BEQUEST OF \$25,000 BONE OF CONTENTION

Chicago Y. M. C. A. May not Attempt to Defeat Local Association on Technicality,

At a meeting of the directors of the Chicago Y. M. C. A. to be held today, the question as to whether or not this gigantic organization shall enter into litigation in an effort to deprive an organization that had to sell the carpet upon the floor to pay its hall rent and has not held meetings for 25 years, of a bequest of \$25,000 may be decided.

Mrs. Sarah A. Hawley, who died April 19, 1910, left \$25,000 to the Buchanan Y. M. C. A., providing such an organization is in existence. Otherwise the money is to go to the Young Men's Christian association, of Chicago.

The constitution and by-laws of the Buchanan Y. M. C. A. are still in the hands of A. F. Peacock, who was serving as president of the local association at the time the last meeting was held. The by-laws make provision that the officers hold over

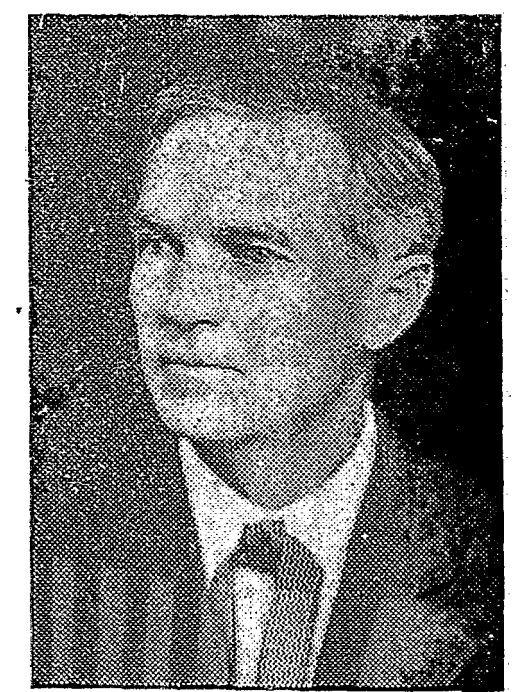

ATTORNEY A. A. WORTHINGTON

until their successors are elected and qualify. It is on this stipulation the officers are basing their claims to the bequest.

A conference with officers of the Chicago association was held about a week ago, Attorney A. A. Worthington appearing on behalf of the local association and presenting the sentimental side of the case. The officers of the Chicago association, which has a surplus of upwards of \$1,000,000, promised to see that the matter is carefully considered at the directors' meeting today.

In the event that the Chicago Y. M. C. A. decide to fight for the bequest, the case will probably come

ATTORNEY A. C. ROE

on in November. In case the local association should win, a building with gymnasium would probably be erected here, although the association would seek the advice of the state association in expending the money.

Mrs. Hawley also left \$25,000 to the Buchanan Anti-Saloon League, with the same stipulations, but there is no question about this association being in existence. A. C. Roe is president, G. W. Logan, secretary, and W. E. Pennell, treasurer. As soon as the Y. M. C. A. litigation is disposed of, the estate will be settled up.

Mrs. John Hoffman, of Benton Harbor, was a guest of Mr. and Mrs. V. H. Leonard Sunday.

The reason why Boardman's have such a good cloak business is because they have the best cloaks for the least money.

LOVE IS DRIVEN FROM HIS HEART

Betrayed By Sweetheart, He Is Arrested For Crime Two Year Old

THROUGH WITH FAIR SEX

Drove Rig Out of Niles in September 1909, Going as Far South as West Virginia

Harry Fairbanks, a former Nilesite, has fallen in love for the last time. His faith in womankind has been blasted; henceforth the fair sex will only receive contempt from him.

A girl proved Fairbanks' nemesis. She betrayed him, so he says, anyway Fairbanks was brought back from Clinton, Iowa, Saturday by Sheriff Johnson.

LOVERS' QUARREL DISASTROUS

It was a lovers' quarrel that proved disastrous to Fairbanks. He stole a rig in Niles so long ago as September 1909. That fact his "best girl" knew. She also communicated it to the sheriff at Clinton when she and Fairbanks quarreled. His arrest was promptly made and Sheriff Johnson notified.

And so that is the reason that Fairbanks has lost his faith in womankind. That's why in his cell at the county jail, he says all women are treacherous; that love is only a baby's game and that he wouldn't give the snap of his fingers for all the kisses women can bestow.

Fairbanks made a clean getaway when he stole the rig. He hired the outfit from Earl's livery at Niles and started south as fast as horseflesh could take him. He drove clear through to Wheeling, W. Va., only stopping long enough on the way to trade buggies at Ballard, Ohio.

Celebrate Wedding Anniversary

Saturday was the fortieth wedding anniversary of Mr. and Mrs. Burgess Miles and in honor of the occasion their daughters, Mrs. Ora Hall of Elkhart, and Miss Hazel Miles, planned a surprise for them. About fifty relatives and friends were present and a pleasant social evening passed.

In behalf of those present, Miss Elsie Sellers in a few appropriate words, presented Mr. and Mrs. Miles with a chest of silver. Conspicuous among the decorations was a bouquet of forty carnations. Refreshments were served and the favors were witties.

Recently a stranger made the rounds here claiming to be a solicitor for The Old Friend magazine, and on the strength of a story to the effect that the publishers would send the magazine for one year to new subscribers who paid the postage, 24 cents in advance, gathered in considerable change. But the subscribers have failed to receive the magazine.

The Christian Evangelist of St. Louis, Mo., says as follows concerning a former well known Buchananite: Brother F. W. Mutchler, pastor at Grant Park, Des Moines, Iowa, has been seriously bothered in his work by the prevalence of gambling in his community and has found it necessary to see personally that the laws of the city in regard to gambling were enforced. By so doing he has by no means detracted from his popularity and usefulness, and the Des Moines News says of him: "Rev. Mutchler is pastor, friend, teacher, police force and livestock Grant Park ever had."

When a bunch of young misses from the sixth and seventh grades have time to walk up and down the street for an hour or so in the evening no one should cry "overwork."

Much out-of-door work is being done these beautiful fall days. This work is infinitely more important than much of the text book work.

Out in the fields and among the hills the pupil may study nature, geography and botany as they really are, they may see for themselves instead of being satisfied with secondhand knowledge.

McNAMARA TRIAL DRAGS ALONG SLOWLY

Los Angeles, Cal., Oct. 18.—With two talesmen temporarily passed by the defense and a third under examination, the murder trial of James B. McNamara went forward today with considerable speed. Counsel and talesmen alike seemed relieved by the prospect of rapid work.

James B. McNamara, on trial for the murder of Charles J. Haggerly, who was killed in the Los Angeles Times explosion a year ago, seemed to be one of the few fairly comfortable persons in the courtroom in the summerlike heat which swept Los Angeles.

"I don't want to be here a minute longer than I have to," said one of the leading counsel to his opponent. "I'm going to do my full duty, but I'll be glad when it's over."

THE WOMEN WIN OUT

Former Buchananite Writes Concerning Equal Suffrage Victory.

Writing The Record from Riverside, Cal., under date of the 14th instant, Mrs. May Godfrey says: "Please note the fact in your next issue that women can vote in California. The equal suffrage amendment carried by a good-sized majority at last Tuesday's election. Of course we are taking it very 'cam,' as Mrs. Partington says. Nevertheless, we rejoice that at last we are 'man's equal.' We have already arranged for a banquet next Tuesday at the Y. W. C. A. rooms, to organize a league for study. We hope, after a few years' study, to be able to vote as intelligently as the naturalized foreigners. Yours for good citizenship."

Michigan's Big Fruit Year

"Who has not heard of this beautiful land, With its orchards the fairest that earth ever gave, Its lakes and its rivers and streamlets as clear As the loved-lighted eyes of its women so brave?"—TOM MOORE

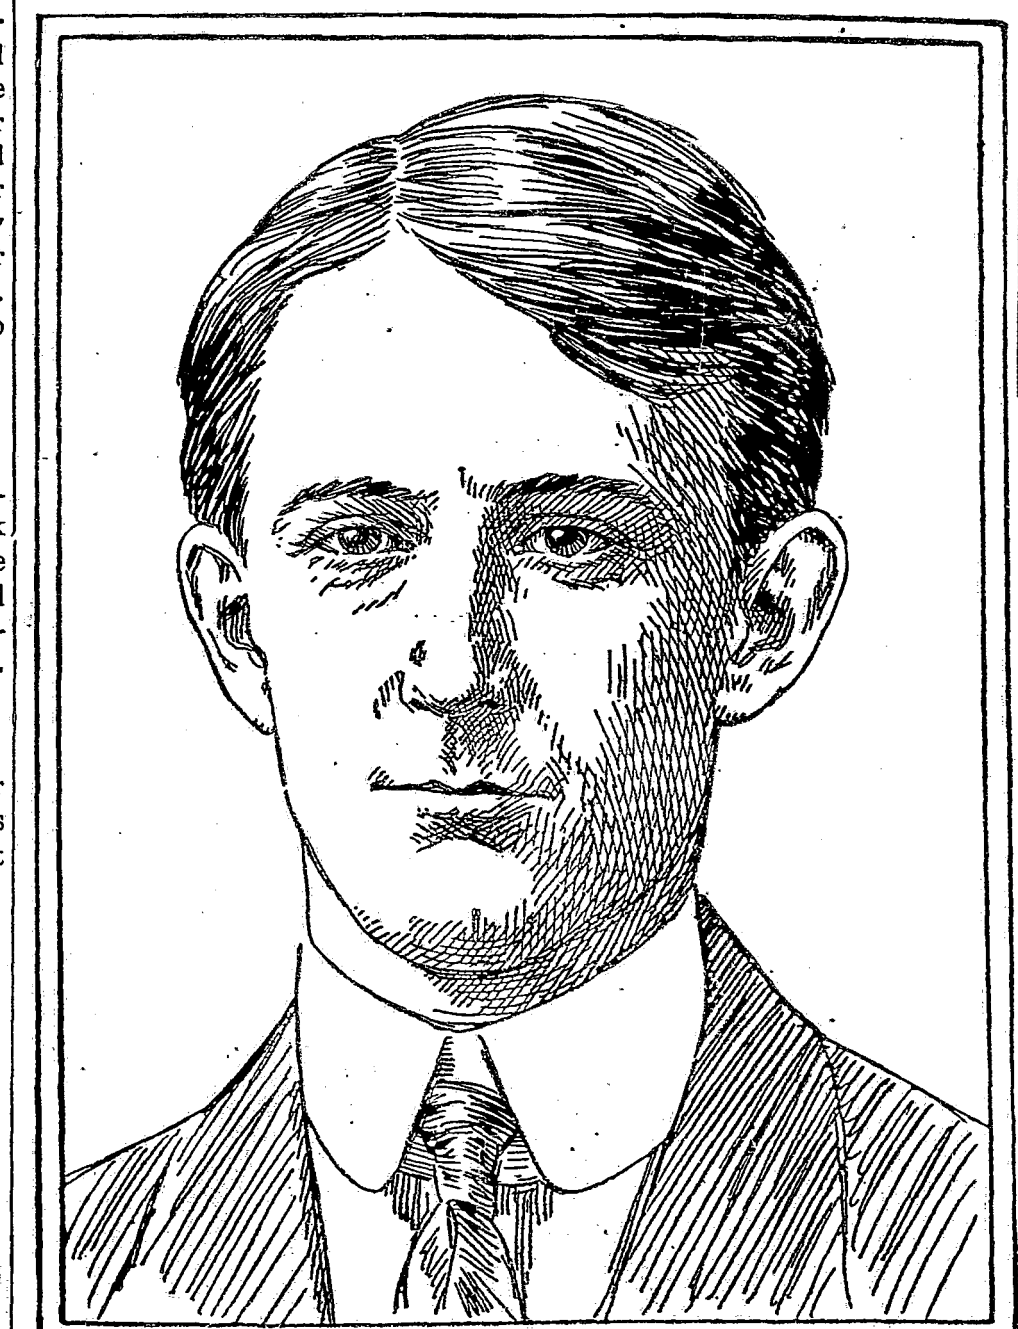

Michigan is just closing up one of the biggest fruit years in her history. The markets have been heavily supplied and now the canning plants are running over time to can the tons of fruit brought in. To date there has been a steady supply of peaches and overloaded trees of the late varieties will keep the factories busy for some time. It will be the first of December before the factories cease their operations and turn attention to shipping.

Michigan peaches are particularly well adapted for canning and the demand for them in the cities has steadily increased.

Next to peaches come apples, pears, plums and cherries. Michigan's crop of these varieties of fruit has been immense this year, and the markets will be amply supplied with the canned products.

The grape crop has also been big, and the grape juice factories have been running full blast, bottling the juice for the market.

o'clock in the morning. The president's train passed over the bridge at 10:51. The night watchman saw the men on the bridge shortly before two o'clock. They were at the opposite end of the 1,000-foot span and ran when ordered to halt.

Men Fire on Watchman.

The watchman hurried across the bridge, firing several shots, which were returned.

After the pair had escaped in the darkness the watchman returned to the bridge and began an investigation. Near the center of the span, lodged on one of the supports of the viaduct, he found the 36 sticks of dynamite with a ten-foot fuse attached to one of the sticks.

The president's train followed the regular train from San Francisco, ten minutes behind, and if any trouble had been encountered there would have been plenty of time to flag the special. All of the railroads are handling the Taft train with the greatest care.

Taft Given Hearty Welcome.

President Taft received a hearty welcome in Los Angeles and Pasadena. The streets were thronged and there were cheers all along the route. It was entirely a nonfactional reception. Following an appeal for support for scientific revision of the various schedules, based upon reports of the tariff board, Mr. Taft called out a storm of cheers by announcing to the lemon growers that the tariff on their product would not be changed until the board had had time to investigate and report on the difference in the cost of production at home and abroad.

"I think so," he added, "because he has the courage, while he loves your race, to tell you the truth and to tell you the one way by which you can earn your place in the community and render it better and higher."

E. A. BLAKESLEE WITH MORSE CO.

At a special meeting of the directors of the A. B. Morse company of St. Joseph, recently held, Mr. E. A. Blakeslee was elected general manager of the company. Negotiations between Mr. Blakeslee and the company have been in progress for some time. For the present Mr. Blakeslee will devote only a portion of his time to the affairs of the A. B. Morse company, as he is in active management of the Berrien County Development company, a corporation of which he is secretary, with offices in St. Joseph. This arrangement will enable Mr. A. B. Morse, who has for years been acting as both general manager and sales manager, to give his entire attention to the sales end of the business.

During the past two or three years the seed and nursery catalog printing business of the Morse company has become quite extensive, and it is desired that this branch of the business should be still further developed. The company at present has customers among seedmen and nurserymen in more than twenty states, and their list of patrons in these lines is steadily growing.

They are also producing some of the very highest grade of machinery catalogs and other general printing. At this stage of their development, the wisdom of securing a man of Mr. Blakeslee's standing and experience is to be commended.

THE GOOD ROADS MOVEMENT.

Now that the Berrien County Board of Supervisors has adopted the report of the county road commissioners, the sum of \$57,000 will be expended within a year in building good roads. The county system has been adopted in many of the counties of western Michigan, where the progressive spirit of the rural communities is best illustrated by the magnificent highways which already lead out into the country from almost every village. And under the system of state-rewards for the building of highways of a fixed standard, hundreds of miles of the best roads that clean stone and gravel can make are yearly being added to the systems of each county. Good roads mean almost as much to the farmer as good railroad and boat transportation; good roads effect an enormous saving in the cost of hauling produce to the nearest loading station, and the farmers of Western Michigan have shown that they understand the meaning of this economy. Under the law, the State offers a reward for every mile of highway built according to specifications furnished by the State highway commissioner; that is to say, the State will pay \$1,000 per mile for a macadam road built in accord with its instructions, \$750 for the highway surfaced with slag from the iron furnaces, and \$500 for the road built of gravel.

There are many taxpayers in Buchanan township who would much prefer to build roads under the township system, but if the county commissioners continue to act judiciously in the matter of the distribution of the good roads, the county system may prove even more satisfactory than the township system could.

REPORT ADOPTED BY SUPERVISORS

Opposition Lead by Supervisor Daigneau Lacks Many Votes

FEW VOTED AGAINST IT

Benton Harbor Supervisors Stand Pat and Vote Solidly Against Acceptance of the Commissioners' Report

Leading the opposition to its very first stand in the fight against the adoption of the county road commissioners' report, Supervisor Daigneau and his colleagues went down in signal defeat in the battle when by an overwhelming vote the board accepted the report in its entirety, only seven voting against it. Not only that, the board even raised the pay of the commissioners to five dollars a day, the members to pay their own expenses.

INTERESTING FROM THE START It was an interesting fight from the start to the finish. It was clean too. There was not even an exchange of sharp words, even when Supervisor Daigneau pleaded with Supervisor Franz to change his motion and have the report divided, making the determination of the location of the roads one thing and the appropriation of money for their construction another, but Mr. Franz, who championed the report in its entirety, especially favoring the two mill limit, stuck to his position and refused to change it, declaring that someone could offer an amendment if they wanted to get the proposition before the board. Supervisor Sparks offered the amendment, which was

seconded by Mr. Rowley of Niles, but Chairman Matthews ruled the amendment was out of order, and the vote on the adoption of the report in its entirety, as originally suggested and offered by Supervisor Franz stood 22 yes and 7 no. Supervisor Parks, Daigneau, Seel and Peters of Benton Harbor, Paul of Berrien, and Hess of Pipestone townships, were among those who voted against the proposition.

PROSECUTOR CALLED IN Prosecutor Andrews was called before the board and asked for an interpretation of the law relating to good roads. He read sections of the act, and then Supervisor Daigneau took up the fight to keep the recommendation of the commissioners from being adopted, asking for the division of the report and a separate vote taken as to whether one mill or two mills tax should be ordered spread on the tax rolls by the supervisors. Several of the supervisors took part in the argument. Chairman Rough of the road commissioners addressed the board and Supervisor Stratton took exception to the wording in the beginning of the report, suggesting its correction and it was referred back to the commissioners and the prosecuting attorney. When the words "proposed complete" were inserted the report was handed back to the board and the supervisors were called to order after a brief recess, in which there was a general discussion of the good roads subject. In a few minutes the battle was over, and the commissioners and good roads won out.

COMMISSIONERS GET MORE PAY Before an adjournment was taken Supervisor Clark offered a few remarks regarding the pay of the commissioners. "They are not getting pay enough," he declared. "They should be paid on a flat rate or by the day, including their expenses. I hardly know what kind of a motion to make, but in order to get it before the board I would make the motion that the commissioners receive \$5 per day and pay their own expenses."

This brought Supervisor Daigneau to his feet. He questioned the legality of the motion on the ground that the road commissioners are county officers and their salaries could not be changed during their term of office. Some one suggested that when the salary was fixed the commissioners were appointive, but now they are elective and the board had the right to determine the salaries paid. Supervisor Stratton took part in the discussion with the declaration that he did not think the commissioners were paid enough.

"You trust these men with the expenditure of thousands of dollars, yet you don't pay them wages. Give them a square deal, for they are fair and square men." Supervisor Stevens thought \$3.00 a day enough, but Mr. Cupp talked for the \$5.00, remarking that it was a shame to make the commissioners work for \$3.00 and pay their own expenses. Mr. Daigneau declared he believed \$5.00 a day was right and just as compensation, and if the rule of raising salaries did not apply in the case at issue, he would vote for that amount. Supervisor Franz took the floor and said that the \$3.00 a day wages was offered on his motion when the appointment of the commissioners first came before the board and that it was fixed at that sum to get things started. Without a dissenting vote the motion that the commissioner receive \$5.00 per day carried, and the board adjourned.

Supervisors Hear Report of Finance Committee and Adjourns

BUY FLAG FOR CO. FARM

County School Examiner Adams Re-elected and Report of Drain Commissioner Accepted

Just before the noon hour Saturday the board of supervisors concluded their labors and took an adjournment until January 8, 1912. The session cost \$596.04. The most important matter to come up Saturday morning was the report of the finance committee which was adopted by the unanimous vote of the board.

It was not necessary to have the board of equalization make a report at the session just closed as that was completed and accepted at the last session in order to have Berrien county make a report to the state tax commission. That tax body boosted Berrien several million in valuation and according to the report of the finance committee the new valuation in the state boosts the county's share of the commonwealth's taxes, which is higher than ever known before.

Besides allowing the usual grist of claims County Clerk Clark was allowed \$25 a month for hiring a deputy clerk. At the session Friday afternoon the report of Drain Commissioner Heyn was accepted and adopted, and a suitable flag was ordered purchased for the county poor farm. Mr. Adams of Millburg was elected school examiner without a dissenting vote, while the request of Supervisor Avery for an appropriation for the Benton Harbor-St. Joseph Fair and Driving association was laid on the table. The session was uneventful outside of the fight over the adoption of the report of the good roads commissioners.

HAPPY RESULTS

Have Made Many Buchanan Residents Enthusiastic

No wonder scores of Buchanan citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Buchanan by Doan's Kidney Pills.

Mrs. Truman B. Jadwin, Clark and Alexander streets, Buchanan, Mich., says: "Doan's Kidney Pills have brought such good results in my case that I am justified in recommending them. For years I had attacks of kidney trouble and I suffered a great deal from a dull, heavy ache across the small of my back. My greatest difficulty however, was inflammation of the bladder and I was unable to get relief. A short time ago my attention was called to Doan's Kidney Pills and I procured a box at Brodriek's drug store. Their use brought me prompt relief and I have taken them off and on since then with satisfactory results." For sale by all dealers. Price 50 cents.
