

THE BERRIEN COUNTY RECORD.

VOLUME XLIII

BUCHANAN, MICHIGAN, THURSDAY, AUGUST 18, 1910

Price \$1.00 Per Year in Advance.

NUMBER 30

BRASS BAND COMING FROM HOUSE OF DAVID

Facts Concerning Headquarters of Large Body of Israelites, Gathered from All Parts of the Globe.

One of the attractions here during Home-Coming week will be a brass band from the House of David, at Benton Harbor. The Israelites are a peculiar people, and present a striking appearance, owing in part to the fact that they wear long hair and odd costumes.

Thousands of people visit the colony from all quarters of the globe, and especially from all along excursion lines. Picnic grounds, entertainments, band concerts, etc., are all free of charge at the beautiful Springs of Eden, where much means and labor have been expended to make this place one of the most desirable for summer outing that can be found around the lake region. The mineral springs are inviting, their waters healthful, besides the surpassing beauty of the spring's surroundings.

Another feature not to be found elsewhere in the world is the large body of Israelites gathering from different parts of the globe—Australia, England, Germany, Italy, New Zealand, etc. Australia is well represented with a large band, among the many bands of the House of David. There is a zoo on the grounds; also pony and monkey show, besides birds and animals from Australia and different parts of the world.

This beautiful Eden Springs is not being built up by tearing others down, but its natural beauty recommends itself to all who see it. Good spirit pervades the place, pure and breezy atmosphere and its shady nooks are enticing to all.

WHY BUCHANAN IS AN IDEAL PLACE IN WHICH TO LIVE

By President M. L. Hanlin

To attempt to detail all of the reasons why Buchanan is an ideal spot in which to live would require more space than this edition could possibly devote to any one subject, so that it will be the aim of the writer to present only some of the more important reasons for its adoption as a home.

It is unnecessary to endeavor to convince any of its present citizens of its superiority as an abiding place over others, nor do we believe any of those who have lived here and have taken up homes elsewhere, and who now are with us again for a brief visit, have aught but pleasant memories of this village as a place of residence.

The fact that Buchanan is a beautiful and pleasant spot in which to live is being borne in on many Chicagoans as is evidenced by the numerous purchases of home property for permanent or summer abode, which have been made in recent months.

That Buchanan has emerged from its Rip Van Winkle sleep of twenty years and has successfully "come back" can be seen at a glance and that it is brighter, better and handsomer than ever is a fact which will be readily conceded by those who return this week.

To attempt to place one reason for the excellence of Buchanan as a living place before another would be but to invite disagreement so that our various advantages and attractions will be presented as they suggest themselves.

The natural beauty of Buchanan's location in the valley of the St. Joe river and on the surrounding hills at once compels the admiration of the visitor and makes easy the creation of handsome home environments. Stately maples, planted years ago, shade the walks and arch the drives through the residence portion of the village. Splendid natural drainage, soon to be augmented by an up-to-date sewer system, maintains a health record much above the average.

Beautiful homes, surrounded by spacious and well kept lawns are numerous. Within a few minutes ride is the placid St. Joe River with its wooded banks famed in history and verse, and Clear Lake, with an excellent hotel and summer cottages, providing boating, bathing and fishing as recreations.

Buchanan can well be proud of its educational institutions. Our schools rank with the best. Commodious school houses, excellently situated and well equipped, are among the village's best assets.

That religious culture is not slighted is attested by the number of modern church edifices located about the village.

Several stretches of newly laid brick pavement will first attract the home comers' attention to the fact that Buchanan has changed for the better. Present plans contemplate more work of this character in the near future.

Few towns, or cities for that matter, can compare with Buchanan as a well lighted place. The new Tungsten lighting system, considered the most modern and effective of lighting methods, has transformed our business section into a well lighted thoroughfare by night and a graceful avenue by day. In the possession of this lighting medium Buchanan takes justifiable pride.

The river at our door has been harnessed to provide light for streets and homes and power for our factories. So economically can electric energy be furnished that especially attractive propositions are offered manufacturers seeking locations.

Pure water for all purposes and in abundance is secured from deep driven wells and supplied to all parts of the city by means of a thoroughly up-to-date water works system. Hydrants are so located as to afford ample fire protection in all districts.

More new residences are being built in Buchanan this year than for many seasons past and the fact that vacant houses are negligible attests the industrial conditions in the village at present. Several thriving factories provide work for all at good wages. Labor strife is unknown and nothing mars the cordiality existing between employers and employees.

Lodges of various Orders serve to still further bind together the citizenship, and the business men of Buchanan present a solid phalanx on questions of furthering the industrialism and prosperity of the village.

All together it would be difficult to find a spot better created by nature for the home of man than is that on which it was elected this village should be built, and the prospects for its becoming greater and more beautiful and more prosperous were never so bright as at present.

LIVE HERE AND LIVE LONGER!

The Arrival--August 25.

Home Sweet Home in Beautiful Buchanan--Come!

Charming Trysting Place for Old Friends to Meet And Greet and Talk of Other Times and Other Days.

The Business Men's association of Buchanan is promoting a joyous Home-Coming, to be held August 25, 26 and 27.

Beautifully located, and environed by natural parks, lakes and rivulets, it will make a charming trysting place for old friends to meet and greet and talk of other times and other days.

Hundreds of native born Buchananites live outside the confines of this county. The ebbing tides of the ocean always turn again homeward. We command all absent Buchananites, wherever you may be, to be guided by this precept of the sea.

You may take the fond heart from its home by the hearth, but wherever it goes it will yearn for the place of its birth. In the memory of every one are pictures of childhood, painted in colors that will never fade.

Ye pilgrims, come back! Visit once more the old homestead and sit on that cool and cozy porch as of yore. Drink at the old well, and swing on the gate again. Drive the cows down the lane to pasture, and climb, if you can, the old apple tree, you oft have done before. Slinger a while at the "Old Swimmer's Hole," and stand where the marbles used to roll.

In the breast of every absent Buchananite we hope to create a desire that will bring you back to Home, Sweet Home, in Buchanan. A desire to see the boys who are now men, and girls who are now women. A desire that will overcome all barriers and bring you back to old neighbors, the old hearthstone and the family circle.

Since the day you bid adieu much water has gone under the bridge; the pictures on the wall have faded some; the old clock on the mantel has ticked a thousand million times; but if you will come again some one will meet you who said "good-bye" the day you went away.

"WELCOME"

In capital letters, will be written over our doors and across our hearts. Loyal men and royal women will grasp your hand and give you greeting as roses greet the dew. In all the world there is no place like Buchanan.

Endowed by nature with riches, beauty and grandeur, she stands without a peer, the fittest home for man. Her forefathers

loved liberty and hated tyranny. Her pioneers had courage to worship God and fight for home. Her mothers braved the hardships of the wilderness to be beside the men they loved, while a commonwealth was being builded. Buchanan is a grand community. Numerous churches, and schools, busy shops and fertile fields, beautiful lakes and picturesque drives noble men and lovable women make her grand and great.

From far and near will come her people. An interesting program will be rendered every day. The Old Fashioned picnic will be held during the week. No expense will be spared to make you glad you came. We ask your presence with us on this occasion of gladness.

Lower rental rates and fair labor rates give a decided advantage over the big city. Over 50 per cent of the skilled and unskilled workers of Buchanan own their own homes and this, because they have found the town not lacking in those things which mean a high development of civic pride and manly usefulness. With its free library, public schools, nine different church edifices, numerous fraternal organizations Buchanan is a good place for the worker.

Buchanan is fast becoming a manufacturing town because of her manifold advantages that contribute to a reasonable cost of operation, excellent shipping facilities, cheap power, labor conditions free from strife, an abundance of pure water supply, electric power at low rates, excellent fire protection, paved streets, and an atmosphere which inculcates the home-owning spirit.

Within less than three hours of Chicago, the town has all the advantages of the metropolis, without its discomforts. On freight transportation, Buchanan is equally fortunate, having the Michigan Central and Pere Marquette systems.

Buchanan wants more factories, has free sites to offer and its industrial Association, composed of loyal citizens invites an inspection of the town's manufacturing advantages.

Easily the dominant factor in making Buchanan a manufacturing center is the great water power developed by the dams from the Elkhart

and St. Joseph rivers. The Indiana & Michigan electric company is the distributor of the electricity which is sold so cheaply and is firmly identified with the progress of the town.

THE POWER DEVELOPMENT.

With the low cost of power as an incentive, development of the St. Joseph river has continued until at the present day the following dams stand in the river:

Constantine Hydraulic company's dam at Constantine, Mich.

Mishawaka's Hydraulic company's dam at Mishawaka.

Oliver Plow company's dam at South Bend.

Niles Hydraulic company's dam at Niles.

Indiana & Michigan Electric company's dams at Twin Branch and Elkhart, and Buchanan and Berrien Springs, Mich.

The first application of power derived from the river through the old overshot wheels was the sawing of timber, which was rafted in the river, and the grinding of grist, which was brought to the mill by our early settlers for their own consumption.

The Indiana & Michigan Electric company, now owns and operates four hydraulic plants located here and at Berrien Springs, Mich., and Twin Branch and Elkhart, Ind., at which plants every horse-power of water is converted into electrical energy.

The dam at South Bend, now controlled by the Oliver Plow company, produces power generated in an electric plant constructed several years ago, by the great Oliver Plow works. About one half of the power of the South Bend dam, however, is utilized by the different manufacturing plants on the east race. The larger portion of power developed by the Mishawaka dam is consumed direct by factories, but a small portion is now transformed into electric power.

The Niles dam furnishes power to the Niles Board & Paper company and the French Paper company. The energy of the river at Constantine is converted into electricity and being transmitted, furnishes light and power to Constantine, Three Rivers and adjoining towns.

The Indiana & Michigan Electric company operates, as stated above, four hydraulic power plants, each

BUCHANAN NOW READY FOR THE HOME COMERS

Greatest Celebration in History of The Town Looms up Ahead--The Three Days' Program

Buchanan is now ready for Home-Comers, farm people and others. Three days of splendid amusement have been provided for, and a grand, good time is assured all who attend. Handsome prizes are to be awarded in the various contests. For instance, prizes of \$75 and \$25 will be awarded in the hose tournament, a gold watch suitably engraved, is to be presented to the winner in the "Who Shall be Queen?" contest, the committee in charge having decided that a nice, thin model gold watch would be more suitable than a ring; a 220-egg Imperial Incubator is offered for the largest exhibit in the poultry department, \$5 rocker for best driving horse, Acme Barrel Spraying Pump for biggest exhibit in Vegetable Department, \$7.50 pair of blankets for the best exhibit of canned fruit, \$7.00 bust of Indian Chief for best draft team, auto coat for best decorated car in automobile parade, \$5.00 coat for handsomest baby in baby show, and \$3.00 gold chain for second prize; \$3.00 smoking stand for best yearling colt exhibited, \$7.00 picture for winner of 100-yard dash, big box of choice confectionary for best Home-Coming song written by school boy or girl, \$5 shirt waist and Irish Linen handkerchief for best specimens of fancy work, and numerous other prizes, including boxes of cigars, ladies' trimmed hats, men's hats, umbrellas, books, etc.

A handsome arch of welcome is to be erected on Day's avenue by Miller the mason, Leiter the contractor, Roantree Lumber Co., Indiana & Michigan Electric Co., E. S. Roe, the hardware man, and H. R. Adams, dealer in hardware, who donate material and labor.

Mrs. Sickafosse, superintendent of The Home-Comers headquarters, is to be assisted in entertaining the Home-Comers by a committee of ladies, named by the executive committee of the Business Men's association. The Redden building, on Days avenue is to be the Home-Comers headquarters, and light refreshments are to be served free. The Home-Comers who register there will be furnished with badges, which will

entitle them to free automobile rides. The industrial parade is to be a great feature of the Home Coming celebration, and merchants and manufacturers are busy preparing floats. The parade will be representative of the commercial and industrial life of the town, and will be very elaborate.

The House of David brass band will be here from Benton Harbor, and the Buchanan Concert band will also be on the ground, and the air will fairly blossom with melody. It is planned to convey the House of David band hither in automobiles, stopping for brief concerts at Niles and Berrien Springs.

The free acts will consist of balloon ascensions, with parachute drop; slack wire performances, etc., and there will be something doing every minute. The old-fashioned picnic is bound to prove a decidedly enjoyable feature of the celebration, and everybody is invited to bring their luncheon to the union school grounds on Friday, the 26th instant, where there will be speechmaking and plenty of music.

The street decorations are in charge of Harry Weaver, and something elaborate is promised. The official colors are red and white, and these will predominate in the decorations. All merchants are preparing to decorate their store fronts, and citizens generally are requested to display American flags and to otherwise decorate their respective residences.

Arrangements have been completed for a game of base ball to be played between the Buchanan Blues and New Carlisle Independents on Thursday, the 25th instant.

Prizes which are to be awarded in various departments during the celebration, are on exhibition in H. R. Adam's display window.

The committees are all working hard to make the Home-Coming a grand success, and the outlook is that they will have reason to feel proud of the results.

Dowagiac and Niles expect to send running teams to Buchanan to compete in the hose tournament.

ENTHUSIASTIC RECEPTION AWAITS LIEUT. GOV. KELLEY

Genial Governatorial Candidate to Address People of Buchanan and Vicinity Tonight.

Lieut. Gov. Patrick H. Kelley will be given a warm reception in Buchanan this, Thursday evening, upon his arrival from Niles at 7 o'clock.

Mr. Kelley will be met at the latter place by a Buchanan delegation, and conveyed hither in an automobile. He will deliver an open-air address upon his arrival here, and everybody should turn out and hear the eloquent gubernatorial candidate. Mr. Kelley is a native of Berrien county, and has a host of warm friends in this vicinity. He has made a big hit wherever he has appeared while campaigning during the last few weeks.

Mr. Kelley will be accompanied by Hon. N. J. Whelan, ex-speaker of the House of Representatives, who will also address the people of Buchanan and vicinity.

A Traverse City despatch to the state papers, under date of the 16th instant, says: "Lieut. Gov. Kelley was given a most enthusiastic reception here last night. Fully 1,500 people listened to his open-air address."

Mr. Kelley stated that the taxation of the upper peninsula mining properties was the most important matter confronting the next administration. He favors the taxation equitable with other state property.

The speaker created enthusiasm when he advocated enlarging the powers of the public domain commission so that the colonization of the state and other vacant lands in Michigan could be encouraged. He favors a classification of these lands, advocating the working of the commission in conjunction with the boards of supervisors of the various counties, as well as the recognized organizations, such as the Western Michigan Development Bureau and the Eastern Michigan Development Bureau.

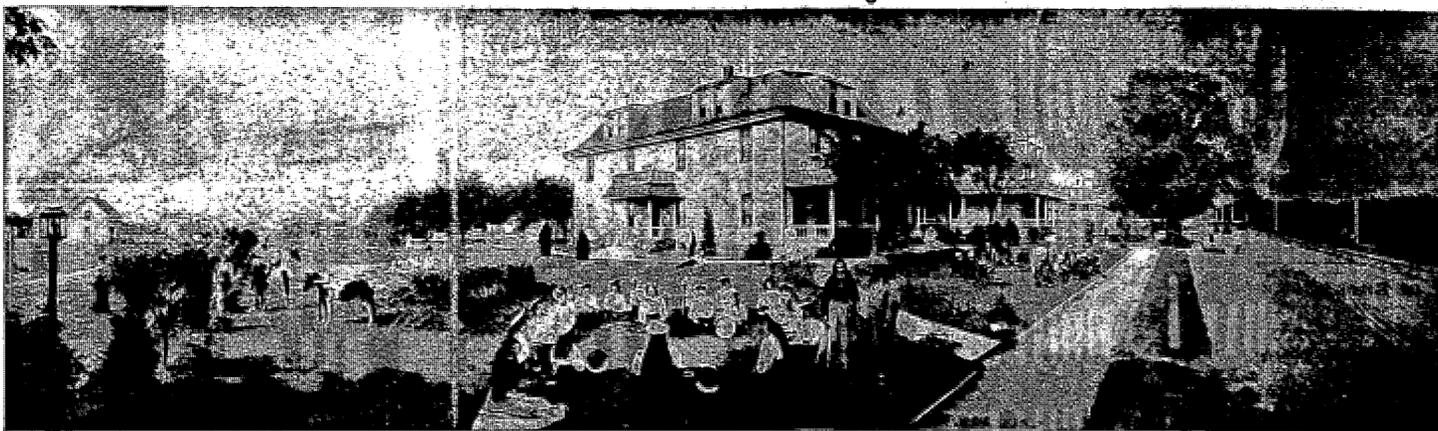

Mr. Kelley was given a fine reception at Frankfort and Empire during the afternoon.

POPULAR THROUGHOUT COUNTY

The gubernatorial candidate has a host of friends in the twin cities as well as in the north end of the county, where he is most favorably known. He lived in Watervliet when a young man, and used to walk from that village to Fairplain, where he taught the public school in that vicinity. He made his own way in the world and has always claimed that he made the first round of the ladder in state politics in Berrien county. He worked his way to the

Enthusiastic Reception Awaits Kelley

Continued from first page.

top, and it was through his own energy that he reached the office he now holds.

One prominent citizen in Berrien county declared the other day that he was for Pat Kelley because he was a self-made man. He said he knew him when he was a boy near Watervliet and that he was industrious and saving. That he educated himself and was ambitious, and for that reason Pat Kelley was good enough for governor, and that he would make a good one, too. "His ambitious ways are in his favor," was the closing remark of the friend of the lieutenant governor, "and I'll be proud to see a man like him governor of the big state of Michigan."

Mr. Kelley will speak at the following places:

THURSDAY, AUG. 18, 1910
Buchanan, 7 p. m.
Niles, 8 p. m.

FRIDAY, AUG. 19, 1910
Gallen, 8 a. m.

Home Sweet Home In Buchanan

Continued from first page

equipped with the latest design of electric apparatus. Two of these plants are located within the state of Indiana, and two of them within the state of Michigan. Each plant is interconnected electrically with the other and thereby enables the company to at all times furnish service to its customers.

About 22,000 electric horse-power is developed from the St. Joseph river at these four plants. The hydraulic plant at Twin Branch is capable of developing 7,000 horse-power; the plant at Elkhart 2,000 horse-power, the plant here 4,000 horse-power, the plant at Berrien Springs 9,000 horse-power. This energy is transmitted from the plant via high tension transmission lines, Buchanan to Elkhart, Mishawaka, South Bend, Niles, Berrien Springs, Eau Claire, St. Joseph and Benton Harbor, where it is used for light and power purposes.

The cities of Elkhart and South Bend and the towns of Buchanan and Berrien Springs are lighted by current furnished by this company. Its electrical energy is applied to the operating of 150 miles of our inter-urban lines.

BUCHANAN NOW READY FOR THE HOME-COMERS

Continued from first page
President Hanlin requests all citizens to observe next Monday as "Clean-up Day," and tidy up their respective premises prior to the arrival of the town's guests.

During the celebration Front street will be roped off from Oak street to Days avenue, and no teams will be allowed thereon.

Since the first page of this paper went to press, a change has been made whereby the historical department will be in the First National Bank building on Main street, instead of in the Redden building, the latter having been rented to a Three Oaks milliner, who will open a store here.

Official Program

WEDNESDAY, AUGUST 24
Reception of Home-Comers
Registration
Noise Makers' Convention
Shows

THURSDAY, AUGUST 25
10:00 Viewing Exhibits. Entertaining Arrivals, Etc.

SCHOOL DEPARTMENTS

Composition. a. Best composition by pupil below seventh grade. Any subject.

b. Best composition by any pupil. Subject, "Our Town and its Advantages."

Writing. a. Best sentence written by pupil in first grade.

b. Best penmanship first stanza, "America" written by pupil above first grade.

Drawing. a. Best drawing by pupil in first grade.

b. Best drawing by any pupil under high school, according to age and grades.

c. Best drawing submitted by anyone.

Manual Training. a. Best piece woodwork by pupil under high school.

b. Best piece needlework by pupil under high school.

Best original home-coming song.

Best float by any school for industrial procession.

Entries open to any school in the county.

The judges of the educational exhibit will be E. L. Abel, superintendent of the Berrien Springs schools; Mrs. Herbert Walton, Niles, Mich., and Mrs. W. E. Clevenger of Buchanan.

All parents of school children are urged to see to it that their children enter into the competition and enter exhibits, that the local and district schools may make a showing of which all will have reason to feel proud.

All exhibits should be sent to or left with W. E. Pennell at the American Express Office, Buchanan, Mich., on or before Aug. 25, 1910.

I. M. Moore
Mrs. F. H. Andrews } Committee
W. E. Pennell

HORSE DEPARTMENT

Prizes will be awarded for the best single driving horse, for the best matched team, for the best team of draft horses, for the best two-year-old colt, for the best yearling and for the best suckling colt.

VEGETABLE DEPARTMENT

Issac Wells, superintendent of the vegetable department, has compiled the following list of vegetables for which the compilers of the premium list will offer attractive prizes:

Prizes will be given for the best bushel of potatoes, for the best bushel of sweet potatoes, for the three largest heads of cabbage, for the largest and best display of beets, for the largest and best display of squash, any variety, for the largest and best display of mangoes or pep-

pers, red or yellow; for the best display of tomatoes, turnips, cucumbers, watermelons, muskmelons, apples, pears and peaches.

POULTRY DEPARTMENT

1 A White Wyandottes.
2 B Columbus Wyandottes.
3 C R. C. Rhode Island Reds
4 D S. C. Rhode Island Reds.
5 E White Leghorns.
6 F Brown Leghorns.
7 G Black Orpingtons.
8 H Black Minorcas.
9 I Plymouth Rocks.
10 J White Rocks.
11 K Bantams, all kinds.
12 L Games.
13 M Best coop of Springs.
14 N White Chinese or Turthouse Geese.
15 O Guinea Fowls.
16 P Pair Turkeys.
17 Q Best Pair of Pigeons.
18 R White Lang Shang.

LADIES' DEPARTMENT

Class A. Needle work done by women over 65 years of age. All articles entered in this class must have the age of each marked thereon.

Embroidery of all kinds.

Crochet and knit work.

Quilts.

Class B. Embroidery and hand sewing by girls under 16 years of age.

Class C. Quilts of all kinds. Embroidery, drawn work, Battenburg, Mount Mellick, point lace, crochet and knit work.

Class D. Bread, cake, brown bread, pies.

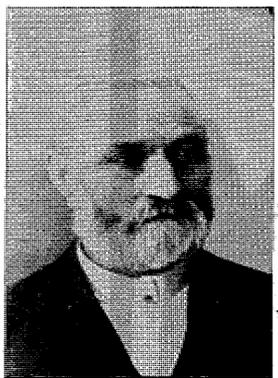

Superintendent, Mrs. C. D. Kent. Competition open to the world. Prizes will be awarded in the various classes. The Ladies' Department will be at Runner's drug store. All needle work of whatsoever kind is to be exhibited in this department, and not in the historical department, which is to be devoted to articles peculiar to old times.

PIONEER TALKS OF OLD TIMES

Recalls Few Scattered Log Cabins in Almost Unbroken Wilderness

Recently The Record had an interview with Chas. Snyder, the oldest continuous resident of Buchanan, which town, when he arrived here in 1832, consisted of a few scattered log cabins in the almost unbroken wilderness. At that time the village of one of the leading Pottawatomie chiefs, Moccasin, was located on the flat below Moccasin Bluff, situated on the St. Joseph river a mile north of this place. Another Indian village called Mishaquaka, was located just south of the village. The Indian emigration westward commenced in 1836, and in 1843; the remainder, except Pokagon's band, went west.

"There were only a few habitations, all of the log cabin variety, when I arrived here with my parents in '32," said Mr. Snyder. "We plunged into the forest and carved out a home about six miles northwest of here. There were many Pottawatomie Indians hereabouts in those days, but they were friendly. This peaceable attitude of the Pottawatomies may have been attributed to previous contact with French missionaries and traders.

CHARLES SNYDER

The dense forest stood undisturbed in all its primeval grandeur when we arrived on what became the site of our home, and deer, wild turkey, partridge, quail and other wild game abounded, but the timber soon suffered inroads at the hands of the early settlers, who in their eagerness to clear up the land burned enormous quantities of valuable timber, and in later years it was entirely wiped out by saw-mill industries, which rapidly denuded the country.

"Nature with the indulgence of a kind mother, furnished the early settlers, who had plunged poorly equipped into the wilderness, with an abundance of health-giving food, and in addition to the other game, the wolverine, muskrat, raccoon, beaver, otter, mink, and martin were common and furnished both pastime and profit to the hunter and trapper,

and the streams and lakes swarmed with fish.

Mr. Snyder, who was born in Richmond, Ind., Sept. 2, 1826, and who was only six years' old when he came to these parts with his parents, lived on the farm in the wilderness till about 1840, when he came to Buchanan, which was then a hamlet of a few hundred population, and learned the trade of a brick mason, and he plied the tools of his trade continuously until about a year ago.

Mr. Snyder erected the union school building, the Redden building, now occupied by W. F. Runner, the druggist; Hotel Lee, the post office building, the Evangelical church and many others. He also built the Getchel block at Niles, and some fine buildings at Dowagiac.

Mr. Snyder says that he recalls spending a night in the first house built in Buchanan. This house, he says, was erected by Leonard Maddler and was of the log cabin variety.

In 1836, Maddler sold the house, which stood on the bank of the creek in the rear of the present site of the Atlas Belting company's plant, to Andrew C. Day. Mr. Day was a native of Connecticut and came here in '36. He worked on the saw-mill which Russell McCoy and Hiram Wray built in 1835, at the mouth of the creek. In 1839, Mr. Day and John Hamilton erected a grist mill with two runs of stones on the creek.

The first person to settle in Buchanan township is said to have been Chas. Cowles, who came from Vermont in 1833, and settled on the present site of Buchanan. He built a shingle mill on McCoy's creek shortly after his arrival.

Mr. Snyder recalls that the village of Buchanan was platted by John Hamilton in 1842 and contained about 40 acres. The original village has greatly enlarged by subsequent additions. The village was incorporated in 1858 and at the first election, James M. Mathews was chosen president.

Mr. Snyder remembers that the first dry goods store in the village was opened in 1842 by the firm of Stanley, Staple and Twomley; that a distillery was established in 1840 by Julius Russell, with whom Chas. Clark was afterward associated; that the first physician in the place was Dr. Wm. C. Harrison; that the first village attorney was John Grove; that among the prominent early settlers of the village were Edward Ballingee, L. P. Alexander and John D. Ross, and that among other prominent business men who were identified with important industries in the village were Wm. M. Bainton, Geo. H. Richards, A. Willard, Chas. Black and H. S. Black. Mr. Bainton at an early day built a flour mill known as "Bainton's Mills." The business is still carried on by his sons, W. F. and Charles.

Mr. Snyder enlisted in Company C, 12th Michigan Regiment, in 1863, and served till the close of the war. He is a republican and has voted in many national and state elections. In 1864, Mr. Snyder was married the first time. His wife died 16 years ago, and here-married, his second wife dying nearly a year ago. The first marriage was blessed with two children. These are J. W. Snyder of Chicago, and Mrs. George Howard, who resides with her father.

FADED, SILENT RECORDS OF OLD FRIENDS AND OF OLD TIMES

Yellow and Time-Stained Program of Exhibition Exercises of Buchanan Union School, March 19, 1860.

The Record gives below a re-production of a yellow and time stained program of the exhibition exercises of the Buchanan Union school of Monday, March 19, 1860—half a century ago. Of those who participated in the exercises, in question, many are now sleeping the dreamless sleep, while others are scattered far and wide. A few are still with us here in Buchanan. They are Mrs. Clark, who was formerly Lillie Roe; Mrs. John Curtis, who was Annie

Grain in—the old days; Mrs. Jay Glover, whose maiden name was Eliza Alexander; Ashley Carlisle, Mrs. David Salisbury, who was formerly Lorinda Hamilton and Benjamin Chamberlain. To them there is music and poetry in the old time-stained record of old friends and of old times. To them this ancient program is a vivid reminder of the days when they were full of the fire and optimism of youth.

REUNION WILL BE HELD IN EAU CLAIRE

Berrien County Battalion Meets Sept. 7 and 8.—Officers Elected.

The reunion of the Berrien County Battalion this year will be held in Eau Claire on Wednesday and Thursday, September 7 and 8, the details having been recently arranged by the committee on arrangements which recently held a meeting in that village.

The officers were elected as follows: Colonel commanding camp, John Hollenbeck, Berrien Springs; lieutenant colonel, J. J. Drake, of this city; major, Newton Batchelor, Buchanan; surgeon, Dr. Baker, Coloma; officers of the day—first day, B. H. Rutter, Berrien Center, second day, W. H. Ballard, Niles, quarter master, Thomas Stevens, Eau Claire.

A cordial invitation is extended to the ladies of the G. A. R. circles throughout the county, the Woman's Relief Corps, Sons of Veterans, soldiers of the Spanish-American war, and all old soldiers of the county to attend the meeting and make this reunion one never to be forgotten.

Council Proceedings.

A special meeting of the village council of the village of Buchanan was held in the council chamber Monday August 15th 1910. The meeting was called to order by President Hanlin at 1 o'clock p. m. Trustees present, Kelling, Richards, Leiter and Adams. Trustees absent, Beck and Curtis.

The following Resolution was offered by Trustee Adams, seconded by Trustee Leiter.

RESOLUTION

Resolved, That the Village Council grant the use of the streets and sidewalks to the home coming committee during home coming week, Aug. 25, 26 and 27, 1910. The resolution was adopted.

A motion to adjourn by Trustee Adams, seconded by Trustee Leiter was carried.

W. O. Churchill, Clerk

5 DROPS

A PROMPT, EFFECTIVE REMEDY FOR ALL FORMS OF RHEUMATISM

Lumbago, Sciatica, Neuralgia, Giddy Troubles and Kindred Diseases.

Applied externally it affords almost instant relief from pain, while permanent results are being effected by taking it internally, purifying the blood, dissolving the poisonous substance and removing it from the system.

DR. C. L. GATES
Hancock, Minn., writes: "A little girl here had such a weak backbone by rheumatism and kidney trouble that she could not stand on her feet. The moment they put her down on her feet she would scream with pain. I treated her with '5-DROPS' and today she runs around as well and happy as ever. I prescribe '5-DROPS' for my patients and use it in my practice."

Large Size Bottle "5-DROPS" (500 Doses) \$1.00. For Sale by Druggists.

GLENDORA

Glendora is happy now a fine rain visited this section Monday afternoon and evening.

The friends of Mr. and Mrs. Geo. Johnson presented them with a purse of \$95 last Sunday morning.

Mr. and Mrs. Frank Penwell attended the funeral of Charles Intheland, an uncle of the former at Three Oaks last Sunday.

W. V. Gaunt has quite a sore finger. Dr. King has used the lancet a few times.

Mrs. E. Haines has been quite sick but is now improving.

Cleo Klansner was home from Buchanan Sunday.

Clem McClellan and Glen Boyer are home from Chicago for a week's rest.

Mrs. Eugene Hill was called to Holland Monday to attend the funeral of Clark Hill's adopted child.

Mrs. Lizzie Herkenschwiler and daughter of Chicago are spending the week at Mrs. Eugene Boyce's.

Meetings at the Baptist church closed last Sunday evening.

Threshing is about wound up in this section. Wheat and oats have yielded fairly.

Eugene Hill and family spent Sunday at St. Joe.

ELM VALLEY.

The Misses Euther of Niles, visited their grandfather and other relatives at the Valley last week.

Mrs. Nettie Cornelius of Chicago, spent a few days in this vicinity last week, was called here by the illness of her mother, Mrs. Donahoe.

Mrs. Et Decker from near Laporte Ind., visited at her father's, L. Murdock's several days last week.

Mr. Benson located a well for Mr. Chris Hess recently, while on the late Elmer Wright farm he could not find a vein of water. Last week Saturday he was at the Lake and Sawyer but they have all "gone dry" down there, as he only found water one place among the many places he tested for water.

Frank Kiser has had rather more fire than he cared for this hot weather on the Beeson 80 acres. I think now he has it under control.

Mr. Fry Sr. lost his pet dog recently. It was taken sick suddenly and.

Carl Benson has succeeded in making a buggy horse of "Old Jane" the first she has ever been driven single since owned by Mr. Benson.

Made a finish of all the threshing on our road last Monday just before the lovely rain.

Those that attended the funeral of Ethel Roberts Hunter last Saturday at Troy from here were Mr. Lewis

Roberts and daughter, Ruth, Mr. and Mrs. Carl Roberts and family, Mrs. Dell Roberts and Mrs. Benson and Carl.

Mr. and Mrs. Albert Buttler of New Buffalo, drove down to Troy to attend the funeral. They spent Sunday at her father's home, Lewis Roberts.

August 6th 1910 the township board of Weesaw called a special meeting at Troy to hear the appeal made by the parties opposed to laying out a new road along the dredge ditch and discontinuing the old road. It was decided the petition was illegal, being the second illegal one that had been gotten up. Consequently Mr. Benson will still face the north for all it has been said "Old Benson has faced the north long enough. I am going to turn him around and make him face the south awhile.

OLIVE BRANCH.

Walter Grooms and son Clare, went home Tuesday after a two weeks' visit with relatives and friends.

J. E. Edwards and wife were visitors here Tuesday.

Mrs. L. G. Bissell and daughter, Fern, were in Niles on business last week Thursday.

Those who attended the show in Buchanan Wednesday were Fern and Milburn Bissell, Edyth Straub, Myrtle Foster and Kenneth Bowker, Frank, Fred and Arthur Straub.

Lewis Schraeder called on his brother, Gustave of Avery Sunday.

The long period of drought was broken, when a refreshing shower came here Monday.

COLVIN DISTRICT

Mr. Geo. Lane of Glenco, was a visitor at Romy Knight's home last week. He rode over from Glenco, Ill., on horse back, and accompanied Miss Jennie Knight to Berrien Springs where they visited relatives during the day.

Geo. Marsh across the river made an excellent sale last week of a three months old colt for \$125 to Clyde Baker.

Mrs. M. R. Winch of Kansas City, Mo., visited at the home of John Montague last week.

Mrs. Hulet and daughter Mrs. Murry of Chicago are visiting Mrs. John Montague.

One day last week 17 members of the G. T. O. B. club of Buchanan spent the afternoon and evening with Mrs. Beck at the home of her mother, Mrs. John Montague. Everyone reports a fine time and a delicious pot luck supper which the girls served.

Mrs. Babcock of Galien, was a visitor at Mrs. Alice Clarks recently.

Mr. and Mrs. Chas. Fuller had a picnic at Clear Lake recently. All enjoyed the day.

Mrs. Amos Spaulding's mother and step-father and Mr. and Mrs. A. Simmons of Goshen, Ind., spent a few days of last week with her.

Little Dorothy Clark is much better after a severe sick spell.

Mrs. Dean Clark and Gertrude Shell were South Bend visitors Monday of last week.

Mr. and Mrs. Albert Shell and Vaughn Shell of Sodus, visited Mrs. Edith Shell and family for a few days.

Mrs. Anna Rouse spent a few days with her mother, Mrs. A. M. Nutt.

Mr. and Mrs. M. K. Spaulding have as their guest Mrs. Annie Cline of Chicago.

Mr. and Mrs. Alva Canfield spent Sunday in Baroda.

Mrs. Evan Thomas has purchased a new buggy.

Monday morning, when going to the mail box, Mrs. W. Steinback, on the Pangborn farm, found a sack containing a large Plymouth rooster, which was almost dead when she found it.

PORTAGE PRAIRIE

W. R. Hinkle and family spent Sunday at Walkerton, Ind., the guests of relatives.

Mr. and Mrs. Albert Rhoades were Sunday guests of Mr. and Mrs. Joseph Arney at South Bend.

Miss Mayme Marrs of Baroda, spent a few days last week with Miss Cieta Bestle.

Miss Mae Kring, who has been very sick is slowly improving.

Alva Putman and wife of Michigan City visited relatives at this place over Sunday.

Mr. and Mrs. Percival Rough entertained a few relatives over Sunday.

Miss Blanche Arney of South Bend is the guest of Mr. and Mrs. Albert Rhoades.

About sixty from this place spent last Sunday at Hudson Lake.

David Hawblitzel and wife went to Valparaiso, Ind. last Saturday to visit their daughter, Miss Edith who is attending school at that place.

Mr. and Mrs. Arthur Eisele entertained a number of their cousins and friends Sunday at dinner.

Miss Bernice Rough visited Miss Mabel Hawblitzel on Sunday.

Miss Florence Brown of St. Joe, is spending several days with Mr. and Mrs. Emory Rough.

Mesdames Riley Scott and Susan Arney and Miss Lulu Moyer returned Monday from Owosso where they attended the Missionary convention.

BAKERTOWN

Much rain is needed in this vicinity, a little shower fell Monday afternoon but not enough to do a great lot of good.

Miss Mildred Adair of Buchanan spent last Tuesday with John Henry Best, Jr.

Bea Rice Gage of South Bend visited Irma Baker last week returning home Saturday evening.

Mrs. Ray Baker and daughter went to Ypsilanti Thursday to visit relatives.

Mr. H. I. Cauffman and wife spent Sunday with M. E. Gilbert and wife near Galien.

Mrs. Greeley Korn and Iva Cauffman of Portage Prairie visited their sister Mrs. Chas. Clemens last Thursday afternoon.

Beattie Herb is assisting Mr. Haas with his work at present.

Chas. Lightfoot and family spent Sunday with the V. M. Baker family.

Hazel Baker is visiting friends in Indiana for a few days.

The highway commissioner has a number of teams working on the road at present.

Mrs. J. H. Best entertained John Nagle and wife of South Bend and Mrs. Dolcy of Traverse City, Michigan, one day last week.

Tuesday morning a heavy shower of rain fell in this vicinity during the night. Everybody is happy now. Cucumbers will be plenty now for a time at least.

The threshing machine is expected here this week then everybody will be busy.

Mr. Snodgrass and Mr. Haas is getting along quite rapidly with their houses.

Mr. C. M. Favorite of Chicago is again visiting the G. H. Stevens family.

Mrs. H. I. Cauffman was quite sick Monday, a case of too many good things, over Sunday.

Master Geo. Theodore, the boy staying with Johnnie Redden, had some traps set for woodchucks, last week and one day when looking at his traps was very much surprised to find something in them that wasn't a woodchuck at all but proved to be a pair of badgers when brought to the house. He had to turn them loose again much to his disappointment as they were so pretty but it was out of season. This will give the trappers something to look for this winter.

DAYTON.

Mr. and Mrs. Wm. Bromley spent Sunday afternoon near New Carlisle the guest of their daughter, Mrs. August Storm.

Mr. and Mrs. E. S. Allen were business callers in St. Joseph, Mich., Friday.

THREE OAKS.

Prof. Paul Chamberlain of Chicago, son of the late Hon. Henry Chamberlain, was in Three Oaks last week, viewing the old homestead where he once played marbles and visiting relatives and old time friends.

Mrs. Wolz of Chicago, is here among her relatives and former friends. When a girl she was known here as Phoebe Miller.

Chas. Sutherland died here at the home of his daughter, Mrs. Samuel Gable, and was buried at "Posey Chapel" five miles southwest of here. Mr. Sutherland had resided not far from Three Oaks for many years. He was eighty years of age. There remain two daughters, one living in Kansas and Mrs. Gable; two sons, Orlando, a physician and Martin, a lawyer both of Laporte.

Buster Brown and his dog, "Tige," were on exhibition in Three Oaks Saturday. They both appeared quite original, especially "Tige."

Mrs. Hannah, her son Guy and mother, Mrs. Gibson, after many years residence in Three Oaks, are now located in Hammond, Ind.

The Michigan Central company have several hundred men at work, commencing at Michigan City, are now at New Buffalo, removing and changing ties, removing dirt and filling in with stone ballast.

On Home-coming week in Buchanan a very many of the citizens of Three Oaks will be present to enjoy the occasion, see their relatives and friends and be social with their sweethearts. Make room for them.

EATON.

Florence, Beany, Victor and Ray Metzger, George Hartline, Misses Ruby and Hazel Shetterly, Harretta Best from here and Charlie Wilcox of New Carlisle attended the Band concert at Buchanan Tuesday night.

Misses Ruby and Hazel Shetterly and Harrieta Best spent Wednesday the guest of Mrs. L. Harroff.

F. A. Massey was a business caller in Three Oaks Monday.

"The Eaton Boys" gave a Surprise Dancing Party at the James Best home Thursday eve. All report a fine time.

Miss Addie Hall is visiting at the A. T. Hall, Jr. home this week.

Mrs. Thomas Vanderhoof and children returned to their home in Chicago, Saturday after a six weeks' visit with her mother, Mrs. E. V. White.

G. A. Blakeslee & Co., sell the "Monarch" brand of groceries. This is the best brand put up by Reid, Murdoch & Co. of Chicago, and are always first-class.

If you want crackers that are always fresh, crisp and tender get them at G. A. Blakeslee & Co.'s.

Mrs. Frank Pierce is spending the week with relatives and friends in Buchanan, Niles, South Bend and New Carlisle. While away she will attend the Retter reunion at Hudson Lake Saturday.

Misses Ella Dellinger and Hazel Geister returned to Michigan City Sunday evening accompanied by Miss Clara Dellinger who will stay for a few days' visit.

The "Wrecker" was called here last Friday from Michigan City on account of M. C. freight engine No. 7527 jumping the track in west end Galien yards. The engine was one of the heavy 8 wheelers and had set off a car on the siding. Just after leaving the switch it "took to the woods." Not much damage was done, only a few ties split to kindling for the section foreman. Almost immediately following this a through freight pulled a draw bar at the crossing and left half of the train standing while the front half went several miles before it was discovered.

The Gas Light Croquet club is the new and latest club in Galien. A strong gasoline light has been hung directly over the croquet grounds in Swen's grove and the game is being played by gas light; presumably the only club of its kind in the state. The club is composed of some of the best of the young folks of the town and much interest is taken in this harmless and amusing game. One of the best games of the season was played Sunday, when James White and Mrs. Pearl Roberts won from Pearl Roberts and Mrs. James White by the very close margin of one score. Several very scientific shots were made. Bert Babcock now claims the championship.

The descendants of the late Jacob Ritter deceased held their first reunion at Hudson lake August 13, 1910, 53 persons being present. At the

noon hour dinner was served after which it was decided to make it an annual event and proceeded to the election of officers for the coming year as follows: Frank Wagner, president; John Couchman, vice-president; Lydia E. Rhoades, secretary; M. E. Mann, treasurer. Committee on arrangements, Frank Wagner, Frances Lum and Harrison Ritter. The next reunion will be held on the third Saturday in August, 1911, at South Bend.

Sale on White Hats. I will be at M. A. Robinson's store next Saturday for the purpose of conducting a sale on white hats. Mrs. E. Parkinson. 30c

Infant Child Drinks Wood Alcohol. Tuesday morning the infant child of Mr. and Mrs. C. A. Roberts was placed in the office chair at Roberts Bros. office with her nursing bottle. She dropped the bottle and reaching over to the window sill picked up a bottle containing wood alcohol, drinking a quantity of it. She was immediately taken to Dr. Snowden and was relieved, suffering no serious injury.

GALIEN R. F. D. No. 2 Mrs. Delbert Shank and son Marvin and Mrs. Fred Herdt were business callers in Three Oaks Friday.

Miss Florence Edwards and Ward and Laurel Young of New Troy, spent Sunday at the Lewis Prenkert home.

Miss Lillian Massey spent Sunday at the Milton Morley home.

Miss Edna Ender and brother, Carl, spent Sunday in South Bend.

Mr. and Mrs. Milton Morley and family attended the Hanover reunion at Hudson lake Thursday.

Mrs. Bessie Oliver of Benton Harbor, is spending a few days with relatives here.

Charlie Toland of St. John, Kansas, and Merrion Toland of Illinois, are visiting relatives and old time friends in this vicinity.

Mr. and Mrs. Jacob Pyle were Sunday visitors at New Troy.

Mrs. Emma Draver was visiting at the Lewis Ender home last week.

Oats threshing all done in this vicinity and the yield was good.

Everybody is rejoicing over the fine rain Monday night.

Misses Leta and Ruth Pyle are spending a few days with their grand parents Mr. and Mrs. Errand Shroyer of New Troy.

Ned McDonald's team ran away while threshing at Mr. Kelly's. Fortunately no damage was done.

Mrs. Wm. Hunt has gone for a few days' stay at Kalamazoo.

Stove Buyers Come and Judge for Yourself

WHAT THIS OFFER MEANS

MR. J. J. HOWARD, of the Hot-Blast Air-Tight Florence Co., will demonstrate his wonderful stove on the street in front of E. S. Roe's Hardware Store, August 25-26-27. He will show how the Florence burns smoke and convince the people of Buchanan and vicinity that every stove on the face of the earth outside of the construction of the Florence, as an absolute smoke consumer, is a fake and a misrepresentation and that the people have been held up and imposed upon on this smoke-consuming question. Mr. Howard offers \$5,000 to any manufacturer or dealer in stoves that will produce a stove on the days of Aug. 25-26-27, outside the construction of the Florence, that will burn the smoke from the moment the fire is started or will heat the same amount of space at the same cost that the Florence does. It will pay you to come and hear what Mr. Howard has to say about the stove question. Your eyes will be opened and you will be enlightened.

MICHIGAN'S FAVORITE SON

SENATOR BURROWS STAND ON THE STATE PRIMARY

"No man aspiring to the office of senator should hesitate for a moment to submit his candidacy to the entire electorate of the state, and no man of any spirit would, if it were possible, accept an election in opposition to the public will.

"The primary election law of Michigan as it relates to the choice of a senator by the legislature, is not merely advisory, but mandatory, and

SENATOR J. C. BURROWS
 Republican Candidate for Re-election as United States Senator at the Primaries, Sept. 6th, 1910

imposes upon the members of the legislature the duty of executing the public will.

"I want no misunderstanding of my attitude in the matter. I have submitted my candidacy to the qualified Republican electors of Michigan and whatever the verdict of such electors may be on the sixth of September next, I shall abide by that verdict.

"If my candidacy is not approved by a majority of such electors of the whole state, as revealed by the count of the entire vote in the state, I shall not thereafter be a candidate for the senate before the legislature."
 From statement signed by Senator Burrows on Jan. 17 and July 16, 1910.

THE CHOICE SHOULD BE FOR BURROWS

Benton Harbor Banner-Register: Berrien county cannot grow very enthusiastic over the choice of United States senator. Long and hard the people waited for the third man to jump into the race, believing the dilemma would then be easily solved. The situation now is to rally support and make one more term for Burrows. The choice between the two candidates makes this move imperative if you wish to endorse the better man.

Congressman Hamilton on Wednesday, August 3, in introducing Burrows at the county gathering, paid the war hero a tribute that was just, and one that had a tendency to clinch his heretofore solid support for the September primary election.

At least you have but a few years to do honor to the war scarred veterans and here is an opportunity to not only make a choice for the better man of the two in the field, but to support one who did honorable service for this old country of ours.

Henry R. Pattengill, in a recent public address, rightly said: "While Senator Burrows is not specially vigorous, and cannot hope to be active, he has, as the record shows, voted with the 'interests.'" This vague talk about the "interests" has been cribbed, of course, from the little ring-around-rosy of newspapers that spend their space printing one another's attacks upon Burrows. Burrows as a war hero can stand above any of the so called insurgents and regulars, for his career covers many years of service, starting back in the 70's when the greenback issue was before the people, passing down through the free trade and silver issues and still he is a man above men and worthy of a good round support for another term of service.

The Payne Tariff Bill.

The Payne tariff law was approved August 5, 1909, slightly more than a year ago. The law has been subjected to much criticism, some doubtless just, some unjust, and all probably colored more or less by the various industrial, commercial and political interests of the critics.

A man who may be vigorously opposed to the imposition of duties or articles he is compelled to buy, finds no fault with duties on articles he has to sell. Other men criticize or approve because of their political affiliations without much thought for their own or their neighbors' business interests or much knowledge of the provisions of the law, and it is necessarily true that the judgment of the great body of the people is based upon what they read, and necessarily most of them have little knowledge of the reliability or sources of information of newspapers and magazines.

Without reference to whether we are republicans, democrats or socialists or of any other political persuasion, and without reference to the merit of adverse or approving comment on the Payne law, the actual operation of the law is of interest to all of us and we are all more or less interested to know whether the revision was really upward or downward.

In this connection, we have come across some statistics issued by the Bureau of Statistics at Washington, showing actual importations during the first nine months of the operation of the Payne law as compared with importations under the democratic Wilson law and the republican Dingley law.

It appears that during the three years (1895-1896-1897) of the operation of the Wilson law, the percentage of goods admitted free of duty was 49.1.

Under the Dingley law, in force from 1898 to 1909, the percentage of goods admitted free of duty was 44.6.

During the nine months of the operation of the Payne law from Aug. 1, 1909, to April 1, 1910, for which figures are now available, the percentage of goods admitted free of duty was 49.5, more than under either the Wilson or Dingley laws.

During the operation of the Wilson law, the average rate of duty on goods on which a duty was charged was 42.6 per cent.

During the 12 years of the operation of the Dingley law, the average rate on goods on which a duty was charged was 46.2 per cent.

During the nine months of the operation of the Payne law, the corresponding rate was 41.1 per cent, less even than the rate under

the Wilson law and considerably less than the rate under the Dingley law.

Under the Wilson law the average rate of duty on the total imports was 21.6 per cent; under the Dingley law 25.6 per cent, and under the Payne law 20.8 per cent, being less than under either of the preceding laws.

Whatever may be the political attitude of any citizen, these figures raise a question which those who have declared that the Payne law was not a downward revision, will have to answer.

SOLDIERS ARE FOR BURROWS

Veterans To Support of Their Comrade.

HE HAS A WAR RECORD

Senior Senator Fought Through the War of the Rebellion at the Head of His Own Company—Saved Gen. Shakespeare in Face of Fierce Fire.

Grand Rapids—If you want to know just how much Senator J. C. Burrows is loved by the old soldiers of the country and state, go out to the Soldiers' Home here and talk with some of the veterans who are spending their last days at the beautiful retreat on the banks of the Grand river at North park.

With tears in their eyes, old, bowed men will tell you that only hope is that they will be spared until next fall that they may cast a vote in the primary for the re-election of Senator Burrows.

There are two reasons for this. The first is the fact that Senator Burrows is a comrade. He fought through the war at the head of his own company and won commendation for distinguished bravery. The other is the grand work he has done in congress as a member of both the house and senate, in pushing legislation in behalf of the old soldier.

Six Burrows brothers served through the War of the Rebellion. Besides Senator Burrows, but one survives, Jerome B. Burrows, a lawyer and jurist of northern Ohio. He is now mayor of Painesville. Senator J. C. Burrows was a school teacher when the call to arms came. He had previously attracted attention by his oratory in the Lincoln campaign.

In 1862 he personally raised a company in Kalamazoo county. This company became a part of the Seventeenth Michigan infantry, the famous "Stonewall regiment" which carried the flag of Michigan into the most desperate conflicts of the war and covered itself with glory. The regiment first went into action at the battle of South Mountain, Maryland, in September of 1862, and half of Capt. Burrows' company were either killed or wounded.

One of the personal exploits of Capt. Burrows occurred at the battle of Jackson, Miss. General William Shakespeare was badly wounded and left on the field. Capt. Burrows went back alone in the face of a bitter fire and carried the wounded commander off the field.

In congress he has always been to the front in furthering legislation in behalf of the soldier. He has also given his personal attention to thousands of pension claims and aided soldiers and their widows in Michigan to secure their just dues.

STATE POLITICAL GOSSIP.

Senator Burrows in all of his speeches has declared that he still stands steadfastly by the doctrine of protection and he says that if he had it all to do over again he would not change a vote.

Detroit will be the hotbed of politics during the last week of the primary campaign, as Chase S. Osborn, Lieut. Gov. Kelley and Senator Burrows will all be there wending up their appeal to the voters of the state.

Wherever Senator Burrows has appeared on the stump he has made hosts of friends. His speeches have been mainly in the extreme, and he has stood squarely by his record and that of the Republican party, instead of making explanation or attacking the party which has always stood by him.

There are now three candidates in the race for lieutenant governor, J. Q. Ross of Muskegon, an attorney; Nelson C. Rice of St. Joseph, a member of the lower house of the legislature, and Senator Dickinson of Charlotte. All three are putting up an active campaign for the nomination.

There has been a decided change in sentiment in many localities which were classed as anti-Burrows territory several months ago. Wherever the senator has appeared in the campaign he has strengthened his position and has set at rest the stories industriously circulated that he was in falling health and unable to properly conduct the duties of his office.

Only Too Glad. Mrs. Hutton—We are organizing a piano club, Mr. Flatleigh. Will you join us?
 Mr. Flatleigh—With pleasure, Mrs. Hutton. What pianist do you propose to club first?

IT WAS NOT LIKE THIS IN THE OLDEN DAYS.

Everett McCollum, Clam to be First White Child Born in Berrien County.

Born in a log cabin in the wilderness, about a mile and a half north of Niles, on Nov. 3, 1829, Everett McCollum, of Buchanan, lays claim to the badge of distinction for having been the first white child born in Berrien county.

Mr. McCollum's father, A. W. McCollum, deceased, came to Berrien county from Ohio in 1828. He belonged to that hardy and venturesome race whose prototype was Daniel Boone. He came into the wilderness where there were no roads, where savages and wild beasts were numerous and where none of the conveniences and comforts of civilized life existed. At that time, the only residences between Ft. Wayne, Ind., and Niles were the houses of the French traders at South Bend and Bertrand.

The McCollum family lived on the above mentioned farm a few years, after which they removed to a farm just beyond the Michigan-Indiana state line, south of Bertrand, where they resided till May 5, 1851, when they came to Buchanan, where Everett McCollum has since resided. The senior McCollum was for years a member of the drug firm of Roe & McCollum.

Public Sale.

Having decided to quit farming, I will offer for sale at my farm two miles northwest of Dayton, five miles west and one south of Buchanan and three miles northeast of Galien, Tuesday, Aug. 23, 1910, 10,000 sharp, horses, cattle and numerous farm implements.

J. T. Dempsey, Prop.
 Harry Howe, Clerk
 Frank Starkweather, Auct.

Auction Sale

Having sold my home, I will sell at auction on the corner north and east of the High School grounds, Monday, August 22, at 3 p. m., light wagon, top buggy, one horse, plow, 2 horse drag, single cultivator, single harness, about 40 full blooded white wyandotte chickens, 13 white Pekin ducks, and 9 full blooded chinese geese. All of my household goods, consisting of No. 1 book case, center table, writing table, mirrors, pictures, carpets, rugs, dining chairs and table, dishes, cook and heating stoves, gasoline stove, curtains, rockers, one couch, etc. Terms cash.

Mrs. P. H. Herron

AMOS S. MUSSELMAN FOR GOVERNOR

If the republicans of Michigan want to nominate a man for governor who has made a success of his own business, not accidentally, but by industry and executive ability, they should vote for

Amos S. Musselman

If the republicans of Michigan want to nominate a man for governor who belongs to no machine, to no faction, and who can be elected when nominated, they should vote for

Amos S. Musselman

If the republicans of Michigan want to nominate a man for governor who will lead the ticket in November and strengthen every republican county ticket in the state, they should vote for

Amos S. Musselman

If the republicans of Michigan want to nominate a man for governor who has been a lifelong consistent Republican, who is a wheel-horse of the party without being a standpatter, and a progressive republican without being an insurgent; if they want a conservative, level-headed; clean-cut, fearless executive in the chair at Lansing, they should vote for

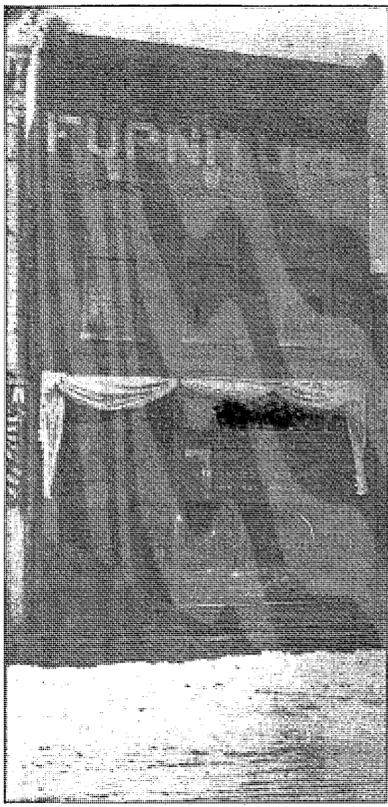

Amos S. Musselman

If the republicans of Michigan want a man for governor who needs the office for the salary there is in it, who becomes hypnotized by the sound of his own voice, who plays to the galleries, or who imagines himself to be absolutely indispensable to Michigan, they should NOT nominate

Amos S. Musselman

If the republicans of Michigan want a typical business man for governor—one whose blood runs swift with patriotism and for the true welfare of his fellow citizens, a good citizen who blushes when the good name of his beloved state is assailed, and who glories in the sacred honor of Michigan, the best state in the Union, then they should whoop it up unceasingly from now on till September 6 for

SAW FIRST PASSENGER TRAIN PASS THROUGH BUCHANAN

Writing The Record from East Los Vegas, New Mexico, Mrs. Nancy Bliss-Studebaker says:

"I have been very much interested in the Home-Coming department of your most excellent paper. Since reading the interesting letter of John Hiron, of LaPorte, Ind., I am inclined to write a few lines in regard to Buchanan. My father, James Smith, and Caleb Smith, of Cannonsville, Delaware county, New York, came during the spring and summer of 1847, arriving in Niles, or Bertrand, in September of that year. Mrs. Abram Ogden, my father's oldest sister, then lived south of Buchanan, on the old Chicago road, where Wm. House's grandfather died. His name was Rough, but I have forgotten his given name. James Smith and brother, Caleb, took up government land on the range line, running west from Benj. Chamberlain's home about a mile, I think. My father built a log house and with his wife, Sarah Carroll-Smith, settled that fall (1847) with their family of five children. Shortly afterward, the railroad survey went through very near the house, and in time the great Michigan Central was built as far west as New Buffalo, and I saw the first passenger train pass over the road. My mother died very soon after coming west, leaving my father with five small children. Then Caleb Smith and his wife, Sally, moved in to care for the family,

Mr. Hiron speaks of and most of the improvements of those early days. The old cemetery comes to mind on occasions and I recall the burial of our old-time friends, Wm. B. Perrott, Lieut. Weaver and many others. Chas. Snyder and Chas. Howe are the only ones I can recall now living, unless it is Benj. Chamberlain, or Pierce Hooker, of Essex, Iowa, who can remember the things above mentioned, although there may be others living in Buchanan who were there in the old days.

"There is nothing too good for dear old Buchanan, Sabin's poetry (?) included. Some have tried to lay that poetical effusion to Mr. Sabin, Sr., but I have told them it is a branch starting to spread.

"I would so much like to be in Buchanan Old Home week, and greet those I used to know, but not this time, I think, for me. May success crown your efforts and may Old Buchanan rejoice as never before, is my best wishes for you all on that glad some occasion."

LETTER FROM JOHN FERROTT

Writing The Record from Fortuma, Cal., John Perrott says: "I will respond to the call and tell you that I am one of the 'wanderers' and a good many miles from home, and that there is not a day passes but that I think of old Buchanan land where my father died, the place where I spent the greater part of my life. We moved to Buchanan in 1846, and it was my home for nearly 63 years. I regret very much that I cannot arrange so that I could attend your Home-Coming celebration and meet many dear friends and get a good drink of water and visit many old landmarks that come to my mind every day. Hoping that your celebration will be a success in every way and that prosperity may be your motto now and forever. Very sincerely yours."

"James Smith and wife and Caleb Smith and wife are buried in the Bakertown cemetery with others of the old pioneers that I remember. Buchanan is very dear to me, as my earliest days were spent there. We attended services in the First Presbyterian church built there and heard the first sermon preached in the building. I remember Rev. Mr. Parry very well, and I attended school in the old school house which stood where Chas. Diggins' house now stands. I recall having seen Tommy Fulton's father carrying U. S. mail up and down Oak street to the trains before Day's avenue was laid out. Was at the laying of the cornerstone of the M. E. church in 1860 or 1861, on Days avenue, and attended the first term of school taught in the school house on Dewey avenue. S. P. Barrett was principal. That was in the fall of '61, I believe. I remember the planting of those trees

TRI-COUNTY ASSOCIATION IN NEED OF \$4,500

The raising of funds with which to defray the expense of the display to be made at the coming land show in Chicago by the counties of Van Buren, Allegan and Berrien, under the title of the Original Michigan Fruit Belt association, is progressing and the officers of the association are finding the people alive to the importance of the show and the benefits to be derived from a creditable exhibit there.

A meeting of the executive committee of the association was held at South Haven a few days ago in further promotion of the project.

The members present were R. A. Smythe of Benton Harbor, Robert Sherwood of Watervliet, C. E. Bassett of Fenville, C. B. Welch of Douglas, Edward Hutchins of Fenville, W. C. Wilkey of Paw Paw and C. H. Monroe of South Haven.

Raising the necessary funds was the principal object under consideration, and reports were made as to the amounts already pledged, and methods were discussed for getting the remainder.

The association has made the first payment on the space and has met some other expenses from the amounts already paid.

The executive committee hopes to secure at least \$4,500 for all the expenses of the exhibit and will work to the end of raising that amount.

CASS COUNTY DEMS. PICK THEIR SLATE

Cass county Democrats, in convention yesterday at Cassopolis, nominated the following ticket:

- Sheriff, Earl Sill of Marcellus.
- Clerk, Leo A. Donahoe of Dowagiac.
- Treasurer, J. Boyd Thomas of Cassopolis.
- Register, Warren La Barre of Marcellus.
- Prosecutor—John Wooster of Dowagiac.
- Circuit Court Commissioners, L. H. Glover, Cassopolis and Coy W. Hendryx of Dowagiac.
- Coroners, Dr. Irving, Volinia, and J. H. Kelsey of Cassopolis.
- Representative, U. S. Eby, of Cassopolis.
- Surveyor, Chas. J. Bradt of Marcellus.

The Celfor Tool company, patentees and manufacturers of Celfor drills, reamers and three-lipped drills, Rich flat drills, Celfor, Rich and Quick change chucks, reamer sockets and grinding machinery, have had a phenomenal growth during the last couple of years, and now employ 150 hands.

An insight into the workings of the concern was given by Works Manager Hanlin in an interview, as follows:

A new era in machine shop practice was ushered in by the advent of high speed steel a few years ago. The new steel capable of great endurance and possessing remarkable cutting qualities, soon became indispensable to the manufacture of metal working tools. Price alone held many back in its adoption, but greatly increased production rapidly convinced progressive manufacturers of the economy of its use. In answer to the demand for a low priced drill of high speed steel this company placed on the market the Rich flat drill, a tool which cannot be excelled for certain classes of drilling. It is a remarkably strong tool and for shallow drilling such as plate work, steel rails, ship and boiler construction, it is superior to the higher priced twist drills. For driving it, the Rich drill chuck made by us is the acme of perfection. It is rapid of adjustment and only enough of the drill protrudes beyond the jaws of the chuck to penetrate the piece being drilled, thus reducing chances of breakage to almost nil.

CELFOR DRILL WITH SHANK

The construction of a flat high speed spiral drill by twisting a flat bar of high speed steel to required shape and grinding it to size, was originated by us. We first had the idea and we had the first drill. Its performance exceeded our fondest expectations and we have since improved it to its present high state.

The Celfor drill is constructed on sound principles. The grain of the steel is undisturbed by a milling cutter and the drill possesses elasticity to survive shock. While milled high speed drills were fragile in the extreme, Celfor drills can be handled carelessly and abused mercilessly. The space for the escape of chips is double that of a milled drill, an essential feature when chips are produced doubly fast. It is the free escape of chips which permits the drill to remain cool and retain its cutting edge. When held in Style "A" chuck by its four bevelled corners, the Celfor drill has no equal for strength, accuracy and keen cutting qualities.

CELFOR DRILL WITH TAPER SHANK

For use in multiple spindle machines, for jig work and where close centers are essential, we have added

Notice to Taxpayers

For the purpose of collecting the village taxes for 1910, I will be at office in the Bishop building, every day after 9:30 a. m., until further notice.

W. J. East,
Village Treasurer.

to the Celfor drill the Standard Morse Taper Shank. We have been careful in adding it to do it correctly. After two years of experimentation we have applied a machine steel shank to the flat twisted drill by a method which precludes the possibility of its ever becoming loosened. While we can furnish shanks of any size on any drill, we have adopted as standard a shank one size larger than is standard with other drill manufacturers, to insure a sufficient drive and to avoid tang troubles, the curse of every machine shop. We can apply special shanks of all kinds by our process and are pleased to quote at all times on drills of extra length or with special shanks.

CELFOR THREE-LIPPED DRILL

If a two-lipped drill twisted instead of being milled, possesses so many points of merit, why would not a three-lipped drill twisted from an especially rolled section of high speed steel, be just as superior for cored holes? We asked the question and then we answered it. It is!

The Celfor three-lipped drill manufactured by the same processes, possesses all of the excellent characteristics of the flat twisted drill. It is hard to break, fool proof, and retains its cutting edge under heavy cutting feeds. It is marketed at a price much lower than milled drills (we do not waste a lot of good steel in making it) and we can guarantee it to do more work. It is a highly satisfactory tool for the purpose for which it is intended.

CELFOR REAMER

High speed taper reamers for boiler, bridge, ship and structural work have always been a luxury. High in price and prone to break—they have been used by few.

By giving our special three fluted section a left hand twist we have produced a high speed reamer at a nominal price, possessing strength, a keen edge and long life. The left hand spiral prevents any tendency to dig or screw into the work and insures a shearing cut and a clean hole. The metal is truly reamed, not gouged out. Constructed on the right lines and sold at the right price, the Celfor reamer is rapidly gaining in popularity.

HARD COAL BASE BURNERS HAVE ALWAYS BEEN MADE WRONG

A STREET DEMONSTRATION OF THE

Most Wonderful Stove Made

FOR BURNING HARD COAL, BY MR. J. J. HOWARD, WHO WILL PROVE THE ABOVE STATEMENT TO YOU

DEMONSTRATIONS WILL TAKE PLACE AUGUST 25---26---27---1910
IN FRONT OF E. S. ROE'S HARDWARE STORE

Mr. Howard says: I will demonstrate the Searchlight Utility, burning all sizes of hard coal—chestnut, stove size and egg, and reducing it to gas. I guarantee this wonderful stove to give a steady heat day and night. If the J. B. Howard Combustion Damper (patented) is set before going to bed, no one degree variation in temperature will be noticed when you get up in the morning, even with the temperature outdoors from 10 to 20 degrees below zero.

I WILL DEPOSIT THE SUM OF \$5,000

With E. S. Roe, of this city, said amount to be paid to any manufacturer or dealer in stoves who will produce a hard coal base burner, Aug. 25, 26, 27, that will burn all the ingredients of Anthracite Coal, such as Carbon Monoxide, commonly called poisonous gases, or will heat the same amount of space, at the same cost, the Searchlight Utility does.

J. B. Howard

INVENTOR

You Didn't Know That Base Burners Were Always Made Wrong, Did You?

It is a fact, nevertheless. They are constructed contrary to all rules governing the science of heating and radiation. During the past fifty years only the outward appearance of the Base Burner has been changed. The slight changes to the interior construction has not increased the radiating capacity more than two per cent. It will pay you greatly to attend these demonstrations by Mr. Howard as he will talk upon all points of the stove making industry.

The Searchlight Utility is the Only Heating Device on the face of the earth that burns coal and maintains a steady even heat throughout the night, including stove, base burner, furnace, steam or hot water boilers.

The Searchlight Utility Will Heat Three Times the Space, has twice the life, and will take a ton less of hard coal, when the same amount of space and heat is taken into consideration, than any Base Burner made.

7,591 Square Inches of Radiating Surface. The Searchlight has four times more direct radiating surface than the base burner.

The Searchlight Rolling Top goes away with the swing top, which not only makes a great deal of noise, but covers up a large amount of heating surface.

Searchlight Utility Floor Heater.

The J. B. Howard Combustion has made the Hot Blast Florence famous for burning soft coal and will make the Searchlight Utility Return Flue Floor Heater famous for burning hard coal.

NO DIRT, NO GAS, NO CINDERS Ashes as Fine as Powder

The J. B. Howard Combustion (patented), and used exclusively in the Searchlight Utility for burning anthracite coal, burns the carbon monoxide or poisonous gases, which were never consumed or utilized in the history of burning anthracite coal.

No Fine Ashes Settling Over the Stove and Furniture When Shaking. The dust fine, leading up from the ash pit, disposes of the fine ashes when the grate is shaken, through the interior of the stove and up the chimney.

As a Fire Keeper it is a Wonder. It will hold fire seven days and seven nights with one filling and will do the same work twenty-five years from now.

We Guarantee the Fire-pot to Last Twenty-five Years. The Fire-pot is so constructed that the heat is radiated to the floor for a space of five feet around the stove. Remember the base burner heats under the stove and is a cat warmer, not a floor heater in the proper sense.

The Most Economical Hard Coal Stove on Earth. Why? Because it burns all the poisonous gases that never were utilized in the history of the burning of anthracite coal. It is not the original cost of a stove, but the cost to operate it that counts. The Searchlight Utility is an investment that will pay for itself in a short time.

Manufactured by Utility Stove & Range Company Indianapolis, Indiana

The Searchlight Utility is a Furnace on the Parlor Floor. The J. B. Howard Combustion is a gas producer in a stove

CURRENT COST PLAN

LADIES OF THE MODERN MACCABEES WERE ORGANIZED ON.

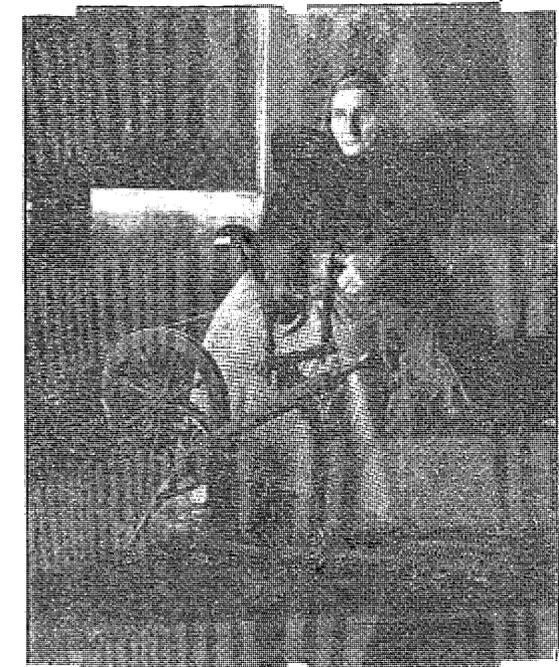

FRANCES BURNS EXPLAINS

How the Order Has Been Put on More Permanent And Enduring Basis.

St. Louis, Michigan, Aug. 5 '10.
Dear Sir:-

In the recent issue I note a statement made pertaining to the Ladies of the Modern Maccabees. In as much as it contains some points that are decidedly erroneous I feel certain you will gladly lend me your columns to offer a correction to the

same. The Ladies of the Modern Maccabees were organized on the current cost plan as were all other fraternal orders of their day and date. We are one of the very last to leave this plan and go to adequate rates, over a hundred of the other fraternities having preceded us in their action. This fact alone expresses that the action taken by the Great Hive was not an arbitrary one, but one necessitated if the life of the Order is to be prolonged. No one of the present officers of the Order was responsible for the organization of the Great Hive or the rates and plans that it adopted, but from time to time have reported to the Great Hive when in session the fact that these rates could not be continued definitely but that the Order must be put on a more permanent and enduring basis. Action has been deferred from time to time until it could no longer be deferred if the Order were to remain solvent during the next ten years. The Great Hive had nearly 400 attendance at its Convention in Kalamazoo while there were but 25 ladies who were counting the ballots out of the room at the time this law pertaining to rates was adopted and in as much as there were but 7 or 8 votes registered against the question the reader

"GRANDMA" HESS,

Buchanan pioneer, who recalls days when she wove cloth for her children's garments, and who still finds enjoyment in the spinning wheel of long ago.

will at once see that if everyone of the 25 tellers had been in the room and voted "no" the action would have been in no wise different nor would the amendment of the laws have been defeated. On the contrary, some of the strongest adequate rate women in the Convention were out with the tellers. After a canvass of these ladies it seems that there were but 4 tellers out that would have voted no if they had been in attendance at the meeting, but their absence could in no wise invalidate the vote taken, neither was their absence a definite plan, but a request upon the part of themselves that they be allowed to take the ballots to a more comfortable place to count than could be arranged for them in the theater which request was granted unanimously and at that time it was not even known definitely that the rate question would be considered. Neither did the State Insurance Commissioner, James V. Barry, order the change of rates. He was present and made an address upon the subject to the delegates and answered questions probably from one to two hours, advising the ladies of the nature of the action and read to them the provisions of the tentative bill which will be presented to the legislature of the states next winter which will require all societies to go to adequate rates in 1912 if the proposed bill becomes a law, but neither by word nor by letter has the Commissioner ruled or done anything more than advised that the Order come to a solvent basis.

The options adopted by the Congress of the United States for the Masonic Mutual Life Association when that Order was required to come to a re-rating by Congress as they are incorporated in the District of Columbia and directly under the supervision of that body. The plans have since been adopted by the Hephthasophs of Baltimore with great success and we have no hesitancy in saying that the Ladies of the Modern Maccabees will be in the future a stronger and more reliable Order than ever since their inception and that all thinking members know that nothing worth having can be purchased at half price but the proper cost must be paid for a good article. This Order was the first one to pioneer the field with fraternal insurance for women. With the changes it has now made, which are such as will not have to meet a re-rating in the future, it is expected that not only will the certificates of its old members be assured and met promptly but of each and every one of its younger members as well.

The public press has given a great deal of erroneous information about the hives surrendering charters, etc. We are glad to state the last report received from the Great Record Keeper's office shows only about one thousand more suspensions than is usual during each July.

County schools of instruction are being held by the Great Hive Officers and schools of instruction with each subordinate Hive by the Deputy Great Commanders and the Hives everywhere where they understand the question are expressing themselves as very much surprised at the advantageous changes that they can make.

Old age claims still mature at 70 years as they have always done, no change being made therein, as the papers have reported in almost every section of the state. The new rates are based on the National Fraternal Congress Table of Mortality and members have every guarantee in the future of the Order.

While many members suppose that every option will leave a lien on the certificate let me say there are eight different options only two of which contain a lien plan, one a past lien and the other a future lien. The other six plans leave the full face of the certificate so that no member is required to select the lien plan unless she desires, but on the contrary many members of the Order receive great advantage by reason of being able to leave a small lien. A statement of my own case may be of assistance to some member. I have transferred to Schedule 6 with a straight life and total and permanent disability benefit and while I have been a member for the last 18 years and paid up to this time \$118 for my protection, from this time on to my death I can pay a rate of \$1.19 and have a lien of \$114.00 against my certificate, this being of much greater advantage to me than to have gone to two years less than my present age by reason of my long membership. Other members can arrange their benefits quite as satisfactorily.

Thanking you for the courtesy of your column, I am,
Very truly yours,
Frances E. Burns

CIRCUIT COURT MATTERS.

Suit for \$2,000—Man Arrested for Perjury.

Charles F. Godfrey has sued the Twin City Creamery Co. of Benton Harbor for \$2,000 for nonpayment of a sum alleged due for a refrigerator plant placed in defendant's place of business. Complainant says machine was in good condition when installed and for no good reason defendant company refused and has continued to refuse to pay for it, hence suit.

Rebecca Goldstein has commenced suit by summons against the Pere Marquette company. No papers filed.

ARRESTED FOR PERJURY.

Deputy Sheriff Miller went to Benton Harbor yesterday and arrested James R. Redfield for perjury, the offense consisting of swearing that his adopted sister was 18 years of age and on this obtained a marriage license.

The girl is only 13 years of age, according to her aunt, Mrs. Byron Becker, wife of a mail carrier in Benton Harbor, who swore out the complaint.

Redfield is about 30 and appeared at the county clerk's office July 30 and got the license. He was taken before Justice Hammond where he waived examination and was bound over to the circuit court in bonds of \$1,000, which he was unable to furnish, and so went to jail.

COUNTY INDEBTEDNESS

People of Michigan Will Vote This Fall on Increase.

Lansing, Aug. 13—The people of Michigan will vote this fall an amendment to the constitution providing that in counties where the valuation is less than \$5,000,000, the indebtedness may be increased from 3 to 5 per cent.

This proposition was to have been put last spring, but as there was no general election, the attorney-general ruled that it must be postponed until there be such an election.

FORD

The Quality Car

\$950

4 Cyl., 20 H. P., 5 Passenger Touring Car.

FORD

The Quality Car

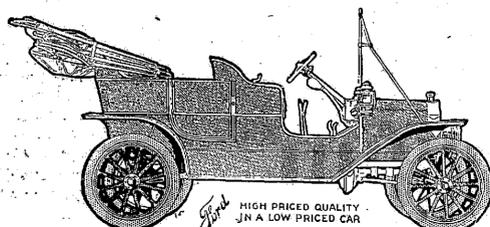

\$950

Ford—the Car that lasts longest and costs least.

In the purchase of a Ford Model T Car, the buyer knows that he has those qualities and conditions which go to make up a perfect car. Quality, endurance, service, light weight, power, class, comfort and low price all make the Ford Car the best automobile to buy on the market.

The quality of material used on all parts of the car cannot be surpassed. Vanadium steel throughout all working parts makes axles, springs, crank and cam shafts, etc., the strongest possible. Only in strength will you find endurance and service and it has been proven by two years use and the experience of Ford Model T Cars on the road that they have the material in them which means endurance and service.

The condition of the road or weather have no effect on the traveling properties of the Model T. Sandy or muddy roads, snow banks, hills or mountain passes have no more terrors to the Model T than the asphalt avenue, because the Ford, four cylinder, 20 horse-power engine has the power. Horse-power has no significance except when compared with the load to be carried, and when you consider the light weight, twelve hundred pound Ford propelled by a twenty horse-power engine, or sixty pounds per horse-power, as compared with the average "thirty" weighing twenty-one hundred pounds, or seventy pounds per horse-power, you do not wonder why Ford Cars are able to travel over roads that competing cars would not consider trying.

Roadster \$900.

Then there is the low up-keep of a Ford Car. It has been proved in contest after contest that the Model T will run from twenty-two to thirty miles on one single gallon of gasoline, thereby cutting bills to the minimum. Then, too, heavy weight causes wear, and wear costs money to replace. That is where the twelve hundred pound Model T has it over these two and three thousand pound cars. The Essex Auto Company of Newark, N. J., contract to store, clean, repair and keep Ford Cars supplied with gasoline and oil at the cost of fifteen dollars a month, and they are making money by this contract. In no other car on the market is the up-keep cost as low as in Ford Motor Cars. Ask your neighbor, and he will tell you by facts and figures that the Ford is the car you want to own.

We would be very glad to have you pay us a visit at the garage and receive one of the latest Ford Catalogs, describing in detail the complete line of Ford Model T Cars. Our demonstrator is always "Johnny on the spot" and ready to give a demonstration to you the minute you say the word—Let us take you for a ride and show you the Ford superiority.

BUCHANAN WINS GAME

DOWAGIAC ELKS GO DOWN TO DEFEAT AT HANDS OF VISITORS

PLAY AT INDIAN LAKE

Game is Followed With Splendid Fish Supper at 6--Dowagiac Elks Were Hosts

The Dowagiac News has the following to say of the game of ball in which the Buchanan Elks defeated the Dowagiac Elks last Friday afternoon:

Buchanan Elks met the Dowagiac Elks in a game of ball at Indian Lake yesterday afternoon when the visitors were victors by a score of 16 to 9.

Buchanan outplayed Dowagiac. The diamond was improvised and neither team was used to it. Hits were plentiful on both sides. This gives each team a game and the rubber will be played in the near future.

A total of sixteen Elks were present from Buchanan, and an equal number attended from Dowagiac. At 6 o'clock all hands dined, half of them being served at Mrs. Sifford's at the West shore and half at Mrs. Stafford's at Indian Beach. At both places a splendid fish supper was served.

The Buchanan party came from home in automobiles, and the Dowagiac's were taken to the lake in private automobiles and in the big car. All enjoyed a launch trip around the lake, and those who wished tried the bathing.

The afternoon was hot, but pleasant, and the visitors expressed themselves heartily on the manner in which they were entertained.

Announce Public Sale

Having decided to quit farming, Chas. Jannasch and son, Wm. Jannasch, announce that they will offer for sale at their home, one mile southeast of Galien, Wednesday, Aug. 24 at 10 o'clock a. m., three

"DEMS" MAKE THEIR CHOICE

ENTHUSIASTIC MEETING HELD AT BERRIEN SPRINGS

J. E. BARNES FOR CONGRESS

Representatives From All Over the County Assembled at Former County Seat

In a general conference, one held for the purpose of finding out the fundamental principles of the primary law, and suggesting the names of suitable candidates for the county offices, the Democrats of Berrien county met in the town hall in Berrien Springs last week.

Chairman James Babcock of Niles, called the meeting to order, and Fred Franz of Niles township acted as chairman. His remarks were brief and to the point, and after several sections of the primary law had been read by Secretary Fremont Evans of St. Joseph, the conference took a recess to decide upon the candidates who should be boosted and named for the various offices.

Upon re-convening F. A. Stryker of Buchanan, suggested the name of Owen McAtee of St. Joseph, for the office of sheriff, which met with the approval of the representatives.

Then came the other nominations: For county clerk, E. E. English, Weesaw township; treasurer, A. J. Baker, Coloma; register of deeds, Fred Tichenor, Niles township; prosecuting attorney, Fremont Evans, St. Joseph; drain commissioner, F. A. Stryker, Buchanan; circuit court commissioners, Luke Tormey, Niles and E. C. Harner Benton Harbor; coroner, Samuel Wise Bainbridge, and Henry Beswick, Niles.

Petitions were on hand and at once started for the signatures of the democrats throughout the county in behalf of the candidates suggested. The democrats must of course comply with the primary law and must nominate their candidates in this method the same as the republicans. For congress the name of John E. Barnes of Benton Harbor, was suggested, and the recommendation sent to the congressional committee that petitions be circulated for the nomination of the Benton Harbor manufacturer to oppose Congressman Hamilton at the coming election.

For representative of the first district, Theodore N. Perry of Hagar township was suggested, but no recommendation was made in the second as there are two candidates for the honor.

ACCUSED OF SERIOUS CRIME

Sheriff Johnson last Friday went to New Buffalo where he arrested Captain Edwin H. Allison, sixty-three years of age, on the charge of taking indecent liberties with eleven-year-old Louise Beckman.

Allison is a resident of New Buffalo, and for forty-four years has been in the service of the government. He was with Buffalo Bill as a scout for many years and has long been identified with the service.

Sheriff Johnson brought the accused to this city and this afternoon he was arraigned before Justice Hammond. He demanded an examination and will employ counsel and fight the charge preferred against him. The hearing was set for a later date with bonds to be fixed by the court.

WILL LOCATE FACTORY IN BUCHANAN, MICH.

Sebring Phelps Has Decided to Leave Hastings. Will Employ 10 to 40 Men.

The Hastings Banner says: The people of this city will regret to learn that Mr. Sebring Phelps has decided to locate his factory for the manufacture of Electric Fireless Cookers in Buchanan, Mich.

Mr. Phelps had offers from Wisconsin parties, but he desired to remain in Michigan and at the same time get nearer Chicago, which city affords a splendid market for his cookers.

Recently Mr. Phelps conferred with the Business Men's Association in Buchanan, with the result that the deal was closed at once locating the factory at that place. He expects to employ from 10 to 40 men.

The people of Buchanan will find Mr. Phelps an excellent man and a hustler, and he will carry with him the best wishes of a large number of friends who wish him well.

First publication Aug. 4, 1910. STATE OF MICHIGAN, the Probate Court for the County of Berrien.

In the matter of the estate of Rebecca Salisbury, deceased.

Having been appointed commissioners to receive, examine and adjust all claims and demands of all persons against said deceased, we do hereby give notice that four months from the 1st day of August A. D. 1910, were allowed by said court for creditors to present their claims to us for examination and adjustment, and that we will meet at Stone of G. A. Blakeslee & Co., in the village of Galien, in said county, on the 1st day of October A. D. 1910, and on the 1st day of December A. D. 1910, at ten o'clock in the forenoon of each of said days, for the purpose of examining and adjusting said claims.

Dated this 1st day of August A. D. 1910. Charles A. Swartz, Clearn Smith, Commissioners.

Last publication Aug. 18, 1910.

First publication Aug. 4, 1910. STATE OF MICHIGAN, the Probate Court for the County of Berrien.

In the matter of the estate of Eliza A. Stanton, deceased.

James E. French, having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is ordered, that the 29th day of August A. D. 1910, at 10 o'clock in the forenoon, at said probate office, be and is hereby appointed for examination and allowing said account and hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order for three successive weeks previous to said day of hearing, in the Berrien County Record, a newspaper printed and circulated in said county.

A true copy. CLAUDE A. BAKER, Register of Probate.

ROLLAND E. BARR, Judge of Probate.

TO THE PUBLIC

I have accepted the agency of the Mutual City and Village Fire Insurance Company for the counties of Berrien, Cass and Van Buren, which carries between eighty and one hundred policies in Buchanan today. I would be glad to have those wishing insurance to call on me before placing their risks in any other company. Remember if you have a loss I will be right here to adjust it for you. This company is one of the very first class companies in Michigan.

**News Snapshots
Of the Week**

While on boat ready to sail for Europe Mayor J. Gallagher. Texas Democrats nominate Oscar B. Colquitt for governor on anti-prohibition platform, while other candidates on platform are "dry." After visit to federal prison, Atlanta, Mrs. Charles W. Morse reports husband in danger of dying unless released soon. Walter Brookings, at Ashbury Park, lost control of aeroplane and plunged into crowd, severely injuring himself and others. Senator Aldrich, Rhode Island, decided to reply publicly to tariff charges of Senator Bristow of Kansas. Besides the Duke and Duchess of Roxburghe, America may be honored by still higher personage, the German crown prince, who plans tour of world.

**LAUNCH SOCIETY TO PRESERVE
BERRIEN'S HISTORICAL LANDMARKS**

Articles of association were recently filed by the Fort St. Joseph Historical association, which will have its headquarters at Niles. The purpose of the organization is to preserve the historical landmarks of Berrien county. During the recent session of Congress, Congressman Hamilton introduced a bill providing for an appropriation to erect a memorial over the spot where Fort St. Joseph once stood and which would mark for all time the coming of the great explorer LaSalle into these regions. The Fort St. Joseph Historical association has been organized practically for the purpose of taking charge of this memorial and if possible securing sufficient money from Uncle Samuel to carry out proposed plans. The life of the organization is placed at 30 years and the articles provide that there shall be three directors or trustees. These trustees are Lewis H. Beeson, Hilles Smith and Lucy G. Finley, of Niles. The following Nilesites are charter members of the association: Lewis H. Beeson, Lucy G. Finley, Rena B. Gillam, Alice Ferguson, Juliette Lambert, Ralph Ballard and directors or trustees. These trustees are Lewis H. Beeson, Hilles Smith and Lucy G. Finley, of Niles.

**THE BUSINESS MEN'S
ASSOCIATION OF BUCHANAN**

By A. A. Worthington, President

About one year ago some of our business men became convinced that our citizens were not doing what they might to develop the resources of Buchanan, and as a result this association of business men was launched. The object of the association is not only to promote the best interests of Buchanan along all lines, but to show our citizenship the advantages and possibilities of our village as well. Not enough business men have joined, but what we have lacked in numbers has been fully made up in the energy and loyalty of those who have joined. Certain it is that the active members have been loyal active and unselfish in the support of the association, and as a result many things worth while have been accomplished. We do not lose sight of the fact that a public spirited common council has co-operated with this association in bringing desired results, and they are certainly entitled to our thanks. During the life of this organization large portions of Front street and Days Avenue have been paved. A new tungsten lighting system has been installed, and this makes Buchanan the best lighted village in Michigan. Hustling young business men are at the head of our industrial concerns and as a result of their business methods these institutions are enjoying unprecedented prosperity. More men are finding regular employment in Buchanan than ever before in the history of the village. The main offices of the Atlas Belting Company are being moved to Buchanan. A factory that will manufacture electric fireless cookers will soon begin operations, and the prospects for other factories are bright. It is safe to say that Buchanan is the best advertised town in the country, and why? The individual members of this association are letting the world know that we have advantages that few towns of our size can offer. The commercial features of our river have been utilized for our benefit by the construction of a dam that has a capacity of 4,000 horse power. We can furnish electric power cheaper than any town on the map, and we ought to make our free power proposition a winner. Our schools, churches and literary clubs are doing a good work in the religious and intellectual life of our village, and it now looks as if the Young Men's Christian Association of Buchanan would soon come into possession of \$25,000. If this amount is secured a model building with a gymnasium and baths will add much to Buchanan and her advantages. It is certainly to be regretted that the old cemetery is not a park. We had hoped to see this transformation in 1910, but we must wait until 1911. It will take the united efforts of our citizens to bring this about, but it can be done. Let the authorities hear from YOU.

We need more members and more unity as we seek to develop our abundant resources but this will surely come if each business man will do his part. To bring about the best possible results we must let the people know that if they will "touch the button" we will do the rest.

**PLEASED WITH
THIS SECTION**

S. O. Hoover Speaks Words of Praise For Berrien County Farms.

After four years of investigating, looking for a location I would like to make my home, I finally came to Buchanan.

Previous to this roaming I had spent from two weeks to two months at different seasons for twelve years looking at locations where cheap lands wonderfully productive were promised. One after another were discarded for some defect in make-up and then

Buchanan selected for the following reasons.

Located in Berrien County, Michigan, 87 miles from Chicago. On the Michigan Central and P. M. R. R. near the north line of Indiana and far enough east to be out of the lake shore sand and away from the cold winds that come sweeping down over the waters of the great lakes.

Buchanan has a population of 2500 with paved streets, electric lights, primary and high schools, churches, banks and fine stores of all kinds, lodges and lodge halls and all that should be to make a modern little city with the very best of society.

And Buchanan has Some of the finest modern residences to be seen in any city regardless of size. A drive along the streets in summer is cool and refreshing as the grand old maples over-lap and

shade the streets at nearly any time of the day.

On holidays and evenings and at the weekly band concert in the summer the streets are crowded to their capacity, with auto, buggy and pedestrian. Happy and contented in a prosperous industrial city and productive farming community.

Sources of Prosperity
I say prosperous, yes for labor or capital. There is at present located here several large factories and free electric power furnished with an unlimited opportunity to expand for any factory locating here.

We have here at present, Feather Duster, A Modern Creamery, Horse Collar Pad factory, Cement Block yards, Marble Works, Machine Shop and Garage, a Pickle Factory, Lee & Porter Axle Factory, Celfor Tool Company Atlas Belting Company, located a short distance from the main part of city with all this surrounded by farms owned and worked by the tenants supplying the home demand and helping our neighbors in larger centers of the population within, so short a distance that the condition of the farm and factory products commands the top price. It would be a wonder to not be prosperous.

Land The Source Of All Wealth
The same number of acres here will produce the same or more in dollars as any other on earth if proper care and labor with ordinary intelligence are used. All fruits, corn, grasses (clover and alfalfa), potatoes, sugar beets, oats, wheat and all grains and vegetables suitable to this climate produce abundantly.

We do not claim the largest yield on earth per acre, but we do know the surroundings of the little city of Buchanan are the finest markets the world affords. We have South Bend, 14 miles, population 60,000; St. Joseph, 25 miles, population 7,000; Benton Harbor, 25 miles, population 12,000; Chicago, 87 miles, universally admitted has the largest buyers of farm produce in some form green or prepared of any city in the U. S.

A ton of produce within an easy haul by wagon or rail is worth more than a like amount 200 to 500 miles away from markets that take all and cry for more.

Farm Products Separately

FRUITS
Berries of all kinds grow here to perfection and yield as heavy as any section in the world, considering them all together. Have an ever waiting market. Tree fruits do equally as well and produce heavy crops. The trees seem to live and thrive longer here than on lighters soils and produce in flavor fruit equalled in very few sections with large per-centage of marketable fruit culls being small part of the product. To be sure care equal to any other fruit section and modern methods must be used.

CORN? YES
I can show you some of the finest land in the world for corn, black, not sticky muck, has enough sand to make it work easy, and corn to spring like a magic green forest, when once it attains 3 to 6 inches in height. The yield is 35 to 90 bushels according to soil, care and proper attention.

OATS
Make a fine yield when season and conditions are reasonably favorable, and yield a fine full berry regardless of short crop of straw.

WHEAT
Winter wheat has been successfully grown here or years and can be grown on any land surrounding Buchanan. We have a perfect drainage and very few places enough water stands to freeze the grain or clover seeding out.

POTATO
The Michigan potato is to well and favorably known to need any introduction and have a ready market at top prices yielding from 80 to 250 bushels per acre.

VEGETABLE
They all grow for the table and commercially the onion and cucumber, with melons are raised largely.

SUGAR BEETS
Sugar beets are grown from a small patch to fields of 20-40 and 80 acres. Are shipped to Holland, Mich., where the factory takes them all and are ever ready to contract for more. The profit runs \$35 to \$100 net per acre.

GRASSES
Clover and timothy grow on all land not cultivated for any length of time and when properly seeded the yield is very heavy and of fine quality, running from 1 ton on old long standing seeding to 3 ton on newly seeded

fields. Bailed and shipped to nearby markets at highest market price and always in demand.

ALFALFA
Until recently this very valuable grass has been in an experimental stage here. The past two seasons have demonstrated it can be successfully grown here and fields from 1 to 5 acres are now yielding their 4th and 5th year, average cuttings 3 times, from 1 ton to 2 tons per cutting to the acre. This being the best hay for dairy cows, it has ready market at premium prices.

LIVE STOCK
The sheep, the horse, the cow, the hog, the hen and fowls. They all do exceptionally well.

SHEEP
Like all timbered countries this was a great sheep country during the clearing process when they were pastured on cut off land to kill the sprouts and aid in the clearing. Some farms today have small numbers in wood lots and rough lands and are profitable animals on this class of land.

HORSE
Some of the finest you can find in any farming section and generally a high class of drafters for all classes of work.

CATTLE
The cattle here are mostly in the dairy and light beef class, consisting of Grade Jersey Holstein and some thorough bred of each.

Buchanan has a fine modern up-to-date creamery taking every ounce of milk produced and ready to take many more with an outlet for ten times their present output at prices that make any good cow pay from \$50 to \$75 per season.

Dairying is one of the best paying departments on the farm when you consider income from the creamery, fertilizer veal and the by products skim milk for pigs and chickens.

HOES
An ideal country for them with fine grass in shady pastures clear cold water and grain produced in abundance to feed for a finishing makes a top animal in any stock market.

THE HEN
On rolling well drained land the hen is found at her best and here can be found some ideal locations for poultry, where the feed for them can be raised on your own land in so many varieties that you need buy very few items, with access to the very highest priced markets for eggs and fowl.

Topography
The land around Buchanan is from level prairie to a rolling hill land, black to a light colored clay loam, very small per centage of rough unproductive land and it all produces equal well.

Roads
Fine gravel road lead like a thread from Buchanan through green fields of grain and grass set with beautiful homes and trees in every direction and are highly maintained and makes marketing the product easy.

In addition to this we are to have in the near future the electric railroad with freight and passenger accommodations to Chicago and all the large cities of Indiana and Michigan. They are now 5 miles away and have been granted a franchise and have the right of way.

Climate
Some not familiar with this section hold a prejudice on account of founding this with the more northern sections and complain of the very cold raw weather. As a usual thing the days in winter are sunshine and pleasant with snow and the very cold days come occasionally and pass by with very little discomfort.

The summers are drawn into long pleasant autumn days and on the hottest day in summer when the sun goes down a cool and refreshing wave settles down and you have a night in which you may enjoy sleep and rest. As a summer resort and summer homes the surrounding country is more and more becoming favorably known.

Be you a man of small or unlimited capital. I honestly believe I can convince any fair minded man that the opportunities offered here for gain are as great, if not greater than any other section, everything considered. Soil, price, climate, markets, manufacturing, coupled with an intelligent, industrious, progressive population. And you are invited to come and inspect with a critical eye and the hand of welcome will be extended regardless of your conclusions and will obligate you in no way for any courtesies extended.

Yours truly,
S. O. HOOVER

ALAMO HAMPMOCK SALE

At the cost price of \$5.00, including Mattress
Saturday Afternoon, Aug. 20-27

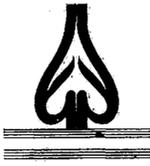

The same Alamo Hammock that retails for \$16.50, but they are slightly soiled. We have a limited number to dispose of at this cost price. Also a few Alamo Junior Crib Hammocks at the same price. If you want one come early and avoid the rush.

The Alamo Hammock

The Alamo Hammock combines the advantages of hammock, couch and bed—for both indoor and outdoor use.

No one was ever comfortable or safe in an old style netting hammock—they are rapidly being displaced by the Alamo. The netting hammocks tip you out, sag in the middle, require acrobatic skill in their use. The Alamo cannot tip over and the frame which gives it couch form also prevents sagging.

The Alamo hammock is made in three solid colors—white, drab and khaki. The brass eyelets in the ends and sides, make an attractive color contrast. The mattress is made of waterproof fibre. It is closely tufted and reversible—covered with denim in three solid colors, red, green and brown. The Alamo hammock takes a floor space of only its own size, 6 feet, 4 inches by 2 feet 6 inches.

The Alamo Junior

There is nothing like it on the market—is both a hammock and a crib—used at night as a bed for the baby and in the daytime for his fresh-air treatment on the porch or lawn.

It is adapted to meet all sorts of weather conditions. Solid duck sides are stitched to the netting sides and can be put up or rolled down, as the weather demands.

The Alamo Junior is 22x44 inches—the regular crib size. It is made of light, strong duck, stretched over a wooden frame.

A mosquito netting thrown across the top of the baby hammock will prevent any annoyance from flies, mosquitoes or other insects.

The mattress for the Alamo Junior is made of the best grade of cotton felt and covered with a good quality of ticking—the same grade as regularly furnished with all baby beds. The Junior is furnished in khaki or white duck. It is built on the same durable lines as the Alamo and will last a lifetime.

Frank Pangborn of Chicago spent several days last week with his brother, D. D. Pangborn.

The Buchanan Independents by heavy slugging and a series of errors by their opponents won an interesting game on the local grounds, Score 9-3. Barnes, twirler for the locals pitched a splendid game, striking out eleven men. Although Nash for Three Oaks fanned 7 men, he was pounded for 11 hits, five of which were two baggers, and 2 three baggers. The visitors got three bingles off Barnes. Errors—Three Oaks 16. Buchanan 1. Eight of Three Oaks players were from the Greens. Right fielder Steck being the only Reserve in the game. This speaks well for our boys. There were over 30 paid admission to the game.

The church people of Buchanan will have a spiritual treat over Sun-

Prof. and Mrs. Beardsley of Chicago, are expected home for "Home-Coming Week."

BUCHANAN'S FIRST BAND

Only Two of the Members Still Residing Here—Many Have Passed Away.

In the fall of 1863, the first band in Buchanan was organized with a membership of 16. It was christened the Buchanan Silver Cornet band, and C. B. Leisher was teacher and director. The members were John Morris, James Duncan, Henry Curtis, George Jeffery, R. A. DeMott, Albert Weaver, Aaron Miller, Horace Strong, Harvey Roe, Frank Collins, Julius Bostwick, A. C. Roe, Royal Morris, Clarence McCoy and Chas. Snyder. The bell back style of instruments, with rotary valve, were used. Of the members, only a few are still living, and of these only two reside in Buchanan, they being John Morris and A. C. Roe. Among those who have passed away are Henry Curtis, Frank Collins, Aaron Miller, Harvey Roe, Royal Morris and Horace Strong. The other survivors are scattered throughout the country.

John Morris has been associated with the local bands more or less since the organization of the old Buchanan Silver Cornet band, and today, in the Buchanan Cornet band, we have one of the finest musical organizations in the country, owing largely to the efforts of Mr. Morris.

Card of Thanks. We desire to thank our kind neighbors and friends who have so generously aided us in our time of misfortune.

Mr. and Mrs. Geo. Johnson.

Card of Thanks. The wife and children of the late J. P. Anstiss wish to express their appreciation and gratitude to the order of the I. O. O. F. neighbors and good friends who so kindly aided in their great sorrow. Also thanking the sweet singers, Rev. Leamon for his inspiring words of comfort and not least of all the friends who so generously sent the fragrant and beautiful flowers. Mrs. Louisa Anstiss and Family

The Wanderers

Who return to Buchanan Home Coming week will find a warm welcome at my Studio car, Front and Main streets. Photos of all kinds made in the smart artistic finish. Souvenir post cards of Buchanan and vicinity.
