WAS VERY HARMONIOUS

The Buchanan Township Caucus Held Saturday,

ENDORSE MR. I. L. H. DODD

For the Nomination of Register of Deeds.

The Republican caucus for Buchanan township was held Saturday afternoon in Rough's opera house.

At 2:30 o'clock the meeting was called to order by A. A. Worthington. On motion he was made chairman of the meeting, and O. P. Woodworth secretary.

The object of the caucus was the selection of eighteen delegates to attend the county nominating convention to be held in Benton Harbor Harbor tomorrow.

Geo. W. Noble, Frank Lamb and J. P. Beistle were appointed as tellers, and after the officers of the caucus were sworn, the following were elected as delegates:

H. F. Kingery, Frank Lamb, J. P. Beistle, Wm. D. Sparks, Wm. Broccus, Herbert Batchelor, Elmer Clark, O. S. Chapman, J. M. Rouch, Geo. Seales, Jos. Clout, Chas. F. Pears, Geo. W. Noble, O. P. Woodworth, Amos C. Spaulding, C. D. Kent, J. E. French, and Geo. Hanley.

After the delegates were elected the secretary read the following resolution which was adopted unanimously:

In-as-much as Buchanan has a candidate in the person of Mr. I. L. H. Dodd for the nomination of Register of Deeds on the Republican ticket, and in-as-much as Buchanan with her large Republican majority, was not represented upon the county ticket four years ago,

THEREFORE BE IT RESOLVED, that the delegates selected from Buchanan township to the county convention, to be held in the city of Benton Harbor Wednesday, June 8, are hereby instructed to use all fair and honorable means to secure the nomination of Mr. Dodd for Register of Deeds.

Sunday Wedding.

At the home of Mr. and Mrs. E. E. Glidden a very pleasant matrimonial affair occurred Sunday June 5, when then daughter, Miss Vera, became the wife of Mr. Drayton E. Fraser, of Ellis, Kansas.

At promptly 3 p. m. the happy couple, attended by Mr. L. F. Nall, of Chicago, and Miss Agnes Slocum, of Buchanan, marched into the parlor, beautifully decorated for the occasion, to the wedding march, played by Miss Cecil Raymond, where in the presence of the relatives and a few intimate friends, Rev. Chas. A. Shook spoke the words that made them husband and wife. The bride was dressed in white silk mull and carried bridal roses.

Following the ceremony Mrs. Baird sang some very appropriate selections, and refreshments were served. Mr. and Mrs. Fraser left on the evening train for Chicago and after June 15 expect to be at home at Ellis, Kansas, where Mr. Fraser is employed as telegraph operator.

ADDRESS TO GRADUATES

At the Presbyterian Church Sunday Night

WAS LARGELY ATTENDED

Rev. W. J. Tarrant Gave an Excellent Sermon, Which Was Well Received.

Sunday evening the Presbyterian church was filled to overflowing with those interested in the graduating class of 1904, and the welfare of the public schools of Buchanan.

The meeting opened with a song by a chorus choir, following which, Rev. W. J. Douglass offered prayer, singing by the congregation, the reading of the scripture by Rev. J. A. Halmhuber, and an anthem by the choir, then Rev. W. J. Tarrant took charge of the meeting, delivering an excellent sermon.

Rev. Tarrant took his text from First John, third chapter, second verse; "It doeth not yet appear what we shall be," and brought forth the thought with great force that no matter what one undertakes in life they should use every effort and endeavor to become proficient in that undertaking, for "it doeth not yet appear what we shall be."

The sermon was a good one and much appreciated by those who were fortunate enough to hear it.

Following the address the choir sang and the congregation was dismissed by Rev. Chas. Shook. The church was very prettily decorated with the class colors, pale blue and white, and with ferns.

DICKIE FOR GOVERNOR.

Prohibitionists Name a Full State Ticket.

Lansing, Mich., June 8—After much dawdling and unnecessary talking, the state prohibition convention yesterday afternoon nominated a state ticket, selected sixty-three delegates to the national prohibition convention to be held in Indianapolis, and named a state committee. The ticket nominated is as follows:

Governor—Samuel Dickie, Albion.
Lieutenant Governor—Trowbridge Johns, Houghton.
Secretary of State—Chas. Evans, Greenville.

Treasurer—George Candee, Whiteford.

Auditor General—Brent Harding, Bay.

Commissioner of the State Land Office—Jasper M. Smelzer, Cass.

Attorney General—Walter S. Westerman, Adrian.

Superintendent of Public Instruction—Frederick S. Goodrick, Albion.

Member of the State Board of Education—Alfred Lowther, Detroit.

The following delegates at large were elected to the national convention: John Russell, New Haven; F. W. Corbett, Adrian; Samuel Dickie, Albion; W. A. Taylor, Bellevue; J. K. Johnson, Grand Rapids; L. N. Ives, Mason; N. Norton Clark, Adrian; and also fifty-eight district delegates.

A Great Sporting News Journal

The illustrated special sporting section of the Sunday Chicago Record-Herald thoroughly deserves the attention of everyone interested in sporting news. It is always beautifully illustrated and imbraces four full pages, covering with the thoroughness that satisfies to the utmost the whole realm of sports. Baseball news, racing news, bowling news, pugilistic news, golf news, yachting news—all the sporting news is given with the greatest degree of fullness and interest. The sporting page of the daily issues is also exceptionally popular—a self-evident fact to those who have noted the general vogue of the Chicago Record-Herald among sporting men.

Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the Kidneys and Bowels, stimulate the Liver, and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c. and that is returned if it don't give perfect satisfaction. Guaranteed by W. N. Brodrick Druggist.

Excursions to the Circus.
Special Excursion rates on all lines of travel have been arranged for by the management of Ringling Brothers' World's Greatest Shows, and those who wish to go to South Bend, June 14, where this great circus exhibits, can do so at very little expense. This will be the only point in this vicinity where the show will exhibit this season, and no one should miss the opportunity to witness it.

Ringling Brothers' circus has been the leading arenic exhibition of America for years, but the show has never been permitted to rest upon its reputation. Although it long ago passed the point of competition, every season sees a greater and grander show. This year's performance is entirely new, and entails the combined efforts of 875 wonderful artists in the equestrian, gymnastic, equilibristic, acrobatic and aerial line, together with forty famous clowns and hundreds of lesser lights. Six hundred fifty horses are used and a marvelous trained animal department is presented. The circus this season is greatly enlarged by the spectacular production of Jerusalem and the Crusades, a pantomimic presentation of the well known and beautiful historical narrative of the Crusaders.

The vast menagerie has among hundreds of features the only living pair of giraffes, the first baby elephant successfully bred and reared in America and the only rhinoceros in captivity. There is a gorgeous revival of the Roman hippodrome races, and many other stupendous features in this great circus.

Circus day opens with a brilliant street parade, three miles in length. Don't fail to see it.

Cass County Pioneer Picnic.

The 31st annual reunion and picnic of the Cass County Pioneer Society will be held on the Fair Ground at Cassopolis, Wednesday, June 15, 1904. Gov. Bliss has been invited to be present. The Rev. Nimrod F. Jenkins, now of Mason, Ingham county, whose grandfather, Baldwin Jenkins, in 1824 planted the first field of corn in Cass County, and Judge O. W. Coolidge, of Niles, a native of Cass County will be present and address the pioneers. The presence of yourself and family is respectfully solicited.

Very respectfully,

L. H. GLOVER, Sec'y.

WOODMEN MEMORIAL DAY

Large Number of the Members of Buchanan Camp Participate in the Exercises.

Last Sunday was the day set aside by the Modern Woodmen, to be observed as Memorial Day throughout the entire jurisdiction of the order.

Buchanan Camp has buried nine of its members and there is a neighbor from Mishawaka, Ind., camp, Wm. Drago, making ten graves to be decorated.

The procession composed of about sixty members headed by the Buchanan Cornet Band, started from the Woodman hall at promptly 8 o'clock and marched to Oak Ridge Cemetery, where the graves of the departed neighbors were decorated while the band played a dirge.

After the decoration ceremony the Woodmen and a large audience of citizens gathered on the soldier's lot, where the exercises of the day were held. Mr. I. L. H. Dodd, Venerable Consul of the camp, read the Woodman Memorial service, after which Rev. W. J. Douglass offered prayer, and Mr. A. A. Worthington delivered a short but extremely interesting and appropriate address. The line of march was then reformed and returned to town.

New Race Track For Niles.

Niles is to have a new race track. Basom Parker, the new gas man, who is a good deal of an enthusiast over horses has already commenced the construction of a first class track on his farm in the eastern part of the city, and formerly known as the Carl Fox farm.

The course will lie northeast of the farm house. It will be the regulation oval shape and will be half a mile in extent.

Several teams and a number of men are at work under the supervision of Frank Hatfield.

We are informed that the track is being built by Mr. Parker solely for the purpose of training his own horses but local horsemen are said to be desirous of using it in the proposed race meeting if Mr. Parker consents.—Niles Sun.

A Frightened Horse.

Running like mad down the street dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable Salve handy and there's none as good as Bucklen's Arnica Salve. Burns, Cuts, Sores, Eczema and Piles, disappear quickly under it's soothing effect. 25c. at W. A Pleasant Evening

The Bethany class of the M. E. Sunday school met at the home of their teacher, A. A. Worthington, last night and spent a very pleasant evening.

The time was passed in playing games, the principal of which was that of college field day. The company was divided into four parts representing Harvard, Yale, Princeton and Cornell colleges. Each party going to a different room where the following field events took place, the winners receiving a silver (?) medal. High and Low Jump, Standing Broad Grin and the Discuss Throw. After each college had held its meeting the champions gathered upon the general field, Princeton carrying off the honors, as it also did in the foot ball game, winning the gold cup. 'Tis said however that the foot ball game, like many such games, was mostly all "wind."

Republican State Convention.

To the Republican Electors of the State of Michigan: The State Convention of the Republicans of Michigan is hereby called to meet at the Light Guard Armory in the city of Detroit, Thursday, June 30, 1904, at eleven o'clock in the forenoon, for the purpose of nominating candidates for State offices, (not including, however, candidates for Justice of the Supreme Court), and for the transaction of such other business as may properly come before the Convention.

In accordance with the resolutions of 1876 and 1900, every county will be entitled to one delegate for each five hundred of the total vote cast therein for Governor at the last election in a Presidential year (November, 1900) and one additional delegate for every fraction amounting to three hundred, each organized county being entitled to at least two delegates.

Under the resolutions of 1858, no delegate will be entitled to a seat in the Convention who does not reside

in the county he proposes to represent. The delegates from the several counties in each Congressional District are requested to meet in district caucus at 9:30 o'clock a. m., on the day of the State Convention, and select officers as follows, to be presented to the State Convention for confirmation:

- 1—One Vice-President;
- 2—One Assistant Secretary;
- 3—One member of the committee on "Credentials;"
- 4—One member of the committee on "Permanent Organization and Order of Business;"
- 5—One member of the committee on "Resolutions."

In compliance with the resolutions adopted in Detroit, June 28, 1890, the secretary of each county convention is urged to forward to the Secretary of the State Central Committee at Clare by the earliest mail after the delegates to the State Convention are chosen, a certified list of delegates to the State Convention from his county and the chairman of each county delegation is requested to deliver the credentials of his delegation to the members of the Committee on Credentials chosen at his district caucus.

By order of the Republican State Central Committee.

REPUBLICAN COUNTY COMMITTEE.

Miss Anita L. Fowler of Chicago, was in the city today enroute from Dowagiac to Buchanan. Miss Fowler will return to her home in Chicago tomorrow and will leave there in about a week for New York City, where she expects to return to the stage. Miss Fowler, who is a former well known Niles girl, took the part of "Scollops" in "A Poor Relation," Sol Smith Russel's popular play, for a season and made a decided success of it. Through the influence of Denman Thompson, who was an intimate friend of Miss Fowler's father, the late W. W. Fowler, and who was a well known theatrical manager, Miss Fowler will probably secure a first class engagement for the coming season. Her many Niles friends will watch her career with interest and hope for a bright future for her.—Niles Star.

An Open Letter

Buchanan, Mich.,

June 8, 1904.

To whom it may concern:

The question is frequently ask me why I was not at the funeral of brother Horace or his good wife. In reply to these questions I may say for the satisfaction of all: I have no ill will or unkind feeling against either, never had a brother or sister who were kinder than they were; and so was every one in that family until Sumner, known as H. S. Black, died was buried and taken up, which I did not approve of and so stated.

Since then one in the family said to me what I thought ought not to have been said, and another one said what no respectful one ought to say and what is not fit to put on paper. Since then I have not been in the house, but not for anything brother and wife said or done.

If this is not satisfactorily let them call for the facts. Anything I have said is explainable. I say nothing to any one's back I cannot say face to face. I have pity for those who cannot. I ask no one or Court of Justice to protect me in a wrong.

Those who say and know so much, if they would investigate and know a little more, would hide their face in shame and shut their mouths. Those that the coat fits put it on.

Fight Will be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall, of Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by W. N. Brodrick Drug-gist. Price 50c. and \$1.00. Trial bottles free.

THE UNIVERSAL EXPOSITION

The Achievements of Individuals and Nations Faithfully Recorded by This Encyclopedia of Society.

By FREDERICK J. V. SKIFF, Director of Exhibits, World's Fair.

"The wisdom of all ages is none too great for the world's work." In this single salient sentence, uttered in his famous address at Buffalo in September, 1901, President McKinley described the object and the result of expositions.

A modern universal exposition is a collection of the wisdom and achievements of the world, for the inspection of the world, for the study of its experts, by which they may make comparisons and deduction and develop plans for future improvements and progress. Such a universal exposition might well be called an encyclopedia of society. It constitutes a classified, compact, indexed compendium of the achievements and ideas of society in all phases of its activity, extending to the most material as well as the most refined. It offers illustrations covering the full field of social performance, from the production of the shoes on our feet and the pavement beneath them to a presentation of the rarest and most delicate creations of the brains and hands of men in what are called the fine arts of civilization.

The Universal Exposition in St. Louis in 1904 will be such a social encyclopedia in the most comprehensive and accurate sense. It will give to the world in revised and complete details "a living picture of the artistic and industrial development at which mankind has arrived" and will actually provide "a new starting point from which all men may direct future exertions." It will present for the inspection of specialists in all lines of industrial and social endeavor and for the public an assembly of the best which the world has done and has to show in industry, art and science, and what is very important, it will offer these achievements of society, these trophies of civilization, in a highly selected, accurately classified array.

The creators of the St. Louis Exposition have had the experience of all previous great expositions by which to plan and effect its high organization. The continuous and repeated burden of the message of experience handed down by all expositions has been more perfect, more effective classification and arrangement of exhibits.

The classification of the St. Louis Exposition has been prepared to present a sequential synopsis of the developments that have marked man's progress. On its bases will be assembled the most highly organized exposition the world has yet seen.

The St. Louis classification is divided into 18 departments, 144 groups and 807 classes. These grand departments in their order will record what man has accomplished at this time with his faculties, industry and skill and the natural resources at his command in the environment in which he has been placed.

At the head of the Exposition classification has been placed Education, through which man enters social life. Second comes Art, showing the condition of his culture and development. Liberal Arts and Applied Sciences are placed third, to indicate the result of his education and culture, illustrate his tastes and demonstrate his inventive genius, scientific attainment and artistic expression. These three departments equip him for the battle and prepare him for the enjoyments of life. The raw material departments, Agriculture, Horticulture, Mining and Forestry, show how man conserves the forces of nature to his uses. The Department of Manufactures will show what he has done with them; the Department of Machinery the tools he has used. The Department of Transportation will show how he overcomes distances and secures access to all parts of the world. The Department of Electricity will indicate the great forces he has discovered and utilized to convey power and intelligence. And so through the several departments to Anthropology, in which man studies man; and to Social Economy, which will illustrate the development of the human race, how it has overcome the difficulties of civilization and solved problems in which society is involved. Last is placed physical culture, in which man, his intelligence having reached the supreme point, is able to treat himself as an animal, realizing that his intellectual and moral constitutions require a sound physical body to prompt them to the proper performance of their function.

Education is the keynote of the Universal Exposition of 1904. Each department of the world's labor and development will be represented at St. Louis, classified and installed in such manner that all engaged or interested in such branch of activity may come and see, examine, study and go away advised. Each of the separate sections of the Exposition will be an equivalent of—or, rather, will be in actuality a comprehensive and most effective object lesson in the line of industrial and social achievement and progress which its presents.

Cost of Seeing the World's Fair.

From any point within 300 miles of St. Louis a person may travel to the World's Fair this year, view the wonders of the Exposition for three days and expend the same money he would pay in any other year for train fare alone. This is an absolute fact.

The Western Passenger Association has agreed on a ten day excursion rate, 250 miles or more from St. Louis, for one and one-fifth fare for the round trip.

CURIOUS THINGS FROM CHINA

The Most Magnificent Beds Ever Seen Are Part of the Celestial Empire's World's Fair Exhibit.

The Chinese exhibit at the World's Fair is filled with pleasing surprises. Some of the most magnificent articles of furniture are a part of this wonderful display. The carving and inlaying of ivory, bone and wood illustrate the marvelous skill of the Chinese.

Models included in this interesting exhibit show the homes and home life of the Chinese, their weddings and funerals, Chinese tea house, restaurant and shop, Chinese weaving and some of the beautiful silks and wearing apparel of the Chinese and their methods of manufacturing them.

One feature of the exhibit is two magnificent Chinese beds, each of which has the appearance of being a small house of great beauty. One is a summer bed; the other for winter. The summer bed is hand carved and inlaid with ivory and bone figures and landscapes exquisitely carved and so skillfully joined as to appear a part of the wood. The bed and furniture are of carved bamboo. The bed consists of an anteroom, with tables, chairs and tea stands, and in an inner room, which is the sleeping apartment, there is a couch with coverings of gauzy silks.

The winter bed is still more elaborate. It consists of three compartments. The first contains four chairs, a tea poy and a chest of drawers. This is the sitting apartment. The second is the dressing room, and the third is the sleeping apartment, or the couch itself. The furniture is of rosewood inlaid with ivory carving of birds, flowers and trees. The couch is covered with silks of the finest texture and in gaudy colors. The sleeping compartments are lighted with Chinese lanterns of silk hung at the outer entrance, while the light enters through gauze panels, hand painted and in forms of rosewood inlaid with ivory figures.

A table and dish made of highly polished ash, with exquisitely carved bamboo figures inlaid, are shown. The work is so artistically done that each article seems to have been made of one piece of wood.

There is also a large display of Chinese lanterns made of silk, gauze and other light material and some made of beads artistically arranged with glass centers. The silk and gauze are beautifully hand painted.

There are models of some of the great Chinese temples, theaters and arches, showing elaborate carving in wood and ivory and two large elephant tusks exquisitely carved.

No little excitement was caused this morning on South Oak street by a runaway. Mrs. H. R. Adams and Miss Pauline Havner with Mrs. Adams' little daughter were out driving when the horse became unmanageable. Mrs. Adams attempted to jump out of the buggy and was thrown. While quite badly bruised she was not seriously injured, Miss Havner and little Louise Adams were thrown out. Miss Havner receiving a severe strain of the ankle, and what might have been a fatal accident ended luckily.

Just 65 years ago Thursday D. D. Robinson, the veteran worker, in iron and steel, of Niles, donned his leather apron and began to learn the trade of blacksmithing. And after all those years, he still makes the sparks fly to the great delight of the school children who linger about his forge, just as generations ago other children have done. Mr. Robinson has for years made all of the chisels used on the Michigan division of the Michigan Central. He is the father of 6 children, the oldest of whom is past 58 years. He was born in 1822 and came to Niles in the 50's.

It is a hundred years since Lewis and Clark made their great journey of exploration across this continent. A remarkable discovery of original documents by these explorers has just been unearthed. There will appear in Scribner's Magazine for June copies of the original letters between

Lewis and Clark and President Jefferson at the inception of this project, and also extracts from four of the diaries in which the records of the journey were kept. These four have been missing from the otherwise complete series. The documents have been in the possession of Clark's grand-daughter, Mrs. Julia Clark Voorhis of New York City, and her daughter, Miss Eleanor Glasgow Voorhis.

The following item taken from the Cassopolis Democrat will be of interest to Buchanan people: At the residence of the bride's parents in Cassopolis, Wednesday, June 1, at 3 p. m., by Rev. A. T. Cartland, Mr. Vernon W. Tourje and Miss Irma Thickstun were married. The wedding ceremony was pronounced in the presence of the immediate families of the bride and groom, who took the evening train for Durand, where a furnished residence awaits them, and they will immediately commence the duties and pleasures of house-keeping. They were given an enthusiastic send off at the train, by only a portion of an entire community of warm friends. Showers of rice, old slippers, good wishes, tears and kisses marked their departure, evidencing the genuine good feeling and hearty interest taken in the welfare of the new couple.

Love of Country—Love of Woman

Which will prevail when the man is an officer in the American navy and the woman is young, beautiful, high born and wealthy, of noble character and charming personality? This is the theme of the patriotic story

For Love of Country

By CYRUS TOWNSEND BRADY

To Be Printed In This Paper

The moral of the story—for it has a moral and a good one—is that, in places of high trust, all personal motives must be utterly surrendered that duty may be done.

Of special interest to all who cherish the love of country and the memory of the heroes who fought and gained our independence.

Marked by quick action, lively dialogue and graceful management of a very pretty love story.

EYES ON PORT ARTHUR

JAPS TO STRIKE THERE SOON

Eighty Thousand Men on the Peninsula, and the Assault Scheduled for Next Friday.

Chefoo, June 3, 10:30 a. m.—The Japanese have landed another large force of troops at Tsing Tulse (Cheng Thais Su) about twenty miles southwest of Takushan. Reinforcements for the Japanese army which is attacking Port Arthur have been landed northeast of Tallenwan.

London, June 3. — That a terrible fight is imminent at Port Arthur seems certain. It is reported from St. Petersburg that the Japanese army in the Liao-Tung peninsula now numbers 80,000 men. Refugees from Dalny say that the culminating attack on the fortress is expected to take place on June 10. It is also reported from Chefoo that the Japs are now in touch with the outposts of Port Arthur and that frequent skirmishes take place.

The Japanese are preparing for the attack by removing the Russian mines which girdle Port Arthur about. These mines are automatic and not connected by wire with the fortress. Siege guns are being landed at Kin-Chow and a balloon will be used to locate the Russian positions.

A St. Petersburg dispatch says that the Russian loss at Kin-Chow foot up thirty officers and 800 men killed and wounded. The Russians figure that the Japanese casualties were 20,000.

COWS TRAINED FOR THE TEST

Jerseys at the World's Fair Are Expected to Show That They Are Superior to All Other Breeds.

The herd of Jersey cows assembled at the World's Fair at St. Louis to represent the Jersey breed in the universal dairy test has been inspected and has been pronounced in perfect condition and ready to start upon their six months' grind on a day's notice.

W. R. Spann of the Burr Oak Jersey farm, Dallas, Tex., was the inspector, and he was thorough in his work. He passed a week on the Exposition grounds, and much of the time was spent in and around the Jersey cattle barn, and the condition of each individual of the herd of forty cows was definitely ascertained.

Never was more intelligent and careful treatment lavished on animals. No athlete was ever better trained for a contest requiring the development of speed, skill and endurance than has been this herd of Jerseys. When it is known that this herd is to compete with selected herds of Holsteins, Short-horns, Brown Swiss and Devons, and the herd making the best score for the production of butter, milk and cheese is to establish the standing of the various breeds, the importance of the cows being in perfect condition may be understood.

For a solid year the Jerseys have been in constant training. Twenty-five cows will participate in the contest. Cows were selected from the best herds in the United States.

Dr. J. J. Richardson, president of the American Jersey Cattle Club, under whose auspices this entry is made, toured Europe and visited the famed Isle of Jersey, where the breed originated. He was seeking the best cows, but returned satisfied that Europe could show no cows that were better than those bred in America.

Though only twenty-five cows will participate in the test, forty cows were selected. They were assembled at Jerseyville, Ill., a year ago. This is near St. Louis, and the cattle have become acclimated. Last December they were removed to St. Louis. The cows are the property of individual members of the club and are loaned for the term of the test. C. T. Graves, a breeder at Maitland, Mo., was selected as the superintendent to have charge of the cattle, and he has been highly complimented by Dr. Richardson and Inspector Spann for the wonderfully fine condition in which he has placed the herd.

A series of model dairy barns have been built for the breeds competing in the test. The barns are octagonal in form, and are so arranged that the cows are in the center and a wide promenade permits visitors to pass around and view the cows as they stand in their stalls.

The milking and feeding are to be done in plain view of the public, and representatives of the various herds will at all times have access to all the barns to see that no sharp practices are indulged in.

The test not only consists in showing the amount of butter, milk and cheese produced, but the cost of production is taken into consideration. Every ounce of food given each cow is weighed and carefully recorded. When the cows are milked, the milk is conveyed to a model creamery in the Agricultural building, where it is tested and made into butter and cheese and where all records are carefully kept.

The Jersey cattle participated in a similar test at Chicago during the Columbian Exposition and carried off first honors.

Superintendent Graves is sanguine over the result of the present test. He says that the Jerseys have always demonstrated their superiority over all other breeds when placed in competition, and this time they will show to better advantage than ever. Not only is the Jersey milk richer in butter fat than the milk of any other breed, says Mr. Graves, but it can be produced at a less cost. The Jersey cows are the smallest of the standard breeds, and he asserts that they consume less feed. They assimilate their food, and it is converted into milk and butter and is not used in building up and sustaining a large carcass.

"We are going to make all other breeds take to the woods after this test," said Mr. Graves. "A few days ago I was testing some of our Jersey milk, and my hands were all sticky and greasy from the enormous amount of butter fat the milk contained. Mr. Von Heyne, who is in charge of the Holsteins, sent over a quantity of his milk for me to test. Of course, from a commercial standpoint, there was no comparison between the milk, but it was a pleasure to test his milk, for when I got through there was no grease on my hands. After this I will have a bucket of Holstein milk around handy to wash my hands in after testing our own rich Jersey milk."

The test begins May 16 and continues 120 days.

Unique California Map.

A unique exhibit at the World's Fair was prepared by the agricultural department of the University of California. It is a large map, so colored as to show the character of the various soils of the state. It gives a clear idea of the situation and the extent of the arable and tillable sections. In the localities that cannot be cultivated are shown the Sierras, the lava beds and the desert. The map indicates the location of the cultivable portions of the mountains and Mohave plateau and shows the nature of the foothills and valleys of that wonderful state.
