VOLUME XLII.

BUCHANAN, MICHIGAN, FRIDAY, NOVEMBER 22, 1907

NUMBER 87

## PRES. THARWOOD INTERVIEWED

Agent South Bend Telephone Company Franchise.

## OUTLINES SEVERAL POINTS

Showing Why the Company Should Be Granted a Franchise by the Village.

The president of the South Bend Telephone Co., Mr. Theodore Tharwood called on a RECORD representative yesterday and outlined the following interview in support of his petition for a franchise:

"The South Bend Home Telephone Co. has in St. Joseph county, Ind., 7 independent exchanges with over 6,000 phones and on account of Buchanan being so close to South Bend has a large number of persons living in Berrien county, Mich., who want quick and easy access and direct communication with patrons of the Home Telephone Co. of South Bend. Added to this fact is the large number of rural subscribers who now have Home phones and who do business with the professional and business men of Buchanan and who are asking for a direct toll wire with a ten cent rate between South Bend and Buchanan.

"Before the Home phone was installed in South Bend the Bell Telephone Co. charged 25 cents for a three-minute service from Niles or Buchanan to South Bend. On account of the Home Telephone Co. installing a pay station in Niles and threatening the invasion of the territory with modern and up-to-date telephone exchanges, and the reduction to 15 cents for a five-minute message, by the Home Co., compelled the Bell Co. to reduce its heretofore excessive toll rates and has also kept their exchange rate lower than usual.

"The strong inroads of the Home Tel. Co. is responsible for the reduction and shows in a measure the advantage of recognizing an independent telephone company. These forced reduction in prices would not have been given the public had it not been for the strong features inaugurated by the independent company whereby the people are given good telephone service at a reasonable rate.

"In addition to the above features the exchanges in Berrien Co., Mich., are very close and under the present conditions, a person living 3 1/2 miles from Buchanan, but being on the Niles Exchange, has to pay 10 cents to talk to a Buchanan business man or resident subscriber.

"The Home Company if given a franchise will install an up-to-date exchange, install a central energy system the same as have been installed in all larger cities. They intend to give subscribers on one exchange the benefit of free service to and from their exchanges in this county so that if a Buchanan subscriber wishes to talk to his relatives or a business man in Niles, Gahen, Berrien Springs or any other exchange he will not have to pay his little 10 cents each time, thus avoiding a system of exhortation, or in other words, paying twice for one service when one price should suffice.

"By the one price system harmonic ringing machines will be used that will only ring the subscriber wanted instead of ringing all as under the old system. It will be impossible for the other subscribers coming on the line without the central operator's knowledge.

"There are many other advantages showing the Home Telephone Co. is entitled to a franchise when good service from an economical standpoint can be secured.

"Misinformation has been responsi-

## Stock Ownership Greatest Trust Evil.

By Attorney General WADE H. ELLIS of Ohio.

**T**WO important facts must be recognized and accepted before any progress can be made in solving the problem of the trusts. The first of these is that HONEST CO-OPERATION IS NEEDED TO RIGHT THE WRONGS, AND, SECOND, THAT HONEST CO-OPERATION IS NOT ONE OF THE WRONGS TO BE RIGHTED.

Let us be done with all rivalry between state and federal jurisdiction. The trust question cannot be fenced up by STATE lines. Whether we will or not, it has become A NATIONAL CAUSE, and it will have to be decided in a national forum. The effort should be rather to seek one effectual remedy than to emphasize a conflict between many.

THE MOST EFFECTIVE COMBINATION IS THAT ORGANIZED THROUGH STOCK OWNERSHIP. THERE IS NO INHERENT POWER IN ONE CORPORATION TO OWN THE STOCK OF ANOTHER. THE STATES WHICH DENY SUCH OWNERSHIP OF STOCK ARE POWERLESS TO PROTECT THEMSELVES. ALL THE CHIEF COMBINATIONS NOW IN EXISTENCE OPERATE THROUGH STOCK OWNERSHIP. CONGRESS CAN AND SHOULD DENY TO INTERSTATE COMMERCE CORPORATIONS THE POWER TO OWN STOCK IN OTHER CORPORATIONS, CONGRESS HAVING ASSUMED AND EXERCISED THE POWER TO CREATE INTERSTATE CORPORATIONS.

Practical advantages would follow the denial to interstate corporations of the right to own stock in OTHER corporations. There would be nothing startling or revolutionary in the act if congress should pass a general law on the subject.

It would simply be an adaption of the common law—merely an extension of the POLICY ALREADY ENFORCED BY CONGRESS with respect to all corporations created under its direct authority. I do not predict that the policy suggested will solve the problem of the trusts, but it may remove the MOST OBVIOUS of existing evils, and, more important than all else, it would make the promoters of every great enterprise conduct it openly under one name.

The battle for business would then be conducted WITHOUT CONCEALED WEAPONS, and the natural growth of corporations would not need to be retarded by a resort to governmental restrictions which oppose sound economic laws.

## The Labor Union Is Not a Trust.

By SAMUEL GOMPERS, President of the American Federation of Labor.

**T**HE trades union finds its greatest development under the SAME ECONOMIC CONDITIONS WHICH PRODUCE TRUSTS—that is, the introduction of machinery, the subdivision of industry, the adoption of vast and complicated systems of production which obliterate the individuality of the worker and thus force him into an association, but not a trust, with his fellows in order that collectively they may PROTECT THEIR RIGHTS as wageworkers and as citizens and also guard the interests of all workers.

THE TRADES UNION IS THE VOLUNTARY ASSOCIATION OF THE MANY FOR THE BENEFIT OF ALL THE COMMUNITY. THE TRUST IS THE VOLUNTARY ASSOCIATION OF THE FEW FOR THEIR OWN BENEFIT.

The workers of the country have pretty thoroughly mastered the broad economic truth that ORGANIZATION IS THE WATCHWORD OF MODERN INDUSTRY. Labor concedes the right of organization among employers. It is perfectly willing to deal with such associations, provided its own rights are not denied or invaded; to put it more strongly, PROVIDED its rights are recognized and conceded. When we take up the case of the worker as a CONSUMER, still speaking for the masses, the situation is more complicated. The worker has not yet developed the same capacity to protect himself as a consumer that he has as a producer, or, rather, to put it more accurately, TRUST ABUSES ARE MORE PRONOUNCED IN THE REALM OF DISTRIBUTION. The control of vast distributing powers by certain trusts has been acquired through means which are only beginning to be understood by the people at large—the consumers.

ble for the theories advanced by some people. A good deal has been said about poles, but the fact is that under the present construction, instead of a lot of high poles with innumerable cross arms with open wires, there will be an all cable plant and most of the poles will be in the alley. The fact is also advanced that any telephone company building now would a good deal rather have poles in the alley than on the "public" streets.

"Under the system we intend to install, a telephone subscriber, instead of being connected with a small exchange of only 500 subscribers, will virtually be a part of a 2,000 phone

system and can talk for the same annual rental that a subscriber is paying now to talk to 325 subscribers."

## New Feed Department

The Niagara Mills, owned by Bainton Bros., have inaugurated a new feed department which is now in excellent running order. This new feature of their business will enable them to quickly and satisfactorily handle work for all who desire custom feed ground. The reputation of these enterprising flour specialists is sufficient guarantee of their ability to grind custom feed right and at reasonable prices.

## ATHLETIC CLUB FOR THE MEN

Business Men Form One With a Charter Membership of Seventy

## SUCCESS IS NOW ASSURED

Members Held an Enthusiastic Meeting in the City Hall, Organized and Elected Officers

Seventy business men of St. Joseph organized an association which will be known as the Business Men's Athletic Association, and elected officers and a board of control, composed of substantial business men.

It is expected and planned that the new association will fill a long felt want among the business men of that city, and provide for them the physical exercise of which every business man whose duties keep him closely inside an office, requires.

A well equipped gymnasium will be provided for the members and the board of control was empowered to provide a building. It will be thoroughly equipped with the best appliances and the members will introduce such sports as indoor baseball, basketball, and other indoor gymnasium features. In the spring it is probable that a track team will be organized and that a baseball nine will also take the field.

The new organization opens with every promise of success, and it is sincerely hoped by the business men that it will prove to be of the value which they expect.

## A Mandamus is Asked For

Niles Mayor Wants the Council to Return Funds it Appropriated

Attorney W. N. Burns played another trump card in the municipal anti-paving fight of Niles when he made application to Judge Coolidge for a writ of mandamus to compel the city council to re-transfer the moneys from the general paving fund back into the contingent and street and bridge funds, which were transferred from these funds by the council last Wednesday night.

Two thousand dollars was transferred from the contingent fund and \$500 from the street and bridge fund, leaving the contingent fund exhausted.

The action was taken by the council to brace up the general paving fund.

Hearing on this application for a mandamus will be taken November 25th, inst.

## Prof. Adams

Suggests Plan for Interstate Commerce Commission

The Detroit Journal Tuesday quotes Professor Henry C. Adams of Ann Arbor, Michigan, chief statistician of the interstate commerce commission, as suggesting that the interstate commerce commission could accept state railroad commissioners as agencies for the investigation of federal questions of local rather than general interest and by means of the close intimacy thus established exert controlling influence upon the manner in which state commissions administer the power conferred upon them by the state.

This plan Prof. Adams said would avoid a congestion of cases before the interstate commerce commission as only cases of really national importance would then come before the national commission. At the meeting of the state railway commissioners in Washington recently, Prof. Adams said many of the delegates expressed views in harmony with the above suggestion of co-operation.

## ST. JOE RETAILERS AFTER OUR TRADE

"The Pere Marquette to the Buchanan Trains to St. Joseph."

A prominent merchant of St. Joseph, a strictly dyed-in-the-wool believer in advertising says that St. Joseph must reach out her hand beyond her city boundary lines and has selected Buchanan as a possible prey to the alluring baits which that hustling town will soon offer to bargain hunters.

The merchant above referred to spoke to a bunch of good natured merchants, equally as anxious as himself to land more business. He outlined to the local merchants how they can get more trade from Buchanan and rural districts by insisting that the Pere Marquette start the trains from here direct to St. Joseph.

This furnishes food for thought. St. Joseph has a Merchant's Association. Every merchant is a member and judging by the "live wires" constantly boosted it is natural to infer that not a single member of the association belongs to a moss-covered rut. Every member is firmly rooted to the belief that their business can not thrive and prosper without advertising.

We admire these St. Joseph business men for breaking away from the yoke of ancient and worn out beliefs that "advertising doesn't pay." They have discovered that to make advertising pay is to put prices and give honest descriptions in their space. St. Joseph surely will grow as fast as their brains and liberal-minded merchants set the pace.

What St. Joseph can do Buchanan can follow. Why can't we have a merchant's association. It is likely that an organization composed of Buchanan's merchants can accomplish far more things for the town than a board of trade.

An association of this kind can help to secure better streets in the city; better country roads; uniform prices on staple goods; more hitching posts; uniformed hours for closing the stores; offer better inducements to all of our people to trade at home; a friendly feeling among all classes of merchants; patronize the home newspapers and co-operate with them in helping to boost Buchanan.

It merely takes a little determination to work together to accomplish these things but in the end we will find the efforts well worth spending.

## Order's Funds in Jeopardy

Clash Between Bank and Modern Woodmen Over Big Sum

The Modern Woodmen of America do not know how the order will come out in the revelations brought about by the suicide of Frank Crocker, at one time supreme banker of the order. He was cashier of the First National bank of Charlton, Iowa. He was given \$200,000 at first to deposit and showed a certificate of deposit signed by himself as cashier of the bank. He was bonded for \$400,000. Then he was given \$200,000 more. The order desired \$50,000, which he produced, leaving \$350,000, for which he showed a certificate of deposit. On his death it was found he had never deposited any of the funds. The directors of the bank say that as the bank never had the money on deposit it is not liable, although the officers of the order will try to hold the bank on the certificate of the cashier. Another interesting feature is the bond. It was taken out to cover the first \$200,000. The order will try to force the security to cover the entire deposit, but there will be a clash on this point.

Possibly you can live on peanuts but why should you when bread made from the Blended flour, GEBELLE, made by the GOSHEN MILLING CO., is so much more healthful and tastes so much better? C. B. Treat & Co. have it.

Eternal push is the price of business.

## DO YOU WANT ANOTHER TELEPHONE SERVICE?

We honestly believe a majority of Buchanan citizens, especially those who have anything to do with telephones, have some kind of opinion formed but hesitate to come out in the open.

It is hard to understand why any one should let timidity stand as an obstacle to solving a grave problem which pertains to the best interests and welfare of the community.

Bear in mind, Mr. Telephone User, that the South Bend Telephone Company has petitioned for a franchise, details of which were published in Tuesday's issue of the RECORD, and that the Council deferred acting on it with any haste preferring to hold it up in the limelight in order that the people may be the judge of what they want. The Council is composed of business men closer to the hearts of the people than to the corporations. The fact that the Council takes the public in its confidence shows how well they respect the intelligence of the people. Inasmuch as each member of the Council is solid for Buchanan and her welfare, it is fair to presume that a grave question that looms up will receive their careful thought and consideration, but are you doing your part? Do you believe that if the council is willing to abide by the people's demands it is your duty to assist in bringing this telephone question to a quick settlement satisfactory not only to a few, but to ALL?

Now, at least one citizen has responded to our invitation to allow every RECORD reader to express his opinion. His opposition to a second telephone system is explained in his brief communication.

He may be the only citizen opposed to two telephone exchanges, or there may be many who favor a rival company.

But it's up to you to write your views. The Council will abide by the sentiment of the majority.

Your silence may be taken as an approval of the new movement. If the council ever bases its action on this and grants the franchise your howls and protests will be in vain.

The best time to throw in your kick is before the climax arrives.

Write your opinion now. We will not abuse your confidence. We will let your opinions form the basis of the majority's pulse—not by a few letters but by an overwhelming mass of letters.

## A HARD DEBT TO PAY

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and throat and lung complaints. Guaranteed by W. N. Brodick, druggist. 50c and \$1.00. Trial bottle free.

**Was Drugged**

Colon Man Robbed by Well Dressed Stranger

Lewis Ackerman, aged 28, of Colon, took a drink with a well-dressed stranger on the Michigan Central air line train Tuesday. He lost consciousness and was thrown from the train at Three Rivers and arrested as a drunk. It was noticed by the police that his condition was unusual and medical examination showed that he had been drugged. He regained consciousness after several hours, and gave a slight description of the man who offered him a drink. A \$50 bill was missing from his person, leaving him a small amount of silver. He was able to continue on his way to Grand Rapids.

Large fortunes from small graft soon grow.

Mr. Editor:—  
 Do we need the South Bend Telephone line?  
 No!  
 Why? Because there is no call for it. We can get all the service we want with the Bell. We would have double rents.

We have no assurance of reduction of rents of telephones, nor of messages. We have enough disfigurements of our streets now by the poles and lines of the lighting service and the Bell Telephone.

Yours,

**30 CLUB**

The 30 Club met Wednesday afternoon with Mrs. Chas. Pears and in spite of the rain all but four members were present.

It was "Children's Day" and roll call was responded to with "Sayings of Children," some very bright and amusing remarks being given.

Miss Artie Logan gave a very good paper on "Child Labor." "Children's Periodicals and Stories" by Mrs. L. E. Peck was much enjoyed. Mrs. Glenn Smith told of "Public Playgrounds" and of the good they are doing in the large cities. "Model Mothers in History" by Mrs. Wilson and "Anti-Cigarette Crusade" by Mrs. Speckine were omitted owing to the absence of the ladies.

Miss McCann played a piano solo which was much appreciated and she very gracefully responded with an encore.

Conversation with Mrs. Pears as leader closed the program.

The club will meet Nov. 27, at the home of Mrs. D. L. Boardman. The meeting will be at noon and a "Pot Luck spread" will be the feature of day.

Hon. A. B. Cummins, Governor of Iowa, on the Chicago Stock Show

"The International Live Stock Exposition has been a potent factor in giving to the live stock industry the position it ought to hold through the West. It has brought into existence many other exhibitions of like character in the Mississippi valley, and has infused new life into the science of breeding. In my own state the effect upon the display of live stock at the state fair has been so noticeable that it is everywhere remarked.

"Chicago is peculiarly situated for such an exposition. It is convenient to the North, South, East and West. In Chicago, the champion herds may be assembled at the close of the annual show season, to contest for final honors, with minimum trouble and expense.

"I sincerely hope that the International Live Stock Exposition may continue its helpful and brilliant career."

A farmer near Buchanan couldn't image what malady had attacked his geese. Their legs would not support them and several of them were given up as dead. Goose feathers are worth something and the time to pluck a goose is when the body is still warm. So the farmer's wife got busy. One goose was nearly undressed when it wiggled and began cackling indignantly. The astonished woman dropped it and it waddled out of kitchen door followed by its suddenly revived sisters. The geese had eaten pulp from a cider press and were on an applejack spree.—Niles Star.

### The Sailor Man.

An old salt who navigates a bicycle when in port was working a rapid passage the other day when he collided with a lady cyclist. After they had extricated themselves from the wreck the sailor made an apology from which she could gather little except that he was sincerely sorry.

"I'm sure I ought to be scuttled for it, murr," he said rapidly, "but I couldn't get yer signals no more than if we were feelin' through a fog bank. I was blowin' for you to pass to port an' steerin' my course accordin'. Just as I was goin' to dip my pennant an' salute proper your craft refused to obey her rudder an' you struck me for'ard. Afore I could reverse your jibboom fouled my starboard mizzen riggin', your flowin' gown snarled up with my bobstay, blew out yer pneumatic, parted yer toppin' lift an' carried away my jacksaddle down haul. As I listed I tried to jibe, but I capsize, keel up, an' you were founderin' in the wreckage."

By this time there was an interested audience and the girl was mentally debating whether she should run from a supposed lunatic or ask for an interpreter.

But Jack's headpiece was still in his hand and he was not finished.

"I'm hopin' yer not enough damaged for the hospital," he went on, "but I'd be sunk if I wouldn't be glad to stand yer watch till you righted. This here little craft of yours will be as seaworthy as ever when her upper works is straightened out an' we get wind into her sails again. I'll just tow her down to the dock for repairs."

And she smiled an assent.—Illustrated Bits.

### A HARD DEBT TO PAY

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and throat and lung complaints. Guaranteed by W. N. Brodrick, druggist. 50c and \$1.00. Trial bottle free.

### Changed Faces.

The nose lasts longest unchanged of all the features. The brow becomes wrinkled, and crow's feet gather round the eyes, which themselves gradually grow dim as time rolls on. Cheeks lose the bloom which cosmetics cannot replace and lips their fullness and color. The chin, dimpled in youth, develops angularities or globularities, as the case may be, and the eyebrows become heavy with the crop of many years' growth. The nose shows no mark comparable to these familiar facial indications of the approach of old age and practically enjoys immunity from the ravages which time makes on the other features of the face. Next to the nose, probably the ears, as a rule, show the fewest and least obvious signs of old age.

The Record's Regular Correspondent  
John Redden, of New Paris, Ind., was a guest at the V. M. Baker home over Sunday.

John Redden Sr., returned from the South Saturday night not much benefited in health.

Mr and Mrs. Milton Erdley returned Saturday from a visit to Pennsylvania.

Bud Long and family and Mr. John Long, started for Mason county, Mich., Tuesday morning, where they expect to make their home.

B. Griffith, of El Paso, Ill., and nephew, Earnest Gulp, of Blanchard, Mich., visited friends in this vicinity Friday and Saturday. Mr. Griffith was on his way home from Blanchard, Mich., where he was called on account of the death of his father, Stephen Griffith.

Miss Edna Gilman, of South Bend, visited her parents, Mr. and Mrs. Willis Gilman over Sunday.

Rev. William Lawrence Jakways, aged 39 years, died Sunday night at his home in New Carlisle, Ind. The funeral was held Wednesday afternoon at 2 o'clock. Rev. Jakways was the father of Wm. Jakways who lives near here, and was well known in this vicinity, and Dayton where he preached many years ago.

**MONDAY LITERARY CLUB**

The Monday Literary Club was favored with another pleasant Monday and twenty members enjoyed the lovely drive to the hospitable country home of Mrs. Butts. After the opening exercises and sometime given to unfinished business, the day was in charge of Mrs. Dodd and Mrs. Roe. Subject Panama Canal. These ladies had given it careful study from the first attempt at building the great water way, by a French Company, under the guidance of DeLesseps, up to the latest news from the Canal Zone. The French Companies labored about 30 years and spent nearly three hundred million of dollars.

When the canal is finished, Uncle Sam can boast of making an excavation at Culebra Cut greatly exceeding in magnitude anything heretofore undertaken, and controlling the Chagres river which has formed the habit of rising at times 40 feet in a few hours. With maps and charts the lesson was made very interesting.

Mrs. Butts served unusually fine refreshments. It is regretted that she is so soon to leave us, as she is contemplating a trip to California, but our loss will be her gain.

We will celebrate Tuesday, November twenty-six as our Thanksgiving Day. Dinner at twelve o'clock at Miss Samson's home. A full attendance is expected.

Reading of Trashy Booklets Ruins Perry Tschubb

Perry Tschubb, 17 years old and son of a well known and a well to do Goshen, Ind., farmer, is in jail a self-confessed thief. He attributes his downfall to the reading of nickel novels, explaining he was influenced into committing theft through ideas he gained in perusing thrashy literature.

Since committing the theft, to which he confesses in detail, Tschubb has been as far west as Omaha, Neb. Tschubb's parents are broken hearted over the downfall of their son. They admit he has been reading yellow backed novels and say they have no doubt his mind is influenced.

For a mild, easy action of the bowels a single dose of Doan's Regulents is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

**Brands Boy as Slayer.**

Young Playmate Says Friend Deliberately Shot Him.

Accused by the lips of his dying comrade as a murderer, Lester Wyckoff, 12 years old, of St. Joseph, is held in the county jail to await the fast approaching death of his playmate, Victor Alden, 11 years old.

One side of his body absolutely powerless, Victor Alden lies at his father's home in Pipestone township, a 22 caliber bullet, which entered above the right eye, being lodged at the base of the brain.

In whispers to his anguished mother the boy declared that his former friend, after a luckless Sunday afternoon rabbit hunt, had deliberately pointed the gun at him and fired.

Though the Wyckoff had hurried home and informed the neighborhood of the occurrence, it was almost an hour before the relief party reached the little fellow. The Wyckoff lad denied the conversation attributed to him and declared that he shot at a rabbit which ran between him and his friend. The officers, however, were unable to find the traces of the rabbit.

The alleged slayer shows absolutely no traces of regret or fear and his bearing is cool and composed.

**THUMPING HEADACHES**

Many Buchanan Women Have Them, But Few Know the Real Cause

Dull, throbbing headaches; sick prostrating headaches; dizzy, whirling, blind headaches, point to disorders of the kidneys, tell of uric poisons in the blood. Narcotics may ease the pain but won't cure the cause. Doan's Kidney Pills cure the kidneys, remove uric poisons, purify the blood, banish headache, backache, urinary ills. Here's a Buchanan testimony to prove it:

Mrs. Rachel Phillips, living on 2d street near Atlas Belting Works, Buchanan, Mich., says: "I have been a great sufferer from backache and headache, dull miserable pains across the small of my back extending up into the back of the neck, accompanied by severe attacks of sick headache causing me days and nights of suffering. I suffered from these attacks for 25 years at least, and tried many remedies during that time, but none of them gave anything but temporary relief. A friend recommended Doan's Kidney Pills to me saying that he had been cured of a similar trouble, and advised me to give them a trial. I procured a box at W. N. Brodrick's Drug store who also recommended them very highly, and began their use. Two boxes were sufficient to effect a cure, and I have not been troubled with the complaint since, and it gives me great pleasure to publicly endorse Doan's Kidney Pills as I know they will do all that is claimed for them."

For sale by all dealers. price 50c. Foster-Milbourn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

**"Marta of the Lowlands"**

CHICAGO GRAND OPERA HOUSE

The union of a great actress and a great play always has a definitely pleasing result. In Chicago this union will be signalized by the appearance at the Grand Opera House for two weeks commencing Nov. 25, of Bertha Kalich in "Marta of the Lowlands," the master work of Angel Guimera, the celebrated Catalonian dramatist. This play has proved its exceptional power and appeal as a drama in various Latin countries while in Spain, Mexico and South America it has been the chief medium of Maria Guerreri, the greatest of Spanish actresses.

"Marta of the Lowlands" is a real drama revealed at a time when real drama has well nigh vanished from the stage. Its plot is remarkable for the strength with which it grips and hold the spectator to the close. Its story is sympathetic and unusual in its humanity; a story of unique simplicity, human interest, beauty and power; the story of how a strong man might love a woman. Although Madam Kalich has heretofore been seen in distinguished circumstances under Harrison Grey Fiske's direction, her great opportunity is met and fulfilled in the character of Marta, a young peasant girl of rare quality, rich imagination, and primitive, passionate nature. In this character Madame Kalich finds scope for her moving pathos, her warmth of emotional passion, and her power to thrill an audience in the stress of the highest dramatic opportunity. The scene of play Catalonia, admits of very odd and picturesque costuming and scenic effects, and the piece is mounted in Mr. Fiske's usual artistic manner. The exceptionally well balanced company includes Henry Kolker, Hardee Kirtland, Robert McWade, Thomas Fallon, Henry Hanscombe, R. M. Dooliver, Bertram Grassby, Mary Hughes, Genevieve Blinn and Edith Taliferro, besides peasants and dancers. Matinee Saturdays. Special Thanksgiving matinee.

**A SIGNIFICANT PRAYER**

"May the Lord help you to make Bucklen's Arnica Salve known to all," writes J. G. Jenkins, of Chapel Hill, N. C. "It quickly took the pain out of a felon for me and cured it in a wonderfully short time." Best on earth for sores, burns and wounds. 25c at W. N. Brodrick's drug store.

**The Stand Pipe is Spotless**

Recent Examination Showed the Big Tube to be in Excellent Shape

St. Joseph's stand pipe is no breeding place for lake fish. This fact has again been demonstrated to the satisfaction of all who cared to look inside the big affair. The man hole was taken off and a thorough investigation made. The results were so highly satisfactory that the members of the press were invited to call and see for themselves the condition of the pipe. No small fish, no dead minnows and no accumulation of dirt was found, popular opinion to the contrary, and the pipe was reported in first class condition.

I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weaknesses. Great alterative and body builder; best of all for lame back and weak kidneys.
