AN EXCELLENT ADDRESS

Was Delivered by Rev. R.
Bready, of Niles

A PLEASING PROGRAM

Was Rendered at the Cemetery, Where
the Exercises Were Held

The fitting program that had been
prepared for the memorial exercises
on Decoration Day, were carried out
in full. Although the inclemency of
the weather prevented many from at-
tending the exercises, there was an
exceedingly large attendance.

The soldiers, ladies of the G. A. R.
with some of the school children,
gathered at the postroom at 1:30,
where they received flowers, to de-
corate the graves of the dead, but
not forgotten hero's. They all form-
ed in line and were escorted to the
cemetery by the Buchanan Band.

After the graves had been visited
by the surviving soldiers they all
gathered in the soldier's lot, where
following program was carried out:
Music by Band
Music by Choir
Prayer by Chaplain
Vocal Music
Address by Rev. Bready
Vocal Music

Rev. R. Bready, of Niles, was the
orator of the day, and he delivered
not only a very appropriate address
but an eloquent one. The citizens of
Buchanan were greatly pleased with
his speech, and trust they may be
able to listen to him again, at some
future period.

After the program had been car-
ried out, the soldiers then decorated
the graves of the unknown, after
which they returned to town, where
they disbanded.

IN MEMORIAM

CATHERINE VITE

Catherine Vite, nee Rough, young-
est daughter of Jacob and Nancy
Rough, was born in Juniata Co. Pa.,
on March 26, 1836, and died in Bu-
chanan at her home on Roe street on
May 26, 1906, at 6:15 p. m. from a
complication of diseases. Aged 70
years, 2 months.

When 13 years of age, she came
with her parents to Portage Prairie,
taking up their abode on the farm
now occupied by Geo. W. Rough.
It was here that she spent her early
life.

She was united in marriage to
Henry Vite, on April 15, 1856. This
union was blessed with three child-
ren, 2 sons and 1 daughter, all of
whom are living. On March 17, 1891,
The Lord came into the home so hap-
py and blessed and took the dear
husband and father to Heaven.
Shortly after this, Mrs. Vite moved
to town and took for her companion,
her grandchild Effie, with whom she
spent the last days of her life happily.

When about 17 years of age, she
was converted to Christ and joined
the Evangelical church, of which
she was a consistent and faithful
member until death. She lived a
beautiful christian life which will
continue to work for good many
years to come. She died with the
triumphant faith in Christ. She
was an active worker in the Sunday
school and Ladies Aid society. Noth-
ing was too much for her to do. She
will be greatly missed.

There remains to mourn her de-
parture, her three children, Mrs.
Noah Frye, of Pigeon, Mich.; Jacob
E. Vite and John C. Vite, living in
this vicinity; Effie, to whom she was
a tender mother; ten other grand-
children, one brother, Geo. W. Rough
of Portage Prairie, besides a host of
friends.

The funeral services were held
Tuesday morning May 29, at 10
o'clock from the Evangelical church
with interment in the Portage Prairie
cemetery, Rev. J. A. Halmhuber
officiated.

HOLD BIG COCK FIGHT

Two Fights had Been Finished
and Third was in Progress
When the Sheriff
Appeared

Sheriff Tennant made a hurried call
to Royalton Heights Sunday after-
noon to put a stop to a full fledged
cock fight. The sheriff was not
among those expected and when he
appeared upon the scene there was a
flutter of gray coat tails and the old
familiar scene, "Back to the Woods,"
was enacted. The sports of the twin
cities and those of South Bend, Niles
and Berrien Springs gathered for a
nice quiet session at this secluded
spot with about 10 pairs of game
cocks for amusement. Sheriff Ten-
nant watched the sporting fraternity
of the twin cities embark on the in-
terurban for their stamping grounds,
and thinking something was up, fol-
lowed them with his team. Two
fights had been finished and the third
pair of cocks were about used up
when the sheriff with Deputy De-
Tampie appeared. A number of the
sports took to their heels and have
not been seen since, while several of
them were captured by the sheriff
and given a good fatherly talk. The
men were released on the promise
that this would be their last appear-
ance at a cock fight.

State Items

Roy Cure, 22 years of age, and a
son of Rev. C. M. Cure, formerly of
Morenci, now of Wauson, O., was
arrested here Tuesday evening on a
charge of grand larceny preferred by
his former employer, Roscoe Wilson.
Cure is alleged to have had a false
key to the store and to have been
opening the store at night and car-
rying away toilet articles and sev-
eral thousand cigars, which he is
said to have sold. He is a snappy
dresser and was always well supplied
with funds. He was taken to the Adrian
jail.

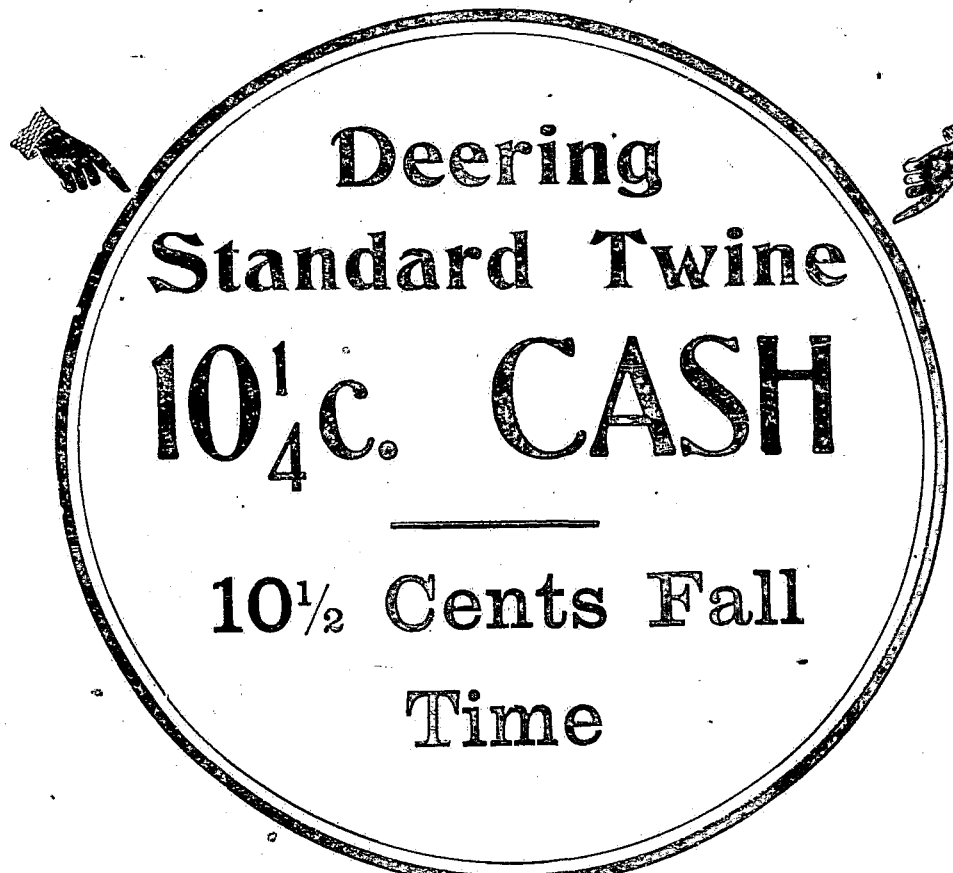

Playing with other children in the
play ground before the school build-
ing near Rose City, last Tuesday,
Orville, the 9-year-old son of James
Ingram, was struck by a bolt of
lightning and instantly killed. An
undecipherable scene of confusion and
terror ensued. The storm had not
been violent and the children had
been running about in the light rain
without a thought of danger. A
terrific thunder clap and blinding
flash was their first warning. Then
the little Ingram boy was seen
stretched out on the ground. Near
by lay a tin dinner pail, ripped to
pieces by the electric shock. It is
thought the pail is what attracted
the lightning to this boy, while the
others nearby escaped.

While hauling household goods,
Tuesday, George Boges of Bergland
slipped from the wagon and was run
over, a wheel passing over his head
and crushing it terribly. The man
died in a short time.

The local police at Lansing have
another baby mystery to solve. Wed-
nesday a telescope that had been left
at the Michigan Central passenger
depot four or five days ago was
opened, and found to contain the re-
mains of an infant boy, perhaps a
week old. How the telescope came to
be left at the station and by whom
has not been solved, as there was
nothing in it by which it could be
identified. City Physical Notting-
ham will hold a post mortem exam-
ination to determine how the child
came to its death.

Without knowing it, Adelbert
Schram, of Davison dug his own
grave Wednesday. He was putting
in a tile drain from his residence to
the road. He was seen at 2 o'clock
in the afternoon and at 5 was missed.
The ditch had caved in and com-
pletely buried him. John Stevens,

FOR WOODLOT OWNERS.

Good Things to Avoid in Using the
Home Supply of Wood on the
Farm.

There is a right way to do everything, and the care of the woodlot is not an exception to the rule, says a bulletin of the Forest Service of the United States agricultural department. The right way, moreover, is often quite simple, the good results which follow being out of all proportion to the time or labor expended. Too many woodlots are simply neglected, and by far the greater number of them are misused for want of foresight or a true appreciation of their value.

The first principles of right woodlot forestry may be summarized in a brief list of Don'ts, by which every woodlot owner may profit with very little trouble.

Don't dispose of your woodlot. You need it for your own use. It can be made to give you fuel, posts, poles, fence rails, even such timber, boards and shingles as will keep the farmstead and barns in repair.

Don't turn your woodlot into a pasture. Tree seedlings are quickly bruised and crushed by the trampling of live stock. Hungry cattle browse upon them.

Don't thin your woodlot too heavily. If you do, large openings are made through which the sunlight streams in, drying the soil and encouraging the growth of grass, which should never be suffered to replace the spongy humus that forms the natural top layer of soil in a healthy forest.

Don't burn over the woodlot. It has been pointed out that the woodlot is not fit for pasture purposes, but even if it were, the burning over of the soil would still do irreparable damage to young growth, consume the litter which ought to rot into humus, and destroy the very conditions which nature seeks to establish and preserve.

Don't select only the best trees in a woodlot which needs weeding. Nearly every woodlot is composed of a mixed stand in which dead and unsound trees, weed trees and sound, useful trees are intermingled. If you select and remove only the choicest living trees, the stand will grow poorer instead of better, and in time will become almost worthless. An improvement cutting which, even at a little cost, removes the weed trees and those which are dead, crooked or otherwise of little worth, will give the remaining stand a clear start.

Don't forget reproduction. In thinning your woodlot, have an eye to the young growth. Spare it as much as you can in felling and hauling the logs. Give the seedlings the chance, and they will seize it and grow into saplings and poles.

Don't do all your cutting in one spot, just because it is a trifle more convenient to do so. By taking a tree here and there, where it can best be spared or is actually better down, you will secure just as much wood, and at the same time draw as lightly as possible on your future supply.

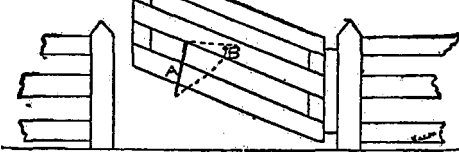

Don't let the carelessness of other persons do the damage to your woodlot by fire which you refrain from doing yourself. A fire in a neighboring field may creep into your woodlot and burn over it, scorching the trunks of the trees or even setting the crowns ablaze. It is worth while, in the dangerous season, to see that the borders of the woodlot are clear of inflammable material. Especially clear away the leaves so as to form a miniature fire lane about the forest. Forbid the careless use of matches and the building of camp fires, and see that your directions are obeyed.

Don't be in too great a hurry to realize on your woodlot investment. Be satisfied with a permanent revenue, which is the interest of your forest capital. You may materially increase this interest by managing the woodlot itself so that the thinnings always bear a wise proportion to the yield.

GATE PROP.

Simple Device for Attaching to Farm Gate Which Will Keep It Open.

I am going to give others the benefit of a patent gate prop my father invented several years ago, writes a

THE GATE PROP.

correspondent of the Farmers' Review. It is a great deal of trouble to hold a gate open and drive stock through it also. Now, when you swing the gate open, have a stick of wood, say a broom handle two feet long, fastened to the third slat of the gate with leather so it can be turned either way. Drive a nail at B, and when gate is closed prop on B. When you open it drop A and swing it and it will stay where it stops.

Root System of the Corn Plant.

The root system of the corn plant is many times greater than most persons suppose it to be. While it is true that the corn plant is in the main a surface feeder, it is also true that the smaller roots are very long and penetrate the earth to a great depth. At one of the stations a cube of ground around a corn plant was cut out whole and the roots of the corn plant washed out. It was found that this corn plant had sent its roots to a depth of about four feet and that they spread three and a half feet from the corn plant laterally.

THE PERFECT WAY

Scores of Buchanan Citizens Have Learned It

If you suffer from backache, there is only one way to cure it. The perfect way is to cure the kidneys. A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

Alderman Jos. Keen, Mgr. Board of Trade, residence 449 Division street, Dowagiac, Mich., says: "I found after a thorough trial that Doan's Kidney Pills are a most excellent remedy for kidney trouble. I had every marked symptom of kidney complaint or rather weakness of the kidneys for some time which was very annoying. I had my attention called to Doan's Kidney Pills. I used two boxes and found they benefited me very much. I hold a very favorable opinion of Doan's Kidney Pills as a medicine for the kidneys and I gladly testify to their medicinal qualities."

Plenty more proofs like this from Buchanan people. Call at W. N. Brodick's drug store and ask what his customers report.

For sale by all dealers, price 50c. Foster Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name Doan's and take no other.

Stylish Hats

There is no article of apparel which counts so much in a man's appearance as his hat, and it is remarkable to notice the number of men wearing stylish well fitting clothes and unbecoming hats. This is usually not the fault of the man, as he tries to get a hat that will look well on him, but rather because he can't find the shape or style he wants. Adlers hat section offers every popular shape in all proportions, in both stiff and soft hats. You might think it would hardly pay you to go from Buchanan to South Bend for a hat but when you know you can get just the shape and style you want in a hat which we absolutely guarantee as to wear, then it will certainly pay you.

Postmaster Worthington is making some commendable improvements in the arrangement of the postoffice. The boxes are now placed all on the east side, the lock boxes being placed near the front. A large number of the Buchanan citizens have been attending the carnival at Niles this week, and the universal sentiment of those attending, are that the attractions of the carnival company are not satisfactory, but the pleasure seekers derive a large amount of enjoyment on the street.

We heard on the street the other day of a man who claimed he was too poor to take his home paper, but all the same he read a notice in one of our county papers, telling how to prevent a horse from slobbering, and sent \$1.50 for the receipt. When the \$1.50 worth of information came it said: "Teach your horse how to spit."

The Record office is in receipt of a commencement card from the Michigan School for the Deaf. The donor Mr. Loren Waterman is a member of the class. Loren has been a faithful and competent employee of the Record office, for the past three years, during his summer vacation, and we are pleased to note that he has attained this high step in his young life.

Coming Attraction

Freed & Perrine's show attracted a large crowd at both performances last Saturday and especially in the evening, standing room was at a premium. The entertainment gave entire satisfaction to the large audience and every performer proved himself a star. Mr. Freed is without a pier as a juggler, his act alone being worth the price of admission and everybody here knows that Dave Perrine's trained dogs and ponies are well worth going miles to see. The show is sure to score a success this season in anything but drenching rains.

The above is taken from the Sturgis Review, and shows the high standard of the company. They will be in Buchanan on Tuesday, June 12. This year they have all new attractions. Maude the acting mule, the smallest performing ponies in the country, a good line of aerial work, wire performing, juggling and a fine band.

A HANDY MARKER.

One Which the Farmer Will Find Convenient Under Certain Circumstances.

Where the check row planter or two-horse drill is not used the marker here shown is very convenient in laying off a field for corn or potatoes, says a writer in the Farm and Home. The runners should be 2x6 in strips at least six feet long, the cross pieces 2x4, as long as you want the rows of

MARKER FOR CORN OR POTATOES.

corn in width. An extra board is placed on the two center runners to stand on while driving. The guide is fitted with a double end and hinged at the center of the marker, so that it may be turned over to either side as desired. The tongue of an ordinary bob-sled can be attached without much bother, or a special tongue constructed.

Hard Pest to Fight.

The treatment for root maggots is very difficult, owing to their manner of working upon the plants. The treatment which is recommended is not entirely satisfactory at times. The method of dealing with this pest, which has seemed most satisfactory up to the present time, has been to watch the different stages of the insect and when the first maggots appear to be working in the plants it is the practice to open a furrow away from the plants and sprinkle into this furrow a quantity of tobacco dust, afterwards recovering the furrow. Another method is to apply at this time a carbolic acid emulsion made in the proportion of one pint crude carbolic acid, one pound soap and one gallon water. This should be diluted in 30 parts water and applied near the plants along the row. Either of these treatments will in general be somewhat satisfactory. We are at present planning to take up the onion maggot problem during the coming season and hope we may be able to get more conclusive results.—H. E. Hodgkiss, Assistant Entomologist New York Experiment Station.

THE FARM.

Good seed is essential to good crops and is cheap at any price.

Plowing too wet ground glazes over the clods and keeps in the water. Don't plow the soil deep when it is wet. It will result in lasting injury.

The cow that is "spring poor" now won't be worth much the coming summer.

Keep plenty of vegetable matter in the soil by use of clover, cowpeas or manure.

Don't blame your neighbor because his cattle get in your field. Keep your fences repaired.

We have as yet hardly begun to study our grasses, of which, many kinds grow wild in the United States. Give the boys five square rods of land for a garden. Let them plant anything they like, but insist that they keep down the weeds.

No barn dressing should be used in growing potatoes. It has a tendency to produce rot. Use barn dressing in seeding to grass after the potato crop.

—B. J. Rogers, Cumberland county, Me.

A top dressing of nitrate of soda is applied early in the spring by that very successful hay grower of Connecticut, George M. Clark. It gives grass a vigorous start.

Local Water-Powers.

"What do you understand by a cataclysm?" the new teacher of Number Two asked Willy Straw. The answer came promptly.

"It's the fire-engine down at Daleville Corners," he said, in breathless haste to impart his knowledge. "But it leaks some, and it isn't half so good looking as the 'Torrent,' either. You just wait till parade day and you'll see, teacher!"
