## HONORED THE DEAD

Decoration Day Celebrated in a Fitting Manner by People of the Village and Township.

### BAND BOYS DID FINE WORK

Everything Propitious but the Weather Which was too Cold for Comfort.

Memorial Day of 1903 has now passed into history and only the memory of the event is left with the people.

A large crowd gathered from the rural districts to join the village people on Saturday and the day was largely given up to the honoring of the nation's dead.

The line of march formed about 1:30 and consisted of the members of the G. A. R., the Buchanan Cornet Band, the school children and a large number of carriages, containing the many who were desirous of listening to the exercises.

Upon the arrival at the cemetery the program as planned was carried out and proved very interesting. The patriotic oration delivered by Rev. W. J. Tarrant was full of thought and of timely suggestions. The music by the band was fully appreciated and many commented on the favorable appearance the young men presented. The songs by the chorus were well rendered and the entire program proved interesting and appropriate. The committee who planned the arrangements for the day are to be congratulated on their executive ability in so successfully carrying out the day's events.

### HOME TALENT ENTERTAINMENT.

Interesting Program Rendered in Spite of Failure of Electrical Lights.

Saturday night the electric lights were again missing and many plans for the evening were sorely disarranged. Among the events which was much interfered with, was the entertainment which had been arranged to appear in the opera house. The program was necessarily much changed but proved attractive and interesting.

The stereopticon and the illustrated songs had to be dispensed with, under the circumstances. After two numbers by the village band O. P. Woodworth appeared in negro costumes and told some witty stories in darky dialect which provoked much laughter. He also sang some comic songs which the audience thoroughly appreciated.

Cress Weldon amused the audience by telling of some humorous incidents, and simultaneously tearing paper into conventional designs, which, as completed were shown to be very pretty.

One of the most attractive features of the program was the Indian club drill by Mr. Woodworth, which proved him to be quite an expert in handling these physical culture implements.

The clog dancing by Messrs. Fred Eisenhart and Jesse Richerson was an attraction which the audience enjoyed.

The entertainment closed with a burlesque of Uncle Tom's Cabin, in which Cress Weldon and Mr. Fred Eldridge took the parts of Uncle Tom and Mr. St. Clair respectively; and O. P. Woodworth played little Eva. The design was that of a stranded theatrical troupe who devised the scheme of giving this play to raise necessary funds.

The house was well filled and the audience dispersed thoroughly pleased with the program.

### Bedding and Vegetable Plants.

A fine lot of geraniums, asters, verbenas, salvia, etc., also cabbage and tomatoe plants for sale at the River St. Green houses.

## WORTHILY BESTOWED

Honor Conferred on Presiding Elder G. J. Kirn, who is Elected Professor at

### NORTH-WESTERN COLLEGE

Accepts the Chair of 'Apologetics and Biblical Literature at Naperville, Illinois.

Rev. G. J. Kirn, A. M. Ph. D. Presiding Elder in the Evangelical church, who, about a year ago cast his lot with the people of Buchanan, has accepted the chair of Apologetics and Biblical Literature of Northwestern College located at Naperville, Illinois.

While Rev. Kirn's many friends will rejoice at the honor conferred on him, and congratulate the college on

G. J. KIRN, A. M. Ph. D.

securing a man who will add to its popularity and influence, yet it is with regret that the people of Buchanan learn of his intended departure. Though the family have been here but a short time, they have endeared themselves to all who have had the pleasure of their acquaintance. Beside the activity of the family in the church and social life the children of the home have made exceedingly good records in school and will be greatly missed there.

Rev. Kirn is the author of several literary productions, among which is a volume entitled: "Religion, a Rational Demand". The aim of this book is to show that religion is not a result of training either of the individual or of the race, but is wrought into the very constitution of human nature, and that its fundamental tenets are the necessary outcome of rational thought. It is a thoroughly scientific treatise handling the subject in two parts.

While Rev. Kirn has accepted this position, the family do not expect to leave the village for several weeks. They came here from Flint, less than a year ago.

### BASE BALL

High School vs. Axle Works Play Interesting Game.

Saturday afternoon on the school grounds, the last game of the season in which the high school students will play, was indulged in, the opposing parties being made up of young men from the axle works, with one or two outsiders. A large crowd witnessed the game which developed many interesting points, and finally terminated with a score of 15 to 18 in favor of the high school.

### Colonial Dames.

The closing meeting of the Colonial Dames for this season was held last Friday evening by Mesdames Hosford and Ames at the home of the former. It was a special meeting and a royal good time fell to the lot of all present.

The prizes were won by Mrs. May Fuller and Mr. Will Porter.

### A Costly Mistake.

Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for Dyspepsia, Dizziness, Headache, Liver or Bowel troubles. They are gentle yet thorough. 25c, at W. N. Brodrick's drug store.

# BUCHANAN RECORD.

D. F. BOWER,  
EDITOR.

TERMS \$1.25 PER YEAR

Entered at the Post-office at Buchanan, Mich.  
as second-class matter.

TUESDAY, JUNE 2, 1903.

Rev. D. W. Cole Fills Presbyterian  
Pulpit.

Last Sunday at the Presbyterian church, the newly elected pastor, Rev. D. W. Cole, of Brooklyn, Mich., preached two very acceptable sermons. The morning congregation was pleased with the discourse based on the text "We would see Jesus," John 12: 21. The speaker presented Jesus in four ways: First, in prophecy. All the Old Testament prophecies revolved around the central idea of the coming Messiah. Second, in history. The New Testament Christ is the fulfillment of all Messianic prophecy. Third, in Dogma. The system of theology in protestant and Catholic literature has Christ for its central thought. Four, in experience. If we know Christ in all three ways, yet know him not by experimental knowledge, it availeth us nothing.

In the evening, Rev. Cole spoke on the subject of "Using the world without abusing it." The sermon was listened to with interest; it was helpful in its practical application, and inspiring in its appeals to the development of the higher nature. At the close of the morning service Rev. Cole met the elders of the church and made a formal acceptance of the call extended to him.

## BRASS BAND NOT NECESSARY.

But Niles Trolley Line Will be Operated  
Before July 1.

Mr. J. McM. Smith admitted everything but the brass band and blowout announced by a Niles paper for the first of July. He thought it wouldn't be necessary to get the band out or spread a feed, "But, he added, "we will have the cars running on our Niles line between the middle and last day of June."

The steel is now laid to near St. Mary's academy and during the coming week will be brought through the Michigan Central culvert and on down to the Leeper bridge, where it must await the completion of the special work on which it is to cross the river. Meantime the steelwork for the overhead crossing of the Big Four railroad near Niles is on the way and can be placed in position in a short time as the parts have only to be bolted together.

Material for the construction of the east side line is being scattered along Hill street and South Bend avenue and the work of laying track will begin at once. The line is to be in operation by July 1.—South Bend News.

## SCHOOL NOTES.

The 7th grade spent the first half hour Friday morning with Memorial Day exercises; patriotic songs and quotations were given by the pupils.

Thursday p. m. the sixth grade spent part of the time reviewing the poems memorized during the year. Katie Richardson, of grade 7, wrote and read an original story entitled "Decoration Day."

Pupils of the sixth grade have finished their copy books.

The 4th grade is interested in the life of Robert Fulton.

Mrs. Kent made a pleasant call on the 3rd grade Wednesday.

The A class 4th grade won in the arithmetic contest.

## Fight Will Be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight, if not ended earlier, by fatal termination. Read what T. R. Beall of Beall, Miss., has to say, "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her. Guaranteed by W. N. Brodrick Druggist. Price 50c, and \$1.00. Trial bottle free.

## Splendid Combination Offer.

Three excellent papers, two of them coming to your home twice a week and one once a week, all for \$2. This is a remarkably low offer.—THE DETROIT SEMI-WEEKLY JOURNAL, THE MICHIGAN FARMER and the twice-a-week BUCHANAN RECORD.

## COUNTY SEAT NEWS

The Board of Supervisors adjourned over Decoration Day.

The petition for a new steel bridge over the St. Joseph river has been withdrawn as the supervisors believe there is a better and more legal way to reach the end sought.

Resolutions of respect were adopted on the death of Supervisor Chas. Smith of Bridgman, also of condolence to Supervisor Thompson of Niles, who was recently injured so seriously.

About \$12,000 in bills (mostly court fees and for county officers), have been allowed; the sum of \$15,000 was borrowed to pay current expenses.

## THE CIRCUIT COURT.

The Circuit Court convened at 2 o'clock Monday afternoon.

The case of Annette Bell vs. C. B. Potter, involving title to marsh land is on trial.

The case of Jesse Goodrode, charged with stealing a horse, has been set for hearing at Watervliet, June 19.

Mr. L. N. Kennedy has been granted a divorce from Cora Kennedy on the ground of desertion.

## Sunday School Union.

The executive committee of the Sunday School Union of Buchanan and Bertrand townships met for business on Monday afternoon. There were present: Rev. W. J. Tarrant, president; Rev. W. J. Douglass, Rev. Halmhuber, Mr. David Kean and Mr. L. L. H. Dodd.

Arrangements were made to hold a Sunday School institute in the Evangelical church on the 25th day of June 1903. Mr. Fred Washburn, Mr. Knapp, Mr. Hoffman and daughter will be present and all have a part in the services.

Also arrangements are being made for a Sunday School rally in Berrien Springs on July 4, 1903. Mr. David Kean has been appointed to secure cars to carry the schools of Buchanan and the schools of the township to and fro. Superintendents talk it over with your schools. Plan for it, prepare for a good day. More later.

## ALL TO GO FOR FACTORIES

Development Company will Use the  
Entire \$50,000 if Voted.

It is the intention of the Development Company to use the entire proceeds of the park bonds, \$50,000, if these are authorized by the people June 17th, for the procurement of new factories, the five acres of land described in the official notices being practically donated to the city for park purposes, and thus enabling the city to secure a fund legally by an equal distribution of the burden on the taxpayers for the promotion of the public welfare.

The Development company, whose executive committee will have charge of the funds, these gentlemen being well known, public spirited and sagacious business men, declare their policy to be not to pay out the money until factories are built and in running order, adding to the assessable taxable property of the city far more than is given by the tax payers, and thus the \$50,000 will be not a gift but an investment.—Palladium.

## FLOOD AND TORNADO.

Terrible Destruction Caused by Water  
in the River Rising Beyond  
Bounds.

While in this immediate section there has been a dearth of rain and we have been free from destructive storms, for which no doubt all are thankful even if they do not express it. Other places have had severe suffering, especially have the floods been severe along the Kansas and Missouri River. The weather bureau sent the following:

Washington, May 31.—The following special flood warning was issued to-night by the weather bureau:

"The flood situation in the lower Missouri continues to be grave. Warnings for a stage of 26 feet at Herman and Boonville, Mo., and for 32 feet at St. Louis have been issued. The danger line at the last named point is 30 feet."

"All flood records since the year 1844, when the district was sparsely settled, have been surpassed by the floods of the last week in the Missouri Valley," said Alfred J. Henry in charge of the forecast division of

the weather bureau. "We have deemed it necessary to send out special flood warnings as the conditions continue very dangerous. Rain has been falling to-day in Missouri and Iowa. The danger line at Kansas City, for instance, is 31 feet, and to-day a stage of 27 1/2 feet was reported. This means an alarming situation so far as property is concerned, but the people have been sufficiently warned so that there should not be further loss of life. The stage of 32 feet has been predicted for St. Louis, where the danger line is 30 feet."

The following is the latest estimates of flood damage:

KANSAS CITY.  
Lives lost in city and suburbs, probably 100  
Homeless 20,000  
Still in peril and rescued 250  
Property loss (estimated) \$10,000,000

TOPEKA.  
Cases of sickness due to flood 150  
Lives lost 34  
Property loss \$1,000,000  
Not rescued and in peril 200

DES MOINES  
Cases of sickness due to flood 200  
Dwellings submerged 2,000  
Number of homeless 6,000  
Property loss \$1,500,000

Some idea of the tremendous rainfall for the last week along the flooded districts of the Missouri and Des Moines rivers and their tributaries can be gained from this table:

Inches.  
Omaha 8.44  
Des Moines 7.46  
Concordia 6.50  
Kansas City 2.28  
Wichita 1.31  
Sioux City 2.98

The rainfall in Omaha for the last week has equaled the ordinary fall for a month, while that in Des Moines and Concordia has equaled the average for two months. In the record year of 1854 the stage of the river at Kansas City was 37 feet, or 16 feet above the danger line. In 1881, another great flood year, the stage was 26.3 or 1.2 feet less than the stage reported to-day.

Many places have suffered by tornado, some in our own state, but the latest were yesterday in Georgia. The following figures give some idea of destruction of tornado victims in Georgia.

AT GAINESVILLE.  
Killed 100  
Injured 150  
Houses Destroyed 200  
Property Loss \$500,000  
AT NEW HOLLAND.  
Killed 83  
Houses Destroyed 100  
Property Loss \$200,000

## \$25 To Colorado And Back.

It has been estimated that between 8,000,000 and 10,000,000 persons in the United States take a vacation every summer. They spend between \$400,000,000 and \$500,000,000 yearly in pursuit of pleasure. This is a great deal of money to spend during a vacation, but this season the expenditure per capita may be somewhat less on account of the low railroad rates offered by the Chicago, Milwaukee & St. Paul Railway.

From July 1 to 10 this line will sell tickets to Colorado and return from Chicago for \$25. This will enable many to enjoy their summer's outing at slight expense. Colorado summer resorts are cooler than the seashore.

For scenic beauty the Rocky Mountain region is famous the world round. The most attractive spots among these peaks are beautifully pictured and faithfully described in a new book just published by the passenger department of the Chicago, Milwaukee & St. Paul Railway. It will be sent on receipt of six cents to pay postage.

Through train service, Chicago to Denver, every day via the Chicago, Milwaukee & St. Paul and the Union Pacific.

## IF WOMEN ONLY KNEW

What a Heap of Happiness it Would  
Bring to Buchanan Homes.

Hard to do housework with an aching back, hours of misery at leisure or at work, if women only knew the cause; backache pains come from sick kidneys, Doan's Kidney Pills will cure it. Buchanan people endorse this.

Mrs. M. Griffen, of West Front St., says: "I used Doan's Kidney Pills procured at W. N. Brodrick's drug store, and I think them an excellent remedy for backache and kidney complaint. I was troubled for some time with a dull aching feeling in the small of my back often quite severe more especially if I overexerted myself or took a slight cold. I used a great many remedies of which some were worthless and others relieved me for a time. This I cheerfully say about Doan's Kidney Pills. I received more permanent relief from them than from any other remedy I ever took."

For sale by all dealers; price 50 cents. Foster-Milburn Co., Buffalo, N.Y., sole agents for the U. S.

## LATEST FASHION NOTES

COSTUME OF HYACINTH-BLUE.

A costume of hyacinth-blue satin-  
faced cloth shows the new drop-  
shoulder cape collar and odd reverses  
bordered with Russian embroidery.  
Fanciful sleeves are shown, buttoned  
on the outside. The skirt is prettily  
decorated with strappings in various  
widths, all of which should be care-  
fully stitched with Corticelli silk.

The drop-shoulder effects are in  
style at present, and since this rem-  
nant of "1880" may be obtained by  
sailor and shawl collars, any one can  
easily adopt her waist to the broad  
shouldered requirements of fashion.  
The neat band cuffs for the drooping  
bishop sleeves should be selected to  
correspond with the collar. A pretty  
design for one of these fashionable  
adjustants is in white grass linen  
studded with medium sized velvet  
disks each of which is embroidered  
in scarlet French knots worked with  
Corticelli twisted silk. The edges of  
the collar are banded with scarlet  
silk

### Panorama of Finance and the Markets.

As one would expect of a great  
metropolitan newspaper having the  
facilities of The Chicago Record-Her-  
ald, that paper always covers the  
markets and financial and commercial  
intelligence generally on a scale of  
exceptional fullness, covering two en-  
tire pages of each issue. The quota-  
tions on live stock, grain and provi-  
sions, stocks and bonds, and in fact  
every commercial and financial mark-  
et in which the people of the North-  
west are thoroughly complete and  
satisfactory.

Special cables tell the story of fi-  
nance abroad. The "Speculative  
Gossip," "Wall Street Talks" and  
"LaSalle Street Notes" are features of  
The Record-Herald market page that  
interest speculators from the Pacific  
to the Atlantic coast. They tell of  
the undercurrents in the grain and se-  
curity markets. They relate person-  
al gossip of the pits, in its way as im-  
portant as the humdrum and routine  
part of the day's story of speculation.  
The Wall street letter of John Cham-  
bers summarizes the daily history of  
Gotham's money market in a most  
entertaining and instructive fashion.  
Examine the market page of any is-  
sue and see for yourself.

### Revolution Imminent.

A sure sign of approaching revolt  
and serious trouble in your system is  
nervousness, sleeplessness, or stomach  
upsets. Electric Bitters will quickly  
dismember the troublesome causes.  
It never fails to tone the stomach, regu-  
late the kidneys and bowels, stimu-  
late the liver, and clarify the blood.  
Run down systems benefit particu-  
larly and all the usual attending aches  
vanish under its searching and thor-  
ough effectiveness. Electric Bitters  
is only 50c, and that is returned if it  
don't give perfect satisfaction. Guaran-

enough to be serious but was very  
painful.

## The Case of Private Groat.

ON the battle field of Seven  
Pines, near Richmond, Va., is  
a government cemetery where  
in are buried the bodies of Un-  
ion soldiers exhumed since that bloody  
contest. One Memorial day some years  
ago an officer in charge of a detach-  
ment of United States regulars went  
up from Fort Monroe to place flowers  
over the dead in this cemetery. While  
they are standing before a grave, let  
us go back to a certain day in 1862  
when the Army of the Potomac was at  
Yorktown.

One morning a general on a tour of  
inspection stopped at a shot riddled  
house in which a man was confined  
under sentence of death.

"What are you here for, my man?"  
asked the general.

"Desertion."

"Have you been tried?"

"Yes, general, and sentenced. I'm

to be shot on the 14th. I don't mind  
bein' shot, so long's I'm not to be hanged.  
D'ye see the pictur' pinned to the  
wall, general?" pointing to a card pho-  
tograph of a boy about two years old.  
"Well, that's my son Billy. I've al-  
ways wanted the little chap, when he's  
grow'd up, to be a sojer. I consider  
sojerin' the nobles' perfeshun on the  
earth. I know it'll be a backset in the  
service to Billy, bearin' the same name  
as his father—shot for desertion—but  
that can't nowise be helped. Least-  
always he won't be disgraced by his  
father's havin' been hanged."

"You talk like a good soldier," said  
the general. "Why did you desert?"

"Well, ye see, general, Billy was sick  
and ye wouldn't let me go home. I  
was afraid he would die callin' on his  
pop and no pop there to cuddle him up  
in his arms. Ye see, general, Billy has  
always been used to goin' to sleep on  
his pop's shoulder. So I jist went  
home for awhile till I found he wasn't  
goin' to die nohow; then I come back."

The next day the command was  
moved forward and at evening a young  
aid-de-camp rode up to the field in  
which Private Groat was held and  
said to the officer of the guard:

"The general wants to know whether  
the enemy is occupying that wood over  
there. Take your men, go in and find  
out. I'll take care of your prisoner  
while you are gone."

The guard marched away, and as  
soon as the aid was alone with Private  
Groat he said to him:

"Light out!"  
When Groat understood that he was  
free to go, he said:

"Couldn't do that honorable. Besides,  
ef they'd ketch me, next time they'd  
like enough hang me, and the disgrace  
restin' on my Billy'd be terrible."

"Well, then," said the aid impatient-  
ly, "you'll have to be shot. President  
Lincoln alone can pardon you."

Groat scratched his head thought-  
fully, then suddenly took to his heels.

A few weeks later the general who  
had connived at Private Groat's escape  
was superintending the hurried throw-  
ing up of an earthwork in his front at  
a point where seven pine trees grew  
together when Private Groat stepped  
up to him and, saluting, stood at at-  
tention. An astonished, troubled look  
crossed the general's face.

"I thought you had escaped," he said.

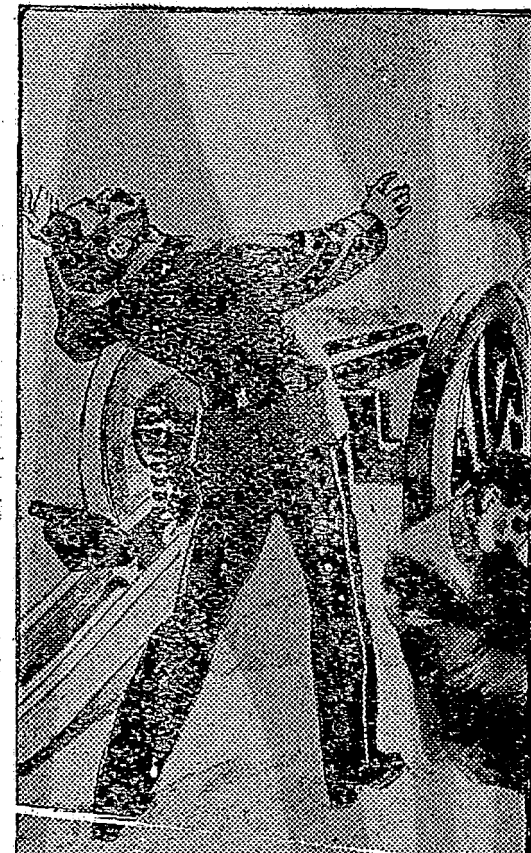

"I did."

"Well, now that you have returned,  
it is my duty to order you shot."

"I have been to the president," said  
Groat. "He give me that," handing  
the general a slip of paper. It was a  
pardon written in President Lincoln's  
handwriting and signed by him.

The whirl of battle came on and the  
general dashed away. Private Groat  
fell in with a battery behind the  
breastwork, and when every man at  
his gun was shot-down worked, the  
piece alone; but only for a moment,  
for a bullet pierced his brain and a  
storm cloud of gray passed over his  
dead body.

When the army came to a rest after  
that campaign, the following order was  
issued:

A BULLET PIERCED HIS HEAD.

Special Order No. 1.  
(1) Private William Groat, —th reg-  
ment — vols., killed in battle, having  
been pardoned by the president, is hereby  
released from arrest and restored to duty.  
(2) Honorable mention is hereby made  
of Private William Groat, —th regiment  
vols., for gallant and meritorious  
services in working a deserted gun, at  
which he remained to meet certain death.

Let us now return to the party of  
United States regulars standing before  
a grave in the government cemetery.  
The officer in command, approaching the  
headstone, read the name:

PRIVATE WILLIAM GROAT.

"Groat?" he said. "It seems to me

that I am familiar with that name."  
"We have a William Groat with us,  
sir," said a sergeant, saluting—"that  
man over there."

"Tell him to come here."

A young soldier approached, and the  
officer said to him:

"Are you the son of William Groat,  
who was pardoned?"

"Yes, sir; my mother has often told  
me how he was ordered to 'light-out';

how he saw the president and returned  
just before the battle here."

"You are little Billy?"

"Yes, sir."

"And I am the man who told him to  
'light out'."

Then, assuming the position of a sol-  
dier, the officer called:

"Attention! This grave will be de-  
corated by Private William Groat, the  
son of the man whose death was one  
of the most heroic of the thousands  
at the battle of Seven Pines."

Private Groat advanced and laid the  
flowers on the rounded heap.

F. A. MITCHEL.

The Alabama station (Auburn) gives  
the following results of experiments in  
bulletin 121: Bitter weed taste was re-  
moved from cream by mixing it with  
two or more parts of water at any tem-  
perature above 70 degrees F. and then  
running it through a cream separator.  
No means were found by which bitter  
weed taste could be removed from  
milk. The compound in the bitter weed  
which gives the milk a bitter taste is  
held very largely, if not entirely, in the  
milk serum. The more completely the  
serum is separated from the fat the less  
is the degree of bitterness in the cream.  
Wild onion flavor was not removed  
from the cream by mixing it with wa-  
ter and then running it through the  
cream separator. Saltpeter dissolved in  
the water tips used was of no value.  
No method was found by which the  
onion flavor could be removed from  
either the milk or cream. The com-  
pound in the wild onion which gives  
the milk a bad flavor is held very large-  
ly, if not entirely, by the fat, and the  
more completely the serum is separa-  
ted from the fat the more concentrated  
is the onion flavor in the cream.

**Billions of Bacteria.**  
At the recent Ontario dairymen's  
meeting Dr. W. J. Connell dealt with  
bacteria and showed instances where  
the ordinary laws of cleanliness had  
not been observed the presence of  
25,000,000,000 of bacteria in six spots  
of milk.

A delegate jokingly inquired of the  
doctor if there was a market for these  
bacteria.

He at once replied, "Yes, they are  
sold as cheese at 12 cents per pound."  
The doctor went on to state that the  
time had come when they must preach  
the doctrine of more care in the dairies.  
They must apply English temperature  
conditions throughout from the time  
the milk left the cow until the cheese  
was put on the market. He thought 60  
or 65 degrees F. should be insisted up-  
on for cheese. For butter making a  
lower temperature would be advisable.

### Butter of High Color.

It is a very rare thing that an or-  
dinary cow will not give a well colored  
butter when she is fed on good fresh  
grass and clover pasture, says the  
Practical Farmer, but cows differ in  
this respect to more or less extent. This  
important qualification of a cow may  
be said to be of much value, not only  
for the high popular appreciation of  
such yellow colored butter, but equally  
for the reason that this high color goes  
as well with a specially fine aromatic  
flavor which is found only in the best  
quality of butter made from a good  
cow fed on the choicest kinds of food  
and by a person who has the knowl-  
edge and skill to keep the milk and  
cream and churn the latter into the  
finest quality of butter, which is not  
spoilable, but perfected, by the exactly  
right method of preparing it for use.  
It may perhaps be reasonably consid-  
ered that the most desirable color of  
butter is really a natural qualification  
of it for its goodness.

### What Is a Starter?

Professor Robertson states that there  
are two kinds of fermentation, one  
that goes on making changes as the re-  
sult of the presence of something with-  
out life itself; that was an unorgan-  
ized ferment and was what cured  
cheese. The other was where there  
was life, as in the case of the yeast  
plant, which caused the dough to fer-  
ment. The "starter" put in milk was  
of the kind that had life in itself and  
would make changes in the cheese.  
One of the results of lactic acid germs  
was to make it easier to separate the  
curds from the whey. It was provid-  
ing for the flavor that came in the cur-  
ling of the cheese.

### Cause of the Increase.

The remarkable increase in the pro-  
duction of milk and butter in the Un-  
ited States in the last decade was due  
far more to increased yield per cow  
than to increase in the number of  
cows, says Dairy and Creamery. There  
is plenty of opportunity for an equally  
great increase in the production per  
cow during the present decade. As  
farmers become more careful and ac-  
curate in determining the relative pro-  
duction of their cows the culling of  
their herds becomes more rigorous.  
This immediately raises the average  
standard of production and tends, by  
aid of the laws of heredity, to increase  
the producing capacity of the descend-  
ants of cows retained for dairy pur-  
poses.
