten minutes. Tamerson Carlisle worked nine in the same time.

We are indebted to Burton Brocius for a nice bunch of wild flowers.

FIFTH GRADE.

Charlie Cooper has returned to school. Della Batten expects to move this week with her parents to Mishawaka.

In a contest in arithmetic the following pupils handed in the best papers: Allan Tapping, Elmer Ray, Ned Fuller, Bra Japson, Louise Plimpton, Mabel McGowan, Margaret Devin, Fanny Mead.

FOURTH GRADE.

Pupils are learning the poem, "The Wonderful World."

We are indebted to Harleigh Riley of the fifth grade for our first bouquet of wild flowers.

Phily Field of the A class and Cora White of the B class wrote the best description of the Silvas.

Following are the names of pupils who were perfect in spelling every day last week: Arthur Richmond, Cecil Raymond, Lucille Brockert, Georgia Rollins, Frank Guess, Ward Hamilton, Gertrude Leonard, Laverne Elliott, Claude McGowan, Eva File, Fred Roe, Merle Eldridge, Loren Barnes, Ralph Hamilton and Kern Diggins.

THIRD GRADE.

Flossie Strawser is absent on account of sickness.

Topics of nature study for past two weeks were: earth, air, water, light. The biographies of Franklin and Froebel have been studied this week.

The pupils have been greatly interested in the story of "The Little Colonel."

CORRESPONDENCE.

NEW TROY.

April, 18 1899.

The two new barns owned respectively by Wm. Phillips and Dr. Stafford burned this Tuesday a. m. at about 8 o'clock. They had been built less than 6 months, and stood in place of two others burned last fall. The school house came very near going too, was on fire frequently, but finally saved it; was no school today however.

Morris, the Fair, Buchanan, Michigan. Dealer in almost everything.

From a Former Resident, Portland Oregon, April, 1 '99.

Dear Sir:—A short time ago some friend at Buchanan sent me several copies of the RECORD. I could not tell you how well I was pleased to see the old friend once more. I could see the whereabouts of some old friends. G. W. Noble is your postmaster, also David Hinman is yet there, and George Valentine is on tap as prosecuting attorney, Mrs. Seth Smith, Harriet Baker and others that I used to know.

Thought I would send you a few jottings from this western world that might be of interest to some, for a great many are looking to this country for future homes.

A great many home seekers are coming here now, induced here by the many advantages of our beautiful climate and rich productive soil and never failing crops. New railroads are building and the people are following right up. Where great forests are now, they build saw mills, cut up the timber into lumber and with dynamite tear out the stumps and almost before you know it large 1100 fields, Sugar Beet crops, and large orchards of beautiful fruit and grain are growing and towns, churches and schools full—and this is becoming one of the best states of the Nation, and a great many from the cold frozen regions of the east are coming here.

We have had a splendid winter, it has been quite wet, but that is just what we want, the soil gets thoroughly soaked in the winter then, we are sure of a splendid summer with big crops. This is a peculiar country, we do not have any rain in the summer, two to three months, we can plant a crop of potatoes the first of June or July with no rain for two months and we have a splendid crop; what kind of a crop would you raise such a dry time. The nights are always cool here.

Our spring is here with all its beauty, flowers, trees in bloom, farming, lawn mowers running. I will send you some blades of grass picked in our orchard to-day, to prove to you, while I got a letter from LaPorte Ind., that said you had six inches of snow March 22, and it was very cold.

We have fine prospects for a large fruit crop and that is one of the great staple industries of this country. Hops are a very large business here, with grain, stock, lumber, fishing, that sends our canned salmon, from the great Columbia river all over the world, and sturgeon are caught here very large, they are shipped east where you fellows have got lots of brains, and they are manufactured and sent back to us as beautiful New England cod fish, do you see?

Miss Adda L. Smith that has just bought property in your city was here a year ago and spent the winter with us, can tell you something about Oregon. I think she would like to have some of Oregon climate there in Michigan this winter from the tone of her letters.

Mr. Herbert Smith, your old townsmen is one of our solid men here, he was two full terms county clerk and is now one of the county commissioners of this large city and county. Mrs. Seth Smith his mother, was here a few years ago, I had a good visit with her.

While the severe fighting at Manila is going on and our poor boys are all over the nation are killed and wounded, the country shrinks before the stroke and bows in sorrow, we grieve as we read every day the death of our poor boys, but we thank God for men who know how to do their duty; Oregon has suffered quite bad.

The gold standard is growing stronger in Oregon every day, we want sound money and you can bet Oregon will be right every time, and I do not think anything can beat President McKinley next year for his election. I will nominate Wm. McKinley and Gov. Roosevelt of New York, for the Republicans and Colonel Wm. Jennings Bryan, of Nebraska and Gen. George Washington Aguinaldo, of the Philippines, for the democrats.

Our Mayor Wm. Mason died last week, it was a severe stroke for Portland, he was a splendid man, was a Knight Templar Mason, a member of the Elks, a member of the First Presbyterian Church, President of the Chamber of commerce.

The Editors will meet in this city in July, it will be a big time \$15000 is raised to take care of them, 2500 newspapers will be represented, everything will be free; can you come over here old friend Harper, it will be one of the best trips of your life.

Kindly Yours, JOHN J. SMITH.

Within Driving Distance of Elkhart. There are hundreds and perhaps thousands of people who are in need of vehicles and harness, who live within easy driving distance of our factories. They may not know that right here in Elkhart, right at home, we have the most extensive manufacturing of vehicles and harness in the world selling goods to the consumer direct. Being close at hand they could easily drive in and spend some time profitably in looking through our large repository and show rooms, where everything we make can be seen and carefully examined before buying.
