COUNTY S. S. CONVENTION

Hold a Two Day Session With Splendid
Effects.

The Wednesday morning session of the 23th annual convention, of the Berrien Co. S. S. Association, opened promptly on time and the program as previously announced, was carried out.

Devotional services were led by Rev. Hoffman, of Benton Harbor.

GEO. PARSONS

This was followed by a Conference—"What are the Greatest Needs of my School," which was animated and led to beneficial discussion; a Symposium—"Between Sundays," in which Rev. Burkett, of Berrien Springs, Rev. Cole, of Buchanan, and Mr. Washburn, of Benton Harbor, gave some helpful thoughts; Round Table Conference—"A Square Look at Important Sunday School Questions," by E. C. Knapp, of Three Oaks, was conducted in his usual energetic and practically suggestive manner.

An able address on "Foundation Principles in S. S. Teaching," by Alfred Day, of Detroit, closed the first morning's session.

The Symposium—"A Study of the School," in which Alva Sherwood, of Three Oaks, Mr. Kinne, of Galien, Mrs. Thresher, of Benton Harbor, Dr. Greenamyer, of Niles, Mr. Blandford, of Benton Harbor, and Mr. Strong of Kalamazoo, represented various phases of the work, was much enjoyed.

Rev. A. Ostroth, of Portage Prairie church, gave an address on the Holy

Spirit in the S. S.

At the evening session Rev. Tarrant, the president of the Bertrand-Buchanan Union welcomed the delegates in a most felicitous manner, to which Mr. Geo. Parson, of Watervliet, a pioneer S. S. worker, responded in behalf of the absent president. An interesting address on "That Boy" by E. K. Mohr, of Grand Rapids followed. Mr. Mohr's real live boy appealed to every one. Mr. Day's talk on "The Bible in S. S., which was full of good thoughts, closed the program.

Thursday morning E. K. Mohr gave a fine talk on the lesson for next

Sunday, and in his own attractive manner brought out many teaching points. He followed this by "a half hour with the word," dwelling on the inspiration of the Bible and its being our necessary food for growth. Various reports followed, which showed the county in excellent con-

D. B. Allen, of Covert, a former Supt. of Mr. Warren's conducted a conference on the S. S. Supt., which was helpful. Mr. Strong, from Kalamazoo, then out-lined a successful township convention.

The afternoon sessions were divided, two simultaneous meetings being held, the primary and junior workers meeting in the Advent church, the balance convening in the Presbyterian church. After various reports and a song service conducted by Rev. Hoff-

man, the convention reassembled and listened to a paper "Why our boys go astray" given by C. W. Whitehead out of a ripe experience. The fault was found to be largely in the homes, and an earnest appeal was made to the parents.

The remainder of the afternoon was given up to Primary work. Miss Hoffman, of Benton Harbor, The Cradle Roll, The Junior Work, Mrs. Bisbee, Reaching The Home, by Mrs. Beers, of Galien, The Beginners' Course, by Miss Pardee, of Three Oaks, Observing the Birthdays, Mrs. Greenamyer, of Niles, Necessary Equipment, Mrs. D. A One Price Store

The days when a customer came into a clothing store prepared to spend perhaps half a day in "beating down the price," "looking around," and "in making up their mind" before buying a suit of clothes, have gone by. Then—and the custom is still adhered to by some stores—the merchant puts his price up at least fifty per cent. higher than he expected to get and was prepared for the usual "knock down" in price. He asked \$15.00 for a \$10.00 suit and if he could close the sale at \$12.50 he was that much ahead.

It was the timid buyer who suffered then. The one who "hated to ask them to come down" in the price and 'twas he who paid the profit that the shrewd and presistant trader would not pay.

The business methods of such stores as Sam'l Spiro & Co. have changed all this.

A fair legitimate profit is asked on all goods and the price is marked in plain figures—usually printed.

A perfect stranger could come into our store and sell goods—as far as the price was concerned—and never vary a cent from the oldest salesman's figures.

In some clothing stores only the cost price in secret marks is placed on a garment and the clerk "guesses" at what it ought to bring. If the one who waits on you happens to be a particularly bad guesser you are liable to be asked twice what the article is worth.

All these unbusiness-like methods have been done away with by Spiro's. The price of every article in this big, splendid stock is marked in plain figures and is always the same to each and every one of our customers. It remains the same—at any and all times.

Only when lots are broken—clearance sales at the end of a season inaugurated—are prices changed and then the goods are re-marked in our stock room, not at the time a sale is made and because a customer is unusually eloquent in argument or persistent in his refusal to decide to buy.

This method protects all alike. The child and the mother can trade here quickly, comfortably and secure in the knowledge that the store is "one price." That they are paying no more for the same article than any one else and that prices are as low as it is consistent to mark them. Buying in large quantities for four stores makes possible much lower prices, than other stores can afford to offer and the same prices to all insures impartial treatment.

FRIDAY, OCTOBER 23, 1903.

The newly elected County School Examiner, E. C. Harner, is highly spoken of in his home town, which is a good recommendation. We had the pleasure of meeting him last spring when a candidate for school commissioner, and were pleased with him. He is no doubt a good choice.

How Careful We Are.

Ever since the case of diphtheria we had in Buchanan several weeks ago, we have been deeply impressed with what care everyone guarded their homes—for which no fault can be found—it was right to guard your homes and dear ones from danger to their bodies but when so careful of the body why so indifferent about the moral and the spiritual? Fathers and mothers do you know where your children are each evening? Do you know that they are associating with those that are pure and clean? If not you had better be looking into it. Far better have them have diphtheria than to have their souls seared by evil companions.

Remember a favorite device of the evil one is, "Oh, there is no harm," but the thing to ask is, where is the good? You can be sure that if no good can be shown then there is evil. Set your children a godly Example and see that they follow.

Is it a burn? Use Dr. Thomas, Electric Oil. A cut? Use Dr. Thomas' Electric Oil. At your druggists.

Sabbath Observances.

"Remember the Sabbath day, to keep it holy. Six days shalt thou labor and do all thy work, but the seventh day is the Sabbath of the Lord thy God: in it thou shalt not do any work, thou, nor thy son, nor thy daughter, thy man servant, nor thy maid servant, nor thy cattle, nor thy stranger that is within thy gates, for in six days the Lord made heaven and earth, the sea, and all that in them is, and rested the seventh day; wherefore the Lord blessed the Sabbath day, and hallowed it." These are the words of God, as given to Moses on Mount Sinai amidst smoke and thunder and lightning and so far as we know no one denies them; but, oh! how few obey them, even of those who profess to do His will. How there can be any doubt about this command seems to us to be a mystery, indeed.

True, many persons do not work on the Sabbath day,—only a little—because they do not know how to put in the day, but the first and most important part of the command is entirely forgotten. Remember the Sabbath day, to keep it holy. What does it mean to keep it holy? The dictionary defines holy as, "set apart for the service of God or for sacred things; consecrated; hallowed; sacred." What are we doing in that way? Are we doing service for God by endeavoring to know more fully His will and more faithfully performing it and helping our fellow men to do the same? If not then we are failing in keeping His day holy. But there are those who do not obey the command to cease from labor; and some of them by putting their own construction on the word of God, disregard all observance of the day; but by so doing they violate the laws of the state, the laws of God, and God's word says one who would serve Him should obey the laws, and how any one can even pretend to love God and openly violate the law of the state is again beyond our conception.

Although it ought to be the desire of every one to keep one day out of

seven, no matter what day, holy to God because it is his direct command, here is a decidedly selfish reason why we ought to observe it. Look round and see the difference between those who habitually disregard the day and those who habitually observe it, to keep it holy, and it will not take a very keen observer to see the difference.

The persons who disregard the Sabbath day, as a class, are the poorest and the most ignorant of all the people, and if any of them are not so, they will become so in time. If one's life has been long he can bear this out, if his life has been short he will find it out.

The greatest menace to our nation are poverty and ignorance, and if we would desire to see the perpetuity of our nation we must obey the laws of God, for every violation of God's law is a violation of the law of nature and for every such violation man must suffer.

We have often heard it boasted that our village was an 'American town, but we fear that when we behold the violation of the Sabbath day, therefore breaking the laws of God and man, it is a great reflection on Americanism. Let us be making for righteousness (right doing) and we will all be so much better and happier.

If for anyone the Sabbath is a dull day, get out that long neglected book, the Bible, and he will be surprised what is in it that he has never dreamed of, and how its records fit in to the life of this day and generation.

What am I doing toward making the Sabbath a holy day? This is the question each should ask himself.

Letter From James Batton.

Auburn, Ind., Oct. 14, 1903.
To the editor of the RECORD,
Buchanan, Mich.,

Mr. Editor: I thought I would give you some of the happenings of Auburn and vicinity. Recently there occurred one of the most sensational murders in the history of Dekalb county. It occurred about nine and one-half miles northwest of Auburn, in a cabin in the woods, at about 3:30 in the afternoon. Samul Tillison the man who did the shooting, is 58 years old, is married and has five children.—Mr. Nathan Colbert the man who was murdered was married and has three children. He was about 40 years of age, was physically strong and weighed about 200 pounds.

When Tillison came in from work in the woods, to his shanty and was changing his clothing, he heard an alarm at the door. On opening the door Nathan Colbert and Johnithan Stiles were standing in front of the door. Colbert was under the influence of liquor. On being requested not to enter by Mr. Tillison and Johnithan Stiles who accompanied Colbert, he

deliberately entered, taking Mr. Tillison by the arm, slaping him in the face and holding on and pounding him on the head with his fist. Then Mr. Stiles took Colbert by the arm and requested him to leave the room. After taking him part of the way out, he deliberately returned, shaking his fist when Mr. Tillison took his gun and shot him in the right side. Then Mr. Colbert walked nineteen feet from the cabin and fell dead.

Mr. Tillison has the respect of all in the vicinity where he lives and it is thought he acted in self defense. He has always borne a good reputation, has never had any trouble with his neighbors and was never arrested before.

The grand jury took up the case and reported justifiable act in self defense and Tillison was acquitted, twenty-seven hours from the time of the killing he was released. The circumstances are very sorrowful for both families.

With best wishes and respects,
JAMES BATTON.

Industrial Rumblings

This week we received an advertising proposition from a firm who place money, from any one whom they can persuade to invest, on races.

The following clipped from the firm's notice will give the reader an idea of the business:

—who have been so successful in selecting winners at the New Orleans races, are in a class by themselves and have no relation in their system of operation to the "get-rich-quick" schemes that have recently gone to pieces disastrously to those who patronized them. —do not guarantee their clients profits nor against losses, but merely play the money of their subscribers and deduct a fixed percentage from winnings for placing the commissions. This point is made clear in all their announcements. What they guarantee to do is to confidentially handle all money forwarded them and place it on the races just as if it were their own. They have in their employ as "clockers" the most expert judges of track work in the country, and there is not a horse at the New Orleans meeting that they have not a record of. The information collected in this way is used to the benefit of their subscribers, and its reliable character is attested by the numerous winners they have picked in the past two weeks.

—are the pioneers in this line of investment or speculation; they have been established three years; they conduct their business on straightforward business lines; their methods have been thoroughly investigated and are entirely different from those pursued by the "get-rich-quick" schemes, so-called, which were but recently closed by the authorities. The transactions of — are legal in every sense, and they do exactly what they advertise to do, that is, play the money of their subscribers on the horses they judge will win, and they usually win. Prompt and proper accounting is made of the result, but they guarantee no fixed profits, though those who have continuously patronized them have not been losers.

They say:
We advertise on a large scale and our business is worth figuring for. We have spent on an average \$300,000 per annum for advertising since 1901. During the past twelve months we paid the N. Y. & Chicago American nearly \$50,000; the N. Y. Sun, \$17,000 and seventy other leading newspapers of the country sums in proportion.

Such advertising is doubtless a temptation to many a poor country editor and we frankly admit it was to us, but again we frankly say that any one investing in such business as the above has not more than one chance out of a hundred to win and then when he does win, he wins because ninety nine others lost.

Far better if one have \$5, \$10, \$25, \$100 or \$1,000 to invest, to go to the Cabinet work, Collar Pad, Feather Duster Co. or Axle works and say he wants to invest with them and my word for it he will run ninety nine chances of winning to one of losing; and when one does win he will not feel that he won because some ninety nine others lost.

Robbed the Grave.

A startling incident, is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50c. guaranteed, at W. N. Brodrick's drug store.

CONVINCING PROOF

The Average Buchanan Citizen Must Accept the Following Proof.

The great Sir Isaac Newton, one of the most profound reasoners the world ever produced, once cut a large hole in a board fence to allow a favorite cat access to two gardens, and cut a smaller hole to allow her kitten to follow her. The weakness manifested in Sir Isaac's action was due to want of thought. Any reader who mentally debates the proof here about Doan's Kidney Pills and arrives at any other conclusion than that stated in this citizen's statement is as short of reasoning powers as the philosopher when he turned carpenter. Alderman Jos. Keen, manager of the Dowagiac Board of Trade, residence 449 Division Street, says: "I found after a thorough trial that Doan's Kidney Pills are a most excellent remedy for kidney trouble I had very marked symptoms of kidney complaint or rather a weakness of the kidneys for some time which was very annoying. I had my attention called to Doan's Kidney Pills and bought them at Sherwood & Burlingame's drug store. I used two boxes and found they benefited me very much. I entertain a very favorable opinion of Doan's Kidney Pills as a medicine for the kidneys and I gladly testify to their sterling qualities." Just such emphatic endorsement is plentiful in Buchanan. Call at W. N. Brodrick's drug store and ask him what his customers report.

For sale by all dealers. Price 50c. Foster Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

FARM GARDEN

CLEARING NEW LAND.

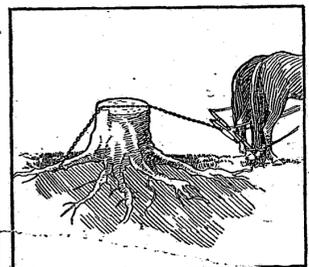

Uprooting Young Trees and Pulling Stumps With Horses and Chain. It is surprising how rapidly young trees may be pulled out of the ground with horses and chain where conditions are favorable. Best results can be obtained where the growth consists of saplings, say two to four inches in diameter, which have a lateral root system such as possessed by the locust, maple or dogwood. The ground should

UPROOTING A SAPLING.

be soft and loose. The plan is simple. It consists in fastening one end of a long log chain to the trunk of the sapling as high above the ground as the flexibility of the tree will permit and hitching a steady horse or if necessary a team of horses to the other end of the chain. While the horses are pulling at the tree a man should be at its base with an ax and assist them by severing such roots as may seem loath to give way.

In this manner when the saplings are of the right size and kind, the ground in proper condition, the horses true and steady, the man with the ax alert and discreet, wonderfully good and fast work can be accomplished. Stumps may also be pulled up with chain and horses. One end of a log

PULLING A STUMP.

chain should be fastened around one of the large roots of a stump, a team of horses being hitched to the other end. The chain is placed across the top of the stump, which acts as a fulcrum and furnishes leverage for its own removal.—F. Williams, Jr., Virginia.

The Economical Sheep.

Great business enterprises have been built up by attention to details and stopping the wastes. The wastes alone if saved would make a handsome profit on the average western farm. In guarding against needless waste on the farm the sheep has not yet had the consideration it deserves from the farmer. The impression prevails that in some instances our lands are too valuable for mutton production. A more hurtful fallacy does not exist. Our lands are becoming too valuable to be without sheep. The average quarter section or 200 acre farm will practically fatten a carload of western wethers on what would otherwise be wasted. The old country farmer and the Canadian make it a practice to glean the stubble fields with sheep as soon as the crop is removed and change the flock about from one field to another until the entire farm is grazed during the season. The possibilities of mutton production from the stubble fields, cornfields and fence rows of the Mississippi valley states are of great magnitude, and yet one can ride all day without seeing a flock of sheep. From sixty to ninety days of good grazing with a few weeks of corn feeding at the close will finish a bunch of wethers for the market, and they may be turned at a much better profit than by winter feeding on an expensive grain ration.—Breeder's Gazette.

The Farmers' Trust.

Nebraska grain men are up against the farmers' trust in earnest. As this year's crop is being marketed the commission men at points where the Farmers' Co-operative society has purchased or erected elevators find it practically impossible to buy any grain. At one point in York county where the farmers have been organized for two years the opposition elevator has not opened at all. At another point the old buyers have secured only three loads of grain. Offers of higher prices are no temptation to the farmers. They have been carefully schooled during the last year and have learned that this is only a trick to break up their own company and re-establish the old regime. Most of the Nebraska co-operative organizations are modeled after one at Rockwell, Ia. There the farmers have been through the fight and know every move of the commission men. When their elevator was outbid they encouraged the farmers to accept the bids of the commission men, but each farmer who did so was obligated to pay in one-fourth of a cent a bushel to the co-operative concern, which was enough to keep it going at the expense of the high bidding buyers.—Denver Field and Farm.

IN THE SOCIAL WORLD.

Mesdames Brodrick, Smith and Pears Entertain.

Tuesday afternoon, at her pleasant home, Mrs. H. M. Brodrick was assisted by Mesdames Sarah Black Smith and Wm. Pears, in entertaining about 50 of their friends.

One form of amusement provided for the guests was a bean bag throwing contest, in which each guest threw a bean bag through a suspended hoop-in a door way. The hoop contained a bell, fastened so that it hung about midway in the hoop and the person who threw the bag through the hoop without striking the bell, won the prize. The fortunate lady was Mrs. Ed Weaver, who is now the happy possessor of a pretty little vase.

A delicious three course luncheon was served late in the afternoon, and a spirit of enjoyment and merriment was prevalent among the guests, and as this was one of the first gatherings of the season, it was thus noticeably more enjoyable than when one has been through the series of social functions of an entire season.

Mesdames Brodrick, Smith and Pears proved themselves charming entertainers.

AN INVITING IDEA.

Chicago Establishment Provides Elegant Turkish Baths and Hotel Accommodations All for a Dollar.

Something new in the hotel line is supplied by the famous New Northern Baths, a palatial establishment at 14 Quincy Street, near State Street, Chicago. This is the most handsomely fitted up establishment; in fact, there is no other place quite like it anywhere. It is a hotel and baths combined. The New Northern has lately undergone additions and improvements that make it an extremely attractive place to visit. The furnishings in every one of the eight rooms are the best and most luxurious that money can buy, especially in the office floor where the wall decorations, stained-glass windows and other embellishments are well worth a visit on their own account.

A visitor to Chicago can have any kind of bath he chooses—Turkish, Russian, Plain, Needle, Electric or Plunge. The swimming pool is the finest in the country with even temperature all the year round. He can enjoy himself in the most leisurely fashion, and a well appointed grill room supplies him with first class meals at any hour, day or night. Nowhere in Chicago can a stranger find a more pleasant and restful stopping place than the New Northern Baths, while the economy of the arrangement is a thing worth taking note of.

Soy Beans.

In the Record window will be seen a bunch of beans presented by Mr. Rough. They are entirely unfamiliar to those who have seen them but they will no doubt be of value to many persons.

Mr. Rough calls them Soy Beans and says they are raised to be cut like green fodder to be fed to cattle and that they are very desirable. They also make a splendid fertilizer if plowed under.

For particulars call on Mr. Wm Rough.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

30 CLUB.

The members of the 30 Club always have a specially fine time when they meet at the home of one of their rural members, and that was the experience this week, when Miss Charlotte Searls was the hostess.

The day was devoted to Milton, an interesting paper on his biography given by Mrs. Desenberg was followed by "Three Periods of His Literary Career" a valuable paper by Mrs. Wood. The roll call was responded to by many quaint and pretty quotations on autumn. A discussion, "Milton and Shakespeare," lead by Mrs. Peck proved of practical value in impressing comparisons and contrasts, in the hands of this skillful leader.

A delayed presentation of "Hamlet" was given in an interesting manner by Mrs. Cook.

The delegates to the Mich. State Federation of Women's Clubs gave a partial report of the convention at Grand Rapids last week, which was a source of pleasure to all members of the club who were glad to be affiliated with so many wide spread movements along many lines beside the purely literary work.

Mesdames Blake, Brown, Pears, Boyle, Rough, and Miss Searls, were appointed the program committee for the coming year.

After the formal meeting was ad-

joined, the ladies enjoyed some of the dainty cookery for which the hostess has a most enviable reputation.

HAPPY HEARTS

United in Matimony Wednesday of This Week.

Wednesday morning, before the busy hum of life had begun, two young people, who had pledged themselves for better or worse, were by the priest, in the Catholic church at South Bend, pronounced man and wife. Then Emma Curran, daughter of John Curran, and Robert Main, of Chain Lakes, Ind., hastened to take a wedding breakfast at the home of the bride's brother, Thomas Curran, of South Bend. They then returned to the home of the bride's parents, on Portage Prairie, where there was spread a royal dinner in welcome of the happy pair.

Thursday they again repeated the program at the home of the groom's parents at Chain Lakes, Ind.

Miss Curran is an estimable young lady and it is said that her husband is a very well to do young man. All wish them success.

Second.—That the Sunday School workers of Berrien Co. in convention now assembled do hereby express our thanks and appreciation to the county officers, who have made this Convention possible and brought the same to pass.

Eight.—That our appreciation be extended to the local press and the press of Berrien Co. for their efforts

Every session saw the church well filled; many sessions saw the building overflowing.

The volunteer choir conducted by Rev. Hoffman rendered some sweet music.

Mrs. Lucy Broceus, Mrs. Hattie Wells and Mrs. J. W. Tarrant, the committee of arrangements deserve much credit for the success of the convention.

Three Oaks will have the honor

next year of entertaining the convention.

NETWORK OF TELEPHONE LINES.

Berrien County Towns to be Linked with Michigan-City.

Berrien county, Michigan, within two or three weeks will be covered with a net work of long distance telephone wires which will make possible connection between all the towns in the county. Gangs of men employed by the Michigan Telephone company are in the field and early in November they will have wires up and instruments in place.

Fourteen men under Robert Langton constitute the crew that is carrying on the work in that county. They began this week to distribute poles and other material along the route and soon will have Niles linked to Stevensville, Bridgeman, Baroda, Sawyer, Glendora, Harbert, Lakeside and New Troy by metallic circuits. The company will then construct a line between Lakeside and New Buffalo and between New Buffalo and Michigan City, which will give two through lines between Niles and Chicago. The present facilities of the company are inadequate to its business in the summer and fall months, but the additional strands will make communication easy and more prompt. The eastern part of the county already is well provided with telephone service.

An important feature of the new work is that along the trunk lines are "drops" to the homes of farmers who may desire the service.—Michigan City Dispatch.

Death of Mr. Frank Beck.

Wednesday morning Frank Beck, a well known farmer, living four miles north of town, died from typhoid pneumonia. He was nearly 40 years of age, and leaves a wife and one child. The funeral occurs this afternoon at the Evangelical church. The deceased man was a brother of Harry Beck, who less than two weeks ago passed through the affliction of losing his wife.

DR. ROBERT HENDERSON

Taken to Kalamazoo on Thursday Morning by

MR. WILLIAM A. PALMER

After a Very Trying Trip From Colorado to Buchanan.

W. A. Palmer arrived with Dr. Henderson on his way to Kalamazoo on Tuesday evening. The Dr. was quite adverse to going to Kalamazoo, and three times on his way here he attempted suicide; once by going to Mr. Palmer's valise and drinking almost the entire contents of a bottle of medicine, which had no more serious effect than a protracted spell of heavy slumber; he next tried to throw himself in front of an engine, and finally broke the lens of his glasses and was making an effort to sever the artery in his arm.

They remained here till Thursday morning, when Mr. Palmer proceeded, with him to Kalamazoo. During the couple of days he remained here, some persons called to see him, but he did not care to see any one.

This is a very sad affair indeed and it is to be hoped that with the treatment he may receive at Kalamazoo, he may eventually recover.
