### IN NEED OF MORE WATER.

Wells Which Supply the Village Show Signs of Going Dry. New Test Wells to be Driven.

### WATER, BUT NOT ENOUGH

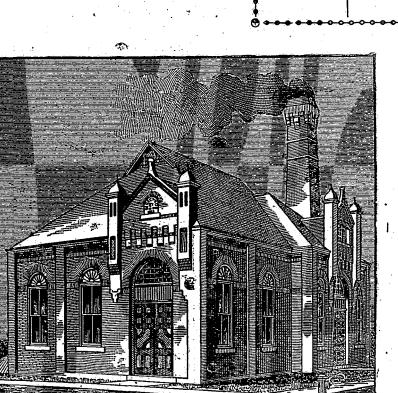

· Steam Fire Engine Being Repaired for an Emergency

For sometime past, it has been evident that the six 6 in. wells which now supply the village with water were not sufficient to meet the needs of the consumers, and the past dry spring has proved this assertion correct. . There are at present six flowing wells located near the pumping station. The water from these flows into a common reservoir, and from that it is pumped into the city mains.

Last week a test was made as to the available amount of water, and

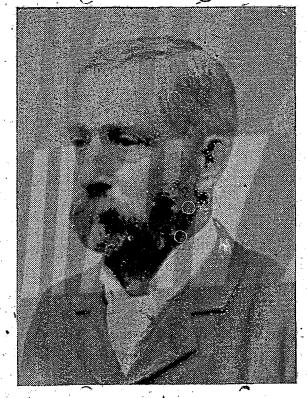

WILL VINTON, DAY ENGINEER AT WATER WORKS.

WATER WORKS PUMPING STATION.

GEORGE HOWARD, NIGHT ENGINEER AT WATER WORKS.

in a very few moments the water from the reservior was entirely exhausted so that the pumps refused to draw water.

The water works committee, Dr. Curtis, Messrs. Chas. Bishop, and Chas. Pears, have been investigating the conditions, and have about concluded to put down a 2 inch test well, running down much deeper than the present wells. This is done with a view of ascertaining if there is a large supply of water within reach if the well is sunk deep enough. The efficient water works committee will, no doubt manage the matter to the best interests of the village.

Engineer Vinton has repeatedly urged the need of sinking more wells. and this will probably be done in the near future.

The steamer. Ajax, used in case of fire when the water supply is short in the mains, was brought out Monday and tested and after a few moment's work parts of it broke, and these parts have been sent to St. Joseph for repairs. It would certainly be a very unfortunate time for fire now, but the steamer will be in readiness to fall back upon, in a few days.

### J. D. PADEN OF EVASTON ILLINOIS.

Purchases the Roe Homestead on Moccasin Avenue.

J. D. Paden, one of the prominent citizens of Evanston, Illinois has purchased 8 acres of the Roe homestead on Moccasin Avenue, including residence and all buildings, where he will, with his family, spend the summer months. Mr. and Mrs. Paden and family are not strangers, hav ing spent last summer in the village, and all who were favored with their acquaintances then will give them a cheerful welcome to their summer home. Mrs. Paden is at present in the village as the guest of Mrs. E. S. Roe, while she is overseeing the furnishing of the new home which will be occupied as soon as matters nec cessary can be completed.

Fruit Prospects.

The fruit prospects will be good unless the present dry spell will in some way interfere with it. It will be only a few days until home straw berries will be in the market.

J. R. White insists that the peach crop will be very small as the cold so injured the buds, even if they were not killed, that the fruit will not mature. James Batten says there will be an enormous crop of whortleberries and they will be early. He brought into the office on Wednesday a branch that he broke from a bush along the road west of Buchanan, and it could hardly be fuller with berries about the size of an ordinary shot, there were also a number of blossoms on the branch.

#### \* \* \* Paroled Convict Finds Michigan City Easy.

A paroled convict named Brown fleeced a number of Michigan City people out of about \$2,000.

The Dispatch says: "Brown's dupes are wondering how they could be deceived so easily by a stranger."

The next "stranger" that goes to Michigan City to advance any project will have a hard time of it however honest he may be. It should rather be said how easily they were taken in by a rogue.

Remarkable Career of a Blind Man—Successful Businesa Methods.

Educated at Lansing—Operates a Type-Writer With Skill.

Among the estimable business men of Buchanan there is none more wonderful than the subject of this article so well known as Del Jordan.

Born in Charlotte, Michigan, Nov. 3, 1862; came to Buchanan with his parents at the age of one year, and this has been his home ever since. He has three sisters, one living in Buchanan, two living in Kansas and one brother, Alderman Frank Jordan, of Benton Harbor.

He went to the public school until about sixteen years old, and passed tle eighth grade, when he attended a select school taught by Nathan John-

The saloonists are angry, because of the dry Sundays enforced by the grand jury and theatens to shut up everything else tight on-Sunday; stop the running of street cars, close the stores and drug stores, only allowing the latter the two hours prescribed by law. A Puritan Sabbath would have a decidedly novel and refreshing effect on the twin cities and would not send them to the bow-bows as the saloonists claims.

Five Benton Harbor people died during Saturday and Sunday. Two prominent citizens George Fales and W. L. George died within seventy minutes of each other on Saturday. Both were members of the Lake Shore lodge of F. and A. M. Mr. Fales died as the result of an injury ain, or in any other manner endanger to his thumb while weighing mail inducing blood poisoning. He had only lately moved to Buchanan and his wife will return to this city. His funeral was held Monday. That of W. L. George was on Tuesday and was attended by Senator Burrows, Gen. Roscoe Dix., Congressman Hamilton, Warden Vincent and many other friends.

John Wesley and the Epworth Rectory. Under the above title the "Springfield District Methodist" a monthly periodical published at Canaan Four Corners N. Y, contains, in a recent number, an able and well written article by Harry A. Weymoth, who is somewhat known here. His sister, Helen Weymoth, and other relatives here are well known. The following the history of the Institute. are some excerpts from the article:

rest of the Methodist company; Whit- night and relieved of \$185 in cash. field was the orator, Charles Wesley the hymnist and preacher. John Wesley was the central figure, "who embodied in himself not this or that side of the vast movement, but the very movement itself." Whitfield died twenty years before Wesley and a large part of his strength was given to America. Charles Wesley's active itinerancy only lasted about eighteen years. But for half a century John Wesley was the best known man in England. He is one of the most interesting figures in religious biography. "Few things," Mr. Leeky says. 'in ecclesiastical history are more striking than the energy and the success with which he propagated hi opinions. He was gifted with a frame of iron and with spirits that never

flagged." As we study the biography of Wesley, we cannot fail to see that the energy and unfailing zeal which he displayed in after life were but the natural consequence of the training which he received in early life, and we might almost say, of the ancestry from which he sprang.

He was born at Epworth Parsonage June 17th, 1693. His great grand father, Bartholomew Wesley, because of his connection with the Non Conformists, was ejected from his pastorate In 1661 Wesley's grandfather was committed to prison for not using the Book of Common Prayer in the church. . After being released he labored continually, doing good wherever opportunity presented itself and undergoing great persecution for his non-conformist views, until broken down in spirits, his fight with poverty closed in 1678.

Samuel Wesley, the father of John, was for thirty-nine years the Rector at Epworth. The region was then in a turmoil, and the first twelve years

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cared by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it be possi-ble to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.

All could see that there were certain writings and a certain person spoken It was certainly a great privilege thus to be permitted to bear witness to Christ and the Scriptures before such a congregation, but it was a very serious for them never to have heard the good news than to hear and reject it. Yet we are commissioned to proclaim it to every creature, and God will take care of the results.

He should be the first that should rise from the dead and should shew light unto the people and to the gentiles. Christ Himself taught that it be-

hooved Him to suffer and to rise from the dead the third day and that repentwhich Paul preached was that Christ tured in Benton Harbor and as far died for our sins according to the Scriptures, and that He was buried; according to the Scriptures, and that the police. through Him is preached the forgiveness of sins, and by Him all that believe are justified from all things (I Cor. xv, 3, 4; Acts xiii, 38, 39).

But alas, almost a Christian is to be lost. Balaam and Judas Iscariot were perhaps as near to being Christians as men could be, yet we have no reason to think that either was saved. There s great reason to fear that many church members, moral; religious people, in good standing, are only "almost: Christians." This certainly is true, that if any are depending on their morality; church membership, baptism, knowledge of Scripture or anything short of actually receiving Christ they are not saved, for "he that hath the Paper in all the new shades. Our export trade in butter is not important and will not be so long as home markets continue as now, relatively higher than those of Great Britain, says Stockman and Farmer. Some economists can figure out great possibilities for our export butter trade, and many express astonishment that this country does not take advantage of its opportunities in this business, but they overlook the vital fact that the home market is still the best market for good butter. The average price of foreign butter in the London market last year was 23 cents, averages ranging from 20 cents for Russian to 241/2 cents for Danish. It does not take an expert to figure that extensive exports would have been impossible on such a basis or on the basis of Canada's average price, which was 21 cents. What butter this country exported averaged 201/2 cents. An interesting development of the foreign butter business is the enormous progress made by Russia in supplving the British market. Last year Russia stood second to Denmark in this trade, shipping 54,768,000 pounds. This came mainly from Siberia, requiring long rail and water shipments, and the fact that its average price was so close to that of the Canadian product shows that Russian dairy progress is not to be despised: It is thought that this year the trade will be much larger.

Starters at All Seasons. Taking it for granted that every butter maker reader of the Creamery Journal has at this moment a good starter at work in his creamery, we hope that none of them recognize the winter months as the "starter season" and will discontinue their use of a starter during the summer. The "starter season," in the minds of our best butter makers, consists of twelve months, and no less. Whenever it is possible to prepare a starter of a finer flavor than the milk or cream received, then it is advisable to introduce the starter, and this is possible under the supervision of the skillful butter maker at all seasons of the year.

### THE GREAT KANSAS COW.

An Eloquent Tribute Paid to Her at a Topeka Banquet.

A party of business men were recently gathered at a banquet in Topeka, Kan. They represented a wide diversity of interests, and for a diversion each representative was taking his turn lauding his particular brand of business and telling what it was doing for the state. After nearly all had spoken, a creamery man arose, and, addressing the toastmaster, said:

"We have been listening with interest to the glories of every industry as told by its representative here, but I wish to say that none of them can begin to compare to the industry which I am lending my feeble efforts to uphold.

"If all the cows in Kansas were melted and molded into one great animal, her tongue might lap the foamy waters of the Atlantic while her tail was switching the eternal snows of the Rocky mountains.

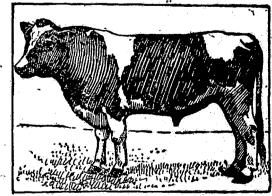

"If the butter we have made for this great state could be gathered together. it would be enough to grease the axles of the illimitable universe.

"If all the milk which is now flowing from the udders of the Kansas cows were turned into one great stream, its head might rise in the aurora borealis while its month would empty into the day of judgment.

"The money made for the Kansas farmer by the dairy industry is enough to crook the pregnant hinges of every knee in Christendom, and, gentlemen, the company I represent is giving all this to the state without money and without price.

"I move that the design of our state seal be changed and that it represent a milkmaid rampant and a cow couchant, with a bunch of alfalfa as a background, and the motto, 'Ad astra per

The Flavor Counts. Why does good butter bring a higher Why does good butter bring a higher price in the market than poor butter? Wheat demands a higher price than oats because it contains a great amount of food nutrients, but is this true in reof food nutrients, but is this true in regard to the different grades of butter? Is not butter that scores as "seconds" just as nutritious as that which is classed as fancy "extra?" Then why the difference in price? The answer is found in the fact that the American at ten o'clock in the forence, as a probate. In the matter of the estate of Julia W. Wind Plays Havoc in Kansas, Where It Has Adopted the Eight-Hour Day.

TWO ARE KILLED IN ONE CYCLONE

Last of Three in the Same County in Twenty-Four Hours.

Lightning Does Costly Damage in Indiana, Setting Fire to Property -Kansas Country Laid Waste.

Salina, Kan., May 22.—The third cyclone in Salina county within twenty-four hours struck Assaria. Two persons were killed and a dozen or more injured. The dead are: William A. Olson, 13 years old, and Peter Olson. Of the injured none is fatally hurt. The house in which the Olsons lived was demolished completely, and the body of the boy was found thirty rods from where the house had stood. The wind carried the farm house occupied by Nels Olsonburg a distance of five rods. Miss Christine Olsonburg saw the storm coming and escaped from the house a half minute before it was carried away. A terrific rain followed the cyclone. At Bridgeport, in this county, hail fell continuously for twenty minutes, doing great damage to

Stormy Weather in Indiana.

Indianapolis, May 22. — A heavy storm swept over Indiana. Wire service has been almost paralyzed, and damage to buildings and crops will reach many thousands. Buildings were struck by lightning and burned, and there were some narrow escapes by fleeing occupants. At Lebanon, Ind., trees were blown down, outbuildings destroyed, the wire service paralyzed and no communication can be obtained with the surrounding country to ascertain the extent of the damage. The roof of the Perkins' hotel was torn off and there were several narrow escapes from death. The new street car barns were blown down and windows were broken in all parts of the town.

Much Damage by Lightning. At Elwood, Ind., the storm did damage to the amount of \$20,000. Three barns were struck by lightning and burned. The new car barns being built by the Union Traction company were destroyed by fire caused by lightning, and the large barns of Gco. Abbott were burned. Two miles south of the city the barn of Anthony Chamness, with all its valuable contents, was destroyed by fire after being hit by a lightning bolt. Four men and a boy who were in the barn when it was struck were stunned and carried out before the barn roof fell in. The machinery and grain stored in the barn were burned.

YORK FEELS THE ROTARY TERROR

Demolishes a Number of Buildings and

Cuts Off the Country.

York, Neb., May 22.—This place was visited by the worst tornado that has passed through the county since 1890, when the town of Bradshaw was torn to pieces. Mrs. Kingley's harn, a large one, was wrecked. D. N. Blood's residence was partly tern to pieces. Pat McGown's residence was unroofed, the barn torn to pieces and the horses carried away. Thomas Mathews' residence was turned over, with his wife and babe inside. Then the wind tore down trees and barns, telephone poles, etc., until the United Brethren church was reached...

This was a brick edifice, but it is almost a total wreck. F. D. Marsetu's residence and outbuildings one mile northeast of the city were badly damaged. It is impossible to hear from the country. No fatalities have been reported, although there a e quite a number who were injured. During the storm rain fell in torrents.

Chickasha, I. T., May 22,—A tornado passed over the town of Lone Wolf. sixty-five miles west of Chickasha. Four houses were blown down. Mrs. Hargan, wife of a farmer, was blown against a barbed wire fence and killed. Oklahoma City, May 22.—A special from Amarillo, Tex., states that the panhandle country was visited by a severe storm. The home of M. R. Wilson, near Hereford, was blown to pieces, killing Mrs. Wilson and child,

and fatally injuring Mr. Wilson. COUNTRY HAS BEEN LAID WASTE

Miraculous Part Is That. No Lives Have Been Reported Lost.

Ashland, Kan., May 22.—This place and a large portion of the country have been laid waste by a cyclone. The damage will be great, and it is considered miraculous that no lives were lost. So far as is known nobody was killed, and none in Ashland injured severely. It is reported from the country districts that some were fatally injured. The indications are that the storm was worse in the country than

The business section of Ashland was not damaged to any great extent. The residence portion suffered most. The bus 2, St. Paul 1; at Milwaukee and homes of J. P. Campbell, M. G. Stevenson, C. B. Nunemacher, J. A. Van Orsdell, W. L. Ainsworth and E. R. Kerns were completely wrecked. As many as fifty houses are partly demolished. Campbell, Stevenson and Ains-

worth were injured when their houses went down.

The fine fruit farm of F. R. Kerns was swept clean of trees and buildings. The Theis ranch house was destroyed, and trees and wind mills are down in all directions. A large number of cat tle are killed.

FAILURE OF PORTER BROS.

BOTH I WAS A CONTRACT WITH ME CONTRACT OF Chicago Commission Firm Will Have. Liabilities of Nearly a Million-Assets Are Much Greater.

Chicago, May 22.—According to statement made by Attorney Defrees, of Defrees, Brace & Ritter, counsel for the receivers of Porter Bros., the magnitude of the concern's embarrassment has been overestimated, in the printed reports of the failure. "I know already that the liabilities are in excess of \$800,000," said Defrees, "and I don't know how much higher they will mount, if any, when we are fully informed. It is ridiculous to state, however, that the liabilities will reach \$3,000,000." The creditors are mainly banking institutions and warehouse companies.

At the River street offices of the fail ed firm an employe said a few words in the absence of Treasurer Adams. "The thing is a surprise to us all," he said. "No one but Mr. Watson knows the origin of the trouble. From what I know of the firm, however, after, an employment here extending through many years. I should say that the company's assets are five times greater than its liabilities."

San Francisco, May 22.—The San Francisco managers of Porter Bros. are confident that the firm's embarrassment is only iemporary.

DUMONT NAVIGATES THE AIR

Goes Through a Number of Evolutions with His Latest Style of Airship.

Paris, May 22.—Santos Dumont made a successful ascent in his steerable balloon at Neuilly in the presence of 3,000 spectators, including the minister of finance, M. Bouvier. The first attempt failed owing to the guide rope becoming entangled in the balloon's propeller and the gas escaped from the balloon which had to be taken to the shed and refilled.

A successful ascent was then made and the balloon proceeded to the Bois. de Boulogne, where a number of evolutions were gone through amid the applause of the spectators. After manoeuvering for half an hour at a height of 600 feet above the polo grounds Santos Dumont returned to Neuilly.

Firebug Who Is 12 Years Old.

Chicago, May. 22.—Paul Corcoran, 12 years old, started the fire which made thirty-five families homeless and destroyed property amounting to \$105. 000 Tuesday night, so that he could see the firemen at work. This he states in a confession signed by him at the Sheffield avenue police station, where he is a prisoner. The boy lives at 497 Sheffield avenue.

Denver Strike Is Ended.

Denver, May 22.—The strike which for several days has practically paralyzed the business of the city, involving nearly 10,000 men and women, and threatening to force into idleness twice that number of union members, has been settled, the strikers getting the best of it so far, but the present difficulties are yet to be arbitrated.

Mrs. White Worries Over the Unbelief of the Battle Creek Adventists—State News.

Lansing, Mich., May 22.—In a debate in the state legislature over an appropriation of \$353,000 for the Home of the Feebled Minded, Representative Rodgers/made a remarkable p.oposition that the hopelssly incurable be put to death. Rodgers said: "I am glad that Michigan has such an institution, but I do not think that parents responsible for such unfortunate beings as have been described here should themselves care for their offspring. Would Put Them Out of Misery.

"If, as Mr. Willis says, there is a class of children there who do not know they are alive, the state of Michigan would do well to pass a law that would permit the establishment of a system that would put them out of their misery. It would be better for the patients and better for the state." "Shame! Shame!" cried Willis.

"You may cry 'shame,' " said Rodgers, unabashed, "but the more advanced nations of Europe are taking steps for such a disposition of incurable unfortunates as I propose, as the most merciful, most scientific and most economical, method."

PROPHETESS MUCH TROUBLED Mrs. Ellen White Rebukes the Unbeliever

in the Fiery Judgment of God .. at Battle Creek.

Pattle Creek, Mich., May 22.-Mrs. Ellen White, prophetess, has made a statement of her feeling in regard to the belief of some Adventists that the five buildings lost by the Adventists in the last two years were not set on fire by the Almighty, but were destroyed by incendiaries. In a local paper she says: "To My Brethren in Battle Creek-

I am bowed down and greatly troubled. God's judgments have fallen heavily on our institution in Battle Creek, but how little has this done to move hearts to repentance. Fear and trembling take hold of me as to what will be the next revelation of God's displeasure. Those who have disregarded the messages of warning have lost their bearings. They work: God: has laid upon me, and if this does not convince them no arguments, no future revelations would affect them.

"The result will be that God will speak again in judgment as He has spoken heretofore. When, for years, His messages of warnings have come to institutions and individuals and no warning is taken, what power will by reason of such action. It is some- The Board will remain in session the convince them? Only the power of God revealed in judgment."
