### BASKET BALL.

#### Royal Neighbors and Eastern Star Lodges to Play To-morrow Night at Opera House.

While the business men of the village drew a large house last Wednesday evening at their game of basket ball, the game to be played tomorrow night between the Eastern Star and Royal Neighbor ladies promises to draw an equally large audience. The proceeds secured will be used by each lodge to apply on the piano fund.

The following are the ladies, who will play: Eastern Stars, Mesdames Gertrude Garland, Anna Bird, Mary Stryker, Jennie Wood, Louise Sanders, and Mattie Graffort; with Miss Harper, Mrs. Millie East, and Mrs. Emma Knight as substitutes. These ladies will wear a star made of the five lodge colors, on the front of their blouses.

The Royal Neighbors, the team and their substitutes are: Mesdames Lucy Beistle, Cora Rough, Fredrika Runner, Anna Woodworth, Cora Covell, Minnie Smith, May Miller and Miss Georgia Wilcox.

#### Appointments in Evangelical Church.

The following is the list of appointments for St. Joseph District of the Michigan Conference of the Evangelical Association which met last week.

Presiding Elder, G. J. Kim; Buchanan, J. A. Halmluber; Portage Prairie, A. Ostroth; St. Joseph, W. R. Currier; Royalton, J. E. Holsapple; Bainbridge, G. Heximer; Marcellus, H. Spittler; Bristol, W. H. Moyer; Lima, H. C. Fuerstenan; Park, H. A. Decker; Vicksburg, E. G. Johnson; Marshall, W. H. Camfield; Fremont, E. M. Renner; Jackson, P. Scheumer; Maple Grove, F. Koehler.

The next Annual Conference will be held in Buchanan, April 1904.

John Milliard, South Bend says: Coonley's Tonic Ext. of Sarsaparilla is the best medicine made, it cured me of a terrible Eczema after all other blood medicines had failed. Be wise and take it first, only 50c a large bottle at E. S. Dodd & Son's.

#### Free of Charge.

Send us your name and we will send you charges prepaid a full size dollar bottle of Re Sto Ro. guaranteed to restore gray hair to its natural color. This is no dye. Address Re Sto Ro Mfg. Co.

13 Pearl St., Grand Rapids, Mich.

### DO YOU KNOW

The Pennell Inquest will be held in Buffalo next Friday afternoon. The proceedings will deal mainly with the facts surrounding his death, the story of witnesses to the occurrence and the movements of the Pennells in the vicinity of the quarry.

James S. Harlan, of Chicago, formerly attorney general of Porto Rico, is visiting Justis Harlan, of the Supreme court, and says that the islanders are remarkably prosperous and rapidly adopting American ideas and the English Language.

Mrs. Margaret E. Armour gives \$40,000 to the Kansas City Woman's Christian association to establish a home for worthy old people.

The new Minnesota capital building which is soon to be completed at a cost of \$4,500,000, will be one of the most sumptuous public buildings in the world. Will be 438 ft long, 233 ft wide at center and 220 feet high. It will not be completed for two years.

Mrs. Roosevelt and children who have been on a cruise on the Mayflower down the Potomac River and Chesapeake Bay, returned to Washington Sunday afternoon. Miss Alice returned to Washington Sunday night from her visit to Governor Hunt's family in Porto Rico.

A curious phenomenon has been discovered in Yellowstone Park, where a big pressed corn beef deposit has been found. Enormous droves of cattle, during the early periods, were buried by masses of earth. The extensive saline deposits preserved and seasoned the meat, the cold of the ice kept it for ages, and it has been transformed into a salt meat which is nutritious and not unlike corned beef.

Few people realize the possibilities of ammonia. The preparation known as common spirits of ammonia is valuable in many ailments. For example ten or twenty drops in a large wine glass of water will revive a fainting person. It is an excellent stimulant in case of nervous depression and headache, as it restores circulation. Again, a few drops of ammonia poured into hard water makes the water soft, and it takes the dirt off of paint more quickly than anything else, takes the stains out of carpets, cleans combs and hair brushes and makes gold and silver look as good as new.

## ELECTION RETURNS

### Appropriations Made at Town Meeting Monday.

The following are the reports of the township election held Monday. With but a single exception the republican ticket was elected throughout, the exception being that of J. L. Richards who was elected supervisor with a small majority.

Supervisor,	Rep.	Dem.	MaJ.
Jos. P. Beistle	275		
Jos. L. Richards		307	32
Clerk			
Fred. W. Ravin	356		180
Edson B. Weaver		220	
Treasurer			
William J. Miller	361		148
Henry R. Adams		213	
Highway Commissioner			
William Wray	306		182
Geo. Hess		274	
Justice of Peace			
Chas. E. Sabin	338		110
Richard V. Clark		228	
School Inspector			
Mrs. Eliza Emery	324		99
Mrs. Mary F. Stryker		235	
Members Board of Review			
Chas. Bishop	356		187
William R. Rough		219	
Constables			
Clinton McCollum	346		121
John Camp	353		112
Leander Bunker	346		121
Ross Reynolds	348		111
Chas. Bates		226	
Lewis Proud		221	
Wm. D. House		225	
Henry Eisele		231	

On the prohibition ticket Myron S. Mead, for supervisor received 14 votes; Hiram N. Mowery, clerk 15; Wm F. Runner, treasurer 17; Geo. Beach, highway commissioner 16; Chas. Shook, school inspector, 18.

In the afternoon the township meeting was held at precinct No. 1 and the following appropriations made:

Highway fund	\$3,000 00
Poor	500 00
Library	150 00
Township	1,000 00
Sink hole " to liquidate debt	250 00
Soldiers' fund	100 00

In the road districts the following path masters were elected: District No. 1 Robt. Graham, No. 2 Fred Hunter, No. 3 Will Diment, No. 4 Ivy Mitchell, No. 5 John Hanover, No. 6 Chas. Fenner, No. 7 Henry Rundell, No. 8 Geo. Weaver, No. 10 Frank Wells, No. 11 Mike Wilkins, No. 12 Fred Andrews, No. 13 John H. Hess, No. 14 Noah Harroff, No. 17 Ed. Reams, No. 18 Geo. W. Batchelor, No. 19 Geo. Samson, No. 21 M. O. Burditt, No. 23 Chas. Tichenor.

The following is the vote in Bertrand township, which as usual went entirely democratic, with the following majorities: Supervisor, Chas. Matthews 33; clerk, Wm. A. Womer 30; treasurer, Wesley Swartz 37; highway commissioner, Isaac Wells 55; justice of the peace, Robt. Haslett 29; school inspector, Mrs. Rose Arney 17; members board of review, Chas. P. Ehninger 17; constables, Wilson Arnold 23, Thos. Houseworth 24, Will Shook 24, Orley Keizer 25.

### Republicans Elected at Niles.

Niles, Mich., April 6.—(Special).—The election today resulted in a landslide for the Republicans, they electing the mayor, four aldermen, two supervisors and two constables. The Republicans now have a majority in the council. The successful candidates are: For mayor, C. R. Smith; supervisors, James M. Babcock, J. A. Peck, Walter A. Smith and S. S. Beal; aldermen, H. A. Horning, L. E. Wood, Edward Corell and Wm A. Reddick

### Benton Harbor.

Raymond B. Gillette was chosen mayor by 342 majority. The council stands seven Republicans and one Democrat.

## UMHOLTZ OIL COMPANY

Excitement Growing and Oil Companies are increasing.

### OPPORTUNITY FOR ALL.

Riches Will Probably Come Faster Than With the Numerous "Get Rich Quick" Schemes so Extensively Advertised.

The Umholtz farm, where the oil well has been located and now gives promise of great returns, is located five miles north east of Buchanan on the east side of the St. Joseph River and has had crude oil bubbling through the surface for years. The property has been eagerly sought for by outside parties but this is to be an exclusively local company. The following are the recently elected officers of the company: president, Judge Sherlock Allen, of Berrien Springs; Vice president, Geo. Umholtz, of Niles Township; treasurer, H. H. Hosford, of Buchanan; secretary, Dr. Geo. Green, of Berrien Springs.

The board of directors are composed of the above mentioned officers and Geo. Foster, of Niles township, and C. J. Carnegie, of west Niles.

The following is the subscription blanks for stock in the new oil company.

Niles, Mich. — 190—

Dear Sir: I here subscribe for \_\_\_\_\_ shares of the capital stock of the Umholtz Oil Company full paid and nonassessable, for which I agree to pay on demand ten cents per share. It is also understood that if the whole or any part of this money is not used for the purpose of said company, it shall be returned to the subscriber.

Sign here

Dr. Green, of Berrien Springs, while in Buchanan last week called on the RECORD with H. H. Hosford and they thoroughly believe that they have a good thing.

Those who desire to invest have every opportunity to investigate and there need be no danger of any great loss as if each person will invest a little, all will be secured that is necessary to put down wells. H. H. Hosford may be interviewed regarding the purchase of stock.

### State and County Tickets.

The following are the reports on some of the state and county elections. For Justice Supreme court, Frank A. Hooker, Republican, was elected; for regents, L. E. Knappen and Peter White. The county school commissioner C. D. Jennings was elected by a majority of 122.

From what reports are in, the board of Supervisors will stand about the same as last year.

### County Seat News.

Suit for \$1000 services as engineer has been brought by Walter L. Stebbins against the M. B. H. & C. R. R.

The Loescher case at St. Joseph is likely to end in bluster as the girls are gone to Pennsylvania and no case can be made against men, O'Rourke and Watson, by the grand jury. The fathers say they will be home.

Hattie V. Neib, of Niles, has brought suit for divorce against her husband, Micheal Nieb, one of the complaints is, that he seldom takes a bath and that his person is offensive. She ought to have a divorce.

Grand Jury will meet April 14.

Judge Coolidge has ordered the delinquent tax sale to be adjourned April 10th during which time objections to the sale are to be prepared and filed.

### Not Many Applicants.

The examinations for positions as teachers in Berrien Co. took place at St. Joseph Thursday and Friday of last week. In the list there were 47 females and 19 males, the candidates were more than usually youthful, 51 of them being under 21 years old.

Teachers are scarce in this county, and growing scarcer each year. In 1900 there were 111 who took the examination, this year only 68, and the school commissioner is at a loss to find properly qualified persons to fill all the positions in the county.

Of shoe-wearing used to be a necessity. People used to expect foot unhappiness. They seldom or never disappointed.

# BUCHANAN RECORD.

D. F. BOWER,  
EDITOR.

TERMS \$1.25 PER YEAR

Entered at the Post-office at Buchanan, Mich as second-class matter.

TUESDAY, APRIL 7, 1908.

## Buchanan's Business Openings.

Splendid opportunity for a couple of good factories; two good brick buildings ready, waiting for occupation.

Ministers as a class are very human, as other men, and many of them are very much overworked, but there is one thing they ought to do if no other, visit the aged and sick. Mr. W. R. Rough in speaking to a Record representative today said he had just been visiting an aged and sick man and that he felt very badly because no minister called on him in four years although he was a member of a church. He wished Mr. Rough to have the Record ask why this was?

### Concerted Action Needed.

Negotiations have just been concluded whereby a new industry will be established in the northwestern section of the city. A site has been purchased and plans are in preparation for the construction of what will be when completed the largest shoe manufacturing establishment in Chicago.

The A. B. Spinks Shoe Manufacturing Company has been organized and has acquired a site Grayland, where it will invest \$300,000 in buildings and equipment which, when in operation, will give employment to 1,800 hands. The building will be two stories high and will cover practically an entire city block, the area being 306x308 feet. It will be of the most modern type and design of factory construction. It will be built of brick and stone. It is the intention to begin work within a short time, with a view to its completion in the early fall. It is said that when the plant goes into operation Mr. Spinks will bring to Chicago 500 skilled operators from Cincinnati. The plant will be located at the corner of Milwaukee and North Forty-fifth avenues, near the St Paul and Northwestern railroad.

The above appeared in the Chicago Sunday Chronicle of April 5th.

Through the continued efforts of Mr. John Morris, Buchanan had the opportunity of getting this factory but so far known no one rendered him any assistance, and we see the results. Factories can be made if some concerted efforts would be made.

Mr. Morris seems to be the only man who is really taking any interest in getting any factories here. A week or so ago when in Chicago he did some advertising at his own cost and there is a possibility it will bring some results, but others must help if there are to be any noticeable results.

**P. and H. Society Have Anniversary.**  
April 1 1908, the P. & H. society of the Larger Hope church met with Mrs. C. E. Phelps.

April 14 1886, the ladies' social of the Larger Hope church met with Mrs. C. E. Phelps, and to add to the pleasure of the meeting of 1908 the songs, readings, recitations, and discussions of scripture recalled pleasant memories of seventeen years ago, the officers, Mrs. Griffin our first president, and the absent ones so many miles away, yet so near us in our thoughts. As a token of remembrance each one present was presented with a small bouquet of our beautiful spring flowers, jonquil and myrtle. The sick were remembered, also those living at a distance.

Beside the regular program Mrs. D. L. Phelps read a poem entitled "The Old Piano," a song by our president, Mrs. Baird and some baby pieces recited by little two year old Leta Boyer, which we all enjoyed.

### Reception For New Pastor.

Elder Veach, the newly chosen pastor of the Disciple church, and his wife, will be given a reception Friday evening at the home of Mr. and Mrs. Wm. Powers. Elder Veach comes from New Holland, Ohio, and is this week moving his household goods in the parsonage of the Disciple church. His family, consisting of a wife and little daughter four years old, are also here. They will be glad to greet the members of the church and congregation on Friday evening at the reception. All invited.

United States Department of Agriculture for the month of March 1908.

### TEMPERATURE.

From the Atlantic coast westward to the eastern Rocky Mountain slope the month of March, 1908, was warmer than the average, ranging from 2 degrees to 6 degrees per day in the Southern States and the Mississippi and Missouri valleys and 6 degrees to 12 degrees in the Ohio Valley, Lake region, Middle Atlantic States, and New England. The greatest excess of temperature occurred in New York and Pennsylvania, where it averaged about 12 degrees. There was also a slight excess in temperature over extreme southern California and in southern Idaho. The month was cooler than usual in western Texas and generally throughout the Rocky Mountain region and Pacific Coast States, the deficiency being greatest in Montana, where it ranged from 2 degrees to 6 degrees per day, in central California there was a deficiency of from 2 degrees to 5 degrees, and in western Texas about 2 degrees. The lowest temperature reported during the month was -18 degrees at Williston, N. Dak., and the highest temperature east of the Rocky Mountains was 84 degrees at Tampa, Fla.

The record of maximum temperatures of former years was broken during the second decade at numerous stations in the Lake region and New England.

### PRECIPITATION.

The precipitation was in excess of the average from New England southwestward to the east Gulf coast, in Louisiana, the eastern half of Texas, and in Wisconsin, Minnesota, and eastern South Dakota.

The amount of precipitation ranged from 4 to 6 inches in New England and the Middle Atlantic States and in the Gulf States from 5 inches in the eastern portion to over 20 inches in portions of Louisiana. In the Lake region and Ohio Valley the precipitation ranged from about 2 inches to over 4 inches. There was an excess in Puget Sound region and generally throughout California, where the precipitation ranged from 4 to 7 inches. Less than the usual amount fell in portions of the South Atlantic States, Lake region Ohio and lower Mississippi valleys, and generally throughout eastern Rocky Mountain Slope.

### P. R. F. CLUB.

Mr. and Mrs. L. B. Rough very pleasantly allowed the members and friends of the Portage Prairie Farmers club to the number of 40 to take full possession of their home Saturday evening, April 4. An excellent program had been prepared which consisted of a song by the club, "Michigan My Michigan," Prayer by L. B. Rough, instrumental music by Mrs. Albert Rhoades and Mr. L. B. Rough, organ and violin, select reading in German entitled, "Der shool house on der grick" by Mrs. Susan Arney, recitation by Elmer Rough which was well rendered and caused a great merriment. Among the guests present were Mr. and Mrs. Joseph Krizer, who very gracefully remembered the club by bringing their phonograph which furnished some very delightful music. The next meeting will be at Mr. and Mrs. Orley Keizer Saturday, evening, April 18, a fine program is being prepared and all members are urged to be present and strangers invited to come and enjoy the meeting.

**MRS. L. S. ADAMS,**  
Of Galveston, Texas.  
"Wine of Cardui is indeed a blessing to tired women. Having suffered for seven years with weakness and bearing-down pains, and having tried several doctors and different remedies with no success, your Wine of Cardui was the only thing which helped me, and eventually cured me. It seemed to build up the weak parts, strengthen the system and correct irregularities."

By "tired women" Mrs. Adams means nervous women who have disordered menses, falling of the womb, ovarian troubles or any of these ailments that women have. You can cure yourself at home with this great women's remedy, Wine of Cardui. Wine of Cardui has cured thousands of cases which doctors have failed to benefit. Why not begin to get well today? All druggists have \$1.00 bottles. For any stomach, liver or bowel disorder, the Bedford's Black-Draught should be used.

How to Sell Goods

"You must know how to talk with a customer, so that she will buy," is one of the things the buyer says over and over again in his lectures down in the basement. Even when the girl is behind the counter at work the buyer will often step up and give her a hint. For instance, he will give a new name to an old piece of goods. There is everything in a name. He came up to me one day and said, "Call that line of goods the Marlborough," and it was not long before I had sold the entire stock. The sweller a name is, the better, of course, "Cumberland" pins will sell much better than plain pins, even if they are the same thing. French names are much in vogue, too, and they are sometimes coined. Names taken from swell sports, such as "Ping pong," are also very good sellers. Another thing of course, which helps a girl to sell the goods is genuine knowledge of them.—From the Autobiography of a Shop Girl, in *Leslie's Monthly* for April.

The Annihilation of Distance.

How much nearer to each other the nations of the world seem to be today and really are today than was the case a few decades ago. When weeks and months were required for communications between the United States and Europe the countries of the old world appeared to be a long way off. Now the circumference of old earth is belted with telegraph and cable lines in every possible direction. What happens today in Europe, Asia, Africa, Australia, South America and the great islands of the sea is made known to us tomorrow by great newspapers like The Chicago Record-Herald, whose foreign correspondents are located in every important city in the world outside of the United States. In addition to its own staff correspondents The Record-Herald enjoys the foreign news service of the New York Herald, famous for many years for the reliability of its foreign news, and also of that great co-operative news gathering organization, the Associated Press. No other daily newspaper in America possesses facilities so varied and extensive for covering the news of all nations.

Theory of X-Ray on Cancer, Etc.

Many theories have been advanced as to the action of the x-ray in the various conditions for which it has been used. By some the belief is held that restitution of the tissues takes place under x-ray treatment; that is, cancer tissue becomes transformed or is developed into normal tissue. Others, taking for granted that the parasitic or bacterial theories of the origin of some of the diseases treated by the x-ray have been conclusively proven, believe that the x-ray, due to its actinic action, destroys these conditions. These theories seem rather far-fetched, however, for, aside from the lack of proof of the parasitic or bacterial origin of the diseases referred to, it does not seem probable, from observations which have been made by various investigators, that the success of the x-ray treatment in these diseases is exclusively due to any bactericidal power which the rays may possess.

Personally, we believe the action of the x-ray is the same in all the diseases in which it has been found of value, and also that that action is most plausibly explained when viewed from the standpoint of the theory of phagocytosis followed by leucocytolysis.

First, it must be admitted that, aside from whatever chemical or electrical property the x-ray may possess, the sum total of its action is that of an irritant. Now if we irritate a certain part of the body by making frequent x-ray exposures, we produce ultimately a simple focal inflammation. Inflammation means the determination of much blood to the part, hyperaemia. Due to the increased volume of blood, leucocytes accumulate in large quantities and, finally, stasis occurs, the circulation being off, the part dies for want of nourishment. When no suitable nutritive material is at hand there is developed a tendency toward degeneration. No doubt this degeneration is partly, at least, due to an accumulation of the products of the metabolism of cells.

Primarily, then, the x-ray affects the essential tissue-forming elements of the body. The parts which are

walled-off decompose chemically and are either discharged or absorbed. The rapid decrease in the size of some growths under x-ray treatment also points to a more general or systemic action, probably due to stimulation of the lymphatics.

The fact that nearly every case, no matter how severe, treated by the x-ray seems to improve at the beginning of the treatment, shows that it exerts an influence which is not only local but also systemic. From our personal observations upon several hundred patients we have come to the conclusion that the nutrition of the entire system is affected, through reflex action probably, and this produces a general stimulating and tonic effect. (Nutrition, again: and the direct and obvious way to "affect" it for the better, and better than by 'stimulating and tonic' effects, as commonly understood, is unaccountably "hid from the eyes" of the would-be "wise and prudent," while it is obvious to common-sense "babes")

We do believe that the x-ray has established for itself a field in the therapeutics of lupus and epithelioma. Not only that, but the future will see its greatest application in the treatment of patients immediately after operation, to prevent the possibility of recurrence.

The x-ray becomes a danger in the hands of the incompetent operator. We must not forget that we have a great variety of x-rays to deal with—in fact, to use a comparison, the variation in quantity and quality of x-rays obtainable with one piece of apparatus is much greater than all the varieties and qualities of tones which may be produced upon the keyboard of a piano. Again, different tissues demand degrees of x-ray value.—From Dr. Emil H. Grubb, Chicago, *Medical Record*.

**The Most Unpleasant Feature**

Of shoe-wearing used to be the breaking-in process. People used to expect at least a week's foot unhappiness. They looked for it and were seldom or never disappointed.

Different now. It is a daily occurrence for us to have people say about a new pair of shoes: "They are as comfortable as the old one's." It ought to be so.

A shoe that is the shape of the foot, that is not too large, and not too small, will feel comfortable from the first minute you wear it.

Call When It's Shoe-buying Time.

# PRESIDENT GOES WEST

Makes a Start from Washington for a Trip to the Sun's Setting Place.

## TRAIN CLIMBS THE ALLEGHANIES

With the Executive of the Nation in the Engine Cab—Stop at Harrisburg.]

Pittsburg, April 2. — President Roosevelt viewed the scenery around the famous horseshoe curve yesterday afternoon from a seat in the cab of a locomotive attached to his special train, and after a ride of about fifty miles expressed himself as delighted with his experience. When his special reached Altoona, at 4:50 o'clock yesterday afternoon the president alighted from his car and walked rapidly to the front of the train. Two engines were coupled to it ready to pull the heavy cars over the Allegheny mountains, and the president shook hands with the crews of each.

**Climbs Into the Engine Cab.**  
He then climbed into the cab of the rear engine, No. 2408. In the cab with him were Secretary Loeb, Transmaster A. Kaiser, Special Engineer Robert McLaren; the regular engineer, H. T. McCormick, and Fireman H. W. Hunter. As he took his seat the president remarked that being a member of the Brotherhood of Locomotive Firemen he thought he ought to take his turn at feeding the furnace, but he did not do so. When Galitzen, the crest of the mountains, was reached the front locomotive was detached from the train and the run to Seward was made with one engine.

**Goes Back to His Car.**  
Here the president climbed down from his lofty seat, and after shaking hands with the engineers and firemen went back to his car, rather dusty and grimy, but enthusiastic over his novel ride. While the president's engine occupied the second place on the train a tunnel seven-eighths of a mile in length was traversed, and although the cab was protected by windows and doors quite a quantity of smoke found its way in. No record breaking run was made while the president sat in the cab, the speed of the train not reaching over forty-five miles an hour.

**Day Was Uneventful.**  
Outside of his ride on the engine the president passed an uneventful day, devoting a large portion of it to reading. Brief stops were made at Baltimore, Harrisburg and Altoona, but only at one place did the president make a speech. A large crowd met his train at Harrisburg, and although no speech was scheduled for this place he appeared on the rear platform of his car and delivered a short address which was received with many cheers.

**Begins His Journey West.**  
So ended the first day of the president's journey to the west. His train left Washington yesterday at 9:05 a. m. with the president standing on the back platform, bowing to the people who crowded the platforms to wish him a pleasant and safe journey. He will not see Washington again until June 5.

## TO ST. LOUIS AND BACK

Home by the Most Direct Route Is the Itinerary of Ex-President Grover Cleveland.

Princeton, N. J., April 2.—Ex-President Cleveland made the following statement to the Associated Press last night relative to his intended visit to St. Louis to attend the dedicatory exercises of the Louisiana Purchase exposition: "I have had no intention of going any further than St. Louis, and intend returning as soon as possible by the most direct route; and yet in some way it has been given out that I was to go to the Pacific coast and visit Colorado and California, and I don't know how many other states and territories.

"In consequence of this I have received numerous letters from good people living in those localities, making requests based entirely upon the truth of these reports. It may be amusing to those who start such reports, but it produces a reverse effect on those who are made the victims of such an absurd canard."

## Knocked Out and Dead.

Bridgeport, Conn., April 2.—Joseph Starks, of New Haven, better known as "Kid" Starks, who was knocked out in a boxing match Tuesday night with Max Holmes, of this city, died yesterday. Holmes was put under bail of \$1,000, upon the charge of manslaughter.

## She Defended Her Castle.

Concordia, Kan., April 2.—Mrs. Strums shot and fatally wounded Albert Tatro, an ex-convict, and shot Charles Forkner through the thigh. The men were trying to break into the woman's house when she fired at them.

## Canadian View of Cigarettes.

Ottawa, Ont., April 2.—By a vote of 103 to 48 yesterday the house declared its opinion that in order to save the youth of the country the manufacture, sale and importation of cigarettes should be prohibited.

## Kelly Gets the Decision.

Indianapolis, April 2.—Hugo Kelly, of Chicago, bested Harry Walsh, of Canada, last night before 2,000 people in nine rounds. The men fought at 150 pounds.

# GRIERSON'S RIDE ACROSS THE LINES

[Copyright, 1903, by G. L. Kilmer.]

THE thrilling encounter at Palo Alto, Miss., April 21, 1863, figures in war histories as a cavalry skirmish, but it was a pivotal incident in Grierson's famous raid across the lines opposing Grant at Vicksburg. And Grierson's daring ride was a pivotal event in the desperate work of hemming in Vicksburg from the rear with a line of bayonets and cannon. After casting aside many alluring plans for getting at the enemy in Vicksburg Grant struck out from the swamps on the west shore of the Mississippi for the high and dry bluffs at Grand Gulf, on the eastern shore, about thirty miles below the stubborn stronghold. With a column of gunboats and transport ships carrying his army, he was aiming for that point when Grierson rode away southward to startle and mystify the country and divert the enemy's attention from the real point of attack. Grant's opponent, General Pemberton, had sent the cavalry of his army with Van Dorn to Tennessee, thus stripping his outposts of all but a few home guard and partisan battalions. With 250 miles to defend along the river in the face of vigorous and numerous foes, it was equally difficult for him to be armed at all points of danger and to know just when and where the impending blow would fall.

Colonel Grierson of the Sixth Illinois cavalry set out from La Grange, Tenn.,

flanked by Smith's First Mississippi cavalry, Inge's battalion and Barbeau's Tennesseans. Hatch determined to make a strong fight to lead the enemy into supposing they had intercepted Grierson's main column. In their first dash the Confederates cut off one company of the Iowa troopers. Then, using two white flags, they rode close up to the column, which had dismounted in a lane.

Hatch had one cannon, a two pounder, but his men were armed with revolving rifles and carbines. His line was well covered by fences and hedges. Facing part of the men to the rear, he opened a deadly fire with the gun and rifles, while the carbines poured volley after volley into the troopers coming up on the flanks. The fight raged along the hedge until the Confederates drew back, slowly followed by the Iowans. The enemy retreated northward, and Hatch followed up, taking the back track to prevent the enemy from pursuing Grierson.

The fight at Palo Alto put the Confederates on their guard, and Hatch learned that an Alabama regiment lay between him and West Point, the destination assigned him by Grierson. He therefore continued his ride northward, harassed at every step by the citizens of the country, who took the field armed with shotguns and hunting rifles.

Meanwhile General Pemberton had sent out columns in all directions to

COLONEL BLACKBURN'S CHARGE AT THE BRIDGE.

southward, accompanied by the Seventh Illinois and Second Iowa cavalry, about 1,700 troopers in all. The raiders moved rapidly through the lines of General Chalmers, who was deceived by two other columns which took the field to mislead him, and moved along the line of the Mobile and Ohio railroad. Chalmers' scouts were completely puzzled over the affair, and Grierson reached the interior of Mississippi without meeting the enemy. The skirmish at Palo Alto was the first collision of the raid and the heaviest. Early on the 21st of April Grierson sent Colonel Edward Hatch, with the Second Iowa cavalry, numbering 600 sabers, to destroy the railroad at West Point, Macon and Columbus, then make his way back through northern Mississippi to the starting point.

Meanwhile Grierson rode on through the heart of Mississippi. There were several local regiments in the field, which the raiders threw off the trail by sending out scouts in citizens' clothes to mislead them. Within a few days he destroyed long sections of the Vicksburg and Meridian and the Jackson and New Orleans railroads and finally reached the Federal camps at Baton Rouge. His ride extended 600 miles.

The sharpest fight on Grierson's route was at the crossing of Tickfaw river. The bridge over the Tickfaw was guarded by the Ninth Tennessee cavalry battalion, posted in a narrow defile. After capturing the Tennessee pickets Colonel W. D. Blackburn charged the bridge at the head of the Seventh Illinois and in a brilliant dash routed the Tennesseans at the point of the saber. Colonel Blackburn was wounded in the melee.

Grierson's only guide was a pocket map, but by capturing couriers with dispatches and making use of his clever scouts he succeeded in evading the enemy. Being in motion in the rear of the Confederates defending Vicksburg, he distracted their attention from Grant's column at a critical moment in the campaign. Grant said of the raid, "It has been one of the most brilliant cavalry exploits of the war and will be handed down to history as an example to be imitated."

After cutting loose from the main column the morning of April 21, Hatch rode directly toward West Point. At the village of Palo Alto he was attacked from the rear and on both

bag the daring raiders. Two Confederate brigades marched to Grenada, one went to Columbus, on the route first taken by Hatch, and Chalmers started for Okolona, hoping to intercept Grierson on his return, for it was not deemed possible that he would traverse the whole state without being turned back by superior numbers. Hatch reached Okolona ahead of Chalmers and attacked with a rush. The main Confederate garrison of the town had gone southward toward Palo Alto on the news of the fight there, but by a different road from that taken by Hatch on his return.

The Iowans drove out the enemy's cavalry and local troops which were retreating before them and halted at Okolona. They then burned a large barrack, with military stores and ammunition, and marched on toward the Tennessee border. Colonel Hatch found that his men had but twenty-one rounds of ammunition left and concluded that the limited supply would not warrant him in attempting to reach West Point, with the enemy alert all along the route.

Chalmers had spread his Confederate troops across the northern part of the state, hoping to catch the raiders on their return. Hatch managed to pass through the lines without discovery, but when galloping through the village of Birmingham he was attacked in the rear by Chalmers' men. Being short of cartridges, Hatch slowly retreated, concealing his line at favorable points and receiving the enemy with the fire of his two pounder gun. Waiting until the Confederates came up to close range, the gun opened with terrible execution.

The running fight was kept up for six miles, when the Confederates gave up the chase, and the column reached La Grange without further molestation, except from straggling parties of guerrillas. When the men arrived at their old camp, they had but ten rounds of cartridges apiece. Half of the troopers were mounted on mules, their horses having succumbed to the hardships of their rapid march.

Meanwhile Grant had bombarded Grand Gulf with naval guns and landed his troops on the eastern shore of the Mississippi, the first stage of his march to the rear of Vicksburg.

GEORGE L. KILMER.

Mrs. E. B. Smith returned on Tuesday to Chicago, for a couple of weeks. She has been quite ill while in the country.

A number of rooms in the home of Jacob Miller on Front St. have been renovated, new paper and paint being put on, and the appearance much altered. F. G. Lewis did the painting.

Mrs. E. A. Baird, Department President of the Ladies of the G. A. R., has gone to Muskegon in the interests of the work. She will make arrangements for the department convention which occurs there in June.

The entertainment given at the opera house Saturday night, for the benefit of the band was an excellent one. The two people who composed the company were artists; their quick changes were no less appreciated than their singing and instrumental music. The comedy "Marriage Marsquerading" was bright and taking.

## Winter Tourist Rates.

To Cuba, Florida Gulf Coast Points and all inland southern winter resorts, also Texas and California, via Big Four Route, continuing until April 30, 1903, tickets will be on sale daily from all points on the "Big Four Route," good for return passage until May 31, 1903. Take advantage of the low rates and long return limit.

For full information and particulars as to rates, tickets, limits, etc., call on Agents "Big Four Route," or address the undersigned.

great for Bladder & Kidney, 50c, \$1.00

### TO BUY OF MR. CHAPIN.

City's Water and Electric Plants May be Operated by Power From

THE BUCHANAN DAM.

National Printing & Engraving Company May Also Become Customers

Informal negotiations have been in progress lately between C. A. Chapin and the board of public works of this city, with a view of operating the city's water and electric plants with power from Mr. Chapin's dam at Buchanan.

In discussing the situation with a Star man, Supt. Cavanaugh says that to make the change would necessitate changing the city's 133 cycle machine, which makes 16,000 alternations a minute, for a 60 cycle machine, such as the Chapin people use, which makes 7,200 alternations a minute. Supt. Cavanaugh is of opinion that the expense would not be very great, and he would advise that the city's 120 K. W. machine be exchanged for two 100 K. W.'s, so that in case of an accident, such as the breaking of a water wheel, it would simply be necessary to interchange to the other machine, thus doing away with the necessity of shutting down the whole plant, as is the case at present when an accident occurs. Besides, Supt. Cavanaugh says, the capacity of the present machinery is exceeded by the demands made on the plant, and the new arrangement would provide for future growth. It would also do away with the necessity of rebuilding the present plant and making extensive repairs on the dam.

Mr. Chapin has set no exact price, but has said that he would furnish the city power at the same price he sells it for at South Bend.

NATIONAL MAY USE CHAPIN POWER  
Supt. Sleeper of the National Printing & Engraving company, says the company may decide to purchase motive power from Mr. Chapin, if it can be had. The National uses about 40 horse power.—Niles Sun.

A. Jesse Waterman, well known here, has the honor of having his cut in the "Silent Worker" this month, and a complimentary account of the hustling Chicago young men. Having a strong taste for advertising and ad-writing, he intends to soon announce himself "open for business" in that line, with his own office. He at present writes and sets up the ads for the Society Times, a leading south side paper of Chicago. Mr. Waterman also manages to use his pen in the columns of the deaf press, as is the correspondent for the Register and the Mirror.

Save your money! We guarantee Cooney's Tonic Ext. of Sarsaparilla at 50c a bottle equal to any of the \$1.00 Sarsaparillas made. It is a perfect blood purifier, curing Blood Poison, Syphilis, Pimples, Eczema, Dizziness, and Blood troubles of all kinds. Large bottles and small dose only 50c at E. S. Dodd & Son's.

FOR SALE—An up to date willow go-cart. Call at RECORD office. a 10 p.

For Sale.
