

NOTHING DEFINATE YET AS TO TIME OF DRAFT

BULLETIN TO LOCAL BOARD
SAYS CAMP CUSTER NOT READY
FOR MORE MEN; NEW DRAFT
SCHEME ADOPTED.

The calling of the next contingent of the selective draft still remains very indefinite said Secretary Herbert Roe to the Record Wednesday. "A bulletin just received by us says that Camp Custer is not prepared to receive more men at this time and probably will not be ready for some little time to come."

This statement is the only answer that can be given to the men who are in the pending call and who expected to go from this district about the 24th of this month. The local office of the draft board has been besieged by questioners throughout the month and it has not been possible for the officers to give any even approximating definite answers to the questions.

It is presumed that the new draft regulations will apply hereafter to all men who are registered and it is perhaps partly due to these new regulations that the calling of these men are held up for the present.

It was not intended that the new draft scheme would be made public until about Nov. 1st but through an accidental leak in Washington the details of the plan became known and have since been given general publicity.

A comprehensive new plan for applying the army selective draft, which would take first only men without dependents and of no particular value to war industries, and establish various grades of dependency and industrial value from which future drafts would be made strictly on the selective basis, has been worked out tentatively by the provost marshal general's office and discussed with the president.

The plan was submitted recently to a conference of civilians who investigated exemption board activities in a number of states and received the endorsement of most of them, who are now discussing the proposed plan with their state governors.

It is proposed to formulate in each local draft district a table of all registrants, placing each in a column denoting his dependents and industrial value in the war's prosecution. The classification would be based on dependency. Men with no dependents would be placed in the first class, those with dependent distant relatives in the second class, those with wives in the third class, those with a wife and one child in the fourth and so on.

Similarly the vertical columns might represent certain industries arranged according to their respective merit as war necessities.

Industrial classes under consideration in this connection are farmers, shipyard employes, munition workers, railway employes and telephone employes, miners, steel plant and motor industry workmen, and certain other individual plants or industry branches to be designated from time to time by the president of the war department as temporarily essential. The latter classification might include plants making military clothing, harness, first aid materials, or professions such as chemists and other scientific men more needed for war research than to carry arms.

KAWNEER PLANT MAKES AEROPLANES

SAID TO BE GETTING READY TO
TURN OUT AIR CRAFTS UNDER
GOVERNMENT SUPERVISION;
FLYER TO BE SPECIALIZED.

An airship factory for Niles is assured and it is declared on good authority that the Kawneer plant, nation wide in reputation, will be turned into an airplane plant the first of the year.

Great secrecy has enveloped the plans for making of air machines in the local plant, but it has just leaked out today that the plans are all complete for the manufacture of a one-man machine.

It is declared on the best of authority that the Kawneer plant is actually engaged at the present time in the manufacture of certain parts used in airship construction, and that the plans and drawings are being worked out for the one-man machine. This flyer will be specialized by the local factory and when the government officials approve the plans, which are really being worked out under government supervision, the Kawneer factory will take up the work in earnest, devoting a major portion of the big factory to government work.

The airplane industry will mean an enlargement of the Kawneer plant in the near future, and it is possible discontinuance for a time of steel sash manufacture, but it is not likely that the new industry will interfere with the turning out of the copper store fronts.

P. M. OFFICIALS VISIT BUCHANAN

MAKING ANNUAL TOUR OF INSPECTION OF THE CO'S TRACKAGE AND PROPERTY; SAID NOTHING ABOUT NEW DEPOT

Monday was the first day of the third annual inspection tour of the Pere Marquette Railway and President Frank H. Alfred and his official entourage completed the inspection of the Detroit-Grand Rapids and the Grand Rapids-Chicago line as far as Porter, teing up at New Buffalo for the night.

Applying the standard gauge at every stop, the particular committee of the seven committees that are at work, did not find a variation in tracks which was greater than an eighth of an inch, which argues well for the operation during the coming winter.

The Detroit district was the penultimate winning one in the 1916 competition, Roadmaster William Meier, having captured the \$100 prize, while Grand Rapids-Porter district, under Roadmaster Fred Meier, was awarded a similar prize last year, for showing the greatest improvement in one year.

Tuesday the official car with the party came to Buchanan, tarrying here awhile. It is doubtful if, in their entire tour, which will cover a period of ten days, that they will find a structure more discreditable to their organization than the ramshackle affair which serves as a depot in Buchanan. No reference was made to the promise of a new depot, made nearly a year ago.

SUGAR EMBARGO HITS BUCHANAN

NATIONAL SHORTAGE FELT
HERE FOR FIRST TIME; GROCERS
FIND IT NECESSARY
TO CURTAIL SUPPLIES.

The growing shortage of sugar, of which much has been said from time to time in the past several weeks, has made itself felt in Buchanan for the first time this week.

Wholesalers are unable to supply to the grocers anything near the normal supply and an order for five barrels usually brings but a hundred pounds or so. The local grocers have talked over the situation and have decided that in a spirit of fairness to all their customers it will be necessary, until a larger supply is available, to limit the amount of sales. There are now limiting the sales to 2 1/2 pounds per customer and they ask the patrons aid at this time by using sugar as sparingly as possible.

In Grand Rapids, Detroit, and many other Michigan cities the dealers are selling but one pound at a time to a customer.

Assurances come from Washington that this situation is just temporary and that after a short time the supply will be plentiful; that there is no occasion for alarm nor should anyone getting of a supply for a few weeks ahead.

DOWAGIAC WINS FOOTBALL GAME

EXPERIENCE AND WEIGHT IN
GAME LST FRIDAY BROUGHT
VICTORY TO VISITORS; GOOD
CROWD OUT TO SEE GAME.

Dowagiac won an easy game from Buchanan Highs last Friday, defeating them 61 to 0. Weight and experience counted heavily against the local boys in this game, the visitors having things pretty much their own way until the second half was well along, then Buchanan began to play ball and was successful in holding their opponents to downs.

A feature of the game was the star tackling by Harold Mann who played fast and clean and generally kept the Buchanan boys from getting a chance to get into the game. The team but as yet needs experience in playing winning ball. After a few more games local fans are confident that the boys will begin to give good accounts on the field.

Weather permitting they will play at Coloma Friday; several will accompany them.

LOCAL CHURCHES TO CELEBRATE DAY OF PRAYER SUNDAY

Washington, Oct. 25—President Wilson has proclaimed Sunday, Oct. 28, as a day of prayer for the triumph of American arms. It follows:

"Whereas, the congress of the United States, by a concurrent resolution adopted on the fourth Sunday of the present month of October, in view of the entrance of our nation into the vast and awful war which now afflicts the greater part of the world, has requested me to set apart by official proclamation a day on which our people should be called upon to offer concerted prayer to Almighty God for His divine aid in the success of our arms; and

"Whereas, it behooves a great free people, nurtured as we have been in the eternal principles of justice and of right, a nation which has sought from the earliest days of its existence to be obedient to the divine teachings which have inspired it in the exercise of its liberties, to turn always to the Supreme Master and cast themselves in faith at His feet, praying for His aid and succor in every hour of trial to the end that the great aims to which our fathers dedicated our power as a people may not perish among men, but be always asserted and defended with fresh ardor and devotion and through the divine blessings set at last upon enduring foundations for the benefit of all the free peoples of the earth:

"Now, therefore, I, Woodrow Wilson, president of the United States, gladly responding to the wish expressed by the congress, do appoint Oct. 28, being the last Sunday of the present month, as a day of supplication and prayer for all the people of the nation, earnestly exhorting all my countrymen to observe the appointed day according to their several faiths in solemn prayer that God's blessing may rest upon the high task which is laid upon us to the end that the cause for which we give our lives and treasure may triumph and our efforts be blessed with high achievement."

The churches of Buchanan have announced that, in accordance with the president's proclamation, they will observe next Sunday, Oct. 28th, as a day of prayer and they extend a cordial invitation to all to attend these special services.

Mr. Drimond's Sunday school class met in the basement of the M. E. church Monday evening to pack boxes of delicacies to send to Arthur Mann and Clarence Jones, who are in training camps.

FOR THE BENEFIT OF THE

SOLDIER TREWIN WRITES

American Expeditionary Force, Sept. 14th, 1917
Dr. Etta Trewin,
Buchanan, Mich.

Dear Mother:
I don't know whether the letter I wrote to you while on board ship will reach you or not, but I am going to write often although I don't suppose you will get the letters regularly.

Have been in England almost two weeks and am going to leave tomorrow for parts unknown. When we landed I was detained with the supply company to check up on regimental freight and so didn't hit this camp until five days ago. There are 40 men left behind, and we had a fine time, eating and sleeping on the boat and getting "shore leave" every night. I loaned all my money to another radio nut and only had a dollar left, so I might have had a much better time than I did. Got acquainted with several Canadians who are, by the way, the most congenial of all the allied soldiers, and received a great deal of information first handed. The Australians, South Africans, New Zealanders and Indians are the finest fellows imaginable and the English Tommies are right on their heels. Have seen several Scotch units, but don't think they are inclined to mix very much.

As for England's part in the war, you can't meet anyone who hasn't relatives, living and dead in the army. There seems to be no particularly strained condition among the people, but I should say the reason is because everybody, women, children and old men, are all working steadily, making up for the able bodied men at the front.

England has a pretty good railway system but it does not come anywhere up to America's system for efficiency in handling freight. Their engines are very small as compared to the Michigan Central engines and the freight cars don't seem to be one quarter as large. The passenger cars are not so big and are divided into compartments holding eight people each, in comfort. We had to change

MINSTREL SHOW SOON FOR RED CROSS BENEFIT

WHAT IS THE SECURITY?

Q. A United States Government bond is frequently spoken of as "best security in the world." Why is this true?

A. Because the promise to pay a Government bond is backed by the faith and honor of the United States of America and by the taxing power of this whole country, which is the richest nation in the world.

Q. Has the United States issued bonds before; and, if so, has it ever failed to pay all of its bonds when they become due?

A. This Government has issued bonds before, and has never failed to pay every bond when it became due with all the interest on same. Even after the Civil War, when the country was suffering from a heavy debt and was not nearly so rich as it is today, all of the Government bonds were paid when they became due.

DRAFT APPEAL BODY HAS CERTIFIED 3,563

BOARD TAKES RECESS AFTER PASSING UPON 4,261 CASES; THE WORK IS NEARLY FINISHED.

Three thousand five hundred and sixty-three men have been certified for service in the National army by the board of appeals for the second district of western Michigan. The board adjourned Monday for a temporary recess after sitting since Aug. 23. Work of compiling and subdividing the various cases acted on has been in progress since Monday and with the exception of the reports from a few counties whose lists are still incomplete all of the names of the men called in the third quota have been secured.

Twenty-six local boards in twenty-one counties have sent in the names of 11,545 registered men. Of this number 6,676 were discharged by the local boards on various claims of exemption. The "slacker list," names of men who did not report for examinations, totaled 608. The district board of appeals did not pass upon the men discharged by the local boards but of the 4,261 certified to it, 3,563 were chosen for service and 409 were discharged. There are 289 cases still pending.

Investigators are still working on the list of "slackers," and names of these men are being brought in from time to time.

Appeals to the president from the action of the district board number 153. Ninety per cent of these appeals are from the agricultural districts. These cases are forwarded to the adjutant general in Lansing, where they are in turn sent to Washington for final action.

HAPPY-GO-LUCKYS TO GIVE CARD PARTY FOR BENEFIT OF LOCAL SOLDIER BOYS

The Happy-Go-Lucky club will give a social affair in the rooms of the Moccasin Club on next Tuesday night. Cards will be the feature of the evening and those who do not wish to play are invited to take along sewing. Prizes will be awarded to both men and women and coffee and doughnuts will be served.

The purpose of the social affair is to raise money which will be used to buy Christmas boxes for the Buchanan boys who are members of Uncle Sam's army. An admission charge of 25c will be made and everybody is invited. You can do your "bit" for the Buchanan soldier boys by attending this affair.

LAYMEN'S BANQUET TO BE HELD OCT. 30

Twenty-five Buchanan men are planning to attend a Laymen's Banquet which will be held in Niles, Tuesday evening, Oct. 30th.

Bishop Samuel P. Spreng D. D. of Naperville, Ill., will be the principal speaker, and the music will be furnished by a male quartette from South Bend and the Portage Prairie orchestra.

The ladies of the Niles Evangelical church have been requested to serve the supper and will put up a fine chicken dinner at 50 cents per plate, which will be served in the church parlors promptly at 8 o'clock, after which the men will assemble in the main auditorium for the excellent program arranged by the committee.

Layman from St. Joseph, Benton Harbor, Lima, Royallton, Portage Prairie, Niles and Buchanan will be present.

EDWARDSBURG KNIGHTS VISIT BUCHANAN

BIG EVENT TO BE STAGED IN NEW CLARK AUDITORIUM WHEN COMPLETED FOR BENEFIT OF LOCAL RED CROSS.

President Clark and the officers of the Clark Equipment company, ever anxious to do their "bit" to bring happiness into the lives of their employees and the people of Buchanan and to render material aid to the Red Cross, are planning a three or four days' event around Christmas time.

This will be a minstrel show, under the supervision of Vice President M. L. Hanlin and which local talent will appear. The show will be given three or four nights, sufficient performances to permit of every person in this vicinity seeing it.

The admission price has been fixed at 50c to all, but in the case of employees he will pay one half of the admission price and the company will pay the other half.

The company will bear all the expenses of the show and will turn all of the receipts over to the local Red Cross Chapter. It is expected that all citizens will aid in the ticket sales and by buying as many tickets as they can possibly use. It will be recalled that it was not possible to accommodate all of the persons who wanted to see the minstrel show given in Buchanan last winter, though the show was given on two nights.

The coming event will be given in the auditorium at the plant of the Clark Equipment company which will be completed in about 40 days. Work on this auditorium was started last spring but a shortage of labor and material has interfered with its completion which was planned early in the summer months. Work has again been resumed and it is not now expected that anything will interfere with the work and that it will be ready for use about the middle of December.

The auditorium will have a seating capacity of over 600, will be fitted with a stage of ample size, attractively finished and with comfortable seats. It is expected that the coming minstrel event will mark the dedication of the new building.

In response to the encore she told a very pleasing Southern story which was also much enjoyed.

One of the delightful October social affairs was the Halloween party given at their home last Friday night by Mr. and Mrs. Ebner Guyer, twenty persons being their guests until the hours had grown young again. The homes of Mr. and Mrs. Guyer and Mr. and Mrs. Ben Guyer were appropriately decorated, the guests being received at the home of Mr. and Mrs. Ebner Guyer and appearing in costumes befitting the night. When the guests had assembled they were escorted to the home of Mr. and Mrs. Ben Guyer where their fortunes were read, games were played and a delightful Halloween supper was served. A pretty feature of the affair was the large cauldron kettle, with lights of red burning underneath and in which was the little son of Mr. and Mrs. Guyer, representing the spirit of the night.

Hugh Bristol had a narrow escape

from serious injury Monday afternoon when the cable of the freight elevator at the Cabinet shop broke, letting the platform fall from the second story to the basement. Mr. Bristol had taken a truck filled with material from the first to the second floor and was about to leave the elevator when the cable parted and the elevator fell to the basement at a rapid rate. The injured man was given immediate medical attention and taken to his home, and while pretty well shaken up no bones were broken. He was down to the shop Tuesday afternoon, although he will not be able to work for several days.

RECALLS EXEMPTION THAT HE MAY SERVE HIS COUNTRY

CHAS. W. LANP—QUITS EXCELLENT POSITION AND OFFERS SERVICES TO HIS COUNTRY; GOING TO CAMP CUSTER

With true patriotic fervor and strong in the belief that his duty to country is greater than duty to self and his position, Charles W. Landis has tendered his resignation as assistant cashier at the Buchanan State Bank and has made request of the local draft board that he be permitted to go to Camp Custer with the next contingent to leave the second district of Berrien county.

Under the draft regulations a municipal officer is automatically exempted from military draft and the local board acting under this ruling gave exemption to Mr. Landis, because of his position as village treasurer. He has now recalled his exemption papers and will soon be a soldier of Uncle Sam's. He has worked diligently since the draft law became operative to clean up the collection of taxes and other duties incident to his office and now has his affairs in such excellent shape that it can be safely left in the hands of others.

By his action Mr. Landis has set an example before all young men most worthy of emulation. He has proved the sterling qualities of his make up, proved that to him duty to country stands before all else. He is voluntarily giving up the comforts of home, opportunity for pecuniary gain and personal aggrandizement that he may give of his best to his country, that he may help to keep spotless the flag that stands for liberty, justice and universal brotherhood. May the spirit which prompted his decision grow with the passing of time in the breasts of all men.

ATTORNEY WORTHINGTON MAKES VISIT TO GREAT STATE MILITARY CAMP

Dear Mr. Editor: In complying with your request will try and give you in a brief way something of an idea of Camp Custer. I went to the camp on the 19th inst. for the purpose of attending a meeting to be addressed by Dr. Mott of New York, to see the camp and attend the dedication of the Y. M. C. A. auditorium. The Y. M. C. A. auditorium is said to be the finest of its kind in Europe or America. The streets of Camp Custer are as muddy as they can be, and they reminded me of our own Front street. Camp Custer has one thousand buildings completed and they are used for barracks, mess rooms, hospitals, power houses, Y. M. C. A. rooms, and other purposes. A cement road has been built nearly around the camp; this is about the only good place to walk outside the drill grounds, and you are told not to walk on it because you might get hit with a mule team. In the center of the camp you will find the drill grounds, and if you have any doubt about our being at war take a trip to Camp Custer some morning and see a portion of the 18000 men drilling, it is a magnificent sight. All sorts of military tactics are being taught by competent men, and you ought to see how our boys enter into the spirit of the thing. This great drill ground reminds you of the pictures you have seen of the real thing in Europe. If you expect to find anyone at Camp Custer be sure and get their house number before you leave home. About noon I went back to Battle Creek for the purpose of attending the great Mott meeting at Post Theatre, there was about 2,500 men present at this remarkable meeting. It was a Y. M. C. A. meeting and was held for the purpose of raising Michigan's share of the \$35,000,000 that must be raised by July 1, 1918. Michigan's share is \$1,250,000, and in nine and one half minutes \$1,376,000 was pledged. After this meeting we went back to Camp Custer to eat mess with the soldier boys and attend the ded-

ication exercises. The mess proved to me that our boys are well fed for we had boiled potatoes with gravy, roast pork, apple sauce, bread, butter, coffee and cake. The meeting at the auditorium was attended by over 3000 men. The music was furnished by the camp band consisting of 36 pieces, and the camp male quartette. Dr. Rice of Detroit, who recently returned from the trenches, was the principal speaker of the evening. The Y. M. C. A. is doing a great work, not only in the camp but in all the training camps of Europe and America. The boys at Camp Custer have nothing but words of praise for the Y. M. C. A. This organization has about eleven rooms on the grounds and these are all well lighted and heated, and you will find in them all kinds of good reading matter and music. One thing that attracted my attention was the large fireplaces in these buildings, the boys gather about them and have fine times. This is just a general idea of the camp, and I hope you will go down and see the camp and then come home and by a LIBERTY BOND.

A. A. Worthington.

NOTICE TO THE PUBLIC AND PATRONS OF THE PRINCESS

With the signing of the war revenue bill by President Wilson, beginning November one, the manufacturers and exhibitors of the motion picture industry will feel a very severe effect of the war. The exhibitors are thoroughly patriotic and have for the past three years been paying a war tax to the government and have also given the screen to aid the government in many ways.

The law says that the tax is "to be paid by the person paying for such admission," in other words by the public and not the exhibitors. For this reason on and after Nov. 1st, the total admission fee to the Princess will be 11 cents for adults and six for children. While the public is only ask to give one cent war tax, the exhibitors must give in addition from ten to 15 per cent tax on each reel shown, besides a 20 per cent advance on all products.

Many theatres have advanced the prices to 10 and 15 cents to 20 cents and some 15 cents to 25 cents, but the Princess will ask their patrons to pay only the one cent tax in addition to the regular admission or eleven cents for adults and six cents for children, thus saving the public four cents on the people's chief amusement, which is small and should be borne patriotically and considered only a small bit in helping win the war.

The tax on the film industry means literally a 20 per cent tax or more than is imposed upon any other industry engaged in production of any character of goods.

Again please bear in mind that the

tax of one cent is as essential as your ten cent ticket. It is the patrons' tax but it is up to the exhibitor to collect it for the government and to keep the books.

We are making every effort possible to strengthen the program this winter and recently signed contracts for the Great Art Craft and Goldwin productions. In these new releases you will find Mary Pickford, Douglas Fairbanks, Wm. Hart, Mae Marsh, Maxine Elliott and the best screen stars.

PRUDDEN PROMISES STATE ENOUGH COAL

FUEL DICTATOR RETURNS FROM WASHINGTON; 500 CARLOADS ENROUTE; MAYORS TO DIS-TRIBUTE IT.

Lansing—Michigan's fuel administrator, W. K. Prudden, who returned to Lansing Friday afternoon after a conference with Federal Fuel Administrator H. A. Garfield at Washington is convinced that the people of this state will not suffer through lack of coal during the coming winter.

Eastern coal operators who control the supply of bituminous and anthracite coal show no disposition, according to Mr. Prudden to oppose the government and orders placed by the fuel administrator are given precedence over all orders placed by individuals.

Estimating Michigan's immediate needs at the very minimum Mr. Prudden has placed orders for emergency shipments of 500 cars of coal and he has been given to understand that they will be given immediate attention.

As soon as a shipment of coal is received in any city it will be taken in charge by the mayor. Local committees working in conjunction with the state administrator will see that it is evenly divided among the patrons of the local companies who need it. Fuel will not be delivered to those who already have coal in their bins.

The Tom Cat. At midnight in the alley A Tom-cat comes to wail. And he chants the hate of a million years As he swings his snaky tail.

He twists and crouches and capers And bares his curved sharp claws, And he sings to the stars of the jungle nights Ere cities were, or laws.

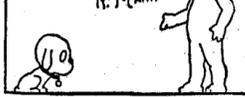

Beast from a world primeval, He and his leaping clan, When the blotched red moon leers over the roofs, Give voice to the scorn of man.

He'll lie on a rug tomorrow And lick his silky fur, And veil the brute in his yellow eyes And play he's tame and purr.

But at midnight in the alley He'll crouch again and wail And beat the time for his demon's song With the swing of his demon tail.

Food Conservation Proclamation

By The Governor
To the Housewives of Michigan:
Beginning October 28, duly accredited representatives of the United States Food Administration will visit every home in the United States with a view to obtaining the signatures of housewives to cards which will pledge the signer to co-operate in a nationwide food conservation endeavor.

Michigan will be canvassed thoroughly, and it is the hope of every patriot that our state shall make a showing equal to the best. You are earnestly asked to give these canvassers a courteous reception and a moment of your time. They have a few days only in which to canvass your community, and they will be brief and to the point.

They will explain that the object of the conservation campaign is to save food stuffs that can be sent abroad for the use of our soldiers, and to help feed the starving popu-

lations in countries which have been made theater of a hideous war, without our defense, co-operation of men, money and food will certainly be brought to our own doors.

You will be asked to do your bit by doing what you can to conserve food by making certain substitutions in the preparation of family meals. It is a patriotic duty and I feel sure that you will receive, with a willing mind, the suggestions of these agents of food administration and do your best to follow the subsequent suggestions that will be made to you.

Therefore, I, Albert E. Sleeper, Governor of the state of Michigan, do hereby earnestly request all housewives and others having supervision and control of the disposition of food for table use, to co-operate with the food conservation forces of the state to the very best of their ability.

Albert E. Sleeper,
Governor.

DRAFTED MEN TOO BUSY TO TALK WAR

LITTLE DISCUSSION OF DEVELOPMENTS ACROSS OCEAN ARE HEARD; ANXIOUS FOR SERVICE.

To the civilian who frequents Camp Custer and has occasion to mix with officers and men there it is a constant source of wonder that in the midst of all this feverish preparation for war one hears absolutely no war talk or discussion. It is as though discussion of the war were officially taboo. With their whole time occupied in getting ready for battle the officers seem to have no time to discuss battle and there is an absence of curiosity and interest in the development of the campaign across the ocean that is the outstanding feature of the camp in the eyes of the civilian.

Try as one may to engage an officer in a discussion of Europe's war or Uncle Sam's part in it there is but one result. He will express the conviction that the war is going to last several years and that Uncle Sam is going to have at least 3,000,000 men in the field before peace is offered. And there he will stop. War news, which ought to be as popular at Camp Custer as world-series dope in a nest of dyed-in-the-wool fans attracts little attention.

It seems just like the spirit in a big college where everyone is pulling to develop the best possible team, but no one is particularly interested in what the opposition is doing. As a matter of fact officers and men at Camp Custer are taking this war as a matter of business. Everyone is doing his best to speed up the training and organization and equipment of the army, determined to turn out fighting machines of the best possible quality. The only thing that does not matter. There is work here to be done and it is being done.

Everyone is anxious to see the National army, particularly this division speedily whipped into shape because most of those here are anxious to get across the big pond and get a chance to do their bit against the hosts of the Kaiser. They are interested in anything that will help the work of preparation and apparently nothing else

matters. No one has any doubts as to the ultimate decision. The confidence in Uncle Sam's ability to turn the tide is universal, but the officers who know the situation are probably responsible for the almost unanimous belief that this is a war of years rather than of months, and that the United States is destined to play a most important role, both on land and sea and in the air before Prussianism is made to bow before a world's democracy.

Muskegon—Motorists who use Muskegon county roads in the future will do well to keep close watch of their speedometers. The supervisors Tuesday abolished the office of autocop and vested the authority of road police in every deputy sheriff, raising their salaries to \$1,200. An extra deputy was also appointed.

Marquette—John T. Quine, mine inspector for Marquette county says that fifteen fatalities occurred in the mines of the county during the last year. There were 261 serious accidents. He reports that 5,569 men are employed in the Marquette county mines. There were 571 slight accidents.

"The devil sat by a lake of fire, on a pile of sulphur kegs, His head was bowed upon his breast His tail between his legs.

A look of shame was on his face, The sparks dripped from his eyes.

One of the angels who was his bloody shot and shell Knows more about damnation than All the imps of hell.

Give my job to Kaiser William, the Author of the war, He understands it better, a million Times by far.

I hate to leave the old home, the Spot I love so well, But I feel that I'm not up to date In the art of running hell."

ARMY LIFE

No more ham and eggs or grape fruit,
When the bugle blows for "chow,"
No more apple pie or dumplings,
For we're in the army now.

O! they feed us beans for breakfast,
And for dinner, have them too;
Then at night they fill our tummies
With that good old army stew.

No more fizzes, beers, or high balls,
When we've got an awful thirst;
If you're thinking of enlisting,
Best get used to water first.

For the lid's on tight all over,
And the drilling makes us warm,
But we can't cool off with liquor,
Cause we wear the uniform.

No more shirts of silk or linen,
We all wear the O. D. stuff;
No more night shirts or pajamas,
For our pants are good enough;

No more feather ticks or pillows,
But we're glad to thank the Lord
That we've got a cot and blanket
When we might just have a board.

For they feed us beans for breakfast,
And at noon we have them too,
And at night they fill our tummies
With that good old army stew.

But by jinks we'll lick the kaiser,
When the sergeants teach us how,
For hang him, he's the reason
We're in the army now.

—A Buchanan Soldier.
