WAS A GRAND SUCCESS

The P. H. O. B's Held Recep-
tion in Opera House Last
Friday Evening

Last Friday evening about fifty
young people wended their way to
Rough's Opera House to participate
in an evening of pleasure. The oc-
casion being a reception given by the
P. H. O. B's in honor of the B. O. B's.

At an early hour the guests began
to arrive, and after the usual courtes-
ies of the evening were passed, all
enjoyed themselves by dancing or
playing flinch.

Elaborate refreshments, consisting
of sandwiches, pickles, two kinds of
cake, coffee and bananas, were served
by the young men, after which they
all finished the evening's pleasure
by dancing until the wee hours of
the morning.

The happy crowd departed at a
late hour, vowing the boys "boss"

entertainers, and with the hope that
they would have many more such
social gatherings during the long
winter months.

SHERIFF WAS NOTIFIED

Governor Warner Officially
Calls His Attention to
Prize Fights

Sheriff Tennant has received the
following letter from Governor War-
ner, with reference to enforcing the
law relative to prize fights in Berrien
county. The letter needs no particu-
lar comment. It speaks for itself.

Lansing, Nov. 24, 1906
Joseph Tennant, Sheriff,
St. Joseph, Michigan

Dear Sir:—I am writing you as
Sheriff of Berrien county to call your
attention to Sections 11732-3-4-5 of
the Compiled Laws of the State of
Michigan, entitled, "An Act to Pro-
hibit, Discourage and Punish Prize
Fighting Within the State of Michi-
gan."

This law should be enforced
throughout the State and you will
take the necessary action to see that
it is complied with in your county.

Very respectfully yours,
FRED M. WARNER,
Governor.

This is the outcome of the killing
of a young man lately in the ring at
Grand Rapids.

PETER COREY BOUND OVER

After Examination in Justice
Evan's Court. Respond-
ent is Held

Peter Corey, the young man who
was arrested some time ago charged
with embezzlement of money from
the Twin City Creamery Co., had his
preliminary examination before Jus-
tice Evans Friday afternoon, and
was bound over to the circuit court
under bonds of two hundred dollars,
which was furnished by the father.

Corey was represented in the Jus-
tice Court by Attorney I. W. Riford
and the people's case was prosecuted
by Prosecutor White. The case has
excited much interest in the twin
cities and Corey claims that there is
nothing in the case whatever. It is
hinted that there will be a damage
suit when the affair is settled in the
circuit court.

The case will come up for trial in
the next term of court and the out-
come is awaited with much interest,
not only by Corey himself, but by
his friends, who claim that there is
absolutely no grounds for the charge
brought against him.

ROYALTON MAN INSANE

Farmer Goes Insane in the
Night Time and Terror-
ized Family

One of the most curious cases of
sudden and violent insanity that has
ever been recorded in this county
was exhibited at Royalton one day
last week, when Fred Shoemaker,
who had been ill for some time was
stricken with a sudden attack of in-
sanity.

Shoemaker, who is a more than
middle aged man, had been sick for
several days and had had the attend-
ing physician. He was at the home
of his father-in-law, Joseph Kaatz,
when the attack came, and jumping
from his bed at 3 o'clock in the
morning. He beat and kicked his
young wife until she screamed in
mortal terror. Then jumping thru

a second story window, Shoemaker
started on a rampage about the
house, his cries and the cries of his
wife speedily aroused the entire fam-
ily, and they, panic stricken by his
unaccountable actions watched him
in terror. Clad in only his night
robe Shoemaker set off down the lane

and across a 40-acre field with several
of the family pursuing him. He tore
through a large field of blackberry
bushes, lacerating his flesh in a hun-
dred places and in climbing over a
barb wire fence added still more
gashes, he circled about the house of
his father-in-law once more and the
male members of the family took
refuge behind trees and stumps.

Then Shoemaker set off for his own
home at top speed, and upon reach-
ing it, kicked open the door and fell
upon the floor exhausted. Physicians
were called who cared for the de-
mented man and announced the
sudden attack due to a hemorrhage of
the brain.

The man was in a pitiful state,
bearing hundreds of scratching, cuts
and bruises, his jump through the
window had inflicted several severe
gashes and the barb wire fence had
cut his skin deeply in several places.

Shoemaker is a well to do farmer
residing in the vicinity of St. Joseph
and was married only a comparative-
ly short time ago to Miss Mary Kaatz
of Royalton, his first wife having
died over a year ago.

IN HUMAN FIENDS
COVER TRACKS

NO TRACE OF BRUTES WHO CUT OUT THREE HORSES' TON- GUES ARE FOUND

The brute who operated in Sodus
township one year ago and cut the
tongues out of two horses belonging
to William Talbot is still at large or
there is another who belongs to the
same class, who has taken up the
work in Sodus. Last Friday night two
horses belonging to John Hogue, of
Sodus, were quartered in the stables
as usual when the farmer retired,

but when Mr. Hogue went to the
barn Saturday morning he discover-
ed that their tongues had been cut
out and thrown to one side.

The same performance was enacted
at the Hartman farm where one horse
was badly cut.

Sheriff Tennant was called to So-
dus Saturday morning and made a
thorough investigation of the case,
but no arrests have as yet been
made. Suspicion rests upon one far-
mer who is being shadowed very
closely. Mr. Hogue is a man of few
words and rarely has any trouble
with his neighbors or anyone with
whom he has any dealings, but
there is one man with whom Mr.
Hogue is said to have had a dispute.

Strange as the case may seem, Mr.
Hartman has had differences with the
same man and it is believed that the
same man did the work at the Hogue

and Hartman stables.

All three of the horses are still
alive and will probably be able to
eat enough to live, although they will
suffer for a long time before the
wounds will heal and the horses can
be used. It was on October 10, 1905,
that Mr. Talbot's horses in Sodus
were treated just as the Hogue and
Hartman horses were cut last week,
but the Talbot horses are alive and
able to do hard work. No evidence
sufficient to convict the culprit who
committed the deed was ever secur-
ed and no arrests were made, but it
is hoped that this case may be solv-
ed and the brutes who tortured the
horses may be brought to justice.

Sheriff Tennant was at work on
the case Saturday, Sunday and was in
Sodus again Monday following every
clue that presents itself in the drag-
net which has been woven about the
farms. The tongue of one of the
horses belonging to Mr. Hogue was
found in the manger where it was
dropped after it had been severed,
but the other has not yet been found.
The tongue of the Hartman horse
has not thus far been located and it
is thought that it had been eaten by
dogs. The work of the miscreant
was discovered early Sunday morning
after the deed was committed, and
the sheriff was notified, but the mys-
terious as was the case of the same
kind at the Talbot farm.

THE NAME OF POST OFFICE

Will Be Printed on Stamps for
Year 1907

Postage stamps of the issue of 1907
put on sale at the 6,000 presidential
post offices will bear on their face the
name of the state and city in which
the postoffice is situated. The chief
reason for this innovation is said at
the postoffice department in Washing-
ton to be the belief that it will help
to do away with the big postoffice
robberies and make it easier to trace
criminals.

The postoffice robbery in Chicago a
few years ago is a good example of
the case with which stolen postage
stamps can be disposed of, for no trace
of the perpetrators was ever discov-
ered although nearly a hundred thou-
sand dollars' worth of stamps were
stolen mostly in small denominations.

At one time the authorities thought
they had found a clue to the robbers.
A Chicago mail order house a couple
of years after the robbery secured a
\$5,000 mail order in payment of which
was tendered a package containing
that amount of 1 and 2 cent postage
stamps. The head of the firm in-
formed the United States authorities
and efforts were made to find out
from whom the order had come but
without avail. It was regarded as
fairly certain that these stamps were
a part of those taken from the Chi-
cago postoffice, but there was no way
of proving it.

Another reason for the change is
to enable the postoffice department to
determine the amount of business
done by the different postoffices and
prevent padding through stamps sold
at same offices to residents who do
business in adjoining cities.

A great deal of complaint has been
made in the past on the ground that
certain offices were doing a very
much greater volume of business
than they were credited with doing,
and postmasters have had more or
less trouble in showing that they need
facilities for handling their mails, as
in the opinion of the congressional
committees having the matter in
charge, the receipts from the sale of
stamps did not warrant the increase.

This plan of engraving the names
of the city of issue on postage stamps
is not entirely new, as it has been
followed in Mexico for years. In Li-
beria also the names of five of the
principal towns are engraved upon
the stamps.

The Record has the largest circula-
tion and is the best advertising
medium in the country.

HOME PLACES 13 CHILDREN

Michigan Children's Home Did
Excellent Work Last
Month

The Michigan Children's Home of
this city has just completed one of
the best months in its history. Dur-
ing the month of November the home
found places for thirteen little friend-
less children and the books show
that the institution now has general
supervision over 750 children.

Placing thirteen children in homes
where they will be cared for, and
where they will be brought up by
their foster parents as own children
would be brought up, is no easy task
and the home has certainly complet-
ed a great work.

The number of children under its
direct supervision is also extremely
large and speaks eloquently for the
work which the Home is doing and
has done in the past.

Prepare For a Hard Winter

That the coming winter is going to be the hardest one for the past twenty years, there is abundance of signs to show, and among them may be mentioned:

First—That the corn husks are an inch and a quarter thick and the stalks lean toward the west.

Second—Owls are leaving the country a month earlier than usual, and squirrels are laying in sweet potatoes, as well as nuts, for winter provision.

Third—That a better grade of clothing has been purchased by our customers than ever before. They are asking for higher priced garments and are choosing the best makes of warm, well made and stylish clothing.

Fourth—Farmers who have taken the trouble to investigate, tell us that toadstools have wrinkles on them. The last time this happened we had winter weather that froze the handles of plows.

Fifth—That warmer underwear, better made shoes and complete winter outfits for the little fellows have been purchased more freely than ever before from our immense stock of **men's and boys' furnishings.**

Sixth—We have the largest, most modern and best equipped clothing store in northern Indiana and are doing the biggest business in the establishment's history. That's the best sign of all.

Before the winter shall pass it is certain that the Fall River cotton workers and the Chicago teamsters will renew their old contest for the strike belt.

As a measure of relief the people ought to quit traveling for thirty or sixty days and let the passenger coaches be used for transporting corn and wheat.

An Atlantic paper gives this advice, "Make the loafers go to work, white and black alike." Georgia

has concluded that the color line in vicious idling is a delusion.

Within the next few days the people will give thanks, have congress on their hands and listen to a vigorous message. Leading the simple life is not as easy as it sounds.

A private corporation says it can take the post office department of the United States and make it pay. That should be no difficult feat for this government, the only one that has a postal deficit.

The republicans throughout the land will be glad to hear that more revivals are being held in Missouri this winter than ever before. There are indications that the Mysterious Stranger will soon come into his own again.

MAKE POST-OFFICE PRIVATE CONCERN

Chicago Man Submits the Remarkable Proposal to Take Postal Service

To turn over the postoffice business to a \$50,000,000 private corporation under full Government regulation.

To reduce by one-half all postal rates, establish rural postal express, and apply business methods throughout.

To pay the Government rental for postoffice quarters, and charge it regular rates for its postal business.

To place in charge a well known railroad traffic expert to whom the place has been offered at \$30,000 annually.

To eliminate all sinecures, politics, and the deficit.

To pay the Government all profits above 7 per cent on capital.—Proposition of W. D. Boyce, of Chicago

To turn over the postal service of the United States to a private corporation under strict public control is the remarkable proposal made to the Postal Commission Friday.

W. D. Boyce of Chicago, publisher, man of big affairs and several times a millionaire, made the proposition, on behalf of himself and associates, whom he did not name, to take over the postoffice business and run it on business principles.

The proposal includes agreement immediately to cut postage rates in half. There could be no deficit under such an arrangement for the Government to meet, because the corporation would have to make ends meet.

Mr. Boyce wants the postal corporation under a postal commission which shall be the regulating and supervising agency of the Government.

He proposes to pay Uncle Sam rental for all postoffice quarters occupied in public buildings, and over against this he designs to charge the Government regular rates for all services performed for it. These Government services he now estimates at \$25,000,000 annually. At half the present rates this would be cut to \$12,500,000.

Applying business methods to postoffice affairs would result in immense economies in transportation.

Mr. Boyce figures that the expenditure for railroad haulage would be cut from \$50,000,000 to about one-half that sum.

It is a perfect outrage and disgrace to our village, the way the High School scholars are carrying on this term. A person can readily see the condition of the school when it is necessary to have the Deputy Sheriff and a member of the school board attend a morning session, so as to keep the school in an orderly condition. Trouble has been going on in the high room for the past two years and it has just about now reached its climax. Five pupils were expelled Monday morning, and more will follow, if their conduct does not improve.

ROYAL Baking Powder

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders and which are derived from bones, rock and sulphuric acid.

Phillip Boone was completely surprised at his rural home last night, when twenty-five members of the Bereah class walked in upon him. To say the young man was surprised would be putting the expression mildly. The young people enjoyed themselves by playing games and music, after which light refreshments were served. The evening is one long to be remembered.

Mrs. Wm. J. Hunter and daughter Zelma, Mrs. W. R. Rough, Mrs. J. C. Rehm were among the guests that were so pleasantly entertained by Mrs. E. Cox and daughter, Tina Vickers, of Niles, Friday. A course luncheon was served.

In some ways recent proceedings at the courthouse remind the Cassopolis Vigilant of the story of the Irishman who was accused of having stolen an iron soap kettle and cracking it so that its usefulness was forever ended. His defense was that he was innocent on three accounts, "O! have witness es here, yer honor," the Irishman said, "t! prove, first, that Oi niver had the kettle in my possession; second, that Oi returned it to Mrs. Casey without a crack in it; and third th! ould kettle was cracked whin Oi stole it."

We have been informed that paper will be made out this week for the admittance of Mrs. Robt Curran and daughter to the asylum at Kalamazoo. They are both mentally unbalanced, and by treatment at this institution, hope is entertained for their complete recovery. They were adjudged insane by four practicing physicians of this village. Drs. Emmons and Garland were called upon to examine the mother, while Drs. Curtis and Peck examined the daughter. They will both be taken to Kalamazoo on Wednesday. Mr. Curran a son and brother of the women, is the young man, who assaulted Miss Blanche Samson a week ago last Saturday night. He will have his hearing on Wednesday. I is thought that he is also mentally unbalanced, and instead of receiving a sentence, he will also be taken to Kalamazoo.

Mrs. Otis Stearns, of Glendora has issued invitations for the wedding of her daughter Miss Leigh to Arthur Proseus, the ceremony to be performed at the bride's home, Wednesday, Dec. 12. The contracting parties are well and favorably known in Buchanan, the bride being a sister of Mr. Clyde Stearns, while the groom is a step-brother of Miss Faye Blume.

The citizens are pleased to welcome L. R. Kenny and family, of Paw Paw to our midst. Mr. Kenny is a carpenter by trade, and has taken up his residence in Elder Grundy's home on Detroit street.

City Attorney VanRiper relates an incident that shows how easy it is for us to be mistaken and also what a nuisance it is to lock-up one's house and not have a key handy to get back in again. Returning from Buchanan last evening, where they spent Thanksgiving, they were considerably chagrined on arriving home to find that the house was locked tight and that the house key was not in the judge's pocket as he supposed it was. He knew he had it during the day, no mistake about it; but it was missing sure enough, and how to gain an entrance to the house was the question. Mr. VanRiper remembered that an upstairs window was slightly raised and securing a ladder which was about five feet short he succeeded in getting inside after much difficulty. Once inside, of course the rest was easy. But the real surprise came when, on going to the accustomed hanging place of the key, there it was as big as life, having never been taken down from its peg, and the door which had a spring lock had been simply closed, locking the key in and the owners of the house out. "I could have sworn I had that key in my possession during the day," he said, "I would have taken my oath on it, but I see now I imply thought I had it and it was a clear case of mistake."—Niles Sun.

Two of the Graham & Morton boats have been grounded lately. The big passenger steamer, Puritan, got her nose stuck in the mud while tied to the dock at Holland during last week's big blow and the big freighter, Pere Marquette No. 5, struck a sandbar at Houghton Sunday night.
