GANG ARRAIGNED BEFORE A NEW YORK MAGISTRATE.

FORCIBLY ROBBED PASSENGERS OF THEIR VALUABLES,

New York. Oct. 9.—The thirteen men alleged to have been active particlpants in the riot which occurred Saturday aboard the Philadelphia steamboat, Georgeanna, in the waters of New York harbor, were arraigned Sunday before a city magistrate.

Capt. C. A. Q. Norton, of Hartford, Ct., who organized the committee of passengers which took possession of the steamboat and held the gang of the boat reached the pier, was present to prosecute the men who had stabbed overboard. With him were several other passengers.

Capt. Norton's complaint against Chas. Berry, described as the ringlead er of the gang, was taken up. The evidence showed that Berry was a desperate character and that he had slashed Capt. Norton's coat with a knife in the effort to stab him. Berry, who denied the accusation, was held in \$2,000 bail for further examination on Wednesday. Edward P. Sherman. charged with splitting open the scalp of Peter Perdue, of Brooklyn, was held in \$1,000 bail for examination on the

same day. The case of Capt. Sterck and his pilots Post and Brown came up. INSURGENTS ACTIVE.

Advanced Within Form Miles of the Heart of Manua.

Manila, Oct. 10.-Monday afternoon a body of insurgents was seen near Laloma church, four miles from the heart of Manila. They opened fire, the bullets falling among the tents of the Twenty-fifth Infantry. The Americans manned the trenches and replied at a range of 1,200 yards. The insurgents volleyed and the Americans used their artillery. The fight lasted an hour, after which the insurgents retreated. One American was wounded. The scouts of the Twentieth Infantry are now out reconnoitering.

Gen. Schwan's column, consisting of the Thirteenth Infantry, a battalion of the Fourteenth Infantry, two troops of cavalry, Capt. Riley's battery of the Fifth Artillery and Lowe's scouts, continued the advance towards San Francisco de Malabon, meeting with little resistance and suffering no casualties. The enemy fell back steadily. The American camp is within sight of San Francisco de Malabon, the stronghold of the insurgents in the province of Cavite, where the Filipinos are said to number 5,000.

During the march from Noveleta to Rosario only a few shots were fired. This large coast town was literally filled with white flags. The Americans captured two or three hundred men, many of the Filipinos changing their clothing for white costumes. The bay of Rosario was filled with hundreds of boats, in which the people had spent an exciting night.

An expedition composed of the United States gunboats Callao and Manila with an armored flat boat and steam pump has left Cavite for the river Pasig, or Betis, which empties into Manila bay, on the north side, with a view of raising the Spanish river gunboat Ayat, purposely sunk in the river by the Spaniards, which is reported to be in good condition. The gunboat Helena with a body of marines from the Baltimore, preceded the expedition to make soundings at the mouth of the river.

Fun With the Boys.

Two juvenile baseball teams have been playing ball for the last two months in a vacant lot near the stock yards and adjoining an inclosure where a milkman keeps his horse when not delivering milk. The horse has watched almost every game of ball this season, keeping close to the fence and noting dent appreciation. In fact, the boys had come to regard his with more than friendly interest and one team had

But the horse was watching and when the boy had almost reached it he came galloping out with mane and tail flying, and, with a pleased smile on his face, he followed the lad to the fence. Then he trotted back to the stable and stood at the door, repeating the pursuing performance every time a boy made a move toward the ball. Finally they left in disgust and in the dead of

Two men occupied the seat just below me, on the park side of the walldecent-looking fellows, as far as I could tell in the dusk. I looked carelessly at them for a moment, and was about to return to my pipe, when a word or two caught my ear. I leaned forward and listened eagerly.

"Then it's all settled. We sneak up the drive, steal a ladder, and you climb in at the landing window. We sha'n't be disturbed; old Seaton sleeps at the back of the house; so do the servants."

"Her room is in the front—the first on the left from the landing window. I spotted it the other night when I was strolling up and down-"

"Oh, never mind that! Hurry up." "Well, you know what to do next. Seize the little darling, gag her, lower her down to me—she's a mere featherweight-follow, and I'll manage the

Admits Guilt on Many Counts. Greenfield, Ind., Oct. 10.—Former County Recorder James Thomas came into the Hancock Circuit Court this morning and pleaded guilty in thirteen cases on an indictment for failure to properly make his quarterly reports while he was Recorder. The costs and fines amounted to \$195. Thomas previous to this had paid back into the eounty treasury about \$1,600 which had been taken by his son and deputy, Elmer E. Thomas. There are yet 307 indictments against Thomas. The trial of Austin P. Boots, editor of the Daily Democrat, was begun today. He is charged with presenting a fraudulent claim against the county.

Nobby Suit For This Season of the Year.

Many of the most fashionable tailor suits are of pique, in pure white or combined with color. The waist is usually plain, that it may launder nicely, as in the "Boughton" which is of white pique, tight-fitting, except a slight blouse in front, and doublebreasted. The wide fitted collar is of

red pique, covered with rows of tiny black cotton braid. The "Walden," a new pattern of a short straight, overskirt, especially appropriate for pique, is worn with this waist, and is trimmed to match with red and black. The overskirt reaches just below the knees, is open in front, and is cut to flare, but without gathers or plaits in the back. It is the latest design for ckirts, without any fullness at the belt. pered: The belt worn with this suit is of black velvet ribbon, and the hat is of white fiber-straw trimmed with scarlet poppies.—Demorest's Magazine.

By a system of cards and index lists which hung in the reception room every guest knew her table as she entered the large ballroom at Delmonico's, where the luncheon was spread. Intimate friends of Mrs. Roebling presided at the small tables, that, each holding eight, circled the large round one in the center of the room at which were seated Mrs. Roebling, Mrs. Manning and special dignitaries of the D. A. R. and Sorosis assembled to do her honor.

When the guests were all seated and before she had taken her own place Mrs. Roebling went about from table to table, giving a world of welcome to every one and assuring herself that no one at any table was unknown to all the others of its company. When arose and in a few graceful words presented Mrs. Manning and welcomed her guests. THE POPULARITY OF THE TEA BALL IS NOW GONE.

The Latest Fad Allows of a Large Variety of Styles and Immediately Jumps Into Favor.

The tea ball is out of date. At least so the tyrannous dame who rules us with a rod of iron says, and as we always bow very meekly to her dictates, why, of course we won't use any more tea balls, says the New York Herald. The altogether up-to-date hostess of line, and again changes to something to-day, when clothed in bewitching. lace furbelowed tea gown, presiding sought, but will come with a little at a gem of a tea table, does not use patience. In all these the purpose is a silver tea ball with which to brew

In lieu of the ball madame has a prettily designed teaspoon, and this is introduced, stirred around in the boiling water in the shell-like tea cup, and presto! the work is done, and verily it is well done.

Of course all these facts are good for trade, and the buyers who are racking their brains for novelties which are going to sell are only too glad to see a new fad introduced and proving in trade vernacular "a good seller.

The 5 o'clock teaspoon has proved itself, "a good seller," and being an extreme novelty, has jumped into high keys are arranged in a huge circle, and favor in great style. Where there each of them is attached to a metal were perhaps half a dozen in stock a

The spoon itself is a large sized teaspoon, having double bowls, which are separate and work on hinges. The bowls are both perforated, as were the tea balls. The tea is placed in the open bowl, the proverbial "teaspoon of tea to a cup." the bowls are closed and kept closed by means of a sliding ring. Then the spoon is inserted in the cup of boiling water, and your cup of tea brews as you stir it.

These spoons come in all prices and designs and can be had of gold or of silver. They can cost much and they can cost little. Just at present they are rather expensive on account of their extreme novelty, but in a short time they will be within reach of nearly all the proud possessors of dainty tea tables, and no table will be quite complete unless it holds among its many accessories at least one of these pretty new spoons.

I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plowing, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall; in peach time, I had a most serious attack of chills and then commenced to take Ripans Tabules, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tabules will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said. "Say, John, what are you doing to look so healthy?" NATANIED.—A case of had health that RIPANS will not benefit. They banish pain and prolong life. We one gives relief. Note the word RIPANS on the package and accept no substitute. RIPANS of the package and accept no substitute. RIPANS of the package and accept no substitute.
