## CANADIANS STAND PAT

Dominion's Alaskan Boundary Commissioners Refuse to Sign the Decision.

REFUSAL IS VERY EMPHATIC

They Walk Out of the Room to Accentuate Their Displeasure and Disgust.

London, Oct. 20.—A draft of the decision reached by the Alaska boundary commissioners as announced by The Associated Press, has been signed by a majority of the commissioners. Messrs. Aylesworth and Jette, the Canadian commissioners, refused to sign. The decision grants all the United States contentions with the exception

SENATOR GEORGE TURNER.

of the one relating to the Portland canal. The signatories were Lord Chief Justice Alverstone and Senator Lodge, Senator Turner and Secretary Root, the United States commissioners. They constituted a majority and ensured finally.

#### Aylesworth and Jette Walk Out.

Aylesworth and Jette carried their outspoken disapproval of the decision to the point of refusing to sign even that section of the decision giving the Portland canal to Canada, and they emphasized their attitude by walking out of the cabinet room in the foreign office before the signatures of the others had been affixed to the historic document, which has already been printed and is ready for the session to be held today.

#### Business is Nearly Completed.

The only thing remaining to be done at this session is that the majority of the tribunal complete and sign the map which accompanies the decision, and which minutely determines the course of the boundary in accordance with the United States contentions contained in question No. 5. An engrossed copy of the decision also will be signed today.

#### Creates a Painful Impression.

The refusal of Messrs. Aylesworth and Jette to coincide in Lord Alverstone's view was only known to a few persons here, but at the foreign office and in high government circles it has created a painful impression. There is no hope expressed that the Canadian commissioners will reconsider their attitude and sign the engrossed copy of the decision, which will stand as the international record of the tribunal's finding.

## NIGHT WITH THE DEAD

Young Men Drift Clinging to an Overturned Boat and Two Out of Three Live.

HEROIC SWIM OF ONE SURVIVOR

Workman Falls Six Stories and Will Get Well—Testimony as to Taxation—Notes.

Harrisville, Mich., Oct. 20.—Three young men living near this place were capsized in the lake near Black River Island late Sunday and the suffering they endured for nearly twenty-four hours that followed while they clung to the partly submerged boat resulted in one death. The party consisted of William and Henry Brosseau and Henry Chalifour. They had started in a fishing boat for Cadzick and encountered a gale which turned the boat bottom upwards. Heavy seas were rolling, and through the night they clung to the boat, suffering from cold and hunger.

#### Chalifour Dies of Exposure.

The men gradually became exhausted and some time before daylight the two brothers discovered that Chalifour had died. In order to save the body William Brosseau secured the remains to the boat, and together the dead and the living rode out the storm on the upturned boat until daylight. During the forenoon William Brosseau succeeded in swimming to shore, a mile distant, being so exhausted that he was compelled to crawl on his hands and knees to a house where he obtained assistance. Henry Brosseau, together with the body of Henry Chalifour, was later brought ashore. It was several hours before the two boys were able to recover from their terrible experience.

#### Coil of Rope Saved His Life.

Grand Rapids, Mich., Oct. 20.—William Dockery will live after falling six stories to the pavement below. He was working on a suspended bridge on a high building and lost his balance. He landed upon a coil of rope, which broke his fall. Dockery suffered fractures of the left wrist and right ankle, but is otherwise uninjured.

#### 'Tis Ever Thus in These Cases.

Holly, Mich., Oct. 20.—Glen Dotson, of South Baltimore, O., an employe of the planing mill here for the past few weeks, was killed accidentally. He reached to take his gun out of the boat in which he had returned from duck hunting, when the hammer caught on the gunwale and the gun was discharged. The whole load of small shot struck him in the right breast, killing him instantly.

#### Bad Luck in This Family.

Galen, Mich., Oct. 20.—Mrs. Frank Burger's pet shepherd dog sprang playfully up on her and knocked her over. She fell in such a way that she broke her leg. Mrs. Burger buried her husband on Thursday and has just received word that her brother in Utah is dying.

#### AS TO RAILWAY TAXES

Testimony Given at Lansing Relative to Way of Appraisements Are Fixed.

Lansing, Mich., Oct. 20.—The railroad attorneys in the railway taxation case placed T. J. G. Bolt, a field man for the state tax commission, on the stand to testify as to the assessment of general property. One of his statements concerning inequality of assessment was that many assessing officers had engaged in the practice of placing a higher valuation on the property of non-residents than on that of residents. A. F. Patriarche, general tariff manager of the Pere Marquette system, testified for the railways that the electric railways and the sleeping car companies were doing the same kind of business as the steam railway companies, yet were not taxed in the same way. The purpose of this testimony was to show that the tax law was invalid because it discriminated.

#### Violence in the Express Strike.

Longview, Texas, Oct. 20.—Sunday evening three men were pulled from the express car here and compelled to stay off. One of them tried to draw a gun and they were roughly handled by the crowd which had gathered.

#### Crescens the Champion Trotter.

Wichita, Kan., Oct. 20.—Crescens has broken the world's trotting record for a mile, going the distance in 1:50½, beating the previous record held by Lou Dillon and Major Delmar by a quarter of a second.

#### Liberal Gift of an Editor.

# A One Price Store

The days when a customer came into a clothing store prepared to spend perhaps half a day in "beating down the price," "looking around," and "in making up their mind" before buying a suit of clothes, have gone by. Then—and the custom is still adhered to by some stores—the merchant puts his price up at least fifty per cent. higher than he expected to get and was prepared for the usual "knock down" in price. He asked \$15.00 for a \$10.00 suit and if he could close the sale at \$12.50 he was that much ahead.

It was the timid buyer who suffered then. The one who "hated to ask them to come down" in the price and 'twas he who paid the profit that the shrewd and presistant trader would not pay.

The business methods of such stores as Sam'l Spiro & Co. have changed all this.

A fair legitimate profit is asked on all goods and the price is marked in plain figures—usually printed.

A perfect stranger could come into our store and sell goods—as far as the price was concerned—and never vary a cent from the oldest salesman's figures.

In some clothing stores only the cost price in secret marks is placed on a garment and the clerk "guesses" at what it ought to bring. If the one who waits on you happens to be a particularly bad guesser you are liable to be asked twice what the article is worth.

All these unbusiness-like methods have been done away with by Spiro's. The price of every article in this big, splendid stock is marked in plain figures and is always the same to each and every one of our customers. It remains the same—at any and all times.

Only when lots are broken—clearance sales at the end of a season inaugurated—are prices changed and then the goods are re-marked in our stock room, not at the time a sale is made and because a customer is unusually eloquent in argument or persistent in his refusal to decide to buy.

This method protects all alike. The child and the mother can trade here quickly, comfortably and secure in the knowledge that the store is "one price." That they are paying no more for the same article than any one else and that prices are as low as it is consistent to mark them. Buying in large quantities for four stores makes possible much lower prices, than other stores can afford to offer and the same prices to all insure impartial treatment.

### Electric Fish.

Mr. Ed Barmore brought into the Record office last week, quite a curiosity in the way of a fish, which was caught by a boy named Morley. When he undertook to take it from the hook it shocked him so that he quickly dropped it. He carried it home and after nearly an hour it was placed in a jar of water and finally placed in the window at Van Meter's Bakery.

It was about 6 inches long, dark grey color with black and yellow spots, and very vicious. No one seemed to have seen anything in the fish kind like it before, and it was a pity it could not have been kept alive, but it died Friday night.

### A Suggestion.

We know that every one has some pride in our village, and we would like to make some suggestions that we know will be received in the same spirit of kindness in which they are made. Several hundred of the best people of Berrien Co. will be assembled in Buchanan this week, and remember that each one will carry away with him an impression of good or evil of the place. If for good it will be of lasting benefit to us but if for evil it will be an everlasting injury to us.

Let us be hospitable, open our door and hearts and let the best be none too good for the visitors to our town.

We are unfortunate just now in not having our streets lighted because the village council and Mr. Chapin have not yet agreed on a new schedule of prices which is to be hoped will be soon adjusted to the satisfaction of all concerned. Mr. Chapin can win for himself friends by lighting the village for these two evenings and we believe that through his representative Mr. Hosford he will do so without expense, but we would like to ask all our citizens to light up the front of their home and it will add a great deal to the beauty of our village for we have cheerful homes and they never show to better advantage than when brightly lighted.

Let all your lamps be trimmed and burning that every visitor who comes to Buchanan may carry back to his home good reports of our beautiful village; for the best that one can say will be none too good for us.

Come to the RECORD office and get flags to decorate for the day then with the lights at night we will be all right.

Read the Record.

## Killed by Cars in Tunnel.

Many Buchanan people remember Oliver Voedisch, on various occasions when he was visiting his aunts Mrs. H. O. Weaver and Mrs. E. W. Sanders, and will be pained to learn of his horrible death, last Thursday. In reporting the case a Chicago daily contains the following:

"With hundreds of passengers listening to his cries of agony, Olive Voedisch, fourteen years old, fell from a crowded footboard of a car in the La Salle street tunnel, and was so badly injured that he died two hours later.

Voedisch tried to change his position. Leaning too far out, he struck the wall of the tunnel and was caught between it and the car. The motor-man was unable to stop the car until Voedisch's body had been rolled between the wall and the first trailer.

The injured boy was unconscious when taken from the tunnel, and did not recover his senses. He lived at 289 La Salle avenue."

The youth had great natural talent as an artist, and the family had gone to Chicago to give him the advantage of the art schools there. He was of high moral character and a member of the Episcopal church.

The funeral was held Saturday at South Bend.

**\$100 Reward \$100.**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that cure is internal, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

**Curiosity in Record Window.**

A pumpkin vine of enormous growth and innumerable small pumpkins and blossoms; raised on F. H. Hall's farm.

A citron as large as a watermelon, raised by Peter Moyer.

Non-such apples by F. R. Harling.

A large stock and leaf of rhubarb, J. J. Roe.

The curiosities, fruits and vegetables of enormous growth in the Record window afford a great deal of interest to the people and some advertisement for the donors.

John Willard, South Bend, says: Coonley's Tonic Ext. of Sarsaparilla is the best medicine made, it cured me of a terrible Eczema after all other blood medicines had failed. Be wise and take it first, only 50c a large bottle at E. S. Dodd & Son's.

## National Notes.

Advertising pays, Daniel Overmyer, a 60 years old farmer, of Indiana, advertised for a wife. Over one hundred answers were received, but the old gentleman made a bad selection, as the bride, Mildred Smith, of Noblesville, has for various reasons tired of her bargain left him.

J. H. Tillman tried in South Carolina, for shooting Gonzales the newspaper man, was freed by the jury.

Two young girls, at Mishawaka, to play a joke on a girl friend, crept into the house through a window, and came near being shot by the father, who was at home, of which the girls were unaware.

**A Thoughtful Man.**

M. M. Austin of Winchester, Ind. knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He Takes Part in the State Fight in Massachusetts—Letter to a Democratic Club.

Boston, Oct. 20.—Although he did not personally attend the banquet of the Massachusetts Democratic club at the Revvere House, Hon. Richard Olney, formerly secretary of state, made his entry into the state campaign in the form of a letter addressed to the president of the club.

HON. RICHARD OLNEY.

Princeton, Wis., Oct. 20.—J. E. Leimer, cashier of the Princeton State bank, was arrested Sunday charged with forging bank papers and taken to Dartford, where he is now in jail. State Bank Examiner Marcus C. Bergh is quoted as saying that Leimer had admitted to him forgeries amounting to \$60,000.

The Princeton State bank is closed and the Montello State bank, of which Leimer is vice president, has been ordered by the state officials not to open its doors for business pending an investigation of its books. It is said by persons who are familiar with the affairs of the Princeton bank that the depositors probably will be paid off in full with money now on hand.

President Says it is False.

Washington, Oct. 20.—President Roosevelt authorizes the statement that there is no truth whatever in the rumor of differences of opinion between himself and Secretary Shaw, or among members of the cabinet, growing out of the report which has been made to him by Charles J. Bonaparte and Holmes Conrad of their investigations into charges affecting the postal service.

Beats the Record at Butchery.

Denver, Oct. 20.—By dressing a 1,200-pound steer in three minutes and thirty-eight seconds Jacob Baer, employed in a local packing plant, has reduced the world's record by twenty seconds, and incidentally won the western championship. The feat was accomplished in a contest at Broadway park.

**Pleasantly Entertained.**

Mrs. J. M. Rouch and Mrs. John Fydel entertained at progressive finch Friday evening, in a very pleasing way. There were about 50 guests present. Mrs. Chas. Fuller and Miss Mona Fydel won equal number of games, and in drawing for the prize it fell to the lot of the latter. Mrs. Tom Brown won the consolation prize. The house was prettily decorated with fall flowers. Paul White acted as page.

A three course collation was served. All enjoyed the occasion.

**Our Crop Capabilities.**

From the displays in the Record window from time to time we believe, with the proper care, that this section can produce almost anything that grows in the ground.

Chas. Marble had several well developed cotton stalks, which can still be seen in the window, and no doubt could have come to perfection if they had been allowed to grow.

This week Andrew Huss displays one stalk of sweet potatoes, with the potatoes adhering to it. He raised on a patch of ground 112 x 44 ft., 55 bushels of very nice potatoes.

Nathan Norris exhibits over a half peck of small potato balls.

**BO CLUB.**

The ladies of the 80 club met with Beatrice Mansfield Wednesday afternoon. The day being a beautiful one, many of the ladies were present.

The subject for the afternoon's work was William Shakespeare. The hostess read Miss Lotta Searls' well prepared paper on the early life of this great and well known writer. Mrs. Bertie Smith had something to tell of his career as a dramatist, which was very interesting. The excellent reading from Richard III and other of Shakespeare's works by Mrs. Cora Rough was greatly appreciated. Quotations from the writer were given in response to roll call. The ladies were pleased to welcome Mrs. McKee as a new member.

The 80 Club ladies were greatly pleased to be able to send two delegates to the convention of the Michigan Federation of Women's Clubs, held in Grand Rapids. The delegates were Mrs. Sylvia Cook and Mrs. Maude Bower. Miss Lotta Searls accompanied them.

The next meeting will be held with the last named lady.

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. # TEN MILLIONS IN CASH

Needed to Set a Couple of Baltimore Firms on Their Financial Feet.

## TRUST COMPANIES SUSPENDED

Tried to Carry Too Much Railway Project and Broke Down Under the Load.

Baltimore, Oct. 20.—Excitement and anxiety marks the feeling in financial and business circles of Baltimore. Luckily a dozen reports well calculated to provoke a wholesale run on banks got no further than the precincts of South and German streets, Baltimore's Wall street district, and did not reach the great army of depositors throughout the city, thus giving ample time for the conservative leaders of business to allay popular apprehension before it reached dangerous proportions. The trouble began with the announcement of the failure of the Maryland Trust company.

No Necessity for a Panic. It was agreed among the leaders, and so given out, that there is nothing alarming in the general financial situation in this city, and the mere fact that temporary difficulties overtook one or two concerns is no reason why other perfectly solvent institutions should be regarded with suspicion. As one of the most influential bankers in Baltimore put it: "Our financial institutions are strong and have placed themselves in position to withstand any assaults upon their credit standing."

Depends on the Baltimore People. Or as another leading banker, perhaps the most prominent in Baltimore, put it: "It all depends upon how the people of Baltimore act. If they do not lose their heads the trouble will blow over in time and nobody will be hurt; but if they become panic-stricken the consequences will be serious. This is a time to use calm judgment."

TOTAL LIABILITIES \$10,000,000

Concerns in No Way Connected—No Widows Nor Orphans Involved.

The plain facts in the day's history are as follows: Two trust companies closed their doors. The Maryland Trust company was the first to announce its suspension. This was followed a few hours later by the closing of the doors of the Union Trust company. Allan McLane, third vice president of the Maryland Trust company, was appointed to take charge of the affairs of that company. Miles White, Jr., first vice president of the Union Trust company, was appointed receiver of that institution. McLane gave bond in the sum of \$2,000,000, and White gave bond in the sum of \$1,000,000. The total liabilities of the two companies exceed \$10,000,000.

The Maryland Trust company's failure was due, as is set forth in the statement of Receiver McLane, to the investment of the assets of the company in Mexican railway securities, which could not be marketed. The Union Trust company failed because of a run on its banking department, about \$150,000 having been withdrawn by depositors; but the real troubles of the company had their origin in the organization of the South and Western railway in Virginia, in which a capitalization of about \$11,000,000 was contemplated. The Union company was the fiscal agent for the Virginia enterprise just as the Maryland company was the fiscal agent for the Mexican railway.

Though these two failures followed so closely it can be stated on unquestioned authority that there was no connection whatever between the two. The Maryland Trust company and the Union Trust company were not jointly interested in any enterprise, so that the suspension of one had no direct bearing upon the other. It may also be stated that neither company managed trust estates. This is the business in which the trustees take charge of properties and manage them in the interest of widows, orphans and other heirs.

## BALTIMORE CITY ALL RIGHT

No More Failures Looked for and a Confident Feeling Prevails.

As is well known there have been other financial troubles in Baltimore within a recent period, involving first, the City Trust and Banking company, and coincidentally the Hammond Ice company, and then William J. Midendorf & Co., but it is not believed that they were in any manner the forerunners of these later suspensions.

Among the alarming rumors afloat was one to the effect that the municipality of Baltimore had millions of its treasure realized from the Western Maryland railroad involved in these failures. Investigation proved, however, and the finance commissioners have so announced, that the city has only \$800,000 invested with the Maryland Trust company, and this is secured by three bonding companies of this city.

While these events have provoked inevitable uneasiness, the feeling in financial circles at the close of business was one of confidence that there will be no more failures in this city, and that after a brief period of unrest business will settle down to its accustomed channels of security.

Invented Shoemaking Machinery. Newport, R. I., Oct. 20.—Gordon McKay, millionaire and inventor of shoemaking machinery, is dead. He was born in 1821.

## AFFAIRS OF THE CONSOLIDATED

Contest for the Possession of the Consolidated Lake Superior Plant Is Ended.

Sault Ste. Marie, Mich., Oct. 20.—The contest over the possession of the plant of the Consolidated Lake Superior company, which has been in progress in and out of the courts for a number of weeks, has ended. James Bicknell, representing the receiver, has been given possession of the keys of the office building and all the subsidiary factory buildings.

This peaceful surrender is the result of an agreement reached in New York last Friday whereby all the directors and officials of the subsidiary companies resigned, their places being filled by Speyer & Co., who selected B. F. Fackenthal, the present receiver, as president of all the subsidiary companies. In return Speyer & Co. have agreed to postpone the date of the sale of the securities of the company which they hold until Dec. 15.

## LIMITED IN A COLLISION

Dozen Persons Injured, but None of Them Seriously—Interruption to Those Dining.

Iowa City, Ia., Oct. 20.—The Rock Island limited, east-bound, crashed into a freight train, west-bound, while running at a high rate of speed at Oxford, west of this city. A dozen persons were injured slightly, but no one was seriously hurt. The conductor and engineer of the passenger train leaped and sustained slight injuries.

About thirty persons were in the dining car when the shock came. The impact was terrific and the tables were upset and the dishes smashed. Many persons were struck in the face and on their heads. The passenger engine was turned over on its side and was demolished, while the freight engine was badly wrecked.

## Hardly Able to Pay Out.

Bloomington, Ill., Oct. 20.—The private bank of J. E. Brown & Co., at Chatsworth, has assigned, and will be closed pending a settlement for the benefit of creditors. The liabilities are estimated at \$35,000, with assets probably 90 per cent. of that sum.

## Will Vote on the Mueller Law.

New York, Oct. 20.—Rev. John P. Peters, of St. Michael's Protestant Episcopal church, has announced that the defalcation of church funds by Henry T. Edson, treasurer of the parish, who killed Mrs. Fannie Pullen and committed suicide several months ago, amounted to \$59,000. Of this amount \$10,000, the rector stated, has been returned to the church.

## Laid in Wait for Andrews.

## Big Difference.

"What is the difference between a violinist and a fiddler?"

"The difference," answered the concert manager, "is enormous; anywhere from \$500 to \$5,000 a week."—Washington Star.

## Dinner Versus Inspiration.

Whistler's laxity in the matter of engagements was notorious. No one ever knew if he were coming or not to affairs. But his point of view is explained in his answer to a friend of his who knew that he had an engagement to dine with some swells in a distant part of London and who felt that it was most impolitic for Whistler to offend them. It was growing late and yet Whistler was painting away madly, intently.

"My dear fellow," he said to him at last, "it is frightfully late, and you have to dine with Lady Such-a-one. Don't you think you'd better stop?"

"Stop?" fairly shrieked Whistler. "Stop, when everything is going beautifully? Go and stuff myself with disgusting food when I can paint like this? Never! Never! Besides, they can't do anything until I get there—they never do!" And the entire speech is most characteristic of the man.—Harper's Weekly.

## The Reason For the Fit.

The work of the regimental tailor may or may not be addressed to style. It all depends, as in other lines of soldiering, on his superior officer.

When Sir George Grove was a young man in the West Indies, superintending the erection of lighthouses, he met an English army officer who was so exceedingly well dressed that he was moved to say:

"You don't get those clothes here, I suppose?"

"Oh, yes," replied the officer. "The regimental tailor made them for me." "Is it really possible that the regimental tailor can fit you so well?" exclaimed the young engineer in surprise. "I should think so!" the officer answered. "He had better fit me! I would give him three days' heavy drill if he didn't—and he knows it!"

## Feminine Deceit.

Did you ever take note of the extraordinary efforts girls make at an exclusive girls' party to pretend that they are having as good a time as they would if the boys were present? The dear things know they are acting very deceitful in their affectation of joy, when each of them is all the time secretly wishing she had only invited the boys.—Leaf River (Ill.) Mirror.

## Not an Authority.

"You don't pronounce that word right," said the stranger, who was doing his first fishing in a northern Wisconsin lake. "Webster calls it 'mus-kellunge.'" "I never heard of Webster," fiercely retorted the old guide, "but I'm willin' to bet he never ketched a musky in his life."—Chicago Tribune.

## Her Mournful Jest.

"So you decided to try light-house-keeping?"

"Yes," said young Mrs. Torkins; "but after we had two or three gas bills we wished we could try dark house-keeping."—Exchange.
