If you feel you cannot afford to buy a lot, hunt up a friend and go in partnership with him and buy one together. The fact that the Beckwith estate are thoroughly able to fulfill their promises should be of considerable weight in this matter. If you believe the furnace plant will be a valuable acquisition to our town. But your shoulder to the wheel and push with all your might. If you believe that factories are not a good thing for a town, do not do anything about it. but realize one thing, that whatever is done must be done at once. There is no time to be lost in arguing about the past, but the present and future is what Buchanan must face, and the RECORD believes that upon the decision given in this matter will rest the future prosperity of our village. One of Chicago's music teachers, a Frenchman, went to Cuba as bugler in an Illinois company. Since his return he has had some difficulty in building up a profitable class, and for that rea-son he has been compelled to accept a number of unpromising pupils, says the Inter Ocean. The patience of the teacher became

exhausted in the case of one pupil, the daughter of a North side board of trade man. In a moment of recklessness the Frenchman summoned all the English at his command and wrote the following note to the father of the girl who was not making advancement in her piano studies:

Portion of the City Falls Into Gen. MacArthur's Hands.

REBELS' LAST DESPERATE STAND.

Aguinaldo Puts Up a Stubborn Resistance-Cannon Used Against Americans for the First Time-The Situation.

Washington, April 27 .- The following cablegram was received at the war department late Wednesday evening: "Manila, April 25.--Adjutant General, Washington: Lawton at Norzagaray and Angat, his two columns united have driven enemy to north and west. Slight casual-ties, names not reported. Only means of communication, couriers. MacArthur has taken portion of Calumpit south of river. ent attended with difficulties on account of jungle, heat and strong intrench-His casualties Tuesday, three ments. killed, 11 wounded. Developments thus far satisfactory. OTIS."

May Call for Troops. Washington, April 27.-Failure of

Gen. Otis' plans to crush the body of insurgents against which Gens. MeArthur and Lawton are now operating will be followed by a presidential call for the enlistment of 35,000 volunteers.

E-unston Forced to Fall Back. Manila, April 27.-Col. Funston set out Wednesday night at the head of the Twentieth Kansas volunteers to cross the Rio Grande river to the north of Calumpit for the purpose of surprising the insurgents. The rebels are massed in large numbers just across the stream, ami Gen. McArthur designed an attack as soon as the lay of the land could be ascertained. Col. Funston's men were cager to keep up their record for dash and bravery, and set out with vigor, but

and were forced to abandon their plans for the present. Rumored Capture of Calumpit. New York, April 27. - A dispatch to the Journal from Manila, April 26 says: Gen. MacArthur's division, 6,000 troops, annihilated the insurgents at Calumpit Wednesday. Aguinaldo's troops made a stubborn

resistance, but were driven to the hills. Eight Americans were killed. Calumpit is the key to the whole of

northern Luzon.

Are Fighting Hard. Manila, April 27. - Aguinaldo's army Wednesday is defending Calumpit energetically, which is said to indicate that the rebels are finally making that place their last ditch, or stand, which the Americans expected them to make at Malolos.

For the first time the Filipinos are employing artillery. They brought two guns into action in the trenches Wednesday before Calumpit, firing modern shrapnel, which burst over the heads of Gen. Wheeler's men without

effect. The fighting was resumed at six o'clock Wednesday morning. During the night the American engineers repaired the Bagbag bridge, thus enabling our troops to cross the river. Gen. Wheaton's brigade advanced in extended order, with the Kansas regiment to the west of the railroad, and the Montana regiment to the east of it, and took up a position covering one and a half miles on the south bank of the Rio Grande. On the opposite bank were fortified trenches, from which a few American soldiers would have been able to defy thousands, so strongly were they constructed.

in the exercises. Augusta, Ga., April 27.—The graves of the confederate dead were decorated here Wednesday with appropriate cere-

monies. Savannah, Ga., April 27.-The feature of the Memorial day exercises here was the appearance at the head of the procession of two companies of the Second United States infantry (regulars), under command of Lieut. John L. Hines, and the firing by that body of the customary salute to the dead at the confederate monument in Forsyth place. This is probably the first time in history when a salute in honor of dead confederates has been fired by regular troops of the federal army.

A TERRIFIC FLOOD.

Rushing Ice, Water and Logs Caus Great Damage Along the Escanaba River.

Milwaukee, April 27.-- A Sentinel special from Marinette, Wis., says: Isaac Stephenson returned from Escanaba where he was called on account of the damage done by a big rush of ice, water and logs on the Escanaba. Piers, booms, part of a dam and half of a sawmill were carried away. Two hundred and fifty feet of the embankment on the north branch was also swept out into the bay. Such a terrific flood has not been known there in years. The jam started 50 miles up river and came down that distance in about 12 hours, sweeping everything be fore it. Piers, bridges and other obstructions were demolished. The state road bridge was carried away. In places it was 30 feet high and left perpendicular walls along the river bank 20 feet high. When it reached Flat they were discovered by the insurgents Rock it was feared that the entire place might be swept away, but fortunately

the damage there was not very serious and was confined to the river improvements.

Odd Fellows Celebrate.

Davenport, Ia., April 27.-The East ern ()dd Fellows' association celebrated the eightieth anniversary of the founding of the order in America Wednesday. Three thousand visitors came to the city by special trains. The parade in the afternoon was followed by the address of welcome by Mayor George T. Baker, and response by Senator F. O. Allison, of Anamosa. Initiatory and degree work, a fancy drill by the ladies of Zedoka Lodge of Rebekahs in the evening were followed by a grand ball at Turner Grand Opera house.

"Who's airaid?" said Leslie. "Besides he is really fast asleep and will never know, and the temptation is too much for me. Consider, the hero the whole world raves about," and with a mischievous look at Amy, she stepped lightly in and dropped a kiss as light as a puff of thistledown upon the

sleeper's forehead. As the sound of the girl's retreating footstens died away Douglas Murray opened his eyes, and, smiling to himself, said: "I suppose that is considered a fast girl. I must confess I like her, and be-

lieve she is really true and womanly. That fast manner is all humbug. I must not forget to pay my debt, however," and he laughed. "She thinks me a muff, I know. Never mind, that kiss was very nice-I forgive her." A day or two afterward, as they

were all at breakfast. Sir Henry said: "I forgot, Leslie, here is something for you," handing her a small packet, marked "Parcel Post." "What can it be; I wonder?" she said, as she cut the string; "the handwriting is quite strange to me." and

she was about to open it quite unconcernedly when Amy remarked: "It is just the shape of a glove box." Leslie started and looked guilty across the table at Captain Murray,

who was, however, going on with his breakfast. She took off the paper wrapper and discovered a white box-it did look horribly like a glove box, Leslie thought, as she lifted the cover-and, yes, inside lay several pairs of dainty kid gloves of different shades. Hoping nobody noticed her confus-

ion and not daring to look across the table she was replacing the cover of the box when Captain Murray said very coolly:

"I always pay my debts, Miss Lindsay; I do not like to feel under any obligation." Hastily seizing her parcel Leslie

Henry about not feeling very well, she flew upstairs and locked herself into her room, where she had a good erv After a little time she took a look at the gloves.

Sir Henry Seymour had no reason to complain of his ward's conduct for the next few days-but she avoided Captain Murray, who tried in vain to get a chance to speak to her.

One morning, however, fortune favored him. He was in the garden and Leslie was walking toward him: she was quite unconscious of his proximity and they must meet in a moment more.

When she saw him standing near sho lifted her sweet blue eyes to his with a wistful, half-beseeching glance. "Miss Lindsay," said Douglas,

WOMEN OUTLIVE MEN.

Observations of Professor Buchner Show Many More Female Centenarians Than Males.

It is strange but true that the most delicate child often outlives his stronger brother or sister. Many instances are on record of the long survival of those who seemed destined to die early. It is said of Voltaire, who lived to be \$4 years old, that he was so delicate at birth he could not be baptized for several months. Sir Isaac Newton, the doctors said, would not live a week, but he celebrated his eighty-fifth birthday. Fontenelle lived to be 100, although he was so frail at birth that the priest had to go to his home to baptize him.

Even more interesting than this is the statement by Prof. Buchner that it is possible for a woman to preserve her youthful beauty even to her old age, or, in some instances, to regain it. The PATENTS. marquise of Mirabeau died at 86 with all the marks of youth in her face. Wayne County Bank Bldg., DETROIT

Margaret Verdun at 65 smoothed out the wrinkles, her hair grew again and her third set of teeth appeared. Cases of this third dentition are not rare.

The professor has still further hope for the fair sex in the announcement that women live longer than men. Our French woman, Marie Prioux, who died in 1838, was said to be 158 years old. Statistics of the various countries on this point are remarkable. In Germany only 413 of 1,000 males reach the age of 50, while more than 500 of 1,000 females reach that age. In the United States there are 2,583 female to 1,398 male centenarians. In France, of ten centenarians seven were women and only three men. In the rest of Europe, of 21 centenarians 16 were women. The Americans found the trenches on the south bank of the river deserted. Rebels' Aim Is Poor.

The Americans found the trenches on the south bank of the river deserted, which furnished them with cover from which they could pick off Filipinos whenever one of them showed his head. When the rebels began firing two puffs of smoke simultaneously from the trenches on each side of the railroad track showed they were using cannon, which was a gennine surprise to the Americans. Several shells burst close to Gen. Wheaton's staff, but it seemed that the Filipinos failed to master the machinery of modern shells, as they were unable to get the right range.

Young's Utah battery was ordered into position in the center of the Kansas regiment, to silence the rebel guns. and at 11 o'clock the rapid-fire guns had been ferried across the river and came into line.

At noon the rebels were still pouring a heavy fire in the direction of the Americans, who returned it spiritedly. Two Americans were killed and seven

were wounded. At about this time Gen. Hale's brigade was advancing east of the line, apparently to cross the river and attack the rebel trenches in the flank,

as the Americans did Tuesday. An Order of Aguinaido. Gen MacArthur has secured an or-

der issued by Aguinaldo to the rebel commanders, telling them to instruct their men to economize their fire, save the empty shells and not to fire at the enemy when the latter is under cover. The Filipinos are also instructed never to fire at a longer range than 150 meters, and when they have a river or other obstruction in front, to hold their fire until within S0 meters.

Gen. Lawton's Greatest Obstacle. Gen. Lawton is meeting with the greatest obstacles in the character of the country. His troops have only had a few skirmishes thus far, resulting in five of his men being wounded. But he has been forced to put his men at work building roads, and the transport service is giving much trouble, buillocks dying of the heat and exhaustion, and Chinamen having to be employed in pulling some of the carts. Therefore, the general has been unable to cover the ground he hoped to cover.

THE COGHLAN CASE.

The Captain Is Riprimanded by Secretary Long, and the Affair Is Practically Closed.

Washington, April 27.-The case of Capt. Coghlan may be considered as finally closed. The German ambassador, Dr. Von Holeben, called at the white house Wednesday afternoon, and had a conference on the subject with the president of such a satisfactory nature that the matter was regarded as settled. The president explained the course the navy department had taken in administering a reprimand to Capt. Coghlan. It was also pointed out that the officer's explanation of the incident stated that his utterances had been much exaggerated. On the part of the ambassador there was every disposition to deal as lightly with the matter as possible, and not permit it to become a source of friction. During the day the navy department administered to Capt. Coghlan the reprimand which had been determined upon Tuesday. This was in the form of a letter from Secretary Long to the officer. It is stated at the department that the letter will not be made public before the officer has re-

> I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plowing, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peach time, I had a most serious attack of chills and then commenced to take Ripans Tabules, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since l commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tabules will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather. and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said, "Sav, John, what are you doing to look so healthy?"
