FIRE FIEND THREATENS ENTIRE BUSINESS SECTION

Blaze at Atlas Belting Company's Big Plant Luckily is Discovered While in its Incepiency.

At 6:30 o'clock Monday evening the whistle at the pumping station sounded the fire alarm, and the news soon spread that the plant of the Atlas Belting company, which is one of the largest factory buildings in town, was burning. The fire department promptly responded to the alarm and was soon at the scene of the fire, which by dint of hard work was confined to the roof of the boiler house in the rear of the main building. It was difficult to get at the blaze, but the firemen worked stubbornly for nearly an hour and prevented what might have proved the most disastrous conflagration the town has experienced in years.

The fire was discovered while still in its incepiency by Wm. Hamilton, the carpenter, who happened to be passing through the alley in the rear of the Atlas Belting company's plant, and he at once communicated the fact to Supt. Otto Malotke, who was in the Savoy restaurant at the time. Mr. Malotke rushed into the building and got busy with the company's line of hose, while others hurried to the engine house.

Defective brick work in the boiler, which was to have been repaired today, allowed the flames to shoot directly into the smokestack, instead of first passing through the flues of the boiler, with the result that the flooring of the second story, beneath which the smokestack passes, was heated to such an extent that it finally burst into flame.

The Atlas Belting company was organized in Chicago in 1900, and the plant was removed from Buffalo, N. Y., to Buchanan nearly six years ago. The head office of the company is in Chicago. H. M. Towar is president, and the superintendent of the local plant is Otto Malotke.

The company has several acres of floor space in its immense three-story factory building, which is of brick construction. The main building is 206x60 feet, while the wing is 80x60 feet. In this building they have turned out a 10-ply belt, 480 feet long and 42 inches wide.

DEATH TAKES B. C. LEE

Well Known Cigar Maker Passes to The Great Beyond

Byron C. Lee, the cigar maker, died at 9 o'clock last Monday evening of typhoid fever after an illness of about seven weeks. He was born at Pokagon, Cass county, this state, 37 years ago and acquired his trade in Dowagiac. Subsequently he was in the employ of George Eden, the well known Niles cigar maker, for four years, and came to Buchanan a year ago last fall and engaged in business for himself, his favorite brand, "The Buchanan Booster" having a wide sale here.

Mr. Lee was married Nov. 26, 1906, and leaves a widow, father and mother and two brothers. The remains were taken to the home of his parents in Dowagiac last evening and the funeral took place from the Catholic church there at 9 o'clock this morning.

During his brief residence in Buchanan, Mr. Lee made many warm friends who deplore his untimely taking off.

I will not pay bills contracted by my wife or any other party.

The Day of Thanksgiving By Kenneth Harris

Let us give thanks! Amen!
The season comes again
That ranks
Next to dear Christmas in our throbbing hearts—
Imparts
A glow of recollection fond and tender
And reunites the loved ones (more or less)
In thankfulness
And one grand, gorgeous, gormandizing bender.

Let us give thanks for the family life
Thanks that at least we are living,
Thanks for the turkey and thanks for the pie,
Thanks for the joys of Thanksgiving.

Let us give thanks,
We cranks,
For all the boons and blessings of the year
That fall, as thick as hops,
Upon our heads—if we could only know it
My recollection isn't very clear,
But there's the crops—
Bumper in most respects—Statistics
A yield
Unprecedented from the fruitful field;
Pumpkins glow golden by the rustling shocks,
Hogs are hog-fat,
And that
Is—in the common, truthful term—what knocks.
The bins and barns are busting,
Full is the farmer's cup,
And he is trusting
To get some of the interest paid up.

They are happy, and gay, are the farmers today
In the best of all possible humors,
If they have any luck they may get for their truck
Five per cent of the price to consumers.

Let us give thanks
That in the seas of troubles there were planks
To keep us all afloat
Some raft
Or boat
Or other craft
To justify the view of Mr. Tait
And lend a kind of verity
To his assurances of our prosperity.
There's Standard Oil,
Though not a hopeless wreck,
Without a wriggle in its scaly coil
Has got it in the neck.
And while there is divergent
Opinion
Respecting probabilities of the domination
Of the insurgent,
Still at some future day
We may
Take a good-histy hack at Schedule K.

Let's be thankful, my dear, on the whole, for the year
And not look with an aspect too critical
In the optimist's slight rays of rosy light
Shine athwart the horizon political.

Let us give thanks
That here and there we get some sorts and sizes
Of prizes
Among our blanks,
Some cheering specimens of ten cent pottery
In this life's lottery
If she we wooed is won
Let us be grateful.
If when our plea is done
We get the fateful
"Nit!"

We will not let that worry us a bit,
For a fellow that is turned down flat
Has cause for fervent thankfulness, at that.
Give praise
And grateful thanks if stocks you've bought go kiting
And you sell out before
They tumble,
And make a raise;
But if it is the other way, don't grumble.
There's no use getting sore,
Back off next time you see the suckers biting;
Be grateful if you've learned
How not to get your clumsy fingers burned.

Not to linger, just be grateful for the measure of your mercies
You, my friend, who read these verses.
For a day be gay and happy, flaws for one day don't be picking;
Stop your everlasting kicking.
Make the faces bright around you, be the outlook ne'er so murky,
Fill yourself with pie and turkey
And give thanks!

Secretary of Agriculture Wilson at National Congress Points Out Benefits of Good Highways.

The first meeting of the club recently organized by local good roads boosters will take place at the council chamber at 7:30 o'clock tomorrow, Friday, evening, at which time the club will be christened and other business transacted.

WILSON DISCUSSES GOOD ROADS

Good roads as related to the cost of living was discussed by United States Secretary of Agriculture James Wilson in an address at Richmond, Va., a few days ago before the good roads congress. He declared the cost of living would be reduced when there was established a more intimate relation between the producer and the consumer.

ROADS INFLUENCE VALUES

The value of farm land and the extent and character of production thereon are influenced largely, the secretary pointed out, by the condition of the public roads. Many products, he said, cannot be transported for long distances over poor roads so that farmers in such country must raise crops that are not perishable. This works loss to both producer and consumer, to the latter that he must pay higher prices than if good roads would permit the farmer to deliver his milk, fruit and vegetables with less wear and tear on horses and wagons and in less time.

ALL SHOULD BOOST

"Every farmer should, merely as a matter of self-interest," said the secretary, "be a strong advocate of road improvement and should give practical support to a movement looking to the betterment of present conditions."

Turning to what has been done in this direction by the department of agriculture through its bureau of good roads, the secretary declared that as a result of object lesson roads constructed by the bureau in various states nearly 10,000 miles of good roads had been built. "Last year it was found from a careful investigation made in connection with 28 short object lesson roads, none of them more than a mile in length, that 730 miles of additional road had been completed and that an increase of \$1,600,000 had been expended in the work.

"These object-lesson roads," he continued, "are constructed under the direction of engineers from the bureau of good roads, whose services are given absolutely free of cost to the local communities, although the road itself must be built at the cost of the locality. Our labors for the testing of road materials are now considered the foremost in the world, and provide for the testing of road materials to determine their relative value, such test being made free of charge for any citizen of the United States. In addition, our laboratories are working constantly on the problems of devising materials and combinations of materials for the construction and treatment of roads to meet modern traffic conditions brought about by the introduction of the automobile." He spoke of a number of experiments made in various places with different kinds of road material.

Enormous expenditures for road improvement during the past few years he asserted, make it necessary for the work to be done right and the money wisely expended. The resources of the department of agriculture to help local authorities in getting their money's worth whenever they had any roads to build, were, he declared, open to the command of the various committees.

READ THE RECORD—\$1.00 YEAR.

The dead body of Edward Edwards, of Dowagiac, and the eldest son of Mr. and Mrs. William O. Edwards, of 312 Broadway, was found in the Michigan Central yards, just east of the green houses at Niles about two o'clock Wednesday morning with both legs entirely severed from the trunk, the right leg having been cut off at the hip and the left leg at the knee. The body was not otherwise mutilated. The watch found on Edward's person had stopped at 12:37 o'clock, which would indicate the "cannon ball" freight which passed through Niles between 12 and one o'clock had struck him.

Copyright 1909, by C. E. Zimmerman Co., No. 49

It is not as easy to get a foothold in business or to own real estate as it was a generation or two ago. The easiest and surest way to be prepared for the winter of life is to put money in the bank. Money in the bank goes a long way towards insuring a happy Christmas and it always enables Santa Claus to visit your home. You can see examples every year at this time of unhappy families who have no bank account. Start your bank account at once and you will be prepared for this event in the future.

HELD ON CHARGE OF ATTEMPT TO KILL

Walter Sauerbier, of St. Joseph, Strikes Down Coloma Man

St. Joseph, Nov. 22.—Two local boys became involved in a serious affair last night, and although only one of them is held on the charge of assault with intent to kill, the other is released on his own recognizance to appear before Justice Hammond in Benton Harbor next Tuesday morning, to which time the examination was adjourned. Walter Sauerbier and Charles Schneider are held. Sauerbier is in jail in default of \$4,000 bonds, which he hopes to furnish this afternoon and obtain his liberty, but the magistrate ordered Schneider to appear before him November 28.

FIGHT CAUSES TROUBLE.

The affair occurred shortly before 11 o'clock last night at the interurban station in Benton Harbor, when Wilson Crumb and Ed. Stainbrook, of Coloma, happened to meet Sauerbier and Schneider in front of the waiting room. Stainbrook left Crumb and went into the station to inquire the time of departure of the last interurban car for Coloma, and when he came out to meet his companion found him talking to Sauerbier and Schneider. A short time afterwards Crumb was lying on the walk near the entrance to the station with an ugly wound in the back of his head. He bled profusely before a physician could be called to the scene, and later was removed to the European hotel across the street. It is said that Sauerbier and Crumb had some words prior to the striking down of Crumb.

There is a story current in connection with the affair that a plow point was used by Sauerbier in striking down Crumb. This plow point is said to have been used near the interurban door and was kept inside the building, its service being to keep the door open at times. The point is said to have been found outside the building after the fight. Crumb was intoxicated and on account of his condition it was difficult for the physicians to tell just how badly he was injured. The effects of the liquor will have to wear away and then there is likely to come a serious reaction, which, on account of the low vitality due to great loss of blood and severe concussion of the brain, is liable to bring death. Crumb is an engineer in the Speller Vinegar Works in Coloma.

Miss Wilcox gave an interesting account of her visit to Freers Art Gallery and the famous Peacock Room.

THE WANDERER RETURNS

Peoria, Ill., Daily Journal: They'r having a terrible time up at Niles, Michigan, trying to establish the identity of George A. Kimmel, the much discussed man of mystery. Mr. Kimmel has been all over the town, calling old women by their maiden names and inquiring about all their folks clear back to the time when the panthers used to roam along the St. Joe river and on up through the Galien woods.

Mr. Kimmel's folks however, want to show him that he's not alive but dead—deader'n a doornail, dead as old Markley himself. They have banked on getting a nice bunch of life insurance and have been saving up their tears for several years, so that when they have the money right in their mitts they'll shed so many crocodiles that Niles will be washed right down to Benton Harbor, while only a ham sandwich will be left to indicate the spot where the Michigan Central lunchroom stood.

Meanwhile George has been busy. He has inspected the back door of the old house and tried to make friends with the cat, but she did not fancy the cut of his legs and failed to bump her back against his shins. This little incident threw George for the time being into the dumps, but later he recovered and going to the barn he climbed to the hayloft and found the identical spot where he and the Grimshaw twins had set the old building afire one afternoon while dramatizing the casting of the "Three Wise Men into the Fiery Twentieth Century Furnace." He also felt a peculiar throbbing at his heart strings when he tossed aside four tons of hay and discovered the identical greasy pack of cards with which he and his little playmates clinched the study of the kings and queens and knaves of merry England.

After these two reassuring discoveries George hurried into the old house and made for the pantry. There he successfully identified two indentations on the lowest shelf as being the marks of his baby teeth when he gnashed them on the board at being refused a cookie by his suffragette mother. This claim, however, was knocked in the head when it was proved that the shelves were but two years old and the indentations were but the marks where the carpenter dropped his hammer.

This saddened Kimmel and in despair he buried his head in a bureau drawer and sighed. Suddenly he gave a shout for joy and cracked his rubber heels together as he yelled, "Ah had! I have it now! My mother's green trading stamp book! How well I remember it! It was but fifty-two years ago, back in the winter of '59, that she began to fill it!"

A look of relief flitted over his features as he kicked on the kitchen door and ordered scrambled eggs, muffins, cream puffs, apple pie and finger bowls for supper.

Fine Photographs.

It will be well worth your time to go to South Bend for your Christmas photos. The Mangold studio, 310 1/2 south Michigan street, will give you the greatest satisfaction. The work is superior to any in the city.

RELIEF TO THE PUBLIC

Our creditors are demanding their money. There is no use to hide under the bushel or beat the devil around the stump. WE DO OWE and have just 10 days to raise a large amount of cash. We have but the effects of the hard times and we are not ashamed to take you into our confidence and tell you our true condition. No false pride with us, our trade has not been up to expectations. Therefore we are forced to throw our entire stock on the market at the mercy of the people to get relief. Relief which only you can give and we must have to meet pressing obligations. We have turned over our entire stock to H. L. Gilmore & Co. [adjustors] of New York, for the purpose of converting same into ready cash. We fully appreciate to raise the amount we must have to pay what we owe and now past due, we must sustain a tremendous loss. But it is far better to lose a thousand or two dollars and be able to settle our honest obligations. Therefore we are going to give to you, our loyal friends and customers the benefit of our misfortune.

Faithfully yours,
PHIL OPPENHEIM CLOTHING CO.

Under oath. A. P. Oppenheim and Phil H. Cohen, Managers of the firm of Phil Oppenheim Clothing Co. declare:

State of Michigan }
County of Cass } ss

Before me, the subscriber, a Justice of the Peace and for the county and state aforesaid, personally appeared A. P. Oppenheim and P. H. Cohen, who being duly sworn according to law deposes and says that they are the managers of the business known as the Phil Oppenheim Clo. Co., in the city of Dowagiac, county of Cass, and state of Michigan; that said Phil Oppenheim Clo. Co. are about to conduct a sale of their merchandise at retail for the purpose of raising enough cash to pay business obligations. That every statement made in regard to the sale they are about to conduct is true.

THE PHIL OPPENHEIM CLOTHING CO.

Phil H. Cohen,
A. P. Oppenheim.

Sworn and subscribed before me this 15th day of Nov., A. D. 1911. J. R. EDWARDS, J. P., Officially Sealed.
My commission expires March 5, 1913.

NOW FOR OUR EXTREME EFFORT

to sell enough merchandise in 10 days to satisfy our creditors. We are what the financiers terms, "plungers" everything staked on the next 10 days possibilities to move the goods, regardless of COST or LOSS. The final spurt—the last rally of our forces and energies to meet the inevitable issue. People of Buchanan and within 20 miles traveling distance of our store, people of every district, suburb and town reachable by this newspaper, come, and come quick. A strenuous fight to sell enough merchandise out of this store in the next 10 days to pay our debts. The prices tell the story. You'll scarce believe your eyes when you see the goods and prices. Arouse yourself to the imperative-ness of immediate action. We are making you prices with no inflated values. For the last few years there has been an epidemic of sales in this city which promised to shake the confidence of the public and destroy advertising as a means of public information, some were bonafied, but the majority you know, were concocted on some flimsy pretext. Our reason for putting on this sale is bonafied. We must raise a large amount of money within the next 10 days to meet our pressing obligations.

Respectfully,
PHIL OPPENHEIM CLOTHING CO.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

A BALD-HEADED WOMAN

Shorn of Her Crown of Beauty, Loses in Love and Marriage.

Hair is certainly most necessary to woman. Who could love and marry a bald-headed woman? What charms could one array to offset such a disfigurement?

A woman's goal is usually love and marriage. Her crowning glory is her hair. The loss of her hair mars her beauty, happiness and success. Yet, right here in Rochester, there are thousands of women who are neglecting or injuring their hair to such an extent that it is only a matter of time when it will be utterly ruined.

Many women destroy the beauty of their hair through thoughtlessness or ignorance of certain facts. They use curling irons over-heated, or to excess, which destroys the natural oil of the hair, causing it to split; break and come out. They do not shampoo their hair often enough, or too often. They use soaps or preparations which contain ingredients positively harmful to the scalp and hair.

As a result of such treatment, dandruff is created, the hair loosens, loses color, falls out, and baldness commences, unless proper and prompt precautions are taken in time. Then again, microbes and certain diseases bring about unhealthy scalp and hair conditions.

Almost any woman may rid herself of dandruff and diseased scalp and hair if she will but use the right remedy, and we will positively guarantee that it will either cure dandruff and baldness or it will not cost the user anything.

That's a pretty broad statement, but we will back it and prove it with our own money. We will return your money if you do not find that Rexall "93" Hair Tonic is an entirely satisfactory remedy that will promote hair growth and overcome scalp and hair troubles; that it will grow hair even on bald heads, unless all life in the hair roots has been extinguished, the follicles closed, and the scalp is glazed and shiny. It gets its name from the fact that it grew hair in 93 out of 100 cases, where it received a thoroughly hard, impartial and practical test.

We want you to try Rexall "93" Hair Tonic at our risk. You surely cannot lose anything by doing so, while you have everything to gain! You had better think this over, and then come in and see us about this offer. You will be well repaid for your visit to our store. Remarkable Overcoat

Values

OUR business experience has taught us that the surest way to increase our trade is to give to our customers better values than they can get elsewhere. We want to secure the patronage of the men of Buchanan and vicinity and offer as an inducement the very best overcoat values that are to be had. We have just put on the market an overcoat which we have called the "ADLER SPECIAL."

We selected the materials from one of the best known woolen mills in the country; then we went to our manufacturer and told him to build us the very best garment he could; one that he would guarantee to hold its shape permanently, that he should use none but the very best of trimmings and linings. Upon his assurance to carry out our instructions we placed our order for eight hundred garments—not all of one style, of course, but in seven different styles, some to be extra long, with belts; others to be three-quarter lengths, some for conservative dressers, others for young men. The coats are here, and are all that we asked for. If we had bought them in the ordinary way we would have had to sell them at not less than \$22.00, and they would be bargains at that price, but instead, we are able to offer them at

\$18.00
