WIFE NUMBER ONE WINS

Court Decides that Children of Dr. and the First Mrs. Bailey are Entitled to Insurance Policy.

The Bailey insurance case, which has been in the circuit court for some time past, involving a legal battle between the two wives of the late Dr. George Bailey, for the settlement of two insurance policies, has been decided.

Judge Coolidge has decided that the \$3,000 insurance, (\$2,000 on the Modern Woodmen, and \$1,000 in the Bankers' Life Insurance Co.) shall be divided between Dr. Bailey's three children, all by his first wife, and the estate of Dr. Bailey's father, O. P. Bailey, which latter portion would eventually come to the children, as O. P. Bailey, died shortly after the doctor's death.

The decision is really a victory for the first Mrs. Bailey, as she did not expect the money for herself, but wanted it for her children.

This ends a long and sensational suit in which many Buchanan people have been interested.

MONDAY CLUB

Bells Rang for Final Meeting of the Year, on Monday Evening

Mrs. Franc Whitman, president, and Mrs. Robt. Henderson, vice-president, of the Monday Literary Club, entertained the members of the club at the home of the former, on Monday evening, of this week. This was the last meeting before the summer vacation.

The president had previously announced that the bells would ring for the assembling of the members; from 7 to 7:30. After removing her wraps, each guest was presented with a tiny bell which was secured with a ribbon to her wrist—an incentive to much and vigorous handshaking; the bells not only rang until 7:30, but during the whole evening.

After calling the club to order, a delightful hour was spent in listening to a program, prepared by the hostess, from which was told all about bells and their manufacture.

There were presented accounts of the largest bells and the smallest bells, the sweetest toned bells, the historical bells, the chimes, and the strange customs of ringing; and in poetry the melody of bells sounded through the turbulence and monody of Poe's Bells, to the "Ding dong, bell, puss is in the well" of Mother Goose's tales.

Mrs. E. S. Dodd sang a very pleasing solo and after that followed the annual election of the officers of the club. Mrs. Henderson was chosen president, Mrs. Worthington, vice-president, Mrs. Ellis Roe, recording secretary; Miss Lemon, treasurer, Mrs. E. S. Dodd, corresponding secretary.

The president then requested Mrs. Williams to "ring out the old, ring in the new" officers which she did amid much laughter, by the vigorous clanging of a dinner bell.

Refreshments were then served, toothsome and dainty; the social hour passed all too quickly and with a mingling of laughter and sadness, lingering "good nights" were said and accompanied by the tintinnabulation of the bells, the ladies went thoughtfully homeward.

Memorial Day.

The committee of the G. A. R. and the citizens, with the schools, are arranging to make Decoration Day the finest ever held in Buchanan. The band has been engaged and they will be out in full force with their new uniforms and give a band concert in the evening.

Bedding and Vegetable Plants.

A fine lot of geraniums, asters, verbenas, salvia, etc, also cabbage and tomatoe plants for sale at the River St. Green houses.

COMPROMISE LIKELY

On a Measure for Primary Elections for the State of Michigan.

COMMENTS BY SENATOR SIMONS

Thinks He Has the Idea That Will Finally Go Through—Michigan State News.

Lansing, Mich., May 8. — Senator Charles Simons, who is leading the fight for primary election reform in the senate, is hopeful of the passage of a good measure, a compromise between the Colby bill and that advocated by the Baird-Fuller people. The senators having been placed on record by a vote on the substitution of Baird's bill for Colby's. Simons is willing to talk of compromise. "I believe that eventually a law will be passed to cover the election by primary reform methods of candidates for governor and members of the state legislature," he said. "Perhaps it will go so far as to include the lieutenant governor.

Would Retain the Conventions.

"This, of course, would retain the conventions, a thing which many of the senators insist upon, and would render it possible to make an equitable distribution of the remaining nominations through the state. I think that many of the senators who have already gone on record as opposed to the Colby bill are willing and, in fact, will insist upon including the office of governor in the list of the candidates to be chosen by direct ballot. Probably the fee provision in the Colby bill will be replaced by the petition system for the nomination of candidates.

Thinks He Has the Right Idea.

"I have already drawn up a bill that covers these features, and I am willing to predict that it will be pretty nearly what will be finally enacted into law." His predictions gains probability in the expressions of the opinions of a large number of senators. Among the twenty-one members who voted against the Colby bill are several who would never vote for the adoption of such a substitute as Baird's.

CHARGE AGAINST A PROFESSOR

It Creates a Sensation, but the Accused Says He Will Be Completely Exonerated.

Rapid City, Mich., May 8.—Professor A. Tyner Woolpert, principal of the Rapid City schools, has been arrested on a warrant sworn out by Benjamin Pickard, of this place, charging him with taking liberties with Pickard's 13-year-old daughter Dotie. It is said that the offense was committed about two months ago, but the girl did not tell about it until about a week ago.

The accusation has created a sensation, as Woolpert has been well liked and has moved in the best society. There is a wide difference of opinion as to his guilt, but he expects to be able to completely exonerate himself. The affair has been talked of for about a week. He has given \$500 bail to appear for examination May 12.

Strike May Tie Up the Work.

Mount Clemens, Mich., May 8. — Work on the new Medea hotel, the Nank & Pingle block, which is to be the home of the postoffice after Sept. 1, and other important contracts, may be tied up for a week or more by the strike of carpenters, bricklayers and other workmen. The carpenters have been granted the increase to 25 cents an hour, which they asked for, but the contractors refuse to take them back, because they will not agree to take outside work.

Captain's Wife Was Godmother.

Port Huron, Mich., May 8.—The new steel twin screw passenger steamer East Land, which it is believed will be one of the fastest boats on the great lakes, has been successfully launched. The boat was built for the Michigan Steamship company and will ply between Chicago and South Haven. The boat was christened by Mrs. J. C. Perdue, wife of Captain Perdue, who will sail the new craft.

Loyal Legion of Michigan Meet.

Detroit, May 8.—General Frank D. Baldwin, U. S. A., was the guest of honor at the eighteenth annual banquet of the Michigan commandery of the Military Order of the Loyal Legion. United States Senators R. A. Alger and J. C. Burrows were among the speakers at the banquet.

New Idea for City Councils.

Lansing, Mich., May 8.—Representative Ashley will make an effort to have reported out his bill to empower the council to subpoena and swear witnesses in investigations into the conduct of city officials. "I saw the need of such a measure when I was in the council," he says.

TRAIN FAILURE SUIT.

Girls Settled for \$10 Each but Boys Hold out.

Some time ago mention was made of a suit started by Cady & Andrews for six young people of Buchanan against the M. B. H. & C. railway on account of the road having failed to run a special train as advertised. The young women—Carrie Shafer, Susie Butler and Zoe Shear, have settled with the railway company for \$10 each, but without paying the costs and have withdrawn their names from the suit.

The young men it is understood, will settle but not for that amount.—Palladium.

BUCHANAN RECORD.

D. F. BOWER,
EDITOR.

TERMS \$1.25 PER YEAR

Entered at the Post-office at Buchanan, Mich.
as second-class matter.

FRIDAY, MAY 8, 1903.

The census taken by the Sunday School on Tuesday is a good thing if the information gained by the canvassers is used, but unless the members of the churches follow up the information it will be labor lost.

Almost of Age.

The Benton Harbor Palladium celebrated its eighteenth birthday last week. In our year's acquaintance with it we have found it up-to-date, reliable, clean and honorable, and wish it continued prosperity.

The Record

We are now, with our twice a week issue, publishing from 12 to 14 pages each week, instead of 8 pages when we published once a week, all of which is printed in our own office, selected to meet the needs of our patrons as we gradually learn their tastes. For this we charge \$1.25 per year unless when paid promptly in advance, when we make a liberal discount. We feel that this is an unusually low price, for we know of no paper giving the same amount at so low a figure and we wish to thank those who have shown their appreciation of our efforts to give the very best for the lowest money.

IF NOT NOW—WHEN?

If the people of Buchanan are not ready and willing now to make a united effort to secure to Buchanan some industrial institution, when will they be? After having in view a factory which was within our reach nothing could be done until there was money enough secured to warrant the village in accepting the offer; now, when through the efforts of a couple of men the amount has been pledged, it seems to take even longer to secure the money than the promises. In the meantime the factory has been secured by others more energetic. If we intend to secure anything, it is necessary to have a fund on hand that, when anything is in sight we can go after it. There is a disposition on the part of a number to say "We can live without factories, what is the use of spending our hard earned savings for something that we know nothing about?" That is the argument that will make it harder and harder each year for one to live and prosper, for the institutions that are here will, sooner or later, seek more progressive fields. Today is the time to be up and doing. Raise a liberal fund, and keep it in readiness, so that when any factory is in sight, we may at least make an effort to secure it. If you are not willing now to put forth the effort, when will you be?

Almost a Christian.

Dr. Emil Hirsh, the great Jewish Rabbi of Chicago, says like Agrippa to Paul, "Almost thou persuadest me to be a Christian."

The following are some of the sayings of the renowned Dr., in a lecture, recently delivered before the Epworth League of St. James Methodist church in Chicago.

"The Jews hold that Jesus preached nothing but Judaism. The supremacy of the commandment to love God and man, the doctrine of the fatherhood of God, the doctrine that the Sabbath was made for man, the abrogation of the law of retaliation, the obligation to love even one's enemies and even the Lord's prayer, which we readily admit is the sublimest petition ever framed in human language—all these we claim were taken from the Jewish writings, some of which were composed hundreds of years before Jesus was born.

"So far as the modern Jews are concerned, they regard Jesus as one of the noblest spiritual teachers that ever appeared in the world, and that the Jews have furnished the only shining example of obedience. The so-called disciples of Jesus have persecuted the Jews with savage ferocity for ages, and the Jews have borne these persecutions with lamb-like gentleness and silence."

This was the climax, "If Jesus Christ should return to the earth tomorrow he would be welcomed in every Jewish synagogue in the land and every Jew would say with David, 'Lift up your heads, ye everlasting gates, and be ye lifted up ye everlasting doors and the King of Glory shall come in.'"

BIG HAMMER

Does not Always hit Where Aimed for.

The Benton Harbor Evening News states that "they are after busy 'Bill Farmer with a hammer.'"

The strange thing is, that the hammer does not always strike where it is aimed for. So far it looks like some persons were determined to get "Palmer's hide" if not in one way, they would have it in another, and those who know, say that behind it is a certain amount of jealousy and some revenge.

The News says "Mr. Palmer has never taken the pains to contradict any of the reports." Mr. Palmer shows diplomacy instead of replying to the numerous reports; he keeps on at his business knowing that "Those who take the sword shall perish by the sword."

MILLINERY OPENING.

Unique Social Gathering With Mesdames Porter and Pears as Hostesses.

Wednesday afternoon about fifty ladies responded to invitations issued by Mesdames Will Porter and Chas. Pears, to spend a short time at the home of the former participating in a millinery opening.

After some time in social discourse each lady was given two sheets of tissue paper of contrasting colors and a threaded needle, and with this equipment and no reserve stock, each lady was required to make a hat. The results were varied, ranging, all the way from the dainty creation made by Mrs. Rose Howard, which won the first prize to many unique specimens whose only virtue was their oddity.

By tracing cords to their destination, the ladies discovered tray cloths and table silver, which they appropriated for the table on which luncheon was served. It was a dainty three course luncheon.

Mrs. Porter had as her guests from out of town, Mesdames Scoffern and Eaglesfield, of Niles. All agreed that the afternoon was very pleasantly spent.

In the evening Mr. and Mrs. Porter and Mr. and Mrs. Pears entertained their friends with a dance in the rink.

COUNTY SEAT NEWS

James O'Hara, attorney for Edward ("Peg") Schaefer finds thirty-three errors in the trial of his client and applies for new trial.

Wm. O'Rourke, accompanied by his mother and little niece, are awaiting trial in St. Joseph.

Judge Coolidge has handed down a decree in the case of the Connecticut Mutual Life Insurance Co. vs. John H. Sparks, administrator, and Frank Jarvis, executor of the estate of Burton Jarvis of Buchanan. The point involved was as to whom the insurance money of deceased amounting to \$1,754.25, should be paid. Judge Coolidge decided it should be paid half to the administrator and half to the executor and the money was so paid over in court.

Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect pill. 25c. at W. N. Brodrick's drug store.

Fruit Prospects

Certainly the prospects for fruit are not as good as they were several weeks ago, but still there is some hopes of a fair crop of all kinds except it may be plums and strawberries. It looks from all reports that the strawberries will be a failure here.

John S. Taylor says there will be plenty of peaches; he brought a small branch of diamond peach to the Record office this week and there were about half dozen blossoms on it and would all have produced a peach.

ALL WRONG.

The Mistake is Made by Many Buchanan Citizens.

Don't mistake the cause of backache, to be cured you must know the cause, it is wrong to imagine relief is cure, backache is kidney ache, you must cure the kidneys.

A Buchanan resident tells you how this can be done. Mr. B. S. Crawford, Nurse, living on Clark Street, says: "Some time ago I strained my back while lifting, waiting on a patient, and the injury has bothered me ever since. Seeing Doan's Kidney Pills recommended so highly I thought I would test their merits, and I procured a box at W. N. Brodrick's drug store. I am more than pleased with the result obtained. They acted very quickly and promptly, relieving the dull aching pain that had annoyed me so long. I have no hesitation in recommending so valuable a remedy to others."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo N. Y., sole agents for the U. S. Remember the name, Doan's, and take no substitute.

CLAIMS TO BE THE BEST

New Rifle Evolved by U. S. Army Officers Called the Most Powerful in the World.

Washington, May 8. — The army board which has been considering the merits of the new service rifle has declared in favor of a weapon with a barrel only twenty-four inches long, using a .30 ball. The new gun is a remarkable weapon, according to the ordnance officers, for while it is four inches shorter than the Krag and only two inches longer than the carbine, it is more powerful than either, with a higher initial velocity and flatter trajectory.

It can easily penetrate twenty-four one-inch pine planks and is a pound lighter than the service rifle, which is a consideration in the tropics. A new feature is a complete encasement of the barrel in wood to prevent burning the hands of the marksmen when the gun is discharged rapidly. The weapon was evolved by United States army officers and is not patented. It is asserted to be the most powerful musket in the world.

INJUNCTION IS MODIFIED

That Which United States Judge Munger Issued Against the Striking Teamsters at Omaha.

Omaha, May 8.—Judge Munger has modified the injunction issued against the teamsters' union. One section of the order which restrained the union from continuing its organization and conducting its business was so sweeping as to prevent the men from holding meetings, employing counsel or even declaring the strike off. Judge Munger eliminated all these provisions, but the remainder of the order remains unchanged.

Fewer teams are working. President Crews, of the teamsters' union, says that steps will be taken to secure, if possible, a further modification of the court's order.

THEDFORD'S BLACK-DRAUGHT FOR CONSTIPATION

Constipation is nothing more than a clogging of the bowels and nothing less than vital stagnation or death if not relieved. If every constipated sufferer could realize that he is allowing poisonous filth to remain in his system, he would soon get relief. Constipation invites all kind of contagion. Headaches, biliousness, colds and many other ailments disappear when constipated bowels are relieved. Theford's Black-Draught thoroughly cleans out the bowels in an easy and natural manner without the purging of calomel or other violent cathartics.

Be sure that you get the original Theford's Black-Draught, made by The Chattanooga Medicine Co. Sold by all druggists in 25 cent and \$1.00 packages.

Morgan, Ark., May 25, 1901.
I cannot recommend Theford's Black-Draught too highly. I keep it in my house all the time and have used it for the last ten years. I never gave my children any other laxative. I think I could never be able to work without it on account of being troubled with constipation. Your medicine is all that keeps me up.

"Souvenir of Lincoln's Birthplace."

I have just had issued from the press a handsome booklet, entitled "Souvenir of Lincoln's Birthplace," which is profusely illustrated with 25 artistic half tone engravings of the cabin in which President Lincoln was born and of scenes on and around the old Lincoln farm. This is the first time this historic spot has thus been brought before the public. The booklet is interesting, is of historical value and would adorn any parlor or library. The book is endorsed by Col. J. G. Milby, Commander of Lincoln G. A. R. Post 56.

The book will be mailed to any address, post paid, for only 25c, silver or stamps. Address

SUNDAY WAS MIGHTY "DRY"

Fight Against Blue Laws Makes It Almost
Unsafe to Breathe, Down at
Pensacola.

Pensacola, Fla., May 4. — For the first time the Sunday laws have been enforced here. Hacks were not allowed on the street. Livery stables were compelled to close. Soda water and confectionary stands did no business, and only the street cars and railroad trains were permitted to run, the county solicitor announcing that for the present he would not advise interference with them, as two sections of the state laws conflict.

The only Sunday morning newspaper in the city was served with a notice to cease work at midnight. The order was obeyed, the paper being circulated before 12 o'clock. Hundreds of persons who buy out of town papers were disappointed, the thousand or more papers arriving in the afternoon remaining at the postoffice. Large numbers, especially among the poor, were compelled to do without meat, bread, milk or ice.

His majesty presented Prince Frederick William and Prince Eitel to the pontiff. At the Vatican the emperor was received with military honors by the Palatine guard, and a platoon of gen d'armes, and he was welcomed by the high dignitaries of the pontifical court. The visit of Emperor William was returned by Cardinal Rampolla, papal secretary of state, at the Prussian legation.

in the Life of Christ

By ERNEST D. BURTON AND SHALLER MATHEWS
Professors in the University of Chicago

A book prepared especially for use by advanced Bible students. An admirable help for students of the New Testament in colleges and academies, and advanced Bible classes. It aims to guide the student in the construction for himself of a life of Christ, derived directly from the sources as they exist in the New Testament. The most important political and social features of the New Testament are described, and the endeavor is made to present the events of the Gospel history in a true, historical perspective.

For Your Vacation Trip.

The Yellowstone Park, the nation's playground, is larger than the state of Delaware and nearly twice as large as Rhode Island. As in size it exceeds all other national parks of the world combined, so in grandeur and scenery it is unequalled. Here are located the eight great geysers of the world. Mount Washburne, one of the peaks in the park, has an altitude of 10,388 feet. The whole park is an area of wonders unparalleled. It is from 1,000 to 5,000 feet about the level of the sea and is therefore within the zone of two seasons.

But to really know this wonderful you should take a trip through there. You cannot spend a vacation season more profitably or more pleasantly. The Chicago, Milwaukee & St. Paul Railway offers choice of routes to and from Yellowstone Park. If you are interested, complete information about the cost of the trip, choice of routes, train service and tickets will be furnished on request.

Climate and Crop Report.

The United States Department of Agriculture, climate and crop, bulletin of the weather bureau, Michigan section, publish the following for the week ending May 5, 1903.

The mean daily temperature for the week ending May 2 was 48.0 degrees, or 0.7 of a degree below the normal; the average total precipitation was 0.32 of an inch, or 0.29 of an inch below the normal; the sunshine-averaged 61 per cent of the possible amount.

The week began warm and balmy, but soon changed its character to cold and windy, with heavy and killing frosts on Friday and Saturday; the advent of cold weather on Thursday and Friday was accompanied by showers, changing to hail, sleet and snow.

The frosts slightly damaged young clover and nearly every fruit county reports some injury to strawberries, early peaches and cherries; the extent of the injury has not yet been determined, but it is probable that strawberries and early peaches have been affected the most.

The cold weather has again checked the growth of wheat, rye, meadows, and pastures and retarded the germination of oats, peas and barley. Wheat mostly continues healthy, but has made very little growth; pasturage is still short and scanty.

Oat, cold ground has rotted some oat seed and necessitated reseeded on low land. Oat, barley and pea seeding are nearly completed in the Lower Peninsula; farmers are beginning to sow oats, peas and spring wheat in the Upper Peninsula. Plowing for corn beans and sugar beets is becoming general in the southern and central counties and sugar beet seeding is quite generally beginning in the principal sugar beet counties. Early potato planting is in progress in most of the central and southern counties.

In Berrien county frost damaged clover, strawberries, cherries and peaches; early potato planting well advanced; wheat looks fair; germination slow.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil-Monarch ever pain.

An all-the-Year-Round Cottage.

A house that expresses those qualities of comfort characteristic of the "cottage" and at the same time possesses such a substantial arrangement as to make it habitable all the year round is described and illustrated in the June *Delineator*. Such a dwelling, while having the advantages of a Summer cottage is far more of a home, and the one shown is essentially "livable" and homelike. It is a house of moderate cost, attractive in appearance and artistic in furnishing. Home makers can find a wealth of suggestion in the article.

Mr. Cornelius Smyer, South Bend, says: "Give me an other bottle of your Wine Lo-ti-Cooney's Beef, Iron and Wine with Nervine. I took a bottle last Spring and it helped me just like you said, I slept better right away." It is sold by E. S. Dodd & Son's. Large bottles 50c. Take no other for there is no other equal to it.

LESSON VI, SECOND QUARTER, INTERNATIONAL SERIES, MAY 10.

Text of the Lesson, Acts xiii, 12-22. Memory Verses, 20-22—Golden Text, Acts xiii, 11—Commentary Prepared by Rev. D. M. Stearns.

[Copyright, 1903, by American Press Association.] 12. 15. And when it was day certain of the Jews banded together and bound themselves under a curse, saying that they would neither eat nor drink till they had killed Paul.

More than forty thus bound themselves with this oath of execration (see margin), and they had a plan that the chief captain should be asked to bring him again before the council, that they might inquire more perfectly of some things, and then they would fall upon him and kill him. Whatever they might profess religiously, their conduct made it manifest that they were children of him of whom the Lord Jesus said, "He was a murderer from the beginning" (John viii, 44). "Whoever doeth not righteousness is not of God, neither he that loveth not his brother" (I John iii, 10). "The wicked plotteth against the just and gnasheth upon him with his teeth. The Lord shall laugh at him" (Ps. xxxvii, 12, 13). "The Lord bringeth the counsel of the heathen to naught. He maketh the devices of the people of none effect. The counsel of the Lord standeth forever, the thoughts of His heart to all generations" (Ps. xxxiii, 10, 11). We have the thoughts of His heart in verse 11, which, though not in the lesson, is in the portion assigned for study, and every teacher would do well to spend much, if not all, of the time for the lesson upon it. Note the Lord's visit to him in the castle. No prison walls or soldiers can keep Him out. Note the words "The Lord stood by him" and compare II Tim. iv, 17; Zech. iii, 5. Notice the Lord's "Be of good cheer" and look up similar words in the gospels and in the Acts and note also the Lord's purpose that Paul should testify of Him at Rome as he had at Jerusalem and see Jer. li, 29, with Isa. xiv, 24; liv, 17.

16. 17. And when Paul's sister's son heard of their lying in wait he went and entered into the castle and told Paul.

It will be a pleasure some day to get acquainted with Paul's sister, for we trust she is among the redeemed, as well as with the other members of his family and this nephew who here plays an important part and is sent by Paul to the chief captain with the tidings. Paul might have said: "There is no danger, my boy. Go home and tell your dear mother not to be troubled. For the Lord came to me last night and said that I should yet witness for Him in Rome." But Paul saw nothing inconsistent with faith in God and taking all possible precaution to keep out of the enemy's hands, and surely he was right.

18. 19. Paul the prisoner called me unto him and prayed me to bring this young man unto thee, who hath something to say unto thee.

Thus said the centurion who brought the young man to the chief captain. The expression "Paul the prisoner" reminds us that Paul was many times a prisoner and in some of his letters spoke of himself as "the prisoner of Jesus Christ," "the prisoner of the Lord," "Paul the aged and now also a prisoner of Jesus Christ" (Eph. iii, 1; iv, 1; Phil. 9). In the list of his trials he says, "In stripes above measure, in prisons more frequent, in deaths oft," and yet he could say, "I take pleasure in persecutions, in distresses for Christ's sake" (II Cor. xi, 23; xii, 10). He knew that no suffering could be compared with the glory and that all the suffering was working out a far more exceeding and eternal weight of glory (Rom. viii, 18; II Cor. iv, 17).

20. 21. But do not thou yield unto them, for there lie in wait for him of them more than forty men which have bound themselves with an oath that they will neither eat nor drink till they have killed him.

We would like to know more of this young man who could thus advise the chief captain as well as state his facts so clearly, but eternity will give some astonishing sequels to unfinished Bible stories. Thinking of young men whom the Lord has used, we recall Samuel, David, Joseph and the lad whose loaves fed the 5,000, and like the latter, we would fain be as fully in the Lord's hands as were the loaves and fishes which he so fully gave up to Him who could so multiply them.

22. So the chief captain let the young man depart and charged him, See thou tell no man that thou hast shewed these things to me.

That very night Paul is started off to Caesarea under the care of seventy horsemen, 400 soldiers accompanying him as far as Antipatris, and this chapter leaves him, humanly speaking, in the hands of Felix, the Roman governor, who said that he would hear him when his accusers were come. But he is in higher hands than those of man, even in the hands of Him who has all power in heaven and on earth, who doeth according to His will in the army of heaven and among the inhabitants of the earth, and none can stay His hand or say unto Him, "What doest thou?" (Matt. xxviii, 18; Dan. iv, 35.) He who shook the prison foundations at Philippi and opened all the doors and loosed every one's bands, who also sent an angel and brought forth Simon Peter when he was chained to two soldiers (Acts xvi, 26; xii, 6, 7), could with a word have delivered Paul from his present captors, but it was not in His plan. When we cannot understand why God sometimes delivers and sometimes allows the oppressors to continue to oppress, we must remember that "as for God, His way is perfect," and just hear Him say, "Be still and know that I am God, I will be exalted among the heathen, I will be exalted in the earth" (Ps. xviii, 30; xvi, 10).

A Business Opening.

The publishers of "Success," the great home magazine of America, published in New York, write us that they desire to secure a local representative in this county to receive and solicit subscriptions. The compensation given by "Success" is said to be the largest offered by any first class periodical, and if any of our readers are desirous of undertaking work of this character, we suggest that they communicate at once with The Success Company, Washington Square, New York.

The Scholarship Bureau of The Success Company will also gladly explain a plan by which boys and girls can secure an education, The Success Company purchasing Scholarships in return for a comparatively small amount of work. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

UNCLE SAM VS. RUSSIA

Recent Diplomatic Exchanges Were What Might Be Called Rather Sharp.

NOTHING OBSCURE ABOUT EITHER

Text of Two Important Communications Relative to the Manchuria Situation.

Washington, May 8.—In the Russian series of diplomatic exchanges in the current volume of foreign relations now in press is given the text of a communication addressed by Ambassador Tower to the Russian foreign office relative to the announcement that China was about to sign an agreement with the Russo-Chinese bank where by valuable exclusive privileges were to be secured by that institution. The note brought forth the important declaration from Count Lamsdorff, minister for foreign affairs, that Russia proposed to restore Manchuria to China, and would recall her troops from that province, and that there was no intention to interfere with the "open door" arrangement. Tower's note to the Russian minister for foreign affairs follows:

Our Note to the Russians.
"In obedience to instructions which I have received from the government of the United States I have the honor to inform your excellency that the American minister to China has reported in a telegram recently received at Washington that Prince Ching has agreed to sign the Manchurian convention, and also a separate convention with the Russo-Chinese bank, under which exclusive privileges of industrial development in Manchuria are to be granted to that bank.

How We Would Look Thereon.
"I am instructed to say that the government of the United States could look only with concern upon any agreement by which China should extend to a corporate company the exclusive right within its territory to open mines, construct railway and to exert other industrial privileges. It is the belief of the government of the United States that by permitting or creating a monopoly of this character China would contravene the treaties which it has already entered into with foreign powers and would injure the rights of American citizens by restricting legitimate trade; also that such action would lead to the impairment of Chinese sovereignty and tend to diminish the ability of China to meet its obligations.

Other Powers Might Do Likewise.
"Other powers as well might seek similar advantages in different parts of the Chinese empire, and would destroy the policy of equal treatment of all nations in regard to navigation and commerce throughout China. I am further instructed to convey to your excellency the sentiment of the United States government that the acquiring by any one power of exclusive privileges in China for its subjects or its own commerce would be contradictory to the assurances repeatedly given by the imperial Russian ministry for foreign affairs to the United States of the intention of the Russian government to maintain the policy of the 'open door' in China, as that policy has been advocated by the United States and accepted by all the powers who have commercial interests within the Chinese empire.

Asked to Give One Attention.
"I am to assure you that the government of the United States is now, as it has always been heretofore, animated by the desire to secure for all nations entirely equal intercourse with China, and I am instructed to present to your excellency the request that the imperial Russian government will give due attention to the foregoing considerations, which have also been addressed to the Chinese government, and to express to your excellency the hope that such measures of procedure may be adopted as will allay the apprehension of the government of the United States."

REPLY OF COUNT LAMSDORFF
Full Text of What He Wrote to Hay—He Acted Entirely Alone.

Following is the reply of Count Lamsdorff: "The imperial government, always desirous of cultivating and developing the best relations with the United States, is fully disposed to remove the anxiety which the proposed arrangements between Russia and China appear to have caused the cabinet at Washington, but it feels itself bound at the same time to declare that negotiations carried on between two entirely independent states are not subjects to be submitted to the approval of other powers.

"There is no thought of attacking the principle of the 'open door' as that principle is understood by the imperial government of Russia, and Russia has no intention whatever to change the policy followed by her in that respect up to the present time.
"If the Russo-Chinese bank should obtain concessions in China the agreements of a private character relating to them would not differ from those heretofore concluded by so many other foreign corporations. But would it not be very strange if the 'door' that is 'open' to certain nations should be closed to Russia, whose frontier adjoins that of Manchuria, and who has been forced by recent events to send her troops into that province to re-

establish order in the plain and common interest of all nations? It is true that Russia has conquered Manchuria, but she still maintains her firm determination to restore it to China and recall her troops as soon as the conditions of evacuation shall have been agreed upon, and the necessary steps taken to prevent a fresh outbreak of trouble in the neighboring territory.
"It is impossible to deny to an independent state the right to grant to others such concessions as it is free to dispose, and I have every reason to believe that the demands of the Russo-Chinese bank do not in the least exceed those that have been so often formulated by other foreign companies, and I feel that under the circumstances it would not be easy for the imperial government to deny to Russian companies support which is given by other governments to companies and syndicates of their own nationalities.

"At all events I beg your excellency to believe that there is not, nor can there be, any question of the contradiction of assurances, which, under the orders of his majesty, the emperor, I have had occasion to give heretofore in regard to the principles which invariably direct the policy of Russia."

Because of the announcement of the Anglo-Japanese agreement at about the same time Hay addressed the Russian government relative to the Russo-Chinese bank. Hay directed Ambassador Tower to advise the Russian government that this government did not know that negotiations for such an arrangement were pending, and that neither Great Britain nor Japan was consulted regarding the note.

AMES IS FOUND GUILTY

Jury Says He Accepted a Bribe of \$600 While He Was Mayor of Minneapolis.

Minneapolis, May 8.—Albert Alonzo Ames, once mayor of Minneapolis, has been found guilty of accepting a bribe of \$600 while chief executive of this city. After being out twenty-four hours, held up by a disagreement that was the result of a few minds holding out against the majority opinion, the jury in the case returned into Judge Elliott's court, and after being polled, rendered its verdict of guilty.

The usual motions were made for a stay and an arrest of execution of judgment, and now will come the long fight on appeal.

Mayor Ames was given his freedom later, his bond of \$21,000 continuing and covering all purposes. He was taken immediately to his home, where he refused to see any one, friends or reporters.

RURAL ROUTE SUSPENDED

Because the Negro Carrier and His Substitute Were Warned to Carry the Mail No More.

Washington, May 8.—The postoffice department has been notified officially that John C. Allgood, a colored rural free delivery letter carrier, while making his regular trip near Gallatin, Tenn., was stopped by men armed and masked, and that he and his colored substitute carrier were warned not to continue in the service under the penalty of death.

Postmaster General Payne has suspended service on the route pending investigation, and if the representations of the affair are confirmed summary action will follow. The incident may become a second Indianola case. The news of the affair reached the postmaster general in a telegram from Probstmaster H. Swaney, of Gallatin.

Dangerous to Navigation.

Baltimore, May 8.—Captain Charles, of the steamer Manna Hata from New York, which has arrived here, reports that he examined the wreck of the steamer Saginaw which was sunk in a collision with the Hamilton on Monday night, and that it is very dangerous to navigation.

WOODMEN AND THE STEP-RATE

Order Favors a Readjustment of Assessments of Some Kind—Head Consultship Is Uncertain.

Rock Island, Ill., May 8.—Official returns from thirty-five state conventions of the Modern Woodmen of America show that 355 of the 469 delegates elected to the head camp meeting at Indianapolis on June 16 were instructed to favor a rate readjustment of some sort. Many of these 355 delegates, however, were instructed to oppose the step-rate plan recommended two years ago by a readjustment committee.

The returns do not show who will be elected head consul. J. G. Johnson, of Peabody, Kan., a candidate for head consul, is said to have only seventy out of 469.

The Modern Woodmen have led the fight, begun by the National Fraternal Congress, to place all benefit orders on a foundation of graded rates of assessments. It is said that such a scheme, if scientifically carried out, will make all beneficiary orders prosperous and perpetual.

Those Were Costly Hens.

Ann Arbor, Mich., May 8.—"Butch" Ely, who was arrested Monday on the charge of selling diseased meat, was found guilty Tuesday of breaking into a chicken coop in the suburbs and stealing fourteen hens. He gets two years in Jackson.

Blew the Top of His Head Off.

Saginaw, Mich., May 8.—Frank Boyle, bartender in James McCrear's saloon, Potter street, opposite the Pere Marquette depot, blew the top off his head. He was young, but had been disappointed in love.

SCORE OF MEN DEAD

Twelve Caught in a Railway Crash and Killed, Several Being Slowly Roasted.

NO MEANS OF RELIEF ARE AT HAND

For Those Wounded in the Wreck—Rock-Slide Kills Nine in Virginia—Three Fatally Injured.

Roanoke, Va., May 8.—Nine men were killed and five others injured, three of them fatally, by a slide of rock in the east end of tunnel No. 2, at Eggleston Springs, Giles county, on the Norfolk and Western railroad. Railroad contractors were engaged in double tracking the two tunnels at the point named, and when the tunneling force had removed the earth and stone for the railroad tracks at the point where the calamity occurred a huge slide of solid stone gave way on the mountain side, and came down at an angle of about 45 degrees, striking the gang of laborers at work fairly, and crushing the life of nine men.

Cause of the Accident.

This strata of solid rock was connected only by clay seams, and when the foundation was removed the strata, some fifty feet long, fell catching the men in a death trap. One man was in a niche of the tunnel way, and was only grazed on the face and head, escaping with slight injuries. He was removed without great difficulty. A second man, who stood on the outer edge of the slide, was only slightly hurt, but three others were more unfortunate, and were injured so badly that it is feared they will die. The bodies of the other nine men, some of whom are white, are still under the mountain slide.

Victims Are Both White and Colored.

It has been impossible thus far to secure the names of the unfortunate victims. They are known only to the contractors, and they can judge only by the missing members of the force. One thing that is known is that it was a mixed gang, composed both of white and colored laborers.

KILLED OR BURNED ALIVE

Horrible Tale of Twelve Men Who Lost Their Lives in a Railway Wreck.

St. Paul, May 8.—Meager reports have been received of a serious accident at Dexter, a small station on the Canadian Pacific railway, fifty miles west of Port Arthur, Ont., in which twelve lives were lost. A large number of laborers was with a work train at Dexter, where they had been loading ties. Their train was on a side track, and the men were at breakfast in the caboose, or boarding car, at the end of the train. A passenger train crashed into the caboose, where the men were eating, overturning the car, and the wreckage caught fire almost immediately from the engine fire.

Of the men in the car twelve were instantly killed or burned to death in the wreckage, where they had been pinned by the overturning of the car. Eight others were seriously injured, and others less seriously hurt. The wreck is far from means of relief, and details of the accident are incomplete, as the wires have been working badly and no names or further information about the accident has been received.

Later.—The names of the dead have at last been received, with those also of the wounded. Dead: Frederick Fluke, Iron Hudeau, Mark Caucro, F. Bystron, A. Watin, L. Larson, P. Monkman, G. Dangtuk, G. Lundmark, A. Johnson; T. Ericsson and A. Kundie. Disabled and wounded: Joe Dupont, E. E. Yard, J. Gagnan, B. Kimball, J. Jacobson, J. Noolin, S. R. Welch and James M. Reid—all of Port Arthur and Winnipeg.

Legislation in Wisconsin.

Madison, May 8.—The assembly by a vote of 63 to 24 refused to concur in the senate amendment to the ad valorem railway tax bill, exempting bonds from taxation. The measure will go over to the senate, which it is generally understood will decline to recede from the stand it has taken, whereupon a conference committee will be asked for.

Filipinos Made Citizens.

Pittsburg, May 8.—Ten Filipinos appeared in the United States district court and took the oath of allegiance to the United States. The Filipinos are connected with a travelling show and were in charge of Captain T. W. Griffith, the recruiting officer of the United States army, stationed here.

Accused of Stealing Money.

Chicago, May 8.—Walter K. Crandall, who for more than a year has eluded the police, has been arrested. Crandall is wanted at Rock Island, Ill., where he is accused of having embezzled \$1,000 of the funds of the Modern Woodmen of America.

Stock Yards Strike Indorsed.

Chicago, May 8.—Official indorsement has been given the strike of the stock yards packing house engineers. Ten of the lesser institutions yielded to the demands of the strikers, and gave all that the men asked originally in March.

Protocols Signed at Last.

Washington, May 8.—The Venezuela protocols submitting the question of preferential treatment to The Hague tribunal and also protocols for the mixed commission at Caracas have been signed.

McCutcheon's Famous Cartoons.

The art of newspaper illustration in its present form is a development of recent years. Newspaper cartoons have become a most popular feature of up-to-date metropolitan newspapers. The unique and "catchy" drawings by John T. McCutcheon now appearing daily on the front page of The Chicago Record-Herald is one of the many special features of that great paper. McCutcheon's prominence in the newspaper world makes newspaper readers generally familiar with his history. He came to Chicago 1889, when he immediately became identified with the Chicago Record. His work in connection with that paper soon attracted public notice. His illustrations of the world's fair scenes were of a particularly high class. It was later, however, associated with George Ade, illustrating Ade's well known sketches, "Stories of the Streets and of the town," "Attie" etc, and during the presidential campaign of 1896, when his political cartoons attracted such wide-spread attention, that McCutcheon was generally acknowledged a leader in his profession. During the Spanish-American war he was with Admiral Dewey at the time of the destruction of the Spanish fleet in Manila Bay, and was the first one to give the world a complete account of that great fight. During his subsequent stay in the Philippines he blossomed out as a correspondent of no mean ability, and he came into view as a writer of merit, with the faculty of keen observation and faithful descriptions that have made the work of his pen of double value. His two years' stay in a tropical climate shattered his health, and after his return to the United States he was forced to take a long rest. However, he was fully recovered, and the readers of The Record-Herald will be glad to learn that he has resumed work, and that his cartoons now appear in both its daily and Sunday editions.
