CANNON AND HAMILTON

May Be Secured To Speak At St. Joseph

AT THE COMING BANQUET

To Be Held by Berrien County Republicans Probably in June—Wires Kept Hot

St. Joseph, Mar. 28.—Plans for the banquet to be given by the Berrien County Republican club are being formulated by the members of the organization and their scope will astonish the citizens when made public.

The committee have been keeping the wires between St. Joseph and Washington hot for the past few weeks and as a result they have succeeded in obtaining a promise from Joseph J. Cannon, speaker of the house of representatives, to the effect that he will be present and act as speaker of the evening. Mr. Cannon will be one of the most prominent men ever brought into Berrien county to speak before politicians here and the treat will be a rare one.

Mr. Cannon will not be able to leave Washington for Michigan until the house closes its session and at that time, accompanied by Rep. Hamilton, he will start for St. Joe. The banquet therefore will be held at some date in the early part of June when it will be possible for both Speaker Cannon and Mr. Hamilton, to be present.

Much has been done by Mr. Hamilton in securing the promise of Speaker Cannon and unless something unforeseen occurs he will be the guest of the Berrien County Republican club in June.

WILL IS FOUND

Former St. Joseph Man Who Made Fortune in Klondike Leaves All to Son

Victoria, B. C., March 28.—The last will of Frank Phiscator of St. Joseph, Mich., a Klondike millionaire, who recently suicided in San Francisco, has been found in a safe on his claim on El Dorado creek. It was executed at Los Angeles, Cal., on March 5, 1904, and leaves all the property to his 15-year-old son, Frank, attending school at Portland, Oregon. The dead man alone had the combination of the safe and it was brought to Dawson and broken open in the presence of officers.

Every Voter Should Enroll This Spring on Election Day, Monday April 2nd

An Enrollment Clerk will be with every Election Board in the State on that day to receive the names of all voters who apply for enrollment. You can enroll on that day, giving the Clerk the necessary information verbally, or handing him an enrollment slip containing the desired information. This enrollment answers for all time, unless you remove to another Election Precinct or desire to change your party affiliation. This enrollment allows you to vote on all questions submitted at any time under the new Primary Law; also allows you to vote on the nomination of candidates for the offices of Governor and Lieutenant-Governor, members of Congress, County Officers and members of the Legislature in counties and districts where that system has been adopted; also gives you the right to sign petitions for the submission of the direct voting system, or to the printing of the name of your choice of candidates on the primary ballot. The enrollment in no way interferes with the right of a citizen to vote at the regular election for any candidate on any ticket he desires, but is intended to prevent fraud or fraudulent voting at all primary elections under the new law.

Interurban Meeting

About twenty-five members of the local Modern Woodmen attended an interurban meeting of that order in Niles last Saturday evening, at Bul-lard's hall. About 300 were in attendance from the two camps at South Bend, Mishawaka, Elkhart, Dowagiac and other surrounding vicinities.

When the special train came in from South Bend with the Indiana delegation, they all formed in line at the Pike House and marched down the main street, there being about 200 in line, and with the Forester teams of several orders, in full uniforms presented a pleasing appearance.

The Mishawaka team exemplified the work, after which the members were escorted to the Woodmen hall, where a banquet was served them. A very enjoyable time is reported by all.

Jake to the Rescue

Last Thursday, while the men were engaged at work putting the new floor in the Opera House, a little kitten came up to inspect the work and amidst the noise of the many hammers, it became frightened and crawled in a hole at the top of the stairs and hid. The workmen, not knowing the kitten was there placed new boards in the floor and thus cut out the only escape for this little animal.

Monday morning, when someone was in the hall, they heard a mew, and upon investigation the animal could not be found, so manager Rough was at once notified, and with the able assistance of Harry Weaver, a hole was cut in the floor under the stage and thus these noble men rescued the little prisoner.

The regular meeting of the L. O. T. M. will be held next Wednesday March 28. The March committee will entertain, and be entertained,

THE JUDGE MUST ACT

Bracelin Ordered to Issue Warrant for His Arrest

LOVELL BILL WAS RIGHT

Circuit Judge Gives Decision Asked for by Prosecuting Attorney in Mandamus Case

Judge Coolidge has handed down a decision in the circuit court ordering Justice of the Peace Frank Bracelin of St. Joseph to issue a warrant for the arrest of George Fox, one Bridgman saloon keeper, on the charge of violating the provisions of the Lovell bill, passed at the last session of the legislature, in which it was enacted that no saloon could be established or operated within 100 rods of a school house in any unincorporated community in Berrien county. The case was argued in the circuit court Monday morning by Attorneys O'Hara for Bracelin and Bridgman for the prosecuting attorney; O'Hara claiming that the bill was unconstitutional and that the law should be applied to the entire state of Michigan to make it effective. The writ or mandamus was asked by the prosecuting attorney who thought that inasmuch as Fox had transgressed the law he should be made to suffer the consequences. He applied to Justice Bracelin for a warrant at the request of Bridgman citizens, but the judge refused to issue the warrant, taking the stand that the bill was unconstitutional. The prosecutor was called to Iowa and his case in the court was handled by Attorney Bridgman. James O'Hara, who has defended Fox in a number of hard places, acted in behalf of Fox and the justice in the case. He asked the judge to render a decision that the case might come to trial and go to the supreme court.

ONE BOY A YEAR THERE.

Situation Given as Cause for Fact That Most Children Born Are Girls.

The startling fact has just been brought out that of all the births that have occurred at Carson City, the capital of Nevada, during the past year, only one boy has been born. The total number of births according to statistics, was 57; 56 of these young Nevadans are girls. Physicians state that it is not unusual for the ratio to be uneven, and in favor of the girls, but they cannot recall where the percentage has been so great. They offer no explanation for the strange condition.

"It just happened that way, I guess," said one of the Carson doctors. "We noticed the shortage in the number of births so far as boys were concerned, but, really, until a few days ago, gave the matter but little thought. It was brought to my attention by Controller Sam Davis. I have since tried to solve the mystery, but without result."

Environment is given as a solution by one resident of Carson. The city, naturally isolated, is beautifully situated in a valley; trees and shrubbery and pretty homes abound. Except during the session of the legislature, there is seldom anything out of the ordinary going on. These quiet conditions, it is argued, naturally result in a feminine temperament, the preponderance of girls in the birth records resulting.

Grease, the Lice Killer.

It would not seem necessary to buy insect powder for putting on hens when common lard may be cheaply had and is death to lice. Lice breathe through pores in their bodies. It does not take much grease to stop up these pores, when the lice perish for lack of the oxygen of the air. Lice may be killed by grease, both when they are found on chicks and when they are found on old hens. It is something of a task to doctor a lot of old hens with grease, but it is cheaper and better than having the lice about. It is not necessary to mix kerosene with the grease, as the grease itself is entirely effective.

HER BUSINESS ABILITY.

Piano Deal That Netted Resourceful Wife One Hundred Dollars.

Senator Platt, in a humorous speech, was praising woman at a dinner party. "And her business ability!" he exclaimed. "Only the other day the young wife of a young friend of mine said excitedly to her husband on his return home:

"John, I have made more money than you to-day."

"How much have you made?" he asked.

"A hundred dollars," she said proudly.

"Good, good!" cried the young man. "And how did you make it?"

"Well," said the young lady, "you know my old piano that you only paid \$300 for? I sold it to-day for \$400."

"Gracious, and what are you going to do with all the money?" he asked.

"Oh, there isn't any money," she said.

"Eh?"

"You see, I sold the piano to a dealer," she explained. "He gives me a new one for \$400 and allows me \$400 for the old one. Haven't I done well? if you'd stay home and let me run your business for you, you'd grow rich. Think, \$100 a day! That is over \$300,000 a year."

MARYLAND'S OLD VOLCANOS

Three Peaks in Western Mountains Found to Be Metal-Bearing Volcanic Rock.

Prof. Philip R. Uhler returns to the city with the report of a discovery which he made in the western Maryland mountains. Three peaks, the principal one named Buzzard's Knob, crown a plateau about six miles from the city, reports the Baltimore American. It was for Prof. Uhler to discover that the three prominences are in fact volcanoes, and that they are the very oldest type of volcanic rock that is found in the United States.

These peaks are of a different form from volcanoes like Vesuvius. In the latter form of volcano molten lava and stones are forced up by superheated steam, leaving a deep hole, but in these craters in western Maryland the whole mountain was originally in a molten condition and the top crust was forced upward in a dome-shaped form, and such lava as did not escape was forced out in vents at various places. The volcanic rock of the region is metal-bearing, and specimens of gray, green and gold copper were found by Dr. Uhler. The domes of the craters were somewhat elliptical in shape.

With his body frozen to the ground in an alley at Flint John Scanlon of Ann Arbor, was discovered early Friday. He was hurried to a hospital in a comatose position. His feet were so badly frozen it is feared amputation may be necessary. Scanlon is about 45 years of age and says his wife lives at Fifth and Calkins street; Ann Arbor. He had been intoxicated last night, it is alleged.

Fifteen hundred dollars' worth of high-grade cutlery and revolvers were taken from the W. B. Jarvis store of Grand Rapids in the heart of the city within a block of the Pantlind hotel Thursday night. Entrance was secured through an interior skylight leading from another building. Though four patrolmen pass the front and rear doors of the place, the burglary was not discovered until Friday morning. Only the best stock was taken. It is estimated that 235 knives, ranging from \$1 to \$11 in price, are gone. Many revolvers are also missing. The police think the work is that of an organized gang of professionals who have a "fence" where they can dispose of just such goods as were taken.

The Robert Gage Coal Co's big new mine, just west of Bay City, is out of commission, being flooded with water. Several days ago the roof in a worked-out room caved in, letting in water from the gravel stratum above. The mine is flooded with from two to four feet of water, but by tomorrow it is expected to have additional pumps at work. It will take only a short time to get the mine in operation. Nearly 300 men are idle. The mine was hoisting about 1,000 tons of coal daily.

While the family in the home of August McKeehn, of Sault Ste. Marie Thursday were sleeping soundly fire broke out. To procure water the 13-year-old daughter rushed through the flames at the peril of her life and after a brave fight put out the blaze. The fireman says it is a wonder the child was not burned to death.

Articles of incorporation of the Consumers' Coal Development Co. Ltd. of Saginaw, have been filed with the secretary of state at Lansing. The capital stock is \$75,000. The company, the incorporators of which are not yet announced, has already under lease 1,000 acres of coal land in the south of the city. It is planned to sink three mines eventually. The company is formed for the purpose of operating on the theory that coal can be mined and sold to local consumers at a greatly reduced price over that demanded at present, and still will pay a good dividend to the stockholders of the concern.

The first day of spring at Negaunee was ushered in with one of the worst storms of the winter, which continued all day, accompanied by a 75-mile an hour gale. There is an average depth of three feet of snow still on the ground, and this storm has added at least six inches more.

International Theatre, Chicago, W. S. Cleveland's Greater Vaudeville

An all star bill is announced for the International Theatre, which, under Manager Cleveland, has become the most popular place of amusement in the country. Beginning Monday, March 27, a great aggregation of entertainers headed by the clever Artists Carter DeHaven and Flora Parker. This pair of stars recently closed a record-breaking engagement in London, and this will be their first appearance in the United States. The sketch they present is the daintiest ever seen. Another feature up to the same high standard, will be Dolan & Lenhart, two stars of the high-prices Theatres, who will offer "The Wire Tappers," the most intensely exciting one act play on the stage today. The great Juanitas, a trio of European gymnasts direct from the Moscow, Russia Winter Garden, will present their thrilling series of acts and Sing Ling Lo and company, exponents of Oriental magic, will repeat the mysteries which won them the favor of the Dowager Empress of China recently. Maude Rockwell, America's foremost operatic soprano, has been especially engaged for the week. Eph. Thompson and his wonderful elephants, which have astounded the people of Chicago for the past week with their performances will continue to draw the crowds. The huge beasts have been taught the most novel acts imaginable, and the critics unite in the conclusion that they are without equals. This together with several other entertainers, will make this bill an unusually attractive one.

One dollar a year for The Weekly Inter Ocean. \$1.00 a year for the BUCHANAN RECORD or both, by our recent special arrangement. \$1.05 for fifty-two weeks of genuine news from far and near.

The Talented Actress, Mrs. Leslie Carter

On next Tuesday evening, March 27, Mrs. Leslie Carter will appear at the Grand Opera House, Chicago, in "Adrea," the successful play by David Belasco and John Luther Long which ran longer than a year in New York at the Belasco Theatre. The play is one in which Mrs. Carter is permitted to reach the full scope of her marvellous emotional powers, and the period and locale, a mythical kingdom in medieval Italy, and calculated to provide Mr. Belasco with material for indulgence in his passion for rich settings and stunning theatrical effects. It is conceded to be the most masterful thing in this way that the genius of Mr. Belasco has ever evolved and already the interest in this engagement has exceeded anything at the Grand Opera House with the exception of the Bernhardt appearance there a few months ago. Mail orders for seats have fairly deluged the box office and the advance sale is almost unparalleled. Since Mrs. Carter will remain four weeks, however, splendid locations are yet to be had for nearly every performance.

Mrs. Carter's company of course, is the same which supported her during her long run in New York. On account of the demands made upon her strength by the portrayal of "Adrea" she will not appear until Tuesday night, then having time to recuperate from the long journey west.
