NEW SYSTEM NOT LIKED

Double Order Train System to go Into Effect on The M. C. April 1

OBJECTIONS ARE RAISED

Claim Made That it is Complicated and Accidents Will Follow

Orders have been received directing that on April 1 the Michigan Central adopt the double order system in the handling of trains on the main line and all of its branches. At the present time experts are instructing Michigan Central men in the use of the system, which is in vogue on several roads of the country.

There are 2,000 men in the employ of the Michigan Central who will be compelled to familiarize themselves with the new system. It is said the men do not like the idea and are loud in their denunciation of it.

The Michigan Central has heretofore operated its trains under what is known as the single order system, that is, the train crews received the orders which they are to carry out and it is, claimed that under this system, with which the men are familiar, there has never been a head-on collision of passenger train, and never of freights, only through negligence of the crew. It is declared that on a road that is double tracked the double order system would not work so great havoc as on a single track line, and much of the Michigan Central is single track. Many railroad men openly express the fear that the inauguration of the double order system will result in trouble, and cite the frequency of terrible accidents on roads using the double order system.

It is pointed out by some of the men who oppose the change that in the Dominion of Canada the government will not tolerate the adoption of the double order system on any line.

On roads using the system there are what is termed train order committees, to whom are referred the right or wrong of orders, but it is remarked that these questions only rise after some terrible accident. The railroad journals, it is declared, are filled with inquiries about the system, and these questions come from men who have for years been operating trains under it. It is claimed to be a most complicated system, while the single order system is simplicity in comparison and under it the business of the Michigan Central has been carried on successfully.

Under the double order plan a train receives an order on leaving a station. They may be told to take a siding at a stated point. They take it, but are expected to look out for themselves, see that the train which passes has signals signifying if it is the first section of a train. "Providing it is a stormy or foggy night," said a railroad man, what chance has a crew to see the signal boards of a rapidly moving train? If a first section goes by and its signals are not seen, a train pulls out and goes head-on into the second section.

There appears a feeling that the posed change should be given publicity, railroad men stating that if the general public and the traveling men portion, in particular, knew of the change proposed there would be created a pronounced sentiment which would prevent the adoption of the double order system. Opposition to the plan is being worked up not alone among the railroad men but among the patrons of the line.

MAY RETAIN POSITION

Jackson People Would Like to See John C. Wenger Keep Place at Prison

HAS MADE A GOOD RECORD

Buchanan Man Said to be an Excellent Disciplinarian—The Best Deputy Warden at the Penitentiary for Many Years

Allen N. Armstrong, who will succeed Warden Vincent at Jackson prison March 1, has made an inspection of the prison this week. He will devote the next six weeks to visiting other penal institutes in the country and hopes to have a good knowledge of prison affairs by the time he assumes the duties of the place.

In speaking of Mr. Armstrong's visit to the prison the Jackson Patriot says:

"So far absolutely nothing is known as to his intentions regarding the official staff of the prison. The warden has the appointment of all his subordinates especially the deputy. This matter was brought up to Warden Vincent when he appointed Deputy Wenger, and he insisted upon the right—as he exercised it in his dismissals. There is a report current that after the wardenship was decided, the board of control offered to secure the deputy wardenship as a salve for Mr. Weinholt's injured feelings. Deputy Wenger has made the best record in his position of any man there for years, and no grounds exist for retiring him. He has proved himself to be a splendid disciplinarian, has secured the co-operation of the official force of the institution and in every way has brought about a new atmosphere at the prison. If the new warden listens to his friends—or some of them—he will invite Mr. Wenger to remain. Such men with experience are not easy to find."

There are many other officials—some with a life time of experience—who ought to hold their positions; it is to be hoped they will. But not a whisper has been heard as to intentions."

Mr. Wenger was a highly respected citizen of this village and the RECORD with his many staunch friends wish him every success in retaining his qualified position.

FIRST FESTIVITY

Enjoyed by Mr. Wm. Broceus, Since His Return Home From Chicago

The members of the United Brethren church, besides a few invited friends, numbering about forty in all, spent a most enjoyable day at the home of Mr. and Mrs. Wm. Broceus last Friday. The occasion being Mr. Broceus' 61st birthday anniversary.

A most delicious repast was served the guests, who all did ample justice to all the good things placed before them.

This was Mr. Broceus' first festivity since his return home from Chicago, where he underwent a most successful operation.

The guests departed late in the afternoon, wishing Mr. Broceus many return of the day, and voting the host and hostess most able entertainers.

SAYS WHISKEY DID IT

John McFallon is the Defendant in a Damage Suit.

Alleging that the liquor furnished to William File by John McFallon, a Buchanan saloon keeper, caused the downfall of File, Mrs. Lillian File has brought suit in the circuit court for \$8,000 against the liquor dealer.

The date on which is charged that the defendant furnished the liquor which crazed the thief was June 3, 1905, the day on which File entered a car on the Michigan Central tracks in Buchanan and stole eight quarts of whiskey. Mrs. File further charges that McFallon knew that her husband was in the habit of becoming intoxicated and that he sold him liquor illegally, which was the cause of the robbery.

She also alleges that she has suffered damage through humiliation and through the loss of her husband's support to the amount of \$9,000.—News-Palladium.

A Surprise Party

At the home of Rev. and Mrs. J. A. Halmhuber was the scene of a very pleasant and jolly gathering, last Friday evening. Mrs. Halmhuber's Sunday school class, consisting of eleven young ladies, perpetrated a surprise on her, each of the young ladies bringing a gentleman friend. No sooner had they entered the door when the fun began, nor did it subside until the door closed behind the last visitor.

The early part of the evening was spent in conversations and games, after which an oyster supper was served of which all partook heartily.

Miss Bertha Houseworth, in behalf of the class, presented Mrs. Halmhuber with a beautiful berry spoon, as a token of their love and respect. Mrs. Halmhuber responded in a few well chosen words, thanking the young ladies for this expression of love and respect and hoping that during the coming year their work together might be pleasant and successful.

A burglar in San Francisco stole 1000 jumping jacks. Perhaps he is going to start a Democratic reform on the Missouri system, and wants a party emblem.

On the question of who will be the next President it is a safe bet that Mr. Roosevelt's successor will be either a former governor, an ex-secretary or something equally as good.

A woman lecturer in Philadelphia wants to chloroform the children, and Dr. Osler proposes to put the elderly people out of the way. All of the responsibilities of life will soon devolve upon the middle classes.

The United States produces more than half the petroleum that supplies the world, and the largest source of this form of wealth is located west of the Mississippi. What funny objects the old maps are that mark the great American desert.

In Europe nearly 5,000,000 acres are devoted to raising the sugar beet. Both the variety of beets planted and processes of extraction have been greatly improved within ten years. The beet sugar industry of the United States is a sound proposition.

Farmers Institute

The County Farmer's Institute society is pushing to completion plans for a splendid series of meetings throughout the county next month. Mr. R. W. Ruse, of Eau Claire, is president; Paul Thayer, of Benton Harbor, secretary; John Dowling, of Benton Harbor; E. M. Matrau, of Watervliet and Erastus Murphy, of Berrien Center, executive committee.

The programs for the meetings at Watervliet, Feb. 3, and Buchanan, Feb. 8, are not fully completed. The programs for the other meetings have been arranged. The dates are as follows:

Stevensville, Feb. 5, at Maccabee Hall; Sodus, Feb. 6, at Grange Hall; Berrien Center, Feb. 7, at Grange Hall; Eau Claire, Feb. 9 and 10 at Opera House, and Galien, Feb. 12 and 13.

Don't forget the Horace K. Turner exhibit of pictures at Patricia Hall from January 17th to 20th. The afternoons of Wednesday, Thursday and Friday from 2 to 6 p. m. and Friday evening from 7 until 10 o'clock. This collection is the most interesting of its kind in existence, containing copies of the most beautiful paintings in the world, both ancient and modern. "A SHADY BANQUET"

Was Held Last Friday Night at Home of Mr. and Mrs. John Fydell

A MOST UNIQUE AFFAIR

And Was Greatly Enjoyed by all the Members of the Bethany Class of the M. E. Church

The Bethany Class gave a "shady banquet" at the home of Mr. and Mrs. John Fydell on Friday evening, Jan. 12, 1905. Thirty five members dressed in the costumes of the south land were present. At each plate there was a hand painted menu card of dark card board, and the following menu was written in white ink.

MENU	
Possum	Pickles
Sweet Potatoes	Tomato Sauce
Corn Bread	White Bread
	Butter
Hot Biscuits	Corn Cob Syrup
Watermelon Cake	Coffee
	Confections

After the possum had been carved, and the repast properly disposed of the Toast Master, Rastus Simpkins, called the guests to order and announced the following program:

- Song, Down on the Ohio, Bethany Class Jubilee Singers.
- Toast, The Watermelon, Floie Simpkins.
- Song, Roll, Jordan, Roll, Bethany Class Jubilee Singers
- Toast, The Men, Lily White Jones.
- Toast, The Women, Beelzebub.
- Song, Coon, Coon, Coon, Bethany Class Jubilee Singers.
- Toast, The Teacher, George Washington, Jr.
- Récitation, Beelzebub.
- Toast, Bethany Class, Rastus Johnsing.
- Song, Dixie, Bethany Class.

The Jubilee Singers were Carolina Creole, Carolinus, Creole, Caesar Melon, Cantelpoe Melon, Balinda Mary Ann Garner, Gussie Storm, Jasper Johnsing and Eliphail Snowball. It was conceded that Carolina Creole alias Dr. J. A. Galand wore the most charming gown.

Very Prosperous

During the summer of 1905, the Newport News Ship Building Co., of Newport News, Va., the largest builder of government battle ships, placed a very large order with the Geo. R. Rich Mfg. Co., for chucks and drills for use in armor plate. After giving them a six month's trial, they opened up the new year of 1906, by placing a duplicate order with our local company.

The management of Geo. R. Rich Company consider this one of the greatest testimonials as to the merits of their devices.

The Rich Mfg. Company expect another car load of work from Chicago sometime this week, which again shows the prosperous condition this factory is in. Besides receiving large orders they expect to install more new automatic machinery in their already fully equipped factory this month. The Record with the citizens are pleased to note that this establishment is rapidly coming to the front, and we trust they will continue in this prosperous way.

School Notes

All the pupils are taking the reviews which are to prepare them for the semester examinations next week. Rev. Wagner had charge of the chapel exercises Monday morning. His talk to the pupils was most helpful.

The high school students are perfecting the organization of their literary society. Sixth grade are having physiology review.

Rain fall maps were drawn in sixth grade last week.

Richard Smith had the best original stanza in sixth grade last Friday. Out of twenty-five, nineteen stood 100 every day in spelling last week in sixth grade.

The geography lesson Tuesday morning in the fifth grade, was made very interesting by a large collection of postal cards containing scenes and costumes in the European countries

also a collection of their coins. These were brought by Ralph Sewell. Audrey Emerson; Leland Trout-fetter and Webb Kent had perfect spelling lessons during the month of December in the fifth grade.

HER BUSINESS ABILITY.

Piano Deal That Netted Resourceful Wife One Hundred Dollars.

Senator Platt, in a humorous speech, was praising woman at a dinner party. "And her business ability!" he exclaimed. "Only the other day the young wife of a young friend of mine said excitedly to her husband on his return home:

"John, I have made more money than you to-day."

"How much have you made?" he asked.

"A hundred dollars," she said proudly.

"Good, good!" cried the young man. "And how did you make it?"

"Well," said the young lady, "you know my old piano that you only paid \$300 for? I sold it to-day for \$400."

"Gracious, and what are you going to do with all the money?" he asked.

"Oh, there isn't any money," she said.

"Eh?"

"You see, I sold the piano to a dealer," she explained. "He gives me a new one for \$300 and allows me \$400 for the old one. Haven't I done well? If you'd stay home and let me run your business for you, you'd grow rich. Think, \$100 a day! That is over \$300,000 a year."

MARYLAND'S OLD VOLCANOS

Three Peaks in Western Mountains Found to Be Metal-Bearing Volcanic Rock.

Prof. Philip R. Uhler returns to the city with the report of a discovery which he made in the western Maryland mountains. Three peaks, the principal one named Buzzard's Knob, crown a plateau about six miles from the city, reports the Baltimore American. It was for Prof. Uhler to discover that the three prominences are in fact volcanoes, and that they are the very oldest type of volcanic rock that is found in the United States.

These peaks are of a different form from volcanoes like Vesuvius. In the latter form of volcano molten lava and stones are forced up by superheated steam, leaving a deep hole, but in these craters in western Maryland the whole mountain was originally in a molten condition and the top crust was forced upward in a dome-shaped form, and such lava as did not escape was forced out in vents at various places. The volcanic rock of the region is metal-bearing, and specimens of gray, green and gold copper were found by Dr. Uhler. The domes of the craters were somewhat elliptical in shape.

ADDITIONAL LOCAL

At the Territorial exhibit of school work held at Phoenix, Arizona, a few weeks ago, the work of the pupils of Mrs. Anna Estes Cook was awarded the first prize. This contest included all the schools in the territory as well as the Territorial Normal school. Mrs. Cook is at the head of the English department of the Phoenix high schools and the awarding of the honors to her pupils speaks very highly for her ability as an instructor. That will be good news for her many Buchanan friends.

We went over to hear the band-boys practice at close range last night and we think that someday they will be expert tootists. But a musical critic would probably find flaws in their playing, it being only their third rehearsal. In the first place he would likely call for a lesser grade from Bilge Pitkins on the big horn, who certainly blows like Sam Hill so far as noise is concerned. Then Phil Hendershot ought to back pedal on that trombone, the critic would no doubt say, for he really jams it too hard down his throat. The bass drum is fine and Slim Hart sure does thomp it with braggadocio. A kind word would be said, too, for Fred Bailey, who tweddles the fife in great shape most of the time. The cornets take the cake. There being four of them, at least two get there Eli on the right key in every place. At present the bunch is what the critics call an "umpah pah" band, because waltz time alone is being exploited. All hail the band—may it some day equal Sousa's.—Hoppertown Gazette.

"Shoddy."

It is old wool redressed by scientific and clean methods. It is a component of most of the woolen garments of today. The world does not grow enough wool to enable us to have a constant supply of new woolen garments, except with the aid of shoddy. It is shoddy that has enabled the workman to buy a new suit of clothes at the price of a week's wage. In the olden days an all-woolen garment was so expensive that it had to last its owner many years, unless he were a wealthy man. It is better hygiene for a man to buy two new shoddy suits a year than to buy an all-woolen garment which must last him two years. Most of the clothes we wear, in fact, contain an element of shoddy, and so far from being the worse for it, are the better.—Magazine of Commerce.

Mrs. H. L. Carlisle, who is visiting her daughter at Council Bluffs, Iowa suffered a severe stroke of paralysis on her right side a week ago, and little hopes is entertained for her recovery. Her many Buchanan friends will be pained to hear of her affliction.

Sanford Smith passed his 90th birthday anniversary last Saturday. He has been a resident of Buchanan for the past 50 years, of which time he has lived in the same house 40 years. He has been blind for the past three years, and otherwise is extremely weak.

Mr. H. N. Hathaway was the recipient of a letter, Monday from his nephew, H. B. Hathaway in Felida, Washington, stating that so far they have had a very open winter in that section, and at the time of writing, peas were up three inches in the garden, and strawberries and raspberries were in blossom.

An amusing incident occurred some time ago in Chicago, which bears mentioning. At the close of the year a harness maker, who had the aristocratic trade of that city, was taking an inventory of his goods, and also sending statements to his customers. In taking his inventory he discovered that one of his most expensive saddles was missing, and upon questioning his clerks, none knew the whereabouts of the missing article, so the proprietor thinking perhaps one of the coachmen of his aristocratic customers had picked it up by mistake, he sent a bill to each of 29 of his customers charging them with the missing article. The following day each of the 29 customers remitted for the saddle without asking any questions.

DOG'S NAME IN DIRECTORY

Utica List Contains One with Occupation Given as That of Watchman.

"Robert Badgero, watchman, No. 39 West street," is the way it read in the Utica city directory, and the woman who responded to the bell call told the man at the door that "Bob" was in, says the Philadelphia Public Ledger.

"I'd like to see him," remarked the caller, for he was in search of a watchman for his establishment.

"Here Bob! here Bob!" called the woman, and a lively bull terrier rushed into the hall.

And then the woman laughed, for the Robert Badgero in the directory was none other than "Bob," the mascot of the Utica & Mohawk Valley Railway company, who had been listed in the directory as a "watchman" because that's just what he was.

Bob is probably the only dog on record who has his name in a city directory. He is the property of Milford Badgero, private secretary of General Manager Allen, of the street railway. He is known by all employees of the line, and is always a welcome passenger, who need pay no fare.

A short time ago Bob went to Rome with the company's claim agent and became strayed there. When the claim agent reached home Bob was there. He had taken an earlier trolley.

QUEER TELEPHONE USES.

Norwegian Fishermen Drop Lines Into the Sea to Get Trace of the Fish.

Abundance of amusing as well as statistical proof of the approach of such an era of universal telephony as is implied in 20 per cent. development is not hard to find. Newspapers give publicity to all sorts of ingenious schemes for utilizing Mr. Bell's invention in heretofore unheard of ways. The instrument, says F. W. Coburn, in Atlantic, has come to be of assistance in about all the vocations and avocations of the everyday world. Not only has it annihilated time and space on the superficial earth, but the Norwegian fishermen drop into the ocean depth a line with telephonic attachment by which the gush of the approaching herring, codfish or mackerel is communicated to the anxious listeners above. In some of the most delicate operations of hospital surgery the telephone proves helpful, and in ordinary medical practice the country mother raises the baby to the transmitter in order that the physician in the village may determine whether or not the cough is croupy. Concerts have been transmitted more or less successfully over the wires, and Sunday morning preaching effectively conveyed. After a recent revival, in which scores of eager "seekers" had put in their requests for prayers, the evangelist handed his secretary a list of names with their telephone numbers and with the instruction: "Just call up each one of these sisters and brothers to-morrow morning and ask them how it goes with their souls. Tell them to keep on with their prayers and inform them that I am praying for them right along."

The Chauffeuse. He lay prostrate in the dust. "Alas!" he cried, "you have broken my heart!"

Her dark eyes, wild with fright, questioned mutely the ambulance surgeon.

"No," he said; "it's only two ribs and the left shoulder blade."

With an exclamation of relief the chauffeuse, or lady automobilist, pulled the lever and sped on.—Philadelphia Bulletin.

Haunting Fear. "Yes, there is one cloud on my future."

"What is that?"

"I do so fear that when I have worked so hard to make a name to go down to posterity they may go and put me in a hall of fame."—Baltimore American.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

LOOSE BUSINESS MORALS.

Grocer's Clerk Who Was Too Untruthful to Hold His Position.

An Arctic explorer was praising the late William Zeigler, relates the New York Tribune.

"He was a man of the alertest wit," the explorer said. "I never saw his equal in the hitting off of a person's character with an apposite story. Once I remember, he was describing a flour manufacturer of loose business morals.

"Mr. Zeigler said this manufacturer was like a certain grocer who called his clerk up before him one day and said:

"That lady who just went out—didn't I hear her ask you for fresh laid eggs?"

"Yes, sir," the clerk answered.

"And you said we hadn't any?"

"Yes, sir; that is correct!"

"The grocer, purple with rage, yelled:

"Didn't you see me lay those eggs myself on the counter not ten minutes ago? You are discharged, you mendacious scoundrel, and see that you don't look to me for a reference, either."

Sweet Corn for Bass.

Bass, as a rule, are rather particular about the kind of food they take, and even the most painstaking angler fails usually unless he offers them choice live bait. Down about Chadd's Ford, Delaware county, however, they are not so particular, and, if the fishermen have been telling the truth, they have developed a great fondness for sweet corn, which is used as bait for carp. A few grains are strung on each hook and as a carp lure it has always proved effective. But this year the fisherman is just as liable to get a bass as a carp.

His Worst Enemy.

Caller—I have dropped in, at the request of Mr. Kammerer, a friend of yours and of mine, to ask you—

Eminent Statesman—Kammerer? He's no friend of mine! He takes snapshots of me when I'm making public speeches, and prints them in the papers—rot him!—Chicago Tribune.

"They say the race is growing smaller every year," observed the scientist, gravely.

"That doesn't cut any figure!" chirped Busyman. "Nowadays a man is measured by the size of his pocket-book!"—Detroit Free Press.

State Items

After professing to have a presentiment that he was to be the victim of a serious accident, Arthur Stoyer, of Escanaba, aged 22, was caught beneath a rolling log at I. Stephenson company's plant Friday and instantly killed. Stoyer was to have been married to Miss Mildred Johnson next month and when he left her Thursday night, said he felt something was about to occur that would interfere with their plans. The girl pleaded with him to remain home but he refused and the accident followed Friday.

Benumbed with cold while stealing a ride on a Michigan Central freight train Friday, Howard Compton, of 22 Elizabeth street, Detroit, relaxed his hold on the brakebeam a short distance west of Jackson. In some miraculous manner he was thrown from under the wheels and escaped death. He was dragged for some distance by the train, being badly cut and bruised and his clothing torn to tatters. Compton is an orphan and was on his way to Kalamazoo, where he had secured employment.

A pack of cards with the ace of spades upturned and a paper explaining the power of the different cards to foretell the future, were found Thursday in a room, at Kalamazoo, in which lay the body of Miss Marion Hoag, aged 21, of Battle Creek, Mich. Feeling she was unable longer to keep up her struggle at the meager wage she earned she left it to the cards to decree whether it would be life or death. The ace of spades being upturned, she followed what she believed was the ruling of fate.

"See how brave I am," cried Eddie Moran, 10 years old, of Muskegon, as he skated on dangerous ice in the waterworks pond Friday. Martin Carlson, a milk man, was passing in a wagon. He saw the boy's hat show above the water, but the boy went down again before Carlson could wade out to him. The boy had run away from school to go skating.

Mrs. Eugene Cheney, of Fowlerville, while crossing the Pere Marquette track, Thursday morning, was struck by the westbound passenger train No. 3 and badly injured. The horse was dragged four rods. It had to be killed. The carriage was smashed to kindling wood. Mrs. Cheney's son stood at the station and saw the accident.

Showdown of Rural Routes

Postmaster General Cortelyou in his report outlines a policy of stricter adherence to the legal regulations of rural mail routes. Most important to rural route patrons is his intention to discontinue without delay any route where it is found on inspection that because of a lack of appreciation of the service the expenditure involved is unwarranted, and the announcement that where patronage is insufficient to warrant a daily delivery, substitution will be made of a every-other day service. Not every route is appreciative and too many patrons look upon the service as something to which they have the same general right as they have to receive mail at a postoffice. The fourteen million dollar deficit has brought the government to the conclusion that there is little sense in spending the people's money on those who do not appreciate it—New Carlisle Gazette.

PULLING AT THE ARGO

Wrecking Company Making Effort to Float Ship

Holland, Jan. 18—At 2 o'clock this afternoon the wrecking tugs expect to make their first pull at the Argo. Last evening the boiler supplying steam to the pumps was disabled and a boiler maker worked all night making repairs. The pumps were started this morning and when the water was taken from the ship the Argo listed on one side. It is hoped that when the tugs begin to pull at the ship that she will straighten into position, but otherwise the wreckers will have a bad job on their hands.

New Year Resolutions

A telephone subscriber, on the last day of the year, Took his receiver off the hook, and put it to his ear.

"Hello," he said, "Oh Central! Connections do not break; I have some resolutions I am just about to make.

"Hereafter, when I'm calling for a number, I shall not Fly into ugly tantrums, if the number can't be got.

"Hereafter, when you sweetly say, 'Line busy, call again,' I shall not blame you, for I know that happens now and then.

"Hereafter, when you call me, and my bell rings good and strong, I'll answer in a hurry, lest I keep you waiting long.

"Hereafter, when I make a call and have to wait a bit, I'll promise not to jerk the hook, as if I had a fit.

"Hereafter, when I'm angry because I can't hear well, I will not lose my temper and ejaculate, 'Oh, h—!'

"Hereafter, when another party on my line you ring, I'll not 'butt in' to try and catch a scandal on the wing.

"Hereafter, oh, hereafter, Central, dear, I'll try to be Just as sweet and kind and pleasant as you always are to me."
