## SILVER LOVING CUP PRIZE IN THE SPELLING CONTEST

Tonight's Contest Will Have the Charm of Novelty to a Generation That Reads Without Having Learned to Spell--Fierce Combats in Which Our Fathers Engaged to Be Vividly Recalled

Much interest centers in the old-fashioned spelling contest, which is to take place at Rough's opera house this evening, under the auspices of the Southern Michigan Poultry Breeders' association. The prize is a silver loving cup, donated by B. R. Desenberg & Bro.

The first exhibition of the Southern Michigan Poultry Breeder's association opens in Rough's opera house this evening. Exhibits are being placed today, and the outlook is that the show will be the biggest thing of its kind ever seen here. President Pitcher reports that he has about 75 exhibits booked. The association has secured Ralph W. Strong of Kalamazoo, who is one of the best judges known to chicken fanciers in the state to act as judge. He will be assisted by Dr. Knight. A large number of cash and gift prizes will be awarded exhibitors.

more notable occasions in the town hall. By 6 o'clock the janitor had the two big "air-tights" crammed with wood and the lamps lighted. By seven the outer doors began to squeak open and bang to, and the empty corridors echoed to the "stamping" of snow-covered feet. Before eight the two leaders had drawn cuts and chosen their sides, and the opposing forces were lined up, face to face. Gigantic cowhide boots, velvety with their snow-defying tallow, toed the same crack with the daintiest of "balmorals"; and when every one was not only ready, but fidgeting, Squire Wilkinson, who was to "give out," came leisurely forward, opened the old blue spelling book, and began.

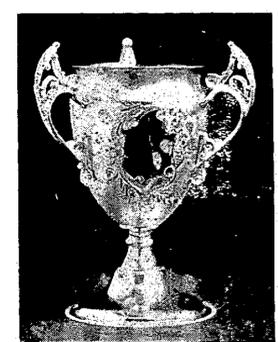

In addition to the scores of chickens shown, consisting of all sizes, kinds and breeds it is expected there will be some rare and beautiful specimens of pigeons, as well as Indian runner ducks, white turkeys, etc.

and Jimmy Butler on "precede," and two or three others on "parallel." But of course you could not expect all of them to spell every single word. The real excitement came when there were only two left on one side and three on the other, and the judge, closing the speller and opening the big dictionary, administered "asafoetida." Two out of the five passed away at once; two others lived through "diphtheria" and "pneumonia," only to fall victim to "phthisis." So there was only Mary Bachelor left, and she, as everybody knew, was a natural speller, and the old squire, after trying her with a dozen hard ones, gracefully gave up, and in a neat speech awarded her the great unabridged dictionary as a prize--because she did not need it.

And was that the end? Oh, by no means! At the door there was much pushing and shuffling, but the cowhide boots contrived to get near enough to ask if they might have the pleasure of seeing the balmorals safe home and the balmorals said they could. And on the way they spelled words much easier and pleasanter than any the judge had given out. Because of these things, father and mother, even today, are better spellers than the children.

Have you thought of portraits as a solution to the gift problem. A dozen of your photographs made in one of the new distinctive styles will make twelve appropriate gifts, each one of which is sure to be appreciated. E. Mangold, 310 1/2 S. Michigan St., South Bend.

The All Stars will play the Buchanan High school basket ball boys on Friday, Dec. 27, at Rough's opera house. The same teams played a game on Thanksgiving night which resulted in a tie with a score of 25 to 25. There will be fast playing on both sides. Come and see it.

## Factory to Build Big Addition

### Lee & Porter Manufacturing Company Expect to Double Capacity Within Short Time--Council Acts Favorably On Bonus Proposition--Work of Building Concrete Foundations For Extension of Plant Already Under Way.

### Good News to the Effect That Directors of Niles Gaslight Company Have Appropriated \$50,000 to Build Pipe Line to Buchanan and Install System of Mains Here.

The Lee & Porter Mfg. Co., will at once proceed with the work of erecting a frame addition, with concrete foundations, to their plant, which addition will be 32x90 feet. W. J. Miller has the contract for the concrete work and Frank Imhoff the contract for the frame work.

On the completion of the building about \$8,000 worth of new machinery will be installed, and the present force of about 80 men will be greatly increased. The company will manufacture automobile axles on a large scale.

The land company, which is being organized, will make an effort to purchase the Holmes & English addition with a view to selling lots and encouraging the building of houses, which are badly needed here, and if the movement is successful a further sum of \$5,000 will be turned over to the Lee & Porter Mfg. Co., but, in any event, the addition to the factory is to be made.

## DEATHS

Jether J. Johnson died at Epworth hospital, South Bend, last Thursday from the effects of injuries sustained in a runaway accident in Foley, Ala., Apr. this year. He was 44 years of age, leaves a widow and two children, who reside at Foley. He also leaves a mother, Mrs. F. E. Johnson, of Buchanan, and one brother, N. C. Johnson of New York, City.

The funeral took place from St. Joseph's Catholic church at South Bend, Monday morning at 9 o'clock, under the auspices of the Order of Owls, of which he was one of the supreme officers. Interment was made at Notre Dame cemetery.

MISS EDITH BEARDSLEY  
Miss Edith Beardsley, who has long been a sufferer with a complication of diseases, passed away this morning about 7 o'clock at the home on Moccasin avenue. She was 49 years old.

Miss Beardsley had lived here during her entire lifetime and was for years a teacher in the public schools, and was held in high esteem by a wide circle of friends.

She leaves three sisters, Mrs. Ida Baker, with whom she lived; Mrs. Ruml of Cedar Rapids, Ia., and Mrs. Wm. Tuttle of Chicago; also a brother, Elmer Beardsley of New York.

The funeral arrangements have not yet been made.

"30" Club  
The 30 club held their annual Xmas meeting with Miss Elsie Sellers Wednesday, Dec. 18. Being a social afternoon there was no business meeting. The principal feature of the afternoon was a "Toast to the '30' Club," written by the committee which was comprised of Mesdames Chamberlin and McIntosh and Miss Sellers. This was read by Mrs. McIntosh and each member was toasted in turn and presented with a stocking containing a gift. Another special attraction was an initial contest or history of one's life written with words with the initials only.

The work of Mrs. Baker, Mrs. Ross and Miss Wilcox require special notice. The committee served dainty refreshments and the club adjourned to meet Jan. 8, with Mrs. Rice, after spending one of the nicest afternoons in the club's history.

## SCHOOL NOTES

Some pretty and useful Christmas gifts are being made in some of the grades for the parents of the pupils.

Miss Lucy Beach was a welcome visitor in the high school room last Tuesday.

Semester review will begin immediately after vacation. Semester examinations will be held Jan. 15-17.

H. A. McAllister of the D. Appleton company was a business caller last Friday.

Be sure to reserve January 31, as this is the date on which we get the university extension lecture. This will be a free lecture and we hope for a large attendance.

School will close Friday for a week's vacation. Work will be resumed Dec. 30, but there will be no school New Year's day.

Christmas exercises will be held in all the grades Friday afternoon.

While our basket ball team was defeated in St. Joe, it was victor in the game with Constantine last Friday. This game was a clean one, both our boys and the visiting team deported themselves well. One very commendable feature was the generous applause which our public school pupils accorded Constantine when the latter scored. Let this be a permanent feature. Such courtesies always creates a good feeling. The preliminary game was between the Niles eighth grade and a "mixed" team containing two of our eighth graders, in which our boys were defeated. We play Three Rivers Saturday night.

The Friday afternoon session will begin at one o'clock and close at half past two, this week only to accommodate those wishing to take the mid-afternoon trains.

Here's for a Merry Christmas, an enjoyable vacation, and an enthusiastic return to business Dec. 30.

## SPEND \$11,500 ON LOCAL ROADS

### President of Commission Announces Improvements to be Made Upon All the Highways in Berrien County Out of \$50,000 Fund Which is Now Available--Niles Buchanan Roads Favored.

## WANTS STATE LEGISLATURE TO AMEND PRESENT LAW

### Rewards Offered Are For Improved Highways Nine Feet in Width and Commission Has Been Building Roadways Twelve Feet Wide--Plan to Bond for Half a Million Approved.

A liberal slice of the fund to be expended by the Berrien County Good Roads Commission in the building of roads during 1913 will be disbursed in this immediate vicinity. In other words, the sum of \$11,500 will be expended in building roads between here and Niles and from the point where the concrete road terminates, south of town, to the town hall in Bertrand township. During 1912 some of the money which was to have been expended in this neighborhood was used in the west end of the county with the consent of Frank Rough, president of the commission, but it all comes back to us in 1913.

The Leader, Benton Harbor's enterprising new journal, says as follows concerning the plans of the commission for next year: One mile crushed stone extension to the south of the concrete road now built a half mile out, to extend a mile, south of Buchanan to town hall in Bertrand township. One mile running out of Three Oaks west on road running towards New Buffalo. Three Oaks township agrees to put in a mile at its own expense, thereby assuring two miles of improvement.

One mile crushed stone between Stevensville and Derby in Lincoln township. The township will put in an additional mile at its own expense. Extension of the Niles avenue road south from the end of the present macadam road seven miles out. The extension will extend towards Arden to within three-fourths of a mile of Arden and will cost \$6,000.

One-third of a mile extension of improved road built last season from Berrien Springs north. One-half of a mile extension to what has been done during the year between Coloma and Watervliet.

One mile extension at Eau Claire north. Part of the appropriation was made last year, but the work was not done.

One and one-half miles of gravel road running north and south just east of Fairland.

With the exception of one road near Three Oaks all the surveys have been made and the work is ready for bids, which will be advertised for soon.

The work done last year includes a half mile at New Buffalo, a mile each at Three Oaks, Galien and Baroca; one and a half miles on the Paw Paw river road out of Benton Harbor; three-fourths of a mile on the Territorial road out of Benton Harbor; one-third of a mile at Berrien Springs; seven-eighths of a mile between Niles and Buchanan, and a half mile between Coloma and Watervliet. The stretch between Niles and Buchanan is concrete and the Coloma-Watervliet expanse is gravel. All the other improved roadway is crushed stone.

Mr. Rough, who with the other members of the commission, Matthias Thar and William Wissing, met at the court house this afternoon to discuss the good roads project, indorsed the plan of bonding the county in the sum of \$500,000 for the building of a network of good roads in the county, the proposition to be voted upon by the voters of Berrien county at the election next spring. He believes that the extensive improvement of the highways of the county is an excellent thing, but he believes, too, in proceeding with available funds at once and to that end advertised for bids for the work outlined.

Deplores Salary Change.  
The president of the commission deplored the fact that the supervisors at their last session had cut their salaries of \$300 a year, out of which they must pay their own expenses. This will force the improvements of the future to be made by contractors. Last year the supervisors drew \$5 a day and made their own road improvements. The state road commission examined the roads built by the Berrien county commission during the year and pronounced them as the best of any in the state.

The Berrien county commission today also decided to petition the next session of the state legislature for change in the present road law governing the state rewards for the construction of improved highways. The state appropriates \$1,000 for every mile of macadam or concrete roadway nine feet wide, \$500 for every mile of gravel and crushed stone or other mixed material. Most roads over the county built during the year were 12-foot roads. The plan is to petition the legislature for appropriations in proportion to the width of the roads improved. When a heavily loaded wagon turns out on a nine-foot roadway, it often encounters sand, and the hauling of large loads is often prevented and much business is lost to the community.

The commission has on hand for road improvements \$51,000, less the \$3,700 that is to be refunded to St. Joseph, Lincoln and Royalton townships, because these townships were bonded before the county plan of road improvements was adopted. The road tax in these townships will be refunded each year during the life of the bonds.

All of the surveys have been made, and the commission today decided upon the following improvements, work to begin as early in the spring as possible: One and a half miles of crushed stone on the Territorial road out of Benton Harbor at a cost of \$6,000. Three-fourths of a mile of crushed

All fear of Friday the 13th was forgotten last night by the Twin City newspaper men who attended the banquet tendered by retiring Sheriff a sparkling wine that would have made Old Man Bacchus himself smack his lips.

Following the dinner the party sojourned to the private quarters of the sheriff and while partaking of his cigars, regaled each other with terrifying criminal stories and their newspaper ends.

After several hours of social diversion the newspaper men each wrapped his tent silently about him and wended his way homeward, giving a silent vote of thanks to the genial and hospitable host for the "feed," which like Xmas, come to newspaper men but once a year.

### DOCTORS SAY

#### Geo. W. Noble IS INCOMPETENT

Last Thursday George W. Noble, accompanied by Dr. Loren Wilder and Dr. C. F. Padden of Chicago, appeared in the circuit court, in response to the order of Judge Bridgman.

There were also present in the court room three physicians summoned by a court order to appear and examine into the mental condition of the Buchanan man charged with a serious crime.

These physicians, Drs. Herring, Curtis and Tyler, adjourned to the supervisors' room with Drs. Wilder and Padden, where the examination of Mr. Noble was held. The interview lasted over an hour and the physicians then returned to the court room, where Dr. Tyler gave the following report:

Hon. Judge Bridgman:

Your commission, Drs. Herring, Curtis and Tyler, beg to report as follows:

Having carefully examined into the mental condition of Geo. W. Noble, aged 71, find him to be suffering from paresis and consequently incompetent to act as a witness, plead to the charge against him and conduct his trial.

N. A. HERRING, M. D.  
ORVILLE CURTIS, M. D.  
WM. J. TYLER, M. D.

The physicians were then discharged and each received \$10 for his services. Judge Bridgman continued the case against the accused until the February term of court. "That's about all I can do," said the court addressing Prosecutor Andrews and Attorney White. "I think if Mr. Noble is suffering from paresis, this court will never be called upon to try the case."

### EDITOR WALTSGOTT'S

#### PAPER ISSUES FINE XMAS NUMBER

The Berrien County Journal, published at Eau Claire by O. C. Waltsgott, issued a highly attractive 22-page number last Thursday. The edition sparkles with interesting news features and carries nearly a hundred columns of display advertising, about every town within a radius of 25 miles of Eau Claire being represented. The edition is decidedly neat typographically, and reflects great credit upon Editor Waltsgott and The Journal's home town.

### LODGES ELECT OFFICERS

The election of officers of Buchanan lodge, No. 886, M. W. A., took place recently as follows: Geo. W. Rose, V. C.; C. Lentz, W. V.; H. M. Brodrick, clerk; A. Emerson, banker; W. A. Bupp, W.; I. W. Hayes, S.; Drs. Garland and Peck, physicians; J. P. Beistle, trustee.

#### LADY MACCABEES

At the last regular meeting of the Lady Maccabees, the following officers were elected for the year 1913:

Lady commander, Cotilde Adams; past commander, Fannie Devlin; lieutenant, Sadie Landis; record keeper, Nella M. Slater; finance keeper, Marcia Reams; chaplain, Lulu Fydel; sergeant, Cora Leiter; M. at A., Mattie Adair; sentinel, Birdie Leiter; picket, Elmyra Wood; pianist, Ethel Williams.

#### THE S. F. A.

The S. F. A. met with Mrs. S. Scott on the 7th instant. After enjoying a fine dinner, officers were elected for the new year as follows:

President, Mrs. S. Scott; vice president, Mrs. E. Barmore; secretary, Mrs. A. Carlisle; treasurer, Mrs. A. Butler.

The next regular meeting will be with Mrs. Wm. Beardsley Jan. 4, at 2:30.

### BUY TICKETS AT HOME

Sales Showing Made at Local Station is What Counts With the Company

The citizens of Buchanan should not overlook the fact that it is to their own interests to buy their tickets at the local station when leaving town by rail, as the betterment of the service depends upon the showing made by any given station in the matter of sales. The Michigan Central is always inclined to give better service in the matter of stopping trains, etc., where a station shows a growth of business.

When leaving Buchanan, it might be well to bear in mind that you can purchase a round-trip ticket, and if you are going on a long journey, it is not necessary to go to Chicago to buy your ticket. You can do just as well at home whether you are going to California or to some nearer point. Buy your tickets here and help get better service for the town.

#### JUDGE VAN RIPER

The Berrien County Bar Association has named the following committee to draft suitable resolutions upon the death of the late Hon. J. J. Van Riper: O. W. Coolidge, chairman, A. C. Roe, Buchanan, and A. P. Cady, Benton Harbor.

The committee was directed to make a report at the first day of the next term of the circuit court.

### A FAIR WARNING

One That Should be Heeded by Buchanan Residents

Frequently the first sign of kidney trouble is a slight ache or pain in the joints. Neglect of this warning makes the way easy for more serious troubles—dropsy, gravel, Bright's disease. 'Tis well to pay attention to the first sign. Weak kidneys generally grow weaker and delay is often dangerous. Residents of this locality place reliance in Doan's Kidney Pills. This tested remedy has been used in kidney troubles over 50 years—is recommended all over the civilized world. Read the following.

James Maitland, 114 N. 4th St., Buchanan, Mich., says: "I have used Doan's Kidney Pills and consider them a good remedy. I had considerable trouble from my kidneys and suffered from acute pains in the small of my back. I used Doan's Kidney Pills as directed and they helped me in every way. I do not hesitate to say that this remedy is one of merit."

Friendship That is Worthy. Oh the comfort—the inexpressible comfort of feeling safe with a person—having neither to weigh thoughts nor measure words, but pouring them all right out just as they are, chaff and grain together, certain that a faithful hand will take and sift them, keep what is worth keeping and with a breath of kindness blow the rest away.—Dinah Mulock.

#### OFFICIAL PROCEEDINGS

The regular monthly meeting of the village council of the village of Buchanan was held in the council chamber Dec. 3, 1912.

Trustees present at the opening of the meeting Curtis, Richards, Butts and Lamb.

Trustees absent Darby and Adams. The meeting was called to order at 8 o'clock by President Hanlin.

The minutes of previous meetings were read and approved.

The following report of the finance committee was read by Trustee Butts:

General fund	\$648 31
General W. W. fund	566 93
Highway fund	257 75
Cemetery fund	17 10 2

Total expenditures for Nov. 1912 \$1,490 09

A motion was made by Trustee Curtis, seconded by Trustee Richards, that the bills be allowed as read and orders drawn for the several amounts. Upon roll call all members present voted aye.

The motion carried.

Trustee Adams came to the meeting at this time

The question of three bills from The Indiana & Michigan Electric

Co., one for the year 1910, one for the year 1911 and one for the year 1912; each amounting to \$1,459.45; whole amount \$4373.35 for additional arc lighting as per agreement made June 4, 1907, between the Village of Buchanan and Charles A. Chapin, was brought up for discussion.

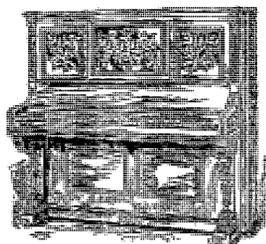

After considerable talk by the members of the village council and the three representatives of The Indiana & Michigan Electric Co., a motion was made by Trustee Adams,

seconded by Trustee Richards, that the oldest, or 1910 bill for \$1,459.45, be paid.

Upon roll call Trustee Curtis voted no, Trustee Richards voted yes, Trustee Butts voted no, Trustee Lamb voted no and Trustee Adams voted yes.

The motion was lost. A motion to adjourn by Trustee Curtis, seconded by Trustee Butts, carried.

W. O. Churchill, Clerk.

## Types of Beautiful Buchanan Homes

The Town Has the Reputation for Neat and Attractive Residences Surrounded by Well-kept Grounds.

## BUCHANAN HOMES.

Buchanan has justly won its reputation as a city of beautiful and well-kept homes, for there is no town of this class that can make a better showing. There are many beautiful homes in Buchanan, but the reputation the city has in this respect is not based upon the large number of expensive homes. While there are a few such, perhaps more than will be found in the average town of the size of Buchanan, the reputation of Buchanan is based upon the modern home, well-kept, neat, attractive, and with lawns and premises that show care and attention in their upkeep. The same care and attention that is shown in the front yards and in appearance of the residences will also be found in many instances in the sanitary care of the alleys and back yards, and the attractive appearance of the village does not extend to its streets and front lawns alone. This civic condition shows the progressive spirit of the town and shows why Buchanan is growing. When a city or town shows a lack of civic pride in the up-keep of its homes and its lawns and alleys, then that town has commenced to decay.

The home life of Buchanan combines the urban with the rural because there is plenty of room for comfort and the enjoyment of life. Unlike the great cities where the population is congested into crowded quarters, where sunshine and pure air are not to be had unless the people go many miles to the parks, life in Buchanan is such as to give health and pleasure to its people. Almost all of the homes of Buchanan are equipped with all the modern conveniences of running water, electric lights, etc., while many people have added fresh air sleeping apartments.

The homes of Buchanan are in harmony with the shaded and modern improved streets, all of which combine to present a most picturesque yet progressive appearance.

### Letter From Mrs. Geyer

Writing The Record from Springer, New Mexico, under date of Dec. 12, Mrs. Joseph P. Geyer says:

We have taken your paper for nearly 29 years and do not want to keep house without it now. At all times we feel a long way from home, but when The Record comes and we read of the doings of "Bile" Hathaway and other old timers there, we fully appreciate our weekly visitor.

You will find enclosed \$2.50, one dollar for the year 1912 and one dollar for the year 1913.

I will close wishing you a merry Xmas and a prosperous New Year.

## ENTERTAINING THE YULETIDE ANGELS

By PRUDENCE STANDISH.

HERE are these angels, invisible to mortal eyes, and how may we entertain them? They are in the spirit of Christmas, in that glad feeling in the heart which knows there is reason for joy and which tells us to do all we can for others.

When we transgress against the laws of joy and kindness we are turning the Yuletide angels from our doors. When we open our hearts fully to the Christmas spirit, in every sense of the word, we are flinging wide the portals to the winged ones and spreading the banquet they love.

To come down to plain, everyday speaking, here are a few of the sins the most well-meaning persons commit against the holiness, love and comfort of the Christmas tide.

Everybody knows that year by year the shops make a strenuous effort to encourage the early buying of gifts. Christmas goods are put on sale quite six weeks before they are needed, while many a mercantile advertisement openly pleads the case of the shop people. When we put off our buying until the eleventh hour, men, women and children—all of whom have a right to their own share of Christmas—must work overtime. Nothing is said of the awful heat of the crowded shops, of the exhausted air, of the toiling beings who swelter, stand in icy draughts, who faint and, perhaps, are sometimes discharged for inadequacy with the last hideous battle of buying. But those who are behind the scenes know it all and every heart open to human justice must surely see this side of late Christmas shopping—the bitter side.

How inadequate is the last-minute present bought under such conditions—the usual conditions in cities—to express the rightful Christmas sentiment. Instead of telling of Christmas joy if it could but speak the gift would say:

"Bring you a friend's irritabilities, and a sales-woman's white cheeks, and a little cash girl's sob, and wish you a miserable Christmas." In short, this belated purchase, obtained with such effort to all concerned, carries with it the unheard tears and sighs of the Yuletide angels, those shining spirits of gladness we turn from our doors. There is a way to escape this very great annoyance to ourselves and

injustice to others. The shops are never crowded in the early morning, so do the shopping then with the very first hour. Or if you are a business person and cannot spare the time, write the friend whom you recall at this late hour a nice little note full of Christmas feeling or else run around the corner and buy her a bunch of bright berries from any of the temporary stands, which if not patronized would mean ruin to their owners. At any rate, however, you solve the problem, keep one thought in your heart:

Peace on earth and good will toward all the poor souls hired to sell Christmas presents.

The next sinners against the Yuletide angels are the family ogres who deny the home children their rightful share of Christmas joy, who fret about having the little Christmas tree with its trifling gifts, who shatter infantile idols by revealing the sacred mystery of Santa Claus, and so on. Ah, me, ah, me, could I not tell weeping stories myself of the hardness of grown-up hearts at this time—stories of the dark and dreadful day when a silly aunt of seventeen mocked me for my belief in good Kris Kringle and when, a little later, the edict went forth that I was too old to "think much of Christmas" any more. Is anybody ever "too old" to think of Christmas? Is the heart ever too hardened not to suffer when the dearest of its saints is ruthlessly taken away?

As to this rubbishy talk of the Christmas tree being too much trouble, or too much expense, it only means that the grown-ups are thinking entirely of themselves. There are Christmas trees and Christmas trees, and the cheapest and littlest may bring just as much joy to small hearts as the most expensive ones. In fact, I have seen little Christmas trees burdened with tiny gifts, and gay with candles, that cost no more than a couple of dollars. They were set up with love, and trimmed with love, and revealed with love; and the children and the grown-ups were all as happy as happy could be because they had invited every one of the Yuletide angels to the fun.

So don't rob the children of their good Christmas saint, Santa Claus, but leave them to find out the facts of Christmas giving themselves. And, be your home ever so poor, save something from the housekeeping money to give the children their rightful Christmas joy in another way when the tree cannot be managed. An orange, a big, rosy apple, and a walking stick of striped peppermint candy cost but little. Yet the bunch of cheap things will seem like Christmas, the real true—true Christmas, when it is dumped out of the little stocking.

Concerning more important gifts than these, they also may be of the cheapest sort. All a little child expects is something new, so the trifles bought at a reasonable hour at the ten-cent store, the cheap, home-dressed doll, the nickel watch or fifteen-cent box of paints, are all equally prized. What the kiddies want is to feel their Yuletide angels near them, and a little extra bother, a little extra patience, will achieve this blessing. Remember, too, the child without the gates, for it needs a share of your joy. Sit up a little later for the next six nights and see what you can make out of pretty scraps of stuff on hand, the colored pictures in the old fashion books, etc. Let all the children, who cross your way, feel some

of the gladness that is in your own heart. It is so easy. Don't grumble; do what you can with enthusiasm and give everything with love.

The worst sinners against Christmas peace are those who feel the season is a nuisance and who do their level best to make others feel the same thing. They hate the excitement, the exchange of presents, the letters or cards they must send, the idea of having to give servants money, the dinners they must get up, those which they must attend. And in hating these, and all the dozen and one duties of the Christmas tide, they hate everything—the joy that is in the air, the sweet church bells, the cherubim and seraphim of Bethlehem, and even him whose coming the prophet Micah foretold so long before.

### HIS RECOVERY WAS SUDDEN

Passes to the Ball Game Worked a Speedy Cure of Mr. Jackson's Ailments.

Dan Lane, the well-known stock broker, and also a director of the Army club, was commenting on the actions of a fighter in some nearby town. The fighter in question had apparently been all in up to the last round, when he came back and put out his man.

"What do you make of it?" asked the friend.

"It's like a friend of mine named Jackson," replied Mr. Lane. "Jackson's wife had a habit of thinking up little odd jobs for him to do on his day off, so he concocted a scheme by which he should be sick on his day of rest."

"Everything went well until after dinner and he was allowed to stay in bed. Early in the afternoon his wife entered the room and asked him if he didn't feel a little better.

"No," he answered, "I'm a sick man; too sick to go putting around the house, putting on scuffing doors and other such things."

"It isn't that, dear," she replied, "but Jones is out here with two passes for the ball game."

"I, er, er, I am, er, I am feeling a little better," he said, getting out of bed.—Boston Traveler.

### Who Has 'Em?

"I understand you have a fine track team here," said the visitor to the man who was showing him over the college campus. "What individual holds most of the medals?" "The town pawnbroker," answered the guide after due deliberation.—Buffalo Express.

In Some Instances.

"I see by the papers," says the man with the difficult whiskers, "that it is claimed to be no crime to pay a legislator for voting for a United States senator." "Well," replied the man with the double chin, "when you size up some of those senators it seems as if a man was entitled to good pay for voting for them, doesn't it?"—Life.

Barber Establishes Record.

A barber of Broken Hill, in Australia, in an attempt to lower the world's record, shaved 18 men in 14 minutes and 3 seconds, an average of 46 seconds each. The report doesn't say what his victims thought of the operation.

EVERYBODY knows the advantage of electric light—its cool, clean convenience—its brilliancy and purity of color—its hygienic value. But do you know that it is also the least expensive of the various kinds of light available for homes, offices, stores, public halls and interiors in general?

The many advantages of electric light are fully appreciated only by those who use it. Likewise only those who use Edison Mazda Lamps have electric light at minimum cost.

### PLANT THAT IMPROVES SOIL.

The Sugar Beet Increases Yield of Other Crops.

How sugar beets improve the fertility of the soil and increase the yield of all crops grown in rotation with them is explained in the National Magazine by Truman G. Palmer, who has spent the past ten years in studying agricultural methods in Europe and America. "The sugar beet being a deep rooter," says Mr. Palmer, "a prerequisite to its culture is that the soil be stirred to a depth of ten to fourteen inches. The tender beetlet having to undergo the shock of thinning soon after it comes up in order to leave but one beet to a place, it demands a well prepared, mellow seed bed. Gathering the sugar in its leaves from the atmosphere by the aid of the light and storing it up in the roots, it will not thrive if the light is cut off through being shaded by weeds, and their eradication means not only a further stirring of the soil by cultivation and hoeing, but they are removed before going to seed, thus leaving weedless fields for succeeding crops. Being plowed out in autumn gives an extra fall plowing, which leaves the land in condition to absorb instead of shed the fall and winter rains and store up the moisture for the following season's crop. With the removal of the main root myriads of fibrous roots are broken off and left in the soil to an average of a ton to the acre, and in rotting they not only deposit humus in the lower strata of soil, but leave minute channels through which it becomes aerated and hence fertile. The roots of subsequent crops follow these interstices and draw nutriment from two and three times the depth of soil formerly reached, and hence the farmers double and treble their soil output without increasing their acreage."

Not Her Hero. "I suppose you are proud of your wife's literary success?" said the intimate friend. "Yes," replied Mr. Stubbs. "Only I wish she wouldn't insist on making the hero of every novel a tall, athletic young man, with wavy hair and piercing blue eyes. Anybody can see that I am short, fat, bald, and compelled to wear specs."—The Pathfinder.

He Was Prepared. Mrs. Marryat—"Oh, John, I didn't expect you home to lunch. We have nothing but smoked sausage in the house." Mr. Marryat—"Well, being hungry, I'm prepared for the worst."—Catholic Standard and Times.

Human Nature. Ever remark how many people there are who want you to neglect your own affairs, in order to give them "encouragement?"—Atchison, Kan., Globe.

## LODGE ELECTIONS

The Ladies of the Modern Maconnes at their regular session Wednesday afternoon elected officers for the ensuing year and, following the business meeting, enjoyed a sociable time during the serving of refreshments. It was decided to have the local deputy conduct the installation ceremonies. The officers elected were as follows.

Lady commander, Carrie Mell; lieutenant, Elnora Pyle; past com., Minerva Brower; record keeper, Bertha Hamilton; finance keeper, Ida Morley; chaplain, Maria Jones; sergeant, Alta Harner; M. at A., Lillian Lyon; sentinel, Jane Pierce; picket, Marcia Jannasch.

As the next meeting comes on Xmas, it was suggested that the next session be held Dec. 31, and a picnic be held at the hall in the forenoon and lodge be called to order at 2 o'clock. Every member is requested to bring something good to eat.

### REBEKAHS

At the regular session of the Rebekahs last Thursday evening the election of officers for the next six months took place with the following result:

Noble grand, Gora Heckethorn; vice grand, Maude Robinson; Rec. secretary, Minnie Robe; Fin. secretary, Delbert Jackson; treasurer, Helen Hall.

The D. D. P. received word from the president of the assembly that she will be with us the 2nd of Jan.

At the next meeting a class of five will be taken in.

### OUSTER POST

Custer Post No. 208, G. A. R., elected officers at the last regular meeting, Dec 7, as follows: A. Goodenough, C.; J. Allen, S. V.; F. Hauover, J. V.; Geo. Bryant, chaplain; Wm. H. Beach, Q. M.; H. Keefe, O. D.; D. Stoner, O. G.; D. W. Swem, P. I.

## FIRE NEAR THREE OAKS

### Joyal Barn Burns—Also Horses, Stock and Grain

(Three Oaks Acorn of Dec. 12) Yesterday morning local residents who arose early, saw the light and blaze of a fire west of this village about five o'clock. A good sized barn belonging to Noyal Joyal on the place known as the old J. B. Grosby farm, six miles southwest of here, burned to the ground with all its contents. Three horses, four cows and two hogs were burned, besides 275 bushels of corn, 50 bushels of wheat, 60 bushels of oats, 7 tons of hay, 5 tons of straw and about 8 acres of corn fodder.

The origin of the fire is a complete mystery. The Joyal family were ignorant of the blaze until called by neighbors. It was then too late to even attempt to rescue any of the stock. A chicken coup, adjoining the burning building, was all that was saved.

The loss is estimated at \$2,000 and the insurance will not cover this. The barn was insured for \$700 and the contents \$700. The Farmers, Mutual is the company in which the insurance was held.

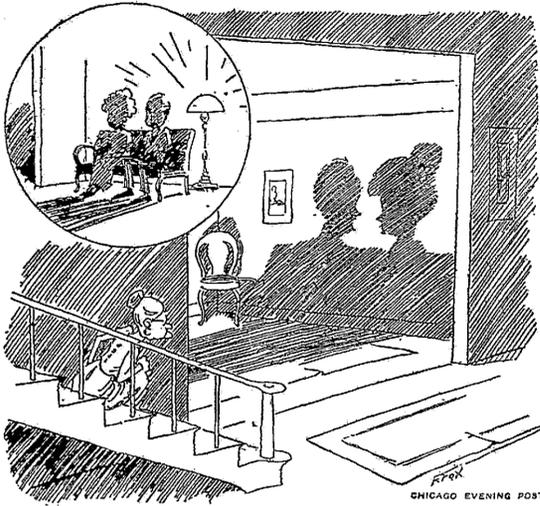

### The Culture Club

The sixth of the South American meetings was held Friday at the home of Mrs. Harris and an interesting program was given.

Roll call one of the Blue Laws of Connecticut. The country of Chili was given by Bertha Allen Hamilton; a geographical study of Connecticut was given by Clara Hamilton Dodd.

The mid-winter picnic will be held at the home of Ruby Eastman Glover January 10, with Mesdames Jones, Morley, Simmons and Hamilton on the committee for entertainment.

Mr. and Mrs. Charles Loomis of Lincoln, Neb., visited at the home of Jacob F. Pyle recently. They expect to spend the winter in Florida.

It is very seldom that we have a winter like this. Last Saturday there was a crowd of children skating in one part of town while there was a game of croquet in the other.

Frank M. Kelley of Galien and Miss Ida Kubash of Stevensville, were recently married in St. Joseph. The young man is the son of Mr. and Mrs. W. H. Kelley residing north of Galien.

Mrs. D. S. Robe was in Baroda Friday to see her husband, who is in a hospital at that place. She reports that if he continues to improve he will be able to return home some time this week.

Much local interest centers in the big poultry show which is being held in Rough's opera house at Buchanan Thursday, Friday and Saturday of this week. There will be 10 entries from Galien.

The question confronts us every day of our lives, where does the money go? We make enough, but it slips away. Where? Here's a good way to find out. Put every cent of your money in our bank. Pay everything by check. You will soon have a complete record that will show you where it goes. It may also show you where you might save. It's no trouble for us to keep the books. Come on and try it.

## A WOMAN'S GOOD LOOKS

Depend on her general health and freedom from pain. Many a woman looks old before her time because of those irregularities which are essentially feminine. Starting from early womanhood, she suffers from frequently recurring derangements that upset her womanly health. If she be beautiful she grows into that mellow age without wrinkles and crowfeet about the eyes or the blue circles underneath. It is invariably the rule that such women suffer little, or not at all, from womanly derangements which sap the health and leave in the face the tell-tale story of pain and suffering. Dr. R. V. Pierce, the famous specialist in the diseases of women, found a prescription in his early practice that soothed the organism peculiar to womanhood—oiled the machinery, as it were, of the human system—and helped the woman to pass those painful periods that scar-lined and aged her face. This remedy became the well-known Dr. Pierce's Favorite Prescription, that has benefited thousands of women and saved them from misery and suffering at different periods in life.

Mrs. Pierce.

Mrs. HARKELY E. PIERCE, of 241 Bright Street, Sarnia, Ont., writes: "I am now a well woman after suffering for three years and doctoring with several different doctors, each one saying it was something different, and the last one, after putting me through a thorough examination, said I was suffering from a growth, which, in time, would result in cancer, and said I would not live more than two years if not operated upon right away. I became hopelessly discouraged but would not consent to the operation as I was too weak and too much afraid, but at last, through the advice of a friend, I tried Dr. Pierce's medicine, and after using two bottles of the 'Favorite Prescription' I immediately felt a change. I also used two boxes of 'Healing Suppositories' and eight boxes of 'Lotion Tablets,' and can safely praise the name of Dr. Pierce's medicines to all who suffer from any female disease, for these medicines are all they are claimed to be, and I hope will help others as they have helped me."

Chas. Wilcox was found guilty on the charge of assault and battery by a jury in Justice Ham's court Tuesday, although the jury recommended leniency. Justice Ham sentenced the accused to serve 60 days in the county jail, without the option of a fine. However, the case was appealed to the circuit court, and the defendant was released on a \$200 bond. The charge was preferred by Miss Norine Wray.

A. J. Case has placed six of his fuel saving controllers on the stoves in the Lee & Porter Mfg. Co's plant, which are giving good satisfaction. Mr. Case also has an order from the M. C. Ry. Co. to place the device on the stoves in the local station. Under ordinary conditions there is a vast waste in burning fuel, and the Case device, which is inexpensive, causes a big saving in fuel bills. A demonstration will be given in the opera house during the poultry show.

## BROKEN BACK AND TORN BODY CAUSE DEATH OF YOUNG MAN

Ivan Kvarnstrom of Glenwood Falls Under Wheels of Locomotive Tender.

## BROKEN DRAWBAR CAUSE

Employed as Fireman on Michigan Central He Drops Beneath Wheels as Engine Pulls Away.

Last Monday's edition of The Daily News of Dowagiac, contained the following account of the tragic death of Ivan Kvarnstrom, a nephew of Mrs. B. E. Steele of Galien:

Falling under the wheels of his train and receiving terrible injuries Ivan Kvarnstrom, 21 years old, a resident of Glenwood, died yesterday afternoon in Ackerman hospital from loss of blood and the shock incident to the accident and amputation of his right arm which was found necessary.

Kvarnstrom, who was a locomotive fireman, boarded his engine at Glenwood shortly after 5 o'clock Sunday morning to make the run to Chicago. The freight pulled into this city, and after several cars had been cut out, the trip was resumed. Kvarnstrom, as the engine started, grasped his scoop and stepped to the tender to fire up. He had already thrown one or two shovels of coal into the furnace, when he stepped upon the plate between the engine and tender to continue his work. His foot had just touched the runway, when the drawbar directly underneath his feet parted, allowing the engine to jump ahead while the tender and following line of cars moved more slowly.

Into the widening gap between engine and tender Kvarnstrom fell to the rails, but before he could spring to safety the wheels of the tender struck him, mangled his arm to the shoulder and breaking his leg, besides producing internal injuries which in themselves would probably have proved fatal. The train crew pulled Kvarnstrom from beneath the tender, and he was immediately taken to Ackerman hospital. Dr. G. W. Green was immediately summoned to attend him.

A hasty examination showed that the injured man could probably live but a short time as in addition to his other injuries it was found that his back was broken and skull fractured. His parents, Mr. and Mrs. John

Kvarnstrom of Glenwood, were at once sent for. The father without waiting for a train to bring him to Dowagiac, immediately set out and walked the whole six miles, while the mother and sister of the injured man came later by train. When they arrived here, the young man was unconscious, but later rallied and was able to recognize them. Miss Anna Hansman of Jackson, with whom young Kvarnstrom has for some time been keeping company, was telegraphed for and arrived in Glenwood last night.

Following the arrival of the parents and sister, an operation to amputate the injured man's arm above the elbow was performed, but the shock was too great, and he slowly lost strength and died at 1 o'clock.

The accident, which took place at the Park Place crossing, just west of the depot, was found to have been caused by a defective drawbar. An examination of the heavy metal showed that it had been cracked and that the defect was an old one, as rust was found at the point of fracture.

The funeral was held in Glenwood at 12:30 Wednesday afternoon, Rev. S. C. Brock officiating. The burial took place in the Glenwood cemetery.

## LET THERE BE LIGHT

Galien and Three Oaks Seek Electric Current

Galien and Three Oaks are awake to the importance of good lighting in their business sections and the business men of these towns are putting forth efforts to induce the Indiana & Michigan Electric Co. to build a high tension line from Buchanan to Three Oaks through Galien, for street and commercial lighting. The aim of the merchants is two-fold in that there is not only a material side through increased mercantile efficiency but light streets mean better, cleaner streets morally as well as physically.

"Goodness and virtue walk in the light; Darkness and danger go forth in the night,"

The Indiana & Michigan Electric Co. is considering the proposed extension, and Supt. Harleigh Riley of this place, says the company will, doubtless, make the extension as soon as it is ascertained that there is sufficient business to be had to warrant it.

## The Culture Club

The culture club met Friday at the home of Emma Prast Marcellus on George street. This was the seventh of the South American meetings, the subject for the afternoon being "Spanish Art." Roll call was responded to with "facts;" "The Life and Works of Valesquez" was given by Emma Tremmel Dempsey; "Murillo" by Ruby Eastman Glover; "Carreggio and Others" by Mand Tirrell Wentland; "Spanish Architecture" by Minnie Haines, and the geographical study of Idaho was given by Bertha Allen Hamilton.

The club adjourned with the serving of refreshments by the hostess assisted by Mrs. C. Swartz. The club meets next week at the rural home of Mary Hathaway Smith.

To close up a clever drunk, three young men made a raid on William Renbarger's chicken house, and carried away what they considered to be their share. Mr. Renbarger observed tracks leading from his place the next morning and thereby cooped the men but not the chickens. He at once called on Justice A. T. Hall, Sr., and had a warrant issued, which deputy Potter served. The accused entered a plea of guilty and settled.

Harry Swem and family have returned from the southeast part of Colorado, whither they went about 4 1/2 years ago. Mr. Swem owns a quarter section of land near Springfield, and says the principal crops raised in that part of the state consist of Kaffir corn, Mexican beans, hane, etc., but that the soil is adapted to almost any kind of crops where it is irrigated. He says that in a wet season wheat can be grown without irrigating, but that ordinarily it is necessary to cause water to flow over the land to nourish the plants.

## THE GOSPEL OF THE SUGAR BEET

Dr. Harvey W. Wiley Preaches It to Farmers.

## A WONDERFUL TRANSFORMER.

"Wherever the Sugar Beet is Cultivated," Dr. Wiley Declares, "the Farmers Are All Prosperous"—America Fully Fifty Years Behind Europe.

"Farming practices in vogue upon a great majority of the cultivated tracts in America are obsolete," declares Dr. Harvey W. Wiley, former chief chemist of the Department of Agriculture. "In agriculture we are fully fifty years behind Europe, and the better utilization of our farm resources is one of the most important problems before the country."

"Old fashioned, slipshod methods of producing wheat and cotton and corn are still in vogue in over 95 per cent of the country devoted to these industries," said Dr. Wiley, continuing his impeachment of our lax farming methods. "The growing of these crops until within a few years could not have been ranked as agriculture, but should have been described as highway robbery of the soil. As a result the average production per acre of these crops has fallen to a minimum."

"Farming, for one thing, must be made more attractive. It should be made more profitable. This will be done as our farmers learn more thoroughly the principles of intensive cultivation and get a knowledge of the methods of feeding the soil and of the rotation of crops."

"To this end I have been preaching for the past thirty years the gospel of the sugar beet."

"The production of the sugar beet requires the highest style of intensive culture that science has been able to

DR. HARVEY W. WILEY.

suggest. The principles of feeding the sugar crops, the methods of culture and handling, the attention and skill of the workers, are such as to create in every field and factory devoted to sugar culture an agricultural experiment station of the highest type. The soil and climatic conditions in the greater part of the United States are thoroughly favorable to beet culture, and America is the greatest sugar market in the world.

"In the case of the sugar beet the crops which are grown in rotation with it yield very much larger returns than when the old fashioned system of agriculture prevailed. The reflex action of this influence becomes a benefit to American agriculture the value of which it would be difficult to measure in dollars and cents."

"Wherever the sugar beet is cultivated the farmers are all prosperous, no matter what kind of other crops they raise. The beet generally improves the productiveness of the soil in all kinds of agriculture. It causes the employment of more labor and indirectly benefits commerce and transportation and produces in every community conditions of prosperity in agriculture which it would be difficult to bring about in any other way."

"The culture of the beet brings into the neighborhood the large sugar factory using fuel and other raw material, with its complement of laborers and experts, thus giving a better and more profitable market to the surrounding farmers for all their products."

"While there has been a general tendency toward the reduction of tariff duties, this tendency has not reached in many cases the extent of the abolition of import duties altogether. In any changes of this sort let as much as possible be saved to the farmer. In view of the great importance of domestic sugar production to the prosperity of the American farmer, if tariff adjustments are to be made, I believe that this should be the last rather than the first point at which to remove the customs duty."

"One of the best things about sugar beet culture from the point of view of agricultural improvement is that it fits in so perfectly with dairying and stock growing. It is, of course, one of the elementary facts of practical dairying that the rearing and keeping of live stock afford the easiest, cheapest and most natural means of improving the fertility of the soil."

Impactical Advice.

"An artist," said Mr. Toechum, "should strive to reproduce what is nearest to his thought and deepest in his affection." "Yes," replied the mercenary genius, "but the laws against counterfeiting currency are so severe."

Entered as second class matter March 31st 1908 at the post office at Buchanan, Mich. under act of March 3, 1879

**S**ITUATED on the St. Joseph river, that great power producer, 87 miles east of Chicago, in the heart of the famous Berrien County Fruit Belt, Buchanan offers inducements many and strong as a factory and residential site.

## THE RECORD ENTERS UPON ITS 46TH YEAR

With this number, The Berrien County Record enters upon its 46th year. And incidentally Buchanan enters upon a new era of growth and prosperity. Never before were the prospects so bright. A great transformation has come about and the town has taken on new life. Industries are experiencing unparalleled growth, the demand for modern homes is without precedent in the town's history, and the outlook is that 1913 will be a banner building year in Buchanan.

If the early pioneers who blazed the trail of this new country, braving the unknown dangers of its forests, rivers and prairies and all the perils of a primeval wild, could have but seen into the vista of the years and beheld the modern civilization of today, they would wonder at the magic transformation of this wilderness into a land of prosperous farms and a thriving town of 2,000 or more souls, with its educational advantages, churches, surprising transportation facilities, up-to-date public utilities, large business concerns and thriving manufacturing industries—they would more than marvel at the beautiful homes and the comforts of a modern civilization. Little they knew that their rugged hands, which hewed down the forests and turned the soil of the fields to plant the first harvests were laying a foundation for this fair flower—Buchanan—which was to bloom as the most modern, the most progressive, and the most important commercial and manufacturing center of its size in all Michigan.

These sturdy pioneers came into this new country to seek homes, to seek opportunity—and they had to build from the grimy, sordid soil; the soil which gave them and their prosperity this vast wealth. Thus nature again emphasizes that great truth, "Nothing useless is, or low; each thing in its place is best."

Buchanan is pre-eminently an industrial center, which is expanding in industrial and commercial development as well as population. It is also the metropolis of a rich agricultural section, a land flowing with milk and honey, advancing in prosperity and wealth. In all Michigan there is no small town making such rapid strides forward in the march of progress as is Buchanan. Its varied industries, consisting of diversified manufactories, jobbing and retail enterprises amply provide employment for its working population and their rapid growth has created an influx of people to swell the total of the city's inhabitants. The pay rolls of these great industries will reach a vast sum yearly and the money, which is brought into Buchanan from the outside world by the sale of the finished manufactured products and paid out to these thrifty and progressive people, makes Buchanan the business town it is. The output of these great industries is distributed to all parts of the world. The town is showing the effects of this extensive industrial activity in its civic development and progressiveness. Nowhere will there be found a city of 2,000 population to be more modern, to have more public utilities, and to be more beautiful than Buchanan.

Most of Buchanan's people own their own domiciles and take exceptional pride in their town. There are no extremes in class distinction in Buchanan. Without exception its population belongs to the educated class, with high educational, moral, religious and civic ideals. Its schools and churches are the best, and the moral tone of the community is all that could be desired.

Modern improved thoroughfares, bordered with concrete walks, beautiful homes and churches, a modern water system that gets its supply from artesian wells, electric power plant and extensive telephone system, give Buchanan's people every convenience of the larger city with all the advantages of the country, making their home environments the most wholesome possible.

## The Good Roads Question.

The great overshadowing question before the voters of the county is "shall we issue bonds in the sum of \$500,000 for the purpose of building good roads?"

The Record believes that the voters generally do want good roads, and that the proposition will carry unless the movement started at Benton Harbor to bring about the enactment of legislation which will permit of adding an abutment tax to the taxes paid by the farmer in front of whose land the improved road passes, does not create a muddle which will defeat the bond issue. It is the intention to have the abutment tax assessed half a mile back from the main road, notwithstanding that the farmer who lives back of the main road must load for the stretch of poor road intervening when hauling his produce to market, and thus objections are raised.

Again, the Benton Harbor agitation tends to create a belief in the mind of the city property holder that he is being imposed upon by being required to pay his present tax, whereas he surely is not.

The Michigan road law is regarded as a model law by other states, and for years it has worked out satisfactorily, but now that Berrien county is to vote on the proposition to raise sufficient money to build roads all over the county and thus hurry on the blessings to be derived therefrom, a movement is started at the north end of the county to change the entire system, thus giving rise to a thousand objections and a perfect maze of knotty problems, which are not likely to be solved soon to the satisfaction of all.

There are farmers, for instance, who are paying for their farms, who cannot afford to pay a special abutment tax, and this class will vote against the bond issue if such a tax is to be levied.

It is hardly likely, however, that the legislature can be prevailed upon to change the road laws to suit the whims of the committee in the north end of the county, and, taken all in all, the agitation tends wholly to create unrest and dissatisfaction, which may defeat the bond issue.

If the state road law was so palpably unfair as is represented, it would have been changed long ago.

## SUPERVISORS ADJOURN

Uneventful Session Comes to a Close—Committee to Inspect Good Roads

For his services and the efficient manner in which he has taken care of the county buildings in the past year, Supervisor Herman Balow of St. Joseph, chairman of the building committee, was at the session of the board last Thursday afternoon allowed the sum of \$250. Supervisor Matthews of Bertrand township, brought the matter of compensation before the board at the conclusion of the reading of the report for the building committee. The vote was unanimous and Mr. Balow was thanked for his able manner in keeping the buildings in excellent repair.

Supervisor Stratton of St. Joseph, introduced a resolution regarding the settlement with townships having constructed state reward roads. The resolution, which was defeated, reads:

To the Honorable Board of Supervisors:

Resolved, If the \$500,000 bond issue carries that the board of county road commissioners be requested to take over and settle with Three Oaks and other townships for any state reward roads such townships may have built on the trunk highway lines adopted and shown on the map.

Messrs. Roebuck, Olds, Matthews, Miller and Balow were appointed by Chairman Nixon to inspect the Wayne county roads, and Supervisors Roebuck and Peters were named as a committee to confer with County Clerk Larkworthy regarding the purchase of a new typewriter for use in the county clerk's office.

Clerk Larkworthy was instructed and was given the authority to pay the gas bills of the county when due and take advantage of the discount. The roads and bridges committee reported adversely on the matters referred to them regarding the changes to be made in the good roads and offered the recommendation in their report that no changes be made in the good roads map.

Before the board adjourned a representative of the John Neveen Co. addressed the members on the subject of the sale of the \$500,000 bonds, providing the election carries. Mr. Neveen declared he would like to make arrangements for taking over the bonds, and would especially like to take over the first \$100,000 of the issue.

The session cost the county \$584.58.

## SHERWOOD ON ROADS

The question of good roads for Berrien county is being quite generally discussed. There is a universal opinion, both in the country districts and in the cities and towns that we should build better roads for our county. Next spring we will have the opportunity to vote on the bonding of the county for \$500,000. I sincerely hope this proposition will carry. This will mean a larger valuation on our county, no heavier tax than we are now paying, and a much more economical expenditure of our money, and this money will be used and spent within the county, also the roads will be built in a short time (estimating \$500,000 to build from 125 to 140 miles of road.)

The two vital questions to settle are viz: First, what will be the proportionate tax for the country resident and the city taxpayer. Second, who is to spend the money?

Quoting from a recent article that very clearly stated our good roads question by Roland Morrill:

"If this county votes the proposed \$500,000 (5 per cent 20 year non-assessable bonds), the entire issue, principal and interest, will be paid as follows:

"Farm property—For first 10 years every acre will be taxed only three and 95-100 cents. For last ten years every acre will be taxed only eleven and 85-100 cents.

"City property—For first 10 years city property will pay 51 and 3-10 cents per \$1,000. For last ten years city property will pay \$1.54 per \$1,000."

This seems a very fair and reasonable tax and will be a hardship upon no taxpayer either in the country or city.

An engineer who is competent should be employed who is to have entire charge of the building and completion of these roads, subject to the approval of the board of supervisors and a commission of our best business men.

It seems to me the above argument if fully understood will satisfy the voters of the county so they will approve of the issue of \$500,000 bonds as has been recommended by our board of supervisors.

Respectfully,  
R. H. SHERWOOD.

## The Man Who Delivers The Goods.

There's a man in the world who is never turned down

Wherever he chances to stray;

He gets the glad hand in the populous town

Or out where the farmers make hay.

He's greeted with pleasure on deserts of sand,

And deep in the aisles of the woods,

Wherever he goes there's the welcoming hand,

He's The Man Who Delivers the Goods.

The failures of life sit around and complain

The Gods haven't treated them right;

They've lost their umbrellas whenever there's rain,

And they haven't their lanterns at night;

Men tire of failures who fill with their sighs

The air of their own neighborhoods;

There's the man who is greeted with love-light-ed eyes,

He's The Man Who Delivers the Goods.

One fellow is lazy and watches the clock

And waits for the whistle to blow,

One has a hammer with which he will knock,

And one tells the story of woe;

And one if requested to travel a mile

Will measure the perches and roods;

But one does his stunt with a whistle or smile,

He's The Man Who Delivers the Goods.

One man is afraid he will labor too hard,

The world isn't yearning for such;

And one man is ever alert, on his guard.

Lest he put in a minute too much;

And one has a grouch or temper that is bad,

And one is a creature of moods;

So it is hey for the joyous and rollicking lad,

For the One Who Delivers the Goods.

## NOTICE

2c John Babcock, Secretary.

## FRANK PAGET WILL

### BE THE PAID DEPUTY

Under Sheriff Frank Paget of St. Joseph, will be the paid deputy of Sheriff Franz and will be the first assistant to the sheriff, who made the announcement Friday morning.

"The \$50 voted by the board," said Sheriff Franz, "will not pay the salary of Mr. Paget. I will have to make up the difference myself, but I want to give the county good and efficient service, and therefore must have a deputy who can constantly be in call for any emergency case, and one who can look after things when I am away."

Mr. Paget will not take up the duties of his office for a few days. He resides near the sheriff's office and will be about the jail most of the time in the future.

# PRE-INVENTORY SALES!

Americas foremost merchant prince, Mr. Marshal Field, always insisted that every member of his great store organization should have constantly in mind the words "Money is made on turn-overs, and lost on left-overs"—Slow sellers retards business—Too much stock means too much idle money—It's easier to count the money than the merchandise at Inventory time. We like to SELL QUICKLY, then turn about and BUY QUICKLY to keep stocks always new. Hence the announcement of our Annual Pre-Inventory Sale—a quick turn over of goods on hand in all departments. "DELAY AND LOOSE" OR "ACT AND SAVE"—Sale starts tomorrow and continues till February 1st. We've had a splendid year—but we had to carry very big stocks to get it. If you hesitate and deliberate some one else will anticipate and take away the bargains. Are you going to "delay and loose, or act and save?"

## A Great Clearing of Women's Winter Coats and Suits

The end of a busy season and inventory close at hand, the main reason why these lines meet their Waterloo in Prices. Going back nine years we fail to recall a January in which so many fine garments were offered at such great reductions. Time had worked wonderful savings for you. Only a few weeks ago you would have paid double and more—eagerly. But all winter garments must go before February 1st. So here goes!
