### THE HOBSON BANQUET PROVES GREAT SUCCESS

Fine Service, Music, Flowers, Speechmaking and Spirit of Good Fellowship Make Affair One Long to Be Remembered.

#### HOBSON EPIGRAMS.

Get busy.  
Most important is man and character.  
The greatest thing in the world is character.  
By using home capital men are developed.  
A successful city must be noted for its "tone" i. e. high standards.

The banquet given at Hotel Lee last Saturday night by the Business Men's association, in honor of Capt. Hobson, was one of the finest functions ever held in Buchanan. About 75 tickets had been sold and the attendance was large. The dining room was appropriately decorated for the occasion, chrysanthemums being in evidence in profusion, while there was a carnation at every plate, as well as a neat, souvenir menu card. Prof. Willis' orchestra caused the air to fairly blossom with melody while the feasting was in progress, and Miss Host Stutske proved herself a decidedly capable caterer. The bill of fare was all that could be desired and the service was fine.

W. A. Palmer, president of the Business Men's association, introduced Postmaster Worthington, who presided as toastmaster, and he in turn introduced Capt. Hobson, who responded to the toast "Town Boosting."

In introducing the speaker, Mr. Worthington in his remarks, which were of his usual pointed, spicy variety, reminded the audience that although the senior Hobson had been a confederate soldier the son was a loyal supporter of the union, a fact which he demonstrated to the satisfaction of everybody in Santiago Harbor. The father had fought for what he believed to be right, but he had done a far greater thing when he instilled into the mind of the son that loyalty and high regard for principle, that patriotism which had manifested itself so frequently during his career.

In his response the Captain said that one need not go back to the Spanish war to learn that the South had laid aside her old delusion or to obtain proof that the two sections are no longer divided in sentiment. Proof of the close relation of the two sections could be obtained on every hand in the South today; that the people of the South needed the people of the North and the people of the North needed the people of the South, that they were, indeed, brothers.

Then taking up his subject, Capt. Hobson, in the course of his remarks, said:

"Boosting may be divided into boosting for business, and boosting for citizenship. The question of boosting for business depends in large measure upon the location of the town particularly with reference to the raw materials of manufacturing, the power employed for manufacturing and the facilities for transportation to markets. In the matter of raw materials, of course the great staples are iron, cotton and food products. And the materials for power are coal and water power. The question of bringing the two together, the raw material and power, will decide, other things being equal, the development of manufacturing. The cheapest and greatest source of power is water power, and the trend of modern manufacturing is to locate the factory within reasonable distance of water power. In this respect, your town of Buchanan enjoys exceptional advantage. Furthermore, the various raw materials, perhaps with the exception of cotton, are within easy reach provided reasonable rates of railway transportation can be procured.

"Buchanan ought to be able permanently to have the advantage of lake rates for bringing in her raw material and sending her finished products to market, being advantageously located with regard to the

markets of the middle west, such as Detroit, Toledo, Grand Rapids, and especially Chicago. If I were permitted to make a suggestion, it would be that this community co-operate with other communities to secure interurban electric traction and also north and south railroad facilities.

"I see no reason why Buchanan should not also make a good race for the jobbing business and general distribution for the section round about.

"The second part of boosting, to which I referred at the outset, is the more important of the two, in my judgment, and the one which has been largely neglected, in most cases of town and city boosting; viz., the production and development of men and women, who after all constitute the greatest of all finished products.

"If I were permitted to make a special recommendation to Buchanan it would be, make it a town that a father and a mother of a family would choose of all the towns in this section in which to rear their children. To do this the first question asked would be, what kind of schools does the town have? Buchanan should never stop in improving its schools, both as to the equipment and the ability of teachers, and as far as practicable, the combination of practical instruction in vocational matters, in citizenship, in home economics, as well as in ordinary grammar and literary and elementary mathematical studies. These studies, which I have mentioned constitute the weakest link in American civilization, and there is an unlimited field for a town like Buchanan to make a reputation and become a great center of education for those whose children cannot be sent to college.

Next after the question of schools comes the question of churches. And in the case of both schools and churches consolidation and concentration are most important factors, so that the standard can be practically raised.

"Next after these come public utilities, foremost among which is the water supply, because upon it largely depends the average condition of health year in and year out. This should include not only the supply proper, but also the sewerage necessary for the full utilization of the water supply. Following close upon the water supply is the question of lighting, not only for streets, but cheap light for homes and stores and shops. In this regard evidently Buchanan has unusual advantages.

"Finally, let me urge upon the citizens the need of thorough co-operation of all the citizens of Buchanan and the surrounding country. In the last analysis the development of your town must rest upon your citizens themselves, and only through united and harmonious effort can they obtain the highest results."

"I wish to express my appreciation for the courtesies extended me, my pleasure at being here tonight and to wish you the highest success in the important undertaking of boosting your town.

#### SINGS NEW SONG.

Upon the conclusion of Capt. Hobson's remarks, H. A. Lauch was called upon to sing "The Aviator's Serenade," a new song written by Prof. Alvin Willis, and it is putting it lightly to say that the song was beautifully rendered, Mr. Lauch having a tenor voice of fine quality.

#### TO HOLD FORTNIGHTLY MEETINGS.

Mr. Palmer next took the floor and referred to the advisability of holding regular fortnightly meetings of the association during the winter months to give certain matters of public concern the attention they deserve. For instance, Mr. Palmer referred to the proposed building of good roads under the county system, wherein the county commissioners have recommended that this township have half a mile of roads the first year, whereas certain other townships that do not pay half

O turk, you who strutted the summer away.  
Abundant attention you're getting today,  
We praise you beyond all the bird or fowl kind;  
Our feelings to you are with favor inclined.  
We thank, too, give for you, O creature of pride,  
And all the fruits of the season beside.  
Though slighted you were, in the days that are past,  
Attention long due you are getting at last.

—Arthur J. Burdick, in Sunset Magazine.

**T**HANKSGIVING. IF YOU are grateful, say so. Thanksgiving is only half-thankingsgiving till it blossoms into expression. Learn a lesson from the noble-hearted Indian, in whose village the missionary, passing through, had left a few pages of the gospel in the Indian tongue. Our Indian read and rejoiced. Measuring the missionary's footprint, he fitted it with magnificent moccasins, and traveled 200 miles to give them to the missionary as an expression of his gratitude. Thus the missionary was enriched by the present, but the Indian was enriched by the thanksgiving.

The best thanksgiving is a happy heart. Blossoms mean nothing on a dead stick. Once when the czar visited Paris the ingenious French, it being winter, fastened to the bare boughs of the trees innumerable paper flowers, very pretty as a spectacle, but very unworthy as a symbol, since they were false. Our praise will be quite valueless unless it is rooted in the daily life.

Train yourself to be grateful for the common blessings. There had been a great cotton famine in Lancashire, England. For lack of material to work upon, the mills had been idle for months, and there was great distress among the operatives. At last came the first wagon-load of cotton,

as much in the way of taxes as does Buchanan township, are to receive two or three times as much in the way of good roads.

A rising vote was called for on the proposition of holding regular semi-monthly meetings, and it was unanimously decided to do so. Accordingly, the first of these meetings will be held Friday evening, Nov. 16.

#### GOOD STORY TELLERS.

Jack Bishop, a real artist in the entertainment line, was called upon to tell one or two of the many good stories he can be depended upon to have in stock at any old time, and, as usual, none of his hearers were disappointed.

M. L. Hanlin, who, in addition to his many sterling qualities, is a real humorist, was next called upon, and for a few minutes mirth was unrestrained.

The culinary service, the music, the speechmaking, the flowers and the spirit of good fellowship which prevailed made the affair one that will long be remembered. It was a great success and the committee which prepared the program and made the arrangements are to be congratulated.

the earnest of returning opportunity to labor. With what new eyes did the people look upon that commonplace material! They met the wagon in an exultant procession. They hugged the bales. At last, moved by a common impulse, they broke out in the noble hymn, "Praise God, from whom all blessings flow." There are in every life a thousand blessings, now little noticed at all, of which if we were deprived, their return would be welcomed with equal transports.

But the going does not excuse us from the sending any more than sending excuses us from going. If giving still went by the rule of the tenth, as in the scriptural days, then ten average Christians could anywhere constitute themselves into a church and support a pastor; and twenty could support both a pastor and a missionary.

No work is done at its best until it is done in an atmosphere of thanksgiving. Beethoven understood this. He had his piano placed in the middle of a field, and there, under the smiling sky, with birds singing around him, flowers shining and grain glistening in the sun, the musician composed some of his great oratorios. Few of us can take our work into the fields, though all of us would carry lighter hearts if we would live more out of doors; but we can all of us surround our work with cheery atmosphere which our Father has breathed into all his works.

### NO LACK OF WITNESSES

#### Half a Hundred Will Swear Man of Mystery is Kimmel

The taking of depositions to be used on the trial of the Kimmel insurance case at St. Louis next month will begin at the office of N. H. Bacon in Niles on Nov. 13.

Attorney O'Bryan of the New York Life Ins. Co. and Fred Bacon of St. Louis Mo., attorney for Mrs. Bonslett have reached an agreement on that point.

The deposition will likely include those of many Niles people who are willing to take oath to their belief that this man is George A. Kimmel.

Atty. O'Bryan stated while here that he would be able to produce the evidence of at least fifty persons in Niles who will swear this man is Kimmel.

### HOW O'BRIEN JOINED THE LODGE

Composed for, and read at an I. O. O. F. banquet, at Palmer, Illinois, March 1910, by Charles A. Shook.

O'Brien was an Irishman,  
Fresh from the Emerald Isle,  
An unsuspecting Pat was he  
Without a bit of guile.  
And when he reached America  
And couldn't get away,  
Because his pocket-book was flat  
He concluded he would "shut."

Now in the town where Patsy lived  
There was an Order fine  
And Patsy's friends invited him  
To ride the goat and join.  
They told him of the benefits  
That come to one and all  
By belonging to the Order  
When hard luck does them befall

So Patsy thought the matter over  
And then to Biddy wrote:  
"Fifteen dollars, Biddy dear,  
I sure can ride the goat."  
But Biddy sent her answer back  
From her cabin near the bog,  
"Ye'd better save yer money, Pat,  
Or yez may ride the hog."

But the friends of Pat prevailed on him  
And finally he did yield.  
He sent his application in  
And then his doom was sealed.  
For when the lodge considered it  
They decided by their vote  
That at the next lodge meeting  
Pat O'Brien should ride the goat.

The meeting came and Pat was there  
Dressed in his Sunday clothes,  
They got him in the ante-room  
And then his tears arose.  
For they told him of the fearful things  
That he must undergo  
Before he reached the other end  
Of the road to Jericho.

And by the time that they got through  
Poor Pat was pale with fear.  
He wished almost a hundred times  
That his Biddy wife was near  
To protect him from the awful things  
That he felt sure would come  
Before he took the last degree  
As a duly reached his home.

Well, the time soon came for to proceed  
With the mysteries profound;  
They grasped poor Pat with an iron grip  
And then his arms they bound.  
They then dashed salt upon his face  
And tied him to the stake  
And threw a hatchet at his head  
Until his heart did quake

They next brought in a cross-cut saw  
And cutting away they went  
To the tune of "Johnnie comes marching home"  
They took him for a ride.  
Around the room, full twenty times,  
With measured tread and slow,  
While Patrick asked a hundred times  
How much farther he had to go.

But the mysteries were not yet complete  
They only had begun;  
So the members stood up in two lines  
And the gauntlet made him run.  
They then applied a curry-comb  
Upon his naked skin  
A ceremony most profound  
To work the secrets in.

They then brought out the billy-goat  
And turned him loose on Pat.  
He bunted him around the room  
But not content with that  
They took him out into the hall  
And, when they got his dues,  
They threw around his Irish neck  
A piece of hempen noose.

"Murder," cried Pat, "have mercy, please,  
What d'ye intend to do?  
To strangle me up like a criminal?  
What have I done to you?"  
"Be still, frail man, for thou must die,"  
The Conductor gravely said.  
"Proceed with the sacred mysteries  
And hang him till he dead."

"Mercy, Mercy, Oh Virgin hear!  
Have mercy on me now.  
For Biddy's dependent on this lad,  
Six sheepskins and a cow."  
But their ears were deaf to his plaintive cry  
And to the gibbet they dragged him forth,  
While Pat made up his mind that he  
Had little time on earth.

They stood him on the gibbet's trap  
And then in solemn tone  
The Conductor told him to confess  
The wrongs that he had done.  
Pat tried to tell but was cut short  
For just as quick as flash  
The door fell through and he went down  
With an unexpected splash.

"Help, mercy show, they're drownin' me!  
Have mercy on me soul!  
I'll never join another lodge.  
If I get through this whole."  
And craved with fear and blind with rage  
And wet as a drowned rat,  
He again appeared in the ante-room  
A sad but a wiser Pat.

The next day Patsy set him down  
And to his Biddy wrote:  
"Begorra, Biddy, I've finished it,  
Fer I've rid the goat.  
But yez may die in poverty  
In yer cabin near the bog;  
I'll never ride the goat again,  
I'd rather ride the hog."

### GRANTS TWO DECREES

Judge Coolidge has granted two decrees of divorce.

Mary P. Cooper of St. Joseph, secured divorce from James Cooper on grounds of non-support and extreme cruelty.

A decree is also given to Effie J. Longfellow vs. Albert M. Longfellow. The court awards the complainant alimony of \$8 per month, a solicitor's fee of \$50 and a lot in Three Oaks. She is also given custody of the minor children.

### TO ORGANIZE A GOOD ROADS BOOSTING CLUB

Scope of Organization to Be Wide—Meeting to Be Held at Common Council Chamber Tomorrow, Friday Night, at 7:30 O'clock.

#### NOW OCCUPY NEW MARKET

Sands & Merson Have One of The Best Equipped Shops in The County

Sands & Merson have removed their market from the old stand on Front street to the handsome new concrete block building C. B. Treat erected for them on Day's avenue. This building is 20x30 feet with a

twelve-foot ceiling, with basement with concrete floor, and there is a two-story concrete smokehouse in the rear. Beautiful electrical fixtures have been installed and the shop is operated electrically, a three-horse power electric motor being connected

DANIEL MERSON

with a No. 42 Enterprise chopper and other machines.

New pickle-plated steel racks are in evidence, and everything is bright and clean. There are fine plate glass display windows in which are a pyramid of cans the shiny freshness of which suggest to the fancy their appetizing contents.

Indeed, the new market of Sands & Merson is one of the best equipped, most sanitary and up-to-date markets in the county. The firm does its own killing, makes its own sausage, which has more than a local reputation, and renders its own lard, which thus insures to its customers the best and choicest goods.

#### TRAVELING MEN PREDICT IMMENSE HOLIDAY TRADE

Commercial travelers, who find their way into every nook and corner of the state and who perhaps are better able to judge the business pulse of Michigan than any other class of business men, are free in their predictions that the business of the coming season will equal that of a year ago if not surpass it.

For the last two weeks the travelers have been carrying their grips filled with samples of holiday goods and assert that the advance orders they have taken may be accepted as an indication of an excellent Christmas trade.

The travelers, without exception, point to full order books as proof of a prosperous Christmas season, and many of them predict that the receipts this year will be larger than any previous year.

At a meeting of local good roads advocates held here last Monday evening, it was decided to organize a good roads boosting club, with a view to stirring up a spirit of co-operation and enterprise on the part of townspeople and farmers to the end that all may be benefited by the movement.

W. A. Palmer presided at the meeting, and a membership committee of ten was named. It was decided to hold the meeting at which the organization is to be perfected at the council chamber here tomorrow, Friday, evening at 7:30 o'clock.

The promoters realize the necessity of businesslike action and organized effort if the necessary instrumentalities are to be provided for securing good roads under the county system in proportion to the amount of taxes we pay, and for maintaining the roads after they are procured. It is realized that because of our lack of central authority and direction this end of the county cannot get the results that could be obtained through an effective organization. We have all of us observed the considerable amounts of money expended in the construction of first-class highways here and there, which rapidly disintegrate and go to pieces because there is no one to look after them every day in the year and because of the system of divided authority.

There are many things that can be accomplished by such an organization, and all who are interested in the subject of good roads are invited to attend the meeting and participate in the election of officers.

#### ADVOCATE OF GOOD ROADS.

In the house of representatives Aug. 19, Hon. William P. Borland, of Missouri, said:

"Mr. Speaker—The most important matter now before the people of this country is the subject of good roads. Its importance lies in the direct bearing it has upon the social and economic welfare of the whole people. It is at the base of the great problem of transportation, that problem which is vital to the interests of all classes—producers, dealers and consumers.

"The rural highway leads from every farm to every market, and over it passes annually the food supplies of the nation. The condition of our rural highways is not the sole concern of the man who lives upon them, but is the concern of all. We should have the finest roads in this country that wise expenditure and trained engineering skill can produce. They will prove a source of national wealth, a bond of national unity, and a crown of social and intellectual advancement upon the ruddy brow of rural life.

"I strongly favor national aid to good roads. Wise conversation means use; the highest possible use of our national advantages for the benefit of all the people."

### NEW COMPANY IS INCORPORATED

The Simplex Ladder company of Buchanan, has filed articles of association with County Clerk Clark and the capital stock is fixed at \$6,000 with the par value of each share \$10.

There are 600 shares of stock and \$6,000 worth has been subscribed. Of this amount \$3,000 has been paid in as follows, \$1,850 in cash and \$1,150 in other property. The stockholders are J. Clevenger, 150 shares; Clyde Marble, 150; William Powers, 150, and G. E. Smith, 150.

### BOYLE ESTATE TO HAVE PUBLIC SALE

Items Include Many Fine Horses, 1,000 Bushels of Corn, Etc.

On Thursday, Nov. 16, will take place one of the biggest auction sales of stock, farm implements, etc., that has been advertised hereabouts so far this season.

Messrs Ira Boyle and Melvin Boyle, executors of the estate of George Boyle, deceased, announce that they will sell at public sale at the George Boyle homestead on the day above mentioned, about 1,000 bushels of corn, about 25 tons of hay, 11 head of splendid horses, such as the Boyle farm is famous for; 11 head of high grade cattle, 13 hogs, sheep, farm implements, etc. H. A. Hathaway will cry the sale, for full particulars concerning which see display advertisement elsewhere in this paper.

#### "30" Club.

The "30" club spent Wednesday, Nov. 8, in studying Italy. Response to roll call, "Noted Italians." Mrs. Pasco had charge of the geography lesson. Mrs. Roe presented a very able paper on "The Vatican and Personal Life of the Pope." "Ancient Rome, its Life and Customs," was prepared by Mrs. Smith and read by Mrs. Peck. Miss Howard, of Youngstown, Ohio, pleased the ladies with two vocal numbers, "Message of the Violets" and "Slumber Boat Song." A paper on "Art Among the Indians," left from last week, was read by Mrs. East.

The meeting was held with Mrs. Sanders, and after singing the Italian hymn, adjourned to meet with Mrs. Peck Nov. 15.

### THREE OAKS YOUNG MAN LOST; REWARD OFFERED

A reward of \$15 has been offered for information as to the location or proof of the death of Fred E. Witt oldest son of Mr. and Mrs. August Witt of Three Oaks. The young man, who is about 30 years of age, left home for the western states over seven years ago but his parents received a letter every two weeks up to about sixteen months ago, since which time his whereabouts have been a mystery. The missing young man was a member of the I. O. O. F. and Modern Maccabees.

Why not get all the news? The Record will meet your wishes.

Niles' Mayor Issues Order to Chief of Police.

Niles, Mich., Nov. 6, 1911.  
George Francis,  
Chief of Police,  
Niles, Michigan.

Dear Sir:

You will please take notice that Section 10 of "An Ordinance of Public Peace and Order" as follows:

No person shall play for money or other valuable thing with cards, dice, tables, wheels of fortune, billiards, nine or ten pins, or other instruments or devices whatsoever in any place, public or private, in said city, nor keep or let any building or instrument used for gaming purposes; and no person shall keep, maintain, direct or manage any lottery for the drawing or disposing of money or property whatsoever.

From and after receipt of this letter, you will please see that the provisions of the above ordinance are strictly enforced and that gambling and gaming of all kinds are absolutely prohibited.

Another Horse Killed by Fiend.  
(Eau Claire Journal.)  
Another horse has been shot and

killed by some fiend, believed to be actuated by a desire to get even.

This time the outrage occurred in Bainbridge township late last week, and Charles Smith, a well known farmer, and brother of Philip Smith, of North Pipestone, is the loser of a valuable animal.

The horse at first acted sick and grew gradually worse until death resulted. At first it was thought that poison had been used but the veterinarian called to investigate found that the animal had been shot with a 22-calibre cartridge. The case has been kept quiet, awaiting developments, and so far officers have not been notified.

There are well founded suspicions

against a party known to have made threats, and something may soon happen.

This fiendish act calls to mind a similar case which happened here when Arthur Dean's horse was shot.

#### Dowagiac Herald Items

Mark Oppenheim has gone to Detroit, where he will join his wife and go on to New York City to attend the wedding of a niece, the daughter of a leading New York manufacturer.

Hon. S. W. Clawson of Pipestone, had an acre of potatoes that yielded 250 bushels of big ones. He admitted that he dug these potatoes with a crowbar, there being no other way to get them out of the ground, except

with dynamite, and he did not like to use that, as the ground was left in bad shape at best.

Isaac Tinker has a Bible that is over 100 years old, and may be nearly two hundred. It was originally bound in leather, and 75 years ago it was rebound, a strip of calf skin being placed around the back and sewed on with a leather string. The letters in this Bible are of the style in use in the 18th century. Mr. Tinker's grandfather owned this Bible and that is as far back as he knows of its history. One owner has signed his name in it, and the date—1815. He also has an old English dictionary, fully as old, and quite as much a curiosity.

### CHANCE FOR BRIGHT BOY

E. L. Hamilton, Representative in Congress from this district, has been requested by the Navy department to nominate a midshipman to Annapolis, to enter the academy not later than June, 1912.

To enable him to make selection fairly among applicants for the appointment, without reference to personal or political considerations, Mr. Hamilton will hold a preliminary, competitive examination at Bulard's hall, Niles, Mich., on Tuesday, Nov. 28, 1911, beginning at nine o'clock.

This examination will be conducted by a board of three mental examiners, and a physician will be in attendance to examine applicants as to their physical qualifications.

The mental examination will include the branches ordinarily taught in grades below the eleventh grade. The nominee at the time of admission must be not less than 16 nor more than 20 years of age.

Applicants who desire further information concerning the preliminary examination to which this notice refers or concerning the examinations for admission to the academy should address E. L. Hamilton, M. C., Niles, Mich.

### The Culture Club

The Culture club met Friday at the home of Anna Plaister Montross and the program was given as follows:

Roll call, "Japanese Proverbs," "Army and Navy of Japan" was given by Neva T. Janasch; "Religion and Government" by Maude Terrell Wentland; "City of Yokohama" by May Rose Simmons; "The Word Study" by Helen Griffith Hall.

The meeting this week will be held with Mrs. Montross, when she will review the book "Mary Cary."

### School Notes

Professor William Oches attended the convention at Detroit Thursday and Friday of last week.

The school is contemplating holding a school in the near future.

During the absence of their teacher last week the chemistry class worked back experiments.

The zoology class is still having spelling in their work.

## The Spirit of Thanksgiving

Thanksgiving is a day set out by itself on the calendar. There is no other day with so many delightful associations and tender memories, no day upon which the heart so spontaneously pours out its grateful tribute to the Father above for all his goodness through the year. And this applies equally to ourselves as a nation, as communities and as individuals. For peace within our borders, for generous harvests for the health and welfare of our communities, we owe to God a debt of love and gratitude which finds expression in prayer, praise and the festivities appropriate to the annual festival of Thanksgiving. We are usually so much engrossed with the active business of life as a nation that we leave too little time for reflection on the divine goodness; yet every day we are surrounded by blessings. Sleeping and waking, on the farm, in the store, the office, the workshop, we are still the objects of his wondrous bounty and care. Whatever reverses we encounter, he enables us to overcome them. So, while the past year has had its sorrows, we feel that we are still God's debtors in thanks for multitudinous blessings. It is show our gratitude for all of these mercies by reaching out a helping hand to others who have been less fortunate than ourselves. Remember the poor at Thanksgiving—he sick, the destitute, the hungry, the unemployed. In every community here are those to whom a kindly word or a generous hospitality would bring a real touch of the spirit of the festival. Pass on your blessings. By so doing, you will make your own heart the lighter, your own home the brighter and your own Thanksgiving table more enjoyable to all who sit around it.

### Thank Him for All.

"Giving thanks for all things unto God."—Eph. v. 20.

Thanksgiving is the mark of a truly religious man. If we are always begging God for his mercies without expressing to him our sincere gratitude, we become selfish in our demands. God delights to impart his mercies to us, but he also takes pleasure in our gratitude to him for his benefits. Only an appreciative heart is able to fully enjoy God's unending goodness. It is certain that the more we try to praise, the more we will see how our path and our daily way are beset with mercies, and that the God of love is ever watching to do us good.

### Champ Clark Needs a Muzzle.

In an address at Fremont, Neb., Speaker Clark said that nine-tenths of the people of the United States were in favor of the annexation of Canada and that he didn't care who heard him say it.

This statement is particularly timeless, in view of the fact that the recent Canadian elections show that our Canadian cousins are extremely sensitive on the subject of annexation to the United States.

It is particularly untrue. The plain fact is that nine-tenths of the people of the United States care nothing about the annexation of Canada and seldom give the subject a thought.

It is particularly indiscreet. The Speaker of the House of Representatives is one of the highest officers in the government. What he says carries a certain official weight in foreign countries. He should therefore be careful in all utterances bearing on international relations.

Imagine President Taft making such a statement. Its indiscretion would be at once apparent. Imagine any member of the Cabinet doing it! He would justly be subject to official censure. Imagine an American Ambassador or Minister proclaiming that opinion. He could not be too quickly recalled.

Speaker Clark forgets that the Speakership is larger than he. He does not realize that when Champ Clark speaks, it is the Speaker of the House who is heard. He does not appreciate the fact that his official position imposes the official obligation to consider the feelings of nations with which we are on friendly terms.

In fine, it would be impossible to find a better example of the wrong man saying the wrong thing at the wrong time than that furnished at Fremont, Neb., by the Speaker of the House.—Ex.

Mr. Morgan asks whether it is possible to unscramble eggs. If any of them came from the cold storage warehouse perhaps it is better if they can't be.

Can a woman collect alimony from two divorced husbands at the same time? It's up to a New York court. So far she hasn't been able to make a go of it.

A Kansas professor is said to be sitting up nights grafting a law to compel all men to wear whiskers. He is trying to get it through before the women are allowed to vote.

Halsey Corwin of New York, having spent an \$800,000 fortune in short order, now has a job at \$12 a week. "Never so happy in my life before," he says. Congratulations!

Congressman Littleton of New York, a member of the special congressional committee investigating the steel trust, has made the first public appeal for the repeal of the Sherman anti-trust law. Littleton is a Democrat and hails from New York.

Arkansas City Traveler: The question "is it Kimmel or is it White," is still unanswered. Even if the courts say it is Kimmel the question will not be settled. A large number of people here are coming to the belief that the man at Niles is White the railroad man who worked here years ago. The picture of the man taken while in prison resembles White very much. However the picture of the man at Niles, to us, does not resemble the picture to any great extent of the picture of the same man, said to have been White in Auburn.

## START CRUSADE OF EARLY BUYING

Christmas Is Less Than Two Months Away—Buy Early.

All throughout the Christmas world, the habit of exchanging Christmas gifts is growing each year. It is a pretty custom and should be encouraged. In no country is the custom followed so much as in America. This year bids fair to show the largest expenditure of money for holiday gifts of any year in history. In all of the large cities the merchants are beginning to advertise their Christmas goods early so that all customers may be satisfied. The habit of waiting until a day or two before the festive time to select gifts, should be abolished. Early buying clubs are being organized in many places, and in every place merchants and clerks will appreciate the favor if selections are made early.

The Record is making an effort this year to fill more Christmas wants than ever before. Our columns will contain more holiday advertisements than ever and will help you to make selections. But you could make no better Christmas present than to send your friends or relatives The Record for a year.

A handsome illustrated Xmas edition will be issued from this office Thursday, Dec. 14.

## A THOROUGH TEST

One That Will Convince The Most Skeptical Buchanan Reader

Cures that last are cures that count. Doan's Kidney Pills make thorough cures.

The following case is typical. Buchanan residents should be convinced.

The testimony is confirmed—the cure lasted.

Proof like this cannot be ignored. Mrs. T. B. Jadin, 39 Alexander St., Buchanan, Mich., says: "I have taken Doan's Kidney Pills and willingly recommend them. For years I was subject to attacks of kidney trouble and I was annoyed by a dull, heavy ache across the small of my back. My bladder was also badly inflamed. Some time ago I had my attention called to Doan's Kidney Pills, and getting a supply, I began their use. They proved very beneficial and it was not long before I was restored to good health."

The above statement was given November 1908 and when Mrs. Jadin was interviewed on October 11, 1911, she said: "I think just as highly of Doan's Kidney Pills as ever and willingly confirm my former endorsement of them. I have always found that this remedy gives satisfactory results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## BUCHANAN BOYS IN COURT

Two Youths Who Broke Into an Office Building, Given Hearing

The cases of Elmer Moyer and George Eisenhart of this place who raided Geo. H. Black's office building were heard by Judge Barr in the juvenile court at St. Joseph, last Thursday. The Moyer boy is under the age of 10 years, so that no disposition could be made of him other than to release him on good behavior, and oblige his parents to settle for the damage he has committed.

After hearing the Eisenhart case, the court entered an order committing the boy to the Industrial Home at Lansing, but provided that the boy should be made a ward of the court and should be allowed to return to his home during good behavior. If at any time he violates the law or occasions trouble of any sort he will be taken to the industrial home without further hearings.

## A GREAT DISCOVERY

Certain Ingredients That Really Promote Hair Growth When Properly Combined

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.

These ingredients in proper combination, with alcohol added as a stimulant and for its well-defined nourishing properties, perfect perhaps the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely valuable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable.

We want every one troubled with scalp disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to

the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print this guarantee on every bottle. It has effected a positive cure in 93 per cent of cases where put to a practical test.

Rexall "93" Hair Tonic is entirely unlike, and we think, in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. Remember, you can obtain Rexall Remedies in Buchanan only at our store—The Rexall Store. I. L. H. Dodd.

William and Sol Rough took possession of the American House which they have purchased of Mr. Cotton, on June 1. We understand they contemplate erecting a fine brick hotel on the site of the old building.

ber 1, 1909. They have two children: Clara DeWitt of Niles, also wants her liberty from matrimonial cares. She declares her husband, Wesley DeWitt, to whom she was married on February 18, 1897, thinks more of following the theatrical business and making a living for himself, than he does for his wife and children. She alleges that he is well able to work but that she has been compelled to take in roomers in order to provide a living for the family. The couple lived together until September 15, 1911. She declares non-support and asks custody of the two minor children.

### PROBATE COURT

In the matter of the estate of John B. Cochran, late of Niles, objections were filed by Wm. Cochran, nephew and heir at law of deceased, being represented by Judge O. W. Coolidge and Chas. E. White. The proponent, Samuel C. Thompson, named as executor in the will, was represented by N. H. Bacon. The only objection is to the form of the will which provides that the property should be divided among certain persons who were to be named in a paper afterwards to be attached to the will which was done. The entire objection is to the separate piece of paper which is attached in all of its possible phases by the nephew's attorneys. Further hearing on the case was adjourned to Tuesday, Nov. 14.

In the matter of the estate of Jacob Arndt, late of Bainbridge, the usual objections were filed, it being alleged that the deceased was incompetent and unduly influenced in making his will. Cady & Andrews represented the proponent and F. L. Hammond the contestant. Further hearing was adjourned to Wednesday, Nov. 15.

A petition was filed in the Probate court by Matilda Pooch of St. Joseph township asking that her husband, Chas. Pooch, be adjudged a spendthrift. The parties were present in person and after taking testimony of the wife and children and Pooch himself, Judge Barr adjudged him to be a spendthrift and his wife, Matilda Pooch, was appointed his guardian. It was shown that Pooch had been drunk 20 out of the 30 days during the month of October and had been confined in the county jail on such charges two times during the past two weeks.

Chas. H. Godfrey vs. Michigan Central Railroad Co. Suit commenced for \$500 damages for goods shipped to Atlanta, Tex., and Springfield, Mo., from Benton Harbor, a portion of which were wrongly routed, causing a larger freight bill than there should have been from which defendants suffered loss on goods.

Effe Allen of Benton Harbor, has commenced suit for divorce against her husband, John Allen, charging him with desertion and non-support. The couple were married January 5, 1905, and lived together until Septem-

## AVOID HARSH DRUGS

Many Cathartics Tend to Cause Injury to the Bowels

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall Orderlies. These are prompt, soothing and most effective in action: They are made of a recent medical discovery. Their principal ingredient is odorless, tasteless and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember, you can obtain them only at our store—The Rexall Store. I. L. H. Dodd.

# BE READY For The Winter Of Life Have Money In Our Bank

Copyright 1909, by C. E. Zimmerman Co.,—No. 49

It is not as easy to get a foothold in business or to own real estate as it was a generation or two ago. The easiest and surest way to be prepared for the winter of life is to put money in the bank. Money in the bank goes a long way towards insuring a happy Christmas and it always enables Santa Claus to visit your home. You can see examples every year at this time of unhappy families who have no bank account. Start your bank account at once and you will be prepared for this event in the future.

## Faint?

Have you weak heart, dizzy feelings, oppressed breathing after meals? Or do you experience pain over the heart, shortness of breath on going up stairs and the many distressing symptoms which indicate poor circulation and bad blood? A heart, tonic, blood and body-builder that has stood the test of over 40 years of cures is

**Dr. Pierce's Golden Medical Discovery**

The heart becomes regular as clock-work. The red blood corpuscles are increased in number—and the nerves in turn are well fed. The arteries are filled with good rich blood. That is why nervous debility, irritability, fainting spells, disappear and are overcome by this alternative extract of medicinal roots put up by Dr. Pierce without the use of alcohol. Ask your neighbor. Many have been cured of scrofulous conditions, ulcers, "fever-spots," white swellings, etc., by taking Dr. Pierce's Discovery. Just the refreshing and vitalizing tonic needed for excessive tissue waste, in convalescence from fevers or for run-down, anemic, thin-blooded people. Stick to this safe and sane remedy and refuse all "just as good" kinds offered by the dealer who is looking for a larger profit. Nothing will do you half as much good as Dr. Pierce's Golden Medical Discovery.

## COUNTRY CORRESPONDENCE

### BERRIEN SPRINGS

E. S. Pennell writes from New Smyrna, Florida, of digging a sweet potato in his garden that weighed 19 pounds measuring 38 inches around both ways, the largest ever seen there.

The Dr. Bullard farm of 100 acres has been sold to the Brady's, of the Twin Springs resort, who will improve it and make a large, fine summer resort of it.

Mrs. Richard A. Demont, whose husband was sheriff of the county many years ago, visited at the home of her brother, Wm. Wynn, last week. Her present home is in French Lick, Ind.

From the Era of Jan. 5, 1876: "A new era has dawned upon Berrien Springs, and the old croakers on the subject of removing the county seat are becoming quieted."

BOTTLE WITH A CREAM TAP

Device is Extremely Simple, Differing Only by Having Lateral Neck—Tube Worked Easily.

Milk Bottle With a Cream Tap.

from this defect is the purpose of recent patents here illustrated. The device is extremely simple, resembling in general outline the customary milk bottle, from which it differs by having a lateral neck formed about the point where the bottle reaches its largest diameter. Through this neck a curved tube of glass, paper or other suitable material is inserted, being free to slide in and out a certain distance, or to rotate about its axis. Both necks are closed with paper lids in the usual way. The operation of the device is so straightforward as to hardly require explanation. When it is desired to draw off the top layer of the cream the curved tube is turned with its inner end directed upward. If cream from a lower layer is required, the tube is pushed in as far as it will go, to protect it against injury.

### APPLYING LIME WITH DRILL

Success Made by Removing Rubber Pipes or Hose and Cast-Iron Boxes—Gauge Regulates.

Formerly my neighbors, as well as I, have had trouble with the lime clogging the rubber pipes or hose, and even the cast-iron boxes or cups to which the rubber hose is attached. So this year we removed the whole, rubbers, cast-iron boxes or cups and all, and let the lime pour down in small open streams from each opening as the flat disks pushed it out of the fertilizer box. It is a perfect success, and the gauge can be set to spread from 500 to 900 pounds per acre. The lime drops right down around the roots and is partly covered by them. Then we harrow the land crosswise, then drill in the wheat with 250 pounds of 14 per cent. phosphate per acre, put alike both on the four acres that have been limed and the four acres that have not been limed. The experiment costs little besides the \$5.70 per ton that the lime costs, laid down at our station, and "I want to know, don't ye know," whether there is anything in lime for clay land like mine which is already quite rich from the glacial lime deposits?

### OLD LANDMARK DOOMED

Dilapidated Frame Block Adjoining Post Office to be Obliterated

The old weather beaten frame block adjoining the post office building on the west, is to be razed to the ground within 10 days. J. B. Alexander, of Milwaukee, who is the owner of the property, in question, has given Henry Blodgett the contract for tearing down and removing the ancient building, on the site of which Mr. Alexander expects to erect a fine modern mercantile brick block next spring.

Just when the one story frame block, which is to be demolished, was erected The Record has been unable to learn. Charles Snyder who came here in 1832, when the town consisted of a few scattered log cabins in the almost unbroken wilderness, does not recollect when the Alexander block was built, although he says it was many, many years ago, and Mrs. David Dutton, who has resided here since 1846, says that while her recollection of the old building is rather dim, she believes J. B. Alexander's father built it.

Mrs. Dutton, who attended school in the first school house built in Buchanan, has promised to write a reminiscent article for The Record's Christmas edition, and Mr. Snyder will do likewise.

### BUCHANAN BOYS

#### GET INTO TROUBLE

Charged With Robbing Sleeping Cars at Litchfield, Ill.

W. A. Palmer left yesterday for Hillsborough, Ill., to bring back a 15-year-old Buchanan boy, who left here early in October in company with a young man by the name of Zander, their destination being Rodgers, Texas. Upon their arrival at Litchfield Ill., they formed the acquaintance of a negro, and that same night three sleeping cars were robbed, the thieves cutting the screens from the windows and dragging the clothes of some of the passengers out of the cars. The next day the boys started for Rodgers, but were caught, and the 15-year-old boy was found to be wearing the trousers of one of the passengers who was robbed. Zander was induced by the police to make a fake confession to a robbery which was perpetrated at Savanna, Ill., as well as the Litchfield robbery, and was put on trial for the Savanna job, with the result that he was able to prove that he was in Buchanan when the robbery occurred. He was acquitted. The other boy was held, although he claimed it was the negro they met at Litchfield, who robbed the sleeping cars, and was indicted by the circuit court grand jury last Monday. However, he is to be released on bond and will be turned over as a ward to be looked after for a certain period by Mr. Palmer.

### CHAMBERS ATTACKS

#### MUTCHLER'S ENEMIES

Compares Men Who Sent Anonymous Card With Dogs.

A Des Moines newspaper says as follows under date of the 6th instant: Men who will send an anonymous post card to a minister because he drove them off the door step of the church when they were shooting craps there, are lower than a dog, according to C. E. Chambers, an evangelist of Ottumwa, Ia., who yesterday began a series of meetings at the Grant Park Church of Christ.

The remarks of Mr. Chambers were occasioned by a card received recently by the Rev. F. W. Mutchler, pastor of the church, who abruptly broke into a game of craps one Sunday morning some weeks ago.

The Rev. Mr. Mutchler was sent a card bearing this inscription: "They say the good die young; how in the hell did you slip through?" Mr. Chambers launched into his subject good and strong last night and derided the actions of the fellows who were responsible for the deed. He also went further in dealing with the wickedness of Des Moines. He rapped the Greater Des Moines committee and declared in its advertising of the city it did not mention what he called the hellishness of the city's saloons.

Nine adults went forward yesterday morning when the call for converts was given.

### ELECTION RETURNS

New York state, republican, with 11 republican, 10 democratic and one socialist mayor.

Tammany carries New York city, but Kings county (Brooklyn) is republican.

Earle, republican, mayor of Philadelphia.

Kentucky goes democratic and will send Ollie James to senate.

Massachusetts close, both Foss and Frothingham claiming governorship, but Foss wins.

Democratic mayors in Cleveland, Columbus and Cincinnati.

Rhode Island republican.

## Home Town Helps

### BOOST YOUR HOME TOWN

If It Is Good Enough to Live In It Is Good Enough to Say a Good Word For.

Every man ought to be a booster for his home town. If that place is good enough for him to stay in and as a place for him to make money, it ought to be good enough to say a good word about.

Too often we hear a dealer complain that the "old town is dead" and that it is the "knock" instead of getting under the foundation of the place and lifting it. It is the fellows who inform every visitor that they wish they were birds so that they could fly to other places more congenial.

What happens when these fellows do get enough money together to strike out to some other place? Do they forget their habits of depreciation? Not so you could notice it. They soon get to saying the same bad things about the new location and wish they were back where they came from.

There are thousands of towns in this grand old country of ours that are only waiting for the undertaker to get busy to recover from their stunted conditions and start to live again. It has been the "knockers" that have kept the towns down and driven the retail trade to the mall or order houses and the big cities.

When a visitor comes to town say all the good things you can about it. When a buyer wants anything do not send him to the city or county seat for it by not being stocked.

Be the first one to breathe life into the old town and see how quickly others will be taking longer breaths, too. Boost for the place where you live and do business. If you cannot boost, get out, and give someone a chance who will.—Farm Machinery.

### FLOWERS IN SCHOOL ROOM

Nature Never Fails to Awaken Interest and Enthusiasm of Young Children.

In some European countries, notably France and Belgium, flowers and plants have been made a conspicuous as well as an official feature of all schoolrooms. In the September issue of the Craftsman, a writer tells a great deal of the workings of some of the most notable of the schools. One teacher is quoted as saying: "We are counseled in our country schools to teach our children beauty in all its possible expressions, through books, pictures, sculpture; but I have found that my little pupils are neither old enough, advanced enough, nor alert enough to understand the masterpieces of great achievement. Most famous pictures and books have failed to interest them. On the other hand, I have found that nature never fails to awaken their enthusiasm. So we live and study close to her ample, kindly heart, and our lives are filled with the beauty that the greatest artists cannot quite achieve."

### The Clothes Peg Woman.

Women cynics complain men are more interested in thin, shapeless girls than they are in healthy, well-developed young women. They assert when men take brides they want the "clothes-peg women" rather than the women who undoubtedly are healthy and strong. They cannot understand why the spiritual quality and the mental equipment of women should count more than health and strength. In answer to those cynics, statistics are produced by both men and women to show that not even in the days of ancient Greece, when womanhood is supposed to have reached its perfection, were women so well developed and healthy as they are today. Dr. Sargent, the Harvard instructor of physical culture and one of the recognized authorities on physical development, has reached more nearly the ideal of perfection than at any other time in the history of the world. He insists while the statues of women that have come down to us from Greece may represent an almost perfect type of physical beauty, the sculptors who carved those statues were working in the ideal rather than in the real.

### Novel Way to Announce Engagement.

A novel scheme recently was used to announce the engagement of Faye Cleaver Bruen, of Oakland, Cal., to Richard Yates Hoffman, of Chicago, both of whom have many society friends in the states. Mrs. William Gould Bruen, mother of Miss Bruen, gave a dance in honor of her daughter and invited thirty young society persons of Oakland. Hoffman also was present. The initials of the dance numbers spelled Miss Bruen's and Hoffman's names, but that was not observed until after the announcement of the engagement was made in another way. As an extra dance was announced the guests gathered in a circle round a large tissue-paper bag suspended from the ceiling. Each person grasped a string and at a given signal pulled. Paper-mache cats jumped from the bag, and each had a card announcing the engagement. "The cat was let out of the bag" in a truly surprising way.

His Holiday.  
"This book tells of a noble knight who, for recreation, sallied into Morocco and captured a Day."  
"Yes? His recreation—taking a Day off?"

Paw's Geographical Intentions.  
"Johnny, where is the Panama canal to be cut?"  
"Paw says if he goes to congress the first cut will be in the appropriation for it."

## Furs in Great Variety of Styles

are being shown. Ladies', Misses and Children's Sets, Muffs and Neckpieces in all kinds of furs and styles.

Children's Sets from \$1.35 to \$6.50

Ladies' Fur Sets from \$4.85 to \$50.00

## ONE THOUSAND OVERCOATS TO CHOOSE FROM

THAT is the advantage you have in trading at Adler's, and it is an advantage worth mentioning—the small merchant in the small town does the best he can but his assortment of styles is necessarily so small that the chances are that you and your neighbor and your cousin will all be wearing the same kind of a suit or overcoat; good enough as to quality perhaps, but entirely lacking in individuality. You know how it is—and that is why you finally fall back to the old reliable blacks.

On the other hand in buying a garment at our store, selling as we do for fifty miles in every direction, there will be no other garment in your town or vicinity exactly like yours. Then there is the price to consider. The volume of our business is so large that our percentage of profits are much lower than those of the small merchant—consequently you save the difference.

We are after your patronage, Mr. Man, we deserve it—we offer very special bargains in all wool overcoats, medium and long ones, in all the new styles at \$15.

Other values ranging from \$10.00 to \$30.00.
