GOOD AS RECOGNIZED

New Republic of Panama Has the Well Wishes of the United States Government.

STATEMENT IS TO BE ISSUED

Expected That Recognition Will Be Included in the Same.

Loyal Colombia Troops Leave Panama and Colon—Graduate of West Point Commands the Insurgent Navy.

Washington, Nov. 6.—The Associated Press is informed that the president probably will make a statement today regarding the provisional government of the republic of Panama, of the establishment of which this government was officially informed yesterday. In view of the latest advices from Colon

MAP OF PANAMA RAILROAD.

to the effect that the junta has succeeded in gaining control of the situation it is currently expected that this announcement will recognize the newly established government, but it was impossible to secure official information on this point.

Decided Upon at a Conference.

The decision to make an announcement today was reached after a conference at the White House of the president, Secretary Hay, Secretary Moody, Assistant Secretary Loomis, Rear Admiral John G. Walker and Rear Admiral Henry C. Taylor, chief of the bureau of navigation. The conference ended shortly after 11 p. m. A cablegram has been received from the United States consul at Colon saying that the 400 Colombian troops which arrived there Monday on the Carthagena had sailed away.

Means Recognition by Uncle Sam.

The Associated Press is enabled to state that this government will conduct affairs with a firm hand in the execution of the treaty of 1846. Orders have been sent to the various naval commanders in the Caribbean that the isthmus is to be policed, the transit kept open, and also that bloodshed must be prevented at any cost. This is further than the United States ever has gone heretofore, and in the opinion of officials here indicates that the establishment of the new government at Panama, if it proves stable and orderly, will have the good wishes of the United States and our ultimate recognition and co-operation in conducting an orderly and permanent government on the isthmus. Advocates of the construction of the Panama canal say this assures the execution of that project.

TREATY INTERPRETED "BROADLY"

Which Is To Be the Government Policy So Far as It Is Decided.

Officials of the administration say nothing has yet been decided as to our policy save that it has been decided to execute the obligations of the United States as to affairs on the isthmus of Panama in accordance with a broad interpretation of the treaty of 1846. Dr. Herran, the Colombian charge here, said he had not received any news from his government regarding the revolt in Panama, nor has he had anything from the officials on the isthmus. He may make a report to his government of the conditions on the isthmus as he learns them here, and of the feeling of the United States government in the matter.

The dispatch received from the executive board of the new government announcing the establishment of the provisional government of the "republic of Panama" stated that its action was in response to a popular and spontaneous demand on the part of the isthmian people, and that the board was assured of the necessary military strength to carry out its determination.

News from London, Berlin and Paris is that the acts of the United States are approved, and it is added that the restoration of order on the isthmus and its maintenance had been long desired by the European powers, and that the United States was in reality doing them and their interests a service.

LOYAL TROOPS LEAVE COLON

Finding the Situation Hopeless for the Government They "Move On."

Colon, Colombia, Nov. 6.—The royal mail steamer Orinoco, with twenty-eight officers, 435 men (the Colombian government force) and thirty women has sailed. The United States auxiliary cruiser Dixie has arrived. General H. O. Jeffries, a graduate of West Point, has been appointed commander of the Pacific flotilla by the provisional government. Carlos Constantino Arosemena has been made assistant secretary of foreign relations. The provisional government has already organized the military division of Panama, commanded by General Domingo Diez. After a conference, Colonel Torres, commander of the Colombian troops here, seeing that the situation was hopeless, agreed to embark his soldiers on the royal mail steamer Orinoco sailing for Cartagena. A special train from Panama brought General Tovar, who also sailed on the Orinoco. The people of Colon are now jubilant. The flag of the new republic flies from the railway stations at Gatun and Boño Soldado, near Colon. The commander of the Nashville has distributed about fifty rifles to private citizens who, with the blue jackets, are guarding the barricades.

Panama, Colombia, Nov. 6.—General Tovar and his staff have at last been convinced of the uselessness of their resistance to the provisional government, and have accepted the terms offered by the junta. They embarked for Colon on an express train to leave immediately on the royal mail steamer Orinoco for Cartagena. The arrangement to this end was made through the efforts of Commander Hubbard, of the United States gunboat Nashville; Superintendent Shaler and Assistant Superintendent Prescott, of the Panama railroad, who guaranteed that both parties would fulfill the agreement.

The revolution has been practically bloodless, as only two Chinamen were killed during the bombardment of the city by the government gunboat Bogota. The fire of the warship unroofed one house, a shell hit the tower of the cathedral, and another fell on the house of Federico Boyd, a member of the revolutionary junta.

NOT LIKED IN MEXICO

Clerical Organs Look Upon It as a Real Estate Steal.

City of Mexico, Nov. 6.—There is great public interest here in the Panama revolution, and the undercurrent of talk in Clerical party circles, where Colombia is regarded as in sympathy with the Clerical party programme, is that the United States authorities are the secret promoters of this disturbance, and are planning to seize the Panama region and annex it to the United States.

The Clerical organ with a wide circulation here, El Tiempo, is indignant over the news from Panama, and says in part: "Profound stupefaction has been caused in Mexico by the news in regard to the revolution that broke out on the isthmus of Panama. It is perceived not to be merely another revolution added to the already long list of those that have occurred in South America, but it is a farcical prelude to a terrible drama which is about to unfold itself on the coveted isthmus, and which will end perhaps with the dismemberment of the unhappy Colombian nation and the augmentation of the prestige and power of the United States on the American continent."

BRITISHERS MAKING MERRY

They See a Lack of Consistency in the Action of Uncle Sam.

Washington, Nov. 6.—Great Britain's representatives here are making merry over the isthmian matter. They say that if the United States wanted Panama it could take it and all would be well and good. "But how about telling the Colombians there must be no bloodshed?" said the Englishmen. "The United States once put down a big rebellion, and now it will not let Colombia put down a little one. It's queer how the thing works."

The British regard the Panama trouble and Uncle Sam's connection therewith as a joke of great magnitude. Charge Herran, of Colombia, still is talking freely. He intimates that the Colombian congress may meet and recognize the right of the hitherto exploited International Canal company to dig the ditch, and then Herran thinks strenuous things might happen.

Pope Receives Wm. E. Curtis.

Rome, Nov. 6.—William E. Curtis was received in private audience by the pope at the Vatican and extended to his holiness an invitation to send a distinguished ecclesiastic as the commissioner of the holy see to the St. Louis exposition, besides an exhibit of the treasures of the Vatican, to which the pope replied favorably.

Collapsing Building Kills Seven.

Madrid, Nov. 6.—During a meeting of a scientific society in the Athenaeum at Mula, in the province of Murcia, the building collapsed, killing seven and injuring twenty fatally.

Mary And Ann.

To the scholars in the high school: I respectfully call your attention to the following problem:

"Mary is 24 years old. Mary is twice as old as Ann was when Mary was as old as Ann is now. How old is Ann?"

The Detroit Journal says: This problem first came up at Harvard. Football practice was suspended while it was being worked out. Then the New York papers took it up. Today the papers are crowded with solutions, all different. From New York the fever spread. Even Philadelphia awoke, while in Chicago it has gone so far that the Tribune has a long editorial on the subject.

Now I simply predict that scholars in the Buchanan high school may be found who can correctly solve this unique problem that has caused such trepidation in many of the colleges and universities of the United States. Let every high school scholar who succeeds in solving this question hand the solution in writing to the editor of the Buchanan Record. The names of all who are successful will be published.

Most Unique Fire Engine In The World. Owned By a Michigan Village

The village of Buchanan, five miles west of Niles, Mich., has the most unique fire engine in the world. It was built over a hundred years ago and has done service down to the last decade. The people of Buchanan have outgrown the primitive fire-fighting machine and are now negotiating with the New York Historical Society for its sale. The engine has fought fires in and around Buchanan for sixty years, and was utilized in Chicago during the great conflagration in 1871. At that time it established a record of which Buchanan people never tire of rehearsing. The engine is well known around the country, and veteran firemen's associations throughout the states have bid for its purchase. The New York Historical Society made the best proposition and will likely secure the prize. Nothing but a municipal deficit would induce Buchanan to part with the old engine. A Chicago painter has been engaged to reproduce the engine in oil. One of the wealthy citizens will foot the bill and present the painting to the village council.

The above cut and statement appeared in a Chicago paper and was handed to the Record by Mr. Chas. Snyder. Since then some investigations have been made. It is true that Buchanan does own this engine, bought some time in 1863, making it 40 years old, but no one can be found who knows when it was bought or where or when it was built. It never was out of the town, so far as can be ascertained, but once to Niles where it was several days and defeated the Elkhart engine in a competition.

There was some talk of selling it, but not because of any municipal deficit. When the oil painting is made it will be on exhibition in a prominent place in the village, probably the Record office, and it is expected to erect a bronze statue to this wealthy citizen.

ALASKA IS INTERESTING

Letter From Mrs. J. R. Binns, Full of Bright Descriptions of Far North

The following letter from Mrs. J. R. Binns, addressed to Mrs. Geo. Howard, is so full of interesting features that it is published that the readers of this paper may have the benefit of it:

Nome, Alaska
Oct. 12, 1903.
My dear Mrs Howard:

I'll try once more to send you "a billet-doux" before the last fleet leaves. I sent you and Carrie each letters some time ago. Hope you received them O K. The distance is so far and there is so much mail to be attended to that it is a wonder to me that any of it gets any where. I've looked a good many times for a letter from you but mamma always says, "Mrs. Howard has never heard from you."

I told you in my last all about the reindeer herd at Cape Prince of Wales so you know now how they live and about the herders.

Some of the Alaskan villages are very old. They say at Sitka that Geo. Kostermietenoff, who is an old, old man, was bought by the United States when Alaska was purchased—that of the \$7,500,000 we paid for Alaska \$7,000,000 was for George. There is a Russian church there with many valuable paintings jewels etc. A priest who came to this country from Russia and who got very gay went into dance halls and sang for money was exiled by the Czar of Russia to the northernmost mission in Alaska where there were only natives. He was kept in exile for eighteen years. He had just gotten out and arrived where there were any of his own people, last decoration day.

The natives here take their flowers to the priest to bless them. He has very white hair which stands out like snow; his long robe with the cord at the waist was blowing around him in the wind. He stood on a platform at the foot of a mountain and just as he raised his hands to bless the flowers, there was a rift in the fog and the sun came out just lighting him up from crown to toe; with the natives around him, and the environment in general, it was a fine picture.

The origin of the Turkish bath in this country is up in Alaska too. Seems strange does it not?

There is an old, old cabin, one big room, which contains an immense sort of oven. It is covered, or paved rather, with stones that look like cobble stones. The room is filled with barrels of water and pans, stools are arranged in rows. When you get ready for your bath, you dip water from one of the barrels and yanking open the massive door to the oven you throw the water onto the cobble stones, which are red hot. Steam! Well I guess.

It is hard to explain many things about the country so that they can be clearly understood. For instance water is piped into this city from the Moonlight Springs, in the summer season you can have water in your house, but in winter no water can be supplied. It costs like fury to keep the pipes in shape. For instance, last year a break occurred, very small, but it cost \$17,000 to fix it. During winter we buy water from men who peddle it. They go to creeks for it with dog teams, this water is sold in coal oil cans, as soon as frozen out of shape they are replaced. Water costs 25c a can.

There are coal mines about one hundred miles from here but a railroad is necessary to make it pay to mine them. In the meantime by contracting for coal for the closed season we may get it as low as \$23. per ton. If not, you pay \$35 per ton in the winter.

The hotels are steam heated and lighted by electricity and one of them is furnished as well as the swellest Chicago hotels. We had dinner there tonight and I brought home the bill of fare which I was going to send you but I can't find it now.

An immense ball room is connected with the hotel, also a banquet hall. I have never been in any city where things were served or gotten up in better or more elaborate style than here. You would be surprised to see the people who make the trip through Alaska just for sight seeing. The city is full of nice people, refined, well educated and cultured, and travellers from every country in the world. It is an education in itself to meet them.

Just for instance, one night Joey

and I went into the Royal Cafe here and just across from us were a number of Frenchmen who own mines galore up here. They were all strangers to us except one whom Joey knew. He introduced us to others but we had little conversation with them except to pass weather remarks. Well when I finished I arose from the table and Joey got my coat and I was leaving when I heard some French "Bon Soir" etc. and I turned and all six of them were standing behind their chairs bowing good night to me with more politeness than you could hammer into an American crowd in a week.

The people change so often that you can never say you are well acquainted in town. Steamers here all times and people coming and going. Think I wrote you in my last that Gen. Funston described at dinner a very different capture of Aguinaldo than the one the newspapers gave.

The court-house is just two doors away from where we live. Many prominent cases are always in litigation and by standing in our side door I can hear the arguments. There is no end of scandal concerning the stealing of government funds for first one thing and then another. The biggest deals are on during the closed season since Washington cannot reach us in winter. Now that wireless telegraphy is being put in things may go a little nearer the path to honesty.

Dog teams of seven dogs and sledge sleds sell for \$600 and \$700 Some of the teams are beauties. Cats are not very common, but what there are have very thick fur. In the summer they chase around some but not much; the nealaments i. e. the native dogs catch them and kill them.

I have been up one of the streams fishing. The salmon and grayling are fine. Caught twenty salmon one morning and nearly all weighed two pounds.

We are right on the sea level. Many days we take a row boat and go out on Behring Sea, it is often as smooth as glass. We row out to the steamers to see if by chance any one should be aboard whom we know. It is fine doing this as the boats are from Russia, Australia, Africa, South America, Hawaii and every where.

Rates are now at \$150 to Seattle. The outgoing last boats are always crowded. This summer has been delightful. No creeping, stinging or crawling things up here. Can always sleep comfortably. No thunder or lightning. The sea gets on the rampage during the fall and with one big wave just slaps whole streets of buildings into the water.

We have a new Rector, Rev. John White, a young man. He has just had a fence built around the rectory. It seems to amuse everyone, I think it is the only fence in town.

The short days are beginning, by Christmas we will have no daylight only about an hour and a half. But people gad and gad just the same. The snow drifts over the house tops and tunnels are built to the storm doors and everybody yells down your chimneys.

Just now we travel anywhere. It is very dry and the ground is hard. All streets are planked clear across so that as many walk in the middle of the road as on the side of it. Kodakers by the hundreds frequent these shores.

The natives sell carved ivory things and furs. All of them can say a very few English words. They never knock or ring at the door but just come up to the window, place their faces against the pane, and stand there till they are spoken to. They do no weaving here. The furs have such a dreadful odor that it is necessary to air them for months. The entire race is childlike, they all romp and play, it's great fun to watch them play something like "Pull away"

There are no trees here but the natives carve trees on their ivory tinkets so they must have seen them some place. They come here from Behring Straits in skin canoes and boats. They always carry young seals stuffed with provisions with them. They are simply crazy over the cars, they run and race after the trains and giggle all the time. The women wear fur garments and the men wear straight ones that are not cut up at the side. In rainy weather they all wear fish skin parkas. They are as light as a feather. The young girls are often very pretty. The men and women both have very small hands and feet.

About four miles out of town it is necessary to cross Nome River. Two women have built a bridge out there and nobody can cross without pay-

ing them. 25c for foot passengers and \$1.25 for double team.

I never knew until last winter what fine things could be put up in canned form. We buy things by the case and the peas, asparagus, corn, tomatoes, celery etc. are fine. Of course now we have them fresh from the garden.

There are many big ditch companies in here and next year there will be more. The country is being rapidly opened up. The Sunday excursion trains are just packed.

We are both well as can be and will be in here this winter. This letter will reach you in less than three weeks and if you answer right away I'll not get it till February—doesn't that seem strange? All boats will have left for their last trips from Seattle when you get this and your answer will have to come overland. Many times last winter we had to wait until the mail was thawed out before we could get it. It is carried by dog teams in relays.

The St. Paul came in today; and just before the Roanoke. I received no mail from home, suppose it must be on another steamer. I want to send this on the Roanoke and one can really never tell when the boats will leave. A storm may come and they scud for the roadstead and may not come into port again. Some vessels take insurance risks and others do not. All boats lose insurance if they stay in this port after Oct. 15, but many take the risk. The Corwin will probably not leave until sometime in November.

There is an immense electric cross on the Catholic church here that can be seen for miles out on Behring Sea and also on the tundra.

There are three good libraries here. I can see Carrie, Mrs. Pierce and you chasing around, I thank you for looking after mamma, how is she I wonder?

With my love to you and Mr. Howard I am as ever

LIZZIE.

If Joey was here he'd have something to say but he isn't.

30 CLUB.

The ladies of the 30 Club were entertained Wednesday afternoon by Mrs. Jennie Wood and Mrs. Cora Rough at the home of the latter. The subject for the afternoon was John Ruskin. Miss Florence Redden read an interesting paper telling of the author as a prose poet. "His Observation and Description of Nature," the subject of Mrs. Maude Peck's paper was exhausted and Mrs. Bertie Smith's paper "Great and Helpful Thoughts from Ruskin" was equally as good. Mrs. Rena Desenberg sang a beautiful solo which was enjoyed by all present. Miss Lotta Searls gave a most interesting review of and fine selections from "Crown of Wild Olives." Mrs. Lura Pears rendered very nicely some select readings which were of interest to the ladies. Original couplets were given in response to roll call revealing many natural poetical tendencies.

The hostesses served dainty refreshments and thus passed a very pleasant afternoon.

Mrs. Rough and Mrs. Wood are soon to leave town and by this move, the 30 Club loses two valuable members.

Supper and Musical.

A most excellent supper was served by the men of the M. E. church, at Dr. Garland's house Thursday evening. A large number were present. Centerville, Nov. 4.—The Loescher case has closed. As a result of a proposition made by the prosecution Att. O'Rourke, in open court, pleaded guilty to a charge of simple assault and was sentenced by Judge Yaple to pay a fine of \$100 or undergo imprisonment for ninety days. He will pay the fine.

The case against Geo. Watson will be nolle prossed.

Pleasantly Entertained.

A merry crowd of young people went out by bus load and carriage Wednesday evening, to the home of Mr. and Mrs. Willis J. Tomlinson, where their niece Miss Zella Stanton entertained her young friends in a very pleasing manner. After games and music were enjoyed ice cream and cake were served and the young folks started home.

Mr. and Mrs. Tomlinson expect soon to move to New Carlisle, Ind., and they will be missed by many friends.

Surprised Their Friends.

Mr. I. N. Batchelor, one of Buchanan's prominent business men, and Miss Anna Hewitt, were quietly married this week and have gone South for the winter. Miss Hewitt, who has spent most of her life in this village, is well and favorably known. The couple surprised their many friends, by thus uniting their fortunes.

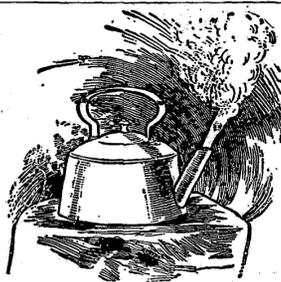

After spending a short time at the home of Mrs. Batchelor's brother in South Bend, Mr. and Mrs. Batchelor left Tuesday for Jacksonville Florida, where they will spend the winter. A host of friends unite in extending to them best wishes for their future happiness.

DOES THIS HIT YOU?

Casper Ernst Seems to Have Been Doing Financing of the Kind That Is Bad Policy.

St. Paul, Nov. 6.—Casper J. Ernst, capitalist and promoter, who has been out on bail of \$4,500 pending a hearing on charges of embezzlement and forgery preferred by Father Metzler, a Roman Catholic priest of Chippewa Falls, Wis., has been surrendered by his bondsmen. The action of his bondsmen, one of whom is Ernst's brother-in-law, is said to be due to sensational developments in the case.

Ernst is said to have received large sums from people throughout Minnesota, Wisconsin and eastern states, to be invested for them at a high rate of interest. Many of his clients were Roman Catholic priests who sent on their private fortunes for investment. What the total amount of money so received is not yet known, but it may be in the neighborhood of \$200,000.

SAYS NAY TO A BOOM

Senator Hanna's Name Comes in Front in Ohio for President Next Year.

BUT HE WILL HAVE NONE OF IT

Tom Johnson Thinks That "Stand Pat" Won the Fight—More Complete Returns from the State Elections.

Cleveland, O., Nov. 5.—The feature of election echoes is the talk about Senator Hanna for the presidency. The papers here and elsewhere in Ohio team with this gossip, and some prominent Republicans go so far as to offer wagers. They say that "this boom" would spread to other states but for Hanna himself, who is most emphatic in his denials and refusals of such use of his name. According to precedent Governor-Elect Herrick will be at the head of the Ohio delegation to the next national convention, and the two Ohio senators will also be delegates-at-large. As Herrick and Hanna both reside at Cleveland it is stated that "Cincinnati, as the banner Republican city," will likely have the other two delegates-at-large. The talk elsewhere about Herrick for vice president is regarded here as an attempt to stop the talk about Hanna for president.

What Hanna Says About It.

Senator Hanna, referring to the renewed suggestions made in various quarters to the effect that he is the logical Republican candidate for the presidency next year, as a result of the unprecedented victory won in Ohio at Tuesday's election, made this statement last night: "The results of the election in Ohio yesterday in no wise changes my opinion in reference to my proposed candidacy for the presidency, of which position the public has been fully advised." Hanna has received more than 100 congratulatory telegrams, one being from President Roosevelt.

More Figures on the Result.

Columbus, O., Nov. 5.—The Republican plurality in Ohio is about 115,000 for governor and the majority in the legislature on joint ballot for senator is ninety-three. Herrick (Rep.) carried sixty-two counties, and Johnson (Dem.) twenty-six for governor, most of the latter by small and the former by large pluralities. On a total vote of less than 900,000, Herrick's pluralities in the counties aggregate 135,132 and Johnson's 20,476, so that Herrick has a net plurality in the state of 114,706 on estimates that may be increased from 1,000 to 2,000 by the official count.

Situation in the Legislature.

The house stands 89 Republicans and 21 Democrats—majority 68. The senate stands 29 Republicans, 4 Democrats—majority 25.

Explained by Tom Johnson.

Cleveland, O., Nov. 5.—Hon. Tom L. Johnson, the defeated Democratic candidate for governor of Ohio, has given out a statement relative to the election in this state, in which he says: "The result in Ohio is due to several causes, of which the chief was the successful attempt of Senator Hanna to impress upon the people of this state that a continuance of undisturbed business conditions demanded his return to the senate."

PLURALITIES AT NEW YORK

Tremendous Popularity of the Canal Idea—Hugh McLaughlin's Comment.

New York, Nov. 5.—The pluralities on mayor, comptroller and president of the board of aldermen in the several boroughs were: Manhattan and the Bronx—McClellan, 56,829; Grout, 57,843; Farnes, 57,188. Brooklyn—McClellan, 1,808; Grout, 3,272; Farnes, 2,361. Queens—McClellan, 5,198; Grout, 5,619; Farnes, 5,402. Richmond Low (Fusion), 218; Grout, 56; Farnes, 22.

Nearly complete returns from this city on the canal amendment (twenty-five districts missing) give a majority in favor of it of 382,967; 489,493 of the 629,186 registered and 564,437 actual voters expressing their opinion on the proposition.

Hugh McLaughlin, the aged Brooklyn Democratic leader who openly revolted from the Democratic city ticket, but could not carry his organization with him, said: "The people are the jury; they have decided and must abide by the result." He said he was far from feeling any regret over his attitude in the campaign, and he would repeat it if the case had to be gone over again.

Beckham Likely to Break a Record.

Louisville, Nov. 5.—Returns which are complete save for a few scattered precincts in remote parts of the state give Governor Beckham (Dem.) for governor a majority of 30,408 over Morris B. Belknap, his Republican opponent. The missing precincts may cut this down to 25,000, the largest Democratic plurality in fifteen years.

The Prohibition and Socialist vote was very light.

SURPRISE FOR GOV. CUMMINS

If There Is No Mistake His Plurality Is a Matter of 80,000 Votes.

Des Moines, Ia., Nov. 5.—Complete returns from every county in Iowa, received by The Register Leader, show Governor Cummins' plurality

GOVERNOR CUMMINS.

Gov. J. B. Sullivan, Democratic candidate for governor, to be 80,802. Governor Cummins had confidently predicted a plurality of 60,000 or more, but at Republican headquarters no more than 50,000 was claimed at any time, while at Democratic headquarters not more than 30,000 was conceded.

The Democrats have elected just 23 of the 100 members of the next house, a gain of 6, and 8 of the 50 members of the senate, a loss of 2. Governor Cummins received a number of telegrams of personal congratulations.

NEBRASKA AND COLORADO

Both States Go Republican—One Miners' Union Man Elected.

Denver, Colo., Nov. 5.—The latest returns from the election in Colorado show that the plurality for Campbell (Rep.) over Wilson (Dem.) for justice of the supreme court will not be far from 7,000. Wilson carried but eleven of the fifty-nine counties in the state, his only large plurality being in Denver, which he carried by 5,300. Less than 50 per cent. of the normal vote of the state was cast. An incident of the election was the victory of P. J. Devault, miners' union candidate for assessor in Teller county (the Cripple Creek district), over both party candidates, by a plurality of 300.

Omaha, Nov. 5.—Returns received up to this writing show that Barnes (Rep.) for supreme judge will have a majority of at least 8,000 over Judge Sullivan, and if may go to 11,000. The Republican candidates for state university regents, Allen and Whitmore, are also elected by a good majority. In Omaha the Republicans elect all six of their candidates for district judges, county judge, county assessor, surveyor and minor offices, and the Democrats elect clerk of the district court, county sheriff and county treasurer.

Gorman's State Is Democratic.

MAY GRANT A PARDON

Governor Bliss Thinking It Over in the Case of Lant K. Salsbury.

HE IS A FREE MAN AGAIN

No Rearrest at the Prison Gate—State in Dispute with Uncle Sam—Michigan State News.

Saginaw, Mich., Nov. 6.—Governor Bliss says he is awaiting information from prominent citizens of Grand Rapids before he decides whether he shall grant a pardon to Lant K. Salsbury, who has returned from the Detroit house of correction to receive his sentence for accepting a bribe. Salsbury's friends and attorneys have importuned the government to show clemency.

Prisoner Greets His Wife.

Detroit, Nov. 6.—"I love you more than ever in my life." Lant K. Salsbury greeted with these words his wife, who had knocked at the gates of the Detroit house of correction while darkness still hovered over the streets. There wasn't much said between the couple when they met in the office of the prison. Salsbury wound his arms about his faithful mate and fought bravely to keep up a cheerful face. "I love you more than ever in my life," he repeated. The little woman was unable to make a reply. She yielded to the embrace of her husband and bowed her head in silence. Grief and joy seemed to compete for the possession of the woman's heart.

Released Man Not Rearrested.

The scene changed quickly. Mrs. Salsbury had arrived to accompany her husband to their home in Grand Rapids and they were to take an early morning train. There was not much time to lose. A few minutes after 7 o'clock the prison gates closed behind them and they hurried eastward to catch a train at the Gratiot avenue station of the D., G. H. and M. railroad. Aside from Mrs. Salsbury there was a newspaper representative from Grand Rapids in the released prisoner's company. It had been said that an officer would be sent from Grand Rapids to rearrest Salsbury, but none was present. Salsbury looked well.

THIS IS A FISHY DISPUTE

Uncle Sam and Michigan Looks at the Matter from Two Different View Points.

Sault Ste. Marie, Mich., Nov. 6.—A clash between the state game warden's department and the United States fish commission has resulted in the arrest by Chief Deputy Warden Brewster, of the captains and crews of three fishing tugs doing business out of Marquette. Warden Chapman has decided that the practice of allowing the fishermen employed by the commission in getting spawn for the hatcheries at Duluth and Northville in the closed season to keep about 80 per cent. of the fish, or all those that are not stripped, and sell them at a high price, is against the interest of the state, and must be stopped.

Superintendent Wiess, of the fish commission, took the ground that the great lakes were under federal jurisdiction, and he ordered Brewster off a tug that he attempted to board. Chapman says he will stop the practice if he has to confiscate every tug in the business and prosecute every captain with his crew.

Capture of a Horse Thief.

Saginaw, Mich., Nov. 6.—John Cummings, notorious horse thief, is under arrest here on a charge of stealing a horse from a farmer near Bridgeport, Mich. His detention recalls the sensational escape he made from the sheriff at Grand Haven some years ago. He had stolen a horse in this locality then and was traced to Grand Haven, where the sheriff captured him, and while driving to the jail with his prisoner the latter made a leap from the buggy and escaped through the woods.

Jackson, Mich., Nov. 6.—Homer Griffith, a high stepper, who married a girl with a police record Oct. 19, has been arrested because checks he drew on a Pennsylvania bank have come back dishonored. He says his father will make good any shortage. His bride has been allowed to keep him company in the jail.

Story Is Repudiated.

Ann Arbor, Mich., Nov. 6.—The authorities in athletics here regret exceedingly the rather violent charges regarding Minnesota conduct on the field toward the Michigan players, and K. Fitzpatrick, who was quoted in one Chicago paper, denies that he said any such thing as was attributed to him. So does Yost.

Shied at a Devil Wagon.

Almont, Mich., Nov. 6.—Welcome Kyle, of Riley Center, was bringing a plow to the foundry for repairs. His horse shied in passing an automobile, and as the seat of the wagon was loose, Kyle was tipped out. He struck on some loose cobblestones and fractured a rib.

INDIANS ARE SURRENDERED

Those Charged with the Murder of a Sheriff Will Be Tried by the State Authorities.

Cheyenne, Wyo., Nov. 6.—The request of Governor Chatterton on the federal government for the return of nine Indians who were captured near Edgemont, S. D., has been complied with and the prisoners have been turned over to the sheriff at Crawford. They will be charged with murdering Sheriff Miller and Deputy Falkenburg. This step followed a series of dispatches between Washington and the state authorities, and the Indian agent at Pine Ridge, the latter of whom reiterated his statement that the killing of the six Indians was unjustifiable.

The commissioner of Indian affairs did not refuse to let the Indians go into the custody of the sheriff, but he telegraphed Governor Chatterton urging him to protect the Indians from mob violence, which the governor promised to do, at the same time declaring there was no danger of violence. The commissioner, however, ordered United States Marshal Hadsell to be present at Douglas, where the Indians will be tried, and see that they are protected.
