

BUCHANAN RECORD.

VOLUME XXXIV.

BUCHANAN, BERRIEN CO., MICH., THURSDAY, OCT. 11, 1900.

NUMBER 36

CALL MINERS' CONVENTION

STRIKERS' DELEGATES MEET AT SCRANTON FRIDAY.

Expected Clash at Hazleton As a Result of Marching Fails to Materialize, on Sheriff's Threat to Shoot.

Hazleton, Pa., Oct. 10.—A National Mine Workers' official declared that the miners' convention at Scranton would reject the offer made by the operators—10 per cent advance in wages, a part of which is a reduction in the price of powder. If this prediction proves correct the end of the strike will be postponed indefinitely.

Hazleton, Pa., Oct. 9.—The A. S. Vanwickle estate, operating the Coleraine and Milnesville collieries, and Calvin Pardee & Co., owners of the Lattimer mines, posted notices today offering the 10 per cent advance in wages to its miners.

Shenandoah, Pa., Oct. 8.—President Mitchell at 10:05 issued a call for a convention of mine-workers of the three districts comprising the anthracite fields to meet in Scranton, Pa., on Friday next.

Hazleton, Pa., Oct. 8.—In anticipation of marching by the strikers this morning every one of the dozen or more collieries in this district still in operation in a more or less crippled condition, was virtually an armed camp during the night, but the expected did not happen, and the peace of the community remains undisturbed.

It was the uneasiest morning that Hazleton has experienced since the strike began, three weeks ago today. In addition to the concentration of sheriff's deputies in this city last night, every colliery in the region had extra forces of coal and iron police fully armed.

There was no marching of large bodies of men, but crowds of strikers gathered, as is their custom, every week-day morning, in the vicinity of the various collieries that remain in operation.

Hazleton, Pa., Oct. 7.—Lattimer was captured early this morning by an army of 3,500 strikers, who invaded the company's property, drove 800 miners pell-mell to shelter in the guard buildings, hooted the sheriff and set his deputies at defiance. A shot, a blow, and Lattimer probably would have seen the slaughter of 1897 repeated. Tonight Sheriff Harvey has called on the governor for troops, while the mine is shut and will remain so until the strike is over.

That the great anthracite coal strike will be ended in a short time seems tonight to be almost certain. President Mitchell's announcement today in his speech at the Shenandoah mass meeting that a joint convention of anthracite miners will be held in a few days for the purpose of allowing the men to decide for themselves whether they should continue on strike seems to wipe out all doubt about the matter.

Wilkesbarre, Pa., Oct. 7.—Strikers got into a fight at Wyoming tonight with non-union men. Frank Gannick was shot dead, John Sobksi was probably fatally injured. Mike Mattuck, John Tomochick and four others also were badly hurt, being knocked down with stones or clubs. The fighters terrorized the entire Hungarian settlement.

Hazleton, Pa., Oct. 6.—The Independent Coal Operators' association of the Wyoming Valley and the Pardess companies of Hazleton, have decided to grant their striking employees an advance of 10 per cent in wages. By this action the chief obstacle in the way of a compromise in part is removed. Hitherto the independent operators have refused to consider any concession, declaring such a move was impossible till tonnage rates were reduced. It is reported here also that the coal railways had decided on such a reduction.

Hazleton, Pa., Oct. 5.—More collieries in the Schuylkill district were shut down this morning and to-night. President Mitchell, of the Mine Workers association, declared every one of the Philadelphia & Reading's thirty-nine collieries, with one exception, idle. The exception is at Trevorton. The gains of the strikers were made at Tower City, Good Spring, and Lincoln. John Fahy, president of the Schuylkill district estimates the number of strikers in that region is 49,760.

Wilkesbarre, Pa., Oct. 4.—The independent coal operators refuse to join in concessions to strikers unless railroad rates are cut.

Pride Causes Starvation.

Valparaiso, Ind., Oct. 7.—Sophia Choate, a cousin of Joseph Choate, ambassador to England, a pioneer of this city, who was found unconscious on the floor of her home on Tuesday, suffering from practical starvation, died today.

Miss Choate's family once possessed great wealth. Her pride, never deserting her, kept her from disclosing her condition. When her house was entered expensive laces and gowns, heirlooms, and many rare and costly books were found. Belated charity will give her a private burial. She was 55 years old.

Determining Galveston's Loss.

Galveston, Tex., Oct. 6.—The census of the First Ward, taken under direction of the relief committee, shows the population to be 2,835. The United States census returns published the day before the storm gave the population of that ward as 3,059. Returns from other wards will follow shortly.

BOERS SEEK NEW HOMES.

Merchant Says Hundreds Are Willing to Go to America.

Paris, Oct. 7.—Boer refugees continue arriving in increasing numbers at Marseilles. Two German ships brought over 1,200 this week, and two French ships 950, including women and children. These people belong to the well-to-do class. They are transported to Holland across France and Belgium by special trains.

They say that thousands of destitute Boers are now at Lourenco, trying to obtain passage somehow.

Asked whether any colonists contemplated going to the United States, a prominent Johannesburg merchant answered that 100 sturdy families would gladly make America their home if they could possibly get there.

London, Oct. 7.—With the Chinese middle showing signs of clearing up there is some opportunity of paying attention to the quiet ending of the war in South Africa. Out of 30,000 wounded 29,000 have actually returned to duty. Such quick recovery of such a large percentage of the wounded rather breaks down Baron Bloch's theory that a modern war is impossible owing to its slaughter, though, it is true, 10,000 British soldiers have found graves in South Africa.

ASKS HOME RULE FOR BOERS.

Presbytery of Dutch Reformed Church Condemns British Policy.

Cape Town, Oct. 6.—The Presbytery of the Dutch Reformed Church, by a vote of 23 against 4, to-day adopted a resolution strongly condemning Great Britain's policy in South Africa. The chairman, the Rev. Mr. Steytler, in the course of a vigorous speech, declared he was only loyal under compulsion, and did not care who knew it.

"The Orange Free State and the South African Republic," he continued, "are still unconquered. I am ashamed of the so-called Christian British, who have been burning houses inhabited only by innocent women and children. Such things might be expected of Turks and Chinese. I hope the eyes of the British will be opened before it is too late to redress these wrongs. The sooner home rule is given to South Africa the better."

Withdraws Offer of a Million.

New York, Oct. 6.—Charles Broadaway Rouss has withdrawn his offer of \$1,000,000 for the restoration of his eye-sight.

"No further tests shall be made," said Mr. Rouss to-day. "I withdraw my offer of \$1,000,000 for a cure. I shall dispense with the services of my substitute."

"It is decreed I shall remain forever blind. All tests have proved futile and not one has given me the slightest relief. The experiments on the eyes of my substitute, James J. Martin, have proven equally useless. I will pass the remainder of my days in patience."

Noted Life-Saver Drowns.

Jeffersonville, Ind., Oct. 6.—George Fuller, a noted life saver of the Ohio River falls, was drowned this afternoon in less than a foot of water. As he attempted to get into a skiff it tipped and threw him into the water.

In attempting to catch it he was sucked into a whirlpool, and, after being dashed over rocks for half a mile, became unconscious and strangled to death on top of the water.

He had a record of saving twenty-three lives on the falls, and with two brothers, Homer and Albert, rescued at least 100.

Greatest of All Big Fairs.

Chicago, Oct. 5.—"The Paris exposition was a great success and eclipsed anything of the kind that has ever been attempted," says M. H. DeYoung, president of the United States commission to Paris and the editor of the San Francisco Chronicle. Mr. De Young passed through here yesterday on his way from Paris to the Pacific coast.

He said the buildings are not so impressively arranged as were those at the World's Fair in Chicago, but that the exhibits were far ahead of those at the exhibition of 1893.

Shoots Herself and Children.

New York, Oct. 6.—Mrs. Lillian Smith, wife of Walter M. Smith, a wealthy grocer, shot herself and her three children this afternoon. She and her son, Theodore, 8 years old, were dead when found in the house. Mabel, 3 years old, and Ethel, 12 years old, were unconscious and were taken to the Fordham hospital, where Mabel died soon afterwards. Ethel will probably recover. Homicidal mania suddenly developed, is the only explanation offered.

Initiated at an Early Hour.

Albion, Mich., Oct. 8.—An innovation in college fraternity initiations took place by the ladies of the Kappa Alpha Theta Society of Albion college. Eight freshmen, who had recently been pledged, were suddenly aroused from their slumbers at 4 o'clock this morning, conducted to the fraternity lodge and put through a solemn and mysterious initiation lasting five hours.

Missing Inspector Is Found.

Washington, D. C., Oct. 6.—The Census Bureau has succeeded in locating its missing special agent, William L. Spalding, of Washington, who has been lost to the bureau for twelve days. It was feared he had met with some accident, but the office has been notified that he is in a hospital in Chicago with typhoid fever, from which he is now recovering.

Gem Merritt on Way Back.

London, Oct. 7.—Among the Americans returning to the United States on the steamer *Lucania* today are Major General and Mrs. Wesley Merritt, the General appearing to be in splendid health, and Colonel Sanger, who will present his report on European army methods to the authorities at Washington.

FIGHT CLOSE TO TIEN Tsin

GERMANS HAVE ENGAGEMENT WITH 8,000 CHINESE.

Celestials Are Said to Be Li Hung Chang's Guard, and They Are on Their Way to Pekin.

London, Oct. 10.—Pekin correspondent of London Times urges England to act in China, asserting Russia and Germany are reaping benefit of Great Britain's work.

American Bible society issued list of dead and missing missionaries in China, numbering 178 persons.

London, Oct. 9.—Emperor of China and Dowager have removed to Singan Fu, fortified town in Shensi Province, alleging scarcity of food in Shansi as reason. German papers regard move as evidence Chinese court is anti-foreign as ever, and putting peace negotiations on farcical level.

London, Oct. 8.—The scenes of action in China appear to be shifting somewhat, and on the news of the withdrawal of troops from Pekin along with the legations Li Hung Chang is said to be on his way to the capital.

A dispatch from the Standard from Tien Tsin, sent last Friday, says:

"A German force came into collision with 8,000 Chinese, described as Boxers, a few miles south of Tien Tsin this morning. The Germans were checked and compelled to retire on Tien Tsin.

"There is reason to believe that the Chinese in this case were not Boxers, but were Li Hung Chang's veterans, who had been ordered to wait near here in view of the possibility that the foreigners would bar his progress to the capital."

Russia seems to have been doing some sharp work regarding the withdrawal of troops, according to the Times' dispatches, and has secured promises of reward after knowing the withdrawal will be to effect.

London, Oct. 7.—Thanks to Germany's withdrawal of her first note and the substitution for it of a compromise, there is a general impression in England that a basis of united action by the powers is now in sight. That such a satisfactory stage has been reached through Lord Salisbury's following America's lead is ignored by the English papers, which have not yet grasped the fact that the present German action is a direct consequence of Lord Salisbury's verbal refusal to become a party to the suggestion that the surrender of the guilty Chinese officials must be precedent to the peace negotiations.

London, Oct. 6.—England, following American course, instructed MacDonald on same lines as instructions to Conger, Japanese official suggested it would be well to have a friendly government to deal with before proceeding with negotiations.

Chinese fleet in Straits of Formosa fired a shot at Russian cruiser Rurik, which retired. Russia will try to have

allied fleet discipline offenders.

Washington, Oct. 5.—United States replied to German note, saying Conger is instructed to learn what is to be punishment of Boxer leaders and what is the guarantee that they will be brought to account. Germany submitted modified note and Russia and France joint notes, all tending toward understanding among the powers.

Germans said to be burning Boxers' villages around Pekin. Dowager ordered temple erected in memory of Von Ketteler.

Washington, Oct. 4.—Commercial traveler, returned from China, says Boxer outbreak was result of interference with ancient customs by missionaries.

Students on a Rampage.

Chicago, Oct. 6.—Three hundred students of the Armour Institute of Technology made what they termed a "tough house" in several South Side streets last night. They tore down signs, helped themselves to the stock and fixtures of one saloon, woke up the guests of the Lakota hotel with their yells, were advised to quiet down by the police, and ended the night's fun with a decorous but noisy call on President Frank W. Gunnsius. He made them a speech. Then they disbanded and went off to their homes.

Boy Burned at the Stake.

Trenton, N. J., Oct. 7.—While playing "Wild West" yesterday afternoon with several other boys, Eddie McBride, aged 8 years, was burned at the stake and died about midnight from his injuries. The boys had just been released from school. As play progressed the burning of a prisoner at the stake, "like they do the negroes in the South," was suggested, and quickly followed by the preparations for the make-believe horror. Young McBride was selected as the victim. Some one threw oil on him and applied a match.

Spanish Gunboat in Peril.

Vigo, Spain, Oct. 7.—The fishermen of Cangas, Province of Pontevedra, who are in conflict with those of the neighborhood on account of industrial rivalry, fired on the Spanish gunboat Vasco Nunez de Balboa as that vessel was leaving the port today, and many were wounded. The naval commandant of the port was also attacked. The government has decided to send a war vessel to the scene of the trouble.

Mining Plant Destroyed by Fire.

Ironwood, Mich., Oct. 8.—Fire caused by a lamp explosion destroyed the machine shops, electric lighting, and air compressor plants of the Oliver Iron Mining Company, entailing a heavy loss.

Took Strichine.

Grand Rapids, Mich., Oct. 7.—Katie Hutchinson, a colored girl, aged 21 years, took strichine with suicidal intent, and died today in a hospital. She gave no reason for her action, and none is known.

Old Lady Fatally Burned.

New Boston, Mich., Oct. 7.—Mrs. William Hospital, an old widow lady living east of this place, was burned to death at her home, caused by her clothing being ignited from an overturned kerosene lamp.

PROSPERITY COMING TO CUBA

Island's Condition Show Improvement—Heavy Importations Machinery.

Havana, Oct. 7.—Marked and substantial agricultural prosperity is reported throughout the region lying between Havana and Cienfuegos.

Both the sugar and the tobacco industries all over the island are settling down to a large and permanent production, and the earnings are now estimated at over \$6,000,000. New sugar machinery is at present in the course of erection in various parts of the island.

During the last three days 8,160 immigrants from the Canary Islands and Barcelona have arrived here, and have left for the country districts, where employment is readily obtained. This continued influx partially solves the labor question, many of the plantations having been idle owing to lack of labor to cultivate them.

Young Man Travels 300 Miles to St. Joseph to Enter City Land That He Thought Belonged to Government.

St. Joseph, Mich., Oct. 8.—William Myers, after traveling 300 miles, reached St. Joseph for the purpose of entering a claim on the several hundred acres of land lying between the two cities, believing it was government land. On application before the county clerk to ascertain how to enter this claim he was informed to his chagrin that the property was valued at several hundred dollars per acre and was the proposed location for several large factories. It is presumed the enterprising young man had heard of the one-half acre island lying at the mouth of St. Joseph river that has no owner.

BUSINESS LAW

BY BURRITT HAMILTON.

STATEMENT BY THE AUTHOR

"In this book I have simply answered the questions asked me by business men during the last ten years. I know that these questions are practical and of living interest, because they have all been asked by live and practical men."

"Business Law for Business Men and Students" is really five books bound in one.

Book I is devoted to that all-important subject, Contracts.

Book II contains a lucid discussion of "Accounts, Commercial Paper, and Securities."

Book III comprises an explanation of "The Law of Business Relations."

Book IV deals with "The Transfer of Title to Property."

Book V explains the law of "Patents, Trademarks, Caveats, Copyrights, and Internal Revenue Laws."

In addition to this the work is preceded by a complete glossary of legal terms, and is supplemented by an appendix containing tabulated statements of the laws of every State and Territory of the United States on the subjects of—

Interest and Usury Laws,

Days of Grace,

Chattel Mortgages, Statutes of Limitation,

Statutes of Fraud,

together with a complete, exhaustive, and accurate index of the entire work.

The book comprises nearly four hundred pages, and about three hundred statements of cases.

Strongly and handsomely bound in canvas, with gold lettering.

PRICE \$1.50.

Through an arrangement with the publishers we are enabled to make the following

SPECIAL OFFER

We will send you the **BUCHANAN RECORD** for six months and **BUSINESS LAW** both for \$1.50 the price of the book alone. Address

DO WINTER EGGS PAY?

Farmers as a Rule Hardly Know How Much Their Winter Eggs Cost Them.

I am not so enthusiastic concerning the production of winter eggs as some. Of course we all know the pleasure of gathering a fine lot of eggs every day; yet I hardly think that farmers as a rule know just how much their winter eggs cost them. Now I am not writing this to discourage any who are trying to make their poultry pay for their winter keeping, but the truth is we farmers ought to know with a little more certainty the cost not only of eggs but also of pork, beef, grain, and all other farm produce.

For instance, in a late paper, over the signature of C. E. Sweatman, appears a short article relating to winter care of hens and winter production of eggs which is a fair example.

What have these hens cost him? Part of the cost has been 1 quart mixed grain in the morning, all they will eat at evening of corn, which would probably be 2 quarts more, making in all 3 quarts per day, or 17 bushels for six winter months, of grain, worth 50 cents per bushel, not counting anything on noon feed of potatoes, cabbage, beets, etc. Now what are his receipts in eggs? Probably half the year's production, or 50 dozen, which

this way in all cases. There are different breeds, locations, conditions, etc., also difference in respect to markets, whether you have your city customers or whether you have to sell to local dealers. But I speak in reference to the average farmer and egg-producer who sell eggs in winter. The writer has a flock of fine hens which are well housed, well attended, being fed three times a day, and which respond to this treatment at the rate of 18 eggs per day for 36 hens, which I consider a fair production for winter, and yet I doubt whether it pays for the extra care—local markets considered.

If farmers would keep their poultry in a good, thrifty condition through winter without feeding for eggs, nor expecting any, such hens would commence laying early in the spring and with a very little extra feed, through spring and summer months, surpass those which have been laying all winter, and by the end of the year the difference in profit or loss between the two methods would be but little. I don't say that all this is certainly the case, but I do think that there is much more truth in it than most are aware of.—H. G., in National Stockman and Farmer.

Hen Items.

With the large bakers and cracker makers in the cities the frozen eggs of winter will be in demand.

A very poor hen is unfitted for laying as is a very fat one—either extreme should be avoided.

It is not the number of hens which are kept which tells the dozens of eggs that will be produced.

Hens that lay eggs must be well fed as much as they will, eat and digest without getting to fat.

Poultry and eggs together yielded to the farmers of Missouri after their own tables had been supplied, \$8,598,000.

The egg business is in its infancy and there are wonderful problems to be solved by some one in the near future.

Exterminite the young rats before their winter chicks are housed.

A tablespoonful of salt should be added to the morning mash for laying hens.

Do not let the young chicks get chilled. For the first week at least they should be kept where the temperature never gets below 80 degrees.

Do not cross pure bred poultry. There is nothing to be gained, as a breed can be found in its purity that will fill any one requirement and none will fill every one.

White Sapphires.

Some of the most beautiful gems in the world are the white sapphires of Ceylon, for, strange as it may appear to persons accustomed to consider sapphire and deep cerulean blue synonymous, the Ceylonese gems, which are the finest in the world, range from soft, velvety blue to peacock blue, graduated in the latter to almost faintless white.

White sapphires are often clouded or streaked with blue, being white when looked at transversely after cutting, but having a bit of fine blue tint on the under point. It also occurs in greens and yellows, the former shade being known as the Oriental emerald, and the last as the Oriental topaz.—Philadelphia Record.

Pepto Quinine Tablets.

These tablets relieve and cure constipation. 25 cents.

PRESERVING FODDER

The Silo is a Practical and Economical Method.

Under ordinary conditions the silo is a practical and economical method of preserving fodder, but in its construction one should strive to reduce the amount of losses to the lowest possible amount. There are very few silos that are absolutely perfect, that is as air-tight as a fruit can or jar. That, however, is what everyone is laboring to do when he builds one, and the nearer he approaches this ideal the less will his loss prove. The more successful we are in keeping the air from the body of the fodder the better it is cut and stored away the less likely will it be to decay or lose any of its nourishing qualities. Leave the fodder exposed to the air and it dries up, and with the evaporation of the moisture from it a good deal of nourishing elements will disappear also. If a small loophole is allowed in the silo destructive fermentation soon begins, and this can be checked only by shutting out the air. Cracks and knot holes are therefore the weak points in every silo, and more than one large mass of ensilage have been ruined through ignorance or neglect of these.

In selecting the corn or other fodder for the silo it is quite essential that it should have arrived at a certain stage of maturity. Chemical changes begin in the silo shortly after the fodder is put in even if the place is absolutely air-tight, and these changes must be allowed for. Fermentation of a certain order must begin, and the heat of the mass will increase so as to cause this. The more water there is in the ensilage the greater will these chemical changes be, and in most instances they would destroy the fibre of the food. Corn cut before it has properly matured, indicated by the glazing or denting of the kernel, has too much water in it to make good ensilage. When pressed into the silo the water is forced out of the stalks and settles gradually at the bottom of the mass. This great mass of water at the bottom of the silo always causes trouble, and in pine cases out of ten produces sour ensilage. Sometimes the sourness may not extend far up, but it is pretty sure to cause more or less mischief. Besides this, young corn fodder is deficient in the full amount of nutriment. On the other hand if we let the corn get much beyond the stage of maturity indicated there will not be sufficient water in it to preserve it. The stalks will be stiff and unyielding and they will not be pressed down solid enough to make a compact mass. The result will be that there will be too much air in the silo and mold is very apt to form. These few points in regard to the silo should be watched and guarded against carefully if we would have perfect ensilage for next winter's feeding.—A. E. Barrett.

Process for Raising Cream.

New processes of raising cream and of churning butter are constantly being brought to the notice of the reading public. Some of them possess essentially good points which are so connected with those that are objectionable that the whole scheme has to be condemned. Quite recently an account appeared in the papers about a new patented scheme for churning butter by bubbling air through it. The patentee asserts that he can churn thirty per cent. more butter from cream or milk than the Babcock test shows it to contain, that he can churn any kind of cream in thirty minutes, that the cream may be kept standing for from one to two weeks before churning and that it can be kept at a temperature of 70 degrees Fahr. Yet, under all these conditions, he can make first-class butter! We don't need to tell our readers to take all such yarns with considerable allowance, and especially so when they are told that the temperature of the air to be forced through the cream is 70 degrees. This churn was heard of in Australia about eight years ago, in England, and then again in Toronto, and now it is Ottawa. If any one tries to sell you a machine that will churn 30 per cent. more butter than the Babcock test shows your milk or cream to contain, have nothing to do with them.

Sunshine in the Dairy.

For the destruction of disease germs, microbes, the purification of houses, stables and barns, the encouragement of plant growth and advancement of nearly all forms of life, the sun, in its varying degrees of intensity of heat, stands above all the inventions and devices of man. It is the sun, more than any other force, that influences the growth of plants, their aromatic oils, the color of their flowers and the quality and color of their fruit. That it has equal force in the spirits and health of man is well known. It is the most potent germicide. But few if any diseases can spread in its presence. Beneficial to useful plants, it is destructive to injurious ones, as molds, fungi and bacteria. The dairyman is one of the chief beneficiaries of sunshine, since it destroys the germ in the common lot and enables him to combat infectious diseases. The sun will perform its work if given admission into the marshes, foul barns, cellars, stables and houses. In all buildings there should be plenty of windows.

Hog Notes.

It is not good economy to feed the fattening hogs, the growing pigs and the brood sows together.

Growing hogs should not be confined.

Have the quarters for the hog clean and dry.

Give growing hogs a ration to produce bone and muscle.

It dulls the appetite to lay food before the hogs all of the time.

While hogs do not require an expensive shelter, it is very important that it be dry.

NOTES FOR BEEKEEPERS

Never pull up the cover that the bees have so closely sealed down unless compelled to do so.

Any extra work about the apiary should be attended to and everything gotten in readiness before the bees begin to swarm.

Beekeeping combined with fruit-growing enables one to take a double crop from the same land.

Worker bees being undeveloped females may now and then be sufficiently developed to lay eggs, but their eggs will produce only drones.

One secret of getting wax of a bright yellow color is to allow it to cool slowly, but always be careful not to burn it.

The only rule in using the smoker is to use it sufficiently to keep the bees under control from the start, taking care not to kill them.

In all hives there should be three persons—the queen, the worker bee and the drone.

The worker bee does all the work of the hive, gathers in the honey, pollen and water, secretes the wax, builds the comb, ripens and caps the honey.

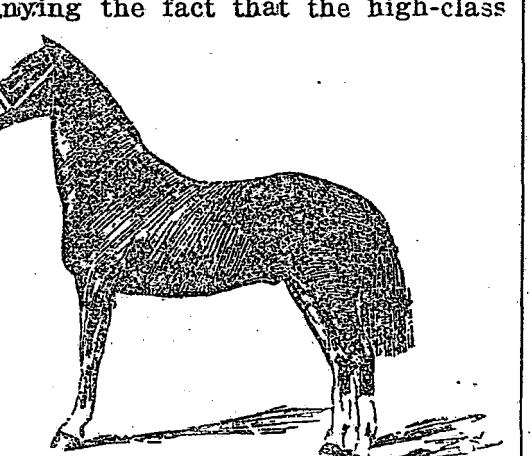

As long as the bees have plenty of room in the hive, surplus boxes are unnecessary and should not be added to the hive.

When returning frames to the hive, adjust them slowly and carefully. Do not slide the frame to its place at one push; slide it up slowly, just to touch the next frame.

Honey properly kept will improve with age. The older it is the better it will be, but it must be kept dry.—The Maine Farmer.

Has Any One a Remedy.

The problem of how to reach the agricultural breeders and impress forcibly upon their minds the advantages of changing their methods of breeding horses is one that buyers, dealers and well posted men have been for several years trying diligently to solve. Brilliant men have written essays upon the subject; wise men have lectured to farmers' institutes; able men well posted on the science of breeding have delivered able papers delegates to national, state and county live stock breeder associations have made speeches. All of these papers, essays, lectures, speeches and articles have been published in the better class of weekly papers that circulate largely in the agricultural districts and still, scrub stock enough is produced every year to practically control the market price of a large percentage of the horses produced in the agricultural districts. There is no denying the fact that the high-class

horses that are now selling in the market for good prices are the product of special breeding farms. This is true of light harness horses, coach and carriage horses and heavy draft horses. It is sometimes a question whether the essay, papers, speeches and articles on breeding will hold out or whether the men who are making a gallant stand to promote and advance the industry will not grow tired and disgusted and utilize their energy in some other direction, where they may realize a hope of reward before they die. The hammering process becomes monotonous after a time and the gratuitous school of education will close for lack of poorly rewarded teachers. Advice on the subject has been used exhaustively. Can any one suggest a new remedy to fit the case?

What It Is.

A farmer can house his farm implements and set them out in the spring in good repair, ready for use. That is good management.

Another farmer can leave his farm implements where he last used them, to rust and decay, and next spring he can hitch to them and curse the maker and his Maker because they don't work well. That is very bad management.

A man can so breed and handle his live stock as to produce only the best types of animals. That is good husbandry.

A man can so abuse and neglect the care of his farm stock that it will degenerate into the meanest types of animals. That is bad luck.

A farmer may have a strong, fertile soil, and scratch it over from year to year, and let the rains continue to wash away the fertility and grow poorer crops until the land has to change ownership because the former owner did not know enough to understand and open up the hidden treasures that lie deep in the soil, waiting the kindly touch of an intelligent hand. That is pig-headedness.

Inexpensive Turkey Remedy. I have seen mention of turkeys being lost on account of bowel trouble. Several of us have lost turkeys from the same cause, but we think we have hit upon a sure cure for it, and the cost is comparative nothing. We did not lose a turkey after using the remedy. Get five cents' worth of vermillion red, such as painters use, and mix it in the food and water for the turkeys, keeping all other water away and compelling them to drink the "medicine." This seems simple enough, but it does the business, and may save some of your readers a good many dollars. I have a fine flock of turkeys that were all taken with trouble, but after using this remedy they all recovered and are all right now. This is said to be an equally good remedy for chickens as for turkeys.—William Britton, in Ohio Farmer.

The Chicago Tribune

is a newspaper for bright and intelligent people. It is made up to attract people who think. Is not neutral or colorless constantly trimming in an endeavor to please both sides, but it is independent in the best sense of the word. It has pronounced opinions and is fearless in expressing them, but it is always fair to its opponents.

Matters of national or vital public interest get more space in THE TRIBUNE than in any other paper in the West.

For these reasons it is the newspaper that should read during the forthcoming political campaign.

THE TRIBUNE'S financial columns never mislead the public.

Its facilities for gathering news, both local and foreign, are far superior to those of any other newspaper in the West.

It presents the news in as fair a way as possible, and lets its readers form their opinions.

While it publishes the most comprehensive articles on all news features, if you are busy

the "Summary of THE DAILY TRIBUNE" published daily on the first page gives you briefly all the news of the day within one column.

A BIG CATTLE SHOW.

ALL BREEDS TO HAVErecognition AT THE BUFFALO EXPOSITION.

A Building to Be Devoted to Exhibits of Dairy Appliances, Methods and Products—Milk In All Its Commercial Forms.

It is expected that the live stock, poultry and pet stock exhibits at the Pan-American Exposition next year will include about 25,000 individuals. Beginning the latter part of August, Superintendent Frank A. Converse has arranged for a special cattle show, to continue two weeks. The 16 or 17 breeds recognized in this country and Canada, including beef and dairy cattle will have a place in this division. The classification of beef animals includes the Shorthorns, Herefords, Aberdeen-Angus, Galloways, Devons and Polled Durhams. The National Live Stock, Shorthorn, Hereford and Galloway associations will endeavor to make exhibits excelling in interest any that they have heretofore brought together. The co-operation of these great associations gives strong assurances of an unqualified success in this feature of the show. The National Live Stock association expects to make a very instructive exhibit, showing the character of animals upon the ranches many years ago along with those of the present day, illustrating the remarkable results of scientific breeding.

The dairy associations are putting forth a special effort to be represented at the Exposition by their best animals, and individual exhibitors are preparing to come in considerable numbers with specimens of very fine dairy stock. The displays of dairy breeds will include Jersey, Holstein, Ayrshire, Guernsey, Brown Swiss, Red Polled, French Canadian and Dutch Belted cattle. Liberal prizes are to be awarded by the Exposition for the best animals of the several breeds. These attractive purses are certain to bring out a fine selection of animals.

So important are the dairy interests of the Americans that large building will be devoted exclusively to them at Buffalo. The building will be equipped with a complete refrigerating outfit, so that fresh exhibits may be shown throughout the continuance of the Exposition. The many ins and outs of dairy management will be illustrated by means of models of stable appurtenances, ties, water buckets, mangers and appliances of all kinds. Particular attention will be given to the proper manipulation of dairy products.

In this connection will be shown all sorts of churns, separators, vats, bot-

POULTRY AND PET STOCK.

Mammoth Display of Feathered Favorites to Be Made at Buffalo.

There are some 45 national associations interested in poultry raising in the United States. The Live Stock division of the Pan-American Exposition, of which Frank A. Converse is superintendent, is in correspondence with all of these, and a most cordial co-operative spirit is shown on the part of every one toward making the poultry and pet stock show of this Exposition the greatest of the kind ever held. The displays of poultry will comprise about 100 breeds. To these will be added six breeds of turkeys, 11 breeds of ducks and nine breeds of geese.

As an evidence of their interest in the coming show many of the associations have volunteered to duplicate the prizes offered by the Exposition. It is also proposed by the associations to do all in their power to boom this feature of the Pan-American Exposition at the winter poultry shows to be held in Boston, New York, Philadelphia and other cities. It is estimated that not less than 75 per cent of the poultry associations will offer special prizes.

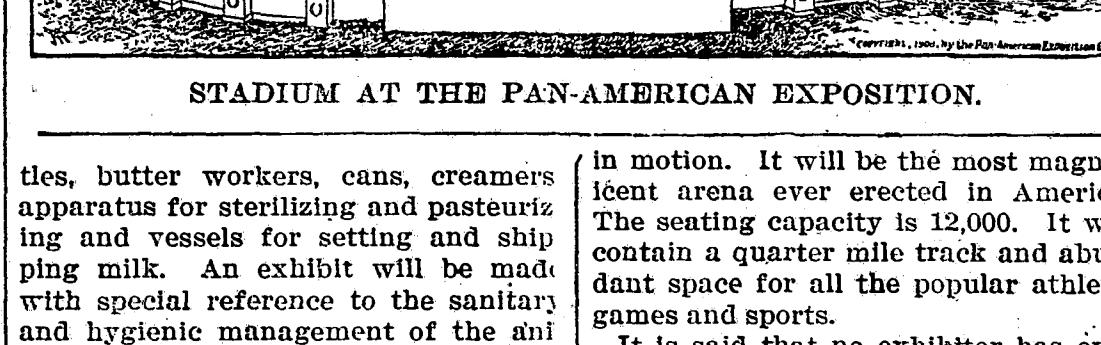

An important feature of the Pet Stock Show will be the exhibit of Belgian hares. The classification, however, covers all kinds of pet stock. The Belgian hares are being extensively raised in various parts of the country on account of the value of their meat. The fine stock in these animals brings a very high price, and the demand is surprisingly great. The Belgian hare is much heavier than the common rabbit, weighing some seven or eight pounds and quite a different animal. Its flesh is described as a cross between venison and mutton and is highly prized in European countries for food. It breeds rapidly and feeds upon such simple and cheap foods as carrots, white oats, lettuce, clover and tender green food of many kinds. It does not burrow and is very tame. Children are very fond of them as pets.

Aside from their value for food, their fur is in demand for making fine felt. This will be the first noteworthy exhibit of these animals in America and will afford an opportunity for everyone to gain useful knowledge concerning them.

THE STADIUM.

Magnificent Arena For the Display of Live Stock and For Sports.

While the Stadium at the Pan-American Exposition was designed primarily for athletic and sporting events, it is intended also for the parade and judging of live stock and for the exhibition of farm and road machinery, traction engines, automobiles and other vehicles

STADIUM AT THE PAN-AMERICAN EXPOSITION.

ties, butter workers, cans, creamers apparatus for sterilizing and pasteurizing and vessels for setting and shipping milk. An exhibit will be made with special reference to the sanitary and hygienic management of the animals themselves, the stables which they occupy and the buildings in which the milk and cream are cared for. It has been found that nearly all diseases to which dairy cattle are subject can be avoided by cleanliness and proper management. The germ theory of the transmission of disease has had a revolutionary effect in dairy management, and the importance of the observance of hygienic rules will be graphically portrayed. The ventilation of dairy buildings, having due regard for the comfort and health of the animals, has been developed upon scientific lines, and present knowledge upon this feature of dairy construction will be shown by means of proper models. The exhibit of dairy products will include milk and cream in all their commercial forms, embracing pasteurized, sterilized and condensed milk, butter and many varieties of cheese.

America has never produced a distinctive breed of beef or dairy animals, but scientific breeding has so improved upon the imported stock that it is said the American product would hardly be recognized in the land of its origin. The effort will be made at this Exposition to bring to the attention of stock growers, dairymen and unscientific breeders of beef and dairy cattle the advantages to be derived from the possession of cheer and more efficient breeds.

It is said that half the dairymen in the United States are milking cows with no profit to their owners, while it is possible for well bred cows, whose milk is marketed at normal prices, to yield a profit of \$100 per annum. This lesson in profit and loss concerns every one who devotes any part of his time to dairy work.

The judging of cattle will take place in the Stadium, where the honors will be bestowed and where an audience of 10,000 people may witness these formalities. The live stock buildings will accommodate not less than 1,000 cattle, and their construction is upon plans best adapted for the comfort and convenience of the animals and herdsmen.

Display of Irrigation Methods.

The advance of knowledge upon the subject of irrigation has prompted the management of the Pan-American Exposition to provide for an adequate exhibit showing methods of irrigation and various tools and supplies.

COMMON COUNCIL.

A regular meeting of the Common Council was held at the council room Oct. 2, 1900 at 8 o'clock.

M. S. Mead, Village President in chair.

Minutes of meeting Sept. 4th, read and approved.

The Staats Zeitung the most influential German newspaper in the United States came out on Monday Oct. 8, with an editorial advocating the election of McKinley.

"If there is any one who believes the gold standard is a good thing or that it must be maintained, I warn him not to vote for me, because I promise him it will not be maintained in this country longer than I am able to get rid of it." —From the speech of William Jennings Bryan at Nashville Tenn.

Important to Record Subscribers.

Owing to having received numerous complaints regarding failure to receive RECORDS promptly we have endeavored to correct any fault that might lie with this office by instituting an entire new system of mailing and we shall esteem it a favor if any one failing to receive a paper he or she is entitled to, will report the same at our office and we will see that the same is rectified. To those not subscribing we simply say that now is the time to subscribe and secure the best weekly in this section.

Republican Appointments.

Millburg, Oct. 15.

No. 8 district school house, Oct. 17.

Stump school house, Oct. 20.

Starting of Sugar Factory'

The Wolverine Sugar factory will not start running until about Oct. 18 on account of the slow ripening of beets. The plant is prepared to start any day when the managers think the beets are ripe enough.

PUNGENT PARAGRAPHS.

Extracts from Gore's Speech at Buchanan, Sept. 27.

"This is a time for plain speaking, but I do not refer to Democrats as individuals, for I make a distinction between Democrat and Democrats. There are Democrats loyal to flag and national honor, and ever as such must have our profound respect; such democrats are those who do not take their opinions ready made from office holders."

"There were no mistakes in the republican industrial policy."

"It is our policy to circulate money to revive industries to see our labor busy at loom, and forges."

"We made no mistake in 1890 when we elected our president and we will make no mistake in 1900 if we put in Wm. McKinley."

"It is my purpose to say nothing uncharitable about men, but I can not help being severe in denouncing the democratic doctrines."

"If you believe national welfare and your security should be enhanced you will aid in giving McKinley & Roosevelt an unanimous verdict this fall."

"Mr. Bryan in speaking of the money question in 1896 said, 'It was a criminal conspiracy against the welfare of the entire world.' If that be true said the speaker. 'Can there be another issue paramount to this issue?'"

REPUBLICAN CLUB DOINGS.

Living up the Campaign.

The McKinley Club held their regular meeting on last Thursday evening and completed their organization by electing an executive committee consisting of D. H. Bower, B. D. Harper, and J. B. Peters.

Interesting talks were given the club by Dr. R. Henderson, and by Mr. H. A. Rackliffe, candidate for register of deeds. Arrangements were also made for meetings on Tuesday and Friday evenings.

TUESDAY EVENING

The meeting held Tuesday at the club rooms was a good one, a goodly sized crowd being in attendance. Dr. R. Henderson presided and fine addresses were given by Mr. I. W. Riford of Benton Harbor, candidate for Prosecuting Attorney, and Mr. Humphrey S. Gray of Benton Harbor. Both gentlemen were listened to closely and were frequently interrupted by bursts of applause as they touched a salient point. At the conclusion of the speaking a vote of sympathy was passed, sympathizing with Mr. Sam H. Kelley of Benton Harbor who has just sustained the loss of his wife who died at Chicago Tuesday evening.

FRIDAY'S MEETING.

Great preparations are going on for Friday's meeting at Rough's Opera House: Delegates from Niles, Dowagiac, Three Oaks and other points are expected, and a Torchlight Parade will be one of the features of the occasion. Mr. Burns who will speak is a resident of Niles, and is one of the coming orators of the state, having delivered the Labor Day address this year at Saginaw. Come out and hear him. Good music will be furnished.

PERSONAL.

Mr. Frank Whitman was at home over Sunday.

Miss Mary Reynolds was at home over Sunday.

Mr. Jay Godfrey heard Mr. Bryan speak at Niles.

Mr. F. M. Gray was over from Niles, Monday.

Mr. S. Smith of Cassopolis was in town Saturday.

Mr. Herbert Roe was in South Bend yesterday.

Mr. N. H. Roberts of Niles was in town yesterday.

Mr. and Mrs. W. B. Thomson left yesterday noon for Kansas City, Mo., where they will attend the National Convention of the Christian church. Mr. Thomson is one of the four delegates from this state, and Mrs. Thomson is the member of the official board of the C. W. B. M. for this state.

Mrs. W. W. Wells went to Chicago, Monday.

Mr. and Mrs. J. V. Voorhees were called to Sterling, Ills., this week by the illness of their granddaughter Miss Mildred Case. Mrs. Voorhees went Sunday and her husband on Tuesday.

Rev. and Mrs. W. B. Thomson left yesterday noon for Kansas City, Mo., where they will attend the National Convention of the Christian church. Mr. Thomson is one of the four delegates from this state, and Mrs. Thomson is the member of the official board of the C. W. B. M. for this state.

Will Vote for McKinley.

Thomas A. McCarten, a prominent merchant, and Edward Glavin, one of the wealthiest farmers of Chickaming township, life long Democrats and party leaders, have announced they will vote for McKinley, giving as the reasons the general prosperity that exists.

OBITUARY.

Miss MILDRED CASE daughter of Mr. and Mrs. A. J. Case of Sterling, Ills., and granddaughter of Mr. and Mrs. J. V. Voorhees, and Mr. and Mrs. J. R. Case of Buchanan, died at her home in Sterling yesterday morning at 8:15 o'clock.

The deceased was taken ill with appendicitis just one week before her death and from the first her case seemed hopeless, although everything that medical skill and loving care could do, was done but without avail.

Her parents are prostrated by the blow, her mother especially, as she seems almost bereft of reason by the shock.

Miss Case was born in Buchanan on January 18, 1878, and would have been 22 years old next January. The deceased was a bright and lovable girl whose many friends testify to her kind and generous disposition. She was a consistent member of the Christian Church and her beautiful life and character were an inspiration to all.

Her remains were brought to Buchanan last night accompanied by her bereaved parents and grandparents, and the funeral services will be held either Friday or Saturday the exact time not having been decided upon when the Record went to press.

MRS. S. H. KELLEY.

The many friends and relatives of Mr. and Mrs. S. H. Kelley of Benton Harbor were shocked to hear of the death of Mrs. Kelley, which occurred at nine o'clock Monday night at Chicago where she had undergone an operation at the hospital on Saturday.

Miss Lura Roe of Chicago came to Buchanan, Wednesday evening for a visit with parents and friends.

Mrs. Chas. Smith and daughter, Mrs. Vera visited Mr. and Mrs. J. P. Ansiss, Monday.

Rev. W. W. Wyrick of Dowagiac attended the Prohibition Rally at Buchanan, yesterday.

Miss Lura Roe of Chicago came to Buchanan, Wednesday evening for a visit with parents and friends.

Mrs. Chas. Smith and daughter, Mrs. Vera were guests of Mr. and Mrs. J. Y. Godfrey and family last week.

Mrs. Frank Camp and son Earl, who has been visiting in Benton Harbor the past week, returned home Wednesday.

Mr. John Graham went to Berrien Springs yesterday morning called there by the death of his niece, Mrs. S. H. Kelley.

Mrs. D. H. Bower and daughter Helen left this morning for Reading, Hillsdale County, where she will visit relatives.

Mr. D. L. Boardman has just returned from a business trip to Chicago, and promises some fine things for his customers.

Elder Wm. M. Roe spent last Sunday in Sodus, preaching for the Mount Pleasant Christian church both morning and evening.

Mr. W. E. Anstiss, wife and son William, who have been visiting Mr. and Mrs. J. P. Anstiss the past week, returned home Monday.

Miss Lena Bronson left on Monday for Vandalia, Cass Co., where she will assist in revival meetings which are being held at that place.

Mr. and Mrs. Geo. Kreigbaum of South Bend are visiting Mrs. Kreigbaum's parents, Mr. and Mrs. I. H. Schreiber, and will remain until Friday.

Messrs. I. W. Riford candidate for Prosecuting Attorney and Mr. Humphrey S. Gray of Benton Harbor attended the meeting of the McKinley Club at this place, Tuesday evening.

Mr. and Mrs. F. Kingery drove to South Bend last Thursday and from there went to Elkhart, where they spent the day with Mrs. Kingery's brother Mr. L. R. Boyle, who has recently located there.

Messrs. A. A. Paterson, J. W. Johnson and Frank H. Ellsworth of Benton Harbor came down Tuesday evening to meet the funeral party of Mrs. S. H. Kelley, whose body was brought from Chicago.

Mr. A. E. Ludington of Middleton, N. Y. is visiting relatives in town. Mrs. Ludington has been here some time called by the illness of her sister Mrs. B. Myr. They expect to remain a week or ten days.

BUCHANAN RECORD.

THURSDAY, OCT. 11., 1900.

Entered at the Post-office at Buchanan, Mich.
as second-class matter.

LOCAL NOTES

A young daughter has arrived to make her home with Mr. and Mrs. Harry Butler

Master Richard Kingery son of Mr. and Mrs. H. F. Kingery is quite ill with a severe cold.

The boiler of the Buchanan Cabinet Co.'s factory gave out this week necessitating a shut down of the shop on Monday.

Quite a goodly number of Buchanan citizens went to Benton Harbor and Niles yesterday to hear and see Mr. W. J. Bryan, the democratic candidate for President.

Messrs C. A Chapin and F. M. Gray of Niles, together with Supt. Hunker of the South Bend Electrical Co.'s plant were in town today looking over the power house and property at the river.

A party of Chicago people were in town on Tuesday, looking over the Rough Wagon Works with a view of locating their factories here. They looked over the plant carefully and will submit a proposition in about a week or ten days.

MORRIS THE FAIR.

Mr. Jim Hanover has moved into the house on Moccasin ave. just south of Mr. Geo. B. Richards.

The members of the G. A. R. and their ladies began their season of evening socials, by calling on Mr. and Mrs. H. K. Couse, Saturday evening. About fifty were present and a royal good time was enjoyed.

A reception was tendered on Tuesday evening by the members of the M. E. Church to their new pastor Rev. W. J. Douglass and his estimable wife. Refreshments were served and all had a pleasant time.

Mr. and Mrs. Asa Ham of South Bend, Ind., welcomed a young son at their home, on Sunday evening. Mother and son are doing well and Mr. and Mrs. Matthew Ham of Oak street have brand new grandson.

Mr. F. E. Squiers of the Electric Laundry has rented the brick building adjoining the race just west of the Cooper feed mill and will remove there as soon as necessary alterations can be made.

The "Under the Dome" Company gave an excellent performance at the Opera House on Saturday evening, and Manager Wolcott is to be congratulated upon the class of entertainments he has been providing the citizens of Buchanan.

The Record has noted the reappearance of the perennial dispatch that the Vandalia Railroad had purchased the M. B. H. & C. line from Buchanan to Benton Harbor and on Tuesday asked Supt. A. A. Patterson Jr. as to the truth of the report. Mr. Patterson stated that there was nothing in the report whatever.

Mr. and Mrs. W. D. House, Mr. and Mrs. Frank Williams and Mr. Moses Shook returned yesterday noon from an extended trip through Southern Michigan and Northern Indiana. They started two weeks ago with a camping outfit and a string of 9 horses, to make a horse trading trip and take an outing at the same time. When he returned home Mr. House had ten horses and a nice little roll of bills. He says it beats any summer resort all hollow.

The regular meeting of the Directors of the Berrien County Farmers Mutual Fire Insurance Co. was held at the First National Bank, on Saturday, the following directors being present: Geo. M. Dean, S. C. Thompson, R. B. Metzger, C. H. Farnum, I. M. Murphy, R. M. Hogue, Jas. M. Truitt, Stephen Harner, James Archer, J. H. Wells, I. T. Beckwith, R. M. Goodwin, R. V. Clark, and W. R. Rough. Considerable business was transacted, 73 new policies aggregating \$55,000 of insurance were accepted, and losses to the amount of \$203.38 ordered paid.

The members of the Presbyterian church have sent a very pleasing remembrance to Rev. and Mrs. H. V. Warren, a former pastor of this church but now at Princeton, Ills., on the occasion of the fiftieth anniversary of their marriage which occurs the eighteenth of this month. The remembrance consists of a book upon each page of which a member has written a greeting, the cover being handsomely painted in water colors by Miss Ella F. Hahn. The memento is a handsome one and will be sent to Mr. and Mrs. Warren this week.

Mrs. Howard Smith of Lake street is greatly interested in Belgian Hares, and is very successful in breeding the same. Mrs. Smith has at present sixteen hares in her pens and takes great pride in showing her pets to persons interested. The breeders of Belgian hares have a state association, Mrs. Smith being a member of the Executive Board. The official scorer of the association was at Buchanan recently and inspected Mrs. Smith's stock and that lady was much gratified to find that the animals had scored 91½ points, a much higher average than she expected.

An exhibition will be held at Battle Creek Dec. 4-7 at which Mrs. Smith expects to have an exhibit, and hopes to capture a prize.

Miss Fannie, the thirteen year old daughter of Mr. and Mrs. Geo. Smith is seriously ill with typhoid fever.

Mr. and Mrs. Edward Steele are rejoicing over the advent of a fine boy, at their home. The little stranger arrived last week, Wednesday.

Rev. Clarence Brigham the new pastor of the United Brethren Church has rented the house belonging to Mrs. Pierce on Detroit street.

Mr. O. S. Tourge formerly of Buchanan but now living at Cassopolis has purchased the meat market of Mason & Wagner at that place.

The M. W. A. team of Foresters and a number of other Woodmen of Buchanan Camp went to Three Oaks last night to confer the degree for the Camp at that place. All report a good time.

Messrs. Chas. F. Pears, Chas. Bishop and J. W. Beistle have purchased the building and property formerly occupied by the Hatch Cutlery Co.'s factory. Mr. Pears, when questioned as to the use it would be put to, stated that they had not had anything definite in mind but had bought it as an investment.

The 30 Club met yesterday with Mrs. C. H. Fuller a goodly number being present. Mrs. Alfred Richards led the History lesson in place of Mr. H. F. Kingery, Mrs. E. B. Weaver acting as substitute for Miss Morgan. Mrs. Chas. Bishop was elected a member. The next meeting will be held with Mrs. H. F. Kingery.

The regular meeting of the Directors of the Berrien County Farmers Mutual Fire Insurance Co. was held at the First National Bank, on Saturday, the following directors being present: Geo. M. Dean, S. C. Thompson, R. B. Metzger, C. H. Farnum, I. M. Murphy, R. M. Hogue, Jas. M. Truitt, Stephen Harner, James Archer, J. H. Wells, I. T. Beckwith, R. M. Goodwin, R. V. Clark, and W. R. Rough. Considerable business was transacted, 73 new policies aggregating \$55,000 of insurance were accepted, and losses to the amount of \$203.38 ordered paid.

The members of the Presbyterian church have sent a very pleasing remembrance to Rev. and Mrs. H. V. Warren, a former pastor of this church but now at Princeton, Ills., on the occasion of the fiftieth anniversary of their marriage which occurs the eighteenth of this month. can be utilized, and plans are being perfected whereby an expenditure of close to \$100,000 will be made to enlarge and improve the capacity of the plant.

A Record representative interviewed Mr. F. M. Gray asking him as to his purposes in regard to the power, and Mr. Gray stated that Mr. Chapin had purchased the plant as an investment and was well satisfied with the same, and intended to utilize the power at Buchanan if it possibly could be done. This deal has been underway for some time past, Mr. F. M. Gray of Niles having secured an option about 6 weeks ago from the Beckwith Estate, and it is due to his energy and ability that the matter has been consummated.

Mr. Gray will be associated with Mr. Chapin in the enterprise and the Record extends a hearty welcome to these gentlemen who are business men and have abundant capital to carry out any plan they may undertake.

WEDDING BELLS.
WOOD—SCOTT.

The home of Mr. and Mrs. Col. L. Wood, at Niles, was the scene of a pretty wedding on Tuesday at half past two o'clock, at which time occurred the marriage of their daughter, Miss Jessie, and Mr. Harry Scott, son of Mr. and Mrs. G. R. Scott of Portage Prairie.

About fifty guests were present, the ceremony being performed by Rev. F. Chapman. Dr. J. A. Garland was best man and Miss Antionette Clavreigne acted as ring bearer.

The young couple were recipients of many handsome gifts, leaving on the west bound train for a wedding trip and upon their return will reside at their farm on Portage Prairie. The Record extends congratulations to Mr. and Mrs. Scott.

BARR—ELLIOTT.

The marriage of Mr. Rolland E. Barr of Three Oaks and Miss Mabel, daughter of Mr. and Mrs. Charles Elliott was solemnized at the home of the bride's parents on Tuesday

The addresses were all especially fine Mr. Cushing being an exceedingly plain and practical talker, and all were listened to with the greatest of attention. Mr. Henry B. Metcalf candidate for Vice President was compelled to leave for his home in Pawtucket, R. I., on account of the serious illness of his son.

The County Sunday School Convention meets in St. Joseph Thursday and Friday, October 18th and 19th. A very interesting program has been arranged. Music is to be under the direction of C. D. Jennings, and a special chorus is being trained for the occasion. Alfred Day of Detroit, general secretary for the state will be present, also Rev. R. W. VanSchoick, Presiding Elder of the Niles district.

Rev. J. F. Bartness, who has recently returned from a journey to the Holy Land, will deliver a lecture on Palestine. Each Sunday School is entitled to three delegates in addition to the pastor and officers.

A Good Thing, Push it Along.

Attention is called to a meeting of all ex-soldiers and sailors, and their ladies, and the ladies auxiliaries to G. A. R. to be present at G. A. R. hall on Saturday, Oct. 13 at 10 o'clock a.m. for the purpose of organizing a Soldiers Annual Picnic Association.

Good speaking and singing will be in attendance. Come and have a general good time. Refreshments at 12 m. Bring a basket well filled.

STEPHEN SCOTT, Com.

Wants to Settle.

Michigan Central Attorney Nadolick, of Detroit, and Michigan Central Attorney Nat Stewart, of Kalamazoo, were in the city this morning in conference with Atty. C. W. Hendryx in an attempt to settle the \$20,000 damage suit recently brought through Mr. Hendryx against the railroad by Mrs. William Mrohs, of Buchanan.

Mrs. Mrohs is the lady who several months ago was badly injured by a Michigan Central freight car which broke loose from its train while backing down a steep siding at Buchanan and crashed through the Mrohs residence and brought up in the sleeping chamber of the occupants of the house. Mrs. Mrohs was in bed for several weeks as a result.

Atty. Stewart went to Buchanan on an afternoon train. Friday's Dowagiac News.

Values have increased in Nebraska since 1896, as follows:

Per cent
Hogs, increase.....45

Beef, increase.....60

Corn, increase.....15

Land, increase.....20

Household goods, increase.....20

Savings bank deposits increase.....35

All property, increase.....75

On the other hand there has been the following reduction:

Per cent

Mortgages decreased.....40

And the record runs the same through all the states under McKinley's Protection and prosperity.

PLEASED

WITH OUR PRICES

WITH OUR PROMPTNESS

WHAT MORE
CAN YOU ASK?

We want to talk to you earnestly and with an effort to secure your patronage. The public size up goods by the quality and price and the size up should be to your interests. The recollection of quality remains long after the price is forgotten. Our every effort is to please our customers and we are meeting with gratifying success. When you want Groceries and Crockery we are ready to talk to you. Our store is the place to buy.

PHONE 22

G. E. SMITH & CO.

Prohibition Rally.

A large crowd assembled at Rough's opera house yesterday morning to greet candidate John G. Woolley of the prohibition party and his party who arrived here on the Prohibition special train over the Michigan Central railroad and although the hour was early the attendance when the meeting was called to order was very large.

The party comprised Mr. John G. Woolley the presidential candidate, Mr. Volney B. Cushing of Bangor, Me., and author of Cushing's Manual, F. S. Goodrich of Albion, candidate for Governor, Mr. W. S. Westerman of Adrian, candidate for Attorney General, Rev. W. W. Wyrich of Dowagiac, candidate for representative from Cass Co., State Com., Chairman F. D. Britton, Nat'l Committee, Sam'l F. Dickie, O. W. Blain of Grand Rapids, F. W. Corbett of Adrian and others.

The addresses were all especially fine Mr. Cushing being an exceedingly plain and practical talker, and all were listened to with the greatest of attention. Mr. Henry B. Metcalf candidate for Vice President was compelled to leave for his home in Pawtucket, R. I., on account of the serious illness of his son.

The Michigan Central R. R. Co. will run a special train from Jackson to Chicago on Saturday Oct. 18th passing Buchanan at 5:14 p. m. Tickets good for return on regular train up to and including train leaving Chicago at 6:45 a. m. Monday, Oct. 15th. Fare for the round trip from Buchanan \$1.25.

A. F. PEACOCK, Agt.

Letters Unclaimed.

Letters unclaimed remaining in the post-office at Buchanan, Mich. to post ending Oct. 9, 1900: Adam Borden, Carrie Brant, Grace Klein, Nicholas Mergen.

G. W. NOBLE, P. M.

You will want one of those Rainy Day Skirts when Boardman's come. Watch for them.

Elson & Co. now have their Fall and Winter Millinery ready. Hats to please every-one in both price and style.

LARGER HOPE

Elder J. H. Paton will preach Sunday at 10:30 a. m. and 3. p. m.

CHRISTIAN.

Rev. J. W. R. Lister will preach next Sunday morning, and A. C. Roe will conduct the evening services. Bible school at 12 o'clock noon.

PRESBYTERIAN.

Rev. David Howell of Lansing, Mich. will preach Sunday morning and evening at the usual hours.

Sunday school meets at close of morning session.

EVANGELICAL CHURCH.

There will be a special service at the Evangelical church next Sabbath morning in the form of a Harvest Home. The room will be decorated with all manner of Grain and Fruit.

Special exercises by the Sunday School scholars during the Sunday School hour. Young People's service in the evening beginning at 8:00 and the sermon at 7:00; notice the change in time. Everybody cordially invited.

METHODIST

The Pastor Rev. W. J. Douglass will preach morning and evening at the usual hours. Sunday School at 12 m. Every one of our members are again urged to be present next Sunday and each bring a friend who attends no other School.

Epworth League devotional meeting will be held from 5:45 to 6:45 p. m. subject, "Paul the Missionary, the Secret of his Success." It is a quarterly missionary service. Ref. 2nd Tim. 4:1-8. Leader, Miss Eva Chamberlain.

THE FARMER'S MODEL ACCOUNT BOOK

This is something new and will interest farmers generally. On one page of this book is printed the history for one season of a farmer's cash affairs just as they occurred on his farm. On the page opposite this history the Cash Account is written out in legal bookkeeping form. This forms a correct model to which the farmer may refer and correctly write his own cash account on the properly ruled blank pages farther along in the book.

On another page are printed the facts concerning a season's business with a cornfield. The bookkeeping work in correct form is written out on the page opposite, showing all outlays, receipts, and the final profit.

All is made so plain by full explanations that any farmer can on the succeeding blank pages keep in strictly scientific and legal form his own accounts with any grain or hay field.

In a like manner a model is given for an Apple Orchard Account which may be applied to any orchard; as plum, peach, or to a berry field.

A model Account with Cows is given, from which any farmer may keep any stock or poultry account.

A model account with a hired man is given. Also with another person. There is also a correct legal model for recording notes.

With this book, containing models, full explanations and properly ruled blank pages, a farmer may by a few minutes' work each week keep his account in the same correct and legal manner as does a merchant or any careful business man. No matter how poor the writing, the form will be correct and would stand in any court of law.

No farmer can afford to be careless in the matter of his accounts any more than any other business man. It is of daily occurrence as shown by the newspapers that unexpected legal complications, accidents, and death, cause serious trouble that might have been avoided had the person's accounts been kept properly.

It will surprise any one, who has not seen the **FARMER'S MODEL ACCOUNT BOOK** to learn how plain it is, how easily followed out, and with what little loss of time. It will not require for the ordinary farmer more than twenty minutes a week to keep his accounts in clear, legal shape that will be a source of satisfaction to himself, and a valuable matter to his family in case of death.

This book is retailed at \$1.50 each, but through an advantageous offer of the publishers we are able to make the following liberal offer. We will send you the

BUCHANAN RECORD

for six months and the Model Account Book both for only \$1.50 the price of the book alone.

controls the right side of the body; the right side of the brain controls the left side of the body. If the blood pressure be greater on the left side than person is right-handed; if it be greater on the right side he is left-handed. If the pressure be equal on both sides he is ambidexterous, using both hands with equal facility. All this is highly interesting. If you will look at the shapes of heads as taken by the hatter you will find all uneven and unsymmetrical and a majority seem to have a swelling on the left side. That is blood pressure's work. And that is why so many of us are right-handed. Selah.

Evolution of the Babe.

Rhode Island, by what right I cannot guess, claims the clambake as its own. The claim is ill-founded. The vast heaps and mounds of shells along the entire New England coast testify to the extent to which the clam was eaten for centuries by the aborigines, and the Narragansett Indians of Rhode Island did not eat any more than the Pennacooks of Massachusetts and the Penobscots of Maine. It is generally believed that the Indians ate the mollusks raw, both the "mya arenaria" and the "venus mercenaria," that is, the soft and hard varieties. The original bake was a hole in the ground, lined with heated stones, filled with fresh clams and covered with seaweed. We used to have some great ones at Rocky Point, Squantum and Silver Spring, on the Providence River. In its evolutionary process this simple mess has become a great pile of hot racks, clams, chickens, lobsters, potatoes, corn fish, steaks, chops, etc. all cooked in the steam of the clams which constitute the first layer. Seaweed and a tarpaulin make the lid to this pot.

The Luncheon.

In New York there are two or three quite popular restaurants where women go to meet their friends of the same sex and order a short luncheon. The rule at restaurants seems to be few courses, but special dishes. In this way the women obtain a surprising knowledge of the secrets of cooking.

Wine forms a part of the luncheon occasionally, but not always, for although if a woman takes a cocktail before luncheon and a glass of wine also nothing is thought of it, and no attention is paid to it, yet wine is not the prime feature of the luncheons.

There is one counter luncheon in New York that seems to have a great attraction. It is always crowded. While there are not always a very smart clientele there are enough people known to make it fashionable. No men are allowed at this counter luncheon, but any unfortunate member of the male sex who strays in unwittingly is politely but firmly waved over to another part of the restaurant.

Luncheons before the play are always fashionable in winter, and at these the hostess always takes the greatest trouble to have it appear as though it were a luncheon in her own home in so far that she has gone down beforehand and ordered it herself, so that course succeeds course and there is no stopping to ask each person what he or she would like. A these matinee luncheons men and women are included in the party. Yet it is more customary to have only women—a quartet or sextet of intimate friends who have gone in for jolly time. At the next table to them may be seated their respective husbands with their respective friends and this division of the sexes occasions no remark.

Nothing marks more clearly the fact that the leisure class are increasing than the number of men who can stop up town for luncheon or who can leave their business for luncheon

A Gift That Please Gen. Miles. Miss Theodore P. Chase, of New Bedford, is receiving the congratulations of her friends on bringing so lately honored by a visit of Gen. Miles recently. Miss Chase is a retoucher to a local photographer, and has decided talent with pen and ink sketching. About two years ago, in an idle period she amused herself by drawing a composite sketch which she chose to call "What the New Girl Most Desires" all mounted on a heart-shaped plaque.

Among the things dear to the female heart were pictured tennis, grand pianos, horses, dogs, books, pieces of candy, etc., and as a crown centrepiece a man.

Miss Chase selected as her idea man a picture of Gen. Miles, taken in the days of the civil war, when the old warrior was a dashing young fellow with curly hair and curving mustache. On the advice of her friends, in a spirit of mischief, Miss Chase sent a copy to the General. No answer or acknowledgment came and the matter almost passed out of mind. About three weeks ago, when Gen. Miles made a flying trip to New Bedford, nominally with reference to new horse bit he was developing with a local firm. But in less than two hours after he had been in the town he found time to call on Miss Chase and personally thanked her for the little courtesy.

Since the General's departure he has twice written the young lad inclosing two fine pictures of him; one a copy of the original from which Miss Chase worked. And now young artist has found a new val to the little feminine conception her pen.

An Improvement.

Some eminently practical person connected with the Park Department in Brooklyn has devised the right sort of drinking fountain. It is a pipe two feet and a half in height, having a leaden rose at the top through the perforations of which the water continuously flows, the pressure being regulated as to form a little mound of water. You stoop over and place your lips on this mound to drink. Your lips never touch the metal and you know that other lips have never touched it. You are drinking from the top of a small geyser, and if there is any contagion it comes from polluted reservoirs.

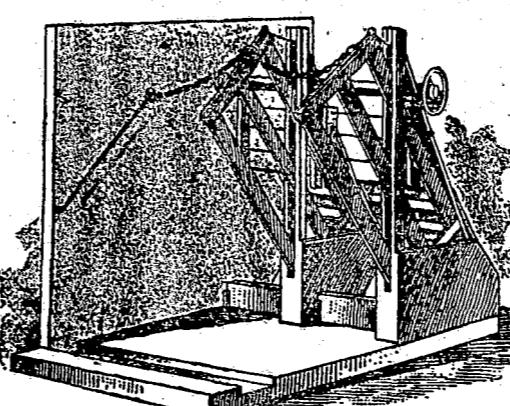

Right and Left Handed

Now comes Dr. Fritz Lueddeckens with a theory about right and left handedness. The left side of the brain

THROB'S COW STALL

An Illustration Showing Two Stalls When the Partitions are Raised.

Mr. Chas. Thorp, of Burnett, Wis., has devised a cow stall, which we illustrate, for the reason that it possesses merit and is not patented. The illustration shows two stalls when the partitions are raised. Using Mr. Thorp's description of the stall, the slotted posts are made of 2x4's, nailing the ends together with a short piece of 2x4 between, and should be at least 7½ feet long, or from floor to joist above. The slanting piece in front is 2x6 and joins the post 7 feet from the floor. The partitions are made of common boards and are 5 feet 8 inches long, 30 inches high, and project 9 inches over the drop. The floor space from post to drop is 4 feet 4 inches, and from manger to drop is 4 feet 4 inches to 5 feet, according to the length of the cow. The manger is made by nailing on four cleats, two on each side, and dropping in a piece of 2x10 inch plank next to the cow's feet, and as the other side of the manger should be higher, he used three pieces of 10 inch boards cleated together and dropped in between the cleats the same as the other. This makes a manger that is easily washed out, as both parts can be lifted out in a moment. The partitions are raised by means of the long windlass or roller above the cows' heads. He has eight in a row and could easily raise

as many more. He uses sash cord to raise his, and runs it over sash cord pulleys. He first bores a hole through the slanting 2x6, and nails the pulley over the hole so that the cord will not wear out. He has snaps on the end of the cord so that he can unsnap them and leave a cow in, if necessary, or if he wishes to turn out one cow he unhooks the chain behind and backs her out; otherwise they are all let out at once. The partitions being made of 1 inch stuff and the slot in the post being 2 inches wide gives plenty of room for the partition to swing without breaking anything.

When milking, he unhooks the chain behind and has plenty of room. This illustration represents two stalls next to the side of the barn, and the iron rod on the side of the barn shows how the chain will pass up and down and not have to be unhooked. The distance from the bottom of the slotted post to the bottom of the slanting 2x6 is 4½ feet, and side of manger. 2½ feet high. The partitions are from 12 to 14 inches from the floor, and there is a loft through the lower front corner to keep them in place. This stall was described at a Wisconsin farmer's institute two years ago, and seemed to receive general approval. There are several improved stalls of merit—most of them patented, we think—and when adopting a new stall, it would be well to examine all of them. We illustrate this one to facilitate such examination.—The Practical Farmer.

Uses for Corn stalks.

Half a dozen years ago the farmer considered the value of his corn crop to be practically terminated with the husking of the corn. What was left was worth a very small sum as animal fodder. Many experimenters, however, working along different lines, have established the value of the by-products of the corn crop, and there is now a home market where a farmer can get from \$3 to \$5 a ton for corn stalks, so that their value is now from \$6 to \$12 an acre.

The American Agriculturist recently gave the following list of what can be made from corn stalks: First cellulose; for packing-cofferdams on our ships; second, pyroxyline varnish; third, cellulose for nitrating purposes, for making smokeless powder and other explosives; fourth, as a packing material; fifth, for paper pulp and the various forms of paper made therefrom, both alone and mixed with other grades of paper stock; sixth, as a stock food, made from the fine outer shells or shives of the corn stalks and also from the nodes, or joints. The leaves or tassels also furnish a shredded or baled fodder; seventh, mixed feeds for stock containing fine ground shell or shives as a base and in addition thereto various nitrogenous materials and concentrated food substances, or blood, molasses, distillery and glucose, refuse, sugar beet pulp, apple pomace, and other by-products; and eighth, poultry foods.

Selecting Nursery Stock.

In some other respects I think there is a distinct advantage in purchasing nursery stock from different parts of the country. By so doing we secure the best that has been accomplished by nurserymen all over the country. It is a good deal like infusing new blood into a herd of cattle. One nurseryman may have produced extra peach trees, it is to our interests to secure some of his stock, for by so doing we obtain the best results of his work and fortunate situation. By depending entirely upon the local nurserymen we may soon run down our stock, unless they are wide awake in securing their stock from different trustworthy sources. There are improvements being made all the time in every department of horticulture, and in order to keep up with the best we must be broad-minded enough to admit that there is something good outside of our own county and state.

MASSACHUSETT'S SNUFF-DIPPERS

Not Entirely Confined to the Poor Whites of the South.

It is claimed that in the State of Massachusetts every year the mill hands—mostly women and young girls—use sixty-five tons of snuff for dipping, scouring, chewing and pinching. The powder is sold in 1-ounce tin cans, which retail at 10c. Thus we have 130,000 pounds, making 2,080,000 packages, which at 10c cost the operatives \$20,000.

While we have always associated the use of snuff in this country with the very dregs of humanity in the South, let us glance at the City of Lawrence, Mass., where are located such mills as the Pacific, Atlantic, Cotton, Washington, Everett, Pemberton, etc.; population about 46,000. The mill girls are French-Canadians and Armenians, with a sprinkling of Americans, Irish and English. In summer groups of them, from 16 to 20 years of age, go across the river and sit for hours along the banks indulging themselves with the snuff and rag. They consume over twenty tons of snuff annually. Lawrence is only twenty miles from moral, pure, holy Boston.

Regard the "Manchester of America" or the "Spindle City," as Lowell is called. She was for many years the chief seat of the cotton manufacture in the United States, and has a population of nearly 80,000. Boston is only twenty-four miles away. The mill girls use in Lowell, sitting afternoons with snuff and rag beside the falls of the Merrimac, twenty-five tons of snuff annually, or 800,000 of those wicked little 10c packages. Come nearer, to Fall River, for instance, where are many mills and about 75,000 people. This city is forty-five miles from Boston. Its mill girls—the dippers, chewers, scourers and pinchers—consume annually eighteen tons of snuff, or 544,000 ounce boxes. Sixteen thousand girls are employed in the mills and over 4,000 use snuff. The production of snuff has increased 10,000,000 pounds in the last seventeen years.—New York Press.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a soap and sure remedy for infants and children, and see that it

ARMY SUPPLIES.

Agricultural Classes Almost Exclusively Depended Upon for Them.

Farm Products Absolutely Necessary for the Sustenance of Men and Horses.

Rash and False Statements of Bryan Regarding These Matters.

Official Figures Disprove Arguments of the Democratic Leader in His Speeches.

Mr. Bryan, in his speech accepting the populist nomination for president, made on August 23 at Topeka, Kan., departed from the plan followed in his Indianapolis speech accepting the democratic nomination, and discussed all the issues peculiar to the populists. In talking on these questions he made many rash and false statements in regard to certain conditions which he declared to exist. In his speech to the farmers he laid especial stress upon the fact that they were not benefited by the republican prosperity, and in speaking of militarism and imperialism and their effect upon the farmers, he said:

O. F. Luttrell, cashier Bank of Brewton, Brewton, Ala.: "It seems to be the consensus of opinion among the leading business men that the business and commercial interests of the country will be best subserved by the election of Mr. McKinley. No one denies that the election of Bryan would be adverse to all business."

J. B. Carter, president Gribble-Carter Wholesale Grain company, Sherman, Tex.: "As for presidential candidates I do not think it advisable to make a change at this particular time."

C. W. Arnett, Fairmount, W. Va.: "Bryan's election would mean disaster to business, destruction of public confidence, the return of panics, the reduction of work and wages, and the repetition of the scenes of hardships which filled the land during the last democratic administration."

O. G. Bourman, Citizens national bank, Hillsboro, Tex.: "I believe that the business interests of the country would be injured less by the election of McKinley than Mr. Bryan."

E. A. Shipley, clerk and master chancery court, Jonesboro, Tenn.: "I have no doubt that the business interests of the country would be best subserved by the election of Mr. McKinley, and a large majority of the voters share with me in this view, as will be attested by the ballots cast here in November."

RESULTS OF BRYAN'S LETTER.

First Fruits of the Democratic Candidate's Letter of Acceptance.

The response by Aguinaldo is prompt and to the point. Bryan's letter came out only a few days ago, and Gen. MacArthur reports the results.

"Considerable activity throughout Luzon. Fighting reported * * * in districts heretofore quiet. In Iligan province * * * numerous small affairs. * * * Country north of Pasig * * * very much disturbed. * * * South of Pasig same conditions." It was a mere matter, of course, and had been "anticipated and reported upon" as long ago as August 25 as likely to occur about this time.

Twenty-one Americans killed and 19 wounded!

It is well to keep Lawton's prophetic words in mind: "If I am shot by a Filipino bullet it might as well come from one of my own men, because I know from observation, confirmed by captured prisoners, that the continuance of the fighting is chiefly due to reports that are sent out from America."

Expansion in Trade.

The rapid growth of our business with Japan in rails and machinery during the past four years is an indication of what may be accomplished in that quarter in the future under proper encouragement. Four years ago American rails were unknown in Japan, but at the present they more than double in quantity the rails which come from England, which up to 1896 constituted the chief source of supply. It is believed that Americans have in their power to practically control the supply of rails and railroad material generally with Japan during the next decade. As an indication, it is cited that the Carnegie company signed a contract at Kobe for 8,000 tons of rails at a price of \$3.28 per ton under the lowest English bid. The men who manufacture these rails contribute to the well being of the farmers whose supplies feed and clothe them.—Hardware.

Who Owns the Factories?

Massachusetts is one of the leading manufacturing states in the union. In 1899 there were 4,740 factories, of which 3,461 were owned by individuals, 1,183 by independent corporations and 91 by industrial combinations. The individual manufacturer is the largest element by long odds in the state's industrial enterprises.

Lichty's Celery Nerve Compound for all nervous diseases, neuralgia, rheumatism, nervous debility, paralysis, biliousness, dyspepsia, costiveness, piles, liver complaint, kidney troubles and female complaints. It goes to the seat of the disease and cures thoroughly and speedily. Sold by W. F. RUNNER.

* * *

For Female Complaints and diseases arising from an impure state of the blood Lichty's Celery Nerve Compound is an invaluable specific. Sold by W. F. RUNNER.

* * *

Heller's Testimony.

Albert Heller, living at 1114 Farnham St., Omaha, says: "I have tried most every thing that is used as a preventive or cure for headache, but nothing did me so much good a Krause's Headache Capsules. Others who have used them say the same thing." Price 25c. Sold by W. F. RUNNER.

* * *

Quinine for Colds.

Many people who use quinine for the cure of colds say that the effect of this drug is more disagreeable than the disease. Krause's Cold Cure is prepared in a convenient capsule form, and will cure the most deeply seated cold in 24 hours without any interruption to business. They are pleasant to take and give you a clear, fresh sensation while operating. Price 25c. Sold by W. F. RUNNER.

* * *

Auction Sales

As I have completed my contract with the Champion Harvester Company for the season of 1900. I will be at home the balance of the year and will hold myself in readiness to do any and all kinds of auction work. Farmers contemplating making a public sale will find it to their interest to call on me before getting out sale bills. In my absence make arrangements with John C. Wenger.

CORRESPONDENCE

GALIEN.

Edward Brodbeck of South Bend was visiting his parents north of town over Sunday.

Jay Hall was in New Troy Sunday calling on his lady friend in that place.

Clyde Jerue and Ben R. Jones assisted on the Galien *Advocate* last week during the temporary absence of Howard Mixter.

Several boys of this place have organized a drum corps and are preparing to furnish stirring martial music the balance of the campaign and at the ratification jubilee when McKinley is elected.

Miss Nina Ransom of Three Oaks was the guest of Miss Dora Norris over Sunday.

Word has been received here that Mr. Bert Steels day operator of the Michigan Central formerly of this place who was transferred to Dyer, Indiana, has resigned his position at that place and will move his family back to Galien.

Sam Fletcher of New Troy was in town Saturday on business.

Charles D. Rhodes is making some repairs on his store building this week.

The town hall has recently been painted and decorated on the inside and now presents a very nice appearance.

Mrs. Waty Pennell was at home over Sunday. She is working in Retta Hollett's millinery store at Three Oaks.

Joe C. Harris made a business trip to Walkerton, Ind., Wednesday.

Quarterly meeting will be held at the M. E. church a week from next Sunday. All are invited to attend.

A Republican club was organized in the Hall last Thursday night. There was a full house and great enthusiasm. Henry D. Ingalls, Zack Kinne and Senator Blakeslee addressed the meeting. About 150 names were enrolled.

A number from here went to New Troy Monday night to listen to the address of the Hon. Victor A. Gore.

Andrew Shearer was in St. Joseph Monday on business.

Mrs. Elwood Tripp is on the sick list this week.

Epworth League meetings are being well attended and there is much interest shown in the work.

Miss Emma Findel is visiting friends in Three Oaks this week.

Jesse White jr. of Chicago is the guest of his parents Mr. and Mrs. J. D. White this week.

Ed Synold has been given charge of the Galien office again by the Michigan Central. His sister accompanied him here for a short visit.

August Hess of Rugby, Ind., is at home for a short visit.

Bert Parrish of Benton Harbor representing the Kidd, Dater and Price was in town Tuesday.

Wood Tripp of Chicago is in town being called here by the sickness of his mother.

Josiah Britton picked a quart of fine strawberries from his patch the first of the week. He says if the warm weather would continue he will have enough berries to supply the local market.

There will be a rousing Republican rally in Galien tonight. P. H. Kelley of Detroit who was formerly principal of schools here will speak at the Hall, he will be given a royal reception. There will be a monster torch-light parade, band music etc., republicans from nearby places are cordially invited to come and assist us in this meeting.

FAIRLAND.

Miss Anna Snorf who has been visiting in Ludington is now at home.

Clyde Snuff and Lou Walker spent Sunday with their parents of this place.

Miss Hazel McOmber of Niles spent Saturday and Sunday with Miss Ethel Toney.

Ray Toney of Berrien Centre spent Sunday with his cousin, Miss Tena Toney.

Chester Corpman fell out of a walnut tree Saturday, breaking an arm and badly injuring the other by tearing the ligaments loose at the wrist.

Mr. Austin Ullery spent a few days in South Bend, last week.

The F. S. C. met with Miss Tena Toney last Saturday night.

Mr. Zena Nye sprained the cords of his right foot very severely last Saturday morning. He is also slightly poisoned by ivy.

* * *

BENTON HARBOR.

The May Graham is laid up for the winter.

Conkey's hall is being transformed into an armory for the naval reserves at a cost of \$1,000.

J. J. Van Riper's family is moving back to Niles where the judge will join them when his term expires.

The cupola of the court house had to be repaired recently, as the striking of the big clock was jarring some of the stones loose.

Hon. E. L. Hamilton spoke to about 500 people at the opera house last Friday night. He is a grand speaker and the meeting was enthusiastic.

Fred Smith living three miles out became violently insane last week, as the result of a sunstroke last summer and was taken to Kalamazoo yesterday.

A Mr. Myers heard at his home 300 miles away that the marsh between the Twin cities was government land, and appeared before the county clerk last Saturday to enter a claim for some of it. He didn't get it.

A maple tree on Pipestone St. was attacked by hornets the other day and a hundred of them drove their stings so forcibly into it that they could not get away, and have starved to death. The tree is likely to die.

The Methodist church was opened again last Sunday after being closed several weeks for conference, and to redecorate the interior. The frescoing is very beautiful, the blending of colors being almost perfect.

President Elder Van Schick who was present said, it is the handsomest interior in the conference, not excepting Albion. About \$1,200 was raised for expenses and to pay some on the church debt.

Mr. Bygel night clerk at a St. Joseph hotel is something of a freak. Altho he is only 26 years old and weighs but 133 lbs., he can lift 200 lb. weights and hold them above his head. He can also expand his chest several inches while five men are sitting on it. Another trick is to let aforesaid five men grasp his hair with all their might and he will pull them around with ease.

* * *

Gaskell Stock Co.

At Niles Opera House for one week commencing Monday Oct. 8th. presenting all the latest successes such as "The World," "A Jealous Wife," "Knobs O'Tennessee," "Two Orphans," "Fatal Card," "Defaulter," "Roanoke." Carrying all the scenery complete to stage all their plays in a gorgeous manner. The company is one of the best on the road to-day. Guarantee to produce just what they advertise to the letter. Specialties, no end of them, and all up-to-date. No old chestnuts. Prices 10-20-30 cents in reach of all. If you want to see a good show at a small admission do not miss this.

COUNTY SEAT NEWS

THE CIRCUIT COURT.

The case of the people vs. Mrs. Robert Hamburg, charged with larceny from Enders & Young's store in this city, was taken from the jury Wednesday and the woman was declared not guilty. Mrs. Hamburg's husband was sentenced to three years at Jackson for larceny from the same store and it was proven that if she took anything it was because her husband forced her to commit the theft. V. M. Gore was her attorney.

Charles Eccleston pleaded guilty to receiving stolen goods.

Justice sometimes comes quickly. It came to Claude Williams in just four days. Last Saturday night he stole a horse and \$6 in money. Sunday he was arrested and Monday the young man pleaded guilty. Judge Coolidge Thursday morning sentenced him to two years at Iona for the theft.

In the case of the people vs. John Ryan, for stealing a horse from Harrison Branch at Coloma a year ago, the jury rendered a verdict of guilty.

The case against Clyde Monnier has been nolle prossed.

The case of the people vs. Cronin, for assault with intent to murder, is set for trial on October 15.

F. P. Graves has been appointed to defend Madison Brown, charged with stealing a bicycle.

The Galien river drain contest is being heard before Judge VanRiper today. The contestants are represented by W. C. Hicks.

BOARD OF SUPERVISORS.

The board of supervisors met in fall session Monday afternoon at 1:30 o'clock at the court house. Bills and other matters should be handed to County Clerk Needham.

Chairman Talmage says the cost of repairing the court house will be about \$500.

MARRAGE LICENSES.

Harry Smith Hester, 21, Chicago, Mae Ellen Duffy, 17, Englewood, Ill.

Edward Stanley, 39, Rosamond Stephenson, 37, Oak Park, Ill.

Pierre Penoget, 28, Ella M. Richmond, 32, Chicago.

Robert Lucker, 28, Lincoln township, Lizzie Bearndt, 20, St. Joseph.

Judge Coolidge sentenced several prisoners Friday morning and court was adjourned till a week from next Monday.

French Wells, who burglarized the Moats home, was sentenced to Ionia for three years.

John Ryan, who pleaded guilty to stealing a horse at Coloma, received a sentence of three years at Jackson.

In the case of the people vs. Chas. Morganwright, Judge Coolidge sent him to the county jail for 30 days.

Charles Eccleston, charged with breaking into a store at Niles, was sentenced to 40 days in the county jail.

Geo. P. Miller will spend 90 days in the county jail for assaulting George Monger.

The jury in the case of the people vs. Wm. Delaney for entering a store at Niles disagreed.

The jury in the case of the people vs. Chas. Huggins, for shooting Dick Sawyer, was impanelled Friday morning and the case will be tried when court is resumed.
