## GREAT VICTORY

Whole County Carried by the Republicans

## TENNANT WAS ELECTED

Balance of County Republican Ticket Elected

Election Day is now a thing of the past and it has gone down in history as a great Victory for the Republican party. In Buchanan the day passed very quietly and when the votes were counted a good Republican majority was shown.

There was 281 straight Republican 157 straight Democratic and 206 split tickets cast in Buchanan. Roosevelt was given 400 majority.

The vote on the rest of the ticket was as follows:

GOVERNOR.		Plu.
Warner R	365	181
Ferris D	284	
CONGRESSMAN.		
Hamilton R	385	174
Beaver D	211	
STATE SENATOR

Lottridge D.	208	
Beswick D.	208	
SURVEYOR		
Cleary R.	390	179
Heim D.	211	

The Prohibition vote in the township was 29.

The vote on the amendments are not all footed up yet so we are unable to give them.

So far as we are able to get the vote in Berrien county is as follows: Bainbridge gave Tennant Democratic sheriff 80 majority.

Benton township gave Tennant 25 majority.

"Bertrand has come back in the union" so said a Republican from that township this morning. They gave the following majorities: Roosevelt 13, Warner 2, Hamilton 8, Dick 4, Clark 1, Miners 17, Sherwood 11, Knaak 11, O'Hara 2.

### BENTON HARBOR CITY.

Three wards gave Tennant 110, majority, Dodd 272, Larkworthy 75, Ellsworth 300, White 253. Fourth gave Sherwood 112, Warner 133, Hamilton 204.

Galien gave Roosevelt 107 maj., Warner 80, Clark 46 and balance of ticket given 80 majority.

Hagar gave Clark 45

Lincoln township gave Knaak 17. Lincoln gave Tennant 40 and Miners 5 majority.

New Buffalo give the Democrat ticket the following majorities, Ferris 34, Tennant 60, Knaak 36, West 44, Dick 24, O'Hara 10.

Niles township gave Tennant 14, balance of ticket Republican.

Niles city, went all Republican, first time in its history; Warner 28, Hamilton 195, Clark 84, Dodd 87, Miners 125, White 180, Lovell 93.

Oronoko gave Tennant 50, Larkworthy 4.

Pipstone gave Clark 14.

Sodus gave Clark 14 majority.

St. Joseph gave Tennant 551, Larkworthy 226, Knaak 218, O'Hara 118.

Watervliet gave Republican majorities as follows, Clark 123, Miners 123, Dodd 208, White 210, Ellsworth 252, Lovell 213, Hamilton 242, Sherwood 197.

Weesaw gave Roosevelt 30, Ferris 30, Tennant 45, Knaak 40.

Michigan gave Warner, Republican candidate for Governor, 35,000 plurality and elected all republican congressman with possibly one exception.

The entire Republican county ticket is elected with the exception of Tennant who majority is given as 75.

Dodd will carry the county by 604 and Miners by 106.

Roosevelt is conceded to have 330 and Parker 146 votes in the electrical college. Necessary to elect 289.

The RECORD had arranged to throw the election returns upon a screen with a stereopticon, and had everything arranged. The machine was in charge of an expert but owing to the rain it was impossible to do so. This is greatly to be regretted as it would have been a decided novelty in Buchanan. We would have been able to give the returns in the early part of the evening before the rain, but as the telegraph office was closed at that time we were unable to get them.

## TO MAKE POTATO FLOUR INTERURBAN EXTENSION TO BUCHANAN

New Plant at Hart About To Begin Operations

Hart, Mich., Nov. 5—The Hart Potato Flour company has begun paying market price and taking everything from the size of a walnut up to the largest potatoes, the only ones thrown out being the sunburned and the extremely scabby.

The National Biscuit company, large sausage concerns and other manufacturers of a similar class have learned the uses of potato flour and are deluging the Hart plant with orders. It is used by them in the making of bread, crackers, sausage, etc. The Hart plant is the only one of its kind in the United States or Canada.

The potatoes are first sliced and then dried for grinding. The latter process is very similar to that of grinding wheat flour. When sliced and dried the stock will keep for any length of time in perfect condition.

The company has storage room for about 20,000 bushels of potatoes at one time.

### Do You See Where Money is Saved

There are ten schools within four miles drive of Buchanan whose aggregate enrollment does not exceed 100. How much better it would be to transport these children to Buchanan where they might receive nine and a half months' schooling under more favorable conditions. Figure out the expense and subtract it from the present outlay plus the extra product turned out and you will arrive at the probable profit.

The same conditions prevail to a greater or a less extent at Niles, Galien, Three Oaks, New Buffalo, Berrien Springs, Eau Claire, Coloma and several other places already provided with graded schools. A movement is already on foot to disband some of these small schools and move into the village. May the sentiment take root and spread.—Benton Harbor Banner-Register.

### The Woodchuck's Winter

The woodchuck always gathers and stores away food all the spring, summer and autumn, but he stores it away in his own body, in other words, he eats it. He eats so much that by fall he is as fat as a pig. Then when he has dug for himself a long winding burrow, and made at the end of it a snug nest of leaves or grass, all he has to do is to block the entrance with earth and leaves and curl up in his bed and sleep until the spring, when he comes out little more than a bag of bones.—November Woman's Home Companion.

### Work Will be Pushed in the Spring

It is reported that work on the extension of the South Bend and Southern Michigan street railway from Niles to Buchanan will be pushed in the spring. The report also says that the supplies have already been ordered. There has been so many rumors afloat that it is hard to tell whether the reports are true or not. We only give them as we have heard them.

The South Bend Tribune says: Surveyors are going over the territory between Niles and Buchanan, Mich. for the South Bend & Southern Michigan company with a view to selecting the best route for the company's electric line between those two points.

It is the intention of the company to make use of the abandoned roadbed of the Michigan Central railway as far as possible. This was acquired some time ago. Beyond this the exact route into Niles and into Buchanan has not been determined. The company hopes to have all preliminaries completed so that it may begin construction next spring as soon as the weather will permit. Hon. Arthur Kennedy, of New York, one of those deeply interested in the road, who was here a few days, has returned.

### The Order of the Smiling Face

We've formed a new society—"The Order of the Smiling Face"; An honored member you may be, For every one may have a place. The rules say you must never let The corners of your mouth droop down; For by this method you may get The habit of a sulky frown.

If playmates tease you, let your eyes A brave and merry twinkle show; For if the angry tears arise They're very apt to overflow.

If you must practise for an hour, And if it seem a long, long while, Remember not to pout and glower, But wear a bright and cheerful smile.

The rules are simple, as you see; Make up your mind to join to-day. Put on a smile—and you will be An active member right away.

### BERRIEN SPRINGS.

A Hallowe'en social was given at the home of Rev. Milo Smith, Monday evening.

The rooms were beautifully decorated with corn, pumpkins and jack-o-lanterns. The guests were met at the door by a ghost who pointed the way up the stairs. Two ghosts at the top of the stairs showed the way to the dressing rooms and still another ghost pointed the way to the garret where a witch sat in a tent and told fortunes. After the fortunes were told the guests decended to the parlor where they enjoyed themselves until supper was served. About eighty were present and all had a good time.

Miss Florence Howard, of Niles spent a few days at the Shaker farm this week.

School in district No. 3 closed Friday for a weeks vacation.

Dr. A. O. Howe was over from Chicago this week.

**ATTEMPT TO WRECK CAR**

**Big Boulder Placed on Track Near Brandywine Creek**

Friday night the interurban car, which left here at 11 o'clock, narrowly escaped being hurled down the embankment at a point near the Brandywine Creek, about half a mile this side of the viaduct. At this point there is a down grade and the car was speeding along at a high rate of speed when the motorman spied an obstruction on the track and immediately applied the brakes. However, the fender of the car struck a large boulder, which brought the car to a stop with a jerk that nearly derailed it. Had the motorman not seen it when he did, the car would have encountered the obstruction at top speed, with disastrous results to the several passengers that were on board.

The conductor and motorman were both of the opinion that the boulder was placed on the track by some maliciously inclined person, and, indeed, it is well nigh impossible to conceive of any other way in which the stone could have gotten on the track. An investigation will, doubtless, be had. —Niles Star.

**INTERNATIONAL LIVE STOCK EXPOSITION**

**Union Stock Yards, Chicago, Ill., Nov. 26 to Dec. 3**

Nothing so diffuses the knowledge of the best and most profitable manner of breeding and raising live stock as does the gigantic show held each season at the Chicago stock yards. This year it will be the most wonderful in size and quality ever held. It will draw upon the profoundest knowledge of the science and practice of animal husbandry for judgment of the animals as well as for their classification. A man may trace the development of the animal from its infancy to its climax as a potential subject for the butcher.

All of the educational resources of the country are gladly uniting with the promoters of the International Live Stock Exposition to make it a success. This year every agriculturist in the country is waiting for the show to have its pupils see what the lessons they have been taught actually mean. The college boys and farmers' sons who are not collegians meet on common ground in the struggle for prizes for the best cattle, sheep and swine. These boys are the coming farmers and they are rapidly showing their fathers' progression in improving the interests of the country by bringing more expert knowledge into it.

**ENGINEER FELL ASLEEP**

**Accident Resulted Which Caused His Death**

A freight train on the Grand Trunk was wrecked at Cassopolis Thursday night and Engineer Ed. Haywood, of Battle Creek, sustained a broken leg and was otherwise bruised.

The train was going east about 11 p. m. and, as they neared the interlocker, the fireman noticed there was something wrong, as the signal had not been given to go ahead and there was a train on the air line crossing of the Grand Trunk. He called to the engineer and jumped. The engineer reversed his engine, but it was too late. It had gone off the derail and tipped over, pinning him underneath, where he was confined for an hour and a half before relief came.

A car of sheep was overturned and 117 of the animals killed. Haywood says it was his fault, as he had dozed off to sleep.

The injured man was taken to his home in Battle Creek and died Friday night. He had been in the employ of the Grand Trunk for forty years, and leaves a widow and family.

**SCHOOL NOTES**

HIGH SCHOOL.

The W. C. T. U. of Buchanan has presented our public school with very fine picture of Frances Willard and also a memorial volume containing her biography. The picture has been placed in the 9th grade. The pupils will make themselves familiar with the life and works of this noted woman.

FIFTH GRADE

Maude Haslett of the B class and Agnes Persons of the A class wrote the best descriptions of Antoinette in twenty minutes Tuesday afternoon.

In the spelling contest Thursday afternoon, Fred Schwartz and Bernice Warman stood up for sometime after the others had taken their seats and then they both missed the same word.

FOURTH GRADE

During the past month, Lottie Ravin made the best record in spelling. We are sorry to lose one of our pupils. Ralph Sewell goes to St. Louis Tuesday with his parents to spend the winter.

Those who have been neither absent nor tardy during the past month are: Beatrice Bainton, Grace Baker, Delbert Bates, Solly Hershenson, Eula Davis, Anna Keller, Ralph Sewell, Irving Swartz, Junior Wagner, Fern Cuthbert, Cattie Barnes, Ines Burks, Webb Kent, Joe Voorhees and George Wells.

THIRD GRADE

The following pupils received the highest number of credits in spelling last month, Nora Barr, Bernice Beck, Fern Beardsley, Elmo Phillips, Elmer Conrad, Adelaide Couze, Alene Peck, Lena Leiter, Sarah Eisele, Gladys Gage and Iva Smith.

Conversational lessons this week will be, migration of birds and hibernating habits of some animals and reptiles.

WARD SCHOOL

The teachers are very grateful to the school board for two days profitably and pleasantly spent at the teachers convention.

After a weeks illness, Ella Schofield reenters school.

Thanksgiving songs are being learned.

**BOOM FOR BUCHANAN**

**Michigan Motor and Machine Co., of Detroit Will Locate Here at Once**

**WILL MAKE AUTOMOBILES**

**Another Factory is Also Assured For Buchanan and Will Locate Here Soon**

The prospects for the future of this beautiful village are extremely bright, within the past few days matters have so shaped themselves as to assure two good factories for Buchanan, and while it is not deemed advisable to give the full particulars about one of them just at this time, we can safely say that the factory will be located in Buchanan and will give a full account of it in a later issue.

The other factory which will come to this place, will be located in the old wagon factory on Main street, and will be known as the Michigan Motor and Machine Co. This company is still in operation in Detroit but will be moved to this place in about three weeks.

The officers of the company are Wm. F. Koeller, President and Treasurer and P. Zubrigg, Vice-President and Secretary, the company is capitalized at \$200,000. Mr. Koeller is in town this week, and through his courtesy, the RECORD is enabled to give its readers some idea of the character of the institution which will be a part of this village.

The company will manufacture automobiles and machinists tools. The automobiles will be made in two styles and designated as Model "A" and Model "B" Model "A" will be a four cylinder, vertical gasoline engine machine, with bevel gear drive and sliding gear transmission. The body will be of the side entrance design. An extra top will also be made for delivery wagon. This is a strictly high grade machine and equal to any design on the market.

Model "B" is a two cylinder horizontal gasoline engine machine, with planetary transmission, either single seat or with detachable tonneau seat. This will be a moderate priced machine. Other designs will be added from time to time.

Aside from the manufacture of automobiles this company will manufacture a milling machine attachment for slotting and planing. This attachment was designed by Mr. Koeller and is said to be one of the best on the market. They will also make a machine vice and a complete line of metal working tool holders, for use on lathe and planer. This tool is being extensively used throughout the country.

Mr. Koeller informs us that they will employ 20 men for the first two months to get the factory in shape to do business, and for the next three or four months 50 men will be given employment. He also stated that it was their intention, before they had been here a year, to be employing at least 100 men. It is the intention of the company to build 50 machines of Model "A" and 100 machines of Model "B" during the coming season.

This factory means much to Buchanan and our people are congratulating themselves upon securing it. A number of our prominent citizens, and especially Mr. Amos House and Rev. J. A. Halmhuber are responsible for the locating of this factory in Buchanan, and our citizens heartily appreciate their efforts.

the standard of merit in South Bend, and brought us the greatest clothing business in the city. Of course, we have a decided advantage over other stores when it comes to prices, inasmuch as we buy for four stores: at South Bend, Ind.; Springfield, Jacksonville and Quincy, Ill., enabling us to buy in very large quantities and at quite a saving in prices over others saving which we gladly share with our patrons. It's the combination of low prices with the highest possible quality that has proved the irresistible inducement.

**Progress is our Motto**

We give you this fall better cloth, better tailoring, better lining, better trimmings, etc.—lowering prices where prices can be lowered—in short always, striving to give you a little more than you expect. This is why we keep old friends, make new ones and satisfy everyone who wears SPIRO CLOTHES. And this is why our clothes are better this fall than ever before.

He is getting along as well as can be expected but the shoulder is very painful.

The gasoline launch, Sea Foam, owned by Duluth parties, is en-route from Duluth to Chicago via Lakes Superior and Michigan. From Chicago the yacht will go through the Chicago river and canal to the Illinois and Mississippi rivers, thence to the Gulf of Mexico and to Tarpan Springs Fla., where its occupants will spend the winter. This is without doubt the longest trip ever undertaken by a launch.

One of the most important and valuable features St. Nicholas has ever published is announced to commence in the November issue, a series of talks on "How to Study Pictures," by Charles H. Caffin, well known as one of America's leading art critics. It is intended that these articles shall present, simply, clearly and vividly, the more important facts about the world's greatest artists and their work. Each month will bring reproductions of masterpieces, to illustrate Mr. Caffin's points.

Benjamin and Mary Purnell, divine heads of the House of David, with a large retinue left by steamer for Chicago Thursday night, where they will depart for Vancouver, British Columbia, enroute to Australia. The banner of Israel will be unfurled in this far away continent and for a year, missionary work will be continued by the leaders. Benjamin expects to gather 10,000 souls around his banner in Australia and hopes to bring hundreds with him on his return to America to await the millennium.—News Palladium.

A bulletin issued by the census office at Washington entitled, "A discussion of the vital statistics of the twelfth census", says that no state has a complete registration of births, the ones that came nearest to it being probably Massachusetts, Rhode Island and Connecticut. No southern state or western state, except Michigan, had any satisfactory system of registering deaths at the time the data was collected. The Michigan division of vital statistics, connected with the department of state, is recognized as one of the leading ones in the country.

The increasing number of fatal accidents in the United States, noted especially during the past year, makes the discussion of the causes of such accidents by Secretary Moseley, of the Interstate Commerce Commission, in the Review of Reviews for November particularly timely. Mr. Moseley points out grave faults in our American system of running trains. He shows how greater safety on the rail may be secured by perfectly practicable reforms in railroad management. All of Mr. Moseley's suggestions are the fruit of twenty years of study, and they are of the greatest importance to all who have to do with the operation of our railroads. Not only the traveling public, but the American people as a whole, is vitally concerned in all reasonable efforts to reduce the fearful waste of life in both the freight and passenger service.

Nearly every week some Berrien county paper records the return of individuals who went from this state thinking to find a better place, but who met with sad disappointment. They all had timely warning by the Berrien county press, hearing but heeding not, and as a result suffering the consequences. Some one in this connection tells the following story: "A New England farmer, who had spent a life-time trying to eke out a scanty living farming the rocks and hills of that locality, finally gave it up and went to heaven. He was well pleased with the change. He had such a hard time on earth that St. Peter was showing him around and jollying him up. They came to a corner of one of the golden streets where a man was chained to an alabaster post. The over-worked farmer asked, 'Why is he chained?' St. Peter said 'That man is from Berrien county and he wants to go back.'"

**THE HORSE AND MAN**

Animal Conquest Marked One of the  
Great Turning Points in the His-  
tory of Civilization

The conquest of the horse by man, and its final utilization for all purposes which are discharged by steam and electricity today marked one of the greatest turning points in the history of civilization. In the great earth and sand preglacial deposits of Europe the true wild horse is as widespread, though not as varied, as in America. It is not at this stage associated with the remains of man, because no preglacial man except the pithecanthropus or Trinil man of Java have been found. In the interglacial or postglacial period the remains of man and the horse are first found together. The first association occurs in the middle of the paleolithic, or rough implement period. The discovery of all the possible uses of the horse came very gradually, however, for there is abundant proof that man first hunted and ate, then drove,

and finally rode the animal. The prevailing drawings of the palaeolithic horse represents him as hog maned, with no forelock to conceal the low-bred Roman nose. A second type in the Mouthe cave, a bearded horse with long, bristling mane, long ears and convex forehead, is regarded by M. Riviere as another species. But it is not clear to my mind that these drawings represent more than the summer and winter coat of the same animal. Besides these Roman-nosed types to which Ewart traces the modern cart horse there are others with small heads and flat noses which Ewart associates with the Celtic pony and possibly with the thoroughbred. Other cave drawings, reproduced by M. Captain leave little doubt that the ass was known in Europe. It is also certain from abundant evidence in the caves of France that there was a larger horse toward the south perhaps, while the smaller breeds may have frequented the colder northern regions.—From Henry Fairfield Osborn's "Fossil Wonders of the West" in the November Century.

The following act was read:

AN ACT

To suppress gaming and gaming rooms and to regulate the maintenance and use of billiard and pool tables and bowling alleys in the village of Buchanan, and to repeal an act entitled, "An Act to Suppress Gaming Rooms and Tables in the Village of Buchanan," which took effect January 1, 1892.

The village of Buchanan ordains:

Sec. 1. All gaming in the village of Buchanan is hereby prohibited; and it shall be unlawful for any person to play any game of billiards, pool, dice, cards or any game whatever, for the purpose of winning or obtaining any money, stake or valuable thing; and it shall be unlawful for any person to bet on, or as to the result of any game, whether such person be engaged in such game or not.

Sec. 2. It shall be unlawful for any person to keep, or knowingly suffer to be kept, in any house, building, yard or dependency thereof by him owned or occupied, any billiard or pool table, bowling alley, cards, dice or any other appliance or device for the purpose of gaming therewith.

Sec. 3. Every person engaging or intending to engage in the business of keeping for hire, gain or reward any billiard or pool table or bowling alley, shall, on or before the first day of May in each year, pay to the village treasurer, in advance, for every billiard or pool room, the sum of fifty dollars, and for every bowling alley the sum of twenty-five dollars as a license fee for the keeping of such billiard or pool table or bowling alley, for the year commencing on the first day of May and ending on the thirtieth day of April next thereafter.

Sec. 4. Every person engaging in the business specified in section three of this act after the first day of May in any year, shall before engaging in said business, pay in advance to said village treasurer a pro rata portion of the yearly license fee, as provided in section two, for the remainder of the year ending on the thirtieth day of April next ensuing; and in computing the time for such fractional part of a year, the computation shall commence on the first day of that month in which said business shall commence.

Sec. 5. On receipt of license fee provided for in the last preceding section, the village treasurer will issue a permit signed by the president of the village, to the person paying the fee, which permit will entitle the said person to engage in the business above described until the thirtieth day of the following April, unless said license shall be revoked as hereinafter provided. Such permits shall not be transferable.

Sec. 6. It shall be unlawful for any person, whether engaged in such game or not, to bet or gamble on the result of any such game; and it shall be unlawful for any person so engaged in said business to allow any such tables or appliances to be used for betting or gambling; or to allow any minor under the age of sixteen years to play at any of the games mentioned in this act; or to allow any minor over the age of sixteen years to play at any such games with out a written permit from the parent or

guardians of such minor filed with the village clerk; or to allow any minor under the age of sixteen years to remain in the room or place in which such games are being played; or to allow any minor over the age of sixteen years to remain in such room or place without a written permit of the parents or guardian of such minor as herein before provided.

All rooms and places in which the aforesaid tables or games are maintained shall be kept closed on the first day of the week, and between the hours of eleven p. m. and seven a. m.

Every person who shall violate any of the provisions of this act shall on conviction thereof be punished by a fine not exceeding fifty dollars or by imprisonment in the county jail of Berrien county not exceeding ninety days, or by both such fine and imprisonment in the discretion of the court, together with the costs of prosecution, and it is further provided, that the offender on failing to pay such fine and costs of prosecution, may be imprisoned for any time not exceeding ninety days unless payment thereof be sooner made.

It is further provided, that a conviction of the violation of any provision of this act shall be cause for which the president of the village may, at any time after such conviction, revoke the permit that may have been issued to the person so convicted.

Moved by Mr. Kingery supported by Mr. Pears that the ordinance be accepted.

Ayes, Pears, Kingery, Curtis, Ravin, Adams, Philips.

J. C. Dick submitted the following report:

Buchanan, Mich., Oct. 31, 1904.

To the president and Common Council of the village of Buchanan.

Gentlemen:—Below find amount collected by me for water tax for the year ending October 31, 1904.

From Oct. 30, 1903, to May 1, 1904 \$ 727 00

From May 1, 1904, to Nov. 1, 1904 1,347 85

Total for the year \$2,074 85

The full amount has been paid to the village treasurer.

Respectfully,  
JOHN C. DICK.

Moved by Mr. Pears supported by Mr. Kingery that the report of the water tax collector be accepted and placed on file.

Motion carried.

Moved by Mr. Curtis supported by Mr. Kingery that the council adjourn!

Motion carried.

H. C. EISELE, B. R. DESENBERG,  
Clerk. President.
