Warfare on Weeds.

In the warfare against weed and insect pests a new chapter is to be written which, before it is ended, promises to record an extended conquest. Experiments have been conducted by the Government on sections of the Potomac flats which hitherto were a wilderness of rank weeds inhabited by millions of winged and burrowing insects. These same lands are now producing crops of celery and other plants in which not a weed grows, and which are unmolested by insects except as they fly in from neighboring fields not subject to the expert treatment.

One of the soil and plant physiologists of the Department of Agriculture predicts that the time is near at hand when men with the necessary outfits will go about the country taking contracts, before planting time, to rid a farm entirely of weeds and insects, just as they now travel from place to place with threshing machines in the summer and autumn.

The present system of warfare is somewhat elaborate, but forthcoming experiments will include methods which can easily be adopted by farmers in general. A farm implement resembling a harrow in outward appearance may be used as part of the outfit. It is designed to have tubes of steel take the place of the harrow teeth. Pliable steam hose similar to that in use in the air-brake system of railway trains, will run from a traction-engine to connect with a central steam reservoir on the harrow, and, thence radiating to the harrow tubes, will discharge into them boiling water and steam under from eighty to ninety five pounds pressure. Hitched behind the traction engine, this steam surcharged harrow will be hauled over a field about to be planted. The boiling water and steam thus injected into the soil will kill every form of plant and insect life.

In the experiments conducted under Federal auspices the results have been amazing, even to those who hoped the most from them. The hardy seed of the Russian thistle (*Salsola kali tragus*)—a weed which, although not introduced into the United States until 1873, has spread to nearly every State in the Union and become such a menace to agriculture that legislatures and interstate congresses have convened to plan campaigns against it—is destroyed instantly by the new process. Even the perennial roots of

such weeds as the horse-nettle, or sand-brier, cannot withstand this flood of steam.

"We find everything in the soil—rhizomes of the most noxious grasses, the hardest weed seeds, all forms of fungi, and both adult and larval forms of insect life—totally destroyed by our new system of treatment," said one of the Government scientists.

In connection with the experiments an interesting discovery has been made by the Bureau of Chemistry: that the soil treated by the steam process is considerably enriched, the explanation being that the animal and vegetable life destroyed is converted into nitrogenous and other fertilizing elements.—Saturday Evening Post.

COUNTY NEWS.

Niles has decided to have a carnival in September, and will offer a number of attractions to the people, and hopes to have large crowds come in over the new electric line which will be in full operation at that time.

H. H. Porter, of the Lee & Porter axle works in partnership with C. H. Meshe, has made a proposition to the twin cities to start a \$1,000,000 Automobile factory, under certain conditions. They ask no bonus, but require that the city water mains be extended and certain streets over which they will travel, be improved. They in turn agree to spend not less than \$500,000 for factory building, equipment, etc., and not less than \$400,000 in building residences, and employ not less than 800 persons.

THE DAY WAS HONORED

Congressman Hamilton Delivers Address in Mid Ocean.

Mrs E. L. Hamilton has written a letter describing the sea voyage of herself and Congressman Hamilton in their recent crossing of the ocean and the letter, which has been made public, contains the information that on

the 4th of July there was a most interesting celebration of the day, in which the passengers on board the steamer Starendam joined most heartily.

After singing "The Star Spangled Banner," Prof. Ferguson of Trinity College, Hartford Conn. introduced Congressman Hamilton, who gave a patriotic address. Accompanied by the band all joined in singing "America," and the exercises closed with three cheers for president Roosevelt, the Queen of Holland and the captain of the ship.

The Congressman and his wife are on their way to Carlsbad, where Hon. Hamilton will take the baths for his health.

BARN BURNED.

Contents, Including one Horse Destroyed Saturday Night.

Mr. Ed B. Gardner and family, living near Hill's Corners, went Saturday night to Glendora to attend an entertainment, and on returning home found their barn in flames. There is no knowledge obtainable as to how the fire started.

The barn was a large one, containing considerable hay, and one horse was in the barn at the time it burned. All was entirely consumed.

The Farmers' Mutual Fire Insurance Co. carried a risk of \$500 on the barn, \$300 on farm produce, \$150 on utensils and \$150 on live stock.

The property was located one and one half miles south of Hill's Corners in Weesaw township.

Death of Mr. Samuel Chokey.

Mr. Samuel Chokey, who has resided for some time on a farm eight miles southwest of Elkhart, Ind., but who formerly lived on Portage Prairie, and was well known here, died last week from appendicitis.

He was 44 years and 11 months old, and leaves besides a widow and two small children, an aged mother, five sisters and two brothers. One sister, Levina Chokey, lives in Buchanan, and is housekeeper for I. M. Vincent.

Mr. Chokey was an estimable man, a good citizen and a prosperous business man. He had a host of friends, who with the relatives mourn his loss.

The Normal School.

The tour of the state board of education among the northern towns in search of a site for a new normal school is regarded by the Kalkaska Leader with a lack of faith in the honesty of the junket. Says the Leader: "Like the Dutch justice who said he would reserve his decision three days but would ultimately decide for the plaintiff, so the board will doubtless swing round the circle of northern towns and jolly up the citizens thereof, but will ultimately decide in favor of Niles.—Niles Star.

FOR SALE—Souvenir post cards, Six in a set. They are becoming very popular and much in demand. At this office or Binns' Magnet store.

NOT READY THIS WEEK

New Trolley Line From Niles to South Bend Not Opened.

Though the work is proceeding rapidly on the new electric line between Niles and South Bend, the best authorities are quite sure it will not be ready for service this week. It is possible that a car may get over the entire line the last of the week, but it is not probable that it will be open to the public. The cost of the road when completed will be about \$200,000 and it will doubtless be a paying investment for those interested.

A bus line will, run from here to Niles every day, from House's livery barn, meeting the cars about 8 o'clock each morning and 5 o'clock in the evening, which will make South Bend so much more accessible than formerly,—a fact which large numbers of Buchanan people will appreciate.

The postmaster has been authorized to extend Rural Free Delivery from New Carlisle, to commence Tuesday, September 1, 1903. The route to be followed, is laid down by Special Agent Richards in a report dated Feb. 28, 1903, and which will be known as Route No. 2. Total length of route, 23 1/2 miles; area covered, 20 square miles; number of houses, 110; population served, 495. While No. 2 will make some changes in Rural No. 1, it does not make all asked and petitioned for. It is promised that both routes will be changed at an early date, with the establishment of No. 3, and that all patrons of the New Carlisle office will then be served.—New Carlisle, Ind., Gazette.

If Rural Delivery were abolished, the patrons of the routes would even more fully appreciate its advantages. It should be borne in mind that the establishment of a route does not necessarily mean its permanent continuance, for, like any industry it must do a certain amount of business in order to have a right to exist. The Three Oaks routes should be made to serve a large constituency by including boxes for all residents on the roads as well as boxes stationed at convenient points by those living just off the immediate line of travel. The routes will thus carry enough mail to permanently exist, according to the present postal laws.—The Acorn.

"There will just be half enough peaches to go round this year. There are but two states in the Union which will have good crops, and one of these is doubtful. These two states are Maryland and Delaware. Michigan will have just about one-quarter of its normal crop. This is not a quarter of the crop of last year, for that one was phenomenal, and our usual crop, when times are especially good, is about 1,000,000 bushels. If we have 25 per cent of this we will be doing well this year. Nothing but the frost of April 30 injured the crop. Whoever thinks this is the usual scare cry is very much mistaken, and all fruit growers are very well aware of the fact."—Palladium.

Instead of holding a state encampment, as previously announced, the state military board has decided, with the approval of Gov. Bliss, to take the entire brigade to West Point, Ky., in October; for the maneuvers under the auspices of the secretary of

ELLSWORTH'S STORE Fete Week Bargains

We intend to break all selling records this coming week and we expect the great Reduction Sales of Fete Week to be largely attended. We have bought huge quantities of merchandise and the prices paid were low enough to mean wonderful bargains for all our customers. New Fall Dry Goods enter into this sale. We made a very successful purchase of Dress Goods from a New York house which is retiring. The low prices last as long as the goods advertised last. We strongly urge an early visit to the store. Come down and choose the good things from the huge piles of merchandise displayed. Nearly everyone who buys here sends friends to share in the extraordinary bargains.

war. When it was made known Tuesday that the dates selected for the state encampment in August conflicted with those for the national G. A. R. encampment in California, which Gov. Bliss and others wanted to attend, the whole question of the encampment was again brought up, and it is said that the board had previously been divided on the subject. With the receipt of assurances Wednesday that the war department will receive the whole brigade into its camp, the decision to that effect was taken after considerable deliberation. The board decided to order khaki uniforms for the entire Michigan National Guard. The new service uniforms of the regular army are not now available.—The Lansing Republican.

National Guard Records

The compilation of the records of the Michigan National Guard has just been completed in the adjutant general's office. The record will contain 40,000 names and will be given in six volumes of the size of the civil war records formerly prepared in that office. The work has required three years of careful research and recourse to the early records of the state. It contains the military history of every officer and soldier who has ever belonged to the state militia.—Detroit Journal.

Olivet College.

Tuesday, September 15, 1908, is the date of the opening of the Fall Semester at Olivet. The work of its forty-fifth year as a college will, therefore, shortly be under way. Information at hand points to a general and enthusiastic return of the old students, their number strengthened by many who will enter for the first time upon the duties and pleasures in store for them there.

RECEIVED ELECTRIC SHOCK.

Dr. Brodrick Overcome by Current and Rendered Unconscious:

After completing some work in developing photo plates in the basement of the Brodrick pharmacy, last night, Dr. Brodrick extinguished the light and started to go up stairs, guiding himself by a wire. The wire proved to be very much alive and as the Dr. took hold with both hands he made a complete circuit and received a severe shock.

He was thrown to the floor, where he remained unconscious for some time. Presently recovering himself, he ascended the stairs feeling very lame and bruised. It is fortunate that the accident had no more serious results.

Laundry Changes Hands.

E. J. Rickerson, the young man who came from Paw Paw last December, to take charge of the Buchanan Electric Laundry, has sold out the business to W. E. Pennell of Berrien Springs, who took charge of the work on Monday.

Mr. Pennell is an aggressive young man, and has been a school teacher for some time, but will devote his time to the laundry business now.

He has purchased the building as well as the business, and has a good equipment.

Mr. Rickerson has not decided what his future work will be, but on account of his broken arm, he will remain at home for the present.

LATEST FASHION NOTES.

CANVAS CLOTH GOWN.

Mushroom colored canvas cloth is the material of which this charming costume is constructed. An original device for self colored taffeta strappings is here shown, which are employed on both skirt and bodice to good advantage. The skirt is further adorned by an "unc" flounce, which is an advance style, and the tucks are headed by simple hand embroidered designs, worked with Corticelli E E embroidery silk. This embroidery also appears on the bodice.

The berth is just now one of the most popular and dainty of decorations for a bodice. This is sometimes made pointed or in a rounded effect, and may be made, either very simple or very elaborate. Good effects may be obtained when these are made either of the same material or of a different material.

NOT MUCH RIVALRY

Michigan Will Have The Peach Field to Itself This Year.

BOSTON, Mass., July 26.—Michigan will not have much rivalry from New England this season on the peach industry. J. H. Hale of South Glastonbury, Conn., the largest peach grower in the east, says today that as far as he was concerned the crop, this year in Connecticut, would not average more than 5 per cent more than the average crop.

Mr. Hale has returned from Georgia where he has just completed harvesting and shipped his peach crop grown in this state. His orchards yielded 70 carloads, or about half a crop. Hale says the trouble has been the rainy weather when the trees were in blossom. He talked with some of the fruit dealers in New York when on his way home, and they told him, there were but few peaches coming into market, and they were from California and Michigan.—Grand Rapids Herald.

John Williard, South Bend, says: "Coonley's Tonic Extract of Sarsaparilla is the best medicine made, it cured me of a terrible Eczema after all other blood medicines had failed." Be wise and take it first. Only 50c a large bottle at E. S. Dodd & Son's.

CULLOM'S NEPHEW'S TROUBLES

Why He Was Indicted and Arrested on Complaint of the United States Government.

Phoenix, A. T., July 24.—The arrest of Shelby M. Cullom, nephew of the Illinois senator, was based on charges emanating from Washington, that when Cullom was deputy internal revenue collector more than a year ago he imposed unauthorized penalties and appropriated the money to himself. It is said that Cullom, when informed that an investigation was in progress, refunded all money supposed to have been misappropriated and believed the matter to be ended.

The government, however, was not satisfied with the restitution of the penalties and will push the prosecution through the courts. Cullom's friends here believe that the charges grow out of a disagreement between Cullom and Internal Revenue Collector A. L. Morrison, of Santa Fe, formerly of Chicago.

TWO AGAINST JETT NOW

Murderer of Lawyer Marcum Was Also the Assassin of Town Marshal Tom Cockrill, It Is Said.

Jackson, Ky., July 24.—Police Judge Cardwell has issued warrants for the arrest of Will Britton, a deputy sheriff, and Asbury Spicer, a kinsman of Sheriff Callahan, charging them with the murder of Town Marshal Jim Cockrill more than a year ago. Charles Green, of Lexington, an exile because of knowledge that he had of the killing of Cockrill, was brought here under escort of soldiers as a witness.

He testified before the grand jury that he saw Jett and two others shoot Cockrill from the second-story window of the court house. He was standing on the street talking to Cockrill. He said he did not know the names of Jett's companions, but could identify them. He will be given a chance to do so.

YACHT IN GREAT PERIL

Adrift in Hell Gate and Fire Raging in Her Hold She Nearly Goes Ashore.

New York, July 24.—Adrift in Hell Gate with fire in her hold, smoke enveloping her stern and her whistle blowing the shrill signal of distress, Selah R. Van Duser's big steam yacht, the Wana, was swept perilously near the Astoria shore.

Van Duser with his wife and two daughters and two women guests were aboard at the time. The officers and crew were unable to direct her course, but eventually, with the aid of a tugboat, they managed to pump several streams of water into her hold and extinguished the flames.

Constructive Studies in the Life of Christ

By ERNEST D. BURTON AND SHALER MATTHEWS, Professors in the University of Chicago

A book prepared especially for use by advanced Bible students. An admirable help for students of the New Testament in colleges and academies, and advanced Bible classes. It aims to guide the student in the construction for himself of a life of Christ, derived directly from the sources as they exist in the New Testament. The most important political and social features of the New Testament are described, and the endeavor is made to present the events of the Gospel history in a true, historical perspective.

Mrs. Sarah Smith and daughter,
Mrs. Blanche Bowers, and their guests
Mrs. Chas. Smith and Mrs. Wheelock,
and Mrs. S. E. Johnson, enjoyed a
drive to Niles Friday.

Mr. and Mrs. Barnhurst and family
have rented the John Wenger property
on Fourth street, and are moving in
this week. Mr. Barnhurst is one of
the firm of the "Three B Duster Com-
pany."

Mr. Walter Mutchler has been suf-
fering from a severe cut in his leg.
While at the slaughter house a few
nights ago engaged in butchering, he
accidentally cut himself in the leg, be-
tween the knee and hip, sinking the
knife into the flesh nearly three inches.

Mrs. John Wenger, and children
went today to Jackson to join Mr.
Wenger who has been for some months
holding a position in the prison. The
many friends of the family will miss
their presence from Buchanan.

Mr. James East, who has been mo-
tor-man on the South Bend street car
line for some time, is suffering with
an abscess caused by the strain of
turning the controller, which requires
considerable force. He has been off
duty for several days.

The check for \$1,000 insurance in
the Modern Woodmen on the life of
the late Alex. Kemenski has been re-
ceived by his widow. Within ten
days of the filing of the final proofs,
the check was in hand, which speaks
well for the business like methods of
the Woodmen.

Mrs. E. B. Smith, who has been in
Chicago for a few days, returned last
week to her summer home in the
country. Mr. and Mrs. Smith are
building a residence in Chicago and
she finds it necessary to spend some
time there making suggestions regard-
ing the construction of the house.

A party of friends enjoyed a picnic
at Deau's Canon and Berrien Springs
on Sunday, going over in a wagonette,
and spending the day there. Well
filled dinner baskets formed an im-
portant item of the day's pleasure.
The party were: Mr. and Mrs. A. Rich-
ards, Mr. and Mrs. D. Ade, of Chic-
ago, Mrs. Frank English, of Boulder,
Col., Miss Minnie Shafer, Mr. and
Mrs. Ed. Weaver.

The new cement walk on the east
side of J. L. Richards' residence, cor-
ner Front and Clark Streets, is about
completed and it makes a fine stretch
of walk. It is nearly 400 feet in ex-
tent and is the longest walk laid by
any private individual at any one
time in the history of the village. It
extends from the corner east on Clark
street and including the walk on the
Front street side there are about
30 rods of cement walk around the
property.

Miss Stella French expects to re-
turn home about the middle of Aug-
ust prepared to give piano lessons
and solicits patronage. She spent
about two years in the east and
took lessons at the Syracuse Uni-
versity of Fine Arts, with refer-
ence to teaching, also had experience
in teaching a class with good success
and given great satisfaction. Pup-
ils wishing to take lessons from Miss
French leave their names at the re-
cord office.

Race Feud at South Haven.

Between White and Colored Dock Labor-
ers and is Said to Be Spreading.

At South Haven a race riot was
narrowly averted Thursday night
when John Gray, a Chicago colored
man interfered with two white fellows
who were fighting on the dock. One
of the white men was beaten about the
head and ran several blocks, chased
by a crowd of Negroes who threaten-
ed to kill him, but the police arrived
in time to avert trouble. Both white
men were arrested and lodged in jail.
Crowds gathered and talked of driv-
ing the Negroes from town. About
1 o'clock in the morning shots were
heard toward the jail. The police ar-
rived in time to see several men disap-
pear down the street. The prisoners
told the police that revolvers and Ro-
man candles had been fired through
the grating.

The trouble has been brewing for a
long time between whites and Negroes.

On Wednesday a crowd of Negroes
started in to clean up a restaurant on
Main street, the white cook having
licked one of their crowd a short
time before. Several Negroes were
arrested and fined. Trouble is feared
on Emancipation day, which is to be
celebrated here the first week in Aug-
ust. About 25 years ago trouble oc-
curred at the Emancipation day cele-
bration. Sailors and Negroes engaged
in a riot and citizens were obliged
to act as police. The Negroes were
nearly all driven temporary from the
town. The police force was doubled.

There is talk of having the South
Haven Rifles, an independent military
organization, act as police on Emanc-
ipation day.

REV. F. E. Strough's Lecture.

A well filled auditorium greeted
Rev. Strough at the United Brethren
Church Monday evening when he de-
livered his interesting lecture, "From
New York to the Golden Gates."

The lecture was illustrated by over
one hundred stereopticon views show-
ing several places of note along the
route. The views were exceedingly
fine and added much to the interest
of the lecture.

Charges Against Foreman Miller.

Washington, July 24. — President
Barrett, of the local bookbinders' union,
has presented to Secretary Cortelyou
and Public Printer Palmer affi-
davits regarding the case of W. A.
Miller, the assistant foreman in the
government printing office, whose rein-
statement was ordered by the presi-
dent. These affidavits relate to charges
of moral unfitness which formed the
basis of Miller's expulsion from the
union.

Moline Chosen for 1907.

Minneapolis, July 24.—The Ameri-

ern division, has voted to hold the
next sangerfest in Moline, Ill., in 1907.
The members will participate in the
quadrennial fest in Chicago in 1905.
The following officers were elected:
President, B. L. Peterson, Moline, Ill.;
secretary, A. H. Andrews, Moline, Ill.

Strike Violence Breaks Out Again.

Richmond, Va., July 24.—An out-
break of street car strike violence oc-
curred in the city. Two cars were
blown up and one motorman was in-
jured so that he had to be relieved
from duty. Another motorman was
shot and a woman passenger was
struck by a stone thrown at a Clay
street car.

THE MONROE DOG- TRINE OF TODAY, AND ITS FUTURE

BY WHITELAW
REID

DO not say that the Monroe doctrine would DISAP-
PEAR if Europe ceased to oppose it. I do say that
under a show of European opposition it would be
likely to last indefinitely; and that in a long absence
of such opposition it MAY HOLD TOGETHER
LESS TENACIOUSLY. The things that made the
Monroe doctrine have disappeared. Under such circumstances it may
be easy after awhile for us to look over the Monroe doctrine again
in the light of the present situation of the American continent and
of our present necessities. WE WILL CERTAINLY NOT
ABANDON IT; but we may find, if nobody is opposing us, that
perhaps its extension quite so far beyond the original purpose of Mr.
Monroe and Mr. Adams as the fervor of our patriots has carried it
may prove to be attended with wholly UNNECESSARY INCON-
VENIENCE to ourselves.

China, or at any rate China and Russia combined, hold a position
in Asia far more commanding than that of the United States in the
three Americas. In both cases the governments are as absolutely
committed to the despotic as we are to the republican idea, and there
is no obvious proof that the overwhelming majority of their people
do not believe in their system as much as the corresponding majority
of our people believe in ours. Suppose China, or CHINA AND
RUSSIA TOGETHER, had taken ground that the Asiatic continent
—being entirely occupied by the existing governments, which were
mostly in form and principle like their own—was no longer a field
for colonization or conquest by any American power, and on that
ground at the outbreak of the Spanish-American war had warned us
off Manila and the Philippines!

If no foreign interference arises suddenly to affect the national
judgment, it is at least among the possibilities that we may find TWO
CHANGES taking place in the national view of the ideas grouped
under the popular term of the Monroe doctrine. We may see a con-
siderable increase in the stringency of their application where our
interest clearly calls for them within the natural sphere of our
influence. We may see them slowly moderated as to remote countries
which under changed modern conditions are no longer exclusively
within that sphere.

Toward the rest of the American continent, beyond the gulf of
Mexico and the Caribbean sea, IT MAY SOME DAY PROVE
MORE CONVENIENT FOR US TO ASSUME LESS
RESPONSIBILITY. A railroad through the three Americas will
draw us more closely together. The currents of trade will change.
The legitimate sphere of our influence will thus widen throughout
those nations with the years; and it might be INCREASED
RATHER THAN DIMINISHED by a moderation of our extreme
claim to interfere now with any exercise of their own sovereignty as
to territory, government or otherwise, to which their calm judgment
of their own best interests may bring them.

The Passing of Simplicity

By Dr. NEWELL
DWIGHT HILLIS of
Brooklyn

I WANT to say that WE ALL GO TO THE DEVIL
ON \$50,000 A YEAR. At least a great many
men I know are going to the devil on that sum, and
few are escaping it.

But how many men ever went to the devil on
simplicity? I VENTURE TO SAY NONE.

Today we are raising pampered sons and daughters in this new
system, surrounding them with every luxury and idle satisfaction
of desire, and THEY ARE ROTTEN BEFORE THEY ARE
RIPE. I repeat it, they are rotten before they are ripe. And
the boys in many cases are sinful before they are bearded.

SUNDAY HAS TO A GREAT EXTENT CEASED TO BE
A DAY OF WORSHIP. Men rise at 10 o'clock, drive until
12, eat a dinner of twelve courses and in the evening hold a recep-
tion for their friends. The women and children follow much the
same plan.

LET ME TELL YOU THAT AMERICA, THIS AMERICA OF OURS,
IS GOD'S LAST OPPORTUNITY TO SAVE THE HUMAN RACE, BUT IF
WE FAIL BY DESERTING THE TEACHINGS OF OUR FATHERS HER
INSTITUTIONS ARE LOST.

MAN'S LIFE A MEANS TO AN END

By President TUCKER of Dartmouth College

EVERY man's life, when viewed as a means to an end, is
a series of actions. ACTIVITY IS NOT ACTION.
Activity is not a necessary means to an end. Action
is always a means to some end. A clear and well defined
act never leaves a man as it finds him. It urges him on
his way TO SOME END.

Every man's life, if viewed as a means to an end, is a growth
through the limitation of desire. The strength of a man is in his
desires, but strength could not have been located at more precarious
sources, for desires are so many and so imperious and SO CON-
FLICTING that so soon as they begin to act a disintegrating process
begins. We are broken up by our desires and our powers are
scattered.

Every man's life, if viewed as a means to an end, is a search after
truth. The search after truth—I do not speak now of scientific or of
philosophic truth, which has its own reward, but of truth within any
man's reach—the SEARCH AFTER TRUTH is the MOST
NECESSARY of all the means to the ends of life.
