The Officers of the Rich Mfg. Co., Receive a Well Earned Reward

BUCHANAN, BERRIEN CO., MICH., FRIDAY, SEPTEMBER 7, 1906.

FLECT

At a recent meeting of the Directors of the Rich Mfg. Co., held in Chicago, some of the old and trustworthy officers received a much earned and deserved advancement.

OFFICERS

Mr. H. P. Field, who has been associated with the factory since it located in our midst, and has held the office of treasurer to the satisfaction of all interested, has received the honor of being elected treasurer and secretary combined. We are pleased to note this advancement on the part of Mr. Field, and only regret that by being elected to these offices, it takes him from our village. He has been a loyal citizen since his residence here, and made many friends who are more than sorry to lose him. Mr. Clark, of Chicago, vice-president, was elected president, and Mr. M. L. Hanlin, who has been manager of this company for the past year, also to the entire satisfaction of all, has been elected a member of the Board of Directors, while Mr. Russell Dale, of Chicago, sales manager, still maintains his position. The office of this rapidly rising factory is located at 207 Railway Exchange, Chicago.

This enterprising establishment has proved a great benefit to the citizens of Buchanan, and it is rapidly grow-

IN MEMORIAM

LLOYD DUMBLETON

May_ 24th, 1876, at Edwardsburg, Michigan. He lived there until he was ten years of age, when he moved with his parents to Buchanan; where he has made his home ever since. He attended the common schools, and graduated from the Buchanan High School in 1894, with high honors. He was a very brilliant student, and was exceptionally strong in languages principally Latin. He was considered CARE OF THE HUNTING DOG the strongest Latin student who ever graduated from the Buchanan High Must Be Well Nourished, But Meat School. He undoubtedly would have made an excellent scholar if he had had the advantages of a higher education. He had ambitions to go to tective's eye-poison, says Country College but chose rather to help the folks at home. He to give the portions of biscuits when never united with the church altho water is near by, since dry crumbs he allied himself to it for years.

He was an ernest, conscientious, painstaking workman, one who need eth not to be ashamed. He was devoted to his mother, brother and sister. He was generous, kind hearted and noble. He was ever found to be congeniel in society and contented with his lot. He had a will as strong as adament, and if he thought a thing right he never was afraid to say it. He has been in poor health for the past two years, and has not preformed any work for a whole year. As a sanctuary, Delphi is far more Lloyd W. Dumbleton was born on impressive than anything in Sicily, as a national meeting place Olympia has no rival; but nowhere except at Athens is a Greek city to be seen today which has the proud record of the marvelous metropolis of the Sicilian Greeks, a city as great in power and wealth and beauty as Athens herself, and victor at last in the long and fatal rivalry which indirectly involved the passing of the Hellenistic dominion of all the lands washed by the Ionian and Mediterranean seas.

in the Field. Much meat is to the sporting dog's nose what strong drink is to the de-Life in America. The beginner in the field often does not realize this, and nightly attributes his indifferent luck generous portions of beef or pot liquor are to blame.

Of course, when there is hard work to be done a dog must be well nourhas to be sustained by good wholesome food. Two biscuits and water in times a day, and at night a hearty meal of well-cooked vegetables or oatmeal porridge form the best fare for a dog in the field. Remember, however, create a thirst that frequently handicaps a dog as much as hunger.

No Holiday.

People have different ideas as to what constitutes a holiday—or a vacation. Mrs. Pettis had her own firmly fixed opinions on the subject.

"I don't count Thanksgiving or Christmas or Washington's birthday or any of those, holidays," she said, frankly, to an old friend one day. "What 1 count a holiday is when Ezra and Jim and Bob and. 'Liphlet go off up to the wood-lot with their dinner, and I know they won't be back till night.

"I'm not one to deny that men-folks have their good points, but how any woman can call it a holiday when they're in the house, calling for food by looks when they aren't by words, is beyond me!"-Youth's Companion.

American Orchestras. Felix Weingartner, the noted composer-conductor, in commenting on American orchestras, attributes their. great success to the fact that they are cosmopolitan in personnel, whereas European orchestras, excepting possibly those in England, are largely national. He thinks French players the most skillful in the wood-wind, the Germans in the brass. The American orchestra conductors' seek the best players available without regard to nationality.

Thinking he was going to fall, James Rue, of Kalamazoo, who was riding on a Grand Trunk freight train between Vicksburg and Battle Creek Sunday night, jumped from on the westbound track His foot was crushed and he was badly bruised. One thumb was broken. He dragged himself to the ditch out of the way of passing trains and remained-there for five hours before help came. He was taken to a hospital in Kalamazoo, where it was found necessary to amputate the foot.

While playing with matches Mon-James McVey, of Nadeau, set her dress on fire and was so badly burned that she will die. Her mother was badly burned about the arms trying

him, he found him bright and in good spirits. He visited him several times and alwayes found him ready to give the glad hand, and conversed quite freely on religious topics.

Not the Dull Sandy Waste That It Is So Commonly Supposed to Be.

A molten sea of dazzling, vibrating light seems the desert of Sahara near midday. The Sahara is not at all as popular belief pictures it-a vast plain of moving sand dotted here and there

with fertile oases. From Tunis in North Africa westward it is a vast depression of sand and clay not much above sea level, in some parts perfectly level, in others hilly, with low depressions containing water salter than the sea. This generally evaporates, leaving a coating of brilliant crystals. which look like snow in the distance. The river from the Aures mountains the top of the moving train, landing serves to irrigate the oases of the Ziban; sometimes they flow above the surface; but more often below it. Now and then the mirage appears, refreshing the weary eyes of the stranger with visions of beautiful lakes near the horizon, even sometimes of moving carayans and trees. Alas! This is an instance where seeing is not believing. After many disappointments the camels suddenly raise their heads and snuff the air and move at quicker pace, instinct telling them that water is near. There is a fascination about desert life that is understood only afday the six-year-old daughter of ter one has spent several weeks with a caravan among the Arabs. While the heat is great it is perfectly dry, and therefore does not enervate as does a humid atmosphere 40 degrees lower in temperature.

Dream Came True. Says a recent news item in an English newspaper: "A Mrs. Howling, of Penge, dreamed that she saw her little

girl washed up on Hastings beach and the body taken away on a tarpaulin. Two days later the child was knocked down by a pantechnicon and its wheels passed over her. Bystanders brought a tarpaulin, upon which the child was taken to the Beckenham cottage hospital.

Sartorial Perspicacity.

"I should like," the man cautiously explained to his tailor, "to have a little pocket, a very, very small pocket, one you could hardly see, you know, put somewhere, say in the hem of my trousers, or in the waistband, eh, where it couldn't be so easily found. You understand?" "I see,' said the tailor. "You are married now."-N. Y. Sun.

Kidney Diseases Are Too Dangerous for Buchanan People to Neglect

The great danger of kidney troubles is that they get a firm hold before the sufferer recognized them Health is gradually undermined Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kid neys. Cure the kidneys with the cer-tain and safe remedy Doan's Kidney Pills.

Mrs. W. F. Neimar, of North Fourth Street, Niles, Mich., says: "Both my husband and I used Doan's Kidney Pills and in both cases a cure was the result. I had an awful time with a lame back for months and had become so bad that I could not turn over in bed without being helped. When I took cold it was sure to settle in my kidneys and then my back would almost give out and 1 could scarcely get around. I was also troubled with dizziness if I bent

over and there were symptoms and weaknesses which showed my kidneys to be very much disordered. My husband got Doan's Kidney Pills for of the trouble since. My husband was affected much the same as I and

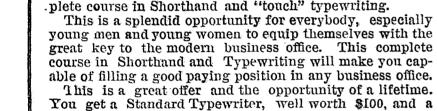

highly as I do." Plenty more proofs like this from
