A DESERVED PROMOTION

W. L. Vinton Accepts Position in South Bend.

W. L. Vinton Tuesday received notice from the Singer Manufacturing Co., of South Bend, that the position of assistant engineer was at his disposal. He resigned his position here and accepted at once, as reported in these columns Tuesday.

Looked at from the side of the village it is a misfortune, but from the side of the individual it is a blessing. As one looks about him it is not difficult to tell who are the young men that will become prominent in their

SEVERE CRITICISM

State Board of Education Gets Share of Blame.

The State Board of Education has come in for a great deal of criticism on account of its giving the Normal to Kalamazoo and requiring a bonus from them. Below we give a few extracts from "Moderator-Topics."

The State Board of Education locate the new normal at Kalamazoo. If they had put it two counties nearer Ypsilanti, one faculty would have done for the two schools. What thoughtlessness!

W. L. VINTON.

calling, and among those in Buchanan could most certainly be counted, W. L. Vinton, who for four years, one month and half a day filled the position of engineer at the water works station.

Mr. Vinton is a young man of the best habits, clean reputation and excellent character. One who knew and appreciated the value of time not only for himself but for his employer, careful to do the best in his calling; he made use of his spare moments in adding to his stock of information and when he had acquired more knowledge his employer received the benefit. While Buchanan will lose by his going we would not prevent him the advantage of a larger field where he will have greater experience but heavier responsibilities. All wish him God speed in his new field and that the same good habits he maintained while here may continue and increase even when subjected to greater and stronger temptation.

WILL BE IN DARKNESS

Lights to be Turned Off Unless Money is Forth Coming.

According to the following letter the village is likely to be in darkness, unless the council meet and appropriate some money for the paying of electric light bills long over due.

Buchanan, Mich., Sept. 21 1903.
Hon. Geo. Black,
Buchanan, Mich.,
Dear Sir:

Mr. Chapin desires me to inform you that unless our bills against the village are paid before Oct 1st, 1903, that we will on that day be compelled to cut off the arc lights on the street and the incandescent lights in the council room, hose house and water works.

He is compelled to take this step owing to the cost of lighting, at present, for which we have received no pay for nearly four months, and the reason of new construction at the dam to replace inadequate and worn out sections around the dam and old power house.

Yours truly,
HUGH H. HOSFORD.

Strength and vigor come of good food, duly digested. "Force" a ready-to-serve wheat and barley food. Adds no burden, but sustains, nourishes, invigorates.

Kalamazoo is rich, cultured, and beautiful: but the new normal school should not be located there. A short ride of two hours or so would take one-half of its constituency to a State Normal already well established and as complete in equipment as any normal school in America. A trolley at one cent per mile, and a steam road at two cents per mile span the distance. Besides there are Albion, Hillsdale, Olivet, and Kalamazoo Colleges all in close proximity already offering excellent pedagogical courses. Neither does it seem quite dignified for the State to auction off the school to the highest bidder. Doubtless there would have been some dissatisfaction whatever the choice of the state board, but if that body had deliberately planned to get right into the storm center of general disapproval, protest, criticism, and vituperation it could not have succeeded better. If the Michigan Central railroad only ran out into the lake, we might dangle one or two more state institutions thereon.

Rep. Vandercook scores the state board of education for asking \$75,000 of Kalamazoo as a condition in locating the new normal. He styles it a "hold up," and avers that the act never contemplated such action. Senator Kelly of Muskegon would have the governor remove the members of the board for ignoring the needs of western Michigan as contemplated by the act.

The band concert Wednesday night was much enjoyed. In spite of the cold weather quite a large number gathered to hear the music.

BUCHANAN RECORD.

TWICE A WEEK

D. F. BOWER,
EDITOR.

Entered at the Post-office at Buchanan, Mich.
as second-class matter.

TERMS

\$1.25 per year, 65c for 6 months and 35c for 3 months. If paid promptly in advance when due the following rates will be made: \$1.00 per year, 50c for 6 months and 25c for 3 months.

FRIDAY, SEPTEMBER 25, 1903.

If your subscription to the RECORD is due, it will be a saving to you to pay it before Oct. 1, as we prefer to give our subscribers what it would cost us to send some one to collect.

For several weeks E. S. Roe has been advertising in the RECORD for his Lott Stretchers, which have been loaned to some persons who have failed to return them, but this far he has had no reply.

Now we do not believe that a RECORD subscriber would borrow and not return especially when his attention was called to it, but it may be that some subscriber or reader of the RECORD may know where there is a Lott Stretcher and if you do, will you not report the same to Mr. Roe?

The president of the village, Geo. H. Black, yesterday handed us the notice served by Mr. Chapin on the village council that the lights would be shut off if the bills were not paid before Oct. 1.

We have always believed that Mr. Chapin meant what he said about his interest in Buchanan, but it looks as if we might be wrong. Certainly Mr. Chapin will not suffer because he waits some time for his pay. Why should he cause inconvenience to all because of a misunderstanding of a few?

Information.

The newspaper is for information and nothing is of more value to the subscribers than the advertisements. The advertisements of today's RECORD are up-to-date and are of value to you, occasionally there is something that is not seen on the surface. Read carefully and you will find it of value to you.

Profitable Investments.

A large number of people in every community have some money to invest in amounts of from \$5 to \$5000, or more and are constantly looking around for paying investment.

It would be a surprise to many people, to know how much money from Buchanan is invested in concerns outside, some of no doubt questionable character.

Every dollar of money from Buchanan invested outside, makes the village that much poorer. Invest it at home and every dollar you have already invested will bring increased interest.

Look around and you will find good places to invest where your money will be far safer than sending it away, or investing in some "get rich quick" concern, or a lottery. Do not think because a man has but \$1 or \$5 to invest, it can not be invested wisely, for it can.

Industrial Rumblings.

There are a few persons in every place who are always crying down the home institutions, especially if they are modest, keeping within their income and making no false display. For the information of the people we have started an industrial column and from time to time we will show that a very large proportion of institutions as well as men began in a very humble way and grew by encouragement from those among whom they lived and worked. They have built up for themselves a splendid business and in building up themselves they have built up others. No man or institution can be built up without benefiting everybody and everything around it. Neither can a man or an institution go down without dragging down someone or something with it. Encourage our home institutions.

We give an account of the Round Oak Stove Works today which at one time might have come to Buchanan. Let not "might have" be said in the future.

Working Overtime

Eight hour laws are ignored by those tireless little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, biliousness, constipation, sick headache and all stomach, liver and bowel troubles. Easy, pleasant, safe, sure. Only 25c at W. N. Brodick's drug store.

FEARFUL DILEMMA

Young Woman With Diptheria
Carted Around the
County.

DOORS SHUT AGAINST HER

No Place for her Either in Buchanan
or Galien.

A young lady, whose name is Emma Buck, who came from her home in Galien several days ago to visit the daughters of John Koons, was taken sick and when the physicians were called yesterday morning they decided the young lady had diptheria. The authorities decided to take her back to her home at Galien and the authorities there were notified to that effect.

This morning she was put into a cab and driven by Frank Fisk, to Galien; when the cab arrived there the driver was arrested and not allowed to unload his sick charge; and after about 2 hours under arrest he returned to Buchanan, with orders from the state board of health to return her to the house from which she was taken. She was accompanied by her mother. When they came there the house was locked and the family gone.

At the time of going to press Mr. Richards is doing his best to find a place in which to care for her. In the mean time the sick woman is in the cab, without comforts or conveniences, being driven from one place to another.

Affairs in St. Joseph.

The councilmen at the county seat seem to have their hands full, and a financial tangle in on. The Evening News of yesterday contains the following:

The council chamber was crowded when the full delegation of city fathers filed into their places. The pot began to boil at once and when the mayor called for the report of the finance committee they presented the investigation report with a short written statement by the committee.

The committee gave assurance that the report was satisfactory to them and showed a deplorable state of affairs. They asked for favorable action. The experts' report was read in full and although an hour was consumed attention at all times was marked.

Mayor Starr gave his special message before action on the report was called for. The mayor did not shirk the subject but was conservative in the general composition of the document. He insisted that no delay be taken in bringing the matter to a focus and in any event the innocent could not be injured.

The Banner—Register remarks editorially:

Mayor John V. Starr went into office with his sword drawn last spring and he has not laid down his weapon a single day since. For three months he has had experts working on the books and records of the city and the report made to the council Wednesday night was a glaring one. From one fund alone the experts find a shortage of \$4,000. Now an explanation or two and the books may be made to appear not so bad after all. The charges as they stand are serious ones to throw at any one person.

Industrial Rumblings

This column of industrial news is to be a regular feature of the RECORD for some weeks to come.

There will be reported here accounts of some of the industries in this part of the state, and their growth from small beginnings or their failure because not properly managed.

THE ROUND OAK STOVE WORKS.

This industry was established at Dowagiac, Cass County, in the year 1871, by Mr. Philo D. Beckwith, who was the originator of the now famous Round Oak Stove, and like others, who have laid the foundation for a great and growing industry, started in a small way and as his business grew he grew with it, adding new machinery, new patterns, new buildings and yearly increasing his output.

Mr. Beckwith died in the year 1889, but the business was kept up and today they have an immense plant employing approximately 600 men, with a daily play roll exceeding \$1,000 for

the entire year. It is efficiently managed and ranks among the State, being the most important industry in the city. The Beckwith Memorial Opera House Block was built by the company, in which are located the city offices as well as the offices of the company. Under the management of Hon. F. E. Lee, one of the executors of the estate, improvements are constantly being made and every item in and about the works speaks of thrift and prosperity.

The 3 B. Feather Duster Co. after several months of teaching the girls the business at a large expense, have decided that they are now able to earn fair wages and have put them on a piece basis by which all are earning better pay than before.

BIG STREET RAILWAY STRIKE

All Newark, N. J., Lines Are Tied Up for a Few Hours.

Newark, N. J., Sept. 25.—The big-strike in Newark in the past twenty years began last night and extended until not a street railway wheel was turning except under such cars as were run under police guard. This was kept up until the executive committee of the strikers met the railway management.

Then the committee was told that the company would not sign the agreement submitted or recognize the union. It was agreed that a committee should confer with the traffic experts of the company to see if some means could not be devised by which the swing system could be abolished, or at least mitigated. The men then returned to work, and will remain so until the national officers take up the matter. As a matter of fact the strike was unauthorized.

Miller Case Is Referred.

Washington, Sept. 25.—The executive council of the American Federation of Labor announces that after consideration of the case of W. A. Miller, the foreman in the bindery of the government printing office whose discharge and reinstatement by order of the president, has been widely discussed, it has referred the entire subject to a sub-committee for further consideration.

Knights of Labor for Roosevelt.

Pittsburg, Sept. 25.—The Knights of Labor have condemned the effort to make political capital out of "the open shop" controversy, in which Roosevelt is involved. The general executive board of the organization has adopted a resolution declaring President Roosevelt to be the best friend labor ever had in the White House.

Injustice to the Teamsters.

Chicago, Sept. 25.—The Chicago Teamsters' union has not gone back on arbitration. Instead of abolishing the Chicago arbitration board, the drivers have merely suggested some changes in the personnel of their own representation on the tribunal. The teamsters have never broken the terms of an arbitration yet.

LACKED CLEAN HANDS

Chicago Board of Trade Defeated in Court Because It Gambles in Margins.

Dubuque, Ia., Sept. 25.—Judge Shiras has written the opinion for the United States court of appeals in the case of the Christie Grain and Stock company et al, appellant, vs. the board of trade Chicago, appellee, reversing the decision of the federal court of Missouri and remanding the case to that court with instructions to dismiss the bill at complainant's cost. The Chicago board of trade secured an injunction in the lower court against the Christie company restraining it from obtaining from the telegraph companies any of the quotations furnished by the board of trade, alleging that the quotations were private property and could not be furnished except upon contract.

The testimony developed that 85 per cent. of the transactions of the board was gambling in margins, that by admission of the board it was shown that it maintained bucket shops. On this evidence the appellate court holds that the board of trade did not come into court with clean hands, or for a lawful purpose and clearly it was not the duty of a court of equity to grant any relief prayed by it, that the transactions were in violation of the statute of Illinois and therefore unlawful.

Illinois Men the Best Shots.

Springfield, Ill., Sept. 25.—Illinois has for the third time in succession won the Washburn trophy in contests against the rifle teams of the National Guard, of other states. A telegram dated at Lake City, Minn., where the contest has been taking place, states that Illinois wins, and gives the total score as follows: Illinois, 2,351; Minnesota, 2,148; Iowa, 2,134.

He Barred the G. A. R. Men.

Neenah, Wis., Sept. 25.—A sensation has been caused in local G. A. R. circles over a ruling of Rev. Albert Froehke which barred G. A. R. men in uniform from attending the funeral services of Ferdinand Sauer in the German Lutheran church. Rev. Froehke states that his action was merely enforcing the rules of the church.

Indorsement for Roosevelt.

Wilkesbarre, Pa., Sept. 25.—The state convention of League of Republican Clubs has heartily indorsed President Roosevelt.

BY STATE CONVENTION

Representatives Loud and William
A. Smith Would Choose the
Man for Senator.

JUDGE RESENTS AN INSULT

By Making His Judgment Harsher—
Funeral That Was Cheap—
Michigan Notes.

Grand Rapids, Mich., Sept. 25.—Representative Loud, of the Tenth district, was the first representative to arrive for the conference. In an interview here Loud indorsed the proposition to submit the United States senatorship to the state convention which elects delegates to the national nominating convention.

Thinks That Way the Fairest.

"I think that would be the fairest way to settle the question," he said. "There will be no contest in the election of delegates to that convention, and the United States senatorship would have a clear field. Delegates could be elected on that issue alone and they could adopt resolutions asking the legislature to elect a certain candidate. Delegates to the convention come direct from the people and any action of the convention with delegates elected on that issue would be almost the sentiment as expressed by popular vote."

Attempt to Influence a Judge.

Grand Rapids, Mich., Sept. 25.—An attempt was made to approach Judge Newnham to influence him in his sentence of Saloonkeeper Henry Ewing. The affair was made public when sentence was passed by the court. Ewing was charged with keeping gambling devices in the shape of nickel-in-the-slot machines and pleaded guilty. Judge Newnham told him he would have to deal especially severe with him because he had the effrontery to attempt to bring undue influence to bear on the court.

Got the First of the Kind.

Grand Rapids, Mich., Sept. 25.—Judge Newnham inflicted his first sentence under the indeterminate sentence act. William Stegenga was given five years in Marquette with the minimum placed at two years and six months. Frank Miller, charged jointly with Stegenga, was sentenced to a maximum of five years in the state prison at Jackson, with a minimum of two and a half years.

Wm. Alden Smith's Idea.

Grand Rapids, Mich., Sept. 25.—It is asserted by the closed friends of William Alden Smith that he will follow his coming declaration of candidacy for senator with an open invitation to have the entire senatorial matter settled by the state convention next year.

LAVISH FUNERAL WAS BARRED

By the Instructions of the Man Who Was Buried—No Religious Service, Either.

Grand Rapids, Mich., Sept. 25.—Incased in a plain, unpainted pine box that did not cost more than \$2.50, the body of Professor Max Wright, instructor in modern languages in Leeland Stanford university, and the son of wealthy parents, was buried. The simple burial was ordered by Professor Wright. He believed that the present custom of lavish burials is barbarous and economically wrong and directed before death that the \$200 of his money that ordinarily would be spent for a funeral be used for a public fountain as a monument to his memory.

Professor Wright's father did the work of the undertaker. There was no minister and no religious service and the body was taken to the grave in a plain wagon. There was no expensive clothing on the corpse and the mourners rode in open carriages.

Library Situation Is All Right.

Lansing, Mich., Sept. 25.—The state board of library commissioners met in Lansing with Henry Loud, of Au Sable, who was elected president; James B. Peters, of Saginaw; David E. Heinaman, of Detroit; Henry R. Pattengill, of Lansing, and Mrs. Mary C. Spencer present. The board finds the library situation in the state most encouraging.

One Brother's Body Washed Ashore.

Alpena, Mich., Sept. 25.—Two weeks ago Edward Nelson, of Rogers City, Mich., and a brother went sailing on Lake Huron. That was the last heard of them until yesterday, when the body of Edward was washed ashore near here. The body of the brother has not been found.

Because He Pleaded Guilty.

Pontiac, Mich., Sept. 25.—Duncan MacDougald, of Detroit, pleaded guilty to a charge of embezzlement before Justice Snowden, and was released on suspended sentence. A. R. Lewis furnished him flowers for a carnival, and MacDougald sold them and skipped with the money.

Monument Contract Awarded.

Lansing, Mich., Sept. 25.—Lloyd Bros., of Toledo, have been awarded the contract for the monument to be erected at Andersonville prison in memory of the Michigan soldiers who were imprisoned there.

But He Hardly Got His Due.

Cadillac, Mich., Sept. 25.—Seth Shattuck, child-assaulter, was sentenced by Judge Chittenden under indeterminate sentence to from ten to thirty-five years in Marquette. He took the sentence coolly.

BULGARIA'S NERVE.

WHY THE LITTLE BALKAN STATE DOES NOT FEAR TURKEY.

Believes That In Event of War European Sympathy Would Be With the Christian as Against the Moslem. Prince Ferdinand of Bulgaria.

Bulgaria, which just now is attracting public attention owing to its connection with the Macedonian uprising and the probability that it may soon be engaged in a war with Turkey, has for centuries been a bone of contention between Russia and the sublime Porte.

In the twelfth century occurred the first Russian invasion of Bulgaria, which was so general as to cause a fusion of the races and the adoption of the Slav language and religion, and this fact has been used by Russia as a pretext for exercising a protectorate over southeastern Europe. In the fourteenth century the Turks drove the Russians out, and in 1859 the country was brought completely under Ottoman rule, which continued until the close of the Russo-Turkish war in 1877-78.

The blood that was spilled in behalf of Bulgaria in the siege of Plevna and in the defense of Shipka pass was not shed in vain, and, as the price of peace, Russia demanded that Bulgaria and Macedonia should be independent of the sultan's authority. The other powers, however, interfered and created the principality of Bulgaria, leaving Macedonia still under the sultan's rule. Prince Alexander of Battenberg was the first ruler of the new state. He assumed the reins of government in 1883, but seven years later was compelled to abdicate. He was succeeded by Prince Ferdinand of Coburg-Gotha, the present ruler.

Bulgaria is about the size of the state of Pennsylvania, is similar in shape and resembles it in topographical and physical features. According to the latest census the population of the country is 3,310,713 and is composed of 2,505,326 Bulgarians, 569,728 Turks and 58,518 Greeks, the rest of the population being made up of Jews, gypsies, Tartars and representatives of nearly every race on earth.

The Danube river forms the northern boundary of Bulgaria, separating it from Roumania; on the east is the Black sea, the kingdom of Serbia is on the west, and on the south the Rhodope chain of mountains separates it from Turkey.

There are no large cities in Bulgaria. Sofia, the capital, has a population of about 50,000, and there are a dozen or more besides ranging from 20,000 to

PRINCE FERDINAND OF BULGARIA.

40,000. Three-fourths of the inhabitants of the country are engaged in agricultural and pastoral pursuits, most of them being small farmers, cultivating from one to six acres and having large flocks and herds which graze at large.

Theoretically the state owns all the land, and the people are tenants with perpetual leases descending from generation to generation. The tenants pay one-tenth of all their products to the state in lieu of rental and taxes.

War between Bulgaria and Turkey would probably result in the defeat of the former. The preponderance of Turkish strength could hardly be offset by the valor of the Bulgarians. Bulgaria gave a taste of her mettle to Serbia in 1885, administering a severe defeat to her neighbor, Alexander of Battenberg being then the ruler. Prince Ferdinand has not been proved by fire, so has yet to demonstrate if he be a soldier.

In the event of a war with Turkey however, the Bulgarians believe that the people of the Christian nations of Europe would be behind them. For that reason, it is said, they are willing to risk a war, and having a good army, they do not even admit they would be defeated. This is the state of affairs in the Balkans at present, and the diplomats of Europe are watching with deep interest the progress of events.

Prince Ferdinand of Bulgaria is closely related by blood to several royal families of Europe. He is the son of Prince Augustus of Saxe-Coburg and of Princess Clementine of Bourbon-Orleans, a daughter of King Louis Philippe. He was elected to the throne of Bulgaria by unanimous vote of the national assembly and assumed the government Aug. 14, 1887. His sovereignty was formally recognized by the powers in 1896.

When a youth Prince Ferdinand served in the Austrian army as an officer. In 1893 he married the Princess Marie Louise, daughter of the Duke of Parma of the house of Bourbon. The princess died in 1899, leaving four children, two sons and two daughters. The eldest son, Boris, the heir apparent, is now about nine years old.

FOE OF TAMMANY HALL.

Seth Low, Who is Again a Candidate For Mayoralty of New York.

Mayor Seth Low of New York, who was elected chief executive of the city in 1901 by the fusionists, has again been selected by the elements opposed to Tammany rule to head the ticket in the coming municipal campaign. This will make the third time that Mr. Low has contested for the mayoralty of Greater New York, his first campaign in 1897 having resulted in defeat.

Mr. Low has always been interested in municipal government and has had an experience of nearly six years as head of the affairs of a great city, four of these as mayor of Brooklyn before its consolidation with New York. He is a Republican on state and national questions, but has always stood for the theory of business principles and not partisan methods in municipal affairs. He believes that character and efficiency should be the sole test for appointment to public service and the only assurance of continued tenure.

Born in Brooklyn, Mr. Low was graduated from Columbia university in

SETH LOW, MAYOR OF NEW YORK.

1870 at the head of his class. In 1881, when but thirty-one years of age, he was elected mayor of his native city, and his administration of affairs was so satisfactory that he was re-elected for a second term. When Mr. Low was chosen president of Columbia in 1890 he had a great task to perform. The old college had outgrown its quarters, and a new site and new buildings had to be provided. Increased expenditures had also to be provided for and the entire educational machinery reorganized. This work was performed in a manner that made him conspicuous in the educational world. He also gave \$1,000,000 to the university.

Columbia professors delight in telling the following incident, which occurred while M. Low was president of the university: He was addressing a body of students. "Gentlemen," he said, "Columbia is the alma mater of many distinguished and eminent men. Hamilton and Jay were among them. You all know the possibilities within your reach. I hope I see Hamiltons before me and many Jays."

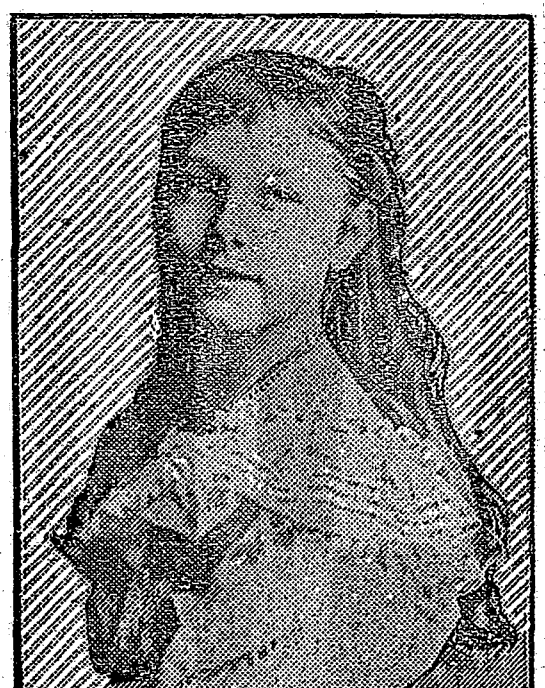

RULES AN EMPEROR.

Princess Victoria Louise, Only Daughter of the Kaiser.

Princess Victoria Louise, who is the youngest child and only daughter of Kaiser William of Germany, is said to be the real ruler of the imperial family. Her father adores her, and her six elder brothers are devoted to their little sister.

While strictly speaking the Princess Victoria Louise would hardly be described as a beauty, she is yet a pretty girl of the blond type of her race. The little princess, who has just celebrated her eleventh birthday, is an excellent musician and plays the piano very well.

Princess Victoria is said to be by no means afflicted with shyness. On one occasion when playing in the royal park she noticed some strangers in the distance gradually edging their way nearer and nearer, evidently intent on obtaining as near a view as possible of

PRINCESS VICTORIA LOUISE. [Only daughter of the German emperor.]

the emperor's daughter. When they had ventured comparatively near she drew herself up with immense dignity and spoke to them as follows: "You must not come any nearer, please. Do you not realize that we are here?"

It is related that one day while the kaiser was discussing his small daughter with one of his sisters he said, "When Victoria is talking to me she sometimes forgets that I am the emperor, but she is never oblivious of the fact that she is the imperial majesty's daughter." Princess Victoria goes to school and studies with six other little girls, daughters of the ladies of the German court.

Foreclosure Sale.

Default having been made in the conditions of a certain mortgage, dated the ninth day of May, A. D. 1892, executed by Henry Lingo and Amy Lingo, his wife, of Oronoko Township, county of Berrien, state of Michigan, to George Smith of the same place, which mortgage was duly recorded in the office of the register of deeds of the said county of Berrien, on the 12th day of May, A. D. 1892, in Liber 56 of Mortgages on page 201; which mortgage was, on the 27th day of December, A. D. 1892, duly assigned by Joshua Feather as executor of the estate of said George Smith, deceased, to Judith A. Smith, then of the said township and county, which assignment was duly recorded in the office of the register of deeds of said county, on the 18th day of August, A. D. 1906, in Liber 89 of Mortgages, on page 169; on which mortgage there is claimed to be due on the date of this notice the sum of nine hundred and fifty dollars and nineteen cents, and no suit or proceeding at law having been instituted to recover the debt secured by said mortgage or any part thereof.

Therefore by virtue of the power of sale contained in said mortgage and of the statute in such case made and provided.

Notice is hereby given that on the 23rd day of November, A. D. 1906, at one o'clock in the afternoon, for the purpose of foreclosing said mortgage, the premises therein described, or so much thereof as may be necessary to pay the amount due on said mortgage as above stated, with interest to accrue from the date hereof to the date of sale hereafter mentioned, at seven per cent per annum and the legal costs of this foreclosure, will be sold at public auction to the highest bidder, at the front door of the court house in the city of St. Joseph, in said county of Berrien, said premises being situated in the township of Oronoko, county of Berrien, state of Michigan, and described as follows: All that part of the west half of the west half of the north-west quarter of section twenty-nine (29) in town six (6) south range eighteen (18) west lying south of the center of road containing eight acres of land, more or less.

PEACE REIGNS.

The Bird-Lawson Difficulty Settled.

Buchanan has one cause less for scare headlines in the would be yellow journal.

The Bird and Lawson case was amicably adjusted on Tuesday afternoon, when both parties signed an agreement not to do anything that would injure, financially, physically or in any way, the other, and Mr. Bird and the saloon people paid Mrs. Lawson \$400, \$100 of which went to Atty. Frank Sanders and \$100 to Atty. George Lambert, of Niles; Mrs. Lawson retaining the remainder.

Wednesday morning anyone having seen Mr. Bird could have been sure that something favorable had happened, for there was on his face a degree of the old time cheerfulness visible. An inquiry as to the cause brought out the above facts.

Mrs. Lawson is still confined to her bed and it is remarkable what a forgiving spirit she shows toward Mr. Bird, saying that he would not have done what he did if he had been himself.

W.D. House will run a bus line from Buchanan to Niles twice each day to meet the morning and evening cars of the Interurban Line from South Bend. Leaving Buchanan at 7 a. m. and 4 p. m. returning leaves Niles at 8 a. m. and 5 p. m. Fare for round trip 25 cents.

THEODORE LESCHETIZKY

The October Century will have some "Anecdotes of Leschetizky," told by his sister-in-law, the Countess Angele Potocka. The stories deal with the three-year-old lad's playing a locked piano, incidents of his public debut at nine, his dancing with Fanny Ellsler at twelve, his early impressions of Liszt, and many Leipzig and St. Petersburg experiences. The book, "Theodore Leschetizky," will be published in October. As far as possible the Countess Potocka has used the great music teacher's own words in writing these memories.

Henry Wallace Phillips' "By Proxy."

Henry Wallace Phillips is to write more Red Saunders Stories for *McClure's*. "By Proxy" is the first of "Red's" new yarns, appearing in the October *McClure's*. Here is one of Red's descriptions:

"Alek"—Alexander Fulton—"stood six feet high as he stood, but if you ran the tape along his curves he was about six foot four. He weighed one hundred and twenty-five pounds, of which twenty-five went to head and fifty to feet. Feet! They were the grandest feet that ever wore a man. Chawley said Alexander had ground plan enough for a company of nigger soldiers, and the way they hung to Alek's running gear they reminded you of the swinging jigger in a clock. His complexion consisted of freckles. His eyes were white and so was his hair. He was disappointed in love—he had to be. One look at him and you'd know why. He had a case of ingrowing affection; it cut his weight down to ninety pounds. With him leaving himself at that rate you could take a pencil and paper and figure to the minute when Alexander Fulton was booked to cross the big divide." Alek's love affair is the subject of Red's yarn.

The Prisoner and His Mother.

A young man was serving a twenty years' term in prison. Only a year more stood between him and liberty. The old mother, over seventy years of age, who had stood by her boy all through these weary years, was very sick and reduced to direst poverty. Her husband had died and she had reached the point where sickness made earning impossible and eviction was imminent. In this hour of distress she appealed to her boy for help. He was able to make a little money by overtime work. It was very little. Only a cent and a half a day, or five dollars in a whole year. He found on referring to the warden that he had already sent all he possessed to his mother. The thought of her need and possible death from want drove him nearly to distraction, and yet he felt himself utterly powerless to help her. In the same prison was another man, also serving twenty years. When he learned of his fellow prisoner's anxiety he took all his own earnings, twenty dollars, which represented the hard toil of four years, and sent them to the old mother, though it meant depriving himself of all the little extra comfort he might have purchased. There is a sequel to this story. Both men came home to us. They became earnest Christians and have good positions today where they have proved themselves absolutely worthy of our confidence. They are earning good wages and are trusted by their

employers.—From Mrs. Booth's Memoirs in Leslie's Monthly for October.

AN INSECT THERMOMETER.

Cricket Chirps Bear a Close Relation to the Temperature.

On an autumn evening, when the crickets are out enjoying life too, it is very interesting to tell the temperature of the air by the number of chirps the cricket makes per minute.

It seems that the rate of chirps is affected by the temperature, and the exact relation of the temperature to the number of chirps has been estimated. With a little care in counting, one soon becomes expert enough to tell the temperature within one or two degrees Fahrenheit.

One meets with many discouragements at first as he tries hard to count every chirp; the cricket stops before the minute is up; other insects' notes drown out the cricket's; the noise of passing vehicles, etc., are very apt to interrupt at the critical moment of counting. But a little patience will easily overcome such difficulties.

When one has the average number of chirps per minute, take one-fourth of that number, and add forty to that; the result will be the temperature within a degree or two of the actual temperature as read from a thermometer hung out of doors.

Another experiment is to capture a cricket and take him into the house and see how much faster he chirps when he is warm.

To count the chirps per minute, take one fourth of that number, and adding forty to it may seem a little complicated—but it is really very simple, and is like the game, "Think of a number, and double it," put to an interesting purpose.—October *St. Nicholas*.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F.J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. Red Squirrels.

It has been my experience that they are rather irritable animals. It is a common thing, when meeting a red squirrel in the woods, to have him drop whatever he may be doing, and just sit and scold, as though you intended to rob him of all he possessed. If you make a quick movement to startle him, he will often sit bolt upright, with quivering lower jaw, clasp his breast frantically with one or both front paws, and look at you with an injured expression which seems to say, "How cruel! When you knew I had heart trouble, too!" He is a playful little fellow, though, and would be a welcome tenant in the garden if it were not for his fondness for birds' eggs and young birds. Some time ago a pair of scarlet tanagers built their flimsy nest of tigs and grasses in a pine tree near our front door. One morning we heard the birds screaming piteously, and rushing out, I found a red squirrel sitting on the edge of the nest, deliberately eating one of the eggs, which he held in his front paws, while the contents dripped from his jaws to the ground. I did my best to drive him away, but to little purpose: so I borrowed a gun, and did what I had not done for more than fifteen years—I shot something.—Ernest Harold Baynes in the October *Woman's Home Companion*.

A BEAUTIFUL BODICE OF PEAU DE SOIE

Peau de soie was the material of which this pretty little waist was made. It is shirred over cords on both the sleeves and the waist. There is also a narrow strip of lace down the front reaching to the belt. The collar and belt are outlined with bands of peau de soie, stitched through the middle with Corticelli stitching silk.

Small girls generally wear their skirts quite short, reaching usually to the knees and made very full. The waists are variously trimmed, hem stitching, feather stitching, lace fronts and lace undersleeves being favorite methods of adorning these small garments. Almost all materials are considered suitable for little girls, from muslin to silk, but nothing can be prettier or more simple when they can not wear wash materials, than the soft wool frocks. Young girls always are delighted with a coat and skirt to match and fashion decrees that they may wear them this year. The skirts are short, made with narrow tucks around the belt and sometimes a bounce, while the jackets often have two or three capes giving them a very smart appearance.

30 CLUB.

The ladies of the 30 Club held their first meeting for the year at the home of Miss Georgia Wilcox, last Wednesday afternoon.

The address by the president, Mrs. Sylvia Cook, was enjoyed by all present. A general discussion followed. In response to roll call, summer happenings were given, and many interesting things were told.

Mrs. Brown and Mrs. Barnhurst were welcomed as new members. Mrs. Eastman and Mrs. Arnold, friends of Mrs. Barnhurst, were guests of the club.

Quite a large number of village people expect to spend several days next week in Chicago, on account of the big celebration there.

HEALTH

"I don't think we could keep house without Theodor's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, frees the constipated bowels and invigorates the torpid liver and weakened kidneys

No DOCTOR

is necessary in the home where Theodor's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Theodor's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhoea, constipation, colic and every other ailment beset the stomach, bowels, liver, and kidneys so nearly control the health.

WANTED BY FARMERS

National Congress at Niagara
Falls Puts in a Few Claims
on Uncle Sam.

MORE OF RURAL FREE DELIVERY

Parcel Post and Farm Census Every
Five Years—Reciprocity Killed
—No Ship Subsidies.

Niagara Falls, N. Y., Sept. 25.—The
Farmers' National Congress has closed
its annual meeting here. The farm-
ers will not urge much specific national
legislation this year, contenting them-
selves with generalities. A set of res-
olutions favoring the extension of rural
free delivery and the parcels post sys-
tem, a postal telegraph system and
postal savings banks, was adopted.
The admission of Oklahoma as a state
is favored by the congress.

Farm Census Every Five Years.

Other resolutions adopted were: Fav-
oring a classified enumeration of
farms and farm products every five
years; recommending that each state
pay the expenses of delegates to the
congress; favoring the adoption of the
referendum, the election of United
States senators by direct vote, and the
sending of a set of five delegates to the
coming meeting of the National Civic
Federation at Chicago.

Mild Anti-Trust Resolution.

An anti-trust resolution was also
put through after much deliberation.
The resolution was mild, calling for
stricter legislation against combina-
tions known as trusts, and the en-
forcement of existing laws against
them. A resolution favoring recip-
rocity with Canada was finally killed,
and the question of a ship subsidy
found no supporters in the congress
this session.

Damage Done by Insects.

Two important papers were read, the
first by Professor F. M. Webster, of
Urbana, Ill., on "Insect pests," said
that the loss each year by insects eat-
ing farm produce was greater than the
loss by fire in the United States, and
he urged that more attention be paid
the subject. Professor Frank Parsons,
of Boston university, read a paper on
"The History of the Governmental
Ownership of Public Utilities."

Where Uncle Sam Is Lagging.

He thought government ownership
was going ground and said that the
United States was more backward in
this direction than any other country.
The farmer, especially in the west, he
said, is greatly interested in the fran-
chises of the interurban trolley lines
which now market his products. He
is also greatly interested in postal sav-
ings banks and government ownership
of railroads.

MANAGER GOES CRAZY

Theatrical Man Calls His Company Into a
Room and Opens Fire with Two Re-
volvers—No One Killed.

Cincinnati, Sept. 25.—Joseph Mon-
ger, manager of a theatrical company
playing "Marked for Life" at the Rob-
inson Opera House here, shot three
members of the company. Monger
called all the members of the com-
pany into his room after the perfor-
mance, stating that he wished to make
a settlement. After all the actors were
seated Monger stepped out of the room
for a few moments and returned with
two revolvers and immediately began
firing.

He fired ten shots before he was
overpowered by the stage manager, af-
ter which it was found that Bert Hav-
erly and his wife, and Longfellow, the
comedian of the show, were shot. Hav-
erly was shot in the chin, while his
wife received a flesh wound in the ab-
domen. Longfellow was wounded on
the hand. All of the members of the
company declare that Monger is un-
doubtedly demented.

Offer to Judge Grosscup.

Chicago, Sept. 25.—It is current rum-
or here that Judge Peter S. Gross-
cup, of the United States circuit court,
is about to resign from the bench to
accept the position of general coun-
sel to the Northern Securities com-
pany. The offer is said to be a retain-
er of \$200,000, and a life position as
counsel.

President's Summer Nearly Ended.

Oyster Bay, N. Y., Sept. 25.—Ar-
rangements have been completed for
the return of President Roosevelt and
his family and the executive force to
Washington. The party will leave
Oyster Bay next Monday morning, and
arrive at Washington at 4 p. m. the
same day.

Cardinal Gibbons at Baltimore.

Baltimore, Sept. 25.—Cardinal Gib-
bons arrived in Baltimore and was
met at the Union station by an im-
posing delegation of leading citizens,
including the mayor and representatives
of all the leading Roman Catholic so-
cieties.

Stone Cutters Ordered to Strike.

Bedford, Ind., Sept. 25.—Eighty
stone cutters employed here cutting
stone for the art building of the St.
Louis World's fair have quit work on
an order from the National Stone Cut-
ters' union. The order was either to
quit work or surrender the charter.

Widow of Jefferson Davis Ill.

Buffalo, N. Y., Sept. 25.—Mrs. Jef-
ferson Davis, widow of the president of
the Southern Confederacy, is serious-
ly ill at Castle Inn, in this city.

DOMINICA RATHER DEFIANT

Refuses to Recognize the Validity of a
Contract Made with an Improve-
ment Company.

Santo Domingo City, Sept. 25.—The
Dominican government has informed
United States Minister Powell that it
absolutely does not recognize the val-
idity of the agreement regarding the
claims of the improvement company,
and therefore cannot appoint an arbi-
trator in that case. Powell has in-
formed the government that the en-
gagements made must be kept, and
that he expected it to name its arbi-
trators.

He also pointed out to the Domini-
can government that if they accepted
engagements with other powers those
made with his government must also
be respected, and if some of the acts
of ex-President Vasquez' government
were considered legal then all must
be.

POLITICIANS CONVICTED

They Conspire to Defraud the United
States Civil Service Commission
and Get Left.

Boston, Sept. 25.—A verdict of
guilty was rendered against J. M. and
J. F. Curley, both prominent in local
politics, the latter being a state rep-
resentative, and J. J. Hughes and B. J.
Fahey, for conspiracy to defraud the
United States civil service commission
by impersonating the other two defend-
ants at a civil service examination in
December, 1902.

Sentence was deferred, pending an
appeal to the United States court of
appeals at Washington. The penalty
is a fine of from \$1,000 to \$10,000, or
not more than two years' imprison-
ment.

No Use, Girls.

Bay City, Mich., Sept. 25.—The Bay
City Bachelor's club recently wrote Sir
Thomas Lipton in Chicago announcing
that the club had elected him to hon-
orary membership in the club. Sir
Thomas has replied, saying: "This
courtesy I greatly appreciate, and shall
endeavor not to break the primary
qualifications for membership in your
association."

Some of Our New Regiments.

Washington, Sept. 25.—A Provisional
battalion of Philippine scouts, com-
posed of the Fourth Macabebes, the
Twenty-fourth Ilocanos, Thirtieth Ta-
galogs and Forty-seventh Visayans
will be organized for duty at the St.
Louis exposition.

Was Intimate with Lincoln.

Athens, Ill., Sept. 25.—William C.
Green is dead at his home near here,
aged 77 years. He was born near Old
Salem, Menard county, where Abra-
ham Lincoln had his store, and was an
intimate friend of Lincoln.

Harry Garfield To Be a Professor.

Cleveland, Sept. 25.—Harry A. Gar-
field, son of the late President Gar-
field, has accepted his appointment to
the chair of political jurisprudence at
Princeton (N. J.) university.

LaFollette Talks on Railway Taxation.

LaCrosse, Wis., Sept. 25.—Governor
R. M. LaFollette addressed 3,000 per-
sons at the interstate fair on railway
taxation.
