to remember her kindly and think of her in the best light possible. Mrs. Swank has been deeply touched by the kindness of Mrs. Tennant, throughout her imprisonment in the jail and expressed her gratitude by this method. The photograph is an excellent likeness of the Galien woman and shows her beauty to its fullest extent.

Mrs. Swank will not live with her husband, this she has emphatically stated. She feels that she can never forgive him for swearing out the warrant against her and she stated several times, while in the jail, that she would secure a divorce from him after she was released. It is believed that if she is successful in securing the divorce that she willimmediately become the wife of Smith, the man who was arrested at the same time she was taken into custody, and that they will dare the comments of the village by living together as man and wife. Monday, when Mrs. Swank learned that Judge Coolidge would not open court she burst into tears and spent a most miserable day, but Wednesday morning she was all smiles when she entered the court house and it was plain to see that she was looking forward to her release with joy. This ends another chapter in the mysterious murder of Lloyd Dynes. These two suspects, whom the officers believed to be connected with the case have been freed and the murderer of Dynes is still at liberty. It was thought that the pair might be e-arrested, but no evidence was secured to show that they were implicated in the crime.

REGISTER DEEDS DOD **Re-Nominated for Register of Deeds** 

by Republicans

I. L. H. Dodd, whose first term as Register of Deeds of this county, is drawing to a close, and is up before the people for re-election, and is looking forward to a heavy support from his fellow townsmen, who will show their appreciations of his satisfactory work during his administration, by re-electing him for another term.

Mr. Dodd, who is so well and favorably known has been a resident of Buchanan, the greater part of his life, and always was ready to lend a helping hand to the upbuilding of our community. He is and always has been a staunch Republican, and every campaign since 1870 has found him in the business working for the success of the party.

In 1900 he appeared before the people as a candidate for Register of

with fraternal matters throughout the county, but has not made that an argument for re-election. The service he has given the people in the past two years, as well as his record of 36 years loyal service to his party

certainly justify his candidacy and his friends believe that the people will express their approval of his past efforts and that the November election will give Mr. Dodd the second term, he richly deserves, by a majority even larger than that given

him two years ago.

This and Surrounding Vicinity was Visited by first Snow Storm, Wednesday.

In the Tuesday edition of the  $B\sigma$ -

heavy green foilage, were bourn to the ground, with the extra-weight of the heavy snow and sleet, breaking many of the limbs and destroying their beauty.

Although the snow was such a surprise, and the trees so loaded that they nearly fouched the ground, the quiet little city of Buchanan, was a picture in itself. Many pictures were taken by photographers, for a keepsake of this remarkable incident.

We have been informed by Mr. John Perrott, that fifty years ago, the 17th of October this section was visited by a similar storm, and the snow was fully as deep if not deeper. The snow is rapidly melting away, and we can look forward to the de-

"Can you read this?" asked the merchant, pointing out a certain passage in the paper.

"Yes, sir "

The merchant then took the boy into a back room where all was quiet and shut the door. Giving the boy the paper, he reminded him of his promise to read the passage through steadily and without a break, commanded him to read. The boy took the paper and bravely started. While he was reading, the merchant opened basket, in which were a number of lively little puppies, and tumbled them around the boys feet. The temptation to turn and see the puppies and note what they were doing was too strong, the boy looked away from the reading, blundered, and was at once dismissed.

Boy after boy underwent the same treatment, till seventy-six were tried and proved failures to master themselves. At last one was found who, in spite of the puppies playing around his feet read the passage through as he had promised. When he had finished the merchant was delightfd. and asked him: "Did you see the puppies that were playing around your feet while you were reading!"

Mrs. Fiske at the Grand Opera House

The first metropolitan hearing of Mrs. Fiske's new play, "The New York Idea," will occur at the Grand Opera House next Monday, October 15th, when this distinguished actress and her Manhattan company open a fortnight's engagement. The play will have its initial presentation in Milwaukee next Tuesday night. The author is Langdon Mitchell, who also made the "Becky Sharpe" adaptsuccess. His new play is described as a thoroughly modern comedy of New York society, with a serious underlying idea that involves one of the vital questions of the time. The tone of the play is one of brilliant satire, but the bounds of plausibility and human feeling are not, it is said, exceeded in the ingenious and interesting plot that is carried to a happy termination. Clever dialogue and a variety of graphic character types are mentioned among its merits.

Mrs, Fiske's role gives free rein to her talents at comedy, and will again mphasize the versatility that she possesses in so great a degree. With her delightful "Becky Sharpe" in mind, the prospect of seeing her in this new comedy role is a delight. As usual with Mrs. Fiske's offerings, 'The New York Idea" is not a "one part" play, there being important oles for the notable players supportng her. The integrity of the Mannattan Company is preserved and John Mason, George Arliss, William B. Mack, Robert V. Ferguson, Emily Stevens and others who have helped o make it the best dramatic company
