VOLUME XLI.

BUCHANAN, MICHIGAN, FRIDAY, MAY 31, 1907.

NUMBER 36.

## CITIZENS PAUSED HEROES HONORED

Buchanan Citizens Paid Tribute to the War Survivors—Parade Led by Band.

## FOUR BASEBALL VICTORIES

Won by the Buchanan Blues and the High School Grays—Gala Day for Everybody.

Buchanan, like all other cities of the nation, paused yesterday to pay tribute to the fallen heroes of the Civil War in a manner to arouse pride and patriotism. Hundreds of loyal people, some hailing from neighboring towns, congested the main streets from noon to night, all bent on observing the day dictated by the program committees, and thanks to favorable weather, the entire program was carried out to the letter.

A good proportion of the crowds on the streets attended the morning's ball game between the South Bend Watchmakers and the Buchanan Blues. The latter easily wound up the Watchmaker's time clock, placing the score at 10 to 5. It was the signal for a harder game in the afternoon, but the second game was won by the Blues by 7 to 1. Both games were played in a gentlemanly way—no slugging or harsh feelings were displayed—in fact, it was a good-natured crowd, and much credit belongs to the Blues—each man striving to do his utmost to win the two games for Buchanan's honor.

While the afternoon baseball game was being played, the G. A. R. men, their friends, school children, led by the Buchanan Band marched to the cemetery, where appropriate services consisting of patriotic speeches and music were held and where the graves of fallen heroes were bedecked with flowers.

The Buchanan Grays, known as the second team, had their own affairs to look after. They had a game with the Dowagiac nine in the morning, and won by 9 to 5. The afternoon game was played with the Niles boys which resulted in a victory for the Grays—7 to 6.

So the entire day was well spent coupled with double baseball victories and a general good time by every patriotic citizen.

## STATE NEWS

**Train Lost Two Cars.**  
Bay City.—A Michigan Central freight broke in two near here while going down a slight grade. Two cars jumped the track, but the caboose remained on the rails and ran down the incline, and was automatically coupled to the train. The train did not slacken speed, and proceeded on its way. The next day a wrecking outfit picked the two cars out of the ditch.

**Police Drop Baby Case.**  
Grand Rapids.—Mina and Tony Beurkens, who were charged with bringing about the death of their infant babe, were released, it being decided that there was not enough testimony to hold them. The child was found in a pool on the West side. Mrs. Beurkens confessed that it had been born without medical assistance, but claimed it was born dead.

**Welcome Rain in Iowa.**  
Sioux City, Ia., May 24.—Rain in measurable quantities fell here Thursday for the first time this spring and was going throughout northwestern Iowa, the Dakotas at the same time reporting scattering showers.

**A Narrow Escape.**  
G. W. Cloyd, a merchant, of Plunk Mo., had a narrow escape four years ago, when he ran a jimson bur into his thumb. He says: "The doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's Arnica Salve and that cured the dangerous wound." 25c at W. N. Brodrick, Druggist.

**Four Killed, Thirteen Injured.**  
Elyria, O., May 31.—Four persons were killed and 13 injured in a rear end collision on the Cleveland & Southwestern Traction road here Thursday evening. The front car was filled with holiday excursionists, nearly all of whom received more or less serious injuries. Within a few minutes ambulances and doctors were summoned and the wounded taken to the Elyria hospital where two of the injured subsequently died. Eight of the remaining 13 had both legs cut off, one lost one leg, and still another had both legs broken.

Motorman Fraundu, who was in charge of the car which caused the wreck, was arrested on a warrant charging him with manslaughter.

**New Reservation Created.**  
Washington, May 31.—The president has issued a proclamation creating a reservation 60 feet in width along the entire northern border of Mexico, including the state of California and the territories of Arizona and New Mexico. The purpose of the reservation is declared in the presidential proclamation to be the suppression of smuggling across the international line. Since the abolition of the old "Zona Libre" or Free Zone between Mexico and the United States, it has been found increasingly difficult to prevent smuggling across the boundary, hence the presidential proclamation.

**Chicago Chronicle Suspends.**  
Chicago, May 31.—The Chicago Chronicle, property of John R. Walsh, went out of existence with Friday morning's issue. A brief editorial announcement explained that the paper "with this issue" would suspend publication.

The reason given for suspension was that the publication of the paper "has not been profitable of late."

**Peoria Would Welcome President.**  
Peoria, Ill., May 31.—If President Roosevelt can be induced to accept an invitation to Peoria while he is on his western trip the old Forty-seventh Illinois regiment will hold a reunion here. This is the famous regiment that carried a live eagle through the civil war, and there are but a few members who survive.

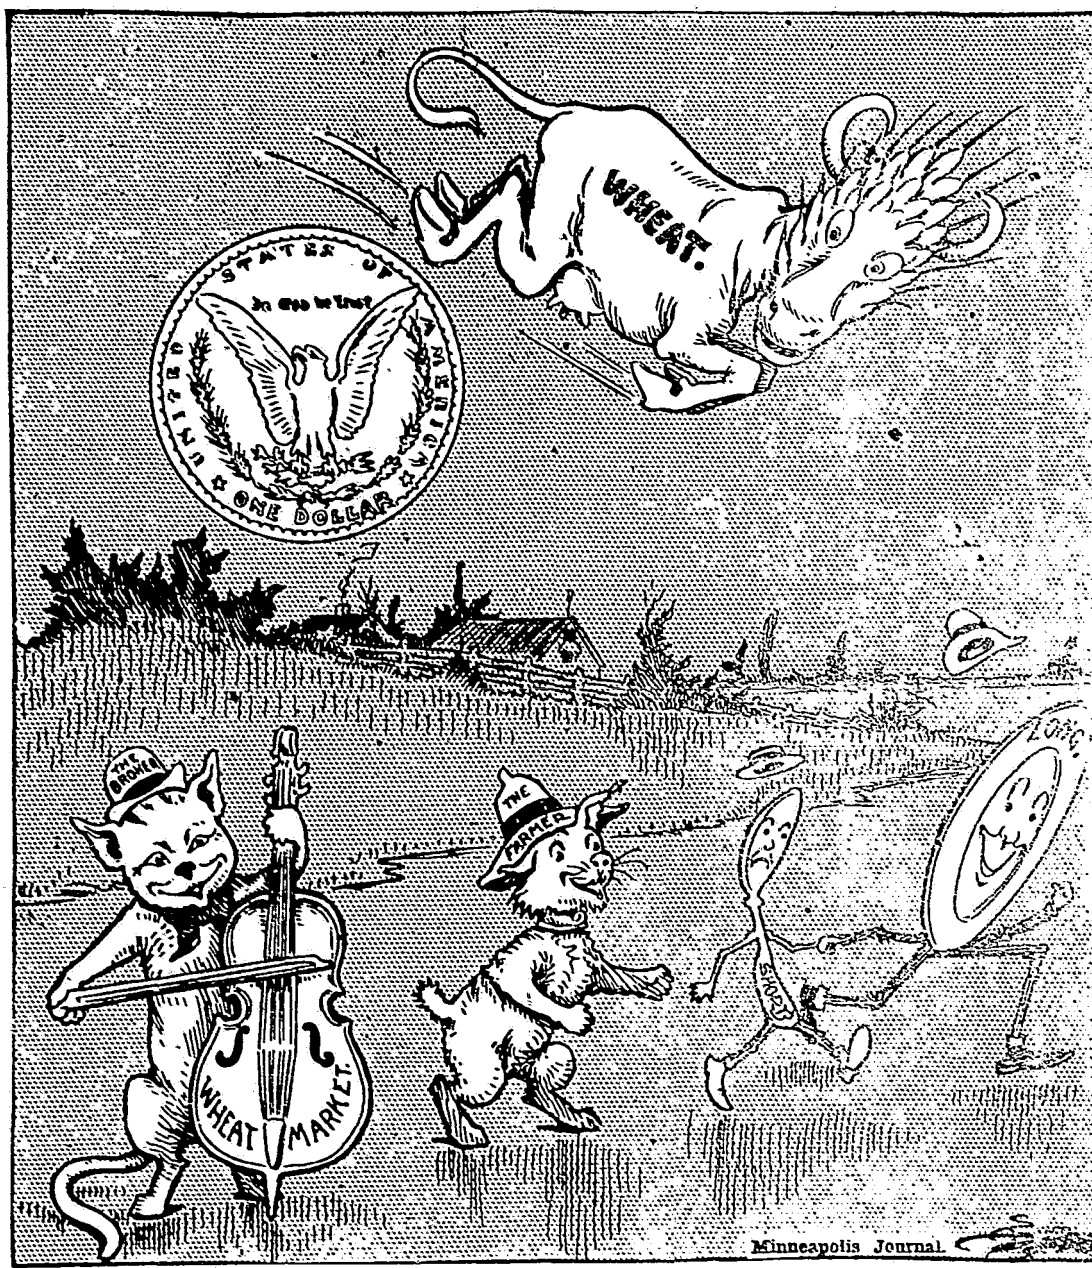

**Cornell Defeats Harvard.**  
Ithaca, N. Y., May 31.—Cornell won the boat race from Harvard by three quarters of a length.

**"Lord" Barrington to Hang.**  
Jefferson City, Mo., May 31.—The supreme court in banc Thursday decreed that "Lord" Frederick Seymour Barrington, now in jail at Clayton, Mo., shall be hanged on July 25 for the murder of J. P. McCann, a St. Louis horse man.

## BRYAN CRITICISES NEW RAILROAD LAW

SEES NO GOOD EFFECTS OF RECENT LEGISLATION.

## INCOME TAX FAVORED

In Address at Norfolk, Va., Democratic Leader Makes Severe Strictures on Policies of the Party in Power.

Norfolk, Va., May 31.—The anniversary of the passage by the Virginia house of burgesses on May 30, 1765, of Patrick Henry's famous resolution against the British stamp act was celebrated as Patrick Henry day at the Jamestown exposition Thursday with William Jennings Bryan as the central figure of attraction in a speech delivered in the convention hall on the exposition grounds before 2,000 people on the subject, "Taxation without Representation Is Tyranny."

Following the reading by President Tucker of the original stamp act resolutions, Dr. Phillip Aylett Fitzhugh, of New York, great-grandson of Patrick Henry, was introduced and given a hearty greeting by the audience, which arose and cheered the venerable descendant of Henry. The singing of "Yankee Doodle," by the children was followed by the singing of "Dixie," which brought forth great applause. Congressman Frank T. Laster, of the fourth Virginia district, in introducing Mr. Bryan, referred to United States Senator John W. Daniel, which was the signal for wild cheers for the Virginia statesman.

## Our Rule in Philippines.

Mr. Bryan dwelt on American rules in the Philippine islands, declaring that we are making laws for the government of the Filipinos under which we would not live ourselves, and compared the American rule of the Filipinos to the British rule of the American colonies prior to the revolutionary war. He said that while he had frequently said in the north that the black man was taxed in the south without representation he had likewise said that the white men of the south are themselves living under the same laws which they made to affect the negro.

He said of the two systems of taxation, direct and indirect, the direct plan is by far the safest. He favored strongly an income tax.

The speaker discussed federal own-

ership of railroads, but said that after all he wondered if more was not to be gained for the people by discussing and fighting the corporations.

## Against New Rate Law.

Continuing, Mr. Bryan said: "What is the effect of our new rate law which was so hard to get? There are two effects so far. One is it stopped rebates; that is good, but what was the pecuniary effect? Why, the railroads keep the money they paid to the favored shippers, that is, the railroads got more money out of this. What was the other effect? It stopped passes. What did that do? It gave to the railroads the money that the fellows used to save that rode on passes. So far we have increased the revenues of the road and that is all that law has done thus far; and when the various states said, 'Well, now, we have given you this advantage by stopping rebates and passes we will reduce passenger rates and make you divide with the people,' and in some states they have reduced the passenger rates; the railroads in some cases are so ungrateful for what has been given them that they go into the court to try to keep the people from having the benefit of the two-cent rate law."

## WAS MURDER AND SUICIDE

EXPLANATION OF TRAGEDY NEAR SPRINGFIELD, ILL.

Corra Lederbrand, It Is Admitted, Shot Her Sister and Herself—Had Long Been Despondent.

Springfield, Ill., May 31.—It is now accepted as a fact that Corra Lederbrand, the 17-year-old daughter of Joseph Lederbrand, a farmer residing ten miles east of this city, whose body, together with that of her sister, Carrie, aged seven, was found in the bottom of Sugar creek, near the Lederbrand home, with a 22-caliber revolver wound in the temple of each, killed her sister and then, wading into the creek, shot herself. The revolver with which the deed was done was found on the bank of the creek by Thomas Brunk, one of the searchers.

Corra Lederbrand had been in a despondent mood, and it is supposed that she made up her mind to end both her own and her sister's life. The sister was deaf and dumb and had been an invalid since her birth.

Before leaving home Wednesday afternoon Corra had telephoned her aunt, Mrs. George Lederbrand, at New City, that she was very ill and to come at once.

Then she took her sister to the creek where the tragedy took place. Lederbrand is a widower and has one arm.

A verdict that Carrie Lederbrand, aged seven years, came to her death by a bullet wound fired by her sister, Corra, aged 17 years, and that Corra committed suicide by shooting herself was found by a coroner's jury in the double tragedy in Cotton Hill township.

## FOR EXTENSION OF RAILROAD CONTROL

KEYNOTE OF PRESIDENT'S ADDRESS AT INDIANAPOLIS.

## FIRM BUT FAIR POLICY

Boon to Public and to Corporations Seen in Wise National Regulation—Men of Predatory Wealth a Peril.

Indianapolis, Ind., May 31.—After paying a tribute to the men who gave up their lives that the union might be maintained, and after speaking in praise of the gallantry, patriotism and devotion of Gen. Lawton, President Roosevelt Thursday turned his attention in his address at the Lawton monument unveiling to the economic problems of the hour, making particular and pointed reference to the matter of federal control of the railroads.

The speech was sharp and indicative of a purpose not to turn back from the attempt to check the tendency of certain corporations to violate the spirit and the letter of existing laws. Mr. Roosevelt declared that further government control of carrier corporations would be sought, but he declared also that federal operation of the railways was neither wise nor desirable.

## Greater Peril Than Anarchists.

The president made the flat statement that the country is in greater peril from the predatory rich than it is from the socialists and anarchists. He inveighed against the evils of overcapitalization and recommended that the government be given power to take account of the physical properties of the railways. He touched on the evils of car shortages and made recommendations for their correction.

The speech places the president in a still more advanced position on economic subjects, but all through its course there was expressed the deter-

President Roosevelt.

mination to see that no legitimate business interest should suffer.

The principal points made in the address, which was lengthy, follow:

**Stop Crimes of Cunning.**  
"The power of the nation must be exerted to stop crimes of cunning no less than crimes of violence."

"One great problem that we have before us is to preserve the rights of property; and these can only be preserved if we remember that they are in less jeopardy from the socialist and the anarchist than from the predatory man of wealth."

"Every federal law dealing with corporations or with railroads has been a step in advance in the right direction. . . . There will be no halt in the forward movement toward a full development of this policy; and those who wish us to take a step backward or to stand still, if their wishes were realized, would find that they had invited an outbreak of the very radicalism they fear."

## Closer Railroad Control Certain.

"The movement to regulate railways has come to stay. The people of this country have made up their minds—and wisely made up their minds—to exercise a closer control over all kinds of public service corporations, including railways. Every honestly managed railway will gain and not lose by the policy."

"The purpose of those of us who so resolutely believe in the new policy, in its thorough carrying out and in its progressive development, is in no sense punitive or vindictive."

"We favor the railroad manager who keeps in close touch with the people along his line rather than in close touch with the speculative market."

## Needs of Commerce Commission.

"Ample provision should be made by congress to enable the interstate

commerce commission, by the employment of a sufficient force of experts, to undertake the physical valuation of each and any railroad in the country, whenever and so soon as in the opinion of the commission the valuation of any road would be of value to the commission in its work."

"It is plainly inadvisable for the government to undertake to direct the physical operation of the railways save in wholly exceptional cases; and the supervision and control it exercises should be entirely adequate to secure its ends, and yet no more harassing than is necessary to secure these ends."

## Warning to Railroad Men.

"Let the big railroad man scrupulously refrain from any effort to influence politics or government save as it is the duty of every good citizen in legitimate ways to try to influence politics and government."

"In providing against overcapitalization we shall harm no human being who is honest; and we shall benefit many, for overcapitalization often means an inflation that invites business panic . . . and puts a premium on gambling and business trickery."

"We hope as one of the chief means for betterment of conditions to secure as complete publicity in the affairs of the railroads as now obtains with regard to national banks. There need be no fear on the part of investors that movement for national supervision and control over railways will be for their detriment."

## Appeals for Power.

"I ask for full power to be given the federal government because no single state can by legislation effectually cope with these powerful corporations engaged in interstate commerce, and while doing them full justice, exact from them in return full justice to others."

"The shippers of the country must be supplied generously with cars and all other equipment necessary to properly care for our commerce, and all this means that the national government must be given full and effective power of supervision and control."

## BAND CONCERTS THIS SUMMER?

Buchanan Faces this one Question—"Shall we Have Band Concerts?"

## MEANS MUCH FOR TOWN

Merchants Would Reap Benefits—Crowds Would Enjoy the Concerts

Will we see our hopes for band concerts this summer realized? This is the question that has been passed around for an answer. That a well organized band, encouraged by the citizens, and financially boosted by merchants, will help the town materially no one can deny. For several summers in the past the band has played every week giving the people, who come from distant farms and those from our residence districts, an evening of excellent music, calculated to dispel blues and headaches.

Again, "Shall we have band concerts this summer." Looking back and summing up the results of the past, are we going to dispense with our band concerts, which now is pretty well organized and, which, if given assurance of ample encouragement will be one of the best band organizations in the county.

Not only will the band furnish music of a high grade variety, but act as an advertisement for the town, not obtainable in any other method.

Band concerts in our business districts enable our hustling merchants to wear the glad smile, the citizens can lay aside the monotonous duties of home cares or business troubles for one evening in the week listening to the sweet strains of popular music.

To place the band in excellent shape it has been suggested that they rehearse frequently some patriotic airs for such occasions as Decoration Day and Fourth of July. How much easier the old comrades could have marched, yesterday to the strains of "Marching Thro' Georgia" or "John Brown's Body."

Get a wiggle on you, boys!

Let's have a real band—regular in organization and which can be depended upon to enliven the town with band concerts for the summer.

### Council Proceedings

A special meeting of the Common Council was held at the Council rooms April 27, 1907 at 8 p. m.

Members present: President Peck, Trustees East, Chamberlin, Roantree, Miles and Richards; Clerk Pennell.

President Peck called the meeting to order. The object of the meeting was to consider the terms of settlement of the differences between the Village of Buchanan and Chas. A. Chapin.

A proposition for settlement of litigation offered by Chas. A. Chapin was then read by Atty. A. A. Worthington, and discussed.

The meeting was then adjourned to M. L. Hanlin's residence at which place all members were present.

Moved by Trustee Chamberlin, seconded by Trustee Roantree that the lowest amount in cash that the Council would accept in settlement would be \$8,000.00. Ayes 5, nays 1. Motion carried.

Council then adjourned to Council rooms.

The matter of settlement was then further discussed.

Moved by Trustee East, seconded by Trustee Chamberlin, that the Council adjourn. Motion carried.

W. E. PENNELL,  
Village Clerk.

A special meeting of the Village Council was held at the Council Rooms, April 29, 1907 at 2 p. m.

Members present: Pres. Peck, Trustees East, Richards, Roantree, Hanlin and Miles; Clerk Pennell.

The meeting was called to order by the president who stated the object of the meeting to be to further consider the settlement of the differences and litigation between the Village of Buchanan and The Buchanan Company.

A proposition for settlement, which is recorded further on in these minutes was formulated.

The following resolution was moved by Trustee East, seconded by Trustee Roantree.

Resolved: That the outlines of the proposed contract of settlement submitted by Chas. A. Chapin be accepted, and that the village president be and is hereby instructed to request Atty. V. M. Gore to send a telegram to the Clerk of the Supreme Court asking the court to delay the decision of the case of the Village of Buchanan vs Chas. A. Chapin pending an effort between the parties thereto to effect a settlement. Ayes: East, Miles, Richards, Roantree and Hanlin. Noes: none. Motion carried.

The following is an outline of the proposition submitted by Chas. A. Chapin for the settlement existing between Chas. A. Chapin and the Village of Buchanan.

The following outline of proposed articles of agreement in settlement of the litigation and differences existing between Charles A. Chapin and the Village of Buchanan, were submitted by Fred A. Bryan in behalf of Chas. A. Chapin:

1. The Buchanan Company will furnish electric power to the village for the purpose of running its pumping works at the rate of \$25.00 a horse power per year for a 25-hour day; installation being considered normal load. No additional charge for motors operated during fire; the village to install its own transformers. The use of such power to be optional with the village and such option may be exercised at any time during the life of the lighting contract to be entered into between the village and the Buchanan Company.

2. A new lighting contract to be entered into for ten years on same terms as former contract, except that report of outages may be made verbally by Marshal or Night Watch.

3. The village agrees to join with Charles A. Chapin in a request to the State Supreme Court asking the Court to temporarily delay the decision of the injunction suit now before it for decision pending an effort to settle said litigation and differences and consummate a written contract of settlement. And if such contract be made then to join in a stipulation that the court need not decide the case, or if it be decided, that the decision be superseded by the contract, the details and terms of which to be agreed upon and reduced to writing within thirty days after this date.

4. The Buchanan Company and Charles A. Chapin having considered the valuation placed upon the property known as the Buchanan dam, for several years last past by the village assessor to be excessive and beyond its true cash value; and which valuation has led to litigation between the parties, the village is to

agree as a part of the said lighting contract, to pay back to said Buchanan Company on the said lighting contract whatever sum shall be collected as village taxes on said dam in excess of the taxes computed on an assessed valuation thereof of \$100,000. The word dam herein includes the dam proper, powerhouse, machinery and race on the westside of the river owned by the Buchanan Company, all of which are agreed to be within the village corporate limits, and so much of the race on the east side as shall be found to be within the corporate limits. Provided, however, that if the valuation of the entire real property of the village be raised by State or other outside authority, then the Buchanan Company is to pay the amount of taxes on said dam caused by such increased valuation; it being understood and agreed that the village shall not be required to repay any sum as excess if such excess be caused by an increase of valuation, applying to all the taxable real estate in the village, made by state or other authority outside the village of Buchanan. The Buchanan Company is to furnish the village assessor with a correct description of its property within the village.

5. On the part of the Buchanan Company all suits pending against the village commenced by Charles A. Chapin or said company to recover taxes paid by him or it under protest namely, a case tried in the Cass County Circuit Court, now pending in the Supreme Court of this state and an action pending in the Circuit Court for the Kalamazoo County, and all claims which he or it has against the village for repayment of taxes are to be dismissed and withdrawn. Further, that on the consummation and delivery of said contract of settlement, the Buchanan Company is to pay to the Village of Buchanan the sum of \$8,000.00.

6. The village council expresses its willingness that English and Holmes Addition be vacated; reserving all streets in which it has an interest, if any; also reserving the right of way for its water mains, and Provided, further that no objection be made by the Axle Works and that no objection be made showing the village rights or welfare to be affected. The following resolution was moved by Trustee—and supported by Trustee—

RESOLVED, That the outlines of the proposed contract of settlement submitted by Charles A. Chapin be accepted; and that the village president be and is hereby instructed to request V. M. Gore to send a telegram to the Clerk of the Supreme Court, asking the court to delay the decision of the case of the Village of Buchanan vs. Charles A. Chapin, pending an effort between the parties thereto to effect a settlement.

Moved by Trustee Richards, seconded by Trustee Miles that the Council adjourn. Motion carried.

Ladies, bring your husbands, brothers or someone else's brother and hear "The Deadly Upas Tree," an address by Wm. J. Putman, of Niles,—"The man with a memory," at the Evangelical church, Sunday afternoon at 3 p. m.

The Berachah class of the M. E. church were pleasantly entertained last Wednesday evening at the home of Rev. and Mrs. F. C. Watters. Various games were enjoyed after which refreshments were served. The guests departed at a late hour, having had a delightful evening.

Mr. Delano, leader of the Illinois Navel Reserve Band, has just tried out Louis Runner as trombone soloist and predicts a very bright future for Runner as soloist with his band this summer. This is the same organization that also has another Buchanan boy as a member, Dale Swem, who is playing solo cornet. It is reported that Jay Conrad will also try out with this same band in the near future.

Farmers declare that the recent rain is the salvation of the hay crop, says the Niles Star. The ground had been so dry that during the last week it was predicted that a complete failure of timothy and clover would result. If the rain is followed by warm weather there will be a fair crop of timothy, but much of the clover was frozen out last winter. Frosts have set back the spring vegetation at least four weeks, farmers say, but if the rain is followed by higher temperature, the general prospects will be favorable for corn and other grains. Much of the corn has not been planted.

The Niles Daily Stars says: Boating on the St. Joseph river is becoming more popular every season and there are now quite a number of motor boats owned here and at Buchanan. Between here and at Buchanan, on the river route, the scenery is magnificent, and on the banks, which in places rise sheer up from the water's edge, there are many old landmarks, among them being the old Cotton homestead facing the river, which recall the time when the steamers and keelboats journeyed up and down the river.

The Niles city council has passed a resolution restricting the number of saloons to its present number, 14 but providing that no new ones shall be started. As fast as one drops out the number will be decreased until it gets to five, and then the increase will be at the rate of one for every 1,000 of increased population. A man may sell to another, and that won't count as a new saloon, however. An applicant for a license must be recommended by 10 reputable citizens, and then the council reserves the right to reject. He must also whack up \$500 for the city treasury, in addition to the regular license fee of \$500 now provided by law. The legislature will be asked to legalize the resolution.

*"Fight the Devil With Fire"*

There are a lot of merchants, not only in this town, but others as well, who continually cry against the mail order houses, and who never think how much a newspaper can do for them if only they knew how to listen to practical suggestions.

A newspaper is really the ally of the merchants. It stands ready at all times to defend the rights of its advertisers and subscribers.

This combination of forces is the only practical and sensible way of meeting mail order competition—the only way that produces results.

To plead with the horny-handed tiller of the soil to stand by his home enterprises and to help build the town of his own county up by patronizing the home merchants, to sneer at, abuse and ridicule the man who patronizes the mail order houses, will never do any good.

To point to the fact that the mail order house pays no local tax, contributes nothing to the home charities and home and county improvements, or helps to pay the preacher, or any of the hundred and one things in the way of home charities or improvements, is useless—worse than useless. These mail order houses are answering every one of the arguments to the perfect satisfaction of the countryman, and he is going to keep patronizing them as long as you, Mr. Merchant, indulge in these absurd antics.

If you want business—and you are certainly entitled to it—get out and fight for it like a man. Stop your crying and abusing. You must as the old proverb tells us,

*"Fight the Devil With Fire"*

To successfully meet the onslaughts of an adversary, and defeat him, you must use the same weapon with which he attacks you.

In this case it is advertising—and it must be met with ADVERTISING.

You have simply got to show the people—by advertising—that you can and will meet the prices of these mail order houses on most things—especially when the freight and express charges and the long waiting necessary are taken into consideration.

Ignore the existence of the mail order houses completely.

Keep hammering it at the people that you meet the price of any one. Illustrate your ads, if possible, with cuts of your goods, and give prices. This, more than anything else, will open the eyes of the people.

That is all the people want—their money's worth; and as long as the mail order houses keep telling them—and you let all such statements go undisputed, and do not meet them with proof in the shape of facts and figures that they can give them more for their money than the local merchants possibly can, just that long are they going to remain customers of the mail order houses.

Sentiment and frantic appeals to civic pride is going to cut very little ice with the country people, as a rule—they are going where they think they can get the most for their money.

No amount of editorials by the RECORD will ever swing the people to cause of "home trade" unless the mer-

chants themselves come forward and advertise loudly and boldly as to WHAT and HOW MUCH. Merely stating that you have a complete line of this and that without prices won't do.

Anybody knows that a shoe store sells shoes, but there are people who will let their shoes wear out until some shoe dealer reminds them by forcible facts and reasonable prices that he has the stuff they need. If one shoe dealer says he has a complete line of shoes the effect would not be as fetching as the statement of another dealer who offers a \$4.00 pair of shoes for \$3.75.

There is a big difference.

The trouble with the country merchant is that he is too weak-kneed and too scared.

When something looms up the horizon that looks like something that would attract some of his trade, he gets badly scared—he gets shaky—he gets panicky—he is troubled.

The probability of mail order competition ruining their trade is not near so probable as their own lack of push, enterprise and up-to-date business methods.

## ADVERTISE!

It is said that what the Taft boom needs most is a leader. Raymond, in the Chicago Tribune, is of the opinion that the secretary's strength throughout the country is elusive and that there is no organization in his behalf. This being the case those interested would do well to devote more time to actual work instead of spending it in vague talk.

A headline says: "Morgan likes art." Yes, his work has always borne the stamp of the artist. For instance, the manner in which he organized the steel trust was truly an artistic bit of business, especially for himself.

That endless chain prayer which Mrs. W. Ellis Corey is said to have started just after her marriage to the steel magnate might better have remained chained.

All kinds of excuses are given why, after all, the queen of Spain will not nurse her own child, but the chances are the Spanish red tape is at the bottom of it.

Many a youth budding into manhood is smoking and chewing his stamina away, a victim to the insidious shredded strawboard habit.

Pittsburg is struggling in the grasp of a public service trust. It is hard luck for a town to be jumped on thus, while it is down.

## DON'T BE A KNOCKER

Hide your little hammer and try to speak well of others, no matter how small you may really know yourself to be.

Nobody gets stuck on a kicker.

## My Best Friend

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by W. N. Brodrick, Druggist. 50c and \$1.00. Trial bottle free.

## TRAIL OF THREE THUGS

New York Police Force Is Out  
 Thereon in Search of a  
 Priest's Slayers.

## THEIR NAMES ARE ALL KNOWN

But Their Whereabouts Is a Matter  
 To Be Determined.

Two Theories of a Sensational Character, Besides Robbery, Are  
 Advanced to Account for  
 the Crime.

New York, May 28.—Scores of detectives and policemen are scouring the city in an effort to locate the three men who are suspected of complicity in the murder of the man identified as Rev. Kaspar Varlorian, an Armenian priest, whose body was found in a trunk in a West Thirty-seventh street tenement house. Particular attention was given to the section of the city frequented by Armenians. Every known settlement in this and surrounding cities of any peoples having anything in common with the Armenians was closely watched. The railroad stations and steamship piers, too, were under close observation to prevent the escape of the men if they have not already fled.

## Names of the Suspects.

The men sought by the police are Sarkis Ermopian, John Moordian and Paul Sarkisian. It was in the room of Ermoyian and Sarkisian that the trunk containing the priest's body was found. They disappeared several days ago, and the officers believe that they may have left the country or returned to Chicago, from whence they came to this city.

## Theory Involves Servian Politics.

Although several theories have been advanced to account for the murder of the priest the police still hold to their original belief that robbery was the real motive. One of the theories is to the effect that the dead priest was about to expose a conspiracy to seize the Servian throne which is declared to have been arranged in this country with an alleged prince of the blood as the leading figure. It is said that Father Kaspar became a confidant of one of the conspirators, and finally had determined to make a complete exposure. The conspirators, it is alleged, learned of his intention, and appointed its agents to kill him before the secret had been revealed.

## Another Old-World Theory.

Another story declared that the men suspected of having caused Father Kaspar's death are agents of a Bulgarian committee which is seeking to overthrow the influence of the Greeks in Macedonia. The priest, according to this story, learned of their identity and they killed him in fear that he would expose them and frustrate their plans in this country.

## But the Body Was Robbed.

Against these stories the police call attention to the fact that all the valuables the priest was known to have carried had been removed from the clothing which was found in the trunk with his body. It is known that the priest carried considerable money of his own, and that he also usually had a considerable amount which he collected from day to day in his rounds of the Armenian settlement in this city for the support of the parish in Hoken to which he was temporarily attached.

## POSSESSED A VALUABLE JEWEL

Which with His Money Is the Motive for the Crime.

John Ermoyian was arrested at Chicago on suspicion of knowing something of the murder, but later released when he satisfied the police that he knew nothing thereof. The assertion is made that Father Kaspar Varlorian had recently inherited a snug fortune from a brother who died at Chicago, and that he possessed a jewel of great value in the form of a crescent or a cross, which had been handed from generation to generation of priests—this money and the jewel giving the police motive for the crime.

Mrs. Henry Sherrer, in whose apartment the trunk with its body was found, was taken to police headquarters to identify a man who had been arrested as the "express man" who took the trunk to her home, and announced that he was not the person who carried the trunk in. Where the murder was committed, how many men were implicated, whether or not a secret society was in any way connected with it, remain questions as yet unanswered.

Captain Stephen O'Brien, of the West Thirty-seventh street precinct, said that the movements of the priest had been traced up to noon on last Wednesday, when he was seen to enter the house at 333 West Thirty-seventh street. No one saw Father Varlorian after this so far as can be ascertained. Captain O'Brien expressed the belief that the murder was committed in the room where the trunk was found.

## Leave of Absence for Postmasters.

Washington, May 28.—Acting Postmaster General Hitchcock has ordered that all postmasters of the United States of the second and third classes be granted leave of absence not exceeding fifteen days to attend the annual meeting of the National Association of Postmasters in this city, beginning Oct. 22nd next.

WATCH THE RECORD JUNE 7TH. SOMETHING EXCITING

## RESUME TRIAL OF HAYWOOD.

More Veniremen Are Summoned to Appear in Court.

Boise, Idaho, May 31.—After a day's adjournment the trial of William D. Haywood, secretary and treasurer of the Western Federation of Miners, charged with the murder of former Gov. Steunenberg, will be resumed before Judge Fremont Wood in the district court Friday. At the opening of court a special venire of 61 talesmen, the third summoned since jury building began, will present itself.

Carl H. Duncan, the young man who came here disguised and armed, and was arrested on suspicion on Tuesday, is still held at the city prison, and an extended investigation of his career and conduct is in progress here and in other cities where he lived. It is expected that he will be taken into court and be charged with carrying concealed weapons. Duncan insists he did not come to Boise to shoot anyone.

## Millers Hear Secretary Taft.

St. Louis, May 31.—Before an audience of millers from all parts of the country, attending the mass convention of the Millers' National Federation, and marking the largest gathering of millers ever held in this country, Secretary of War Taft Thursday afternoon made an address at the Odeon on the topic, "Recent Instances of National Altruism."

The assembly constituted the final session of the convention of the federation, which invited Secretary Taft to address the body. President J. W. Burk of Springfield, O., presided, and introduced former Missouri Governor E. O. Stanard, a miller of St. Louis, who, in turn, made a brief speech introducing Secretary Taft.
