THE MODERN WOODMEN

Held Big Meeting Last Friday Evening.

MANY VISITORS PRESENT.

Speeches Made by Officials of the Order Followed by Social Session.

The Modern Woodmen of America had a meeting of special interest on Friday evening. The early part of the evening was open to every person and through the kindness of Dr. Brodriek a Record representative was present.

There were present, prominent in the order; C. J. Byrns, of Ishpeming, a member of National Board of Directors; State Deputy E. J. Bullard, of St. Johns, C. L. Chamberlain, of Pontiac, Ill. who came to represent Judge White; also Edward F. Burns, District Deputy for Detroit. Mr. Burns is a very brilliant speaker. He was introduced by Mr. C. J. Byrns and spoke upon Fraternity. He told how the M. W. A. was the largest fraternal order in America, numbering 735,000, and only one order that of Manchester, England was larger.

He asked, "What is Fraternity?" and answered it by saying, "It was God's own spirit implanted in human hearts and worked out by human hands." He dwelt on fraternity and made many good points, showing how the fraternal spirit should help each to do good to the other.

He related about a yankee soldier and a Johnny, wounded lying together on the battle field. The yankee was unconscious, but on coming to himself, burning with fever and being consumed by thirst, he reached for his canteen which still retained a few more drops. He was about drinking when the Johnny asked him for some; he hesitated when he saw the gray uniform, but a moment later passed the canteen to his brother soldier in gray. He drank and handed the balance back. He was again lapsing into an unconsciousness from which only the trump of the resurrection angel could awaken him, and realizing the fact, handed the balance to the brother in gray saying, "Take it, I will not need it."

After Mr. Burns spoke the regular meeting was called to order and those not members or about to become members retired.

After the regular session had taken up, four candidates were conducted through the woods and became full-fledged Woodmen. When the ceremony of adoption was over C. J. Byrns, E. J. Bullard and Chas. L. Chamberlain each gave short addresses on Woodcraft, following which the Forester Team, acting as waiters, served those assembled with refreshments. During the evening the Foresters gave an exhibition drill that was enjoyed by all. Visiting Neighbors were present from Niles, Dayton, Galien and Three Oaks.

This meeting was the beginning of many that the Woodmen hope to enjoy this winter. They have several adoption for next meeting.

Sold Cigarettes to Minors.

Kokomo, Ind., Nov. 6.—As the result of a court of inquiry conducted by Supt. B. A. Ogg, of the city school, five merchants have been arrested for selling cigarettes to schoolboys. Twenty dull-eyed, sallow-skinned boys were "sweated" by the prosecutor and they told where the cigarettes were bought. Affidavits were then filed against the following dealers: Henry Garretson, Fred Jones, A. P. Sharp and C. P. Sanders.

Superintendent Ogg has been conducting a crusade against cigarettes for three years, but these are the first arrests.—South Bend Tribune.

There is a still hunt going on in Buchanan. It may be that before three years some one here will fall into the trap.

UNIQUE AND EDIFYING

Prof. Patty Delights and Entertains Audience

MARVELS OF THE AGE

Liquid Air and Wireless Telegraphy Explained in an Interesting Way.

Monday evening, at the Presbyterian church a rather small audience gathered to hear Prof. Patty and to see him show some most wonderful demonstrations with liquid air, and to explain the workings of wireless telegraphy.

Liquid air is 844 degrees colder than ice, and a most wonderful characteristic is that, though it is a liquid, it is absolutely dry, not a particle of moisture about it.

The lecturer gave an account of the plant in Washington where the liquid air is made by subjecting ordinary air to intense pressure. After going through various separators and condensers where all foreign substances are removed, the air is finally put under pressure ranging from 2,800 to 3,500 pounds per square inch.

A number of most wonderful experiments were given before the audience. A rubber ball dipped into this strange liquid and thrown upon the floor, crashed into fragments like bits of glass, and mercury treated to a similar process was so hard that nails could be driven with it.

In the same small glass and simultaneously, liquid air melted steel pens with brilliant scintillation, and froze cranberries to 312 degrees below zero.

While it is yet too expensive to be used commercially, scientists agree that the time is not far distant when it will be used in every department of life; as a local anaesthetic in surgical operations, a propelling force for automobiles and other vehicles, a solution of the garbage question as it produces complete combustion, causing refuse to burn briskly and completely with no smoke or odor arising, and as an explosive, as liquid air combined with hydrocarbon makes an explosive more powerful than dynamite, and at a small fraction of its cost.

The Marconi wireless telegraphy was explained in some detail, and the lecturer showed the wonderful system that can send messages thousands of miles through the blue ether, without other means of transmission. The speaker was thankful to be living in this age of marvels and inspired the audience with the thought of great and marvelous things that were revealed through nature, and the incased knowledge of the allwise and incomprehensible Creator of all.

Supt. Mercer and the senior high school class deserve thanks for this rare and delightful entertainment.

COUNTY TEACHERS

Will Meet in Their Fall Institute at St. Joseph.

Commissioner C. D. Jennings has issued the following notice concerning the fall institute of the teachers' association:

The fall meeting of Berrien County Teachers' Association will be held at St. Joseph Friday evening December 4 and Saturday December 5, 1903. Prof. S. H. Clark, of the Chicago University will lecture Friday evening, his subject being "The Spirit of Literature." No teacher nor any one interested in literature can afford to miss this lecture as Prof. Clark is authority upon this subject.

The executive committee heard these lectures at Saginaw last winter and were unanimous in choosing Prof. Clark for these meetings.

He will be ably assisted Saturday by Prof. W. J. Mckone, of Albion. We expect every teacher of this and many from the adjoining counties to be present and make this the banner meeting of the association.

Our printing will please you.

Oil Excitement.

The Umholtz oil well has made slow progress owing to the work being in sand which made it quite difficult, but now, at the depth of 160 feet, rock has been struck and the work is progressing finely.

The following from Allen county, Ind., near Fort Wayne, shows some good strikes there. Keep up courage fellows—Umholtz will win.

Fort Wayne, Ind., Nov. 9.—The eastern part of this country in the vicinity of Monroeville and Baldwin continues in a state of excitement on account of the striking of rich wells of oil. Another gusher was struck last week on the Anspach farm near Edgerton, five miles north of Baldwin. It has a capacity of yielding 50 barrels of oil a day. Much of the land for miles around Baldwin, Edgerton and Monroeville is being leased by operators for the sinking of wells and prospectors have flocked into each town by scores. The belief is that the region will prove the best oil field in the country.

Why Spiro Leads

Have you ever thought of the advantages of trading at Spiro's store?

The immense stock of new clothing piled high on every table and shelf—the show cases brimming over with the latest ideas in hats and furnishings—the wonderful range of styles, fabrics and prices because of the splendid variety. It's a perfect exposition for men and boys. You can walk down the aisles free to pick and choose from the best the markets of the world afford.

Did you ever think of the volume of business done in a day at Spiro's?

Enough suits, overcoats, and hats go out every day to stock a small store; yet they are replaced so rapidly from our store rooms and surplus stock, that the vacancy is never seen.

Our one price system saves you the necessity of haggling over the price. In the first place it must be fair. We have no chance to "meet" competition; we have no chance to call you back and as a last resort do better, "seeing it is you". One price must be a tempting price at first or we can't make sales.

The unfailing courtesy of our experienced salesmen, the assurance of money back without argument or if you are not satisfied and at all times the lowest prices, secured by large purchases, make Spiro's the best, as well as the biggest clothing store in this part of the United States.

Now ready for inspection: New Fall and Winter Suits and Overcoats, Hats, Furnishings, Underwear, and the best shoes for men, "The Crossett" \$3 50—no higher, no lower.

slowly about lighting our streets with gas. We say again if gas is all right, when thoroughly tested, then it will be time to light our streets with it, and you will have no cause to regret a hasty action. Again, since I have been dragged into the affair I wish to state what I know.

On last Friday evening from 4:30 to 5:00 o'clock, I had some spare time in Niles and remembering that Mr. Parker stated before the council meeting last Tuesday evening "that two-thirds or three-fourths of the business people of Niles were using gas for lighting their business places," it occurred to me just to step into the business places and see how the actual facts agreed with the statement. I found in the square in which the Richter store is situated, nine business places using electric lights and three gas. I spoke to the proprietor of the notion store next to Quimby's dry goods store, asking what the cost was. He said he bought his mantles at wholesale and that he burned six single lights, two in the windows and four in the store, that the cost was from \$1.90 to \$7.00 per month. The postoffice square had about an equal number of gas and electric lights. The one opposite in which Noble & Son's store is situated had a few more electric than gas and the block opposite Richter's had about four gas and eight electric. I am not positively sure as to the exact figures, but they will not vary very much from what I have given.

The gas lights in the Noble store were very good, but all the others I saw were very poor. I asked the price at Noble's, it being the only other place beside the notion store where I asked the price, and found it less than at the notion store.

Once more let the people of Buchanan say to our council: "Go slowly."

Let us have gas. Let us have the plant in Buchanan.

Watch the Record Friday for a great 10 day sale announcement of the Economy South Bend, Ind.

Mr. Fred Salisbury who was taken ill Friday, was sufficiently recovered to go home to Dayton, Monday.

Mrs. Nimms and Mrs. Will Hill, of Berrien Centre, are guests of Mrs. Straw and daughter, Mrs. Paul.

Elder Wm. M. Roe will go tomorrow, to Bryan, Ohio, as a guest of his son Carleton Roe, editor of the Bryan Press.

Mrs. Leonard, of Lawton, Mich., who has been the guest of A. Emerson and wife, returned to her home yesterday morning.

A small finch party was given Monday evening by Miss Clara Hubbell in honor of Mr. Thorpe, a guest at the Hubbell home this week.

All members of the Presbyterian church who are in any way interested in the C. E. Society of the church are requested to meet Wednesday evening at the home of Miss Clara Hubbell.

Wm. Shear, living west of Hinckman, took 85 colts through Buchanan on Saturday, stopping at Batchelor's feed barn. He bought them in Chicago and was taking them to his home.

Rev. and Mrs. Frank Cottrell, of Mendon, Mich., are enjoying an addition to their family circle by the advent of a boy on Sunday morning. Mrs. Cottrell, so well known as Elsie Kingery, is doing well as is the boy.

DOINGS EVENINGS.

Recent Happenings In The Social World of Buchanan.

On Friday evening at the home of Prof. and Mrs. J. W. C. Brown, the S S class of the latter gave a social which was attended by about fifty of the members of the Presbyterian S. S. and their friends. The suite of rooms where Mr. and Mrs. Friday reside were also thrown open which afforded ample room for the various features of the evening's entertainment.

A contest in guessing the titles of about twenty books from pictures arranged about the room, was entered into heartily and five of those present guessed the list. Drawing from the prize resulted in its falling to the lot of Gertrude Paul.

A musical program followed. The high school orchestra rendered three numbers. This popular organization is composed of E. Hallock, Rob French, Louis Runner, Jay and Clem Conrad, and Miss Dora Hershenow.

The Misses Clara Hubbell and Dora Hershenow gave pleasing piano solos. The vocal solos by a boy soprano from Kalamazoo, were loudly applauded, and the final number on the program was a series of shadow pictures exceedingly humorous, the characters being taken by Margaret Devin, Grace Hamilton, Rob French and Ebern Guyer and the poem being read by Helen Weymuth.

Refreshments were served and all felt the evening pleasantly spent. 30 CLUB

The ladies of the 30 Club very pleasantly surprised Mrs. Cora Rough and Mrs. Jennie Wood at the home of Mrs. Maude Peck last Saturday evening.

The evening was spent in an enjoyable manner, contests and musical selections being interesting features. In the gum moulding contest Miss Lotta Searls was the prize winner. Later in the evening the ladies assembled in the dining room which was tastefully decorated in green and white, the club colors.

After the guests of honor were seated and crowned, Mrs. Sylvia Cook, president, made in behalf of the club some very fitting remarks and presented Mrs. Rough and Mrs. Wood each with a very handsome spoon.

A substantial repast was served. The ladies chatted long and pleasantly over their coffee cups and at a late hour departed declaring that they had passed a most enjoyable evening.

SCHOOL NOTES.

HIGH SCHOOL

The members of the senior class were well satisfied with the results of the lecture Monday evening. The receipts paid all expenses.

The new self-registering thermometer has arrived. The class in physical geography will soon begin the observation of the weather.

Vita Lewis is again in grade 6. In the spelling contest Friday in the 3rd grade, Joe Voorhees and Anna Keller stood up the longest.

Pupils of the 4th grade are glad to have Edward Hess back again after four weeks absence.

For the past month the pupils of grade 6 have been practicing expanding their chests. Friday they were measured during the calisthenics period and John Twell and Ira Boyle were able to expand four inches.

The B division of the 4th grade are learning a selection from Longfellow's Hiawatha.

Pupils of the 3rd grade were very much interested in the story of the "Three Golden Apples," Friday afternoon.

Fred Swartz and Benjamin Davis, Inez Seybert and Cecil Bruce wrote the best compositions in the 4th grade, last week.

This week, the 3rd grade will take up the study of the squirrel and nuts.

The 5th grade had some very good drawings of the rabbit which Judd Wooden was so kind as to bring.

Elma Bupp entered the 3rd grade last week.

The pupils of the 5th grade arranged and carried out a very good program Friday afternoon.

WARD SCHOOL

Sam and Elizabeth Rouse and Lura Arney won in the first grade spelling contest Friday.

As a result of observation work in the school yard, the second grade

Gigantic Sale Black Silk

Most Important Silk Sacrifice Ever Inaugurated In Northern Indiana

Three thousand four hundred yards of the very highest grades of Black Silks in the original purchase. An opportunity such as seldom presents itself and we took advantage of it. It is your gain as well as ours, for we offer the entire lot at about 50c on the dollar—not more.

As there are no full bolts of any one piece of silk we must announce our inability to send samples, for the piece selected would be sure to be sold out. What we advise is immediate Personal Attendance at the sale—it is announced to last as long as the goods hold out.

The big purchase divided into four great lots as follows:

LOT NO. 1—39c

23 and 27 inch Black Japanese silk, 19 inch Black Taffeta, Louisiana, Brocade satin and Peau de Cygne; 20, 21 and 22 inch Black Taffeta, etc.

LOT NO. 3—79c

21 inch black Moire Velour; 23 inch Brocade Satin, 24, 27 and 36 inch Black Taffetas, 24 inch Peau de Soie, 27 inch Satin Duchess and 44 all silk black Grenadine.

LOT NO. 2—65c

19 inch Black Liberty, extra heavy Black Satin, Herringbone Louisiana; 22 inch Black Peau de Cygne and Black Taffeta; 21 inch Black silk back Satin; 24 inch Black Surah silk and extra quality 27 inch Black Taffeta and Japanese wash silks.

LOT NO. 4—89c

24, 25 and 27 inch black Peau de Crepe, Crepe de Chine, black Taffetas, Peau de Soie, extra heavy Duchess; 36 inch extra heavy Peau de Soie, black Taffeta and black Satin and 44 inch handsome black Grenadines with satin dots and figures.

TUESDAY, NOVEMBER 10, 1903.

THE GAS QUESTION.

H. H. Hosford and Editor Bower, of Buchanan, were here today looking into the merits and demerits of artificial gas, as applied to lighting and heating purposes. And if the gentlemen looked the matter up thoroughly, they found that of the 63 business houses on Main street in this city, all but 12 are consumers of gas; that there are 29 who use gas exclusively and but 12 who use electric lights exclusively, the others using both gas and electricity.

And if Messrs. Hosford and Bower made the rounds in the residence districts, they heard words of praise for gas on every hand. By its use every home is benefited, it being the most economical kind of fuel, as well as the most convenient and desirable. Gas is clean and absolutely safe. Only last night the Bigsby House, which was the leading hotel at Cassopolis, was destroyed by fire as the result of the explosion of a gasoline stove, and scarcely a day passes but we encounter reports of gasoline explosions in the newspapers.

A gas system in Buchanan would directly benefit every resident of the place and would be of immense value to the village as a whole. And when it comes to street lighting, many of the eastern cities are adopting gas lighting on many of the finest streets in preference to electric lights. And gas is far and away cheaper than electric lights.

The above article appeared in the Niles Star of yesterday. A very few persons will see it in the Star, but those who were responsible for its publication will persistently circulate it and endeavor to put me as a partisan in the controversy about lights. I want to say very decidedly that the above article is false from first to last, as far as I am concerned.

As I boarded the Michigan Central yesterday morning I saw Mr. Hosford with others from Buchanan boarding the train. He sat on the opposite side of the car from me and was in conversation with Dr. Gar-

land and Mr. Bacon an attorney from Niles. As I got from the car I asked him if he was going down town and if so we would walk together, for I always prefer good company to going alone. He assented and together we walked down town till we reached the block below the P. O. where he left me, and that is all the time we spent together in Niles. We never went in to any business place or spoke to any one about gas, but since I have been dragged into the gas business I will have a word to say.

I believe that it is wise for Buchanan to look carefully into the matter of fuel as well as light. From all I can learn without any special investigation I believe that gas will be a very desirable fuel and think it would be wise to have it in Buchanan—but if it is wise to have it in Buchanan and it will be universally used why should we be dependent upon another town for it? Why not have the plant in Buchanan? There are many good reasons why the plant ought to be in our own town and not in another. Do we expect to grow? If we do, it will not be long till the demand will be greater than in the start, if it is as good as it is said to be, then our difficulties will begin for it will not pay a second company to invest in its manufacture and we will be at the mercy of an individual.

The complaint is, not that electricity is not all right, but that we are at the mercy of an individual; another reason is that we ought to have pride enough to be independent of our neighbors who will soon be, and are now, strong competitors. Every dollar paid for the manufacture and maintaining the plant and lines will go out of Buchanan, as well as every dollar for stoves and consumption of gas.

People of Buchanan, you want to stop and think. There are many things that cannot be foreseen that will arise which will possibly cause many a regret for hasty action. Let us have gas in Buchanan if it is good, and we believe it is, but let the industry belong to Buchanan. As for the lights, let us be very careful, if we are to have gas, the lights can be a secondary consideration. We doubt very much if Mr. Parker will pipe gas to Buchanan without some consideration. People, do you not see that if he should get from the village the contract to light the streets, he would have a consideration? We doubt if he will pipe gas to Buchanan should he not get the contract for lighting.

People of Buchanan see your village council and request them to go

AGED MAN DEAD.

Titus T. French Of Cassopolis Buried In Buchanan

This afternoon at 1 o'clock there was held at the home of J. E. French, the funeral of his oldest brother, Titus Thayer French, who died on Sunday from the infirmities of old age. The services were conducted by Rev. W. D. Cole.

Mr. French was born Nov. 24, 1814, in Warren Co., New York, and thus lacked sixteen days of being 89 years old.

For many years he resided in Buchanan and was a member of the Presbyterian church here for over forty years. He was a farmer, living with his brother Simon French on the prairie, for a number of years, and after Mr. Simon French's death about 15 years ago, went to live with his brother D. L. French of Cassopolis. His only remaining sister Mrs. M. Fisk also lives in Cassopolis. Messrs. Willard and H. C. French are nephews of the deceased.

The interment will be at Howe cemetery, where his parents are buried.

EXCITING RACE

Between The Interurban Electric Car And A Canine.

The passengers on the Electric Interurban car leaving Niles for South Bend Monday at 10:30 a. m. enjoyed a spirited race between the car and a plucky dog.

Shortly after crossing the Big Four R. R. passengers on the eastside noticed a dog running with the car in a small wood by the roadside and as the car passed the wood the dog continued his running through the fields keeping up with the car which was making splendid time until he came to a fence with several rows of barbed wire on top. He took in the situation without stopping his speed, and quickly saw a place to get through between the rails; the effort cost some time and he lost on the car, but by renewed exertion he again kept abreast of the car amid the applause of the passengers. But alas! another fence came in sight; again the wiry dog got through it but this time his loss could not be made up and the race was awarded to his larger and more favorably equipped competitor—the interurban car.

The race was exceedingly interesting and afforded considerable entertainment for those on board the car.

Eight O'clock Closing.

We, the undersigned, agree to close our places of business at 8 p. m. commencing Wednesday evening Nov. 11, until May 1, 1904, except Saturdays and from Dec. 21, 1903 to Jan. 1 1904:

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanMetre of Shepherdstown, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by W. N. Brodrick, druggist. Trial bottle free. Regular size 50c, \$1.00.

COLOMBIA IS TIED UP

Will Not Be Permitted to Embark Troops from Any Port for the Isthmus.

FOR THE GENERAL GOOD, THIS Foreign Intervener Told That He Is Too Late Now.

Washington, Nov. 10. — Embarking of Colombian troops from Buena Ventura or any other Colombian port for the isthmus will not be permitted by the Washington government, and United States warships will be ordered to any port upon receipt of an intimation that Colombian troops will attempt to sail for the isthmus. The Washington government holds that this policy is in the interest of the general good.

Report of Foreign Intervention.
 Washington, Nov. 10. — Reports are current here to the effect that an effort is being made whereby negotiations for a Panama canal treaty may yet be resumed with Colombia, notwithstanding the defection of the department of Panama and the establishment of an independent government there. These had as their basis the restoration by the United States of the status quo on the isthmus as affairs existed ten days ago, following which Colombia would immediately take up the question of a canal treaty with a view to a speedy ratification of such a convention. It was said that unofficial representations of this tenor had come from an outside nation which is vitally interested in the question, and that an official of the state department had been approached on the subject.

Too Late to Consider the Same.
 That something along this line was done, it is said, was admitted by a department official, but that the intimation had been conveyed in reply that the time for interposition of friendly offices of this character had passed, and that the United States could not consider such an offer. It was stated positively by a cabinet officer that no official overtures of the character referred to had been made. As has been stated heretofore repeatedly the Hay-Herran convention is dead, irrevocably so, and any negotiations for a canal treaty must be on the basis of a new convention.

Looks Like Colombia Would Yield.
 The reported appointment by Colombia of General Reyes as a peace commissioner to the republic of Panama as announced in the Associated Press dispatches, is viewed with some interest by the officials here, as it is in accord with the suggestion to the Colombian government contained in the dispatch to Minister Beaupre commending the peaceful and equitable settlement of all questions at issue between Colombia and Panama. The United States, it is stated, will lend its good offices to bring about a meeting of General Reyes and the Panama officials, and will do everything in its power to hasten a satisfactory adjustment of the questions brought forward as a result of the recent developments on the isthmus.

No Answer to the Protest Yet.
 Herran, the Colombian charge, said he was still without any advices from his government, although he keeps the officials at Bogota promptly advised of everything that is transpiring. As yet he has not received any reply to his protest against the attitude of the United States government in isthmian affairs.

MORGAN'S REPLY TO VARILLA

Representatives of the Panama Seceders Plead with the Alabamian.

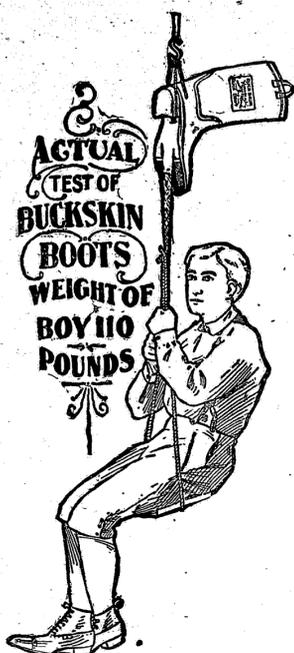

Washington, Nov. 10.—Philippe Varilla, the envoy of Panama, was called to New York on important business and his presentation at the state department in consequence has been postponed temporarily. The minister left Washington with the satisfaction of having been assured that he is to be duly recognized as the minister plenipotentiary of the new government, with full powers.

He wrote a letter to Senator Morgan of Alabama, complimenting him for his persistent efforts to obtain an isthmus canal, and pleading with him to come over to the Panama seceders and help them in their efforts to secure the big ditch. Morgan admitted that he had received a letter from Varilla, and in reference to the communication said: "I have not discussed the letter in public, and the fact that it was written came from another source. The letter was signed by Mr. Varilla, who professed to be the minister plenipotentiary of the republic of Panama. The writer made me a flattering proposal to get in line by supporting the new republic, but when I take advice it will come from American citizens and not from a Frenchman who is interested in the Panama canal."

Hobson's Sister Robbed.
 New York, Nov. 10.—Captain R. P. Hobson has lodged a complaint in the police court that his sister, who is attending an elder sister at a sanatorium in this city, has been robbed of a purse containing \$88 in cash and a medal belonging to the captain that is worth \$1,000, and much more to the captain, as it was a present from a southern society.

COME IN AND SEE

How we have prepared ourselves to insure foot comfort for this winter. Nearly every body gives more attention to this subject, at this time, than at any other. Knowing this we've done our best, we've bought that which experience has taught us will be most in demand. We've stocked up on those lines which are always the most in favor, and stand behind a stock which in every particular must be regarded as ready for wet and cold.

Foreclosure Sale.

Default having been made in the conditions of a certain mortgage, dated the ninth day of May A. D. 1892, executed by Henry Lingo and Amy A. Lingo, his wife, of Oronoko Township, county of Berrien, state of Michigan, to George Smith of the same place, which mortgage was duly recorded in the office of the register of deeds of said county of Berrien, on the 12th day of May A. D. 1892, in Liber 55 of Mortgages on page 261; which mortgage was, on the 27th day of December, A. D. 1892, duly assigned by Joshua Fenwick, executor of the estate of said George Smith, deceased, to Judith A. Smith, then of the said township and county, which assignment was duly recorded in the office of the register of deeds of said county on the 18th day of August, A. D. 1903, in Liber 59 of Mortgages, on page 169; on which mortgage there is claimed to be due on the date of this notice the sum of nine hundred twenty dollars and nineteen cents, and no suit or proceeding at law having been instituted to recover the debt secured by said mortgage or any part thereof.

Therefore by virtue of the power of sale contained in said mortgage and of the statute in such case made and provided.

Notice is hereby given that on the 23rd day of November A. D. 1903 at one o'clock in the afternoon, for the purpose of foreclosing said mortgage, the premises therein described, or so much thereof as may be necessary to pay the amount due on said mortgage as above stated with interest to accrue from the date hereof to the date of sale hereat after seven per cent per annum and the legal costs of this foreclosure, will be sold at public auction to the highest bidder, at the front door of the court house in the city of St. Joseph, in said county of Berrien; said premises being situated in the township of Oronoko, county of Berrien, state of Michigan, and described as follows: All that part of the west half of the west half of the north-west quarter of section twenty-nine (29) in town six (6) south range eighteen (18) west lying sixth of the center of road containing eight acres of land, more or less.

Dated August 23, 1903.

MONEY TO LOAN on farms at low interest long time with prepayment privilege. J. W. BEISTLE, Buchanan, Mich.

First publication Nov. 6, 1903.

Estate of Eleanor S. Ingalls, Deceased.

STATE OF MICHIGAN, the Probate Court for the County of Berrien.

At a session of said Court, held at the Probate Office in the City of St. Joseph in said County, on the 3rd day of November A. D. 1903.

Present: Hon. Frank H. Ellsworth, Judge of Probate.

In the matter of the estate of Eleanor S. Ingalls, deceased, James Ingalls, having filed in said Court his petition praying that a certain instrument in writing, purporting to be the last will and testament of said deceased, now on file in said court be admitted to probate.

It is ordered, that the 30th day of November A. D. 1903, at ten o'clock in the forenoon, at said probate office, he and is hereby appointed for hearing said petition:

It is further ordered, that public notice thereof be given by publication of a copy of this order for three successive weeks previous to said day of hearing, in the Buchanan Record, a newspaper printed and circulated in said county.

(A true copy) FRANK H. ELLSWORTH, Register of Probate.

Last publication Nov. 20, 1903.

ROOSEVELT'S PLEA

Message Urging the Full Ratification of the Cuban Reciprocity Treaty.

HE EXPLAINS THE SITUATION

Why Exactions Were Made of the Young Republic.

Her Relation to the United States—Features of the Opening of Congress—Stacks of Flowers.

Washington, Nov. 10.—The president's message was sent to congress today, and read to the members. It is as follows:

"To the Senate and House of Representatives: I have convened the congress that it may consider the legislation necessary to put into operation the commercial treaty with Cuba, which was ratified by the senate at its last session and subsequently by the Cuban government. I deem such legislation demanded not only by our interest but by our honor. We cannot with propriety abandon the course; upon which we have so wisely embarked.

Explains the situation.

"When the acceptance of the Platt amendment was required from Cuba by action of the congress of the United States this government thereby definitely committed itself to the policy of treating Cuba as occupying a unique position as regards this country. It was provided that when the island became a free and independent republic she should stand in such close relations with us as in certain respects to come within our system of international policy, and it necessarily followed that she must also to a certain degree become included within the lines of our economic policy.

Why Limitations Were Imposed.

"Situating as Cuba is it would not be possible for this country to permit the strategic abuse of the plan by any foreign military power. It is for this reason that certain limitations have been imposed upon her financial policy and that naval stations have been conceded by her to the United States. The negotiations as to the details of these naval stations are on the eve of completion. They are so situated as to prevent any idea that there is the intention ever to use them against Cuba, or otherwise than for the protection of Cuba from the assaults of foreign foes, and for the better safeguarding of American interests in the waters south of us.

Interests Will Further Increase.

"These interests have been largely increased by the consequences of the war with Spain, and will be still further increased by the building of the isthmian canal. They are both military and economic. The granting to us by Cuba of the naval stations above alluded to is of the utmost importance from a military standpoint, and is proof of the good faith with which Cuba is treating us. Cuba has made great progress since her independence was established. She has advanced steadily in every way. She already stands high among her sister republics of the New World. She is loyally observing her obligations to us, and she is entitled to like treatment by us.

ADVANTAGES OF THE TREATY

No United States Interest Is Sacrificed and a Big Market Is Secured.

"The treaty submitted to you for approval secures to the United States economic advantages as great as those given to Cuba. Not an American interest is sacrificed. By the treaty a large Cuban market is secured to our producers. It is a market which lies at our doors, which is already large, which is capable of great expansion, and which is especially important to the development of our export trade. It would be indeed short-sighted for us to refuse to take advantage of such opportunity and to force Cuba into making arrangements with other countries to our disadvantage.

"This reciprocity treaty stands by itself. It is demanded on considerations of broad national policy as well as by our economic interest. It will do harm to no industry. It will benefit many industries. It is in the interest of our people as a whole, both because of its importance from the broad standpoint of international policy, and because economically it intimately concerns us to develop and secure the rich Cuban market for our farmers, artisans, merchants and manufacturers.

"Finally it is desirable as a guaranty of the good faith of our nation towards her young sister republic to the south, whose welfare must ever be closely bound with ours. We gave her liberty. We are knit to her by the memories of the blood and the courage of our soldiers who fought for her in war; by the memories of the wisdom and integrity of our administrators who saved her in peace, and who started her so well on the difficult path of self-government. We must help her onward and upward; and in helping her we shall help ourselves.

"The foregoing considerations caused the negotiation of the treaty with Cuba and its ratification by the senate. They now with equal force support the legislation by the congress which by the terms of the treaty is necessary to render it operative. A failure to enact such legislation would come perilously near a repudiation of the pledged faith of the nation.

"I transmit herewith the treaty, as amended by the senate and ratified by the Cuban government.

"THEODORE ROOSEVELT."
"White House, Nov. 10, 1903."

Punishment for Assassins.

Washington, Nov. 10.—A bill prescribing the death penalty for the crime of killing the president of the United States, the vice president, or ambassadors or ministers of foreign countries accredited to the United States has been introduced in the house.

FEDERATION OF LABOR

Annual Convention Meets at Boston—Gompers Delivers His Address—Big Gain in Membership.

Boston, Nov. 10.—The twenty-third annual convention of the American Federation of Labor has opened in this city and will continue probably for at least fourteen days. President Samuel Gompers delivered his annual address to the delegates and Secretary Frank Morrison and Treasurer John B. Lennon presented their annual statements. About 450 delegates were present when the session was called to order.

President Gompers' address took up most of the afternoon. It showed that the gain in membership of the affiliated international unions and of the American Federation of Labor during the last year had been 442,100. Gompers pointed out that the grave danger which confronted the movement was the internecine strike due to the conflicting claims of trade jurisdiction. Gompers' condemned such anti-trust legislation as was secretly against labor, and urged eternal vigilance with respect to legislation. The treasurer's report showed the income of the year was \$247,800, the expenditures \$196,015.

MAY LOCKOUT 30,000 MEN

Dispute Over a Fine for Men Who Refused to Strike Bodes Trouble at Cincinnati.

Cincinnati, Nov. 10.—A lockout threatening to affect 30,000 men in Cincinnati is imminent on account of trouble between the journeymen plumbers' union No. 57 and the Master Plumbers' association. The union at a meeting tonight will vote on a proposition to impose a fine of \$25 each on all the employes of five shops who refused to strike last May when a struggle was in progress between the master plumbers and the journeymen.

FEMALE WEAKNESS

543 1-2 Congress St. PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Wilhelmina Brown
Treasurer, Portland Economic League

WINE OF GARDUI

Periodical headaches tell of female weakness. Wine of Gardui cures permanently nineteen out of every twenty cases of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Gardui now. Remember that headaches mean female weakness. Secure a \$1.00 bottle of Wine of Gardui today.

NO MERCY FOR BAKER

Miss Adams Pushes Her Judgment for the \$30,000 Awarded to Her.

LANT SALSURYS CASE AGAIN

Also Eli Sutton's—Climax of a Romance That Began Thirty-Five Years Ago.

Grand Rapids, Mich., Nov. 10.—Judge Wolcott, of the circuit court, has issued an order to Jesse Orton and D. J. Hinkley, of Detroit, attorneys for Miss Henrietta Adams in her \$50,000 breach-of-promise suit, rescinding the stay of proceedings for twenty days and giving the plaintiff the right to immediately take out an execution and levy on Baker's property for the \$30,000 verdict awarded by the jury. This order, however, does not give the plaintiff power to sell the property until Nov. 19, which is the date of the expiration of the twenty-day stay of proceedings.

Recalls Lawyer Hinkley's Promise. This action followed arguments made by counsel for both parties. Miss Adams' lawyers pointed out that Baker had mortgaged some of his property, and that his action was the beginning of an effort to avoid paying the judgment. Baker's attorneys argued that he had a right to meet legitimate expenses and that he had not attempted to avoid the judgment. Miss Adams' attorneys threaten to put Baker in jail and keep him there until he pays. In this connection, Attorney Hinkley's closing sentence in his address to the jury is recalled. "You give the plaintiff in this case a verdict," he said, "and we'll see that he pays every dollar of it before he dies."

Salsbury Ordered for Sentence. — Grand Rapids, Mich., Nov. 10.—Lant K. Salsbury has been ordered by Judge Wolcott to appear next Friday at 9 a. m. for sentence. Salsbury renewed his bail of \$10,000. The defendant looked fairly well, but said he was almost too weak to stand up. His appearance in the city hall, in which his office was situated when he was city attorney, was the occasion of general handshaking among the politicians and officials. They surrounded him, and for an hour he was busy shaking hands, as though he was some battle-scarred hero who had returned from performing great deeds of valor. He refused to say anything for publication.

WEDDED TO HER FIRST LOVE

Widow of General G. W. Harrington Becomes the Wife of Her School Days Sweetheart.

Kalamazoo, Mich., Nov. 10.—A romance which had its beginning more than thirty-five years ago, reached a pretty finale when the widow of General G. W. Harrington, long well-known in Michigan, and J. M. Killian, a leading citizen of Allegan, were married in the residence of the bride's son, George S. The ceremony was performed by Rev. Roger H. Peters, rector of St. Luke's Episcopal church. The bride, while attending Michigan seminary a little more than thirty-five years ago, met Killian, who then lived in Kalamazoo. She was Fannie E. Sherwood; her age was 16.

Her exceedingly young affections were soon attracted to Killian, and the youngsters became engaged. The bride's father, Thomas Sherwood, strenuously opposed their marriage, and prevented it, although the two kept up a correspondence for a time. Then came a lovers' quarrel, and they gave each other up. Miss Sherwood met General Harrington, who had a fine civil war record, and became his wife. The son of this union is now a prominent business man, with a child of his own. General Harrington died about seven years ago.

Uncle Sam Seeks and Injunction.

Marquette, Mich., Nov. 10.—A bill of complaint prepared by United States District Attorney Covell has been filed in the federal court here, asking a perpetual injunction to restrain all state authorities from interfering with United States agents in their fishing on the great lakes. The United States authorities claim that an act of congress authorizes them to disregard the law, custom or usage of any state in regard to taking fish.

Sutton Case Is Up Again.

Lansing, Mich., Nov. 10.—The trial of John Holbrook, charged with attempting to bribe jurors drawn in the case of Eli R. Sutton, has begun in the circuit court before Judge Wisner. Connected as it is with Sutton's return from Mexico to swear against Holbrook under promise of immunity, the case has sensational possibilities.

Decision Against the Company.

Lansing, Mich., Nov. 10.—The Michigan supreme court has affirmed the decision of the recorder's court of the city of Detroit ordering the Detroit United railway to comply with a city ordinance requiring the company to equip its cars with power brakes. The trolley line management combatted the ordinance.

Varsity Cross Country Run.

Ann Arbor, Mich., Nov. 10.—The cross country runners of the university ran from Ann Arbor to Ypsilanti, a distance of ten miles. A tally-ho accompanied them, carrying their clothes and ready to pick up the exhausted ones. The men wore only gym suits, their arms and legs being bare.

COLORADO'S MINE STRIKE

Ten Thousand Men Out and Being Sent to Other Parts of the Country.

Denver, Colo., Nov. 10.—More than 10,000 coal miners in Colorado have gone on strike for an eight-hour day, increased wages and other concessions. The strike was ordered by the national executive officers of the United Mine Workers after the coal companies refused to confer with union representatives concerning the demands of the men.

It will be the policy of the United Mine Workers to depopulate the various coal districts by sending the idle men and their families to Illinois, Indiana Territory, Missouri, Iowa and other states where work has been secured for them, and hundreds of the strikers are on their way to new fields.

General Manager James F. Welborn, of the Colorado Fuel and iron company, announced that the company would continue to operate its mines and the public need have no fear of a coal famine, in spite of which one ton of coal cannot be secured for immediate delivery.

NOW HERE COMES SAN DOMINGO

Uncle Sam Seems to Have Her on His Hands—Gunboat Hurries Off to the Island.

London, Nov. 10.—News from San Domingo by way of Paris confirms a report of a rupture in the relations between the United States government and that of Santo Domingo. The Dominican gunboat Independencia has bombarded and damaged the town of Macoris.

Savannah, Ga., Nov. 10.—Commander Metz, of the United States gunboat Newport, received peremptory orders to coal at once and sail for Puerto Plata, San Domingo. The coaling was rushed and at 9 p. m. the vessel steamed down the river, proceeding immediately to sea. Commander Metz refused to discuss his orders, but said they were urgent.

Will Be the Death of Five.

Charleston, W. Va., Nov. 10.—Three men were killed outright and two fatally injured by the breaking of a cable on an incline at the mines of the Glen Ferris Mining company at Kanawha Falls. The dead are John Williamson, Frank Walker and Joseph Flint; the injured are George Gilson and Henry Wilson.

Condition of Frank P. Sargent.

Washington, Nov. 10.—The condition of immigrant Commissioner Frank P. Sargent, who had an attack of paralysis Saturday, is hardly changed, though he is not yet out of danger. There was a consultation of physicians and the statement was made subsequently that satisfactory progress in the case is being made.

Tie-Up May Yet Be Avoided.

Chicago, Nov. 10.—Arbitration of the differences between the Chicago City railway and its men was offered to General Manager McCulloch at a conference with representatives of the union, and was tentatively accepted by him, subject to action by the directors of the company Saturday.

Horrible Tragedy at Saginaw.

Saginaw, Mich., Nov. 10.—Dr. W. E. Light, a prominent dentist of this city, committed suicide at his home, 813 South Jefferson avenue, after fatally shooting his wife and daughter Ruby.

Tribesmen Up Against the British.

Berlin, Nov. 10.—The German consul at Cape Town telegraphs that the Bondolzwarts tribesmen have invaded Cape Colony, and have had an encounter with the Cape police.

"Kid" Broad Defeats Callahan.

New Orleans, Nov. 10.—"Kid" Broad defeated Callahan in a ten-round bout before the Southern Athletic club. The decision was on points.

THE WEATHER

Following is the official weather forecast up to 8 o'clock tonight: Illinois and Indiana—Generally fair; brisk southwest to west winds. Lower Michigan—Cooler in north and west portions; brisk and high southwest, shifting to northwest winds. Wisconsin—Fair, with cooler in east portion; brisk southwest to west winds. Iowa—Generally fair; northwest winds becoming variable.

HAIRY VETCH.

Seed Growing Profitable—Necessity of Inoculation on Some Lands.

The following information relating to the growing of the hairy vetch for seed is furnished by the bureau of plant industry of the United States department of agriculture, through its seed laboratory, in response to numerous inquiries on the subject:

The cultivation of hairy vetch has increased rapidly in the last few years and would be much more common if the seed was raised in this country, and especially on the farms where it is to be sown.

Practically all of the seed now used in the United States is imported from Europe. During the fiscal year ended June 30, 1903, over 80,000 pounds of this seed was brought in.

Experiments have been carried on by the seed laboratory of the bureau for two years in St. Mary's county, Md., and the past year in Wayne county, O., to determine the practicability of growing the seed in this country. From the results of these trials it is evident that the seed can be produced at a profit over a wide area of the United States.

Great difficulty has been experienced in harvesting the seed when grown alone. It ripens very unevenly and if left until most of the seed is mature it becomes matted on the ground and shells and molds badly. It was found that by sowing with rye a sufficient support was furnished to keep it off the ground and allow it to be cut easily with a mowing machine. Rye seems best adapted as a supporting crop on account of the time of ripening and the stiff straw.

The best results were obtained with seeding from one-half to three-fourths bushels of vetch and one-half bushel of rye to the acre, sowing from the middle to the last of September.

The crop should be cut about the time the last pods are formed and the vines are getting dry. The cutting is done with an ordinary mowing machine, after which the vines and straw should be put in piles and allowed to dry. The thrashing can be done with an ordinary grain thrashing machine.

The four acres in Ohio yielded 13 bushels of vetch and 61 bushels of rye. In Maryland the storms knocked the rye down so it did not fill well, but the four acres yielded 18 bushels of vetch and 8 bushels of rye. Reports from Mississippi show a yield of from 5 to 7 bushels per acre in that state.

In many instances hairy vetch has been sown and proved a failure under ordinary cultivation. As it is adapted to a considerable variety of soils and in a wide area it is certain that the failure in most instances is due to the absence of the organism which produces the root tubercles and has the property of fixing the free nitrogen in the air, making it available for plant food.

Unless hairy vetch has already been grown successfully on a piece of ground it should be inoculated to insure success. Inoculating material will be furnished by, and all inquiries concerning it should be addressed to, the bureau of plant industry, United States department of agriculture, Washington. The department has no seed of hairy vetch for distribution.

Making High Grade Cider Vinegar.

In making cider for vinegar it is my plan to use all varieties of apples, those ripening in October being preferable, as they contain more sugar, consequently the resulting cider and vinegar will be of a higher grade than when made from early ripening kinds. If you have plenty of room, put the cider away in barrels in some airy building, leaving the bung out. Keep the building moderately warm during the winter, using a little fire during the coldest days. This heat will retain the vinegar making process. In a year and a half from the time the cider was put in the barrels you should have excellent vinegar. When the vinegar is as strong as you want it, rack out into other vessels, then rinse the barrels, and they can be used again. The demand for cider vinegar is good now, as a number of states have pure food laws regulating the sale of vinegar as well as other food products.—Cor. New England Homestead.

The Foxtail Pest.

The foxtail pest is certainly spreading and has now invaded every cultivated farm in the country. The Denver Field and Farm has a scheme for exterminating it which it says works admirably and seems to be the most practical of anything yet tried. In the spring, as soon as the frost is out of the ground, the meadows are disk harrowed and the ground thickly sowed with redtop or bent grass. This grass has slender stalks and but few grass blades and is consequently not so desirable for hay as other varieties, but is invariably successful in crowding out the foxtail wherever planted under favorable conditions, accomplishing the extermination in one season. Redtop can be planted only on ground that can be well irrigated, for it is a wet grass and will not grow in dry situations.

Political Economy.

"Children," asked the school committee man, "what is political economy?"

"Political economy," answered the precocious son of the district boss, "is getting men to vote for you as cheap as you can."—Green Bag.

Hardened.

Pretty Nicee—Uncle Henry, I think every old bachelor ought to be taxed at least \$500 a year.

Bachelor Uncle—Well, Myrtle, that would be cheaper than marrying.—Chicago Tribune.

STYLISH SUITS AND
OVERCOATS

GREAT OVERSTOCK SALE.

Foremost clothing manufacturers suffer most on account of the backward season. We were quick to take advantage of the situation and have secured full stocks of choicest winter clothing, a full third under regular prices. It's our policy to share good things with our customers. We're going to see to it that this great overstock sale now in progress surpasses anything that has ever occurred in this well known section.

Every man who has failed to secure one of the new lapel double breasted suits or roomy belt overcoats that are so much in demand, now has the opportunity.

Men's Suits and Overcoats.

Extreme long, full cut, belt back overcoats and extra long oxfords and black English vicunas.

Many richly lined, double and single breasted suits of finest plain and fancy worsteds and swellest Scotch tweeds.

\$20, \$18, \$15, \$12, \$10.
