Spending Our Evenings.

CHAPTER I

Economy in employment of time is of greater importance than many persons seem to think.

Time indeed is a precious gift, every moment of it, and yet we spend so much of it unwisely. A moment, an hour, or a day thus unwisely spent is lost time, and irredeemable lost, for it cannot be recalled neither can we make up for lost time. At this season of the year many are beginning to inquire as to how they will spend these long winter evenings, precious evenings these are, if we really desire to do something for ourselves.

To the young people of our village and community these evenings should mean much in preparing themselves for the actual duties of life by means of a course in reading and study. It is to be regretted that our village does not afford evening classes in the different branches of practical studies. Parents should interest themselves in this work and many a young man and young woman could prepare themselves for a good position in business and general usefulness without spending very much time and money in colleges.

Every community desires good citizens, but very little if anything is done outside of the church to make good citizens of our citizens and young people. The church and the school try to build up, and the saloon, the gambling rooms and brothels that are run without molestation, tear down the precious lives of our youth. The streets of our village are lined on both sides for hours, evening after evening with young people, and older ones too, who seem to have no business whatever to attend to, but are there simply to "kill time." Would it not be much better if the parents of these same young people would afford them some interesting work at home and educate them to better things than street loafing. Fathers spend from twenty-five to one hundred dollars, and some much more, a year for the maintenance of some club room where these sons cannot come, and in many instances where their fathers would think it a dangerous place for their sons to be, and yet some fathers never think of spending any money nor even inquiring whether their son or sons have a comfortable room at home, supplied with good books and papers, and furnished with furniture sufficiently respectable that they could invite their associates into their rooms now and then to spend the evening instead of meeting on the street corner and from there resorting to questionable places.

The dancing club, the card table and other kindred gatherings can do nothing to inspire higher ideals of life in our young people. The tendency of the influence that goes out from the dance, though ever so refined, and the card table, and all other games of the same character, is downward, and serve simply as educators to advanced steps in these evils that have brought ruin and sorrow to so many homes even in this community.

May wisdom regarding these matters characterize our young people and give attention such things only that build noble lives for the home, the church and the state.

J. R. NIERGARTH.

Coonley's Beef, Iron and Wine with Nervine brought my wife right out last year; give me two more bottles for my father." Elmer Hawblitzel, Lakeville, Ind. Large bottles 50c at Dr. E. S. Dodd & Son's.

Coonley's Tonic Ext. of Sarsaparilla is guaranteed equal to any of the \$1.00 sarsaparilla made, and is sold at 50c a bottle at Dr. E. S. Dodd & Son's.

DELIGHTED AUDIENCE.

People at Presbyterian Church Saturday Night Magnificently Entertained.

The Gill-Johnstone combination which gave an entertainment under the auspices of the senior class of our high school last Saturday night, delighted all who attended, and the consensus of opinion is that so fine a reader and so skillful a harpist have seldom if ever visited our village.

Mrs. De Barrie Gill gave a number of readings which, if they had been rendered indifferently, would have been a rare feast of memory, but when there was the added beauty of intelligent and dramatic rendition, in a most unaffected manner, it was a superb entertainment. Her portrayal of children's characteristics, imitating the little folks at 4, 6, 10 and 12 years of age, showed much study and thought.

One of the most delightful numbers was the rendering of "Nearer my God to Thee," in the language of the deaf and dumb, with harp accompaniment. Not a little of the pleasure of the evening was due to Miss Johnstone's able handling of the harp. She played with such ease and grace and entirely from memory that the audience was captivated by her selections.

The public owe a vote of thanks to Supt. Mercer for securing this company and giving such an elevating and inspiring program.

Spelling Bee.

The Eastern Star will have a spelling bee next Friday evening in the basement of the Presbyterian church, to which a general invitation is extended to the people of Buchanan and vicinity, school children old enough to take part included. A beautiful silver meat fork, now on exhibition at the jewelry store window, will be given to the winner. Mr. Worthington will pronounce the words, Mr. Mercer acting as referee. The Model speller will be used, giving all a fair chance. A fine program, commencing promptly at 8 o'clock, will be given as follows:

Instrumental, Miss Ethel Stryker; recitation, Miss Elsie Kingery; music, ladies' quartette; recitation, Mrs. E. S. Roe; ladies' quartette.

THE SEPARATOR.

It Will Pay to Have One With Ten or More Cows.

A separator will pay in any dairy where butter is made from ten or more cows. When cream is taken by the most careful setting of milk, either in shallow pans or in deep cans, too much of the butter fat is left in the skim-milk, while a separator will leave scarcely any. The difference will in a short time amount to enough to pay for a separator costing from \$75 to \$125, to say nothing of the increased value of the skim-milk, while the labor of running and caring for a separator is far less than that required for setting and skimming the milk and cleaning the pans. Hand separators do good work, and all excepting the smallest sizes are made so that they can be run by power when desired. A small tread power is all that is needed for a separator capable of handling 400 to 600 pounds of milk per hour, and the running of it is an excellent way to make the bull pay his board. The use of a separator effects such a great saving of ice that it is even more profitable in the south than in the north, where ice is less expensive and cold springs are more abundant.

Many dairymen who sell milk to city consumers find it profitable to use a separator, not for removing a portion of the cream, but to secure milk which is of uniform richness and for removing any impurities it may contain. Even the finest of strainers fails to remove dirt from milk as thoroughly as it is done by a separator, and those dairymen who furnish the purest and most uniform milk will always secure the best trade. WANTED—A man on farm by the year to do general farm work. Living furnished. Enquire of Irving Jacquay-Co., Benton Harbor, Mich.

STOLEN OR STRAYED—Scotch collie dog, white and yellow, about 8 months old. The finder will notify F. H. ANDREWS.

Late Bulb Planting.

"Plant in October" is the advice of the seedman on bulb planting, but much planting is done in November after the first light frost has left the ground free of autumn growths.

Strawberries in the South.

The season for this work may begin in Mississippi with the first good fall rains and continue until about March 15 or so long as the soil remains cool and moist. Successful plantings are sometimes made during midsummer by taking advantage of spells of rainy weather and shifting plants, with dirt adhering to the roots, to nicely prepared soil near by. Where possible to secure good stands from midsummer and early fall settings quite a nice yield of fruit may be expected the following spring. There is little if any risk attending settings made from Nov. 10 to Dec. 10 and from Feb. 20 to March 10, the former planting becoming well established before the advent of severest freezes, the latter escaping the cold and becoming well rooted before dry, warm weather. Settings made during late February on good soil frequently make during the following April and May more than sufficient fruit to cover the cost of plants and the expenses incident to setting out and cultivation.—A. B. McKay, Mississippi.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadly, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50 cts. at W. N. Brodick's drug store.

Richard Harding Davis went to Spain to attend the coronation and see the great coronation bull-fight. He has witnessed bull-fights also in many Spanish-American countries. In the Christmas Scribner's he has a satirical article called "The Gentle Art of Bull Fighting," in which he advances a special claim for a new hero of the bull-fight, the humble chulo who sweeps up the debris in the ring.

On the first and third Tuesday of each month until April 30, 1903, one-way second class Colonists tickets will be sold by the Chicago, Milwaukee and St. Paul Railway from Chicago to points in South Dakota, North Dakota, Nebraska, Kansas, Eastern Colorado, Texas, Oklahoma, Indian Territory and Southwestern Missouri, at about one-half regular rates.

To do justice to this number, which for beauty and utility touches the highest mark, it would be necessary to print the entire list of contents. It is sufficient to state that in it the best modern writers and artists are generously represented. The book contains over 280 pages, with 34 full page illustrations, of which 20 are in two or more colors. The magnitude of this December number, for which 728 tons of paper and six tons of ink have been used, may be understood from the fact that 91 presses running 14 hours a day, have been required to print it; the binding alone of the edition of 915,000 copies representing over 20,000,000 sections which had to be gathered individually by human hands.

Friends. There is nothing that touches the heart as the knowledge that you have friends and that they think of you and are ready to do you a kindness.

On Saturday we were surprised and delighted when Mr. Jacob Miller brought us in a large, fat pumpkin pie, saying his wife said she was sure we liked pumpkin pie, and as it would be some time before the pumpkin contest would be decided she would anticipate our wishes, and sent in a sample of the pumpkins they raise.

The readers' attention is called to an article in "The People's Columns" on "Spending our Eveings," which was contributed by Rev. Niergarth. This is an important subject and the "People's Column" is open for a reply from any one who has practical suggestions along this line.

\$60,000 FIRE AT NILES

Paper Mills May Be Rebuilt at Buchanan.

NILES, Nov. 17.—Fire broke out this morning at 3 o'clock in one of the big paper mills of the Niles Board and Paper company. The fire department was slow in responding and the water pressure was very low.

The mills are principally owned by Charles A. Chapin and it is feared that they may be rebuilt at Buchanan, where Mr. Chapin has an abundance of unused water power.

Gambling in Niles

Niles, Mich., Nov. 14.—A wave of reform, which promises to wipe out the wholesale gambling which has been allowed to flourish unmolested here for years, until the gambling hells become so bold as to openly operate every imaginable gambling device, from a slot machine to a roulette wheel, has struck the town.

At the time of the failure of the First National bank a couple of years ago great indignation was aroused when the fact was exploited that Charlie Johnson, the absconding cashier, had openly played poker when the stakes were high and that his downfall was in a measure attributable to the manner in which gambling hells were allowed to flourish in Niles.

The fact that upwards of a hundred people were found gambling in the dens in question has aroused the better class of citizens, many of whom declare that the evil must be torn up root and branch. A fund is being quietly raised with which to fight the gamblers, and interesting times are looked forward to.

School Notes.

The entertainment Saturday night netted the seniors \$11.40.

At Chapel exercises Monday morning the pupils of the third grade furnished two songs, which were much appreciated.

The ninth grade algebra class have begun the subject of factoring, which will keep them busy the remainder of the semester.

In the class meeting Friday afternoon the historical game of the Presidents was won by Robert Davis, he having guessed correctly the greatest number of questions on the cards.

The fifth grade enjoyed a simple yet beneficial experiment which proved that air is a material thing and takes up room.

Friday afternoon the seventh grade enjoyed playing Michigan Geography cards. Richard Henderson and Clifford Peters guessed the most.

The A class of the third grade is working in short division and the B class is having multiplication by 6.

Thanksgiving compositions have been written by the sixth grade. The best and most interesting will be read at their exercises.

The eighth grade had three very pretty pictures presented them, one by Mrs. Currier, one by Mrs. Stanton and one by Mrs. E. S. Roe. A new border around the boards much improves the appearance of the room also.

The A and B classes of the seventh grade are just beginning the study of Promissory Notes and Commission, respectively.

The third, fourth, fifth and sixth grades are busy with preparations

for Thanksgiving exercises.

One of the fifth grade boys was asked to name a carnivorous animal He gave as example, "the Eskimo."

The eighth grade are now taking up the topic "The Slavery Question."

Cecil Bruce, of the third grade has been absent a few days on account of illness.

Edward Estes, Edna Cates and Fay Douglass have put some pretty good drawings on the board for the sixth room.

Each pupil of the fourth grade language class impersonated a month. Orson Chapel and Paul White had the best papers.

The eighth grade had a very interesting lesson in painting Friday afternoon.

Sixth graders are making a careful study of Michigan.

The fourth grade is indebted to Nina Binns for a dozen beautiful pictures for the decoration of the school room.

Miss Seymour has taught the sixth grade some pretty Thanksgiving songs.

The B class fourth grade are engaged in letter writing and a study of the United States postal system.

WARD SCHOOL

A step placed under the black board is a great convenience for our short people.

The A division second grade are doing some supplementary work in reading from "Child's Life of Whittier."

Mrs. M. M. Manley of Grand Rapids and Mrs. L. D. Roberts of Decatur with grand daughter Helen Peterson will arrive to-morrow morning to spend the day with Mrs. H. M. Brodick renewing the acquaintance of twenty years ago when they were residents of Decatur.

Business Change.

Walter E. Mutchler, one of Buchanan's ambitious and worthy young men, has launched his boat on the commercial sea and bought out F. L. Raymond's meat market, next door to John Morris on one side and "Skeet" Rough on the other side. Mr. Mutchler is well known in Buchanan where he has lived all his life, and is worthy of the continued patronage of Mr. Raymond's trade. He will continue his business on Thursday of this week and extends a cordial invitation to all the old, and new customers to call on him and he will endeavor to give them the best service at the lowest prices.

For Rent.

"The Observer" says it is almost impossible to find a "For Rent" sign on any building in the town, and if there is, there must be some peculiar circumstances if it remains over twenty-four hours. This is certainly a good sign for Buchanan.

Ribs Broken.

Mrs. Sarah Fisher, on Monday evening, fell down cellar the entire flight. She broke two ribs and otherwise bruised herself very painfully. It is to be hoped no more serious complication will develop.

Card of Thanks

To the friends who so kindly donated to me Monday evening I give my heartfelt thanks, and God bless them is my prayer.

"LET AH SIN COME IN"

That's the Way James J. Hill Talks, and Says John Will Harm Nobody.

New York, Nov. 14.—James J. Hill, president of the Great Northern Railway company, spoke on "The Development of America and China Commensurate with Their Commerce," and

JAMES J. HILL.

paid a high tribute to Wu Ting Fang, who, he said, had broken down the barrier of prejudice and done much to intelligently advance the relations of this country with China.

In conclusion, Hill said: "Open the door. Don't say no. If the Chinaman seeing an education in this country thinks it wise to get his education, here he won't be any the less friendly to us. Don't drive him out. Let him be welcomed. * * * They won't drive you or anybody out."

STRUCK IN SYMPATHY

And Immediately Put 100 Pickets on Guard—Strike Seems a Sympathetic One.

Chicago, Nov. 14.—Two hundred and fifty employes of the Mechanical Rubber company went on a strike yesterday, the workers asserting that the company is controlled by the rubber trust, and is at present filling orders that would under ordinary circumstances go to the Morgan & Wright factory which was closed by a strike last week.

The walk-out was ordered Wednesday night and when the employes of the company reached the plant yesterday morning they found it guarded by over 100 pickets from the Morgan & Wright factory. Every approach was guarded and labor men say no work will be done until the trust decides to recognize the union and its demands.

BANKERS HAVE FINISHED

Said all They Had to Say on Finance for One Year and Adjourned Their Meeting.

New Orleans, Nov. 14.—The American Bankers' association yesterday concluded its three days' session, and indications point to San Francisco as the next place of meeting. The selection will be made at the next meeting of the executive council at New York next April. The new officers were elected and installed. The formal invitation of San Francisco was engraved on a solid gold plate 5 by 4 inches.

Under a resolution the president will appoint seven men to investigate the currency question and submit a solution at the next session. The committee will be announced by President Hardy at a later date.

Frank of Lightning in Wisconsin.

Oconto, Wis., Nov. 14.—The school house in district No. 4, in the town of Little River, was struck by lightning yesterday and burned to the ground. The teacher, Miss Edna McDowell, and the pupils were all stunned by the shock, but were rescued by a gang of laborers. One of the laborers had one shoe completely riddled with holes by the bolt, but escaped unhurt.

Indiana Men for Cannon.

Chicago, Nov. 14.—At a meeting yesterday of the Republican members-elect of the Indiana delegation in congress, at which Representatives Hemmenway, Holliday, Watson, C. B. Landis, Frederick Landis, Crumacker and Brick, were present or represented, a unanimous declaration was made for Representative Cannon for speaker of the house.

Costly Fire at Olyphant, Pa.

Scranton, Pa., Nov. 14.—The town of Olyphant, six miles north of Scranton, was swept by flames yesterday and an entire block in the business portion was in ruins at 1 p. m., when the fire was gotten under control, after two hours' destructive progress. The blaze was caused by an explosion of a gas tank. The loss is about \$100,000.

Firemen Killed in a Collision.

Sullivan, Mo., Nov. 14.—A head-end collision between freight trains occurred on the Frisco railroad, two miles from here yesterday, killing one man and injuring two. John Martin, fireman, is dead. Robert H. Murphy, engineer, has an arm and leg broken, and Joseph Lingenbrink, is cut and bruised.

WHAT WHITE KNOWS

He Told Judge Weist, It Is Probable, but Doesn't Tell Any One Else.

TWO BROTHERS SEE THE JUDGE

Presumably Relative to the Military Scandal Revival—Michigan Miscellany.

Lansing, Mich., Nov. 14.—General Will L. White, the quartermaster general of the Michigan National Guard, when the state military fraud was committed, is again brought to Lansing by the investigation into the charges of corruption of the Sutton jury. His presence before the inquisition yesterday morning confirms the belief that something of a substantial nature is being developed outside of the specific charges of corruption of the Sutton jury. At least it is remembered that General White was many miles away at the time Sutton was tried, and that he could not have known anything about the details in connection with the trial.

Two Brothers Visit the Judge.

It is easy to believe, however, that he may have later found out something about the Sutton jury. but the speculation seems more tenable that he was called to testify regarding other matters, possibly in connection with the grand jury. General White went to Judge Weist's office with W. E. White, of Grand Rapids, his brother-in-law, with whom he was in business at Grand Rapids when W. L.'s troubles happened. W. E. White was an important witness at the Marsh and Sutton trials, as he was able to give an account of the quartermaster general's financial transactions while the military deal was being carried out.

Declined to Say What Occurred.

Both were closeted in the judge's office for half an hour or more. When they came out General White would not say what he told the judge, who is sitting as a magistrate, or even that he said anything of value to them. Jonas Beck, a Lansing saloonist, and C. M. Hilliard, one of the jurors summoned and later excused, were among the witnesses yesterday morning. It could not be learned that they knew anything that can be used by the prosecuting authorities.

MATRIMONY A LA MICHIGAN

Record Mix-Up Developed in a Suit to Have a Marriage Annulled—Extraordinary Facts.

Grand Rapids, Mich., Nov. 14.—Jasper Morley's petition to have his marriage with Anna L. Morley, contracted in 1895, annulled, which was heard before Judge Perkins in the circuit court here, brought some extraordinary facts to light. Morley's petition was on the ground that he learned that his wife at the time of her marriage had an undivorced husband named Jarvis. It was shown by the complainant that she married Jarvis in 1876, at Cedar Springs.

The defense sprung a surprise when proofs were shown that at the time she married Jarvis she was the wife of a man named Spies, still living, whom she married in 1871, and was still undivorced. The complainant was only squelched for a short time, and came forward with proofs that the Sparta marriage was not legal because Spies was not divorced from a woman he married in Lapeer in 1869, and who was still living. The defense then went back to the records of thirty-five years ago and found absolute proof that Spies' Lapeer bride was the lawful wife at that time of a man named Walker. The annulment was denied by the court.

He Damages Plate Glass Windows.

Saginaw, Mich., Nov. 14.—The man with the diamond, who damaged plate glass windows in many Detroit stores recently, perpetrating mischief that cost several thousand dollars to repair, appears to have struck this town. A large number of plate glass windows in stores here were similarly scratched by an unknown person Sunday night. The Metropolitan Dry Goods and the Union Tea companies had two windows each damaged, and there are several others.

Hunters and Their Targets.

Marquette, Mich., Nov. 14.—Henry Sholdice, a Republic landlooker, was returning on horseback from the woods and when a mile from town his horse was shot from under him and killed instantly. Logging Contractor Duquette had a horse worth \$250 shot. Both losses were mistakes of hunters. At Atsego A. S. Myers mistook Hank Shoulders' white horse for a wolf and fired, the ball striking the animal's head but not with fatal result.

Vein of Coal Near Detroit.

Detroit, Nov. 14.—A report that a rich vein of soft coal had been discovered in Livonia township, fifteen miles northwest from the city, was brought in by Jury Commissioner Hunt. The discovery, Hunt said, was made on the farm of Daniel Blue. Farmer Blue was boring for water and struck the vein of coal at a distance of eighty feet under ground.

Bullet Wound in His Head.

Whittemore, Mich., Nov. 14.—Ed. Thomas, the young son of Charles Thomas, lies unconscious as the result of a bullet wound, and may die. While he and another boy were handling a 32-caliber revolver, the weapon was discharged, the ball striking young Thomas near the temple.

Stromboli in Eruption.
 Rome, Nov. 14. — The volcano on Stromboli island (off the north coast of Sicily) has commenced a terrible eruption. A colossal column of fire is rising and incandescent stones are being emitted from the craters. Many houses on the island have been destroyed.
 In the evidence to be given to the commission will be great masses of statistics which are being prepared by hundreds of clerks of the companies. The miners will hand up buddies or due bills issued to them by the companies, which show accurately the money paid to the men.

WARNED BY GOMPERS

Vaulting Ambition of Some Labor Organizations the Danger Ahead, He Says.

TOO MUCH DESIRE TO BE BOSS

Federation Chief "Hands One" to President Eliot—Beginning of the Anthracite Hearing.

New Orleans, Nov. 14.—President Samuel Gompers, at the opening of the American Federation of Labor yesterday, delivered an impassioned warning to the members of the organization that the immediate future of trade and labor assemblies was seriously endangered by the conflicting claims of jurisdiction made by different bodies. Unless such things were approached in calmness and handled with moderation, he declared, the labor organizations of the country would soon be involved in a conflict which would by comparison dwarf all the struggles in which labor organizations have so far been engaged. The matter would, unless checked, he asserted, come to a point where laboring men would fight with laboring men from behind barricades, in the manner in which men deal with their mortal foes.

Met with Hearty Response.
 His warning of danger and his counsels of peace and moderation met with a hearty response from the assembled delegates, and wild applause greeted the speaker as he closed that portion of his annual address in which he had pointed out the perils which in his opinion will surely come unless methods are altered and altered soon. Another place where he was enthusiastically applauded was when he referred to President Eliot, president of Harvard, who has recently been speaking harshly of the methods of organized labor.
 Compared with Judas Iscariot.
 In referring to Eliot Gompers said that it was amazing to note the ignorance among so-called educated people regarding the aims and objects of the organization. "No man who as an educator," said Gompers, "poses as a strike breaker is fit for the position he holds. Compared with such a man Benedict Arnold was a martyr and Judas Iscariot a saint." He was cheered when he praised Mitchell.
 Resume of the Day's Work.
 The first day of the convention, aside from the address of President Gompers, was not of great interest to outsiders, and many delegates found it fatiguing. The morning session was occupied with addresses of welcome and responses and the report of the committee on credentials. The afternoon was consumed by the address of President Gompers, which occupied him for two hours and twenty minutes of rapid reading. The reports of other officers required two additional hours. Today it is expected that the actual work of the convention will be entered upon. There were about 400 delegates present at the opening meeting of the convention.

INVESTIGATION HAS COMMENCED

Commission to Inquire Into the Anthracite Strike Begins Hearing Evidence.

Scranton, Pa., Nov. 14. — All the members of the anthracite strike commission arrived in town yesterday, in readiness to begin the hearing of the differences existing between the miners and their employers. The sessions of the commission began this morning at 10 o'clock. Most of the representatives of the contending parties were also on the ground last night. It is expected that at least two weeks will be taken up in hearing the witnesses on each side. After the preliminary statements are made today and other preliminary business transacted formal presentation of the miners' side of the issue will begin. Mitchell will call witnesses, who will be examined by his attorneys, by those representing the coal companies, and also by the commissioners.
 Most of the witnesses will be practical miners, and they will give testimony in support of the demands formally laid before the commission in Mitchell's preliminary statement of last week. About twenty-five or thirty miners will take the witness stand. The operators will present their witnesses after the miners are through. It is the intention of the commission to adhere as closely to ordinary court procedure in pursuing its investigation as it possibly can. It will, however, not unnecessarily restrict either side in presenting evidence, it being the desire of the commissioners that each of the sides shall be thoroughly satisfied with the presentation of its own case.

In the evidence to be given to the commission will be great masses of statistics which are being prepared by hundreds of clerks of the companies. The miners will hand up buddies or due bills issued to them by the companies, which show accurately the money paid to the men.

COUNTY SEAT NEWS

Harold Righter, 18 years old, through his father, John L. Righter, has commenced a \$1,000 damage suit against John Ford, of Oronoko. On Nov. 7 Ford assaulted young Righter, who is a teacher in a school in Oronoko township, and has for one of his pupils the son of John Ford. The boy had some difficulty with his teacher, and the day following Ford met Righter, the teacher, and viciously assaulted him. The former appeared before a magistrate and pleaded guilty to assault and battery, and supposed the matter was settled, but now he finds himself involved in a \$1,000 damage suit.

Alex. McDonald, accused of breaking jail five years ago, and Albert Rowley, accused of stealing a team in St. Joseph, were arraigned before Justice St. Clair today, Prosecutor Riford appearing for the people. Both waived examination and were held under \$1,000 bail each to the circuit.

A bill for divorce was filed this morning by Florence F. Hutchison, of Galien, against her husband, Hiram W. Hutchison. They were married on the 18th of November, 1900, by Justice St. Clair. The complainant charges cruelty towards herself and her minor children.

MARRIAGE LICENSES.

George W. Mitchell, 47; Phena Hooper, 32, both of Buchanan. They were married at the county clerk's office by Justice Hammond Saturday morning.

COUNTY NEWS.

Commencing Tuesday, Nov. 18 the Graham & Morton company will run but one steamer between the Twin cities and Chicago. The boat will leave Chicago Saturdays and Sundays at 11:30 p. m., all other days at 9:30. It will leave Benton Harbor at 8 o'clock and St. Joseph at 9 o'clock every evening except Saturday.

It is reported that an attempt will be made to secure a pardon for C. A. Johnson, the former cashier of the Niles bank, who is now serving a sentence in prison to expiate his crime. He has served but one year, and the general opinion seems to be that the attempt to secure a pardon is premature and will not meet with public favor.

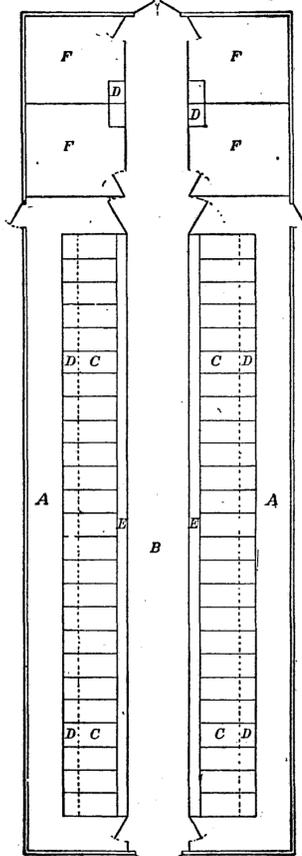

County Treasurer McCracken apportioned the county primary school money yesterday among the cities and township. It is the semi-annual apportionment. The apportionment is as follows:

	No. Chil.	Amount
Bainbridge	518	\$ 1087 80
Benton	970	2037 00
Benton Harbor	1770	3717 00

Dairy Buildings

Herewith, reproduced from farmers' bulletin No. 151, is shown the ground plan of a cow stable, which may be made as long as is necessary to accommodate the herd. In this plan the stalls face the outside of the building.

leaving an eight foot driveway through the middle to allow room for the use of a wagon in cleaning. If the manure is to be taken out in a handcart or wheelbarrow, this passage may be considerably narrower, thus decreasing the width of the building. On the outside of the stalls, next to the walls, is a passage or feeding alley from three and a half to five feet wide for use in carrying in feed and filling the mangers. The manure gutter in the rear of the stalls is sixteen inches wide, and the stalls are seven feet deep, of which two feet are taken up by the manger, leaving five feet clear as standing room for the cows. This may be reduced to 4 feet 6 inches or even less for animals of the smaller breeds or below average size. At one end of the stable are four box stalls, each 12 by 12 feet or less, one of which may be used for the bull and the others for calves, cows which are about to calve, sick cows or for any other purpose which may suit the convenience of the owner. The width of the stalls should be from three to four feet, varying with the size of the cows and the kind of stall which is used.

World's Fair Notes.

There will be no building exclusively for women's exhibits at the World's Fair. Woman's work will stand side by side with that of men in the various exhibit palaces. A woman's building will be erected but it will only be for the purpose of meetings and entertainment. Game Commissioner Harris of Colorado is collecting fine specimens of wild animals to form a part of the exhibit at the World's Fair. Graduates of the University of Michigan have started a movement among their organizations looking to the erection of a headquarters building for the men of that University at the World's Fair.

KEEP YOUR FEET DRY.

Keep them warm too. Any care that you give your feet at this time of the year will well repay you. A maxim says that if your feet are all right that you are all right. A good deal of truth in it too. There are RUBBERS here for any shape of SHOE almost. They are this year's good, strong and durable. Put a pair on and your feet will never guess that the ground is wet and slushy.

Storing Dahlia Roots.

The dahlia appeals with force to all who love pure, rich colors, while at the same time light, delicate shades which go well with flesh tints make the flower good for personal adornment or for decoration.

Any one can grow the dahlia if he will. Roots can remain in the ground until any time after frost cuts the tops and before the ground is frozen hard. The lifted roots are to be taken into a warm cellar just as they are, with the dirt adhering, and left there through the winter and spring. The storing of the root over winter is the most delicate matter in the handling of the plant, and over it many amateurs come to grief. The roots must be kept both dry and warm.

Next Season's Sweet Peas.

It has been my practice to prepare the ground thoroughly in the fall and to sow the seed early in spring, says a Pennsylvania gardener. In November I dig a trench 10 inches wide and 1 foot deep; then put four inches of well decomposed horse manure in the bottom of the trench. Tramp it firmly and put in two inches of soil on top of the manure. Then give a liberal dusting of pure bonemeal and cover this with soil in rough condition and let the trench remain until spring. Sowing the seed depends greatly upon the weather and condition of the ground, but the seed should be planted not later than the middle of March.
