A VERY PRETTY ROMANCE

Course of True Love Not Smooth Even In Far-off India.

Lal Tiba Cottage, Landour, Aug. 4, 1903.

Editor of Buchanan Record, Dear Mr. Bower:

I want to thank you for the treat I had last evening when my home mail brought me several copies of the Record. I did not stop until I had finished reading them, everyone. Could almost fancy myself sitting with my friends listening to the graduating exercises, looking into the face of Prof. Goodrich as he gave that inspiring lecture, "A Living or a Life." How pleasing it must have been to the class to have been addressed by Elder Shook, of the Class of '95.

I wonder if the modern prophet is as true a one as our poetess, Miss Ella Hahn, of Class of '78. About one of her class she certainly foretold the future.

I enjoyed the S. S. Convention too, made so vivid with the portraits in the report. I enjoyed "Buchanan Booming" too, and some of the "personal," also the account of Miss Edna Morgan's wedding, and some of the advertisements. The unfamiliar names were strange.

Well, again I thank you for that visit with Buchanan; through your much appreciated Record. Maybe you would be interested to know, I read it on one peak of the Himalayas 7523 ft. above the level of the sea. I am up here for my vacation. My station is fourteen miles from here, at the base of the mountains, in the valley. I can see it on clear days and even recognize the building of our school. I came six miles of the way in a vehicle drawn by horses, and then took a dandy for the remaining eight miles. The whole trip was made in four hours.

A dandy is a sort of a chair with wooden frame born on the shoulders of coolies. Coolies are the native hill men. They are strong, muscular, very ignorant, wear very little clothing and have quite an eye toward the "bakhshish" or tip, they expect to receive over and above the usual wages at the end of the trip. Four men carrying and two men to change off, expect 6 annas each or about thirty-three cents.

They are very happy with one anna extra "bakhshish" or tip. While they carry they often try to work on one's sympathies by telling how poor they are, or how the lady they carried up yesterday gave them a Rupee's tip or 16 annas, about 33 cents. This they make up to suit the occasion. One of them told me that they gathered \$30 together for the season's work and then live the rest of the year, they and their families on that amount.

As I sit writing I look out at the tops of mountain ranges, some of the peaks, most distant, are snow capped. They are Meccas of the Hindus, twenty thousand and more feet high. While I am resting and enjoying this invigorating hill air; many of my fellow-missionaries are enduring fearful heat on the plains. The rains have been delayed until in many sections of country, they are fearing a famine. The grain and foodstuffs are now selling at famine prices.

You will be interested in an Indian Christian wedding that took place, in Dehra April 2. Both the interested parties were on the shady side of life, supporting more than a sprinkle of gray locks.

The bride, is Miss Chandra Mukhi Bose (meaning moon faced Miss Bose) a cultured Bengali lady. Years ago she was a pupil of our school. She is the first female in India to pass the entrance examination. Afterward

The bridegroom, Pandit Keshavanand Mamgain, also has an interesting history. Years ago (about 40) he was a poor boy employed at our Boy's Mission School as a watchman. The missionaries' attention was attracted by his wan face indicating feeble health. He slipped extra coin in his hand telling him to purchase extra food. Afterward discovering that the money was not spent for food but for books, the missionary in charge began to help him up the ladder to knowledge. First he learned that "The fear of the Lord is the beginning of wisdom." He has been an exemplary Christian and the Lord has blessed him. He too has advanced to a high degree in learning, and is now a Forest officer under the Na-

LIFE STRUGGLE WITH A MANIAC

Two Men Fall Across a Railway Track as a Train Is Rushing Toward Them.

Grand Rapids, Mich., Sept. 11.—Deputy Sheriff Verkerke, appointed to conduct to the asylum at Kalamazoo Folger Dehaan, who was recently adjudged insane, had a desperate struggle with the madman at the Union depot. Dehaan broke away and ran. Verkerke overtook him on the railroad tracks, and the two clinched and fell across the rails just as the north-bound Grand Rapids and Indiana train came puffing down the track, not fifty feet away. The engineer blew the whistles, applied the brakes and reversed his engine, but it was impossible to stop in so short a space.

Dehaan saw this, and attempted to hold Verkerke's head across the rails, careless of his own peril. Verkerke put forth all his strength, however, and threw his own body and that of his prisoner clear of the tracks just as the engine crossed the spot on which they had been struggling. He held on to Dehaan, and with the aid of two more men, took him back to jail.

More Despicable Than a Thief.

Possibly no individual in a community is more undesirable than a prevaricator, in common parlance called a liar. There are all kinds of liars.

For instance there is the fellow who is in the habit of telling yarns and as he tells them he can not help stretching them a little; now some people would class him with the liars but he is rather to be pited than to be blamed for he does not seem to have the ability to resist coloring his story by a little fiction and after he has repeated a story several times he believes it himself.

There are many others but space will not permit our mentioning all; Possibly none is worse than the class who goes into a community and deliberately and knowingly tells lies about others, sometimes apparently without any reason at all, simply because he is so meanly constructed that he can not speak well of people, and to speak ill, he must lie. Oftener there is behind it a motive some one he desires to injure, but as he can not find any truthful thing against him he manufactures it. Poor wretch! he has not yet learned that chickens come home to roost, but he will some time. He will also learn that as he sows, he shall also reap.

We can be charitable for many imperfections in mankind but this last liar we have no charity for.

Serious Accident.

Elder Mansfield Suffers From Broken Limb—Letter From His Son.

The following letter from E. D. Mansfield son of Rev. Mansfield, so well known as one of the early pastors of the Advent Christian church of Buchanan, will be of interest to many readers.

Pasadena, Cal.
Sept. 3, 1903

J. L. Richards,
Buchanan, Mich.,
Dear Sir:—

Yesterday I visited, part of the day, at the camp ground, with father and mother, and left them after the evening service and went back to the hotel. Today father went over to Pasadena to look after the house and water the lawn; in crossing the street in the center of Pasadena to take a street car, he undertook to cross just after a carriage had passed, the horses of which became frightened and backed the carriage against him, the rear wheel striking him on the right side and knocking him down; he struck the pavement on his left hip and broke the bone about three fourths of an inch from the socket. Some of his friends and his physician were near him at once and took him home, and it was about three hours before mother and I arrived, she getting home about ten minutes ahead of me.

His case is a very serious one and his chances of recovery, the doctor says, are not over one in ten. The doctor tells me that if he passes the acute stage, say ten days, he may partially recover, but waste away and drop off in a few weeks, he thinks at most.

Should he by any chance ever get up, he will always be a cripple. He has not suffered much pain until about an hour ago, when he suffered considerable pain in his leg and had cramps. He is sleeping now. The doctor says he will not try to set the limb for about nine days. It is very fortunate that I am here,

Cordially yours,
E. D. MANSFIELD

GRANDSTAND COLLAPSED

At the driving park, Benton Harbor Monday, there was a collapse of the grandstand on which were seated 1,000 people. Among the injured are S. B. Van Horn, a leading dry goods merchant here, and Charles Darwin. Darwin suffered a broken nose, while Van Horn, whose weight is 200, is badly injured. Van Horn was thrown from the top seat to the ground, and while lying prone on his back suffered internal injuries by others falling upon him.

BERRIEN CO CONTRACTOR

Secures Contract for building Carnegie Library at Niles.

WORK ALREADY BEGUN

And Will Be Pushed Rapidly to Completion.

Otis M. Southworth of Benton Harbor has landed the contract for the building of the new \$15,000 Carnegie library in Niles and has begun work. There were six bidders, the bid of Mr. Southworth was lowest of the six bidders and includes everything but the heating and the plumbing. The next lowest bid was that of Bulley & Andrews, the men who built the Benton Harbor structure. The highest bidder was T. A. Walker of St. Joseph.

Mr. Southworth is a young man and held in general good esteem by all who know him and he found no trouble to get the best of Benton Harbor to go on his bond for \$7000.

A life little may be sacrificed to a sudden attack of croup if you don't have Dr. Thomas' Electric Oil on hand for the emergency.

At a meeting of the leading business men of Grand Haven last week it was suggested that Grand Haven take the initiative in the organization or formation of a union that will bind together the lake shore towns. It is likely that a meeting will be held in Grand Haven shortly and that the representative citizens of St. Joseph, Benton Harbor, South Haven, Holland, Muskegon, Ludington and Manistee will be invited to participate, at which meeting the formation of such a union will be further talked over. The object of the union will be to work for the interests of all the towns named, as their interests are really the same now, and to take steps looking toward their commercial advancement.—The Detroit Free Press.

Don't delay a minute. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

Drenched the Deacon with Beer.

Bay City, Mich., Sept. 11.—Bertram Moore, a venerable church deacon, was doused with beer in Doyle's buffet while making a tour of inspection of the open saloons. The proprietor deplored the act, for which he was not responsible. All the saloons were kept wide open under the new ordinance. Complaints will follow, and there will be many prosecutions if the ordinance be found invalid.

Kalamazoo, Mich., Sept. 11.—Among the noted prisoners arraigned before Judge Adams in the circuit court were Mabel Baldwin Mead; Ted Hall, alias George Hubbard, with whom she eloped to Saginaw after breaking out of jail, and Otis Baldwin, brother of the woman, who passed in the saw used in removing the jail bars. All pleaded guilty.

He and his son grabbed Arthur, loaded him on a milk wagon, to which they bound him with rope, and took him to the police station. He will go before a justice later.

IF WOMEN ONLY KNEW

What a Heap of Happiness it Would Bring to Buchanan Homes.

Hard to do housework with an aching back, hours of misery at leisure or at work, if women only knew the cause; backache pains come from sick kidneys, Doan's Kidney Pills will cure it. Buchanan people endorse this.

Mrs. M. Griffen, of West Front St., says: "I used Doan's Kidney Pills procured at W. N. Brodrick's drug store, and I think them an excellent remedy for backache and kidney complaint. I was troubled for some time with a dull aching feeling in the small of my back often quite severe more especially if I overexerted myself or took a slight cold. I used a great many remedies of which some were worthless and others relieved me for a time. This I cheerfully say about Doan's Kidney Pills. I received more permanent relief from them than from any other remedy I ever took."

For sale by all dealers; price 50 cents. Foster-Milburn Co., Buffalo, N.Y., sole agents for the U.S. Remember the name—Doan's—and take no other.

FROM CRIPPLE CREEK

Clash of Authority Out There Between the Military and Civil Power.

ARREST OF A LEADER OF LABOR

Is the Point of Difficulty—Witness Disappears—No Sign of Industrial Peace.
 Colorado Springs, Colo., Sept. 11.—It is announced from Cripple Creek that a clash between the civil and military authorities in the camp is looked for. President C. E. Kennison, of one of the district unions, had trouble with a non-union miner and was struck. He drew a gun, but was disarmed before he could use it. Later he was arrested by the civil authorities, and the military has now surrounded the Teller county jail with the reported intention of taking charge of the prisoner.

Says He Was Brutally Assaulted.
 Kennison was arrested and placed in jail on a charge of carrying a concealed weapon. He said: "I am guilty of the offense charged. I carried a weapon for the sole purpose of defending my life. The guards at the El Paso mine said they would stretch me up to an electric light pole. I was brutally assaulted this morning, and I drew a revolver in defense of my life."

Great Compressor Is Started.
 Cripple Creek, Colo., Sept. 11.—The great compressor of the La Belle Power company at Goldfield, furnishing light to several towns of the district and compressed air to several mines, has been started in motion for the first time since the strike was declared, forcing air into the Golden Cycle, Vindicator, Findley, Theresa and Christman mines, and several of the smaller leases that recently started operations. The shift that started the machinery in motion was composed entirely of new men, none of the old employes having reported for duty. The plant is completely surrounded by cavalry and infantry.

Now the Water Is Shut Off.
 Cripple Creek, Colo., Sept. 11.—Practically the whole district has been thrown into darkness. This has been done by shutting off the water from the La Belle light plant. The company gets the water from the city of Goldfield, and the water commissioner, who is a prominent union labor man, had it shut off, and that stopped the boilers.

Miner Mysteriously Disappears.
 Victor, Colo., Sept. 11.—Mike Rogers, a miner living at Cameron, has disappeared and his cabin has been burned. The fire is generally presumed to have been of an incendiary origin. Rogers is known by the authorities to have been the only man who saw the assault on James M. Stewart, the carpenter, ten days ago. Rogers afterward protested that he did not recognize any of the men who accompanied Stewart from his home on the night when he was left at the roadside for dead.

Mine Owners Hold a Conference.
 Denver, Sept. 11.—At a conference of mine owners in this city the subject of which was the importation of miners to break the strike at Cripple Creek, it was decided to send a committee to Joplin, Mo., to secure the men needed. Permanent employment at \$3.50 a day will be offered them.

WHAT GOVERNOR PEABODY SAYS

Troops Not at Cripple Creek to Displace the Civil Authorities.
 Denver, Sept. 11.—Governor Peabody declared that suggestions of a conflict between the commander of the state troops in Cripple Creek and the sheriff over the possession of a prisoner were unwarranted. He declared that martial law has not been established in Cripple Creek and will not be. General Bell and the troops, said he, are in the district to aid the civil authorities in maintaining order, not to supersede them.

Governor Peabody is said to have had a conference with General Bell over the telephone regarding the Kennison case, but nothing of its character was given out. Later news from Cripple Creek, however, shows that there was no clash. Two troops of cavalry under command of Captain D. H. Smith, were ordered to the jail, where President Kennison, of the miners' union, is confined, charged with carrying concealed weapons. It was supposed that an effort would be made to take the prisoner from the sheriff, but no demand was made. What the cavalry was sent for is not known.

TYPOGRAPHICAL UNION OATH

Roman Catholic Bishop Condemns It in Strong Language.
 Omaha, Sept. 11.—Bishop Richard Scannel, bishop of the Omaha diocese of the Roman Catholic church, has taken a definite stand in the matter of Roman Catholics becoming members of the International Typographical union, and makes the plain statement that a Roman Catholic cannot belong to the union and receive absolution from a priest. In an interview Bishop Scannel said: "No man could lawfully take an obligation of this kind, for the keeping of it would render all government—ecclesiastical or civil—impossible."

Bishop Scannel further said that no man could be a good member of the Roman Catholic church and adhere to the principle of the Typographical ob-

MITCHELL LAYS DOWN THE LAW

He Orders the Non-union Strikers Back to Work at Once.

Kansas City, Mo., Sept. 11.—John Mitchell, president of the United Mine Workers, has arrived in this city to confer with the mine owners and mine workers of district No. 25 in an effort to settle their differences, which caused the strike of 800 miners at Nowinger, Mo. Mitchell held informal conferences with the operators and representatives of the striking miners. He gave an ultimatum to the striking miners in the form of an order for them to go back to work in obedience to the contract of their own representatives, with the operators, which contract Mitchell says they have disobeyed by striking, and remain at work until the scale for the coming year, dating from Sept. 1, can be agreed upon.

DISCIPLINE FOR 1,600 MEN

Whole Body Loses Its Charter Because the Men Wouldn't Obey.
 Chicago, Sept. 11.—The executive board of the Amalgamated Meat Cutters and Butcher Workmen's union has revoked the charter of the Butcher Luggers' local union, an organization of 1,600 men. The charter was revoked because the butcher luggers refused last Sunday to load cars to be shipped out Monday for export trade. Monday being Labor day, and also the regular day for export shipments, the packers asked the butcher luggers to work Sunday, the butchers having promised to work Saturday night to prepare the shipments. This the luggers refused to do.

LaFollette for President.

Dodgeville, Wis., Sept. 11.—Governor LaFollette has been nominated for the presidency of the United States at the Iowa county fair. The nomination was made by President Stratman, of the Fair association, in introducing the governor to the audience. He said: "Governor LaFollette has achieved national reputation. I hope and predict that he will go to the White House."

Gen. Black's Personal Staff

Chicago, Sept. 11.—General J. C. Black, commander-in-chief of the G. A. R., has appointed his personal staff as follows: Adjutant general, Charles A. Partridge, of Illinois; quartermaster general, Charles Burrows, of New Jersey; inspector general, Edwin B. Messer, of Iowa; judge advocate general, James Tanner, of New York.

Would Cancel the Women's Entries.

Eau Claire, Wis., Sept. 11.—The entries of a dozen women school teachers who formed a combination and entered government land in Burnett county have been reported for cancellation by a government inspector and the cases are now being tried by the United States land office. The women will make a lively fight.

Surveyor General Removed.

Washington, Sept. 11.—Hugh H. Price, surveyor general of Arizona, has been removed from office as a result of an investigation made by Secretary Hitchcock's orders into charges preferred against Price and his chief clerk, W. B. Murphy, of receiving illegal fees for expediting work in the office.

Fitzsimmons in the Ring Again.

New York, Sept. 11.—Bob Fitzsimmons, ex-champion heavyweight of the world, and Con Coughlan, the "Irish Giant," have been matched to meet in a six-round bout before the Industrial Athletic club, of Philadelphia, on the evening of Sept. 25. The fight will be at catch weights.

And So the Poor Thugs Got None.

Spokane, Wash., Sept. 11.—Bank robbers broke into the bank of Doyens, Wash., and blew the doors off the safe, which is said to have contained about \$5,000. The explosion blew the safe forward on the floor, and the robbers were unable to raise it to get at its contents.

Leishman Secured His Release.

Washington, Sept. 11.—Minister Leishman has cabled the state department that he has secured the release of Abdul Kader Mathaney, a naturalized citizen of the United States, who was jailed by the Turks for an offense for which he had already been punished.

Train Goes Through a Bridge.

Ardmore, I. T., Sept. 11.—An engine and fourteen gravel cars went through a bridge near Hugo on the Arkansas and Choctaw road, killing four of the crew. The dead are: A. M. Hanna, conductor; C. L. Miller, fireman; M. McAllin, engineer; J. T. Hill, brakeman.

"Cut Rate" Druggists Denounced.

Boston, Sept. 11.—At the closing session of the National Wholesale Druggists' association resolutions were adopted denouncing "cut-rate" druggists and urging wholesalers to cooperate in abolishing the feature of trade objected to.

Died While Stealing a Ride.

Waupaca, Wis., Sept. 11.—Thomas Killdorf and John Lox were killed in a freight wreck that occurred on the Wisconsin Central road in this city. No material damage was done to the equipment. The men were stealing a ride.

and Nearly Severed.

O., Sept. 11.—Mr. and Mrs. Bennett were struck by a car and killed. Mrs. Bennett was almost severed.

BUT MAYOR CARMI SMITH

Seems to be the Man Destined to Succeed Post Master Williams at Niles.

Niles Star Sept. 9.—Bright and early yesterday morning half a dozen petitions were being circulated by friends of Mayor C. R. Smith, who believe that a fitter man for the place could not be found, and that the true yeoman's service he has rendered the republican party in the past, merits the plum. And these sentiments seem to be pretty generally entertained, judging from the many signatures that have been attached to the Smith

The Late E. S. Williams.

petitions. These signatures are not only those of a large proportion of the substantial business element of the community, but likewise a host of the rank and file.

Mayor Smith's friends scored a strong point by being the first in the field, their petitions being in evidence five hours before any other appeared.

The Smith petition reads as follows:

"We, the undersigned, heartily endorse Carmi R. Smith for the position of postmaster at Niles, Mich., to succeed E. S. Williams, deceased, and recommended his appointment."

Mayor Smith informs the Star that, in the event of his appointment to the office of postmaster, he will tender his resignation as mayor to the council. The office of mayor would then fall to the mayor protem, who is Honorable L. E. Wood.

Yesterday afternoon friends of E. B. Storms circulated petitions in his favor, the same reading as follows: To Honorable Edward L. Hamilton, Member of Congress, Fourth District of Michigan.

Dear Sir: We the undersigned, residents of the city of Niles and vicinity in said district, and patrons of the post office at said city of Niles, respectfully ask for the appointment of Edmund B. Storms to be postmaster at said city.

Mr. Storms we believe is a man whose ability to properly conduct the affairs of said office to the satisfaction of the patrons thereof, cannot be doubted. He is a man whose business and personal integrity is above reproach. While loyal to the principles of the republican party, he has never so deposed himself as to become unpleasant or offensive to those patrons of the office differing with him politically; and finally, we believe Mr. Storms is a man who, if appointed, would reflect credit on the appointing power and give to the patrons of the office a good, clean, effective, business-like and honest administration of its affairs."

Arthur G. Stone, son-in-law of the late Postmaster William, was urged by many of his friends to enter the race for the postmastership, and petitions were drawn up with that end in view, but these were withheld at Mr. Stone's request, he feeling that, under the circumstances, a warm contest for the place might be out of place, and that this would have special application to a relative of the deceased postmaster.

The good taste exhibited by Mr. Stone is to be commended. He is a very capable and popular young man, who has a host of friends who would have gladly aided him in his ambition, hence his withdrawal exhibits a strength of character which is seldom met with. During the seven years that Mr. Stone has been in the postal service he has mounted many rounds of the ladder, his ability and close application to duty winning not only the recognition of the de-

ceased postmaster, who placed implicit confidence in him, but he has likewise won favorable notice from the department in Washington, which would seem to warrant the prediction that there are good things in store for him.

Legislative Salaries.

Congressmen of the United States are better paid than any other legislators, receiving \$5,000 a year, mileage and stationery funds. Australia allots its senators and members of the house of representatives \$2,000 a year without distinction. New Zealand differentiates. The duties of the lower house being of a more exacting description than those of the upper, its members receive \$1,200 annually as against \$750 paid to those of the other assembly. Senators of the Canadian parliament are rewarded with \$1,500 a year salary and expenses at the rate of \$10 a day during session, with a maximum of \$1,500. Cape Colony is not so open handed, its legislative council and house of assembly drawing \$5 a day per man.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney Medicine Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. STORY OF ATROCITIES

Told by a Man Who Has Been at the Seat of War in Macedonia.

DEVILISH DEEDS THAT ARE DONE

Murder, Rapine and Pillage Rule the Hours, Not Even Corpses Being Spared by the Turks.

Sofia, Bulgaria, Sept. 11.—A European merchant who left Monastir Sept. 8 has arrived at Sofia and has given the Associated Press correspondent an account of the terrible conditions prevailing in the vilayet of Monastir. He says that Hilmi Pasha's administration has greatly disappointed the Christians, who expected that he would make an improvement in the situation. Hilmi Pasha, however, is following the lines of his predecessors, and the greatest excesses that have ever been committed have happened since his arrival. Throughout the vilayet of Monastir the Turkish soldiers are daily perpetrating almost inconceivable atrocities. They dishonor the young girls in the presence of their parents and pillage and murder everywhere.

They Even Rob the Corpses.

Even funeral processions are halted and the corpses stripped of the new clothes in which they are dressed, according to the Macedonian burial custom. The priests' vestments are seized and the soldiers sell all their plunder openly, the officers apparently consenting. The informant of the Associated Press says the Christian inhabitants are terror-stricken, hourly fearing a general massacre by the Mussulmans, whose fanatical hatred of the Christians has reached the highest point. The shops are closed in Monastir, business is suspended and the streets are deserted.

Consuls Dare Not Leave Home.

Even the consuls do not dare to venture outside their homes. The country people are afraid to come to the city, lest they should be robbed and murdered on the way. Europeans desiring to see the burned villages are prevented by the authorities on various excuses. The British consul wanted to go to Smilievo, but Hilmi Pasha informed him that he could not guarantee his safety as the revolutionaries had plotted to kill him.

Starvation in Front of 70,000 People.

The informant continues that it is estimated that there are over 70,000 people in the fields without shelter and starving. Hilmi Pasha has promised the consuls that he will assist the destitute people, but he has done nothing, even refusing to allow them to enter the town and beg for goods.

Cruelties Charged to Christians.

Many cruelties perpetrated by Christians are attributed to Greek spies headed by a Greek bishop, who with the Greek consuls, it is said, are paid by the porte for their services. The Greeks are accused of inventing reports for the purpose of fanning the Mussulman hatred of the Bulgarians. The Turkish functionaries openly scoff at the idea of reforms or European intervention, declaring that should armed European forces come the Turks would immediately burn, destroy and massacre, leaving only bare fields throughout Macedonia.

HE IS FOR RECIPROCITY

Foss, of Boston, Says New England Is Alive on Question as to Canada.

Detroit, Sept. 11.—Eugene N. Foss, of Boston, leader of the Canadian reciprocity movement who was the guest of the Chamber of Commerce here, had the following to say in a brief interview: "New England, like the middle west, is alive on the reciprocity issue. * * * Canada is by no means unanimous for reciprocity and just now she is absorbed in the consideration of her great railroad struggle."

"Chamberlain's plan is only an extension of the principle which we advocate. He believes in reciprocity with the colonies, and so do we; and whether or not he succeeds in converting his own countrymen to his scheme it is just as important that the United States should make a reciprocity treaty with Canada as it was before."

"Union" in the Fire Department.

Atlantic City, N. J., Sept. 11.—The International Association of Chief Fire Engineers has recalled the paper submitted by Chief A. J. Harris, of Tampa, Fla., entitled "Should Firemen Become Members of Labor Unions," which the board of directors shelved on account of its severe attack on unions, and ordered it spread upon the minutes, thereby approving the paper.

Bold Stroke by Masked Men.

Tacoma, Wash., Sept. 11.—Five masked men entered the bar room of the Hotel O'Neil, at South Twenty-first and Pacific avenue, shortly after midnight, held up five men, including the bartender and proprietor, secured \$1,600, a considerable amount of jewelry and several gold nuggets, and after dividing their plunder walked out.

Guilty of Murdering a Little Boy.

Hamilton, Mont., Sept. 11.—After being out two hours the jury in the case of Walter Jackson, charged with the murder of Bonnie Bucks a 6-year-old boy, brought in a verdict of first degree murder. The murder of the little boy occurred several weeks ago and was an atrocious crime, nearly followed by a lynching.

HONORED BY THE CZAR.

Admiral Alexieff, Russia's New Viceroy in the Far East.

Vice Admiral Alexieff, aid-de-camp general to the czar, who has been appointed administrator of the new viceroyalty that Russia has just created in the far east by consolidating the Amur district and the Kwangtung territory, has for some time been commander in chief of the Russian troops and naval

VICE ADMIRAL ALEXIEFF.

forces in that territory. By the Imperial ukase he is now vested with supreme authority over all branches of the civil administration.

Vice Admiral Alexieff has already done much valuable work for his country and has seen much service both on land and sea. Just what part he is now playing in the expansion of Russia in Asia nobody knows outside the czar and his advisers, but the latest move seems to indicate that Russia has no idea of loosening her grip in the far east.

It is to Alexieff that Russia will look if ever the dreaded attack comes from Japan. That the czar has great confidence in the new viceroy has already been shown on many occasions, and he evidently feels that in the great sailor he has a man who will not fail him in the hour of need. Alexieff is said not to be without skill in diplomacy and would have made a diplomatist of the rough and ready order if the sea had not claimed him. He has the reputation of being able to fight and talk equally well.

During the Boxer troubles Alexieff was for a time commander in chief of the Russian forces in China, and the allies esteemed him as a brave sailor and a man of sense. On one occasion he led a handful of Russians against a horde of Boxers and by his valor put them to complete rout. The czar was so pleased with his conduct in China that he sent him a golden sword of honor "for victories at the seat of war in Pechili, 1900."

That the new position of the admiral is considered of the utmost importance in Russia is shown by the fact that a special committee under the presidency of the czar will see that Alexieff's policy in the far east is in keeping with that of the Russian ministries. It is perhaps fortunate that he dearly loves a fight, for his abilities both as a warrior and diplomatist are likely to be put to the test in the not distant future.

five King, of Tehri, Garhwal, receiv-
ing a high salary for his services.

Now we come to the romance.

These two parties were well known
to each other from childhood. Both
were Christians, there was mutual
true love between them. The course
of true love did not flow smoothly in
their case.

Now let me tell you of heathen
Indian customs that interfered with
the cherished plans of this couple
who were in every way so well suited
to each other. In his early child-
hood, Keshavanand's parents, accord-
ing to still prevailing customs, made
a matrimonial alliance for their son
with a little baby girl of their own
caste. He, Keshavanand, had never
seen this child wife of his; still he
was bound to her according to Hin-
du law. What should he do? He
advised with the missionary. The
advice he received was to first keep
the law of the land.

This was and is that the party,
through the local Magistrate, must
call the wife; go to the house and
call from the outside three times. If
the parents refuse to let their daugh-
ter come to the man to whom years
previously they had engaged him,
then he is free from her, before the
law. Keshavanand went with the of-
ficer sent by the magistrate, and called
according to law. The first call
evoked, insulting language, such as
heathen are adepts in; also in the sec-
ond, still more fierce were the cur-
sings and vile invectives hurled
against him for becoming a Christian
so they could never give him their
daughter in marriage. But, alas, on
the third calling, just out of spite,
they sent the child wife.

Here was a cultured Christian gen-
tleman of refined tastes, who was in
heart wedded to another of his own
choice, face to face with a stranger,
heathen little child wife, to whom he
was bound, "as long as they both
shall live." Wasn't that a testing
point?

He accepted the situation, took the
child, himself taught her. She was
receptive to his Christian influence
and teaching, and who knows but
what he learned to love her? The
children we early sent to the first
love, Miss Chandra Mukhi Bose, in
Calcutta, for training and education.
They or the older ones are now set-
tled in life and all do honor to their
noble parent.

About four years ago she, who was
the unwelcome wife, was, through
the grace of God, welcomed into the
presence of her Lord and Master.

After three years the circumstances
seemed to be ripe for the two, who
were first lovers through years of
separation, to be openly united in
marriage. Do you wonder that I call
it a beautiful wedding?

This is now too long to add a de-
scription of the bride's dress and the
decorations. Suffice it to say there
was nothing lacking in the bride's
adornment. Even the orange blos-
soms were there. She looked queen-
ly, and he proud.

With kindest regards to all my
friends, Yours sincerely,

ABBIE M. STEBBINS.

J. M. Meffert Makes Large Purchase of
Florida Timber Land.

The following letter from J. M.
Meffert of Ocala, Fla., addressed to
his brother Martin Meffert of Pomo-
na, Mich., both of whom are well
known here, will be of much interest
to many Buchanan people.

Dear brother:—

Your letter of recent date, came
duly to hand. We are glad to hear
from you and to know that you are
doing well, the boys often ask when
Uncle Bruce is coming down. We
wish you would come. * * *

I think you are getting very fair
prices for your timber, and ought to
make some money at that, but you
are welcome to all your north to log
in, I don't want any of it. Lumber
has advanced in this state and there
is lots of money in the saw mill busi-
ness, enough so it has persuaded me
to buy 3400 acres of timber; and am
building a new 60 horse power mill
and will soon have it in operation.

We are all well, with greetings
from the children, Nan and myself,
I am, your brother,

SITUATION ON THE R. AND O.

Report of a Strike on the Road Denied by
the Committee of the
Employes.

Baltimore, Sept. 11.—The conference
between the grievance committee of
the Baltimore and Ohio railroad em-
ployes and the company officials con-
tinued until late in the evening, when
it adjourned to meet again. It was
announced that satisfactory progress
had been made in the consideration of
the 140 demands made by the employes
and that it will probably require a
week to go over all the complaints.

W. H. Budd, chairman of the com-
mittee representing the Order of Rail-
way Conductors, speaking for himself
and other members of the general com-
mittee, made the following statement
as to the status of the employes: "The
report that a strike of Baltimore and
Ohio employes is imminent is not true.
There has been no disagreement as yet,
because we began only today to take
up the various grievances with the
railroad company. Our commit-
tee so far has had only the most friend-
ly relations with the railroad company
and we do not look for anything else."
