President Victor M. Gore of the Benton Harbor board of education, is elated over the United States supreme court decision which will put nearly \$10,000,000 into the treasuries of the various school boards in Michigan. Not only that, but it means a larger annual sum from the taxes collected on railroads in future years.

"The decision means \$20,000 to the school fund of Benton Harbor," said Mr. Gore Wednesday morning. "It means that the new additions which are to be added to Morton school will be paid without increasing the school tax and without the issue of any bonds. The new Morton building will be rebuilt after the plans for the addition to Britain, with some few changes and alterations which have been drawn by City Engineer Wightman. There will be a new roof and new heating plant in the building and the four new rooms will be larger than the rooms added to the Britain school. The cost of the improvement will be \$16,000 or thereabouts. "The decision of the supreme court is final and the tax money will be ready for use by September, by the time the building is completed."

The funds received by the various townships will be very useful, for in many cases the school buildings are in bad shape and new structures are needed, but the tax payers have not seen fit to vote the amount. New school houses are needed at New Buffalo, in Lake township, and in sever-

al other localities. In Chikaming, one of the districts is too large and the children have to go too far to school; an effort has been made to have the district divided, but without success on account of the expense. The \$4,000 that the township will receive will more than pay all the cost of creating the new district and building a new school.

There is no appeal that may be taken from the decision, as it is the decree of the highest tribunal, and there is nothing for the railroad to do but to pay. Not only must the railroads pay the back taxes under the new law but they must pay taxes on the same basis for years to come.

It was the fight of Governor Pingree's life to secure for the state equal taxation. He declared that the railroads were not paying their just share of the tax burden and under the law he proposed the taxes of the railroads will be at least doubled.—News Palladium.

NEW TRIAL UP TO JUDGE

Arguments In Hinkley Motion For New Trial Finished Today.

AFFIDAVITS FROM BOTH

Van Riper Attacks Jurors in the Case and White Defends Them.

The arguments for and against a new trial for Albert Hinkley, who was convicted of the murder of William Tuttle by a jury in the circuit court were heard today by Judge Coolidge after which he took the case under advisement to make a decision later.

The argument was opened by Attorney VanRiper. He claimed errors on the mention of the wife's testimony being considered incompetent and on the introduction of testimony to show specific acts of cruelty on the part of Hinkley. In this latter matter he said that he could not have objected to the introduction of such testimony at the time, since his objection would tend to prejudice the jury. He introduced at the hearing an affidavit from Ol. Earl, in which the deponent denied that Hinkley had mistreated his horses while he worked in the livery stable, as was testified to by D. H. Toll and Henry Rennie during the trial.

Mr. VanRiper also introduced two more affidavits, one signed by A. G. Bruce and the other by Al. Brupke and Frank Moreland, in which they related conversations with Juror Geisler relative to the alleged attacks on Hinkley in the jury room and stated that Geisler told them that the testimony in the trial was not nearly so convincing as that brought out in the jury room.

He also started to read another affidavit signed by William Morrow of Benton Harbor, but as Morrow refused to give the name of a juror from whom he claimed to have received similar information, Judge Coolidge declined to listen to the affidavit on the ground that Morrow might be lying, and that the juror

had no means of defending himself. The question of the veracity of of Charles Fox, the main witness of the state in the case, was brought up, and Judge Coolidge stated that there was no doubt that Fox was a liar.

Attorney White, for the state, began his argument, at the conclusion of Judge VanRiper's address. He stated that the jury was impartial in all respects, and that so far as he knew there had never been a better jury in this county.

The Yaquis of Mexico seem to be waiting for some one to come along and write them up as the last of the bad Indians.

The eastern states are trying to find a use for the dogfish. Why not call it a by-product and make a mint of money?

The new battle ship New Jersey made 19.48 knots per hour on her trial trip. While not the biggest fighter afloat, she could run away, but the chances are that she wouldn't.

During the last twelve years Massachusetts has built 620 miles of state roads, at a cost of \$5,760,000. Ninety per cent of the new roads are macadam. The way to improve the highways is to improve them.

The pure food bill pending in Congress provides that a pound shall mean sixteen ounces of a given article, exclusive of the wrappings. It is easier to put through such ideas since it was decided that a dollar means 100 cents.

John Burns, the English reformer, has a job at high pay, and at one of his meetings a woman cried: "How do you spend it John?" Burns replied, "Ask the missus," and the crowd evidently thought no more need be said on that point.

ELECTION IN JUNE

Is The Next Number on the Program for 1906

The attention of politicians are now drawn to the primary election on the second Tuesday in June, which is the next election for 1906.

Those who enrolled for the election on April 2, will be able to participate in the nomination of governor and lieutenant governor, and also vote on the question of continuing the primary system of nominating the state officers. Those who did not enroll for the last election, will not be entitled to a vote for these officers.

Aside from electing these various officers, delegates will be elected to a county convention, which in turn will elect delegates to a state convention, and the state convention will nominate the remainder of the state ticket.

MAY BREAK THE RECORD

County Clerk Miners Expects to Issue Many Licenses

St. Joseph, April 3—The number of marriage licenses issued in the county clerk's office this year has reached the 200 mark. The demand for licenses has been steady from the very first of the year and many couples came here in the coldest days of winter to obtain their licenses. According to the indications St. Joseph is about to become more popular than ever before as a Gretna Green.

Although last year was the banner year in the history of St. Joseph, the present season gives promise of passing it. At the present time the number of licenses issued is 40 ahead of the number issued last year at this time. Last year's record was supposed to be unapproachable, but with the new interurban and a "greater St. Joe," the marriage record of last year may be made to look like a plugged nickle and County Clerk Miners is the man who believes this will happen.

Attention Sir Knights.

A grand County Maccabee Rally will be held at Burkhard Hall St. Joseph Michigan Tuesday Evening April 19, 1906. A class of from twenty-five to one hundred will be admitted to the order. It is hoped that representatives from every Tent in the County will attend this meeting. We will have a good program, a good speaker, a banquet and a good time in general.

To Ailing Women

A Little Sound Advice Will Help Many a Sufferer in Buchanan

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the urine when the kidneys are well are retained in the body when the kidneys are sick. Kidneys and bladder get inflamed and swollen, crowding the delicate female organs nearby and sometimes displacing them. This is the true cause of any bearing down pains, lameness, backache, sideache, etc. Uric poisoning also causes headaches, dizzy spells, angus, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, the remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well.

Mrs. C. J. Hemstead, wife of C. J. Hemstead, grocer, living at 215 Cortland street, Dowagiac, Mich., says: "My back troubled me for a long time and the aching was so severe that at times I could hardly attend to my household duties, for the pain went clear through my shoulders. I doctored and tried different remedies but none seemed to do me any good. This was my condition previous to using Doan's Kidney Pills. I could notice the good effect of the treatment at once and it was only a short time until my back was as strong as it ever was and free from pain. To say I endorse the preparation mildly expresses what I think of it."

Plenty more proof like this from Buchanan people. Call at W. N. Brodriek's drug store and ask what his customers report.

We have had several fires lately. A small blaze a day or two ago originated in a peculiar manner. A kite which a boy was flying came to grief on the chimney of a house and was abandoned. After a little it ignited and the flames crept down the kite's tail which lay on the shingles and set them on fire.

While Attorney Wells Riford and family were taking dinner with Mr. and Mrs. Christie Sweet last Sunday evening, their large finely furnished house caught fire presumably from

the furnace in the basement and was very badly damaged, the interior being almost entirely ruined. The firemen were seriously hindered in their work first by the bursting of the first hose laid, then by the melting off of the gas pipe, which of course liberated a great quantity of gas and a hole had to be cut through the foundation before it could be shut off. The loss is about \$4000 fully covered by insurance.

International Theatre, Chicago, W. S. Cleveland's Greater Vaudeville

The international theatre has been enjoying an unprecedented business. In fact, the patronage of this popular house since Manager W. S. Cleveland inaugurated his "greater vaudeville" has increased until it is now the leading vaudeville theatre in Chicago. The reason is found in the high quality and novelty of the acts presented. Beginning Monday April 9, another galaxy of star performers will be seen. The ultra attraction will be Hill and Silviani, acknowledged to be the most sensational unicycle act in the world. It astonished and electrified the French and Austrian audiences before coming to this country and their great acts will be produced in their entirety. During the recent past this pair of talented performers broke all records for long runs at Hammerstein's theatre in New York. Another European act will be presented by Green Bros., the marvelous comedy acrobats and Bat Jugglers who were bidden to amuse the eccentric Shah of Persia. Caroline Kelly McCord and company in a new play. Their performance is mirth provoking and at the same time marvelous in its dexterity. Philbrooks and Reynolds, an actress and actor of fame will offer their prize comedy conceit in one act entitled "Miss Steno, Stenographer," while Kresco, Connelly and Gazelle, a trio of burnt cork singers and dancers will entertain with new specialties. Shean and Warren who, through their popularity with Chicago audiences have proven a bit hit the past week, have been induced to put off their Boston engagement and will continue for another week. A half dozen other great numbers will make up a show seldom seen.

State Items

Fred Smith, aged 70, a well-to-do farmer living three miles south of Decatur, hanged himself in his barn, Tuesday morning. He appeared in his usual good spirits when he went out to do his chores, but as he did not return for breakfast his family grew alarmed and searched for him finding him dead. A widow and three grown children survive.

Two men whose names cannot be learned, were killed on the Canadian Pacific track, at Echo Bay, Tuesday night, supposedly by a passing train. The bodies were brought to the Soo Wednesday afternoon, not being found until during the day. The men came from the Manitoulin Island district, it is claimed, but nothing more is learned. Death was probably accidental.

A freight train on the Copper Range railroad was delayed fifteen minutes at Seager thirty-five miles south of Houghton, Tuesday, by a herd of deer on the tracks. They had evidently been driven from the woods by wolves and were too frightened to heed the approaching train. The trainmen counted thirteen animals. It was some time before they could be driven off the tracks. One deer was chased for fully two miles before it sprang into the bushes.

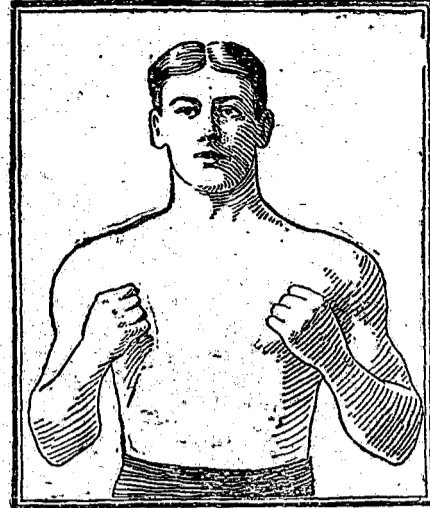

James Synder, aged 55, a farmer residing in Seneca, is in a critical condition as the result of attempting to end his life while despondent. He was discovered by his son in the wooded hacking away at his head with a sharp ax. Several bad cuts had been inflicted, but it is thought he will live.

To put an end to the intense pain caused by disease, Mrs. John Patter son of Marquette blew out her brains with a revolver, Tuesday. She was the wife of a farmer living four miles from Newberry, Luce Co.

While playing with matches Monday Kenneth Nottingham, of Adrian, aged 8 years, was very severely burned. The physicians hope for recovery if complications do not arise.
