

FORTY-EIGHTH YEAR

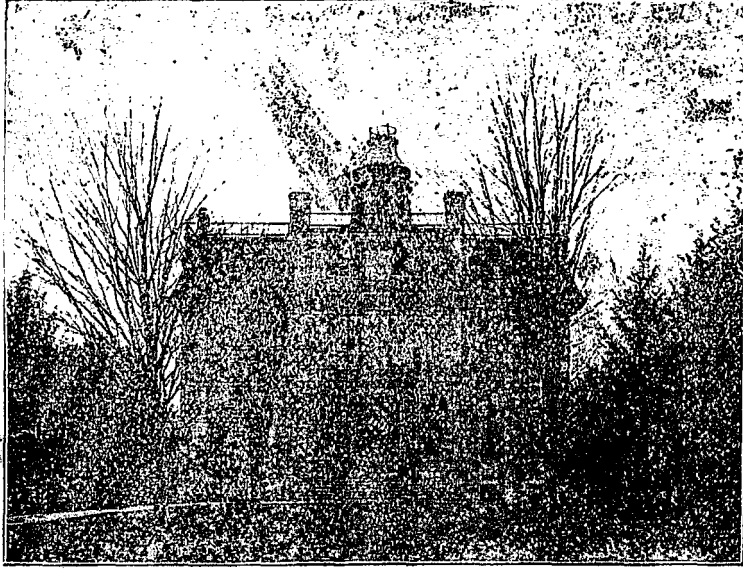

BUCHANAN, MICHIGAN THURSDAY MAY 27, 1915

COMMENCEMENT TIME RAPIDLY APPROACHING

Class Receptions Things of The Past, Leaving Only Pleasant Memories--The Graduating Exercises Friday Evening, June 4.

Commencement time is fast approaching. Already the class receptions are things of the past, leaving only pleasant memories. The final senior examinations are now in progress.

The sermon to the graduates will be delivered in the Presbyterian church Sunday evening, May 30, by Rev. H. I. Voelker of the Portage Prairie Evangelical church. This service will begin at half past seven o'clock. All the churches of the village are expected to be present. Special music is being prepared by Mrs. Rice, Miss Jenks, and a male quartette composed of the following young men: Herald Jenks, Richard Schwartz, George Roe and George Chubb.

The graduating exercises proper will be held in the Princess theatre, Friday evening, June 4. The address for the evening will be given by Dr. Ray R. Hardy of Lansing, one of the best young orators in the state. His subject will be "As a Man Thinketh," and the public may rest assured that it will be fraught with vital things for progressive people, ably discussed. An admission of 25 cents will be charged.

The graduates are Merritt Vite, Alene Peck, Louise Porter, Bernice Lano, Sam Rouse, Elizabeth Rouse, Sarah Eisele, Hattie Herman, Ruth Herman, Minnie Rose, Gertrude Bainton, Alice Beach, Lucy Beach. These young people have had a most excellent record during their entire school residence here, and well merit all that may be done in their honor.

These are one of the most satisfactory years in the history of the school. Never has the work been better systematized, nor the general education of the teachers higher. The work compares very favorably with the best schools in this part of the state. It is hoped that this high standard will be maintained.

LINER NEBRASKAN HIT IN WAR ZONE

Explosion Making Hole in Bow. Sends Vessel Back to Liverpool

London, May 26.—Crippled by a mysterious explosion, the American steamship Nebraskan is slowly steaming from the south coast of Ireland back to Liverpool, while the world is wondering whether "an act of war" has been committed against the United States.

The British admiralty unequivocally announces that the American vessel, flying the American flag and with its name and nationality painted in large letters on its side, was torpedoed by a submarine.

LETTER FROM MRS. BEN PRICE

The Star Spangled Banner— Long May It Wave

Float ever, droop, never, forever, old flag! Though the armed world assail you, what toward would you go To rise in defense of our beautiful flag? By a thousand campfires have the vows of our sires Ever been that the flag should still reign; And they battled and bled till the rivers ran red, But the flag floated free from all stain. Let us keep it unfurled to enlighten the world— Right's emblem as ages go by. Ever glad to the sight is that banner so bright As it ripples in glory on high.

—Walter G. Doty, in National Magazine.

TO PROTECT SURFACE OF MACADAM ROAD

At a meeting of the county road commissioners in St. Joseph yesterday, various road oils and binders were discussed, and it was decided to cover the Niles-Buchanan road for half the distance with Tarvia B, a mixture which is being extensively used on macadam roads throughout the state, and the other half with an asphalt oil, which contains 60 percent of asphalt. Commissioner Starkweather favors the latter, but inasmuch as there was a difference of opinion, a compromise was reached, it being decided to test both binders. If weather conditions are right, these binders will be put on the road next week with the new gasoline power distributor purchased by the county commissioners last year at a cost of \$5,500. The wearing qualities of the two binders used will be closely observed by state and county highway authorities.

Notice to Taxpayers.

DIXIE ROAD WON BY DIPLOMACY

County Surveyor Cleary Atty. Gen. Twin City Representatives Tell How

William J. Cleary of St. Joseph and A. P. Gady of Benton Harbor, twin city representatives of the Dixie Highway conference at Chattanooga, Tenn., made a collaborated report their successful mission in winning the trail through the twin cities and Berrien county.

The Dixie highway from Miami, Fla., to the Straits of Mackinac, is an assured thing for St. Joseph and Benton Harbor, but it was not an easy matter to secure it. It took considerable diplomacy and wire pulling and personal work to secure this result.

The commission finally decided to recognize the central Indiana route, through South Bend to Niles, thence on the West Michigan pike through Berrien Springs, St. Joseph, Benton Harbor to Mackinaw, and thence south to Bay City, Port Huron to Detroit, making a loop of the Great Lakes. This will allow Cincinnati and Dayton to project a line to Detroit. The result is that the Dixie highway will not be one single straight road across the United States, but coming by way of Nashville, Louisville, Indianapolis, and through South Bend over the West Michigan Pike to Mackinac. Down the east coast through Bay City, Port Huron, Detroit, Toledo, Dayton, Cincinnati, Lexington to Chattanooga, thus looping Michigan by a line along the shores of the great lakes.

The line from Indianapolis to Chicago will be a mere side issue, and that St. Joseph and Benton Harbor are on the great Dixie highway.

South Bend is especially elated, as now it is the junction point between the great Lincoln highway going east and west and the great Dixie highway going north and south, and its representatives are particularly grateful to the Michigan representatives, and they could not have succeeded in landing the Dixie highway through South Bend without the aid of the Michigan delegation.

The Beloved Adventurer.

The Biggest Cracker. The "kasabi" torta (we got our word "tart" from torta) of Hispanic-America is the biggest regularly made cracker on earth. It is made from the kasabi root and lightly fired in cakes about the size of a small parasol.

A cracker for a hat—such indeed is sometimes the use made by the Latin peons of the kasabi torta when needing a temporary sunshade (sombbrero). The torta is always made bowl shaped so it can be balanced on the head without any particular effort—and provided no wind interferes. Rain, however, quickly soaks and collapses this remarkable and useful edible headgear—London Express.

SOCIETY NEWS

The Young Ladies' Sewing club met with Miss Andlauer Monday evening.

Mrs. J. L. Richards was hostess to the Happy-go-Lucky club Tuesday.

Westminster Guild of the Methodist church, enjoyed a steak dinner at the home of Mr. and Mrs. S. Black, Monday evening.

Mrs. M. L. Hanlin entertained the Sewing club last Wednesday afternoon, and Mrs. Ralph Allen is entertaining the same company this afternoon.

The Occidental "500" club met last Friday afternoon with Mrs. M. L. Hanlin. Mrs. Alfred Richards won the club prize and Mrs. C. D. Kent the guest favor.

The Royal Neighbors agreeably surprised Mrs. S. E. Johnson last Friday, when a goodly number gathered at her home for a pot-luck dinner.

Mrs. Riley Hinkle of 1135 Portage street, South Bend, entertained a number of old-time Buchanan friends at her home last Friday evening in honor of Mrs. Lulu Milner (nee Morris) of Chicago. Those present were Mrs. J. C. Rough, Mrs. Joe Tarbell, Misses Kit Kingery, Florence Redden and Georgia Wilcox; also Mrs. Rolla Montague of South Bend. A very elaborate three-course dinner was served. Pink and white roses were the table decorations and the color scheme throughout the dinner. Each guest received as favors a silver spoon and a rose. The dinner was followed by a theatre party.

\$6,000 HARVEST HANDS WANTED IN OKLAHOMA

A bulletin has been received in the local post office stating that the Oklahoma harvest is about to begin and that from 16,000 to 18,000 men are needed immediately.

The wages paid for labor are from \$2 to \$3 a day, which includes free board and lodging. Those who expect to go the harvest fields should apply at the state offices at Wichita Falls, Texas, Clinton or Frederick, Okla. These cities are in the southwest part of the state, where the harvest begins the first week in June.

The offices in the northern part of the state are at Enid, Carmen, Alva and Woodward, where the harvest begins June 12.

Those wishing more detailed information should communicate with W. S. Ashton, commissioner of labor, Oklahoma City, Okla.

ILLUSTRATED LECTURE ON "THE WONDERFUL HEAVENS"

Prof. Moulton, Ph. D., One of The World's Foremost Scientists, Coming to Buchanan in Response to Invitation.

Next Tuesday night at 8:30 o'clock, in the new Princess, Prof. Moulton, Ph. D., head of the Department of Astronomy at the University of Chicago, will give an illustrated lecture on "The Wonderful Heavens."

Prof. Moulton is generally conceded by his contemporaries to rank among the first 15 or 20 of America's foremost mathematicians and among perhaps a half dozen of her leading astronomers. This fact becomes more significant where it is known that America leads the world today in astronomical research.

Prof. Moulton has had the courage to dispute the old "Nebular Hypothesis" of La Place and has backed up his assumptions by years of patient work in computation, appealing to the laws of dynamics for justification. So successful has his work along this line proved to be, that the old and, for many years, unquestioned "Nebular Hypothesis" has almost universally been discarded in favor of his new "Planetesimal Hypothesis." Though this has been his principal contribution to the science, it is only typical of the many lines of thought along which he has worked and is working today with unceasing patience and exhaustless energy. He possesses the characteristic gift of a genius. He guesses at the facts and generally guesses right.

Though Prof. Moulton has been a very popular and successful lecturer in the past, and is today the envy of Lecture Bureaus, he no longer has time for this kind of work and comes simply at the request of a Buchanan friend. In writing this, he says: "You may advertise lectures to the limit." These views will be the latest and most beautiful photographic productions of the leading observatories in this and other countries. There is, more- over, a chance that the map will be explained.

Typical research investigators and one of the foremost scientists of the world today, Prof. Moulton never talks over the heads of those whom he addresses. He is a very practical man and indeed it is this keen conception of the practical that has made him, like a few other investigators, so successful. His address is pleasing in the extreme, with just the proper proportions of thought and wit.

The affair is not a money making scheme in any sense of the word. It is merely the outcome of a desire on the part of a half dozen business men that Buchanan should hear the very best. Pastor, school teacher and members of educational clubs are asked to co-operate in advertising this lecture in their circles and among their friends. Certainly, all who are interested in the educational welfare of Buchanan will unite in giving Prof. Moulton a full house.

General admission 25c.

THE RECORD'S SPECIAL REAL ESTATE EDITION

On next Thursday The Record will issue a special real estate edition, containing, among other things, a list of nearly every piece of real estate that is for sale in Buchanan and vicinity. Some of these properties will be offered at very low price and on easy terms, and opportunity will be afforded many persons to procure homes, or buy farm property, at bargain prices. Those having real estate for sale should notify The Record at once, if it has not already been listed. The manifold advantages of this section will be set forth in the special edition, which will create widespread interest in local realty.

Memorial Day--Sunday, May 30 A Proclamation by the Governor

Now I hear his whistle; now I hear his song; now I hear the music of his horse's hoofs. He has said his last good-by to the old home. That was fifty-four years ago. All this comes to me through the magician called Memory. On Memorial Day I shall place flowers on his grave. Just a few of the "boys in blue" linger to recall the Civil war scenes. Only a few more years, at the longest, are theirs to live. I am sure that the boys and girls of this, the best nation on earth, have sufficient patriotic love to crave the privilege of decorating with a flower the person of every living member of the Grand Army of the Republic and every living Spanish war veteran. Remember the dead, although they cannot acknowledge your flowers. In all the years to come the graves of our dead patriots can be decorated; but only a few short years can we gladden the eye and shake the hand of the veteran. When we place flowers on every grave, when we speak graciously of the dead, we give most joy, most sympathy to those who remain to love, in memory, the dead.

On Memorial Day, we are sure that if the immortal Lincoln and the armies of the north and the armies of the south could with us assemble on one great camp ground, they would join in one great chorus for universal peace and good will.

Therefore, I, Woodbridge N. Ferris, governor of the state of Michigan, do hereby issue this my proclamation and heartily urge the observance of Sunday, May 30, 1915, as Memorial Day.

As a part of the public exercises of Memorial Day, I suggest, that bells be tolled from 12.00 noon until 12:05; the flags be placed at half mast, and that comrades stand with uncovered heads during this period.

Notice of Letting of Drain Contract

Notice is hereby given, that I, Frank A. Stryker County Drain Commissioner of the County of Berrien, State of Michigan, will, on the 11th day of June, A. D. 1915, at the residence of Fred Seyfred in the township of Gallien in said County of Berrien at 1 o'clock in the afternoon of that day, proceed to receive bids for the construction of a certain Drain known and designated as "Mud Hollow Drain," located and established in the townships of Buchanan, Berrian, Gallien, Weesaw, in said county of Berrien and described as follows, to wit:

Commencing 1360 feet East 30 feet S. of the N. W. corner of sec. 6 T. 8 S. and R. 18 W. thence West 1346 feet thence N. 45° W. 80 feet thence W. 1182 feet, thence S. 82 feet. Total length of drain 2700 feet. From stake "O," to stake 13 plus 76 feet a distance of 1376 feet said drain is on lands of Levi Batten; from stake 13 plus 76 feet to stake 27 a distance of 1324 feet, said drain is on the lands of Fred Seyfred. Said drain to be a tile drain from stake O to stake 20 and to be an open drain from stake 20 to stake 27. From stake "O," to stake 20 said drain to have a bottom width sufficient for laying a 24 in. drain tile and from stake 20 to stake 27 have a bottom width of two feet with slope of banks of 1 to 1. Depth of said drain to be from 2.10 feet to 11.85 feet as shown more fully on profile. Center line of above described survey to be center line of drain and one-half the width to be taken from each side thereof

and shall further include a margin of 15 feet on each side of said center line for the deposition of excavation and distribution of tile.

Said job will be let in one section in accordance with the diagram now on file with the other papers pertaining to said drain, in the office of the County Drain Commissioner of said County of Berrien, to which reference may be had by all parties interested, and bids will be made and received accordingly. Contracts will be made with the lowest responsible bidder giving adequate security for the performance of the work, in a sum then and there to be fixed by me, reserving to myself the right to reject any and all bids. The date for the completion of such contract, and the terms of payment therefor, shall be announced at the time and place of letting.

Notice is further hereby given, That at the time and place of said letting, or at such other time and place thereafter to which I, the County Drain Commissioner aforesaid, may adjourn the same, the assessments for benefits to the lands comprised within the "Mud Hollow Drain Special Assessment District," and apportionments thereto, will be announced by me and will be subject to review for one day, from nine o'clock in the forenoon until five o'clock in the afternoon.

The following is a description of the several tracts or parcels of land constituting the Special Assessment District of said drain, viz: E 10 A of W 1/4 of NW 1/4 of SW 1/4 sec 31 T 8 S R 18 W. ROAD BUILDERS PUSHING WORK

Commissioner Frank Starkweather Giving Liberal Attention to Roads in This Vicinity.

The work of county road building in this end of the county is being pushed vigorously under the supervision of Commissioner Frank Starkweather, who has already demonstrated that he is well fitted for the important position he holds. Mr. Starkweather believes in thoroughness in construction work, and also believes in maintaining the roads that have already been built. The recent heavy rains have played havoc with the Vanderslice fill on the Niles-Buchanan road, and Mr. Starkweather has engaged Contractor W. J. Miller to build a retaining wall, fearing that the road is in danger of being washed out at the point above mentioned. The concrete road south of town is also being repaired under the direction of Mr. Starkweather.

The work of grading for the macadam road to be built between here and Galien is progressing nicely. Contractor Saborn, of Kankakee, Ill., has a dozen teams and quite a force of men at work at a point near Dayton corners, four miles west of Buchanan, under the supervision of David Zaring. There remains an intersection of about a mile between Dayton corners and Springstein's corners, between which latter point and the Galien grist mill the work of grading was done last fall. The road builders' camp is at present situated in Speckine's grove, but it is about to be removed to the Strunk farm, near where the four townships corner.

Mr. Starkweather uses a Ford car in his work of inspection, and on last Tuesday morning, following quite a heavy rain, the Record man accompanied him over the portion of the above road that has been graded. The soil is clay much of the way and it was mighty rough traveling, but "Starke" doesn't spare his Ford, and mud up to the hubs has no terrors for him. He called attention to the clean-cut work of grading that has been done and expressed himself as being highly pleased with every detail of the work, which, as is plain to a careful observer, is being done with painstaking care.

The World's Finest Soft Drink.

"Parfay"

Unhesitatingly, unqualifiedly and in all possible sincerity do we use this phrase.

For we firmly believe that you can compare Parfay with any other, and with every other, soft drink without finding one that is its equal.

Consider its flavor. You will find in no other soft drink such a well rounded, full bodied, uniquely distinctive and delicious flavor.

Consider its smoothness. That's the real test of soft drink quality. You can not find, in all the wide world, a 5c drink that evens approaches it in smoothness. Connoisseurs declare that even the most expensive ginger ales and sarsaparillas do not excel Parfay in smoothness.

Consider its refreshing qualities. There's a wholesome stimulation about Parfay that makes it as exhilarating as a cold plunge, or a brisk walk in the keen morning air. It's a gentle and delightful sense of invigoration that Parfay gives—and there is no reaction. There's no other soft drink that equals it.

For these three big reasons, in addition to many minor ones, Parfay is truly entitled to be called "The World's Finest Soft Drink."

**BARNUM & BAILEY
CIRCUS COMING**

The Barnum & Bailey Greatest Show on earth, which comes to South Bend on Thursday, June 10, claim to present this year "A Circus of All Nations," meaning one that is filled with all the new features shown now for the first time and presented by 480 world-famed artists who represent every nation in the world. The entire world has been scoured by

special Barnum & Bailey agents so that practically all the arenic stars that are really worth seeing take part. The time-honored custom has always been to refer to each successive year's circus as "bigger and better than ever," but the phrase has become so hackneyed that, this year, Barnum and Bailey hesitate to use it, despite the fact that it adequately describes the entertainment. More railroad cars are required to transport the show, bigger tents are raised, more area is needed to accommodate the show than ever before.

In fact, the circus has reached a point where it is the despair of many of the smaller railroads and taxes their facilities to the limit, for eighty-five cars are needed to convey the gigantic canvas city from town to town. There's material enough in this year's circus to make a dozen circuses of the old days. A "big top" 680 feet long, nearly 1,500 employees, three rings, four elevated platforms, acres of aerial apparatus, the biggest stage ever erected for a dramatic presentation, a 110-stage menagerie, 750 horses, forty elephants, a street parade three miles long.

Maxwell

"The Wonder Car"

16 Great Service Branches—54 Maxwell District Offices—More than 2,000 Maxwell Dealers are always at the Service of Those Who Drive Maxwell Cars

When you buy an automobile you buy two kinds of service. First:—The service given and guaranteed by the car itself. Second:—The service given by the maker and the dealer while the car is in use.

The service the Maxwell car gives is known. 38,000 satisfied Maxwell owners have given the car the rough and tumble acid test of fully eighteen months' service. The Maxwell has shown that it is able to stand up under the severest use. In cities, over country roads, through mud and sand and up the steepest mountains, the 1915 Maxwell has made good for 38,000 owners.

THE SERVICE THAT THE MAXWELL MOTOR COMPANY GIVES

The service that the Maxwell car gives cannot be questioned. Any automobile owner from time to time requires service

from the maker of the car he drives. He sometimes needs new parts, adjustments, etc.

16 GREAT MAXWELL SERVICE BRANCHES

The Maxwell Motor Company takes care of Maxwell owners by maintaining 16 great Maxwell Service Branches. These branches are in great cities which have been selected in such a manner as to thoroughly cover the United States. They can deliver parts to any Maxwell dealer or Maxwell owner within a few hours.

54 MAXWELL DISTRICT OFFICES

54 Maxwell District Offices are maintained in leading cities. This means 54 District Managers, each with a corps of assistants. A great big part of the work of this army of skilled men is to see that Maxwell dealers give real Maxwell service to Maxwell owners.

MORE THAN 2,000 MAXWELL DEALERS ALWAYS AT YOUR SERVICE

Each of the Maxwell dealers in the United States and Canada is an automobile expert. Anyone of them stands ready at all times to give advice and assistance to any Maxwell owner. You can tour all of the United States and Canada and should your car require the attention of an expert you will find a Maxwell dealer near at hand. If you need a replacement part, and the dealer does not have it in stock, he can get it for you from the nearest Maxwell branch within a few hours.

Maxwell owners never have their cars out of service for days or weeks at a time waiting for replacement parts.

The \$695 Maxwell "Wonder Car" is the greatest real automobile value ever offered. The service that the Maxwell Motor Company gives is not surpassed by the service given by any other automobile manufacturing organization in the world.

Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

- Attractive Streamline Body**—Pure streamline body; graceful crown fenders, with all rivets concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.
- A High-Tension Magneto**—Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Simms magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.
- Left Side Drive—Central Control**—Left side drive with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.
- Three-Speed Sliding Gear Transmission**—All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will pull the car out of any mud or sand. The Maxwell has a three-speed selective sliding gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.
- Double-Shell Radiator with Shock Absorbing Device**—The Maxwell radiator is of handsome design, gracefully curved, and it is built to be trouble proof. It is the open type, double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which reduces the radiator of all twist and distortion of the frame, caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.
- The Roomy Full 5-Passenger Body Adjustable Front Seat**—The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped feet for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit tall people—fit no one.
- Low "Up-keep" Carburetor**—The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tests conducted by hundreds of dealers and owners in different sections of the country have proved its efficiency, its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.
- Irreversible Steering Gear**—The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its superiority over every other type lies in its many adjustments. At no time is more than a fourth of the bearing surface of the gear which operates the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.
- Heavy Car Comfort**—What surprises most people is the smooth, buoyant riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.
- One Size of Tire—Anti-Skids on Rear**—The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economy fact 30 inch x 3 1/2 inch tires are used all around. A four-inch wide anti-skid tire are supplied on rear wheels.
- A Dependable Electric Starter**—For \$55 extra, you can have your Maxwell delivered equipped with the famous Simms-Huff electric starter. This starter is efficient, trouble proof and easily operated. And the Maxwell is completely equipped from the clear vision, ventilating windshield at the front to the spare tire carrier at the rear.

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices. This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

DRYS READY FOR BATTLE

State Organization Will Start Out Petitions on June 10.

Lansing, May 26.—With the meeting here on June 10, restricted to trustees, the Michigan Anti-Saloon league plans to start its petitions for state-wide prohibition from that gathering.

It was intended to have a big mass meeting on that date, but this plan has been abandoned.

Although the drys figure it will not take them long to get the required signatures to the petitions, they argue that the more signatures they get, the greater the moral lesson to the people of the state. Hence, although the election will not occur until the fall of 1916, they want a full year to get the names of signers. Forty-five thousand names are needed, but they plan to have at least double that.

The plans for getting the names through the co-operation of the various county associations, to say nothing of the Green, the Cleaners' lodges and other societies which are naturally dry, will be completed at the session of the trustees, and from that time on, efforts to turn Michigan dry will be unrelenting.

WESTERN BOY MEMORY PRODIGY

His Mother Was Myra A. Hunter, Who Was Born in Buchanan. The May number of the American

magazine records some of the remarkable achievements of Cleo Chester Smith, of Denver, Col., who has accomplished astonishing feats of memory. While working at ordinary occupations he has acquired a mine of statistics of all kinds. To illustrate a lecture on Memory before the Colorado New Psychologist Society, Smith was brought before 150 well informed people in the Denver Public Library. He was subjected to a rapid fire of questions from the audience for three-quarters of an hour. These interrogations asked for the population (down to smallest detail) of any state, county or city in the United States, or any country or city in the world, the area of any country, the length of any river, the height of any mountain, the date of any state's admission to the Union, the date of any president's term of office, the number and kinds of manufacturers in any city anywhere, and anything and everything of current geographical or historical interest.

He astonished and captivated the audience by instantaneous replies to such questions as, "How many negroes in Cincinnati?" "How many Japanese in Spokane?" "Exact population of Glens Falls, N. Y.?" etc.

Only once, amid several hundred hazard posers, did he fail to respond instantly and that was to the all-important question, "who is governor of North Carolina?" Smith is the eldest of three boys in a plain western American family. The father, Chester R. Smith, was born in New York 69 years ago and is a veteran of the Civil war. The mother was Myra A. Hunter, born in Buchanan, and she is a dozen years younger than her husband.

City Hall Notes

Regular meeting of the village council held at the council chamber May 4, 1915. Meeting called to order by President Hanlin.

On roll call, the following responded: Trustees Adams, East, Leiter, Pangborn and Rehm. Absent, Trustee Peck.

Minutes of the last meeting were read and approved.

The finance committee reported as follows:

General fund, \$316.08; highway, \$96; water, \$149.24; cemetery, \$16. Total, \$577.32.

It was moved by Adams, supported by Leiter, that the bills presented be allowed and the clerk instructed to draw orders on the treasurer for the several amounts. The motion carried.

The druggist bond of W. N. Brodrick, with H. M. Brodrick and H. F. Kingery as sureties, was presented, approved and accepted.

The druggist bond of D. E. Ellsworth, with D. L. Boardman and Geo. B. Richards as sureties, was presented, approved and accepted.

The druggist bond of Dr. E. R. Stauffer, with H. R. Adams and A. Emerson as sureties, was presented, approved and accepted.

A petition asking that Front street be improved was read and referred to the street committee.

The clerk was instructed to correspond with the M. C. R. R. regarding the condition of the roadway at the south end of Day's avenue, adjoining the pavement.

The redeemed water bonds, series three and four, were destroyed by the clerk in the presence of the members of the council.

Trustee Peck came in at this time. Trustee Adams offered a resolution calling for the adoption of the ordinance governing the use of vehicles upon the streets of Buchanan, same to take effect May 20, 1915, and providing that the ordinance be published and pamphlets be distributed. The resolution was adopted.

The petition of Worth Hall asking permission to erect a mausoleum in Oak Ridge cemetery was read, and on motion of Trustee Peck, the following resolution was adopted:

Resolved, That the petition of Worth Hall, as presented to the cemetery board and common council, be accepted and that permission as prayed for therein be granted, provided that all work or construction be done under the direction of the cemetery board.

On motion of Trustee Adams, council adjourned.

George Cassler, Clerk.

BRICK PAVING THE BEST

Benton Harbor Has Had Sad Experience With Asphalt.

Inasmuch as the village council contemplates paving Front street, the following from the Benton Harbor News-Palladium may be of local interest:

If ever there was a city in Michigan that has had an object lesson on the folly of laying asphalt paving, it is the city of Benton Harbor. On almost every street where this paving has been done for any length of time there are either many bad spots or the paving has had to be repaired.

With brick paving, especially when it is laid upon a cement foundation, the result is entirely different. Good brick paving well laid upon a good foundation will endure for a generation. Our experience with asphalt is that it will last only a comparatively short time. Hereafter, why not do our paving with durable material, even if we have to do much less of it?

5,000 Years to Produce Beer of "Hoosier Cream" Quality

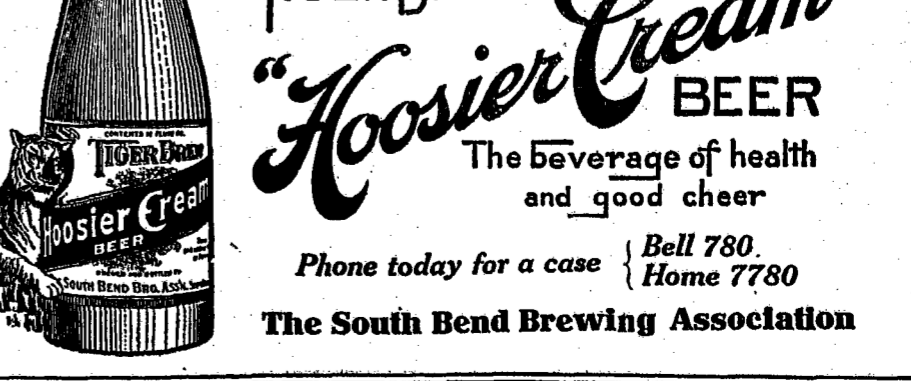

History records the brewing of beer (barley wine) in Egypt over 5,000 years ago.

Since that time the history of the industry has been one of continual betterment—better methods and facilities and a better product.

A modern exponent of all that is best in brewing is the brewery of the South Bend Brewing Association—the home of "Hoosier Cream" beer.

This brewery represents the crystallized thought, effort and money that has been given to the industry for ages past—it represents the skill and genius of many specialists, experts and engineers—an equipment procured in Europe and America.

And from this better brewery comes a better beer—"Hoosier Cream"—a beer brewed from the finest materials, aged to full ripe maturity—then freshly tapped, bottled at the brewery and promptly delivered before it has lost any of its goodness—pure, palatable, healthful—the soul of golden barley malt and aromatic hops.

Chancery Notice

First Pub. April 29

State of Michigan, in the circuit court for the county of Berrien, in Chancery, George W. Orris and Edna B. Orris, Complainants,

vs.

Erasmus Spencer and Almira Spencer, his wife, and their respective unknown heirs, devisees, legatees and assigns, Defendants.

In this cause it appears from affidavit on file, that the above named defendants, Erasmus Spencer and Almira Spencer are both dead, and that the names and places of residence of their respective unknown heirs, devisees, legatees and assigns, the unknown defendants in said cause, are unknown.

On motion of W. R. Stevens, solicitor for the complainants, it is ordered that the said defendants and each and every one of them, appear and answer the bill of complaint filed in said cause within five months from the date of this order, else said bill of complaint will be taken as confessed against them and against each of them; and further that this order be published within twenty days from this date in the Berrien County Record, a newspaper, printed in said county of Berrien and be published therein once in each week for six weeks in succession.

The above entitled suit involves the title to lands situated in Weesaw township, Berrien County, Michigan, described as the southeast quarter (1/4) of the northwest (1/4) of section thirteen (13) town seven (7) south, range nineteen (19) west.

OAK RIDGE MAUSOLEUM

To The People of Buchanan:

THE Cemetery Board of Buchanan has granted a franchise to Mr. Worth Hall, of Chicago, for the erection of a magnificent Community Mausoleum in Oak Ridge Cemetery, and have set aside a plot of ground on the highest point in the cemetery for that purpose.

This magnificent building will be constructed of Bedford stone, marble, concrete, steel and bronze and will be furnished with the most complete and modern sanitary equipment known to science. It will contain from 100 to 200 crypts, each crypt designed to accommodate one adult body and each equipped with its individual sanitary system which insures the permanent protection of the body contained therein against decay and disintegration.

The idea of caring for the bodies of our loved ones after death by placing them in magnificent and substantial tombs above ground is as old as history itself. The Pyramids of Egypt, the Tombs of the Kings throughout the East, the famous Temples of Greece and Rome as well as the ancient Cathedrals of Europe are all Mausoleums. The Bible constantly speaks of the tombs in which the body of Christ and the remains of His Disciples were laid to rest. History is full of references to the great men of former times whose bodies were placed within the walls of mighty Mansoleums erected to receive their remains as well as to honor and perpetuate their names. Hitherto Mausoleum entombment has been the privilege only of the rich and powerful, but with the advent of the Community Mausoleum, this sanitary, substantial and permanent way of caring for the dead is placed upon a basis of expense no greater than that of earth burial and in many cases not so great.

CRYPTS may be secured by subscription and pictures of the Mausoleum to be erected here may be seen at Lee Brothers Bank. The size of the building will depend upon the number of subscriptions received and the building, when finished, will be turned over to the subscribers, with an Endowment Fund placed in trust for its perpetual care and maintainance. There will be no charges or assessments levied for this purpose, as 5 per cent of the purchase price of the crypts will be set aside for permanent upkeep of the building and grounds. This ensures the Mausoleum against the inevitable neglect and abandonment of the forgotten grave.

Many prominent and progressive citizens of Buchanan and the surrounding country have accompanied Mr. Hall to St. Joseph to view a similar building erected there last year by the same architect and contractor who will design and build the Oak Ridge Mausoleum. Without exception they have expressed themselves as delighted with the building and have voiced the hope that Buchanan might enjoy the advantage of a similar movement. Several of the leading families of this city, after thorough and careful investigation, have already subscribed for spaces in the local structure and many others have announced their intention of doing so at an early date.

Crypts in the Oak Ridge Mausoleum will be allotted when the building is finished, in accordance with the date on which subscriptions for crypts were signed. The first subscriber has first choice, the second, next choice, and so on. Therefore, it is important that all those interested in this modern, humane and sanitary mode of caring for the dead, should subscribe for crypts immediately.

Inquiries may be made at Lee Bros. Bank and Mr. Hall will take pleasure in explaining further details of the plan to anyone requesting a fuller explanation.

Pigs Is Pigs

We made over 7,000 lbs. of Butter last week at our Glendora factory alone.

And we are piggish enough to want even more. The cream from which this butter was made comes from not only Glendora but also Buchanan, Niles, Cassopolis, parts of Northern Indiana and various parts of Southern Michigan.

Dairying brings a steady income and increases the fertility of your soil. Our mission is to make it still more profitable for you and we believe YOU should be piggish enough to sell your cream in the best market.

Strawberries will be wanted too. Call us up when you have some to offer.

The Bishop Creamery Co.
