

BUCHANAN RECORD.

VOLUME XXXIV.

BUCHANAN, BERRIEN CO., MICH., THURSDAY, NOV. 8, 1900.

NUMBER 39

MCKINLEY RE-ELECTED.

Returns Now Indicate That He Will Have 305 Electoral Votes.

THE HOUSE WILL BE REPUBLICAN

Yates Elected Governor of Illinois—Kansas Carried by the Republicans.

Close Vote in Kentucky and Nebraska—Missouri Goes Democratic—Other Returns.

Washington, D. C., Nov. 7.—William McKinley has been elected president of the United States by an electoral vote greater than that received by him in 1896, and the indications now are that he will have 305 ballots cast for him in the electoral college. The house of representatives will be safely Republican. There are several districts where the vote is close, but there is no doubt that there will be a good working majority to support the administration. Dispatches to the Associated Press from 334 of the 357 congressional districts show that the Republicans have elected 191, the Democrats 140, the silverites 2, and the Populists 1. Of the remaining twenty-three districts eleven are represented in the present house by Democrats, nine by Republicans, one by a silverite and two by Populists.

What Babcock Claims.

Chairman Babcock of the Republican congressional committee said at noon: "Our returns show that 194 Republicans have been elected to the Fifty-second congress with twelve or fifteen doubtful districts yet to hear from. We shall undoubtedly have 200 and possibly more members of the house. We have gained seven seats in New York and six in Pennsylvania and have carried Utah. There are still four close districts in Kentucky to hear from, two in Massachusetts, one in Kansas, two in Nebraska, one in North Carolina, two in Virginia, one in Ohio and one in West Virginia.

Efforts of Anti-Imperialists.

An analysis of the returns show that the efforts of the anti-imperialists in the New England states was not without effect, and Massachusetts, Connecticut and even Vermont give a slightly reduced vote for the Republicans compared with four years ago.

In the west, however, there have been some surprising changes since Mr. Bryan was last a candidate. In Colorado, the great silver state, the Democrats have lost over 100,000 votes and losses are reported from the entire district. In some southern states the same condition prevails to a certain extent, notably Virginia. Missouri comes to the front with an old-time Democratic majority. St. Louisans there are jubilant because the world's fair project has carried. This amendment permits St. Louis to bond the city for \$500,000 and provides for a \$1,000,000 state exhibit.

Pennsylvania's Large Vote.

Pennsylvania gave a Republican plurality of over 300,000, breaking all records. In several states, notably Illinois and Michigan, the gubernatorial candidates have run far behind the head of the Republican ticket. Returns from several of the western states are still far from complete, though there is little doubt regarding the general result. Idaho, generally conceded to Bryan, may yet land in the McKinley column, as great Republican gains are being made there. Kentucky is still persistently claimed by the Democrats, although the returns indicate a good Republican majority.

The following table shows the electoral vote of 1900, and as it stands at present, also that of 1896:

STATES.	With Number of Electoral Votes.	1896.	1900.

*Doubtful.

PRAIRIE STATE RETURNS.

McKinley's Plurality Is Placed at 100,000—Yates Elected.

Chicago, Nov. 7.—Chairman Rowe of the Republican state central committee, after reading a mass of tele-

grams piled on his desk, declared his belief that Richard Yates for governor, would have a majority in Illinois equal to that on the national ticket. The returns in the morning make McKinley's plurality 100,000 in the state and Democrats are not disposed to concede any such majority for Yates over Samuel Aleschuler, the Democratic candidate. The returns from the congressional districts up to a late hour indicated the election of 12 Republicans and 10 Democrats, but of the latter the Republicans in the morning insisted that the outcome in the Second and Sixth districts was still doubtful.

"I believe," said State Chairman Rowe, "that a complete and careful count will show that William Lorimer in the Second and Henry S. Boutell in the Sixth have been elected. Congressman William Lorimer of the Second district conceded his defeat in the morning. The majority against him may reach 1,500. The Republicans claim the official count will be necessary to decide the result in Congressman Boutell's district. Nothing on which to base definite statements has been received from the Fifteenth and Twentieth districts and the county chairmen of those districts have been wired to hasten returns. Additional returns received at Republican state headquarters in the morning from all over the state confirm Chairman Rowe in his statement that McKinley's plurality will run close to 100,000 and that of Yates for governor between 70,000 and 80,000. At Democratic state headquarters, while Yates' election is conceded, Secretary Nelson claims his plurality will not exceed 25,000.

Although the Republican party carried Cook county with a plurality of nearly 25,000 on national issues, considerable uncertainty exists concerning the fate of the county ticket. Returns are slow in coming in, but the general impression seems to be that the majority of the county Republican candidates ran some where about half-way between McKinley's high figure of 25,000 and Yates' low figure of 3,000 minus. If this belief is borne out by the completed returns those Republican candidates who were on the ticket voted upon by the entire county are probably elected by pluralities varying from 5,000 to 12,000.

Returns received up to 1:30 p. m. tend to confirm first indications that the Republicans will control both branches of the legislature, though by small majorities.

NEBRASKA STILL IN DOUBT.

Not Known Which Way It Will Go on National Ticket.

Omaha, Nov. 7.—Result in Nebraska close; Democrats claim Bryan carries it by 3,000 to 4,000; Chairman Lindsey of Republicans claims McKinley carries it by 5,000. Many back precincts to hear from; Democratic state ticket believed elected by vote running ahead of Bryan; legislature is in doubt.

Chairman Edmiston of the Populist state central committee telephoned from Lincoln at 10:30 o'clock that Bryan would have a plurality in the state of about 3,000 with the state ticket running close to these figures. Returns now coming from South Omaha indicate the election of the fusion delegation to the legislature, which will in all probability determine the complexion of that body. The latest total on the national ticket are from 462 precincts outside of Omaha and Douglas county, which give McKinley 42,963; Bryan, 40,219. The same precincts in 1896 gave McKinley 37,214; Bryan 40,046, showing a net Republican gain of 5,568. The total vote of the state is about 210,000.

The later returns do not materially change the indications of the morning's report from the state and there is considerable doubt which way the state will go on the national ticket. On the legislative ticket, which is now the center of interest, the indications favor the fusion delegation in Douglas county, with good chances out in the state. The next legislature elects two United States senators.

Lincoln, Neb., Nov. 7.—Fusion committees are claiming the Nebraska state legislature as certainly anti-imperialist, and they are also holding out for the election of the fusion state ticket. C. W. Bryan, brother of the late presidential candidate, says there is no doubt of the legislature.

INDIANA IS REPUBLICAN.

They Elect Nine Out of Thirteen Congressmen and Expect More.

Indianapolis, Nov. 7.—Latest returns from Indiana indicate that the Republicans have carried the state by from 28,000 to 32,000. The Republicans will have probably elected 11 of the 13 congressmen. The legislature is safely Republican.

Enough is known of the result in the congressional districts to warrant the conclusion that the Republicans have elected nine out of the thirteen congressmen, with a fighting chance for two more. The result is:

First district, James A. Hemenway, of Booneville; Fifth, Elias S. Holliday, of Brazil; Sixth, James B. Watson, of Rushville; Seventh, Jesse Overstreet, of Indianapolis; Eighth, G. W. Crimer, of Muncie; Ninth, C. B. Landis, of Delphi; Tenth, Edgar Crumpacker, of Valparaiso; Eleventh, George W. Steele, of Marion; Thirteenth, A. L. Brick, of South Bend.

Democrats elected: Robert W. Miers, of Bloomington; Third, W. T. Zenger, of Corydon. Districts in doubt, Fourth, Marion Griffith (Dem.); Nathan Powell (Rep.); Madison, Twelfth, James Robinson (Dem.); Ft. Wayne, Robert Hanna (Rep.), Ft. Wayne.

KENTUCKY CLAIMED BY BOTH.

There Are, However, a Good Many Precincts to Hear From.

Louisville, Nov. 7.—The Courier-Journal's figures show that 1,653 pre-

cincts out of 1,884 in the state give Bryan a plurality of 13,091 and Beckham a plurality of 8,859. The unreported precincts were about evenly divided between the Democrats and the Republicans at the last election.

The Courier-Journal still claims the state for Bryan by 13,091 and for Beckham, for governor, by 5,000. Republicans, however, claim the state for McKinley and Yerkes, for governor, by nearly 8,000. Over 200 precincts are still to be heard from.

At 10 o'clock the claim was made at Republican headquarters here that the state was safely Republican by from 7,000 to 10,000.

Frankfort, Nov. 7.—Democratic leaders here on unofficial advice from over the state claim Bryan has carried the state by upward of 11,000, and that Beckham is elected governor by over 7,000. The defeat of Hall, Dem., for appellate judge, is conceded. This gives the Republicans a majority on the appellate bench, the highest court in the state. Complete returns from this (Franklin) county give Bryan 1,081 majority over McKinley, and Beckham 1,004 majority over Yerkes.

While Democrats claim Beckham's election for governor by from 4,000 to 5,000 Republicans, though making no claim do not concede Yerkes' defeat. Republicans concede Bryan has carried the state.

BRYAN CARRIES MONTANA.

Toole, Clark Democratic Candidate for Governor Is Elected.

Helena, Mont., Nov. 7.—Returns are far from complete but Chairman Walter Cooper's claims that Bryan has carried the state by from 10,000 to 15,000 and Toole (Clark Democrat), for governor, and that the remainder of that ticket has been elected by from 4,000 to 8,000, seem to be well founded. Republican Chairman Webster concedes that Bryan has carried the state, but claims the election of Folsom for governor and Murray for congressman by small majorities. The latter is running ahead of his ticket and may pull through but this is regarded doubtful by conservative politicians. In fact it looks like a Democratic sweep. W. A. Clark's legislative tickets have won over both Republicans and Daly Democrats in Butte, Helena and Great Falls, which will give him a majority on joint ballot in the legislature and that he will be returned to the federal senate now seems beyond all doubt. For the first time in its history Butte has repudiated Daly, every nominee on the Clark ticket having a majority over all while in Helena the Republicans were only able to elect one district judge. Eastern Montana, or the agricultural section, as usual, returned small Republican majorities.

PRESIDENT MCKINLEY'S STATE.

Democrats Concede It Has Gone Republican by 60,000.

Columbus, Nov. 7.—The Ohio election returns are still incomplete but the Democrats concede about 60,000 and the Republicans claim about 80,000 for their national and state tickets as compared with 51,109 for McKinley in 1896. The only dispute is over the Third and Twelfth congressional districts and the Republicans claim the election of Nevin in the Third, which will make 16 Republicans and 4 Democratic congressmen and 1 doubtful. The Ohio delegation in the last congress stood 16 Republicans to 5 Democrats.

Complete unofficial returns give Lentz, Dem., 11 over Tompkins, Rep., in the Twelfth congressional district. Owing to the close vote the official count will be made immediately.

More complete returns leave only the Third and Twelfth congressional districts as doubtful in Ohio. The Democrats claim the election of Lentz and Bickley. The Republicans claim the election of Tompkins by 20 in the Twelfth and of Nevin in the Third by less than 100. In the nineteen undisputed districts the Democrats and Republicans have carried the same districts as in the last congress, 16 to 3. The Third and Twelfth districts were then Democratic.

CLOSE VOTE IN IDAHO.

If Percentage of Gain Continues McKinley Will Carry the State.

Boise, Ida., Nov. 7.—The Statesman says: The twenty-seven precincts already counted give the following figures: McKinley, 2,672; Bryan, 2,942; Morrison, for congress, 2,689; Glenn, for congress, 2,700; Standford, for governor, 2,632; Hunt, for governor, 2,806. These precincts in 1896 gave Moss, Republican, for governor, 1,421; Steunberger, Democrat, 2,451. The net Republican gain on president is 11 per cent.

If the percentage should continue McKinley would carry the state. It is likely to continue, for none of the heavy Republican precincts is included.

Fusionists Sweep Colorado.

Denver, Nov. 7.—The fusion of Democrats, silver Republicans and Populists made a clean sweep in Colorado. Bryan's majority, according to the returns, which are far from complete, will be 35,000 or more. The entire fusion state ticket, headed by John B. Orman, for governor, is elected by smaller majorities than that of Bryan. The fusionists will probably have a large majority in the legislature but it is impossible as yet to give any figures on the result.

The returns up to 10:30 a. m. indicate that the fusion state ticket has carried forty-six out of the fifty-seven counties in Colorado and Orman's net plurality for governor over Goudy, Rep., is estimated at 27,000.

The Republicans concede the legislature to the fusionists, insuring the defeat of United States Senator Wolcott.

McKinley's Plurality in Michigan.

Detroit, Mich., Nov. 7.—The latest figures give President McKinley a plurality in Michigan of 82,017. Col. A. T. Bliss, of Saginaw, the Republican candidate for governor, ran considerably behind his ticket, receiving 60,430 plurality. The state legislature will be overwhelmingly Republican, the returns showing a solid Republican senate and but eleven Democrats in the house. There was little, if any, opposition to the constitutional amendment authorizing the taxing of railroad and other corporations on the cash value of their property instead of their earnings, as at present, and it was adopted by probably the largest vote ever cast for such a measure.

Results in Minnesota.

St. Paul, Nov. 7.—The only uncertainty in the Minnesota election results is on the governorship, both parties claiming it by small figures. McKinley's large majority seems rather to increase than decrease as the fuller returns come in. All the Republican state candidates, the seven congressmen and a large majority of the representatives are elected by big figures. Chairman Bixby adheres to his claim of 10,000 to 12,000 for Van Sant, Rep., for governor, and Democratic Chairman Rosing has come down to 5,000 as his claim for the re-election of Governor Lind.

Republicans Carry Wisconsin.

Milwaukee, Nov. 7.—Complete returns from Milwaukee county give McKinley a plurality of 8,973 and La Follette, Rep., for governor, a plurality of about the same figures. The figures from the state at large will not be known for some time, but a fair approximate shows that the Republicans will have a plurality of at least 110,000. All the Republican congressmen are elected and the legislature is overwhelmingly Republican.

Republican Claims in Kansas.

Topeka, Kan., Nov. 7.—On the basis of the limited returns from the state, Republicans claim Kansas by 25,000 for the national ticket and 20,000 for the state ticket; the election of every Republican congressman with the possible exception of the Third district. Republicans claim the legislature by a safe majority, insuring the election of United States senator.

The Populists concede that Republicans carried Kansas and practically admit that they have little show except for the election of a congressman in the Third district. Two hundred and eighty-two precincts out of 2,300 give McKinley 18,413; Bryan, 14,195. Same in 1896 gave McKinley 15,721; Bryan, 15,040.

North and South Dakota.

Sioux Falls, S. D., Nov. 7.—The latest returns received seem to confirm the claim of the Republican state committee that the state has given McKinley over 10,000 plurality and that the entire Republican state and congressional ticket has been elected by safe majorities, while the Republican majority of nearly 20 in the legislature will assure the election of a Republican to succeed United States Senator Frank Pettigrew.

Fargo, S. D., Nov. 7.—Returns are coming in very slowly, but those received seem to indicate a Republican plurality over rather than under 10,000 for McKinley, while the Republican state ticket is elected by a somewhat smaller figure.

Iowa Republican by 80,000.

Des Moines, Nov. 7.—With limited returns from 800 precincts McKinley's majority in the state will be 80,000 over Bryan and may not vary much from that figure when the official count is received. Entire congressional delegation in state is Republican and Democratic losses are reported in nearly every county.

Forty-three counties complete out of ninety-nine in Iowa give McKinley 131,830, Bryan 82,103. If remaining counties go the same way McKinley's majority will reach 100,000. All Republican congressmen are elected.

Reduced Pluralities in Missouri.

St. Louis, Nov. 7.—While complete returns have not been received it appears that Bryan, and Dockery, Democratic nominee for governor, have carried the state by reduced pluralities. No complete figures can be given for some time. St. Louis gave a handsome majority for the World's fair amendments and reports from all over the state indicate there was no opposition to speak of. This insures the carrying out of the project to hold a Louisiana purchase exposition here in 1908.

Mississippi Returns.

New Orleans, Nov. 7.—Twenty-two thousand five hundred votes were cast in New Orleans out of a registration of 41,408. Bryan's majority is 18,400. The entire six congressional districts in the state are strongly Democratic, the Lily White Republicans having been swamped in the three districts in which they put up candidates. Bryan's majority in the state, based on scattering returns from the country and the result in the city, will be in excess of 30,000.

Bryan Ran Behind in Virginia.

Richmond, Va., Nov. 7.—A recapitulation for Virginia indicates a Democratic plurality on the presidential ticket of over 30,000, and the election of the Democratic candidate in every congressional district. In nearly all the cities and towns and many of the counties Bryan ran behind the congressional ticket.

Out in Republican Plurality.

Portland, Nov. 7.—A cut of 20,000 in the Republican plurality of 1896 in a somewhat lighter vote was the result of the poll in Maine. McKinley's majority will vary but a few hundred from 28,600, a loss of 10 per cent since 1896 and a Bryan gain of 21 per cent.

BINNS

STILL ON CORNER NEXT TO
POSTOFFICE, BUCHANAN.

Soon to occupy the store room between Kent's grocery and Desenberg & Bro's clothing department. We have many new goods including late copyrighted books at cut prices, many new books, games, etc., marvelously cheap. Our removal sale of Wall Paper is still on, we are moving lots of it at 20, 25 and 33 1/2 per cent discount. Buy while it lasts.

NEW YORK REPUBLICAN

Empire State Gives McKinley and Roosevelt a Plurality of About 146,000.

PENNSYLVANIA BREAKS RECORD

Three Hundred Thousand Plurality Is What It Gave for the Republican Ticket.

State Also Make a Gain of Six Congressmen—Results in Other Eastern States.

New York, Nov. 7.—Election returns received indicate that the Republicans have carried New York state by about 146,000, and that the Democrats have carried Greater New York by about 27,500. This forms one of the surprises of the campaign for the reason that

BENJAMIN B. ODELL.

[Elected Governor of New York.]

The Republican chairman and candidate for governor, Mr. Odell, has claimed the state in his ante-election estimates by only 100,000 and the Republicans generally have been willing to concede that Mr. Bryan would carry Greater New York by at least 50,000. The Democrats claimed that Bryan would carry New York by from 80,000 to 90,000. Richard Croker sent Mr. Bryan a telegram informing him that though the state had gone heavily Republican, New York county, which in 1896 gave McKinley 23,000 plurality, had been carried by the Democratic electors by 33,000, a gain of 56,000.

Crocker Stands by Bryan.

Mr. Croker was also quoted as saying: "No power on earth—nothing but his death—can prevent Mr. Bryan from remaining the natural leader of the people."

Detailed returns have not been received on governor as yet, but it is known that the entire Republican state ticket had been elected and that the Republicans have made gains in both houses of the state legislature. Mr. Stanchfield, the Democratic nominee for governor, ran ahead of his ticket in the "southern tier" and in Brooklyn, but on the other hand Odell carried some of the up-state counties by pluralities larger than the Republican presidential electors received. The Republicans gained several members of congress from this state, but the official count may be required to decide in one or more close districts.

OVER THREE HUNDRED THOUSAND

Pennsylvania Breaks Its Record of Four Years Ago.

Philadelphia, Nov. 7.—Returns indicate that Pennsylvania gave over 300,000 plurality for the Republican ticket, exceeding even the record breaking plurality of 295,027 in 1896. Of this plurality Philadelphia furnished over 125,000 and Allegheny county, including Pittsburgh, nearly 50,000. Bryan carried fifteen of the sixty-seven counties in the state. Returns are not yet complete, but the indications are that the next Pennsylvania delegation in congress will stand: Republicans, 26; Democrats, 4, as against 20

Republicans and 10 Democrats in the present congress.

The result of former Senator Quay's effort to secure control of a sufficient number of members of the incoming legislature to insure his return to the United States senate is yet in doubt. There is no disputing the fact that the attempt of his opponents to defeat him in certain counties by fusion with the Democrats was practically a failure.

In the Thirteenth congressional district George R. Patterson, Rep., defeated Congressman James W. Ryan, Dem., by 1,800 majority. Ryan two years ago had 2,500 majority. This district comprises Schuylkill county, in which there are more mine-workers than any other county in the state. The entire Republican county ticket was elected and McKinley had 1,500 plurality.

Pennsylvania's next delegation to the house of representatives will stand: Republicans, 26; Democrats, 4; a Republican gain of 6. The four Democrats elected are: Eighth district, Howard Mutchler; Ninth, Henry D. Green, Seventeenth, Rufus K. Polk; Twenty-eighth, J. K. H. Hall. The last three were re-elected. Among the Democrats to go down to defeat is Congressman William McAleer, in the Third district of Philadelphia. Henry Burk, Rep., a Morocco manufacturer, who defeated him, had 1,260 majority. Mr. McAleer claims that the election was a farce and that the mayor of Philadelphia sent 1,500 policemen into the district to intimidate voters.

Republican state Chairman Reeder claims that Mr. Quay will have 151 votes on joint ballot in the next legislature for re-election to the United States senate. There are 254 votes on joint ballot and 128 are necessary to elect. The state senate may be a tie on the question of Quay and anti-Quay.

ELECTION IN DELAWARE.

Returns Show That the Next Legislature Will Be Republican.

Wilmington, Nov. 7.—Returns received in the afternoon definitely determined the political division of the next Delaware legislature. It is Republican in each branch and will probably elect two United States senators of that party.

For the house of representatives the Republicans elected two senators and nine of the fifteen representatives in Newcastle county. In the Twelfth representative district the vote for representative was a tie between Bayard Hessel, Dem., and Theodore P. Clark, Rep. The house will resolve the tie in favor of the Republican. In Kent county the Democrats elected two senators and each party elected five of the ten representatives. In Sussex county the Democrats elected one state senator and the Republicans the other. The Democrats elected five and the Republicans five of the ten representatives. Counting the Newcastle tie in favor of the Republicans, the next legislature will stand: House, 15 Democrats and 20 Republicans; senate, 9 Republicans and 8 Democrats; joint ballot, 23 Democrats and 29 Republicans. This will insure the Republicans the United States senators if the two factions can agree upon candidates.

Vote in Massachusetts.

Boston, Nov. 7.—The vote of Massachusetts, returns having been received from every city and town, is as follows: McKinley, 239,495; Bryan, 174,507. Vote for governor: Crane, 219,929; Paine, 121,153. The Republicans elected ten out of thirteen congressmen and the present delegation remains politically unchanged. The Republicans made heavy gains in the state legislature, getting one more senator and a net gain in the lower house of twenty-five. The senate of 1896 will stand 21 Republicans and 9 Democrats, while the house will be 178 Republicans, 59 Democrats and 2 Social Democrats.

Maryland Is Republican.

Baltimore, Nov. 7.—With scattered precincts in various counties of the state to hear from, Maryland's plurality for McKinley and Roosevelt on Tuesday's election was 14,146, with a probability that the official count will swell the total to 15,000 or more. Besides placing Maryland's eight electoral votes in the McKinley column, a solid delegation to the Fifty-seventh congress was elected with handsome majorities.

Florida.

Jacksonville, Nov. 7.—The Bryan electors are elected in this state by 22,000 majority. Sparkman and Davis, Dem., members of congress, are re-elected, Sparkman by 14,000 majority and Davis by 11,000 majority.

BUSINESS LAW

BY BURRETT HAMILTON.

STATEMENT BY THE AUTHOR

"In this book I have simply answered the questions asked me by business men during the last ten years. I know that these questions are practical and of living interest, because they have all been asked by live and practical men."

"Business Law for Business Men and Students" is really five books bound in one.

Book I is devoted to that all-important subject, Contracts. Book II contains a lucid discussion of "Accounts, Commercial Paper, and Securities."

Book III comprises an explanation of "The Law of Business Relations."

Book IV deals with "The Transfer of Title to Property." Book V explains the law of "Patents, Trademarks, Copyrights, and Internal Revenue Laws."

In addition to this the work is preceded by a complete glossary of legal terms, and is supplemented by an appendix containing tabulated statements of the laws of every State and Territory of the United States on the subjects of—

Interest and Usury Laws,
Days of Grace,
Chattel Mortgages, Statutes of Limitation,
Statutes of Fraud,

together with a complete, exhaustive, and accurate index of the entire work.

The book comprises nearly four hundred pages, and about three hundred statements of cases.

Strongly and handsomely bound in canvas, with gold lettering.

PRICE \$1.50.

Through an arrangement with the publishers we are enabled to make the following

SPECIAL OFFER

We will send you the **BUCHANAN RECORD** for six months and **BUSINESS LAW** both for **\$1.00** less than the price of the book alone. Address

camp knew that the superintendent was in love with Kitty Carter. Half the men in the camp were his rivals, but they all liked the young boss, who had made himself one of them from the first night of his arrival. Kitty's ways were maddening. If her willful heart favored anyone, even her handsome city lover, she discreetly kept the knowledge to herself.

Joe Bartlett had just left the office and was on his way to the mine. Looking up he saw Kitty's flying figure speeding toward him. He knew at once something was wrong. She was breathless, her lips were blanched and her eyes wild with terror.

"Kitty, what is it? Anything wrong at the mines?" he asked, anxiously. She caught his arm to steady herself.

"There's been a slide," she gasped, "and Clay—"

A sob choked her voice, and the agony in her face went to Joe's heart like a knife stab. His face whitened.

"Is Clay anything to you, Kitty?" he asked, huskily.

"Everything; all the world to me," moaned Kitty. "My heart will break if he dies."

Joe clasped her trembling fingers from his arms.

"Please heaven, we won't let him die, dear," he said gently, and a moment later he was gone.

How the men worked to reach the deathtrap where six of their comrades were entombed until exhausted, they were compelled to fall back, while others filled their places; how one man, tireless and determined, kept always at the head, never resting for a moment. To tell all this would make a story in itself.

Joe Bartlett inspired everybody and cheered and encouraged the despairing crowd that gathered about the entrance to the mine; and when, after hours of hard work, the last dividing wall of earth was penetrated, and an opening made large enough for a man to enter, it was Joe Bartlett, who, with no thought of his own danger, climbed through into the chamber beyond, and one by one lifted the half-dead men to those waiting on the outside to receive them.

Young Ames had been farthest back and was the last to be rescued. He was very weak, but he waved his hand feebly to the cheering crowd as Joe lifted him back to life and safety.

Through the opening in the wall of earth the excited, shouting crowd had a glimpse of a grimy radiant face—Joe had caught sight of Kitty when she first saw Clay Ames—then there was a sickening sound as of muffled thunder, a horrible underground groaning, followed by a crash; a second slide had occurred and Joe Bartlett was buried beneath it.

For a second or two the crowd was awed into silence by the awfulness of the tragedy, and then a cry of horror burst from a hundred throats. Women screamed and men grew white and covered up their eyes as if they might shut out the memory of the brave face that but a moment before had smiled at them from its grave.

It was hopeless from the first. Yet never did men work more heroically than the miners of Clear Creek camp for the next twelve hours to reach their comrade. Rough men, most of them were, but they cried like babies when at last Joe's crushed body was lifted from under the debris and the light of day fell upon his unconscious face.

They carried him to his own cabin and laid him upon the bed. The bravest man in Clear Creek camp had given his life for his comrades and the entire camp was in mourning.

Moonlight flooded the cabin where Joe lay. The smile which had illumined his face in the last moment of his life still rested upon it. Two people—a man and a girl—stood beside him. The young man's arm was about the girl's waist, her face hidden upon his breast.

"He was so good," she said. He died for your sake, and mine."

"Yes, dear," said Ames, gently. "He was the best and bravest man I have ever known." His arm tightened about her slender waist. "I'm glad," he said huskily, "that he did not have a sweetheart."

"It would have killed her," whispered Kitty laying her tear-wet cheek against her lover's face. "But Joe did not care for women—I am sure he never loved anyone."

"And they never knew; for eternal silence had kissed the dead man's lips.—St. Louis Star.

The Hardest Kind of Work.

"Oh, we have the loveliest arrangement at our church society last week. Every woman contributed to the missionary cause \$5 which she earned herself by hard work."

"How did you get yours?" "From my husband."

"I shouldn't call that earning it your-self by hard work."

"You don't know my husband."

Kaffir Corn and Cow Peas for Chickens.

The Oklahoma Experiment Station has been conducting some experiments to determine the relative digestibility of Kaffir corn, Indian corn and cow peas when fed to chickens. Results of the trials are published in Bulletin 46. Following is the summary:

1. Chickens digested Kaffir corn and corn more completely when the grain was fed whole than when the meal was fed.

2. The Kaffir corn and Kaffir meal fed in this trial yielded but two per cent less total digestible matter than the corresponding corn products.

3. Kaffir corn was a more suitable ration, considering only the relative amounts of growth-making and fattening materials, for chickens than Kaffir meal, corn, or corn meal.

4. Cow peas were digested reasonably well and are desirable feed for growing chickens and hens. But little gain in digestibility was secured by grinding the cow peas.

Last Wooden Railroad Broken Up.

Capital is about to reopen the Clifton iron mines in Northern New York, and to destroy the famous wooden railroad which used to bring out the ore.

There's hardly anything a Yankee with an Irish name cannot invent. When the Clifton mine project was being discussed, the investors objected to the cost of building twenty-eight miles of spur railroad through a very rough country to bring out the ore.

"Steel rails cost money," said the chairman.

"Sure, an' why not make wooden rails then?" said Jim Sheridan, the "King of Clifton," "they's wood enough up thim hills to break a man's heart."

"Can you build a wooden railroad fit to run a little dummy engine on and a train of tip-cars?"

"I can that!"

And Sheridan did. The rails were spruce poles, squared in the little "one-man" saw mill of the place, while the ties, half buried in the earth and staked down at either end were notched to receive them. Into these notches the rails were wedged firmly by two oaken keys sawed out in the saw mill.

These keys had a way of shrinking during a dry spell, and working loose when it became the duty of the engineer to keep a sharp watch for them and of the brakemen to dismount upon hearing three short whistles and a long one, and with a supply of keys from a keg which was carried on the conductor's flat car at the rear to maul the rail tight again with a wooden beetle.

The engine used to run off the track into the bushes, when it was the pleasant duty of the trainmen to get off and pry it back into place again. Just as the railroad was becoming famous the iron works burned up. The railroad didn't burn. It's there yet, much of it rotted into the ground, but it will have to come up to make way for a steel successor not half so interesting.

How Foxes Get Rid of Fleas.

By an old hunter and naturalist of local repute a story has been told here confirming as absolutely true and trustworthy the published account, which has had few believers until now, of how foxes rid themselves of fleas. The fox, according to the book narrative, simply backs slowly into a stream of water with a portion of the pelt of a rabbit in his mouth after the fox has made a meal of the rabbit. The water drives the fleas first up the fox's legs and then toward his head, and finally out on the piece of rabbit fur, and then the fox drops the fur and his pests are done for.

The local hunter and naturalist referred to, strange to say, had never heard or read this story when he told of the actions of a fox which he observed the other day in the waters of the Patuxent River. The little animal, he stated, backed into the river slowly with so much deliberation that he wondered what it meant. It carried some thing he did not know what in its mouth and dropped the something when out in deep water. Then the fox hurried away. The object left floated near to the observer and he hauled it ashore with a stick. Pleas literally swarmed through the object, which was found to be a bit of raw rabbit fur. The observer had a puzzling mystery explained to him. He says his admiration for the shrewdness of the fox grows more and more as he grows older and learns his ways.—From the Baltimore Sun.

The Cure that Cures

**Coughs,
Colds,
Grippe,**

Whooping Cough, Asthma,
Bronchitis and Incipient
Consumption, is

**OTTO'S
CURE**

The GERMAN REMEDY
Cures throat and lung diseases.
Sold by all druggists. 25¢ and 50¢.

IF YOU HAVE A COUGH

Do Not Dry It Up With Syrup.

If you have a Cold do not dry up the mucous with syrups or lozenges, but use Pepto Quinine Tablets. They not only cure the cold but improve the general health. 25¢ per box.

WM. D. HOUSE

Will carry passengers to South Bend every Thursday. Leaving Buchanan at 7:30 and returning from street car depot at 4 p. m. Engage your seats. Fare 50 cents, round trip.

Berrien Co. Abstract Office,
Court House, St. Joseph, Mich.

Money to loan on improved farms at six and seven per cent according to amount and time. Farms for sale \$20 per acre and upward. Abstracts of Title and titles examined. Telephone orders at our expense, if in a hurry, and abstracts will be sent by first mail, prompt service and lowest prices.

Berrien Exchange Bank, Berrien Springs. M. Wilkinson will be at the Bank every Thursday.

DIX & WILKINSON.

\$3 A DAY SURE
Send us your address and we will show you how to make \$3 a day absolutely sure; we furnish the work and teach you free; you work in the locality where you live. Send us your address and we will explain the business fully; remember we guarantee a clear profit of \$3 for every day's work, absolutely sure. Write at once.

THE FRANKLIN SOAP CO.,
DETROIT, MICH.

For Shattered Nerves.

A remedy that will soothe, build up the wasted tissues and enrich the blood is indispensable. Lichty's Celery Nerve Compound has been wonderfully successful in cases of nervousness, as thousands of grateful people will testify. Sold by W. F. RUNNER.

Krause's Headache Capsules

will instantly cure headaches of any kind. Being purely vegetable they are harmless and leave no bad after effects. We offer \$500 reward for any trace of antipyrine, morphine, chloral or any injurious substance found in them. Price 25c. Sold by W. F. RUNNER.

Easy to Cure a Cold

if you go about it right. Take two or three Krause's Cold Cure Capsules during the day and two before retiring at night. This will insure a good night's rest and a free movement of the bowels next morning. Continue the treatment next day and your cold will melt away. Price 25c. Sold by W. F. RUNNER.

When You get a Headache

don't waste a minute but go to your druggist and get a box of Krause's Headache Capsules. They will prevent pain, even though your skull were cracked. They are harmless, too. Read the guarantee. Price 25c. Sold by W. F. RUNNER.

WIRE FENCE MACHINE

(Patented in U. S., Canada and Foreign Countries.)

A responsible man in each township can procure profitable employment. "Not a submerged man, who has never succeeded in anything, but one who has his head above water."

A PUSHING MAN WHO IS ALREADY DOING WELL, BUT HAS A STRONG DESIRE TO DO BETTER.

The machine will almost sell itself, but we want DEPENDABLE MEN to introduce it.

The Speediest, Simplest, Most Complete and Perfect Fence Weaving Machine ever Invented.

IT MAKES THE CHEAPEST GOOD FENCE MADE.

One that will not sag; of any size wire you may wish; any size mesh you desire, to turn poultry or the largest animals. It's fast and efficient. So easy that any boy can work it. Weaves stays of any ordinary size wire, upon any size wires, smooth or barbed. Weaves more rods in a day and does it easier than any other machine made. James McMillan, of Essex Postoffice, Ont., writes:—"I wove 91 rods of fence in 8 1/2 hours with this machine."

Write for Catalogue "B." We will gladly mail it free of charge. Or better still, COME INTO THE OFFICE, where we have a section of fence upon which you may operate the machine yourself. THAT'S THE TEST.

Central Office, cor. E. Congress and Bates Sts., Detroit, Mich.,

or D. H. BOWER, Buchanan, Mich.

GENERAL REPRESENTATIVE,

or Berrien, Cass and Van Buren Counties.

TIME AND SPACE

are practically annihilated by the ocean cables and land telegraph systems which now belt the circumference of Old Earth in

so many different directions. "Foreign parts" are no longer foreign in the old meaning of the term. Europe, Africa, Asia, are "next door" to us. What happens there to-day we know to-morrow—if we read THE CHICAGO RECORD, whose Special Cable Correspondents are located in every important city in the world outside of the United States. No other American newspaper ever attempted so extensive a service; and it is supplemented by the regular foreign news service of The Associated Press. For accurate intelligence of the stirring events which are shaking the nations—of wars and rumors of wars—of the threatening dissolution of old governments and the establishment of new—of the onward sweep of the race in all parts of the world—the one medium of the most satisfactory information is the enterprising, "up-to-date" American newspaper, THE CHICAGO RECORD.

FREE A large map of the world on Mercator's Projection, about 22 1/2 x 16 inches in size, beautifully printed in colors, with a large-scale map of Europe on the reverse side, will be mailed to any address free of charge on receipt of request accompanied by two 2-cent stamps to cover postage and wrapping. The maps illustrate clearly how comprehensively the special cable service of THE CHICAGO RECORD covers the entire civilized world. Address THE CHICAGO RECORD, 181 Madison Street, Chicago.

THE RIGHT KIND.

I like to see a girl
Who knows enough to furl
All her furbelows and get a man a dinner:
Who can sew a bit and play,
Who can sing, darn, knit, crochet,
Well, a girl, in fact, who's got some gristle in her.

A girl who loves her dad
And makes some fellow glad
And who doesn't sneer at any man who labors,
Who's angel of the house,
Yet, if she saw a mouse,
Would jump upon a chair and call the neighbors.

I like to see a youth,
Who'd rather tell the truth,
Than to resort to fairy tales or fabrications;
Who can look you in the eye,
Who, in short, would rather die,
Than disappoint his parents' expectations.

Who, never fond of fight,
Can use his left or right,
And pay a hundred cents on every dollar;
To some one sweetheart true,
He loves his mother, too,
And he doesn't wear a bandbox for a collar.

I like to see a wife,
Who wouldn't for her life,
Tell the neighbors all her husband's little troubles;
Oh, a woman full of hope,
Who could throw a man a rope,
If she saw him in a sea of business bubbles;

A woman who has tact,
Good sense, and—well, in fact,
Almost any kind that isn't quite a noodle,
And who'd rather make a bib
For baby in his crib
Than embroider silken dollies for a poodle.

I like to see a man
Who, if he has a plan
For removing every evil from creation,
Now and then will give a cent
To his wife, but not repent,
And so ask for every mill an explanation!

Who, if he has to roam,
Will save a smile for home,
And will never tell the sins of other people,
Who isn't a beginner,
Who himself has been a sinner
And who doesn't measure God with a stepple.

—Boston Globe.

JOE BARTLETT.

"She'll be hard to tether, Kitty will. It'll be like lassoing a butterfly, an' I 'low as the man as can do it ain't appeared in camp yet," said Joe Bartlett, meditatively. "As fer me, I ain't got the show of a chance. How in thunder can I expect a dainty little girl like Kitty to care for a rough, ignorant fellow like me?"

He took the pipe from his mouth, and, knocking the ashes from it, filled it carefully; but it was evident that his mind was not upon his task.

The Michigan Club of Detroit have leased the Detroit Light Infantry Armory No. 42-46 E. Congress street for a club room, and many sweeping changes are being made toward making the club a very important factor in the state republican politics. The annual dues to members, isotope of Wayne county have been reduced to \$2.00 and should result in a large increase in membership.

CORRESPONDENCE

BRIDGEMAN.

The weather seems to be running in opposition to the coal strike.

Miss Chapman reports a total enrollment of sixty-eight in the primary grades.

F. G. Lewis was in town last week on business.

The Bridgeman and Baroda teachers have joined forces and will meet for reading circle work every two weeks. The next meeting will be at the Brigeman School room Thursday evening, Nov. 8 at 7 o'clock.

Mr. and Mrs. L. R. Hamilton, and Mr. and Mrs. John Conrad and daughter Bessie took dinner with Prin. W. A. Conrad on Sunday.

DAYTON.

Mr. S. P. Phillips is on the sick list.

Ray Williams of Dowagiac visited his parents Monday.

Mr. Schriber was in Niles Sunday.

Beulah Noyes went to Niles Tuesday.

James Smith of Dowagiac visited friends in Dayton Sunday.

Mr. and Mrs. Floyd Weaver was in New Carlisle Tuesday. Mrs. Weaver will remain and care for a sick sister.

Miss Flora Branch of Chicago is visiting her sister Mrs. Byron Redding.

Going West and Northwest.

The best line west of Chicago, if you are going to any point in Montana, Idaho, Washington, Oregon, Kansas, Nebraska, Colorado, Wyoming, Utah, Nevada or California, is the Chicago, Milwaukee and St. Paul Railway. Direct and short lines between Chicago, Sioux City, Omaha, Milwaukee, La Crosse, St. Paul and Minneapolis. Solid vestibuled, electric lighted, steam heated trains; free reclining chair cars; compartment and sleeping cars; the finest dining cars in the world. If you contemplate a trip West or Northwest call on any coupon ticket agent in the United States or write to Harry Mercer, Michigan Pass. Agent, 32 Campus Martius, Detroit, Mich., saying where you are going, about when you will start, how many there will be in the party, and full information, with maps, time tables and rates of fare will be promptly furnished free. Be sure to ask for your tickets via C. M. & St. P. Ry. 8 t

Will Bradley's Unique Commission

Will Bradley has accepted a commission from The Ladies' Home Journal for a series of illustrations that will attract the greatest attention. There are to be eight of the pictures, showing a woman's day in her home—at breakfast, in her boudoir, on the lawn, etc. Mr. Bradley will gown the women in costumes (appropriate to the different periods of the day and to the occasion) of his own creation, and decorate and furnish the house with draperies, wall paper and furniture of his own designs. The drawing, while having a strong pictorial interest, will have greater value in showing women how to dress with artistic effect irrespective of the decrees of fashion, and the methods by which the most artistic effect in home fitting and furnishing can be secured.

The November Number of The Household

The November Number of The Household is exceptionally noteworthy. The cover, drawn especially for The Household, is executed in two colors, and tells a pleasing story of Colonial days and is in itself a work of art. The stories are from such well-known writers as Sophie Swett, Will Allan Dromgoole, and J. L. Harbour. There are illustrated articles by Col. T. W. Higginson, Kate Sanborn, and Fannie Rullock Workman—the only woman who has climbed the Himalayas. The illustrations for the month are Chase Emerson, H. W. Colby, Louis Meynolle, and E. Jepson.

Under the new management, The Household of Boston, Mass., promises to become one of the first in the field of magazines devoted to home interests.

A glance at the prospectus for the coming year indicates that Household readers will be well supplied with choice selections. Some of the best known and popular authors of the day will contribute to its pages, and the art work and its illustrations will surpass anything heretofore published

Pepto Quinine Tablets cure a cold.

Henry Norman's article on the Great Siberian Railway, in the November Soridner's, is the result of a recent journey made throughout its entire length, so far as completed. The country traversed, with its industrial and mineral possibilities, is described from actual observation and conversation with the people living along the route of the railway. Mr. Norman says that the road will cost \$500,000,000 and is the greatest undertaking of modern times. It is the real "Key to the Far East,"

With its November issue, The Century Magazine begins a Year of Romance, during which many of the most famous living writers of fiction will contribute to the magazine short stories, novels, or novelettes. The reception accorded "The Helmet of Navarre," begun in the August number, indicated that the proposed departure will be a popular one, and with such names to conjure with as Rudyard Kipling, Mrs. Burnett, Bret Harte, Lew Wallace, Miss Wilkins, Winston Churchill, Howells, James, Harris, Cable, Stockton, Page, Anstey, and Ian Maclaren—to note but these few—the conductors of The Century are pretty sure to meet the tastes of all lovers of fiction.

McClure's Magazine for November will contain a vivid account of the siege of the Foreign Legations in Peking, written as a diary by Katharine Mullikin Lowry, one of loch sieged. It will relate in full many of the soulstirring events that we already know, and will make clear many incidents upon which we have hitherto had little light. It will be illustrated with plans of Peking, of the Legation Quarters, and the British Legation.

The fiction in McClure's Magazine for November will be widely representative both in subjects treated and in the localities in which the scenes are laid. Life in the Far West and on the Eastern Seaboard, in crowded cities, in country districts, in turbulent mining camps, and in railroad centres, will be portrayed; incidents of ward politics, of a foot-ball game, of simple true affection, of daring, and energy, and of courageous self sacrifice, will be related by Frederic Garrol, Baldy, George Kibbe Turner, Lillian True Bryant, Charles Warren, and Alvah Milton Kerr. The illustrations are by Frederic Remington, Albert T. Reid, W. R. Leigh and others.

The National Horse Show focuses the attention of American horsemen and gives point to "The Making of the heavy harness horse," by F. M. Ware, in Outlook for November, as well as to "The Scoring of the Raja," a glimpse into East Indian Regimental Steeplechasing, from the pen of W. A. Fraser. November is a month dedicated to "Football," and Outing's Symposium on the game, from the pens of Walter Camp, Geo. H. Brooke, Percy D. Haughton and Charles Chadwick, is weighty with the knowledge of football giants. With the autumn comes the hunter's moon, and "After Elk in Colorado," "Hunting Black Tail Deer," "Duck Shooting Methods," and "Practice for Field Shooting," are each each entertaining contributions of practical usefulness.

China, the real China, and all about it is timely, and "Chinese Sports and Games," by Isaac T. Headland, of the University of Peking, is especially instructive.

In "The Confession of an Ancient Poacher," Maurice Thomson fairly revels in ardent though stolen joys, and in "Afoot in Nature's Game Preserve," Leonidas Hubbard, Jr., deals a lusty and artistic blow for the preservation of the Adirondacks and their salvation from the lumberman.

"The Conversation of Our Fresh Water Fishes" ends a number every line of which is directed to practical ends.

The Youth's Companion's Seventy-Fifth Year.

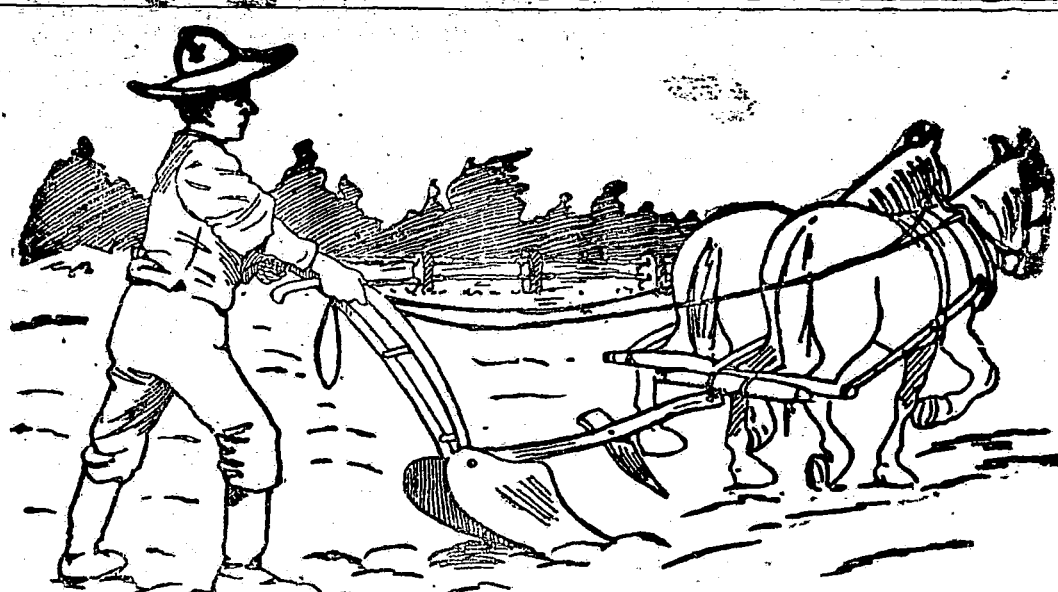

The new volume of The Youth's Companion for 1901 will mark the paper's seventy-fifth year of continuous publication, seventy-five years, during which it has had the approval of three generations of readers. The constant aim of The Companion is to carry into the home reading that shall be helpful as well as entertaining, reading that shall contribute to the pure happiness of all the family. Strong in the assurance that every reader gained is a friend won, the publishers offer to send The Companion free for the remaining weeks of 1900 to those who subscribe now for the new volume for 1901. There will not be an issue from now until 1902 that will not be crowded with good stories and articles of rare interest and value. Diplomats, Explorers, Sailors, Trappers, Indian Fighters, Story-Writers, and Self-Made Men and Women in Many Vocations, besides the most popular writers of fiction, will write for The Companion not only next year, but during the remaining weeks of this year.

The new subscribers will also receive The Companion's new "Puritan Girl" Calendar for 1901, lithographed in 12 colors. Illustrated Announcement of the volume for 1901 will be sent free to any address, with sample copies of the paper.

THE YOUTH'S COMPANION, Boston, Mass.

Pepto Quinine Tablets.

These tablets relieve and cure constipation. 25 cents.

I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plowing, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peach time, I had a most serious attack of chills and then commenced to take Ripans Tabules, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tabules will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said, "Say, John, what are you doing to look so healthy?"

WANTED.—A case of bad health that R-I-P-A-N-S will not benefit. They banish pain and prolong life. One gives relief. Note the word R-I-P-A-N-S on the package and accept no substitute. R-I-P-A-N-S is for 6 cents or twelve packets for 12 cents, may be had at any drug store. Ten samples and one thin and testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., 250 3d Avenue St., New York.

THE NEW YORK TRIBUNE.

The LEADING NATIONAL REPUBLICAN NEWSPAPER, thoroughly up to date and always a staunch advocate and supporter of Republican principles, will contain most reliable news of

THE PRESIDENTIAL CAMPAIGN

THE BUCHANAN RECORD and THE MICHIGAN FARMER :::

Both One Year Each for Only \$1.60
Both Every Week to January 1 for Only .35
The Michigan Farmer Alone to January 1, for .20

THE MICHIGAN FARMER, the great Weekly Agricultural and Live Stock Journal was established 47 years ago, it is authority on all agricultural and stock topics. It helps to make the farm pay. Its market reports are carefully compiled and corrected each week; no other agricultural paper furnishes its readers with as satisfactory reports from as many market reports. It is at all times liberally illustrated. Complete instructions how to make at home, implements and articles for farmers' use, are freely given; careful and studious attention is given to each department and only the most practical and seasonable articles are permitted in its columns. Agriculture, Horticulture, Poultry, the Dairy, Live Stock and in fact all matters of interest to the general farmer and stock raiser, and pertaining to his business, financial and social life are discussed for the good of its readers from a practical and scientific standpoint. If a Sample Copy is wanted address:

THE MICHIGAN FARMER, Detroit Michigan.

THE DANGER SIGNAL.

Are You Sleepy After Meals? It is the Danger Signal. Do not Delay too Long.

If you are sleepy after meals it is a sign of inactive liver and poor digestion. This will lead to serious troubles if neglected. Pepto Quinine Tablets are a combination of pepsin which aids digestion. Quinine which drives away malaria, and cascara, which regulates the liver and cures constipation; Pepto Quinine Tablets will make you feel like a new person, and you are able to live in health for many years. Pepto Quinine Tablets, 25c.

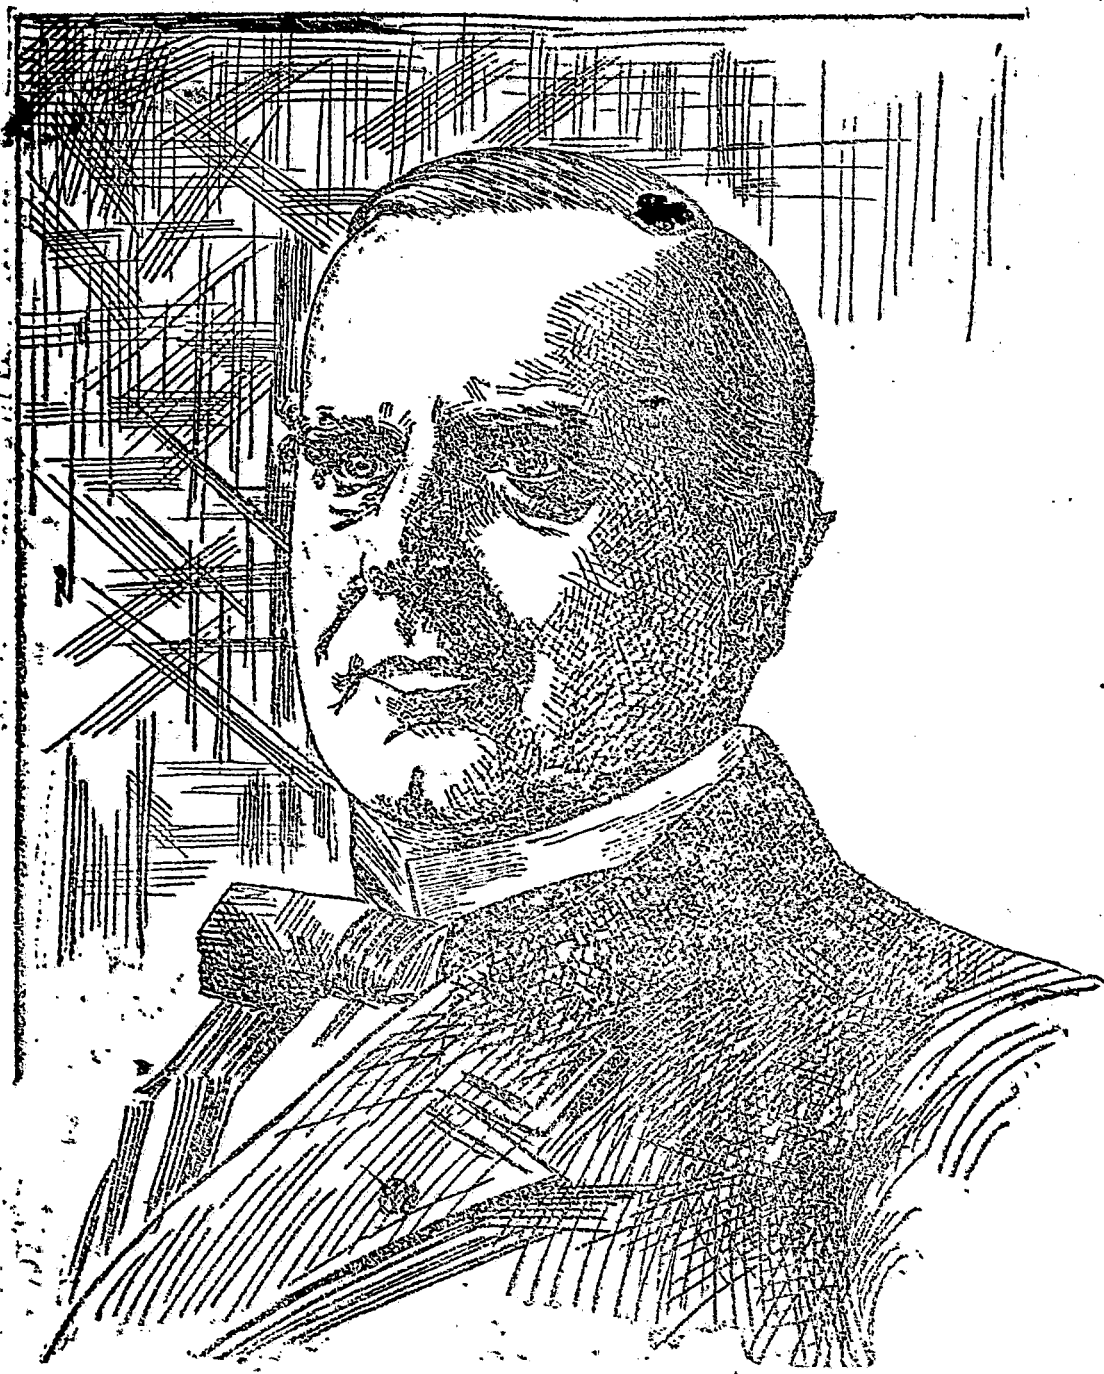

I WISH TO SAY

to my friends and surrounding country that I will carry on the Undertaking Business left by the death of Mr. Henderson. I insure best of satisfaction and moderate prices. - - -

BUCHANAN RECORD.

D. H. BOWER,
EDITOR.

PUBLISHED EVERY THURSDAY

TERMS \$1.50 PER YEAR
PAYABLE IN ADVANCE

THURSDAY, NOV. 8. 1900.

Now that election is over and the country is safe another four years, let's get to business.

In a letter received by the editor of the Record the Rev. H. L. Potter formerly of this place in speaking of the result of the election says "Hurrah for McKinley and the Full Dinner Pail." We'll join you Bro. Potter and make it three times three and a tiger.

Tuesday's Lesson.

The fact that the canvas of the vote in Buchanan showed a total of 97 split republican ballots, and only 14 split democratic furnishes food for contemplation to the person who gives the question of partisan politics any thought.

The democratic voters have shown that they can stick to their ticket to a wonderful degree, only one man in 21 split his ticket, while on the other hand out of a total vote of 488 one republican out of every 5 split his ticket for some candidate other than of his own party. While the vote of Buchanan could not have saved the republican candidate for sheriff B. F. Earl from defeat, yet it was this tendency to split which was manifested in every place, even Mr. Earl's home city that caused his defeat. There is no question but that Mr. Earl would have made an efficient officer, and having secured the nomination should have been more loyally supported by his party at the polls.

The place to settle personal differences is at the caucuses and conventions and when a man has been fairly nominated he should receive his party support, for a habit of splitting once formed by the members of a political party makes no end of trouble for future tickets and takes years to overcome its effects.

Hamilton's Majority Estimated at over 6,000.

In response to a telegram of inquiry as to the probable majority for Congressman Hamilton in this district Chairman G. E. Bardeen of the Congressional Committee writes the Record as follows:

"No complete returns in from any county, but I make the following estimates. Allegan 2,860, Barry 400, Cass 850, Van Buren 1,800, Berrien 1,200. St. Joseph a stand off, making total majority for Congressman Hamilton of 6,000 or more."

If any one has any doubts that the people of the Fourth district know a good thing when they have it they should read the election returns on Congressman. Congressman Hamilton is all right.

BUCHANAN'S VOTE.

A Light Vote Polled.

Election Day dawned clear and bright in Buchanan the day passing off very quietly, a cold rain setting in after dinner which no doubt kept home some voters. The vote showed a good majority for the head of the ticket, McKinley's plurality being two more than it was in 1896, and the total vote polled was 20 less than 1896. The state ticket showed a fine majority, but the county ticket was badly cut up. There was a total of 780 votes cast of which 292 were straight republican, 280 straight democratic, 21 straight prohibition, 1 socialist labor, 97 split republican, 14 split democratic, 15 split prohibition, 15 blank and defective.

These figures are interesting for they show conclusively that our republican splits are in a large measure the reason for the votes given several of the democratic candidates, as an inspection of the figures show few democratic split ballots. The vote in detail is as follows:

SUPPLEMENT

BUCHANAN RECORD.

THURSDAY, NOV. 8, 1900

W. B. Thomson goes to Three Oaks next week, Monday to conduct a meeting which will continue nightly for two or three weeks as the interest may warrant

We wish to call attention to the completeness of our election returns. The result in every voting precinct in the county will be found in this issue and we simply wish to add that when you want to get the news and get it fresh read the RECORD, only \$1.00 a year, less than a postage stamp a week. Better send us your subscription while you think of it.

Master Frank Lister, son of Mr. and Mrs. L. H. Lister was twelve years of age yesterday and about thirty of his young friends called at his home last evening to help him celebrate. The evening was spent in playing games and music and having a cake walk, after which refreshments were served. All had a very enjoyable time and the young host received many nice gifts to remind him of the day.

The regular monthly meeting of the W. C. T. U. was held last Friday at the residence of Mrs. D. Henderson on Oak street. The president, Mrs. Sickafoose, was in the chair, and the meeting was opened by a bible reading on "God's Equipments for his Workers," conducted by Mrs. Egbert, after which a full and interesting report of the District Convention recently held at Dowagiac was given by the delegates, Mrs. Bennett and Mrs. Thomson. Other questions of interest to the work were also discussed. Through the flower mission committee of this society over fifty beautiful bunches of flowers have been sent to sick and aged persons during the past two months. Their meetings are held the first Friday of every month at 2:30 p. m. and a cordial invitation is given all interested to attend.

Imperial Ladies' Quartette.

Remember that on Saturday evening one of the finest musical organizations in the country will appear in the Evangelical church to render a program of refinement and high order.

Season tickets for the three entertainments which the course provides, will be sold for 50 cents and single admission 25 cents.

It will pay you to purchase a season ticket and thus enjoy each entertainment at a low rate.

The "Imperial Ladies Quartette of Chicago," Saturday evening, at 7:30 at the Evangelical Church.

Tuesday Landslides.

The votes have been counted, the verdict has been given after a campaign waged earnestly on both sides, and the people have said by an overwhelming vote that Wm. McKinley shall be president for another term, that free silver was a dead issue, and imperialism a campaign bogie man.

That there are heavy responsibilities placed upon President McKinley and the republican party is a fact that cannot be controverted, but the people have faith that these responsibilities will be met in the proper time, and adjusted in the proper manner.

Now let us let politics rest and all republicans, democrats, prohibitionists and all join hands in pushing to the front our beautiful town and see that its business interests are advanced in every way. Conditions are favorable now let us take advantage of them.

◆ ◆ ◆

Deputy Sheriff J. C. Wenger, Messrs D. H. Bower, T. F. Cox, Marshall P. Rand, J. W. Beistle, H. N. Guy, Herbert Roe, Dr. C. B. Roe and C. O. Hamilton were among those who went to Benton Harbor, last Friday to hear Senator Burrows.

Dr. Henry E. Lough of Tampa Fla, who has been visiting friends and relatives here the past week started for his home yesterday. He was accompanied by his daughter Miss Lu-line.

Back to the Old Price.

The Buchanan Record
Only One Dollar a Year.

Now is the Time
To Subscribe.

On March 8th 1900 proposition was made to the publisher of the Record that both papers published at Buchanan should raise their subscription price to \$1.50. The Record desiring to be fair in the matter consented to the arrangement; the \$1.50 rate was established and adhered to without deviation. We have ascertained that the originators of this proposition have not up to their own position, consequently the Record returns to the old price of \$1.00 per year strictly in advance beginning today.

To all who have paid the \$1.50 we would state that when you next renew your subscription to the Record call our attention to the fact and your subscription will be extended a sufficient length of time to make up for such payment.

We urge you all to take advantage of this opportunity and secure the best paper in Northwestern Michigan, and if you want other papers call and get our clubbing rates. We'll save you money.

Address all orders to

BUCHANAN RECORD,
Buchanan, Mich.

HERE'S THE PROOF.

We submit herewith a copy of a circular letter sent a subscriber of the Argus. We have the original of this letter at the Record office if any one cares to inspect the same.

Dear Sir:

We desire to call your attention to the fact that your subscription to the ARGUS expired* and that we would be very much pleased to have you renew the same. Of course you understand that it takes money to run a newspaper and although it was found necessary to advance the price of the ARGUS, if you will call within the next two weeks we will take your renewed subscription at the old price--\$1.00 per year.

WOODWORTH & COX.

*The date is Aug. 25, 1900, and is written with pen and ink.

PLEASED

WITH OUR PRICES
WITH OUR GOODS
WITH OUR PROMPTNESS

WHAT MORE
CAN YOU ASK?

We want to talk to you earnestly and with an effort to secure your patronage. The public size up goods by the quality and price and the size up should be to your interests. The recollection of quality remains long after the price is forgotten. Our every effort is to please our customers and we are meeting with gratifying success. When you want Groceries and Crockery we are ready to talk to you. Our store is the place to buy.

Hip-ty hop to the bakery shop

To buy our ma a cake.

Our ma an' pa they had a scrap,

Because our ma can't bake.

Our pa he swered

And ma she reared,

Pa said he'd run away,—

But ma she kissed him,

Sed she'd miss him

Sed she'd learn to bake.

Now, pa don't swat us,

An' he's took

To bein' good since ma can cook,

Sed he'd never et such cake

An' pa san' bread as ma does make

Ma wore a 'culiar smile,

(Van does our baking

All the while.)

But pa he's bluffed,

An' that's enough t'

Make us kids say,

"Van's the stuff."

At this annual service the Mission
subscriptions of one year ago are due
and new Mission subscriptions will
be in order. Special services will be
continued each night during next
week. The public is invited to at-
tend.

THE FARMER'S MODEL ACCOUNT BOOK

This is something new and will interest farmers generally. On one page of this book is printed the history for one season of a farmer's cash affairs just as they occurred on his farm. On the page opposite this history the Cash Account is written out in legal bookkeeping form. This forms a correct model to which the farmer may refer and correctly write his own cash account on the properly ruled blank pages further along in the book. On another page are printed the facts concerning a season's business with a cornfield. The bookkeeping work in correct form is written out on the page opposite, showing all outlays, receipts, and the final profit. All is made so plain by full explanations that any farmer can on the succeeding blank pages keep in strictly scientific and legal form his own accounts with any grain or hay field. In a like manner a model is given for an Apple Orchard Account which may be applied to any orchard; as plum, peach, or to a berry field. A model Account with Cows is given, from which any farmer may keep any stock or poultry account. A model account with a hired man is given. Also with another person. There is also a correct legal model for recording notes. With this book, containing models, full explanations and properly ruled blank pages, a farmer may by a few minutes' work each week keep his account in the same correct and legal manner as does a merchant or any careful business man. No matter how poor the writing, the form will be correct and would stand in any court of law. No farmer can afford to be careless in the matter of his accounts any more than any other business man. It is of daily occurrence as shown by the newspapers that unexpected legal complications, accidents, and death, cause serious trouble that might have been avoided had the person's accounts been kept properly. It will surprise any one, who has not seen the **FARMER'S MODEL ACCOUNT BOOK** to learn how plain it is, how easily followed out, and with what little loss of time. It will not require for the ordinary farmer more than twenty minutes a week to keep his accounts in clear, legal shape that will be a source of satisfaction to himself, and a valuable matter to his family in case of death. This book is retailed at \$1.50 each, but through an advantageous offer of the publishers we are able to make the following liberal offer. We will send you the

BUCHANAN RECORD

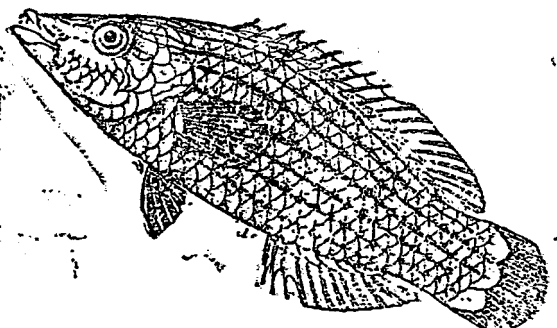

six months and the Model Account Book both for only \$1.00 less than the price of the book alone.

WONDERS IN DEEP.

STORIES OF THE OCEAN AND ITS INHABITANTS.

Fish That Fill With Gas—Clams That Spin Their Own Anchor Ropes—Oysters That Wax Fat on Farm Fertilizers—Cod Fish That Take Long Journeys.

A busy summer indeed has been spent by the United States Fish Commission, and the reports that have just been made as the result of the work of the various experts make true wonder-stories of fish and sea creatures. One tells about a queer disease of fish that fills them with gas till it forms bubbles all over their heads and almost blows the eyes out of their heads. Another has been feeding oysters on common fertilizers just as if they were farm crops. Still another has discovered that one cause of the scarcity of clams is the fact that menhaden are caught for the

oil factories in such huge quantities. This story shows a curious chain. Menhaden feed on the starfish. Starfish feed on clams. So here is man again, ruining his own food supply. With the menhaden taken in nets as soon as they appear near a coast, the starfish are left free to eat the clams and they do. The experts have watched the starfish and find that one can and does eat more than fifty clams in six days, and that the stars that may be found in a single small cartload of seaweed have a capacity for destroying more than 6,000,000 clams in a week.

A Fish Bug.

A bug that kills fish has been captured in the Erwin Station in Tennessee. For several months the brook trout there died mysteriously to the extent of 17,000 in one month and 5,000 in another. All kinds of experiments were tried to discover the cause of this excessive mortality. A fence three feet high, covered with fine screen, was put around one pond. It did no good. Then boards were put on edge around the banks of another to prevent the young fish from sleeping in the shallow water. Still the fish died. Then bulkheads were put into various spots to prevent the fish from injuring themselves by leaping. Shade was provided here and there. Traps were set to catch rats or other vermin which might be preying on the fish. Some ponds were cleaned out and the fish assorted.

Nothing had any result. Suddenly it was discovered that great quantities of an insect known as belostoma were around all the waters. And this belostoma, it was found, crawled into the water at night and fixed itself on young fish, which it killed by blood suction.

One hundred and sixty-three species of fish have been found by Dr. Tarleton H. Bean on our own coast of Long Island. Among them are the red mullet, the presence of which here had not been suspected. One important thing has been discovered about the mackerel, which has a bearing on the question of the distribution and movements of this valuable fish. It is that there are marked structural differences between the British and the American fish.

A tiny infusorian, Peridinium, has been captured. In itself a single individual it does not amount to much. But when it has its crowd along it does wonders. Thus, not long ago, it occurred in such numbers in Narragansett Bay that the water suddenly became a deep red color, smelled most unpleasantly and killed fish so that even the hardy eels came ashore and wriggled up on dry land to escape. Dead shrimp were washed ashore in windrows. The fishermen, also many highly educated persons, called it the "blood water," and were sorely frightened. The most sensible of them said "dye works" but the majority of the shore population was fearful that it was a portent, and that it meant war or pestilence or some such thing. It didn't. It was just Peridinium.

Movements of the Codfish.

An interesting thing was done with codfish to study their movements in the deep sea. It is obvious that a personally conducted tour was out of the question, so 1,115 adult cod were carefully kept alive after being caught and taken to the Woods Hole station, where German silver tags were attached to them. Then they were released again. On each tag was a number and a legend telling what the purpose of the tagging was, and asking fishermen to take them off the fish and send them to Washington with a statement telling date of capture, latitude and longitude or locality, weight

and condition of the fish, and so on. So far almost seventy-five tags have been returned. They show enormous distances traversed and wonderful growth of the fish.

Fish That Explode.

The investigation of the gas disease makes one of the more interesting

queer things of the sea. For some years a strange and fatal disease has been observed in fishes kept in aquaria. Small blisters apparently filled with gas would develop, first on the fins and gradually spreading over the entire body, and at last attacking the eye, forming in the eyeball or beneath the corner, so that the eyes often would be literally blown out of their sockets. Professor L. B. Spencer of the Battery Park Aquarium noticed the disease several years ago. It was particularly troublesome in the case of the beautiful hippocampus or sea horse. The poor little things were attacked almost invariably a few days after they were placed in the tanks. Professor Spencer tried many remedies, even using surgery. But everything was in vain.

The Spinning Clam.

The clam has been watched for the commission by James L. Kellogg. He tells a pretty story about the threads which the young clams spin to use as anchors. These threads are byssus filaments. He says:

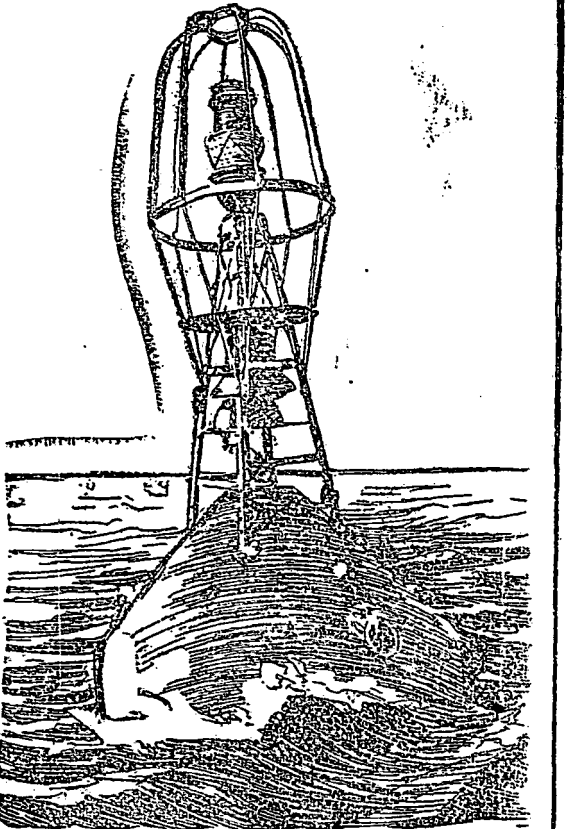

"The free-swimming embryos attach themselves to objects, such as seaweeds, eelgrass and stones, in June, July and August. Having become fixed in this way by a byssus thread, the clams remain for some time, many of them attaining a length of at least six or seven mm., and perhaps more."

"The attachment of the clams may be broken at any time, apparently at the will of the animal, by a casting off of the byssus thread, and new threads may be produced at will. Apparently young clams of all sizes in the weed very often perform this act. When they have in this way made themselves free in a glass dish, they at once begin to move about by means of the well-developed foot. Slowly crawling about for a time, they finally reattach themselves, and even after this has been accomplished, they move about in various directions to the length of their tether. In this process of freeing and reattachment, however, it very often happens that the little clams fall from the supporting weed altogether and reach the bottom."

NEW GAS AND BELL BUOY.

This Will Burn Three Months and Can Be Seen Six Miles.

Remarkably effective as an aid to navigation is a gas buoy which at the same time is a bell buoy. It is likely to play an important part in the protection of the shipping of this port, as well as being a most important factor in increasing and developing the commerce of New York. This is so because through the proper use of these buoys this harbor could be made navigable at any hour, at low tide as well as when the tide is full, while fogs and thick and stormy

weather would no longer be a bar to the free and expeditious entry of ships of all tonnage.

The height of the buoy over all is eighteen feet. From the water line to the focal plane it measures to feet six inches, and the diameter of the body of the buoy is seven feet, the total weight being 6,360 pounds. The body of the buoy forms the receiver for the compressed gas, and is of sufficient size to give proper buoyancy for flotation and of adequate strength to safely hold a pressure of one hundred and fifty to one hundred and eighty pounds per square inch.

On top of the body is a wrought-iron tower, about six feet high, surmounting which is a lantern. Surrounding the lantern is a cage for protecting it, and the tower is provided with a platform on which to stand to light or adjust the flame.

For Fog and Night Signals.

Just below the platform is suspended a bell weighing 185 pounds. The bell is sounded automatically every twenty or thirty seconds, or indeed at regular intervals of any duration, of which may be predetermined. The flow of the gas from the receiver to the lantern furnishes the means of operating the bell. Thus a reliable sounding of the bell warning is secured without any dependence upon the action of the waters, as is the case with the old-fashioned buoys.

The advantages of these buoys can be easily understood, for they not only furnish a fixed or flashing light that can be seen a distance of between six and eight miles, but operate in combination, and most successfully, a bell, thus affording a double protection to mariners. The buoys will burn continuously day and night, from three months to one year with one charge of gas, and may be rented for about fifty cents a day, including the cost of gas. Buoys of this type without the bell attachment are used very largely by all the civilized nations of the world, and are officially recommended. England has 236 service, France 228, the United States 134, Germany 98, Holland 60, Denmark 21, Egypt 112, Canada 46 and Italy 21.

KEEPING ANIMALS TOO LONG

It Indicates an Attachment for Them That One Is Loth to Break.

It is a very commendable and humanitarian sentiment to keep cattle too long, for it indicates an attachment for them that one is loth to break, and yet a farmer who is raising animals for his living cannot let sentiment interfere with what he knows to be good business. Others keep cattle too long simply because they happen to be ignorant of the best time to dispose of them, and they keep waiting for a better turn in the markets to help them get good returns. Sometimes this living in the hope of doing better later induces a farmer to carry his herd over from month to month, and before he knows it a year has slipped by. The animals are meantime eating up all the profits they ever would have made for their owners, and at the same time are passing the prime of life, when they sell at the best prices.

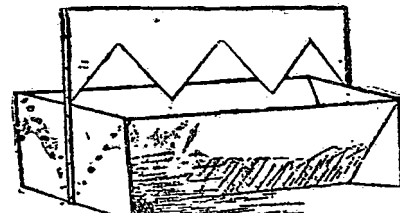

We cannot afford to keep cattle one day longer than the time they reach full maturity or prime of life. Up to this period they have been gaining in weight and flesh, and every pound of feed that has been given to them has made its corresponding amount of flesh. Liberal feeding of growing animals makes glad the heart of the farmer or breeder, but when the food ceases to exert its magic influence, then something seems to be wrong. The wrong is very often that the cattle have passed their prime, and all future feeding will merely tend to help them hold their weight. There is no further gain.

Prime cattle sold in the market means something more than fat and well-developed carcasses. It includes a certain tenderness and juiciness of meat which can be gained only through rapid growing and laying on of flesh. This result has been obtained by good feeding of good animals. If these animals had ceased to grow the meat would begin to lose much of its best virtues. It may not be an easy matter always to tell just when an animal has ceased to grow, or when it has reached its full prime, but it is more profitable to sell just before that period, and thus lose the few extra pounds she may have gained, than to hold her a few weeks beyond full maturity when she gains nothing in weight and loss in quality. Most of us are inclined to hold our cattle too long, and it may well be of value to some of us to look into the matter. Are we hampering ourselves by holding cattle over for higher markets when they should be sold at once, or are we selling them just as soon as they have reached their prime and are in the very best condition for the market?—E. P. Smith.

Sanitary Hog Trough.

Below we give a drawing of a hog trough intended to prevent hogs getting their feet into the trough while feeding. It has been used by the farmer who sent the drawing for years and he says it has proved very satisfactory.

The notched board must be high enough that the hogs cannot get their heads over it, and they will keep their feet out. Drive a stake down at each end of the trough and nail the

trough to the stakes. Then run the notched board lengthwise of the trough and nail to the stakes. This will do when you feed in one place all the time. If you want a movable trough make the end boards longer so that the trough will not upset, nail a solid strip to each end, long enough to nail the notched board to it. Do not let the notches come down lower than the top of the trough. This will give you clean troughs.

The November number of the *Review of Reviews* marks the culmination of the Presidential campaign of 1900. Its various departments, "The Progress of the World," "Record of Current Events," "Cartoons," and "Leading Articles of the Month," summarize the things worth remembering in connection with the political contests of the year in the United States, Canada, and Great Britain, while contributed articles describe in detail the campaign methods employed in Chicago, New York, and London, and the rudimentary party organization of Porto Rico. Its editorial treatment of current politics has given the *Review* a unique distinction among American magazines.

Ever since the conference at The Hague concluded its labors, the clash of arms has rung throughout the world incessantly, and many have seen in the events which have taken place recently in Africa and Asia convincing proof that the efforts of the friends of universal peace have accomplished nothing. Baroness Bertha von Suttner in an article in the November number of the *North American Review*, entitled "Present Status and Prospects of the Peace Movement," explains why she draws a very different conclusion from the signs of the times. As to the Boer war, the civilized world has condemned it, and even in England itself are multitudes who deplore the action of the English Government; and these are facts which seem to indicate that the principles of peace have begun to find a place in the conscience of the people. As to the Chinese war, it affords a convincing illustration of the fact that the nations can subordinate petty interests to a great common purpose, and it shows also how, when war is abolished as between the Christian powers, law and order can be maintained by means of armed forces which will exist simply to perform the duties of international police.

Stories in the Youth's Companion.

In the 52 issues of the year the *Youth's Companion* publishes more than 200 stories, yet so carefully are they selected that they prove inexhaustible in variety, unending in the power to delight. The stories already in hand for the *Companion's* 1901 volume show that this feature of the paper will be as strong as ever.

Among the groups of stories will be one of "Old Settlers' Day Tales," stories actually told at some of the gatherings of pioneers in the West. There will four stirring "Tales of our Inland Seas," picturing the adventures of the sailors on the Great Lakes; and there will also be four "True Tales from the Zoo's" told by famous keepers and trainers of wild beasts. And this is only a beginning. We shall be glad to send Illustrated Announcement of the volume for 1901 with sample copies of the paper free to any address.

All new subscribers will receive the *Companion* for the remaining weeks of 1900 free from the time of subscription, and then for a full year, 52 weeks, to January 1, 1902; also the *Companion's* new Calendar for 1901, suitable as an ornament for the prettiest room in the house.

THE YOUTH'S COMPANION,
Boston, Mass.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

ALL FARM PRODUCTS.

A SPLENDID EXHIBIT TO BE MADE AT
BUFFALO'S GREAT EXPOSITION.

Opportunities Will Be Offered For
The Study of Object Lessons In
Many Important Arts and Sciences.

Thousands of men, representing every degree of skill, are fast bringing into existence the great Pan-American Exposition, which shall next year turn the footsteps of half the nation toward Buffalo. Never was an Exposition projected amid such promising and favorable surroundings and conditions. With the best known natural wonder of the world—the stupendous and majestic falls of Niagara—within half an hour's ride of the Exposition grounds and the greatest electric power plants in the world using the power of these famous cataracts, truly magnets of irresistible force, to help draw the crowds from all directions, Buffalo looks to an unparalleled success in next year's enterprise.

In six important particulars the Pan-American Exposition will outstrip all former undertakings of this description. These are in the electrical effects, in the hydraulic and fountain effects, in horticultural and floral decorations, in the variety and splendor of

sence of it at the proper season have been the causes of serious loss and discouragement to growers.

The value of various byproducts for food for live stock will be shown in exhibits of gluten meal, linseed meal, cottonseed meal, hominy meal and other prepared foods.

The display of grasses and forage will include all varieties, the purpose being to show the ones best adapted for farm uses with reference to particular soils and conditions. The proper mixture of seed for permanent pastures, meadows, lawns, etc., will be explained.

The display of vegetable fibers will include flax, jute, hemp, cotton and

In tubers and root crops will be displays of beets, turnips, carrots, peanuts, potatoes, sugar beets, parsnips, onions, etc. In October a special potato display will be made showing the products of many states in comparison with one another. Farmers who are interested in the production of sugar beets will have an invaluable opportunity to learn about the wonderful development of this particular vegetable.

A special display will be made of sugar beets, showing all varieties and making clear to every one the conditions under which they thrive best, including both soil and atmosphere. The necessity of abundant sunshine in the maturing of sugar beets and the ab-

A FINE HORSE SHOW.

PLANNED TO PLEASE THE VISITORS TO
THE PAN-AMERICAN EXPOSITION.

A Field Day For the Fashionables.
Exhibits of Horses of All Breeds,
The Interest of Leading Breeders
and Associations Enlisted.

A Horse Show of the fashionable kind, with all the embellishments that society can bestow upon it, will be one of the features of the Pan-American Exposition at Buffalo next year.

It is planned upon the lines observed in those well known society events of a like nature held annually in Madison Square Garden, New York city. Metropolitan society is regularly thrown into a flutter of excitement as the time approaches each season for these picturesque events, and the great Garden takes on a festive air that is not rivaled again throughout the year.

Society then shines resplendent. Popular conversation is upon the comparative merits of favorite animals. The decorations of the person and of the building and the attire of devotees suggest the horse. The newspapers talk horse and the whole metropolis pays homage to the high bred animals

view of producing large standard bred horses with the most admirable results.

Another feature will be an exhibit of horses adapted for cavalry purposes. The extraordinary demand for cavalry horses within the last few years has brought to the attention of breeders the wisdom of producing a type of animals having the qualities that the cavalry service requires. Not only has the demand been very large for the United States army, but foreign buyers have frequented the American markets and purchased many animals for the armies of other countries. Several large breeding establishments are already turning their attention to the raising of cavalry horses. With the great number of horses that will be brought together at the Pan-American Exposition the visitor will have an opportunity seldom equaled to make a particular study of this line of breeding.

Superintendent Converse is in correspondence with the entire 28 National Associations whose members are engaged in sheep breeding and wool growing. He reports that every association, without exception, is much interested in the Pan-American Exposition and that it will contribute exhibits to the show which will take place in September.

A strong feature of the sheep exhibit will be in the middle wool class, in which mutton is the first consideration and wool secondary. This class includes Shropshires, Oxford, Southdowns and like breeds. The exhibits of these breeds will be exceptionally large. The classification of sheep includes some 14 breeds. Some of them are new to America, such as Tunis, Suffolk and the Highland Black Face. These new breeds will be particularly interesting on account of their novelty. The Highland Black Face is a well known breed in Scotland, but in America there are comparatively few flocks.

Wool growing is carried on in nearly every part of the United States, the business being particularly adapted to rough and mountainous districts where the steep hillsides and mountain pastures can be utilized. The exhibit of sheep will therefore come from nearly every state in the Union and will include about 1,500 of the finest bred animals. The exhibits of imported sheep will be made only by American breeders, the rules requiring that the stock shall have been in the possession of exhibitors at least 60 days before the date of the entry.

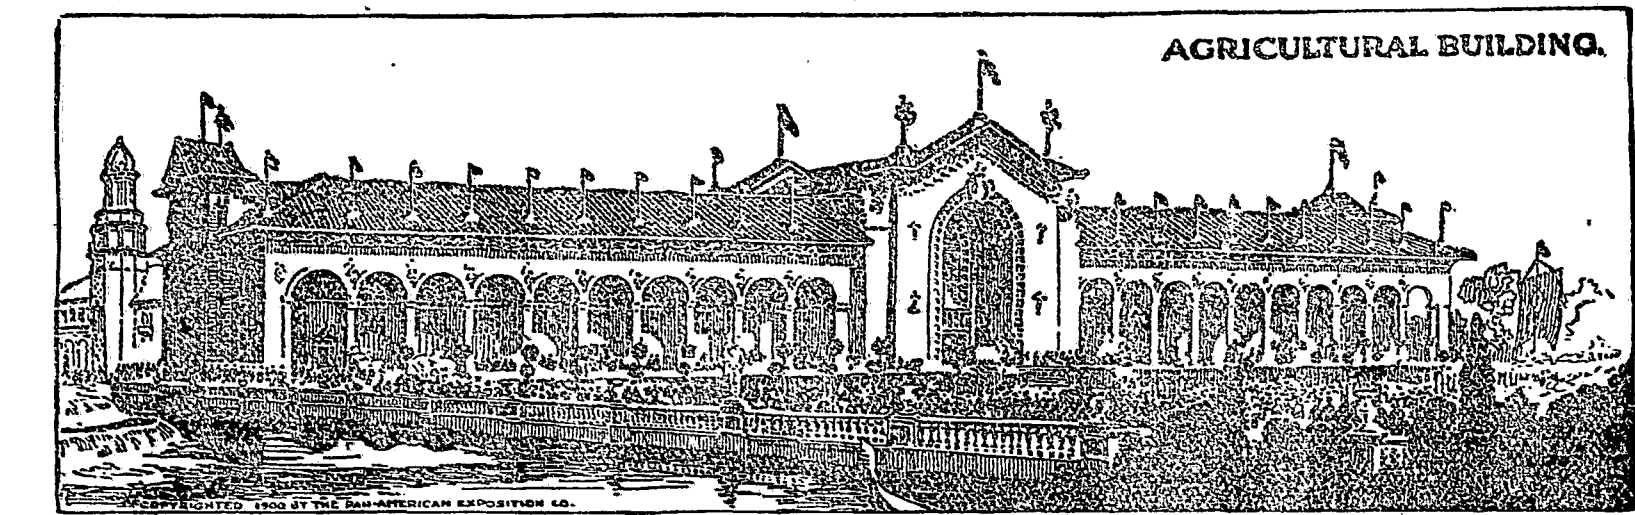

The display of swine to be made in the latter part of September will include representatives of 12 breeds. Among these will be the new breeds known as Suffolks, Victorias and Tamworths. The Tamworth stock is bred to some extent in Canada, but is practically unknown in the United States. While swine growing on an extensive scale has been confined largely to the corn belt, it is becoming a profitable industry among dairymen. It is particularly so in connection with cheese making, the byproducts furnishing an economic and suitable food for swine.

A special exhibit will be made of breeds adapted for the production of bacon. The secret of "fattening hogs lean" is the one that swine growers are striving to learn, and this exhibit will be judged with special reference to their bacon producing qualities. It is expected that not less than 1,500 animals will be shown in the exhibit of swine.

FOR THE GRANGERS.

A Headquarters For Patrons of Husbandry at the Buffalo Exposition.

The Executive Committee of the New York State Grange visited Buffalo recently to make such arrangements as might be possible for a Headquarters for the Order upon the Pan-American Exposition grounds, the New York State Grange feeling itself to be occupying in a measure the position of host toward the members of the Grange throughout the United States who might visit the Exposition. In addition

AGRICULTURAL BUILDING.

its statuary, in color decorations and in the court settings. The highest skill has been employed in developing these features, and no pains will be spared to bring them to a degree of perfection never before achieved.

A large number of the most noted sculptors of America are engaged upon the models for the magnificent decorative display of original sculpture. About 125 groups of statuary will be employed in the ornamentation of buildings and grounds, aside from numberless small sculptures, such as heads, floral pieces, medallions, arabesques and work in relief upon all buildings and architectural works.

Among the 20 or more great buildings which will shelter the multitude of exhibits to be brought together for the entertainment and education of the public next year the Agriculture building ranks among the largest. This is situated on the north side of the Mall, opposite the Manufactures building and east of the huge Electric Tower, which is to be the centerpiece of electric illumination.

The Agriculture building is 500 feet long by 150 wide. It is very ornamental in its exterior aspect, having broad, high entrances richly adorned with appropriate plastic work. The southern facade is characterized by an open loggia which forms an attractive resting place or promenade from which the crowds upon the Mall may be observed. The roof of red tile, with broad overhanging eaves, will harmonize with the softer tints of the exterior walls. The broad cornice is to be particularly rich in its decorative detail.

The exhibit in the Agriculture building will embrace every possible phase of agricultural work, showing the advantages of different processes and methods of work and the products of the garden and field in their great variety, produced under all sorts of conditions.

The superintendent of this division is Mr. Frank A. Converse of Woodville, N. Y., a stock grower and farmer of thorough experience in Exposition work, who has been prominent in farmers' institute work on behalf of the New York state department of agriculture. Mr. Converse is receiving the cooperation of many prominent associations and individuals, and his correspondence at this early date indicates a most comprehensive exhibit of scientific farming in all its branches.

Under the classification of agricultural systems will be shown methods of fertilization, including the use of cover crops, commercial fertilizers, crop rotation, systems of sowing, with bulletins, statistics, addresses and exhibitions of crops raised by the use of particular fertilizers.

Under the classification of farm management and processes the different systems will be illustrated with the view of assisting farmers to determine whether it is best to keep a variety of stock or a particular breed and, if but one kind, which shall be favored.

The question of farm help and the different specialties in the way of fruit, grain and truck farming will be treated exhaustively. The experience of a large number of farmers under many conditions of the soil, climate, etc., will be brought together for the information of all who wish to learn.

Under the classification of agricultural statistics will be presented reports from different states and provinces issued by the departments of agriculture, experimental stations, various horticultural, live stock and dairying associations, showing the aggregate of crops and products of all kinds.

Under the head of cereals will be exhibits from different states and localities, wheat, rye, oats, barley, corn, buckwheat and rice. The exhibits will be arranged to prove which crop is best fitted for each state or locality. These exhibits will show the many varieties of cereals in their highest stage of development.

their different products. The fibers of animal origin will include hides, hair, wool, silk and the processes of preparing them for market.

Among the nonedible products of animal origin to be exhibited are glue, gelatin, stearin, wax, candles, bone and horn products, fertilizers, etc.

The question of fertilizers is always an important one to those who seek to obtain the best results from the soil. In the treatment of this subject the Division of Agriculture will endeavor to show the relative value of the natural fertilizers, both crude and compounded. It will bring to the information of all the sources and value of nitrogen compounds, guano, offal, phosphatic rocks, potash, nitrates, etc.

As a sort of catch all for many things impossible to classify satisfactorily the superintendent has set apart a separate class.

MARK BENNETT.

GREAT FOOD EXHIBIT.

A Comprehensive Display From Pan-American Countries at Buffalo.

In the division of Foods and their accessories an exhibit will be made at the Pan-American Exposition at Buffalo of a most comprehensive character and covering one-quarter of the large area of the Manufactures and Liberal Arts building.

The division will bring to the attention of the consumers and tradesmen the food resources of Pan-America, showing them that the countries of the western hemisphere produce, and are capable of producing in quantities sufficient for all demands, a great variety of foods that are now imported from the islands and countries of the far East.

It is hoped thus greatly to stimulate Pan-American trade. The division will present a collection of food products and their accessories in such a way as to challenge the interest of every inquiring visitor, and he will be offered valuable instruction upon the nature, origin and use of the various foods.

One group will relate to literature and statistics of food, live plants, vines and trees from all parts of the western world and miscellaneous specimens of trunks, limbs, leaves, seeds, grasses and grains.

Under another will be exhibited such products as coffees, teas, cocoas, chocolates, kola and their substitutes, spices, aromatics, mustards, olives, vinegars and other condiments, herbs, hops, essential oils and flavoring extracts. An interesting collection of confectionery and sweets, including the sugar cane, beet, sorghum, maple, grape, palm, etc., honey and glucose, will be exhibited. Preserves and kindred products will be shown under another group and nuts and dried fruits and vegetables, etc., under another. Prepared cereals, breads and crackers.

Indian corn as food for the table, macaroni and preparations of paste and leavening preparations will constitute still another interesting group. Mineral waters and beverages, both alcoholic and nonalcoholic, preserved and packed meats and sea food, gelatin preparations and even machinery used in food preparation processes will be displayed. The food exhibit is under the supervision of Mr. G. Edward Fuller an expert of worldwide reputation in this line of work, who has traveled around the world and into many of its remote corners in search of information upon the subject of foods.

Preparing the Kansas Exhibit.

Kansas is preparing a grand display of fruits and other products for the Pan-American Exposition. Kansas is popularly looked upon only as a great corn state, but her possibilities in all round farming, stock raising and fruit and vegetable growing are to be shown by means of splendid object lessons in her exhibits at Buffalo next year.

whose proud pedigrees become as familiar as the biographies of statesmen at election time.

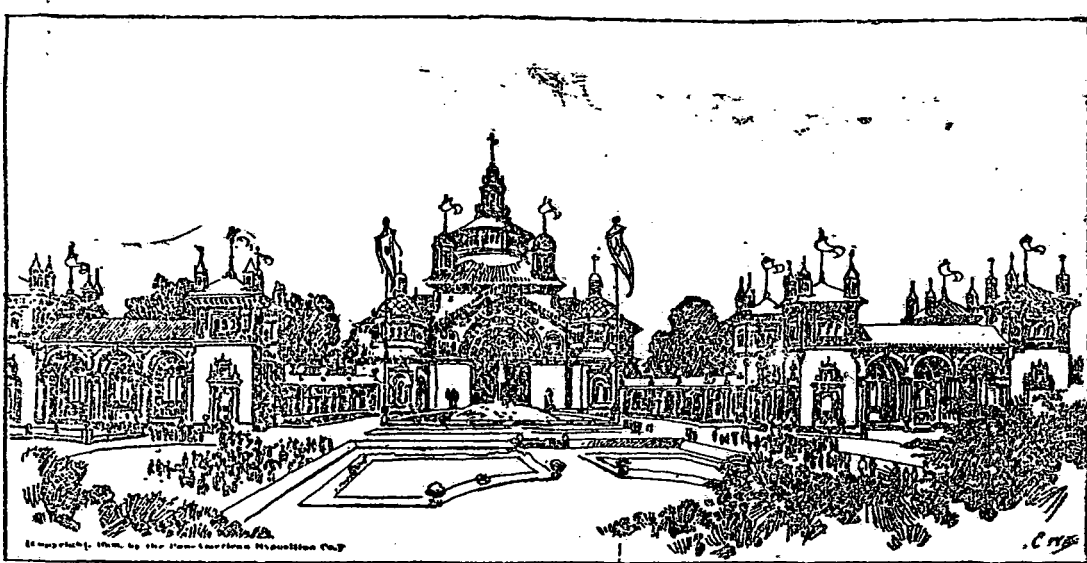

It is expected to make the great horse show to be held in the fall of next year at this Exposition quite as spectacular and interesting as those held in New York. On this occasion the finest bred animals of the Americas will be brought together to compete for honors and the favor of the public.

The show will be held in the Stadium, which is to be the great show place of the Exposition, having seats for more than 10,000 and a track a quarter of a mile in circumference. While a general display of horses will be made at this show, of particular interest will be the animals adapted to the uses of fashionable society, such as saddle horses and ponies, tandem drivers, hunters, jumpers, polo ponies, coupe and coach horses, four-in-hands, trotters and runners. The show will include many costly equipages and novel turnouts that are used with the finely bred animals that will be brought forward to delight the public eye.

Superintendent F. A. Converse of the Live Stock division has planned to accommodate 1,000 horses in the exhibit of American bred animals. The breeds that will be recognized are Standardbred, Thoroughbred, French coach, French trotters, Cleveland bay, Oldenburg, etc., Belgian, Hackney, Morgan, Arabs, Percheron, Clydesdale, English shire, French draft, Suffolk, Punch, Shetland ponies, Jacks and Jennets.

This will be the occasion for bringing together the finest animals bred on the western continent. While the trolley car and the automobile have relieved the horse of much of his drudgery, he continues to occupy a distinctive field of work in the general economy. The tendency of the times, too, is to produce better animals.

The cheap car horse has to a large extent gone out, and scientific breed-

HORTICULTURAL, GRAPHIC ARTS, FORESTRY AND MINES BUILDINGS, PAN-AMERICAN EXPOSITION.

ing is replacing the common stock with horses of higher intelligence and efficiency. The experience of many breeders during the introduction of the trolley car and the flooding of the market with cheap horses was discouraging, and a large number turned their attention to other lines of work.

The situation, however, is considerably improved, and prices are again more nearly what they should be. The interest in breeding is regulated by the pecuniary reward, and the improved demand lends a new attractiveness to the breeding and training of horses. The demand for horses in cities continues brisk, particularly for draft animals such as the Clydesdale and the Percheron, and for gentlemen's driving and coach horses.

The Live Stock division of the Pan-American Exposition will offer to breeders an opportunity to place before the public high bred, stylish, good acting horses with a view of showing what particular crosses are advantageous in producing such animals. Experiments have been made with a

tion to this the New York State Grange alone comprises a membership of 60,000, so that the convenience and comfort of the members of the Order in the State of New York alone were deemed worthy of careful attention on the part of the Executive Committee of the Grange.

The Director General stated to the Executive Committee that an effort would be made on his part to bring about some arrangement that might be satisfactory to the Grange, so that it may be taken for granted that a Headquarters for the National Grange upon the Exposition grounds will be provided for in some manner. This will be very pleasant news to all members of the Grange.

Exhibit of Fences.

A display of interest to every progressive farmer at the Pan-American Exposition will be the variety and methods of farm fencing. Barring the old stump fencing of pioneer days and the stone walls of New England, a great variety of fences will be shown,

LOCAL NOTES

A pension has been granted Mrs. Antonette McClave of Benton Harbor.

Mr. G. H. Parkinson has had the front of his store finely painted in black and silver.

Mr. Geo. H. Black has begun the erection of a fine two story frame factory on his property on Portage street.

Master Lyle Kingery of Moccasin Avenue is the envy of his playmates, as his father has just given him a pet goat.

Messrs A. Jones & Co. have announced a watch and clock sale for next Saturday, Nov. 10. Be sure and take it in.

Messrs B. R. Desenberg & Bro. are holding their Annual Cloak Sale to day and are showing a fine line of cloaks and wraps for fall and winter.

Now is a good time to join our Magazine Club, and secure your winter reading for a nominal sum. Call at the Record office and learn particulars.

The Republicans closed their campaign with a Rally at the Opera House, Monday evening, Mr. Charles N. Sears delivering a fine address to a crowded house.

The Epworth League held a very enjoyable social at the home of Mr. W. F. Runner Monday evening. Refreshments were served after a fine programme and a large number were present.

The Lee Bros. & Co's bank at Buchanan was closed Monday, and the Axle Works of Lee & Porter were shut down Saturday and Monday, on account of the death of Mrs. Kate Beckwith Lee.

The friends of Mr. Sig Desenberg welcomed that gentleman and his estimable bride, on Monday evening with a good old fashioned "belling" beginning about ten o'clock and lasting several hours.

The Ladies Society of the Jeffersonville, Ind. Christian Church, recently gave their Pastor Rev. E. R. Black and his estimable wife a surprise and brought with them a most elegant and costly set of dishes of 115 pieces.

Mr. J. E. Phillips of Dayton made the Record office a pleasant call Saturday and brought us a bunch of apple blossoms which he picked from his trees on his way to town. The blossoms are perfect and very fragrant.

Mr. LeRoy A. Wilson of Benton Harbor, the democratic candidate for Prosecuting Attorney addressed a fair sized crowd at the Hotel Lee corner last Saturday. Mr. Wilson gave a nice talk but the Republicans got the votes on Tuesday.

A number of Buchanan ladies organized a "Spook Club" a year ago and last week Wednesday evening celebrated the anniversary of the organization meeting at the home of Mrs. Alice Rose for that purpose. The decorations were appropriate, and a very enjoyable evening was passed.

Regular meeting of East Hive No. 19 Tuesday Nov. 13. Commence promptly at 7 o'clock.

Buchanan Lodge No. 68 F. & A. M. held their regular meeting on Monday evening conferring the E. A. degree on one candidate.

The Monday Literary Club held their regular meeting on Monday with Mrs. Jno. Graham. The program as printed was carried out. The next meeting will be held with Mrs. C. D. Kent.

Our citizens were greatly surprised this morning upon awakening, to find the ground covered with a heavy fall of snow, making every one hustle around to get their snow shovels out, and their coal stoves up.

Miss Flossie Bunker entertained a number of her friends last Thursday evening on the occasion of her sixteenth birthday. Progressive crokinole and other games were played, and refreshments served. The hostess was the recipient of many pretty gifts including a fine watch and chain from her father.

The Board of Directors of the Berrien Co. Farmers Mutual Fire Insurance Co. held a two days meeting, Friday and Saturday of last week. A large number of the board were present. Friday was devoted to the revision of the by laws, and Saturday was devoted to the consideration of applications, over one hundred thousand dollars worth being approved.

Last Sunday evening at the Christian church Rev. John S. Merrick delivered an interesting address on the work of the American Peace Society of Boston. Mr. Merrick is a Methodist clergyman who has been traveling for the past seven years in the Northwest in the interest of this movement and is an earnest exponent of the plans and aims of the organization.

W. S. Martin came home last week. Saturday he received notice of his appointment to the railway mail service between New York and Chicago. His run will probably be from Chicago to Cleveland although it may be farther east. As this route, over the L. S. & M. S. is regarded one of the most desirable in the postal service, he naturally feels somewhat elated. Berrien Springs Era.

The 30 club held a special meeting with Mrs. E. S. Roe, last evening about forty being present. A musical program was rendered the numbers being filled by Mrs. E. S. Dodd, Miss Clara Hubbell and the Ladies Quartette. Clay pipes and two kinds of paper were then distributed and prizes were awarded for the one making the best doll. Mrs. Dr. L. E. Peck won the first prize and Miss Minnie Shaffer the booby prize. A singing contest closed the program.

The Buchanan Improvement Association held a meeting at the office of W. A. Palmer Monday afternoon, to consider the proposition submitted by the A. H. Andrews Co. of Chicago. A committee consisting of Messrs W. A. Palmer, E. S. Roe, and M. S. Mead to confer with Messrs Chapin and Lee and a committee consisting of B. R. Desenberg, Geo. H. Black, and John Parrott was appointed to ascertain the probable cost of the repairs asked for by the company.

CHURCH NOTES.

Elder Paton will preach in the Larger Hope church in this village next Sunday at 10:30 a. m. and 3:00 p. m. Special subjects of interest will be considered. Come and bring a friend with you.

METHODIST.

The Pastor W. J. Douglass, will preach Sunday morning and evening. A growing interest is manifest in the services. Everybody welcome. Sunday School at 12 all who are not attending any other school are cordially invited to become members of our school. The Epworth League devotional meeting will be held Sunday evening at 5:45 o'clock. Subject "Decision for Christ." Ref. Luke 14, 25, 33. Leader Charlie Dumbolton.

Letters Unclaimed.

Letters unclaimed remaining in P. O. at Buchanan Mich., for week ending Nov. 6, 1900. Mr. John Edwards (2) Mrs. C. E. Koenigsh, Miss Elnore Pamsh. Postal Cards, James Simpson, Chas. Conrad, Edward Sherman.

G. W. NOBLE.

See the fine line of pattern hats at Mrs. Parkinson's Millinery Store.

OBITUARY.

FLOYD MITTAN was born near Buchanan Nov. 12, 1885, age 14 years, 11 months and 21 days and died at his home Nov. 2, 1900 with typhoid fever. He leaves a father and mother eight brothers and a large host of friends to mourn his departure. The funeral was held at the house, Rev. Thomson of the Christian church officiating. His sister died about four weeks ago with the same disease.

KATE BECKWITH LEE, wife of Fred E. Lee, of Dowagiac, passed away last Friday evening after a protracted illness of several months. She was well and favorably known throughout the state. She was past supreme commander of the international congress, also a member of the board of international conference of corrections and charities, and a member of the board of the Michigan Children's Home of St. Joseph. She established and maintained at her own expense the first kindergarten school in Dowagiac and her very generous nature made her a warm friend of those in need, her carriage making annual visits on the poor at Thanksgiving and Christmas time.

She was the last surviving member of her father's the late Philo D. Beckwith's family. She leaves besides her husband, a bright little girl of 13 years. She spent much time in travel abroad and in her own country. The deceased was 41 years of age.

MRS. MARY REICHENBACH.

Mrs. Reichenbach was born May, 14 1846 in Schuylkill Co., Pa. and departed this life, Nov. 2.

To her first husband Peter Cline two daughters were born, who survive her. About three years after their marriage her husband was removed by death. Feb. 4, 1874, she married John Reichenbach who with the two daughters remain to mourn her departure.

About fourteen years ago under the labors of J. A. Frye she was converted, and united with the Evangelical Association of Portage Prairie, of which she remained a member until death took her from labor to her reward. The funeral services were held in Zion Evangelical church, and were conducted by her pastor Rev. Warren Brown.

Lecture!

The people of this place and vicinity will miss a rare treat if they fail to avail themselves of the opportunity of hearing Prin. W. N. Ferris, of Ferris Institute, lecture on the subject of "Making the World Better." Prin. Ferris has been before the public for many years as a speaker, having lectured in nearly every city, and village of prominence in Michigan. His statements sparkling with wit and humor combined with his strong personality never fail to interest his audience and invite favorable comment for weeks afterward.

At Rough's Opera House, Dec. 7. Remember date and place.

Annual Report of State Board of Health, 1898, to be had.

The usual distribution of the copies of the 1898 annual report of the Secretary to the State Board of Health has been made; and there are copies of that report which might be sent to those who are "interested in or laboring for the promotion of the public health," provided a request is made to the Secretary of the state Board at Lansing, for a single copy, and sixteen cents in stamps are sent with which to prepay the postage. The report for 1899 will soon be distributed to the health officials.

I have added a line of Perfumes and ladies toilet articles in connection with my Millinery stock. Please call and test the Perfumery.

MRS. G. H. PARKINSON.

Salt Lake, Nov. 7.—It is estimated the Republicans have carried Utah by 4,000 majority for both the presidential and state tickets. Incomplete returns from sixteen out of twenty-seven counties in the state give McKinley 22,240; Bryan, 20,463.

Georgia.

Atlanta, Nov. 7.—Returns from every district in this state show that two counties are Republican, Coffee and Liberty. The state gives Bryan a plurality of 40,000. Every Democratic congressman was elected.

Tennessee Returns.

Nashville, Nov. 7.—The plurality for Bryan in Tennessee is estimated at the headquarters of the Democratic state committee at 30,000, and it is claimed that the majority for Millan, Dem., over McCall, Rep. for governor, is about the same. The Democrats have elected eight and the Republicans two congressmen. The legislature will be largely Democratic.

Connecticut.

New Haven, Conn., Nov. 7.—The revised election returns for Connecticut, with every town and district in the state heard from, gives the state to McKinley by a plurality of 28,415. The Republican state ticket, headed by George P. McLean for governor, is elected by a plurality of 14,340. All four Republican congressmen are re-elected.

California Is Republican.

San Francisco, Nov. 7.—It will be several days before the complete result in California will be known. Enough of the vote is in, however, to show that McKinley's plurality will be at least 20,000, and that all seven Republican congressmen have been elected. The only doubtful district is the Second, where Sprout (Dem.) may beat Woods' lead so far. The count of the vote in San Francisco will not be finished until noon.

McKinley Carries Oregon.

Portland, Ore., Nov. 7.—One hundred and seventy-one precincts in Washington out of 1,537, give McKinley 8,771; Bryan, 8,582. For governor, Frink, Rep., 7,355; Rogers, Dem., 7,173. Returns show that although McKinley will carry the state of Washington by 6,000 to 8,000 Rogers will probably be elected governor by a small plurality. Cushman and Jones, Rep., are elected to congress.

Bryan Wins in Nevada.

Reno, Nev. Nov. 7.—Bryan's majority in the state will be considerably increased over first figures. Where the state returns are all in his majority will not fall far short from 1,500, while Newlands, Democrat for congress, will carry the state by not far from 2,000. The Democrats elected R. D. Jackson state senator from Washoe county. Senatorship in Humboldt county still in doubt.

Washington Returns Incomplete.

Seattle, Wash., Nov. 7.—Returns received are so incomplete as to make close figures impossible. That McKinley has carried the state by a good majority there is no doubt. Both parties claim the state, and it will take the day's count to decide. It is believed Cushman and Jones, Republicans, for congress, have been elected.

Arkansas.

Little Rock, Ark., Nov. 7.—Bryan has carried 73 of the 75 counties in Arkansas by averaging pluralities of 800 and gets the state by about 55,000. Back county returns may slightly increase these figures. The vote is turning out smaller than expected.

Republicans Carry West Virginia.

Charleston, W. Va., Nov. 7.—Both state committees have ceased to receive returns but it is conceded that the Republicans have carried the state. The Republicans claim 15,000 plurality. The legislature will be Republican on joint ballot by 8 or 10.

New Hampshire.

Manchester, Nov. 7.—The Republican majority in the state on both the gubernatorial and national tickets will be 18,000. Every county was carried by the Republicans. The legislature is Republican by a slightly larger majority than two years ago.

Ready For Fall Trade.

My line of Ladies' Shoes is complete. Julia Marlow's, Youngs' foot forms, turns and welts. There are shoes and shoes but there are no better shoes to be had than I carry in stock.

RUBBER GOODS, SCHOOL SHOES

That will hold. Boys' full double soles. Misses and Children's shoes that will keep the feet dry. School Suits for all the Boys.

GEO. W. NOBLE

Auction Sales

As I have completed my contract with the Champion Harvester Company for the season of 1900. I will be at home the balance of the year and will hold myself in readiness to do any and all kinds of auction work. Farmers contemplating making a public sale will find it to their interest to call on me before getting out sale bills. In my absence make arrangements with John C. Wenger.
