## IS SETTLED AT LAST

### Michigan Central Compromises With Girl Students

The Michigan Central railway company has settled the suits brought against it by the Misses Florence Geer, Helen Penn and Gertrude Loomis, and one of the most bitterly fought cases in the history of the local courts has been brought to a sudden end.

The settlement has just been made by Gore & Harvey for the railroad and Cady & Andrews and John J. Sterling for the complainants. Miss Geer received \$100 and pays the costs of the long litigation, while the other two girls receive \$50 each and pay the court costs.

While these three young ladies were attending school at Ypsilanti in 1903, in company with Miss Alberta Van Camp and Miss Bass, they started for home being advised by the agent of the Michigan Central at Ypsilanti that there was a train out of Kalamazoo to Grand Junction so that they could reach home that night. When they reached Kalamazoo they found that the train to Grand Junction had been taken off and as they were out of funds they were in a worried state until they met a Benton Harbor friend who loaned them the money they needed. Miss Bass settled with the company for \$10 while Miss Van Camp sued and obtained a judgment of \$100. This the supreme court sustained but the evidence in the case of Miss Geer which followed brought out some new points and it has been tried two or three times in the circuit court and the lower court has always rendered a verdict for \$100, the limit under the penalty act. The brief to carry the case to the supreme court again was about to be printed when the attorneys came to the above settlement.

## HAMILTON IS A LEADER

### New York Times Pays Tribute To Statesman

The pictorial section of the New York Times, of March 4 contained a large photograph of the national house of representatives, taken while that body was discussing the Subig Bay fortifications bill. The four most prominent men in the discussion were given more prominence than any others in the photograph. The four were Representatives Payne of Minnesota, Hamilton of Michigan, Sereno E. Payne of New York and W. P. Hepburn of Iowa. Of course the New York Times is above doing this sort of thing for pay, and hence the picture represents the judgment of men by one of the greatest newspapers in the country and one of the most critical. Mr. Hamilton is the only member of the Michigan delegation who holds a chairmanship, and that is of the important committee on territories. The opinion of the New York Times is but one more evidence of the high standing Mr. Hamilton has achieved, the estimate made of him by competent and disinterested authorities.

### WIDOW GETS BIG VERDICT

Mrs. Martha Millard, of Niles, widow of the late Winfield Scott Millard, who was for years at the head of the Michigan Wood Pulp Co. Niles has been awarded a verdict for \$30,000 against her husband's estate. After Millard's death his widow claimed his brother took from his safety vault in Chicago, a quantity of stock and gold certificates which belonged to her, and she sued to recover \$60,000. The case was tried in Chicago.

## UNPOPULAR PRIMARY LAW

### Will be Put Through Course of Judicial Sprouts

Lansing, May 23—All efforts to keep the new primary election law out of the courts have failed, and certain provisions of the new law are now in the supreme court. An order issued requiring the secretary of state to show cause on Thursday why he should not give the law a different construction than that which the attorney-general has placed upon it.

State senator W. E. Brown, one of the two members of the state senate who voted against the measure, is by a strange anomaly representing the side of a broader construction of the law, to the end that the Republicans of the seventh congressional district may nominate a candidate for congress by direct vote, the petitioner in the case being Louis C. Cranston, of Lapeer, editor of the Clarion.

In his exhaustive opinion Atty. Gen. Bird held that petitions for the submission of the primary law must be signed by 20 percent of the party voters as determined by the vote cast for governor at the previous election. In the seventh congressional district the Republicans have filed petitions containing the signatures of 20 percent of the enrolled voters of the party, but the number does not constitute 20 per cent of the votes cast for the Republican candidate for governor.

According to the attorney-general's ruling the petitions are insufficient and the question cannot be submitted. The secretary of state refused to give notice of the submission of the law in the seventh congressional district and the supreme court has issued an order requiring that official to show cause why he should not be compelled to do so. Of course a speedy decision is greatly desired, as the secretary of state will send out his notices for the primary early next week.

Harry K. Austin, of Alpena, is expected here to present to the court the question whether petitions for submission mailed on May 12, and not received here until May 14 after the expiration of the time for filing petitions cannot be counted, and the law submitted to the Republicans in the twenty ninth senatorial district. "We have made a sincere effort," said Deputy Atty. Gen. Chase, "to construe the new primary law in such a manner that it could be applied to the nomination of officers this year. It is no secret that the task was not an easy one. Its provisions are in definite and contradictory."

## TROUBLE AT JACKSON PRISON

### Convicts Threaten Life of Deputy Warden

Jackson, May 22.—It was reported about the prison this morning that Deputy Warden Wenger has been asked to resign owing to threats made on his life by several of the convicts. Warden Armstrong denies any knowledge of the affair and lays it to the fact that many of the convicts are ugly about being denied some privileges that they formerly enjoyed.

### NOTICE

POSITIVELY all advertisements and news for the Tuesday and Friday issues of the BUCHANAN RECORD MUST be in not later than Monday and Thursday nights, if they want to get them in for the paper on the following day. All news brought in later, will be held for the next issue.

It is unsafe at present to tell even a fish story in Washington.

It is a poor political party whose existence is in peril when railroad passes are cut off.

A Texas paper says "the strawberry crop is large, likewise the berries." How about the boxes?

Can it be that any one in Washington, excited by the rate bill, has discovered what "rail mad" spells backwards?

A new light seems to be breaking in the east. The Standard oil people have issued a statement to the effect that their business is being conducted on the highest moral lines.

America has absorbed more than 2,000,000 German immigrants within the past thirty years. It may interest the kaiser to learn that Uncle Sam considers them the most prudent and industrious members of his big family.

One of the large railway systems is preparing to put phonographs in the place of human announcers of the names of stations and the time for the departure of trains. It will seem strange to have a silvery distinctness take the place of an unintelligible gurgie.

## IN DEFENSE OF MR. CHAPIN

Always Pays His Taxes on Equitable Assessment

Editor Sun: We notice an article in your paper under date of May 19th (taken from the Record) in which some one accuses C. A. Chapin of dishonesty and the officials of Buchanan as being an ignorant body. In article referred to it is claimed that Mr. Chapin is so unscrupulous as to refrain from paying his tax. Any one acquainted with Mr. Chapin will know that he never refused to pay a just tax, but it is when he finds his property over assessed that he objects and because he has the courage to go into court and establish his rights and there find the proper amount his

assessment should be is no reason for saying he is trying to avoid payment of his tax.

It always has been and always will be a fact that the persons who possess much of this world's goods will find it necessary at times to go into the courts and defend their right to such property, and because Mr. Chapin found it necessary in this case (and won) is no reason for saying he is dishonest and that all the officials of Buchanan are fools.

Bonine.

The above, taken from the Niles Sun of May 21, will hardly convince the taxpayers of Buchanan, who know the facts in the case, "that Mr. Chapin is so unscrupulous as to refrain from paying his tax."

If the writer of the above article had taken the trouble to inform himself upon this subject, we do not think the article would ever have appeared in print.

The writer says: "Because he (Mr. Chapin) has the courage to go into court and establish his rights and there find the proper amount his assessment should be, is no reason for saying he is trying to avoid payment of his tax." In this statement the writer has shown conclusively that he is not familiar with the facts, as Mr. Chapin did not go into court to find the proper amount he should be assessed, so that he could pay his taxes. He did go into court however to have his entire assessment for the year of 1904 set aside, and require the village to return to him the entire amount paid as taxes for that year, (under protest), together with the interest that would accrue on same from date of payment until the present time.

Does this not look like a very good "reason for saying he is trying to avoid payment of his tax?" Would it not be wise for people to inform themselves before they rush into print?

### ANARCHY

A Syracuse editor, subsidized by a million dollar donation from Standard Oil to his university, has been calling President Roosevelt an anarchist.

It is a hard name. But a million dollar subsidy naturally calls for great energy.

The president declares Chancellor Day, has attacked corporate and private business, has attempted to intimidate courts and has dragooned the senate.

The charge that President Roosevelt is an anarchist is remarkable in that it comes only from a man with a million dollar contribution. It is remarkable further in that it can gain acceptance from other men who in one way or another have had their intelligence and patriotism corrupted by Standard Oil money.

There is no denying that there is anarchy in this country. But it is never found seeking to enforce law.

Anarchy is detestation of law. The clearest type of it is Standard Oil itself, which owes its very existence to its contempt for and defiance of the law.

The giant trust is anarchy and the father of anarchy. The men with billions, like the men with bombs, recognize no law but might.

The only remedy is the law. States have sought in vain to apply it, but the power of the trust is greater than

the power of any state. It is greater than any power except that of the nation.

It is complained that President Roosevelt should have left the problems presented by the Standard Oil Co.'s evasion of the law entirely to the grand jury to settle. As if any grand jury in any court could seize and overthrow such a giant as this most ingenious interstate conspiracy constitutes! As if countless grand juries have not attempted it and failed!

There is anarchy indeed, powerful and insolent. But it is not in the White House.—Kalamazoo Telegraph.

Opera House, Chicago

Daryl Scott in "The Prince Chap" opened at the Grand Opera house, Chicago, with a grand ovation to the clever star and company and the keenest approval for the show for the beautiful comedy drama and its author. The Chicago critics to a man approved. The following are a few excerpts from the reviews:

Tribune:—"See 'The Prince Chap' at the Grand. It will please you. If it doesn't, see a doctor, for your heart isn't working properly. But if you are in normal condition and are a normal person, then you'll have an evening of pleasure watching the sweetly simple play that Edward People has written and Cyril Scott and an excellent company are presenting with delightful completeness. It has the same delicate music and poetry that are found in 'Peter Pan.' Cyril Scott is a fine manly man, devoid of all effeminacy or silliness, with tenderness and gentleness shining out from every part of him. The performance was admirable throughout and calls for only the heartiest commendation."

Chronicle:—"There is wit in it and many bright lines and it ends right. There is much pathos and dramatic intensity at times. The play is a clean one and contains that one touch of nature establishing the kinship of men and women. It is a pretty story and admirably played. Cyril Scott has an enthusiastic manner and his work is flawless. He makes the most of every opportunity and is thoroughly enjoyable. Among other novelties is a part which takes three different persons to play. The entire company is excellent."

Chicago Examiner:—"The Prince Chap" delights its audiences at the Grand. Cyril Scott in the title role was well supported in this interesting play. The story is sweet and simply, in fact a cleaner, sweeter or more interesting play than 'The Orinice Chap' has not made its way to the footlights. Good houses at the Grand are predicted for the Eastern success."

Inter Ocean:—"Cyril Scott was natural, reasonable and enthusiastic. This is a charming little play for the sentimentalist. It weaves a fairy story around a poor but handsome artist and the immature but sweet and tender ward whom he brings up. The part of Claudia is played by a different person in each act and is a keenly interesting character. 'The Prince Chap' has moments that are tender and true and little shoots of human interest strike underneath the third rib and inspire healthy quaverings of the heart because it deals with the life of a child and the generous impulses of a good man."

## Stylish Hats

There is no article of apparel which counts so much in a man's appearance as his hat, and it is remarkable to notice the number of men wearing stylish well fitting clothes and unbecoming hats. This is usually not the fault of the man, as he tries to get a hat that will look well on him, but rather because he can't find the shape or style he wants. Adlers hat section offers every popular shape in all proportions, in both stiff and soft hats. You might think it would hardly pay you to go from Buchanan to South Bend for a hat but when you know you can get just the shape and style you want in a hat which we absolutely guarantee as to wear, then it will certainly pay you.

## THE NEW VISIBLE

### At Last a Perfect Visible Typewriter

The One Typewriter That Correctly Solves the Objections That Have Always Heretofore Been Made Against "Front Strike" Machines.

Visible writing has always been considered as desirable by practically all typewriter manufacturers, but the difficulties to be overcome in construction in order to secure durability have discouraged the very large adoption of these machines. The invention of the method of assembling the type bars as it is done in the Fox Visible has, however, made possible the use of a wide pivotal bearing in the type hanger, thus insuring the most perfect alignment at all times and a durability that is equal to that claimed for any "basket type" machine. In building this new model, we have all the advantage of the knowledge that we have gained in building and placing the regular Fox models on the market and we are able to avoid all those experiments found in new machines which are so expensive to the purchaser.

### Here is a Short Description.

**THE TYPE HANGER**—The hanger has a pivot bearing 7-16 of an inch wide. This allows the use of a heavy type bar, providing an adjustable pivot bearing which takes up wear as it occurs, thereby giving a permanent alignment that is impossible to secure with a narrow bearing without adjustment, and avoiding the trouble caused where "forced alignment" is necessary. This is the feature that has heretofore been considered as being impossible to secure in a visible writing typewriter. It is found only in the Fox and places the Fox Visible in a class by itself.

**TWO COLOR RIBBON**—The ribbon movement on this machine is simply perfection. It reverses and oscillates automatically, requiring no attention from the operator from the time it is put on until worn out. When a two color ribbon is used, by simply touching a button on the keyboard the second color is secured instantly without raising the hand or even looking.

**THE INTERCHANGEABLE CARRIAGE**—The carriage is so constructed that it can be quickly removed and a carriage of different length substituted. One

machine can be purchased with different sizes of carriages, thereby effecting a great saving over the ordinary method of buying a long carriage machine complete. The carriage is ball bearing and runs with a tension of only 1 lb.

**PERFECT VISIBLE WRITING**—The entire line is visible all the time.

**THE KEY TENSION**—The force required on the part of the operator to print a letter is only 2 1/4 ounces. This is from 25 to 50 per cent. less than any other. It is a vital thing both from the operator's standpoint of less fatigue and the owner's of greater durability.

**THE LINE LOCK**—When the carriage reaches the end of a line, the keys lock and nothing more can be written until the release button is used or the carriage returned to begin a new line.

**ALUMINUM KEY LEVERS**—Key levers are made of aluminum. It is more expensive than steel or wood, but it is very much more desirable.

**TABULATOR**—The Fox ten stop decimal tabulator is attached when ordered, at slight additional expense. It is the only decimal tabulator in use on a visible typewriter.

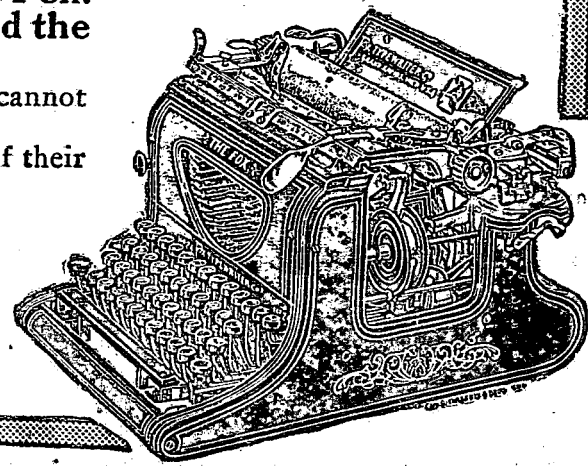

Every feature on this machine has been tried out and demonstrated as successful on the Regular Models of the Fox. Unprejudiced experts have without hesitation pronounced the machine a marvel.

Ask your nearest typewriter dealer to show you this machine. If he cannot we will make it easy for you.

The regular models of the Fox are still the most perfect machines of their kind and their manufacture will be continued as before.

I ledo. says: "At an early age I was the victim of youthful complaints. I treated with a dozen doctors, who all promised to cure me. They got my money and I still had the disease. I had given up hope when a friend advised me to consult Drs. K. & K., who had cured him. Without any confidence I called on them, and Dr. Kennedy agreed to cure me or no pay. After taking the New Method Treatment for six weeks I felt like a new man. The weakness ceased, wormy veins disappeared, nerves grew stronger, hair stopped falling out, urine became clear and my physical system vitalized. I was entirely cured by Dr. Kennedy and recommend him from the bottom of my heart."

A big Sunday School mass meeting will be held at the Methodist church next Sunday. It will be participated in by the different schools of the city, and be addressed by C. T. Schaeffer, the noted evangelist.

A powder mill was blown up early last Saturday morning near Kenosha, Wis., which did damage to 100 houses. The shock was plainly felt on the east shore of the lake, and people in many cities and towns thought they were experiencing an earthquake. Our little city was shaken up very noticeably and the News-Palladium issued an extra telling about the earthquake. Houses shook, doors and windows rattled and people were awakened. A few went to their doors, thinking someone was trying to get in. Some authorities still assert that it was a veritable earthquake.

**State Items**  
Charles J. Bingham, a Chicago merchant, was drowned in Fox lake, six miles from Whitehall, Muskegon county, late Monday. He was standing in a boat fishing, when an attack of heart trouble seized him, and he fell into the water. His body was found standing erect in seven feet of water.

Mrs. John Noxon narrowly escaped burning to death while at the home of her father, H. I. Northrop, in Vevay, just east of Mason, Tuesday evening. Mrs. Noxon picked up a lighted lamp which was in a chicken brooder, and spilled the oil over her clothes. The oil ignited from the lamp. Cries of the young woman attracted her father, who tore off the burning clothing, saving his daughter's life. The burns are quite serious, but probably will not prove fatal.

Children playing with matches caused a large loss Tuesday afternoon by setting fire to the grain barn on the farm of Herbert Smith, north of Linden, and occupied by Fred Mancoeur. The flames quickly spread to another barn. Both were totally destroyed with the contents, consisting of hay, grain, farm implements and carriages. Three head of cattle and other live stock owned by Mr. Mancoeur were lost. The entire damage is estimated at \$2,000, with \$450 insurance.

Although Warren E. Roberts, of Plainwell, is a man weighing 200 pounds, his body was compressed to less than four inches in thickness by a shocking accident from which it is feared he will not recover. In the work of tearing down a large barn Tuesday, all but the last timber had been raised. The ropes gave way on this stick, which was twenty feet long and ten inches square. It fell with crushing force, striking Mr. Roberts on the back and hurling him to the ground. His spine was badly injured. Roberts is a prominent contractor, of Martin. He has a wife and four children.

Sensational results have followed an investigation by Jacob Bainbridge superintendent of the water department, at Sault Ste Marie. He found that for nearly two years the stand pipe had been empty, although it is supposed to be filled with water. Had a fire broken out during that time, with the pumping plant out of order, the city would have been at the mercy of the flames. Bainbridge is a new officer, this being his third week in the business. He has found that owing to carelessness the pipes leading to the standpipe have been split so that water cannot be pumped through them. The standpipe cost \$35,000.

The ladies of the Wm. Perrott Circle, will meet in their hall on Wednesday morning, May 30 to arrange the flowers for Memorial Day. All having flowers are requested to send them to the hall on that morning.
