The Successful Garden Party.

A garden party is a most attractive kind of entertainment; it may be an elaborate and a costly function, with a large collation and a band of music, or it may be a very simple and informal entertainment within the limits of the purse of the country hostess. Cards are issued a week or two in advance, but a few days' notice may be sufficient. The card may be a formal at home card or merely the visiting card of the hostess, with date, hour and the words "Garden Party" in the lower left-hand corner. The hours may be from three to six of from four to seven. The hostess receives out-of-doors wearing a pretty summer dress and hat. The house is of course, thrown open, and the refreshments may be served out-of-doors, from a table under the trees or under a marquee; or the table may be in the house, but it adds considerable to the informality, pleasure and variety of the occasion if everything is arranged to take place out-side. Outdoor sports such as tennis, archery, etc., are enjoyed by the young people at garden parties. Guests are expected to amuse themselves, to play games, wander about the grounds and partake of refreshments when they wish.—From the Delineator for September.

Do You Know Mme. Qui Vive?

Probably you do, for Mme. Qui Vive has as national reputation as an inspiring friend of every woman with a beauty woe. Her "Woman Beautiful" department in the daily and Sunday issues of the Chicago Record-Herald is a perennial source of joyous helpfulness to womankind. Her instructions on complexion ill are inter-larded here and there with snappy little epigrams as "cheerers." The weapons she suggests to beauty seekers for the complete annihilation of beauty grievances do not include artificial methods—"factory" frizzes, rouge and other horrors being barred. She gives instructions on correct breathing, what to eat, how to bathe—in brief, how to become a healthy, wholesome woman. No wonder she is popularly known to many thousands of women.

Olivet College Library.

Olivet College possesses one of the handsomest library buildings in Michigan. It contains about 30,000 volumes selected with utmost care, for the most part by the different professors. Each year the library becomes more valuable and the center of attraction and the source of supply for the earnest student. Instruction, especially in history and literature, is given very largely by the seminary method and few libraries are better equipped for this work in both source and secondary materials. One special advantage in this library is the fact that students have access to the stack-room and are allowed to draw books and retain them two weeks.

Kalamazoo Elks.

Kalamazoo Elks are hustling these days preparing for the coming street fair and carnival, which will be held on the streets of Kalamazoo the week of August 25 to 30th inclusive "The proceeds of the street fair will be devoted to the fund now being raised to erect an Elks' Temple in Kalamazoo.

The famous Robinson Carnival Company of Cincinnati, has been secured by the Elks to furnish attraction for carnival, and will consist of sixteen or more high class, moral shows, exclusive of the four or more absolutely free street shows which will be given every afternoon and evening, free to everybody who cares to see them.

All the railroads running into Kalamazoo will run excursions at reduced rates during carnival week at Kalamazoo, and a good time is assured everyone who attends.

At the teacher's examination to be held at St. Joseph Aug. 21-23, applicants will be examined for admission to the Freshman class of the Agricultural College.

Commissioner of Schools.

Beautiful Sights and Sounds.

The English sparrow does not have many warm friends and most people can not see any good at all in the saucy little fellow; we are not sure that he is as bad as he is painted, but will reserve any argument on that for a future time.

We wish to tell you of a beautiful sight and sound which you may have seen and heard. On the west side of Cayuga St. beginning at Front St. the corner where post master Noble has his residence, there is a row of as fine maple trees as it falls to one's lot to see. The foliage is so dense that it is impossible for the eye to penetrate a foot into its depths; this place has become the favorite perching place for little "Jonny Bull". From 5 to 7 o'clock in the evening, they begin to gather and oh, what a frolic! They fly in companies of hundreds from one tree to another all through the neighborhood; hundreds of them may be seen alighting in the street dusting themselves preparatory to their rest. They alight in such numbers as to almost cover the ground and what a musical sound the whirl of the wings as they fly! Gradually one company after another settles in the branches of the trees and quiet reigns.

Scott Whitman.

For a week Scott Whitman has been at death's door. It is supposed he had a stroke of apoplexy and he is lying in a stupor. His right side is paralyzed and he is unable to help himself. He takes food only as it is given to him in a liquid form. There seems to be very little change either for the better or worse. His son Frank and wife, who have been in Okolomaha for some time arrived on Thursday night at 12:56 to be at Mr. Whitman's bedside.

Deafness Cannot be Cured

By local application as they cannot reach the inner portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

What might have ended seriously regarding two babies a few days ago, terminated in a little comedy that had its funny side. Two little tots, one two years old the other 21 months of age, recently strolled down Front street, and unobserved found their way into the rear of one of our groceries. Each mother thought the other mother had the care of the babies, and when the discovery was made that the babies were gone the mutual dismay was startling. Two anxious mothers sought their babies and after some search found them. Enroute the babies had borrowed (?) a basket of clothes pins and were having a jolly time playing with them, quite satisfied with their ability to provide means of amusement for themselves.

Good Crops.

Capt. Peck who returned from the south a short time ago reports that everywhere he went he saw the finest crops it has fallen to his lot to see in the past ten or twelve years he has been going over the same route. About 100 miles south of St. Louis it was quite dry, but still the corn looked quite well.

Capt. Peck says he saw a train of 21 cars all loaded with watermelons. There were said to be 35,000 melons.

BENTON HARBOR

The remaining days of the Assembly are still full of good things. Mrs. Bertha Kunz Baker appeared on Wednesday afternoon in readings, that were considered by many, the best given here. The most critical were fully satisfied.

Tuesday evening Ernest Fenciosa gave another lantern lecture on American and European art as influenced by Japanese art, a subject which he seemed to fully understand. Wednesday evening Rev. Frank Crane, who is summering at Higman Park, gave another very interesting lecture on the subject "Castles of Atlantis." Dr. Munhall is conducting a Bible hour the last three mornings of this week.

Katherine Eggleston entertained her audience Thursday afternoon, with delightful recitations. She said in beginning that she did not wish to be called one of these yello-cutionists, but rather a story teller, a role which she filled charmingly. In the evening the Mendelsohn male quartet drew a large audience, who was carried away with the sweet harmony of their voices. There have been some unusually fine quartets who have visited this city in recent years, but none superior to these young men, who will appear again Friday night.

The assembly proper will close Saturday evening, but the management has decided to hold another mass meeting next Sunday afternoon. The churches of the city will hold their usual morning and evening services, but will have a union meeting in the afternoon. Furthermore, Rev. Geo. L. McNutt, who so delighted all who heard him at the beginning of the assembly, especially those interested in labor problems, has been induced to return and will lecture on some labor question of interest, next Monday evening.
