SHIPYARD MEN STRIKE

Newport News Company Loses All Its Skilled Mechanics in the Machine Shops.

NEW YORK FIRM "FIRES" STRIKERS

Chicago Machinists Get Out Their Pickets in Regular Military Style—Convention Meets.

Newport News, Va., June 4.—The machinists in the employ of the Newport News Shipbuilding and Dry Dock company to the number of 500—which virtually includes all the skilled mechanics in the machine department—went on strike yesterday morning, their demands for a shorter working day having been refused by Superintendent Post. The yard will continue in operation until the absence of the machinists interferes with the work in hand. Superintendent Post says the yard does not contemplate taking any action whatever; that the company will not admit of any interference with the management of its business, and will not arbitrate any question with the men on strike. A number of the strikers have already left, and others are preparing to leave the city.

All strikers were discharged. New York, June 4.—There was a partial resumption of work at the shops of the Crocker-Wheeler Electric company in Amper, N. J., yesterday, the company having secured some non-union men to take the places of strikers. President Wheeler said that places would be found for any of the old hands who wished to return at the former rate of wages and hours of work. There was a big crowd of strikers at the works, but they made no attempt to interfere with any man that desired to pass into the works. The company's first step when the men struck was to discharge every man who refused to abandon the strike. The next was to arrange for the employment of a force of non-union workmen. The new employees, 150 strong, including a number of students who have been studying electrical engineering at Columbia college, are said to be encamped inside the works. It is known that the company has built a kitchen and has placed 150 cots in the shops.

Machinists in Annual Convention. Toronto, Ont., June 4.—The annual convention of the International Association of Machinists opened here yesterday. About 200 delegates were present. In his annual address President O'Connell showed that during his term the executive had approved of sixty-six strikes, involving 9,650 machinists, of which forty-one were won, ten settled on compromise and ten lost. Regarding piece work, the address recommends either to accept it on condition that the employer will unionize his shop, or to declare war against the entire system.

STATE OF THINGS AT CHICAGO. No Negotiations With the Strikers Until the Big Employers Meet. Chicago, June 4.—The manufacturers and the 1,600 machinists who have struck have apparently settled down for a siege. The strikers put out pickets in military fashion, but so far as known no attempts were made to engage non-union men. The pickets are divided into companies, and these subdivided into squads, under the command respectively of captains and sergeants. At stated intervals each squad is relieved by another.

There will be no settlement of the machinists' strike in Chicago until after June 11. This was the decision of the local manufacturers yesterday afternoon when the members of the Chicago Association of Machinery Manufacturers pledged allegiance to the National Metal Trades association and agreed not to enter into negotiations with any of their employes until after the great gathering of employers in New York city on June 11.

While the manufacturers were discussing their future action the machinists were not idle, a number of machinists leaving the three plants of the Crane company to join the strikers. Statements differ as to the number of men who left the Crane plant. Assistant Business Agent Ireland, of the machinists, insisting that nearly 175 men quit work, while Secretary J. B. Murphy, for the company, said that not more than sixteen or seventeen men quit.

Besides the men in the Crane plants eighty workmen struck in three other places, while agreements, according to Ireland, of the machinists were signed with five firms whose names will be given out later.

Patrolman Arrests His Brother. Alpena, Mich., May 31.—Patrolman Charles Clifford arrested his brother, William Clifford, for bicycling on the sidewalk. He was found guilty, and the patrolman took him to jail to serve a ten-days' sentence.

Failure of a Furniture Combine. Grand Rapids, Mich., May 31.—The consolidation of the leading Grand Rapids furniture factories, which Charles R. Flint of New York, has been promoting, has practically fallen through.

Fatal Accident at Grand Rapids. Grand Rapids, Mich., June 4.—Ernest Commons, aged 22 years, of Clarksville, was struck by a street car while chasing his hat, and so badly injured that he died in a short time.

BILLION DOLLAR FEATURE

Attached to the Marriage of Mrs. John Vinton Dahlgren.

New York, June 4.—Mrs. John Vinton Dahlgren was married yesterday to Harry Lehr, a well-known New York society man.

MRS. HARRY LEHR.

The ceremony took place in St. Patrick's (Roman Catholic) cathedral.

The combined fortunes of the six men who acted as ushers is estimated at \$1,000,000,000. The men who performed this service for the bride and groom were Clarence Mackey, W. K. Vanderbilt, Jr., George Gould, O. H. Belmont, Thomas Wanamaker and John Jacob Astor.

Lehr comes of a prominent Baltimore family and has been known in this city less than four years. Mrs. Dahlgren is the second daughter of the late Joseph Drexel, of Philadelphia.

PROCLAIMS HIMSELF THE REINCARNATION OF THE PROPHET ELIJAH.

Chicago, June 4.—It is now "Elijah III." and no longer "Dr." John Alexander Dowie, the banker and real estate promoter. Surrounded by thousands of his followers and curiosity seekers, he publicly proclaimed himself to be the reincarnation of Elijah.

"I am Elijah, the prophet, who appeared first as Elijah—myself, second as John the Baptist, and who now comes in me, the restorer of all things," he declared in the Auditorium.

"Elijah was a prophet and John was a preacher, but I combine in myself the attributes of prophet, priest and ruler over men. Gaze on me, then; I say it without fear. Make the most of it, you wretches in ecclesiastical garb, and you, you huns of hell, you agents and vipers of the press. I am he that is the living physical and spiritual embodiment of Elijah, and my coming on earth a third time has been prophesied by Malachi, by God, by His son, Jesus, by Peter and, 3,000 years ago, by Moses. You who believe me in the very truth of this and accept me for what I say I am, stand up."

Then two-thirds of the audience which had crowded into the Auditorium in the afternoon and had sat still for almost three hours waiting for this climax to the volley of vituperation and rantings of the "healer" stood up. All who stood did not sit down again, however. Hundreds when they got onto their feet and over their amazement walked out into the outside air.

SEVEN YOUNG PEOPLE DROWNED.

Philadelphia, May 31.—A rowboat containing a merry party of eight young persons was swept over Flat Rock dam in the Schuylkill river yesterday afternoon, and seven of them—five girls and two boys—were drowned. The victims, all of whom were Philadelphians, were: Florence Demore, aged 19; Roy Ricker, 18; Mazie Kennedy, 18; Maud Rutter, 19; Maudie Sullivan, 21; Florence Bond, 21; Bertram Osmond, 19. The young man saved is John Moore, aged 21.

CAPT. H. W. HOWGATE DEAD.

Washington, June 3.—Captain Henry W. Howgate, formerly signal officer in the United States army, died suddenly Saturday afternoon of cerebral hemorrhage, at his home in this city. He was 67 years old. A woman wrecked his life. For her he stole government money and served in the penitentiary. Another woman—his daughter—was his good angel—faithful to the end.

STRIKE NOT DECLARED OFF.

New York, June 4.—The expectation of the strikers that the strike on the rapid transit tunnel would be declared off last night was not realized. There was a hitch that has got to be overcome.

BIG FIRE AT MATTOON, ILL.

Mattoon, Ill., June 4.—The worst conflagration Mattoon has known in years broke out on McKinley avenue at 9.30 a. m. The large plant of the Arthur Jordan Poultry company has been totally destroyed and the Kingsolver and Duncan warehouses and several dwellings were also destroyed. Most of the aristocratic residence portion of the city is in jeopardy. It is feared the Legg poultry house and Mattoon Refrigerating plant will go. The loss thus far is about \$50,000.

DROPPED DEAD IN THE STREET.

Dayton, O., June 4.—Captain Robert Patterson, a brother of John H. Patterson, president of the National Cash Register company, and father of the manager of that institution, dropped dead of heart failure on the street here. The deceased was 55 years old and a stockholder in the company.

NO EXTRA SESSION OF CONGRESS.

Washington, June 4.—The cabinet has decided that no necessity exists for an extra session of congress.

EIGHT MINERS KILLED

Terrible Accident Occurs in the Chapin Mine at Iron Mountain, Mich.

THIRTY CHILDREN FATHERLESS

All the Men in That Part of the Mine Where the Explosion Occurred Were Killed.

Iron Mountain, Mich., June 4.—Eight men were killed at the seventh level of the Ludington shaft, Chapin mine, at 2 o'clock in the morning by an explosion and suffocation from the fumes of burning powder. All the men in that part of the mine are dead, so the exact cause of the burning of the powder cannot be determined. All the men but one were married.

THE LIST OF VICTIMS.

Following is a list of the victims: Antonio Farnetti, John Amone, Joseph Passiri, John Milano, Louis Tassi, John Bertelli, Rinaldo Ausunio and a Pole, name unknown.

Nearly thirty children are rendered fatherless by the accident. Only one man was disfigured, as if by an explosion, and he but slightly; the others were completely covered by black powder soot. The men were using a powder thawing machine and it is thought they neglected to supply it with powder. The machine became red-hot, set fire to the dynamite and the men were stricken down by the deadly fumes before they could escape. The town is in mourning and work at the mine is at a standstill.

COLLISION IN A TUNNEL.

Pittsburg, June 4.—Passenger train No. 106 on the Pan-Handle railroad, known as the Carnegie accommodation, ran into a tank car full of oil in the Try street tunnel late at night. The oil immediately ignited and the passenger train was completely destroyed. Fortunately there were only nine passengers aboard, seven of them railroaders, and all made their escape by making a hasty retreat from the rear end of the tunnel. One person, William J. Reese, a telegraph operator, was slightly hurt. The accident was caused by a mistake in signals. The loss to the railroad company will amount to many thousands of dollars.

THREE KILLED IN RAILWAY WRECK.

Atlanta, Ga., June 4.—A passenger train from Macon on the Southern railway was run into by a switch engine as it was passing the Atlanta shops at 11 a. m. The dead are: Mrs. A. A. Lemon, Miss Alma Lemon, both of McDonough, Ga.; H. M. Vickers, Florviva. Badly injured: A. F. Bunn, McDonough, and A. L. Fouché.

TRAGEDY AT METROPOLIS, ILLS

Marshal, White Fatally Shot, Succeeds in Killing His Assassin.

Metropolis, Ills., June 4.—Marshal W. E. Oakes was shot in the back, just below the heart, and it is feared fatally injured by A. M. Covington, a hotel and saloonkeeper. Covington, in turn, was shot three times and instantly killed by Marshal Oakes. The shooting took place at 10 o'clock at night and was caused by a visit to the hotel by the marshal, who demanded that certain women whom Covington had been harboring be sent away.

Marshal Oakes, having delivered his order, turned to go. As soon as his back was turned, however, Covington shot him. Wheeling about, Marshal Oakes brought his revolver into action, and before he fell from his own wound, he had sent three bullets into the body of his assassin and killed him. Marshal Oakes, who is filling the unexpired term of Gus H. Crouch, who was killed last February while making an arrest, was taken to his home and medical attendance summoned. The doctors report that the chances are against Marshal Oakes' recovery.

IS SHORT NEARLY \$30,000.

Colorado Springs, Colo., June 4.—Expert Accountant Krause, after three weeks' examination of the books of ex-City Treasurer Moses T. Hale, finds the shortage to be \$29,157. Willard Hale, a brother of Newburyport, Mass., placed \$30,000 in banks here to protect the city. However, Hale and his predecessor, Charles E. Smith, have been arrested for embezzlement and will be tried in September. Hale was elected in 1893. He has served continuously since. His downfall is attributed to speculation and to a weakness in accommodating his friends.

SURPRISE IN THE DEFENBACH TRIAL.

Chicago, June 4.—During the Defenbach insurance fraud trial yesterday Dr. Raymond L. Leonard, a state witness who saw Marie Defenbach the last few moments of her life, was recalled by Darrow, of the defense, to show that the young woman's death had been caused by dysentery, and not by medicine prescribed by Dr. Unger. Dr. Leonard said that death was caused by heart failure due to natural causes, which was a shock to the state, which holds that she was killed.

McLAURIN WILLING TO HOLD ON.

Columbus, S. C., June 4.—Governor McSweeney has received a letter from Senator McLaurin in which he says: "For the sake of peace, prosperity and happiness of the people of this state, I am willing to hold on to my commission as United States senator and to continue to serve the state as I have done in the past to the best of my ability."

FIGHT BLOODY BATTLE

Boers and British Come Together and Both Lose Heavily.

London, June 1.—On the anniversary of Lord Roberts' entry into Johannesburg the country has been startled by the receipt of news of desperate fighting and heavy British losses within forty miles of the Gold Reef city. The battle at Vladfontein, on the Durban-Johannesburg railroad, reported by Lord Kitchener is the most serious engagement since General Clement's reverse at Magaliburg. It shows General Delarey is in no way daunted by the capture of eleven of his guns by General Babineton six weeks ago.

The garrison of Vladfontein, apparently largely composed of yeomanry, had 174 men put out of action. That their assailants came to close quarters and suffered heavily is shown by the number of dead left on the field.

The dispatch from Lord Kitchener, dated Pretoria, May 30, is as follows: "General Dixon's force at Vladfontein was attacked yesterday by Delarey's forces and there was severe fighting. The enemy was eventually driven off with heavy loss, leaving thirty-five dead. I regret that our casualties also were severe. The killed and wounded numbered 174. Four officers were killed."

Willowmore, Cape Colony, June 4.—Commandant Sheeper, with 700 men, attacked Willowmore Saturday, but was beaten off after nine hours' fighting.

London, June 4.—The war office made the following announcement last night: "The information received from Lord Kitchener respecting recent engagements in South Africa has been communicated to the public." This is a reply to newspaper statements that the news is kept from the public.

Cape Town, June 4.—Jamestown is threatened by Fouché's commando.

DEATH OF AN ACTOR

Well-Known James A. Herne Passes Away at New York.

New York, June 3.—James A. Herne, the actor, died at his home in this city yesterday afternoon. He was

JAMES A. HERNE.

born at Troy, N. Y., Feb. 1, 1838. Herne died of acute bronchitis and pneumonia, after an illness of eight weeks. He was taken ill in Chicago while playing in "Sag Harbor." He came at once to his home, took to his bed and never arose.

BOY IS KILLED IN MIDAIR

Shocked to Death by Grasping a Trolley Wire.

Newark, N. J., June 4.—Swinging in midair, his legs twisted and doubled with the force of a deadly electric current, blue flames issuing from the contact of his bare hands with the trolley wires, George Chandler had performed his last pole-climbing feat for the edification of his playmates.

Recently George had been in the habit of climbing telegraph and electric light poles and seizing the wires with his bare hands. He knew just enough about electricity to know that when linemen work in midair and are insulated from the ground they can grasp even a trolley wire without injury, providing they touch no other wire. So the boy, with his faculty of climbing, often shinned up the poles and grasped wires without harm and much to the surprise of his companions below, who applauded him for his foolhardiness. This time he tried the experiment of connecting by a loose wire the telegraph and electric light wires. With the loose wire still in his hands he was instantly shocked to death.

SOLDIERS IN A CLASH.

Tientsin, June 4.—There was a serious affray between international troops. Some British fusiliers who were acting as police here sought to prevent French soldiers from house breaking, when they were attacked with bayonets and bricks. The fusiliers, in self-defense, fired in the air. This brought a number of Germans to the aid of the Frenchmen. They numbered together 200 men. Five fusiliers fired, killing a Frenchman and wounding three others. In subsequent fighting, four fusiliers, five Germans and one Japanese were wounded. The arrival of a German officer and a strong force ended the fray.

MAGRUDER AS CHIEF JUSTICE.

Springfield, Ills., June 4.—Following the rule of next in order of seniority, Justice Magruder will preside as chief justice at the June term of the superior court, which has convened here. Justice James B. Ricks of Taylorville, the newly elected member of the bench, representing the second judicial district, has taken his seat. He succeeds the late Justice Jesse J. Phillips of Hillsboro.

State Items Which Will Be of General Interest.

Principal Events of the Past Few Days Which Have Occurred in Our Great State.

Lansing, Mich., May 31.—The business of the Forty-first Michigan legislature came to an end at noon Wednesday, although the final adjournment will not take place until June 6. The interim will be devoted to preparing bills passed during the closing hours for presentation to the governor. A vast amount of business was considered by both houses Tuesday, but most of the measures were rejected.

The most important proposition agreed to was a joint resolution submitting to the people at next year's election a constitutional amendment providing for the separation of state and counties in the matter of taxation, leaving the state to raise all revenue for state purposes by specific taxation, and the counties to look after their own revenues.

The special senate committee which investigated the affairs of the state fish and game warden submitted a report practically exonerating that official from all charges of malfeasance, although suggesting that his office should be conducted more economically.

Lansing, Mich., May 31.—Michigan's "third house" adjourned sine die Wednesday. This house is composed of messengers, clerks and employes of the Michigan legislature, whose ages vary from 16 to 21. It was organized at the first of the year with John F. Gillart at the head. The governor, state officers and members of the legislature all took a great interest in the boys.

Lansing, Mich., May 31.—Governor Bliss has vetoed the bill for the new normal school in southwestern Michigan. He says there is no demand for such a school just now. He also vetoed Representative Moore's bill changing the system of salt inspection and the bill to allow the Mount Pleasant and Marquette normal schools to issue life certificates.

Speaker Carlton did his level best during the night session to keep the house in order, but it was more than he or any other man could do. For awhile there was order, but this soon grew too tame an exhilaration compared with the fascinating game of throwing things at each other's heads, which time has ripened into an established custom for the last night of a session. Missiles began flying fast and faster, until the hall of the house was turned into a regular pandemonium. Many a head was hit, and the owners of those heads were disposed to think that after all thick headedness may not be such a bad thing. Soft potatoes and soft lemons were used, besides harder things, and the room soon looked as though a Texas cyclone had been mixing up with a Dakota blizzard.

Among the important bills which were sidetracked during the closing hours of the legislature were the Hardy bill, providing for the appointment of a commission to classify and regulate freight rates, and the Fuller bill reducing railroad passenger fares in the upper peninsula from 4 to 3 cents per mile.

The appropriations of the present legislature aggregate \$6,459,000, or \$85,000 less than those of the legislature of 1899.

Had a Narrow Escape. Coloma, Mich., June 3.—Benny Knob and Edward Kline, employed at the Lake Shore basket factory, had a narrow escape from death. While hauling a wagon load of baskets to the Pere Marquette yards the board on which they were sitting slid forward from its position, precipitating them to the ground directly behind the horses, causing them to run away. Both young men were severely hurt.

Daily Domestic Tragedy. Cassopolis, Mich., June 3.—"Nick" Connor, colored, shot his wife Saturday, inflicting fatal injuries, and then attempted suicide by shooting himself three times with the same weapon. It is expected that he will die. Connor frequently quarreled with his wife, and she left him. He met her on the street and without warning fired three shots at her, one taking effect.

Newest Scheme for Charity. Kalamazoo, Mich., June 1.—The woman's auxiliary of the Kalamazoo hospital took charge of Monday's barber shop and Mans' drug store Thursday. In the former place society young women shined shoes, manicured the hands of customers, brushed clothes, and did everything but the actual tonorial work. At the drug store they sold soda water. About \$200 was cleared for the hospital project.

Consolidation of Trolley Lines. Detroit, June 1.—The sale of the Detroit and Pontiac suburban trolley line, which is twenty-five miles in length, to the Detroit United railroad, was consummated yesterday. After midnight yesterday the road runs as part of the United Railroad system. The purchase is said to be another step toward a consolidation of all the suburban trolley lines with the Detroit United Railroad company.

Control of Michigan Maple. Traverse City, Mich., June 4.—Plans are under way to form a corporation to control and handle the production of maple of Michigan. The design is to have every maple manufacturer in the state become a stockholder and have lumber sold through the association. The object is to regulate the price to conform to the value of maple compared with other hardwood.

Old Soldier Found Dead. Grand Rapids, Mich., June 4.—Harry Lemming, an old soldier, was found dead in a closet in a tough neighborhood on South Ottawa street Sunday under circumstances that lead the police to suspect foul play.

Charge is Criminal Assault. Howard City, Mich., June 4.—Arthur Kinney and Olney McCutcheon, prominent young men of Emsley, have been bound over for trial charged with assaulting two young girls whom they met at a dance.

Condition of Mrs. McKinley. Washington, June 4.—Dr. Rixey, after remaining in the White House for nearly three hours last night, said that there had been no change in the condition of Mrs. McKinley. At 11 o'clock she was resting comfortably. At a consultation of physicians yesterday it was held that Mrs. McKinley would eventually recover.

Dropped Dead While Cycling. Chicago, June 4.—While riding a bicycle with her baby in front of her Mrs. Agnes Helfeld, 722 North Center avenue, dropped dead from heart failure on Washington boulevard, near Forty-third avenue. The child was not hurt by the fall, and was found, a few minutes later by its father, clinging to the prostrate corpse.

Charged with Embezzling \$50,000. Anna, Ills., June 4.—Charles Crosby, a traveling salesman, claiming to represent the Frick Grocery company of St. Louis, was arrested here by the city marshal upon receipt of a telegram from the sheriff of Franklin county, charging him with embezzling \$50,000 of the firm's money. Crosby said when arrested: "I guess it's all up now."

Fatal Brush with Filipinos. Manila, May 31.—Thirty-three men of company A, Twentieth infantry, recently encountered Segovia's band near Paracale, North Camarines province. Surgeon St. John was killed. The insurgents lost five men killed and had two wounded. Doniol has again been attacked and reinforcements have been sent from Boac, province of Marinduque.

Indiana School Census. Indianapolis, June 3.—The total school enumeration of the state, according to the report of the state superintendent of public instruction, completed Saturday, is 757,626, an increase of 1,198 over the enumeration of last year. Of this gain an increase of 651 is reported from Grant county.

Statement of the Public Debt. Washington, June 4.—The monthly statement of the public debt issued by the treasury department Saturday shows that at the close of business May 31, 1901, the debt less cash in the treasury amounted to \$1,062,475,494, which is a decrease for the month of \$10,208,702.

STATE SOLONS' WORK

New Laws Enacted by the Forty-First Legislature of Michigan.

TAXATION OF RAILROADS, ETC.

Bills Which Have Been Vetoed by Governor Bliss—The Appropriation Bills.

The regular session of the Forty-first legislature of Michigan will end Thursday noon, June 6, although all business was suspended shortly after noon last Wednesday, May 29.

The Most Important Law. In all probability the most important law enacted by the present legislature is the statute providing for the taxation of the property of railroads, express, fast freight, car loading, refrigerator car and union depot and station companies on an ad valorem basis.

Since the compilation of the appended enumeration of bills, (which by the way, includes measures still in the hands of Governor Bliss, who, under the constitution, has five days after the final adjournment of the legislature to either approve or pocket veto bills passed during the last five days of the session) the executive has vetoed bills providing for the establishment of an additional normal school; providing a new charter for the city of Jackson; the Lowry-Ward act exempting real estate mortgages from taxation; the bill authorizing supervisors to charge the cost of handling contagious diseases to the townships, villages or cities, instead of to counties at large; increasing the salary of state salt inspector to \$2,000 per year; authorizing the state board of education to prescribe the courses of study for the several normal schools, and issue certificates to teach as it may direct. It is not believed that any more bills will be vetoed, unless it is the one legalizing the special assessment for sewers in Highland Park village. Following are new laws enacted by the legislature:

Elections. Amending the general registration law so that registration shall take place on the third Tuesday and Wednesday before any spring or fall election; providing for the election of a city assessor in St. Clair; making the term of school commissioner in Wayne county commence July 1 and continue for four years; providing for the selection of candidates for election by popular vote in Grand Rapids; providing for the manner of conducting elections in Calumet township, Houghton county; amending the village incorporation law relative to boards of registration; amending act of 1877 dividing townships and villages into election districts; providing for the registration of electors and manner of holding elections in city of East Tawas; repealing act of 1891 requiring candidates to file sworn statements of election expenses; abolishing secret ballots in political conventions in Kent county; amending section 4, act 143, Laws, 1893, providing for elec-

tion of board county canvassers; increasing pay of election inspectors, etc., in Springwells township, Wayne county; creating a voting precinct in Ingallston township, Menominee county; providing for registration of electors in Saginaw county; creating voting precinct in Rockland township, Ontonagon county; providing for election of Wayne county auditors by people instead of by supervisors.

Providing a primary election law for Grand Rapids city; providing a primary election law for Kent county.

LAXAKOLA THE GREAT TONIC LAXATIVE

If you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or any symptoms and disorders which tell the story of bad bowels and an impaired digestive system, Laxakola Will Cure You.

It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels move regularly, your liver and kidneys cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, will find Laxakola an ideal medicine for children. It keeps their bowels regular without pain or griping, acts as a general tonic, assists nature, aids digestion, relieves restlessness, clears the coated tongue, reduces fever, causes refreshing, restful sleep and makes them well, happy and hearty. Children like it and ask for it.

For Sale by DR. E. S. DODD & SON W. N. BRODRICK

Laxakola is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price, 25c. or 50c. At drug stores. Send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., and mention the name of your druggist. We will express to any address on receipt of 50c. in stamps or post note, all charges prepaid, a large family size bottle of Laxakola, sufficient to last for a long time.

I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plow work, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peach time, I had a most serious attack of chills and then commenced to take Ripans Tablets, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tablets will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said, "Say, John, what are you doing to look so healthy?"

WANTED.—A case of bad health that R-I-P-A-N-S will not benefit. They banish pain and prolong life. One gets relief. Note the word R-I-P-A-N-S on the package and accept no substitute. R-I-P-A-N-S 10c for 5 cents or twelve packets for 45 cents, may be had at any drug store. Ten samples and one testimonial will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., 25 1/2 Spruce St., New York.

MOUNTAINS WHICH MOVE.

Masses of Earth and Stone Leave Their Natural Position.

The idea of erecting a wall to check the onward movement of a mountain seems amusing, out that is what is being done in the Travers valley, Switzerland. The mountain which the Swiss are endeavoring to hold in place by a wall is nearly 5,000 feet high and its movement at present is about one inch a day. In the end, if it be not checked, it will sweep down with a rush and carry destruction to everything in its path. The Travers mountain is not the first Swiss hill which has got tired of staying in one place. In 1806 the Roseberg mountain, just behind the well-known Rigi, began to move. Creaks and groans were heard from deep in the bosom of the rocks for weeks beforehand, and houses and trees were seen sliding forward at the rate of a foot a day, but there was no one to tell what was going to happen, and the result was that the final move swallowed three villages and 800 people. France has a small mountain which has been stealthily crawling along for three years past, but so far has done no one any serious harm. St. Foy de Tarentaise is the name of the village which is situated on the hill, and there is probably not another place in the world whose houses are so terribly out of the perpendicular. The Tarentaise Hill is moving because its rock base rests on mud, which is being slowly eaten away by the rapid waters of the Isere river. If anyone wants to see a mountain in the act of traveling he should visit the Dalles mountain, on the Columbia river, in British North America. Here is a gigantic mass of dark brown rock 3,000 feet high and eight miles long which is steadily traveling forward at the rate of two or three feet a year. Some years ago, before its peculiarly restless disposition was known, a railway line was built along the lower edge of the Dalles mountain. About once in every three months the rails have to be taken up and relaid. One day the mountain will cross the Columbia river and come to a stop against a hill opposite. When it does it will make a lake, which will be one of the wonders of western America.—Utica Globe.

KIND HEARTEDNESS.

(From the Indianapolis Sun.) The gingham-shirted boy had made a break to pass the ticket seller at the circus entrance, but that gentleman had caught him and rudely thrust him back.

"Poor little devil," said a seedy-looking man in the crowd. "If I had the money I'd buy him a ticket myself."

The crowd looked sympathetic, but said nothing, while the boy sobbed as if his heart would dissolve.

"I've only got a nickel, little feller," went on the seedy-looking one, "and that won't do you no good. Say," he continued, turning suddenly to the crowd, "let's do one good act in our lives. Let's buy him a ticket."

It looked for a minute as if a collection was to be started, but a benevolent-looking old gentleman nipped it in the bud by slipping a half-dollar into the hand of the boy, who promptly disappeared into the tent.

"I thank you a thousand times for that kind act, sir," said the seedy-looking man.

"You seem to take quite an interest in the little fellow," remarked the benevolent one.

"Well, I should think I ought to," answered the seedy-looking man, with some pride. "That's the only son I got."

OBITUARY

MRS. CARRIE SWINK

Miss Carrie Quick was born in Berrien Co. Mich. August 6, 1846, and died at her home in Niles township, May 31, 1901, aged 51 years, 9 months, and 25 days. She was married to Mr. George Swink April 4, 1878, at the home of Andrew C. Day, in Buchanan. Her life was devoted to the interest of her home; she lived to make her home a pleasant place. She leaves a husband, son, two sisters, and three brothers.

"Sister Carrie thou hast left us And the loss we deeply feel, And if God has thus bereft us He will all our sorrows heal"

The funeral services were held Sunday at ten o'clock, at their home, conducted by Rev. J. F. Bartmess, and was largely attended by a host of sympathizing friends; after which the remains were taken to the Dunkard cemetery, in St. Joe county, Ind.

JAS. LYMAN WILSON

Son of Wm. and Almira Wilson was born June 12, 1866 in Cook Co. Ill. and died May 30, 1891, at Englewood, Chicago.

After a short service at their home 5916 Powell Ave. Englewood, attended by many friends his remains were brought to Galien, Mich. for interment, where the funeral services were held in the M. E. church, Rev. C. E. Marvin assisted by the pastor officiating.

He was the main comfort of his parents, having only one twin brother left to mourn his loss and share their grief. He residing in Los Angeles, Cal. it was greatly regretted that he could not be with them for the sad occasion. His happy disposition and kindness to all endeared him to every one he came in contact with, both in a business and social way; which was manifested by the loving tributes of business employees and the many dear friends from far and near who followed him to his last resting place near his grandfather, Jas. H. Wilson, in the Galien cemetery.

WESLEY STOW

Was born in Royalton, Cuyahoga Co. Ohio, December 12, 1830; he died June 3, 1901 at Buchanan, Mich.

In 1848 he married Hannah E. Phelps, who, with their three daughters, Mrs. A. J. Davis, Mrs. Frank Marrs of Berrien Springs, Mich. and Mrs. Charles East survive him.

In 1862 they moved to Berrien Springs, Mich. where he worked at his trade of blacksmithing; while there he was elected Justice of the Peace, and later on when they moved to Alba, Mich. he was elected Supervisor. For the past two years he has been a helpless invalid at the home of his daughter, Mrs. Charles East, where he has required and received constant care and attention from her and her husband, they being unable to leave him except for a few hours at a time. The funeral was held Wednesday morning from the home of Mr. East and interment made in Oak Ridge cemetery, Rev. W. J. Douglass officiating.

Resolutions of Respect.

In as much as our Heavenly Father in his infinite wisdom hath seen fit to remove from our midst, Mrs. George Swink, the mother of our esteemed and much beloved schoolmate Frank R. Swink, therefore be it,

Resolved, that we, as members of the Class of 1901, do extend unto our bereaved classmate and his father our sincere and heartfelt sympathy and propose to do all in our power to comfort them in the hour of deep affliction, and be it further

Resolved, that a copy of these resolutions be handed to our classmate, and a copy published in each of the Buchanan newspapers.

In Respect Submitted by

THE CLASS OF 1901.

Card Of Thanks.

We desire to extend our sincere thanks to the many kind friends who aided us in any manner, in our recent bereavement.

as second-class matter.

LOCAL NOTES

Master Webb Kent, who has been
quite sick is improving.

Be sure you come to town next Tues-
day night to the band concert.

Mr. Sam Smith has enlarged the
porch on his home on Oak St.

Mr. Bert Orr has moved into Mrs.
Julia Smith's house on Oak street.

A large number from this place at-
tended the circus in Niles last Thurs-
day.

Mr. Ralph Allen lost a fine horse
last week. It fell on a snag and
bled to death.

A nine pound girl arrived this
morning at 8:30 o'clock at the home
of Mr. and Mrs. Harry Berry.

The class of 1903 will give a recep-
tion to Mr. and Mrs. Avery at the home of
Fred Knight on tomorrow evening.

Messrs. B. R. Desenberg & Bro. are
advertising a Great June Clearing
sale in this issue. Take advantage of it.

Last Monday Mr. Elmer Butts
brought to this office a twig from an
apple tree with two good sized apples
and a blossom on it.

Rev. I. B. Tallman of Watervliet
Michigan will preach at the Metho-
dist church at this place on Sunday
June 16.

Last Thursday Rance Calvin said
something that didn't just set well
with Shine Bronson, as a result Rance
got pretty well thumped.

During the tea at Mrs. Porter's Fri-
day eve Mr. Glenn E. Smith was en-
tertaining the jilted lovers of the
spinster's at his home on Chicago st.

New Carlisle expects to have a won-
derous big time on the 4th of July.
They will celebrate the 3rd, 4th and
5th, and it will be done in their usual
good style.

Last Saturday the Farmer's Mutual
Fire Insurance Co. approved \$250,000
worth of insurance. The day's work
was a big one and casts great credit
on the present officers.

The Woodmen Forester team will
hold a box social at Woodmen Hall
next Thursday evening June 13
Every one is cordially invited to at-
tend and to bring a well filled box.

Late Wednesday afternoon, Mich.
Central mail train No. 3, struck and
killed an eight year old boy named
Willie Zulkie. The accident occurred
at Corymbo, five miles east of Mid-
igan City.

The Royal Neighbors will visit
Buchanan Camp 886 on Friday night
and all members are requested to be
on hand promptly at nine o'clock. An
interesting programme has been ar-
ranged.

The first band concert of the season
at Buchanan will be next Tuesday
night.

Teacher's examination for second
and third grades will be held in St.
Joseph on Thursday June 20.

The Baccalaureate address will be
given by Rev. C. E. Marvin next Sun-
day evening at 7:30 o'clock at the
Presbyterian church.

The Ingelright-Montague assault
case is being heard to-day before
Justice J. C. Dick. The dispute
arose over a line fence.

An 8-year-old boy was struck by
Michigan Central mail train No. 3,
late Wednesday afternoon, five miles
east of Michigan City, and was in-
stantly killed. The boy was crossing
the track and evidently did not see
or hear the train.

The Axle Works ball team proved
an easy work for the notorious High
School team last Thursday. The
score was 10 to 14 in favor of the
High School. If the school boys keep
on they will soon be big enough to
wear the old "Blue".

Mr. H. S. Rough has purchased the
City Bakery of Mr. Wm Molrs and
has employed Mr. George Heinz of
Chicago to do the baking. They will
make a specialty of fine pies, cakes,
and bread. The Record wishes Mr.
Rough success in his new venture.

In the Michigan Mirror of May 23,
is an interesting advertisement which
was composed and arranged by Mr.
Jesse A. Waterman son of Mr. and Mrs.
W. W. Waterman of this place. The
advertisement reflects much credit on
Mr. Waterman's ability.

The Epworth League held a very
pleasant social last evening, a large
number being present. A feature
was an interesting floral contest
which was won by Rev. W. J. Doug-
las. Refreshments were also served,
and a good sum realized from the
entertainment.

Memorial Day passed very quietly
with its usual rain this year. The
stores were closed part of the day
and in the afternoon the G. A. R.
marched to the cemetery and listened
to an address by Mr. C. E. White,
the proceedings were hindered some
by the rain which only lasted during
the services.

The commencement exercises of the
Galien schools were held last Wednes-
day evening. The graduating class
was composed of two young men,
Floyd E. Prince and D. Dale Swen.
Prof. Marsh has secured the place of
superintendent of the Coloma schools
for the coming year, and Zack Kinney
has been engaged to succeed him as
principal of the Galien school.

A surprise reception was given in
honor of Prof. L. G. Avery at his
home Wednesday evening June 5 by
the Juniors and Seniors. In apprecia-
tion of what Mr. Avery has done in
the past a beautiful oak chair was
presented him. The evening was
passed very pleasantly in music and
games. Dainty refreshments were
served by Mrs. Avery. Toward the
approach of the midnight hour the
guests departed, wishing Prof. Avery
and his wife good success in their
new field.

The annual commencement of the
Buchanan High School will be held
on Thursday evening June 13, at
Rough's opera House. The gradua-
ting class numbers sixteen and the
members will graduate with excellent
records of work well done. The pro-
gramme of exercises will include
essays by each member of the class.
Invocation by Rev. J. R. Neigarth,
Solo by Mrs. W. N. Brodrick, Quar-
tette Messrs East, Monroe, Roe, and
Boardman, Duett by Miss Shaw and
Mrs. W. L. Mercer, and benediction
by Rev. W. J. Douglass.

A few of the theater goers of
this place have been enjoying a series
of shows this week that far excel
anything that has ever been given in our
town. The company consisting of ten
people, came here from Niles where
they played one week. Monday they
gave "Ingomar, the Barbarian," Tues-
day night, "Paradise Regained,"
Wednesday night, Monte Cristo," to
night Joshua Whitcomb will be given,
to-morrow night, "The Lancashire
Lass," and Saturday night "Quo
Vadis." If you wish to see "Quo
Vadis" given by a good company you
had better go Saturday night as it
will be a long time before such a
company can be secured again.

Changes in Notre Dame Course.
At its last meeting the faculty of
Notre Dame university has determined
on changing its course for the degree
A. B. The course in Greek has been
reduced from seven to six years and
two modern languages added.

A sad accident occurred in Niles
last Thursday night which cost one
young life. A colony of gipsies were
entering the city from the south and
the second wagon in the line of five
was run down by a Big Four passen-
ger. The accident occurred on what
is known as Hoppin's crossing, a
dangerous place owing to the high
embankments on either side which
prevent a view of the track for any
distance. Charles Whipple and two
of his children, a girl of four years
and a boy of six, occupied the vehi-
cle which was struck. Whipple says
that just as his horses stepped upon
the track he saw the engine bearing
down upon him. He whipped up the
horses and a second later wagon and
occupants were hurled through the
air. The girl was thrown several
rods and was badly cut up about the
head and body. Her skull was frac-
tured and she died at 12:30 Thursday
night. The boy was seriously injured
and is not expected to live. Drs. S.
& F. R. Belknap are the attending
physicians.

The home of Mrs. W. C. Porter was
the scene of much merriment last
Friday evening, it being the occasion
of the "Spinster Tea" chaperoned by
Mrs. Glenn Smith and Mrs. Porter.
Promptly at eight o'clock the spin-
sters began to arrive clad in their
most ancient costumes, which were
both becoming and amusing. Each
guest before coming down stairs was
ushered into the presence of a "real
gypsy" where her fortune was told in
a weird manner. The reception room
and library were decorated to suit the
occasion, with hearts, photographs of
men, and mottoes relating to the ster-
ner sex, and here each spinster told
the story of her wooing and why she
jilted him. After a heart hunt in
which Miss Bay Redden captured the
prize, she finding the most hearts, the
guests were each provided with an
escort in the form of a man and re-
paired to the dining room which was
brilliantly festooned with red hearts,
which with the many lights gave a
very pretty effect. A dainty three
course tea was served on heart shaped
dishes. The fortune cake was cut by
Miss Bessie Rose; the ring which is
for marriage was drawn by Miss
Georgia Wilcox; the penny signifying
riches, by Pauline Lister; and the
tumble denoting an old maid by
Lulu Morris. The remainder of the
evening was spent in dancing and
other amusements and at a late hour
the guests departed, all declaring
that their hostesses were royal enter-
tainers and they never had a better
time.

Entertainments for the Winter.

The lovers of first class amusements
will be pleased to know that a fine
course of four entertainments has
been provided for next year. This
course will be given under the aus-
pices of our public schools, and is
guaranteed by a committee of busi-
ness men consisting of J. C. Wenger,
C. B. Treat, H. A. Hathaway and Dr.
Curtis. The four attractions are as
follows:

- (1) Dr. H. McIlrath, who traveled
through China in the interests of the
Inter Ocean, will give his lecture,
"China the Forbidden Land."
- (2) The Boston Musical and Dramatic
Co., consisting of Helen Trick-
ey, violinist; Walter Paine, tenor
soloist and female impersonator;
Walter Eccles, humorist and drama-
tic reader.
- (3) The Copley Square Trio of
Boston composed of Blanche Sears,
concert violinist, viola, mandolin and
piano; Marion Whitaker, sleigh bells,
xylophone and whistling; M. Isola
Sears, pianist, soprano and guitarist.
- (4) The Picture Comedy, "Two
Rich to Marry," by Edward O. Towne.
Further announcements will be
made later.

You will miss a treat if you don't
go to Quo Vadis Saturday.

Short Talks on Advertising

By Charles Austin Bates.

No. 10.

The truthful advertiser is the one that brings business and most all advertising is truthful, just as most all men are truthful. Occasionally one meets a man who lies. That sort of a man writes lying advertisements. They may pay temporarily, but no permanent success was ever built on a foundation of humbug. Most advertisers are honest. At least, they mean to be.

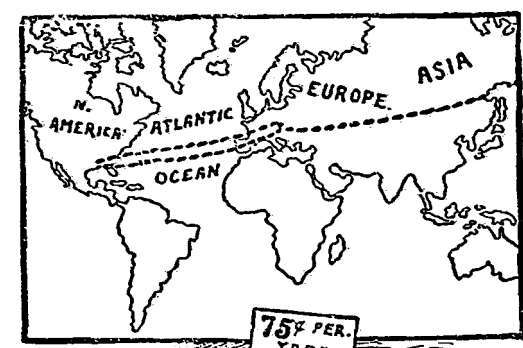

Often each one of half a dozen dealers will insist that he has "the biggest and best stock in the city." Of course, they can't all be right, but that is merely a form of words. Really it does not mean much of anything, either to the writer or the reader, and so does no harm—except that it wastes valuable space in the paper.

The advertisement that pays best is the plain, honest, forceful talk, written just as if the writer was talking to the reader face to face—a statement of facts.

There is nothing in the world so interesting as facts, especially the facts of business. They should be written about entertainingly. People like to know how and where things are made. Not a technical description, but a hint here and there. For instance; "These goods were designed and woven in France, the cotton came from Alabama, and the silk from China. Twice across the Atlantic, once across Asia and Europe and here is the finished fabric for seventy-five cents a yard."

"Occasionally one meets a man who lies."

"Twice across the Atlantic and once across Asia and Europe, and here is the finished fabric at seventy-five cents a yard."

It creates an interest that a mere bald statement never would get. Knowledge, thought and truthfulness will generally produce a good advertisement, and a good advertisement in a paper will always bring good results. The selection of the medium is the first and most important point. The writing comes after. Even a bad ad. in a good paper will bring some business. A good ad. in a poor paper is sheer waste.

A Great Sporting News Journal.

The illustrated special sporting section of the Sunday Chicago Record-Herald thoroughly deserves the attention of every one interested in sporting news. It is always beautifully illustrated and embraces four full pages covering with the thoroughness that satisfies to the utmost the whole realm of sports. Baseball news, bowling news, cycling news, pugilistic news, golf news, yachting news—all the sporting news—is given with the degree of fullness and interest to be expected of the newspaper which combines the very complete facilities of those two great metropolitan newspapers, the Chicago Record and the Chicago Times-Herald. The sporting page of the daily issues is also exceptionally popular—a self-evident fact to those who have noted the general vogue of the Chicago Record-Herald among sportsmen.

At One Crow and Some Patty-Pans

"He was a fat, helpless baby crow" writes Florence Morse Kingsley of "The Young Gentlemen of the Woodshed," in the Ladies Home Journal for June. "We named him Tom, and he grew like the proverbial weed. His prankish propensities came more and more into evidence as the summer wore by. Small bright objects, such as teaspoons, thimbles and the scalloped tins called patty-pans, had to be jealously guarded. But despite the noisy protests of the cook the patty-pans continued to disappear. At last I found the new use to which Master Tom had put these covered articles. I had been awakened several mornings at an untimely hour by a slight tinkling, jingling noise, proceeding apparently from the tin-covered veranda roof just outside my window. On one occasion I fancied I heard Tom's peculiar low chuckle of amusement. Stealing noiselessly to the window I peeped out. Sure enough there were Tom and the patty pans. Seizing one in his beak he would fly up about five or six feet, then drop it. The glitter of the tin, as it fell through the bright sunshine and its clatter as it struck the roof, seemed to afford him the most exquisite amusement, for he repeated the performance a dozen times or more, ending, as he heard the housemaid open the front door, by neatly packing his shining toys into an angle of the roof where they had heretofore escaped notice."

Brave Little Finland.

Finland is a little country, and there is not much to tell about it. But it is the focus of some brave ideas, and its short story has no soiled page. A desolate and water-logged land, in a hard Northern climate, three-quarters of its surface destitute of population, possessing no natural wealth except its forests and no natural advantages except its waterfalls, where the ripening crops race against the descending frost for their harvest-goal and are often outstripped, and where the peasant for all the year lives an Arctic explorer—how should it have any story? Yet the very hardness of the struggle has made the Finn one of the sturdiest specimens of humanity—only the sturdy could survive; industry was the condition of his existence; his loneliness has bred self-reliance and his long solitudes have awakened faith. He has developed in this dark, wintry corner of Europe, a civilization curiously his own—quaintly original on the one side and transatlantically progressive on the other. He has a natural bent for science, especially in its practical application; art has been born in him—not much in quantity, but vigorous and independent in quality; while literature has by nature deep roots in the hearts of men whose chilly, infertile home land is the richest of all the world in folk song and lyric proverb, in legend and magic spell, in epic sagas and chanted rune.

Yes, it is a little country, but it is big in character, big in the material and moral progress it has made under severe conditions, and it raises a big political question. No review of Russia to-day could be complete that did not take Finland into account, though even in its short story there is much that can not, with discretion, be discussed just now.—From "Russia of To-day," by Henry Norman, M. P., in the June Scribner's.

THE BIGGER BOY'S SIDE OF IT.

"Don't you know," said the kind-faced old gentleman who stops to talk to the children, "that it is very wrong for you to fight a boy smaller than yourself?" "Yes," was the reflective reply. "I'm willing to take my share of the blame. But I think he ought to have a lecture, too, on the imprudence of speaking rudely to boys that are bigger than he is."—Washington Star.

Miss May Irwin the inimitable singer of coon songs, whose hobby is cooking, gives in a sparkling interview in Good Housekeeping for June some of her original receipts. Pictures are shown of Miss Irwin's summer home among The Thousand Islands, some of them exhibiting her in the act of preparing favorite dishes. Another article of surpassing interest in the June number of this magazine is a series of personal sketches, with portraits, of the most celebrated of American teachers of cookery and domestic science.

There are valuable suggestions from Dr. George Thomas Palmer editor of the Chicago Clinic, on the care of the Baby in Warm Weather. The Death-bringing House fly, A Summer with a Gas Stove, Strawberry Festivals, are titles whose promise is more than fulfilled in the articles they represent. The pages of cookery and fashion are "solid meat."

Good Housekeeping is published by the Phelps Publishing Co., Springfield, Mass., New York and Chicago, at ten cents a copy, one dollar a year.

COUNTY SEAT NEWS

TUESDAY.

A house of thirteen rooms is of considerable size and it looks as if a residence of that description would cut a great figure in a sensational divorce case now on trial before Judge Coolidge. The complainant is Flora L. Jerue and the defendant John B. Jerue and the defendant John B. Jerue, both of Galien.

The family reside on a corn and cabbage farm near Galien. The hearing of the testimony in the divorce case may occupy a week's time.

G. M. Valentine appears for the complainant and V. M. Gore for the defendant.

WEDNESDAY.

A \$1,400 judgment in the Hutton vs. Miller case was set aside.

SATURDAY

Minnie Blodgett vs. Sovereign Camp of Woodman of the World and Hannah Dibble. Suit for \$3000 insurance claimed her due. She says she was employed by one Dr. Smith as a house-keeper and for her services she was given an insurance policy for \$3,000. In 1897 her place was taken by Hannah Dibble, to whom Dr. Smith transferred the insurance. The plaintiff has been granted an injunction restraining the defendant company from paying to the other defendant the money due from the policy on Dr. Smith's life. The Dr. recently died at Niles. Filed May 30.

NEW HOUSEHOLD IDEAS.

Give house plants as much sunshine as possible, and plenty of rain water. Mahogany which has become slightly clouded may have its polish restored by the use of a dressing made by mixing four tablespoonfuls of turpentine with four of sweet oil, adding one teaspoonful of lemon juice and ten drops of ammonia. Shake thoroughly before applying. Crisped crackers to serve with an oyster stew or any white soup are a quickly prepared substitute for croutons or toast fingers. They are made by splitting butter crackers and spreading one side of each with butter. Arrange in a pan with the butter side up and brown in a hot oven. Scrambled eggs with mushrooms are served on toast. Break a cupful of mushrooms into small pieces, dredge them with flour and put them into the saucepan with three tablespoonfuls of butter, a few drops of onion juice, salt and paprika. Cook for ten minutes. Beat three eggs slightly, not separating them, and season them with salt and pepper to taste. Add them to the mushrooms and scrape them from the bottom as they cook until the mixture is thick and creamy.

WIT AND WISDOM.

Why isn't a homely actress a case of stage fright? Many a laboring man's down in the world—digging gold. He who calls all men fools is right in at least one instance. It's a wise cook that knows enough to leave well done alone. The man who does a little and does it well does a great deal. A dude dressed out of sight is very apt to be out of mind as well.

BAD BOYS FROM TOLEDO.

They Try to Run Monroe a "Little" Tee along. Monroe, Mich., June 3.—A team of bowlers came over from Toledo and defeated the local teams in three straight games. The Toledo team was accompanied by about seventy-five members of Toledo's supposed sporting element. The police department turned the town over to them and like most people of their ilk they supposed they were out in the tall grass and could run everything, including the business of the Toledo and Monroe railway. The company furnished a special car for the sports, which left here just before midnight. The car had not proceeded far when the conductor was obliged to order the car back to this city because many of the bunch refused to pay their fares. The police, sheriff and his deputies and the mayor all took a hand in suppressing the would-be bad boys from the muddy Maumee. After laboring for nearly half an hour all but one had settled with the conductor, and when the officers started to drag this sport from the car one of the "white" men of the crowd paid his fare. This little row will, in all probability, deprive this bunch and all others of the freedom of the city in the future.

RED HEADS OF A LARK.

"Society of Brilliants" Goes Out and in for Warm Time. Albion, Mich., June 1.—The "Society of Brilliants," as the red-headed aggregation of Albion college call themselves, has been out for another of their warm times, and for some hours they made things hot about the city and college. The evening's programme consisted of a strawberry feed at a downtown restaurant, care being taken by the committee of arrangements to select an establishment with a proprietor who has the proper colored locks. Everything about the affair was red—even to the syrup of the frozen delicacies and other features of the feed. This was probably the last meeting of the society for the year, and was a fitting climax to the term's doings of the most unique social organization in the college, and probably in the state. Membership in the society is only obtained after the submission of the candidate to a rigid examination by a special committee, who determines whether the hair of the prospective member is of sufficient brilliancy to admit of membership. Certain definite color limits are used, lighter or darker than which the hair must not be. If the candidate is successful, he is admitted after passing through certain mystic rites.

LOOKING FOR DEAD SAILORS.

Hunt for the Lost of the Ill-Fated Steamer Baltimore. East Tawas, Mich., June 4.—Mrs. Mareau, of Chicago, aunt of Engineer Mareau, who was lost on the steamer Baltimore, has arrived here. She is wealthy, and says she will spare no expense which may lead to the recovery of the body of her nephew. Relatives of the dead seamen keep up a constant patrol of the beach in the region of the wreck, and no more bodies have been recovered. Saginaw, Mich., June 4.—The body of C. W. Sears, the young wheelman of the steamer Baltimore, was brought to this city and buried. Sears' mother is very wealthy and the young man had a large inheritance of his own, yet he preferred the life of a sailor. Nothing could induce him to abandon this rough and dangerous career and he finally lost his life in the wreck of An Sable. His sister recently committed suicide. His mother formerly resided here.

Three Trains Passed Over Her.

Albion, Mich., June 4.—Mrs. Lovina G. Murray, aged about 70, who lived here with her son-in-law, Ira Hughes, got up some time in the night, went over to the Michigan Central tracks, and deliberately lay down on the track. Her mangled remains were discovered by the engineer of the 4 o'clock train from the east. Three trains probably passed over the body.

Decided to Die for Love.

Big Rapids, Mich., June 1.—Josie Shattuck, aged 17, was discovered near the high school grounds suffering from morphine poisoning, and later a companion, Vernice Davis, 18 years old, was found near by in the same condition. They had decided to die on account of love affairs.

Ann Arbor Man Wanted at Chicago.

Ann Arbor, Mich., June 3.—Dr. W. W. Florer, instructor in the German department in the University of Michigan, has been offered the position of head of the department in the German school of education at the University of Chicago.

Another Coward's Act.

Chicago, June 4.—Edward Forshey, of Kansas City, an actor and assistant manager of theatrical companies, last night shot and killed Miss Edna Stokes, an actress, whose home is at Sedalia, Mo., with whom he was deeply in love. He intended to commit suicide, but did not have the nerve.

Seventy Persons Burned to Death.

Chicago, June 3.—A dispatch to The Tribune from Oaxaca, Mex., says that in a great fire which raged on the isthmus of Tehuantepec for several days seventy people were burned to death. The fire burned ten days.

Michigan Minutes.

Three Rivers—A line of new wires is being strung by the Bell Telephone company between Jackson and Three Rivers. Monroe—W. H. Gilbert, of Bay City, held a conference with local business men relative to the erection of a beet sugar factory here. Tecumseh—Robert McClure was instantly killed at the D. & L. N. railroad shops here Saturday. Jackson—Clarence Davis, sent to prison from Jackson for three years for forgery fourteen months ago, is dead. Lansing—J. Barton Gore and Thomas Beath, of Detroit, and Colonel W. W. Cook, of this city, clerks in the state tax commission office, have been discharged. Von Walderssee Leaves Peking. Peking, June 3.—Count von Walderssee and his staff left Peking today, en route home.

SOY BEANS.

What Kansas Farmers Think of Them—A Point About Seed. The Kansas experiment station has received reports from 270 farmers who raised soy beans in 1900. Those reports came from 72 counties. One hundred and forty-nine farmers write that the soy bean is a profitable crop, 44 have a favorable opinion, but need further trial; 34 report unfavorably, and 85 think the crop a total failure. The others did not express an opinion. Most of the successful farmers plowed and harrowed their ground as for surface planting of corn. A few listed or double listed, either listing shallow or else harrowing the furrows nearly full. The Early Yellow soy gave the best yield, only a few farmers having success with the late varieties. The favorite method of planting was with a grain drill, stopping up all the holes but those that put the rows 32 inches part and dropping single beans two or three inches apart in the row. Corn planters with drill attachments and one horse corn drills were frequently used. Objections were made that corn planters put the rows too far apart for best yield. The best yields were usually secured by planting as soon as corn planting was finished. Several farmers in eastern Kansas report that with them beans may be planted any time before July 1. The same cultivation as for corn was usually given. Five toothed cultivators were frequently used. The season was exceptionally unfavorable. Hot winds and drought from the time of blossoming to maturing cut the crop short and shriveled the beans. This was immediately followed by heavy and long continued rains that injured the beans in shock and stack. The worst pest was rabbits. The yields were from nothing to 31 bushels of grain per acre and up to two tons of hay per acre, the hay being reported as nearly equal to alfalfa in value and superior to clover. Most of the yields were from 12 to 20 bushels per acre. On the college farm soy beans yielded 7.4 bushels per acre along side of Kafir corn yielding 20 bushels and corn a total failure. Many reports show a failure of seed to grow. Soy beans for seed must be kept in cool, well ventilated bins, in thin layers. In buying seed empty the sacks as soon as received and keep the beans spread out in a dry, cool place in a thin layer.—H. M. Cottrell.

Egyptian.

Sow eggplant in the hotbed and transplant high to other beds or pots. Plants must have good beds, for a check in their growth means all the difference between profit and loss, says Bailey. "Picketing" a Violation of Law. Dayton, O., June 3.—Judge Kummeler has enjoined the Metal Polishers' union from interfering with the business of the Dayton Manufacturing company. The court held picketing and boycotting as flagrant violations of the law.

Whole Corn Silage.

The corn for silage whole should be one of the small flint varieties, planted at the rate of not over 12 quarts of seed per acre. Put the corn in the silo when the seed is in milk and take extra precautions that it is well and solidly packed, without holes or empty corners. Cover with hay as suggested. If the work is well done, there should result a fair quality of silage, but as it takes more work to handle it and less corn of the flint varieties can be grown per acre than the large ensilage corns whole corn silage costs more per ton than the cut silage. Good ensilage will not injure the milk in any way.—Hoard's Dairyman.
