The township of Three Oaks has made a better showing than the village did when they won the Dewey cannon. Then the most of the money was raised or given by individuals, but in the report of the town ship treasurer every tax payer in the township can claim part of the honor. Never in the history of Berrien county has any township made such a good report. In the settlement with County Treasurer Schultz, Three Oaks is credited with having paid all the taxes assessed but 97 cents. New Buffalo is the next on the list but the amount here is far larger. The delinquent taxes from New Buffalo show but \$5.65. St Jo seph made a better record than Benton Harbor. The total amount of county and state taxes returned delinquent by Treasurer Emerson was

Albert Hinkley Claims That Was Why He Was Found Guilty

HE WILLASK FOR NEW TRIAL

Judge Van Riper Promises to Present Some Startling Evidence in the Case Next Thursday

If ever an attorney was loyal to client, Judge VanRiper is loyal to Albert Hinkley, who has been convicted of manslaughter, as a result of shooting William Tuttle, who married Hinkley's step-daughter. For defending the accused, Judge VanRiper received \$50 from the county, and he declares that, if a new trial is granted, he will defend his client for nothing and spend all that he received from the county in procuring evidence.

Saturday morning Judge VanRiper appeared before Judge Coolidge and City Restaurant asked that the passing of sentence upon his client be postponed for an other week, as he expects to be able to furnish evidence meanwhile that will warrant the court in granting him a new trial.

> Prosecuting Attorney White was present and objected to the adjourn ment asked for, but Judge VanRiper stated that he expects to be able to show that, after the members of the jury agreed not to reveal anything that occurred in the jury room, one of their number related that he had had trouble with Hinkley, whom he stated is a man of violent temper, etc., and that two of the jurors have since told that this man related a story of how the shooting occurred and that there was more evidence given against Hinkley in the jury room than during the trial.

The upshot of the whole thing was that Judge Coolidge, who had intended to sentence Hinkley Saturday postponed this part of the case until next Thursday.

Judge Coolidge says that, as regards the indeterminate sentence law, the court names the minimum sentence in cases of manslaughter, but the law fixes the maximum sentence at 15 years. He says that under the old law the court had more latitude in the matter, and that for instance, a Galien man who was convicted of manslaughter, got off with a fine of \$200; and a Dayton man convicted on the same charge, got off with a fine of \$75.

A young attorney of a neighboring city has handed the following for publication. He invites the readers to help him untangle his relationship. "I met a young widow with a grown up step-daughter and I married that widow. Then my father met our step-daughter and married her. The Naval Reserve Are To Be Promoted.

Will Provide for Rifle Practice and Ether Important Features.

Washington, D. C., March 17 .-The national guard and naval milita will receive substantial aid from congress during the present season, writes John C O'Loughlin in a dispatch to the Chicago Tribune.

It is practically certain that the former will be granted an increase in its annual appropriation from \$1,000. 000 to \$2,000,000 and provided with means for the promotion of target practice. The probability is strong that the naval milita will be placed in the same relation to the United States government as is the national guard.

There are pending several bills in the efficiency of the national guard both branches of congress to increase the naval milita, but those which meet with the favor of the committees having such matters in charge are the work of interstate associations. The states appropriate annually approximately \$4,500,000, while the United States only contribute \$1,000,000. The present organized strength of the militia is about 120,000 officers and men The present total appropriciation for their support is approximately \$45 per man, of which the United States contributes \$8 and the state \$37.

> "The organized militia is subject to the call of the president in time of need and which called into service is immediately upon a war footing. The states constantly are increasing their appropriations for the support. It should appropriate annually \$2,-000,000."

Senator Dick was asked to explain the effect of the provisions of the bill upon the organization of the national guard.

"The bill increases the purposes for which the annual appropriation made by congress may be expended," he replied. "One of the beneficial features of the present militia law is that officers from the regular army are derailed to make inspections of state troops, and by the closer contact thereby brought about between the state troops and the regulars the gradual uplifting and improvement of the militia has resulted.

: These army officers in making their inspections are often put to an expense greater than their mileage allowance, which cost they are compelled to pay out of their own pockets if the state makes no provision there-Lore. It is only proper that this expense which is small in the aggregate should be charged against the federal appropriation for militia.
