FIFTY-THIRD YEAR

BUCHANAN, MICHIGAN, FRIDAY, JULY 16, 1920.

NUMBER 27-B

ANOTHER PARK PARTY SATURDAY

CITIZENS URGED TO AID IN CLEANING UP MOCCASIN PARK AND PREPARING PLAYGROUND.

Buchanan Boy Scouts, under the direction of Assistant Scoutmaster Ryan, will aid in caring for underbrush and tree trimmings in the big clean-up at Moccasin park tomorrow afternoon. The aid of every man in town is solicited for the work. Quite a number have already volunteered their services. Mr. Bohls will again be present and direct the work of tree trimming. Those having axes, grubbers or saws, are urged to bring them along and thus provide their own instruments of torture.

Miss Kingery has personally solicited the aid of a number, but if you have not been asked, come anyway. It is as much to your interest as anybody's to have the park cleaned up and rendered fit for some use to the town.

The village council has been asked for an appropriation to furnish the equipment for the playground. If they do not "dig up," we are quite certain that the committee will find some other means of financing the place.

The clearing of the grounds will probably be the hardest part of getting the kids' playground under way. This is a community project and should be of interest not only because of the enjoyment it will afford the youngsters, but also because of what it will add to the beauty of our town. Last week's squad gave a good start to the work, but there yet remains plenty to keep a lively bunch busy all Saturday afternoon.

Work will be commenced promptly at 1 o'clock and all hands are urged to be on time for the community clearing lot party.

SLIGHT FALL RESULTS IN BROKEN BONES

Mrs. Zacharias Cain had the misfortune to fall and break one of the large bones of the leg Wednesday afternoon. Mrs. Cain was attending a meeting of the Missionary society at the Peacock home and had hurriedly arisen to open the door for someone. The floors had been freshly waxed and the rug, on which Mrs. Cain stepped, slipped, throwing her to the floor and breaking the bone between the knee and the hip. Dr. Curtis, who is attending her, fears that the pelvic bones may have been injured. Mrs. Cain is now being cared for at Clark hospital.

DAIRYMEN PLAN SUMMER TOURS

HOLSTEIN-FRIESIAN ASSOCIATION TO HOLD COUNTY MEETINGS LAST WEEK IN JULY AND FIRST IN AUG.

A series of summer meetings in the form of automobile tours through the southern counties of the state, is being planned by the Michigan Holstein-Friesian association. These tours, which are to run from July 27 to Aug. 7, will be held in 10 different counties and are expected to reach men from a large number of other counties surrounding those from which the tours start.

Visits to Holstein herds in each county, addresses by representatives of the Holstein-Friesian Association of America, the Michigan Agricultural college and the Michigan Milk Producers' association, and basket lunches at noon will feature each tour. The trips will be started each morning from some central point in the county. Local committees are arranging details for the different tours.

The schedule has been announced as follows:

Shiawassee county, July 27.
Saginaw county, July 28.
Tuscola county, July 29.
Lapeer county, July 30.
Genesee county, July 31.
Lenawee county, Aug. 3.
Washtenaw county, Aug. 4.
Livingston county, Aug. 5.
Ingham county, Aug. 6.
Jackson county, Aug. 7.

All dairymen in the districts to be visited have been invited to join the caravan, and it is expected that a great number of men will take advantage of the opportunity to inspect their neighbors' herds and become better acquainted.

FOUR MORE AERIAL MAIL ROUTES PLANNED

The postoffice department has asked for bids covering the operation of additional routes of the air mail service. The new routes which, the commission described as supplementing the transcontinental air mail service between New York and San Francisco, include the following:

Cleveland to Detroit, 95 miles; Pittsburgh to St. Louis by way of Columbus, Cincinnati and Indianapolis, 600 miles; New York to Chicago by way of Harrisburg, Pittsburgh and Fort Wayne, Ind., 735 miles; New York to Atlanta, Ga., by way of Washington, D. C., Raleigh, N. C., and Columbia, S. C.

The contracts call for at least 300 round trips over each route per annum, 1,500 pounds of mail being the trip load in practically every case.

M. W. A. FIELD DAY AND LOG ROLLING

The program for the M. W. A. field day and log rolling at Berrien Springs, next Sunday, July 18, is as follows:

- 10:30 a. m., to park, Lake Chapin.
- 11:00 to 12:00, tug of war between R. N. A.'s camps.
- 12:00 to 1:30, dinner.
1. Boys' shoe race, boys 12 years and under.
2. Girls' shoe race, girls 12 years and under.
3. Boys' foot race, 12 years and under.
4. Girls' shoe race, 12 years and under.
5. Girls' foot race, 12 years to 18 years.
6. R. N. of A. foot race.
7. M. W. of A. foot race.
8. Boys' sack race.
9. Fat man's race.
10. Ladies heavyweight race.
11. Horse shoe pitching contest of all camps at the meet, for men.
12. Drill by Dowagiac R. N. of A.
13. Drill by Buchanan R. N. of A.
14. Drill by Berrien Springs R. N. of A.
15. Drill by Niles R. N. of A.
16. Drill by Mishawaka R. N. of A.
17. Drill by South Bend R. N. of A.
18. Drill by Buchanan M. W. of A.
19. Drill by Dowagiac M. W. of A.
20. Drill by Niles M. W. of A.
21. Drill by Mishawaka M. W. of A.
22. Drill by South Bend M. W. of A.
23. Tug of war between M. W. of A.'s.

A prize of \$2.00 will be given for best cake, baked by girls under 16 years. Cake to be presented before 12:00 o'clock.
Prize to oldest lady on grounds.

GOLF TOURNAMENT NOW BEING PLAYED

GOLF ASS'N MEMBERS WARM UP WITH ENTHUSIASM; SEC- OND FLIGHT BEGINS NEXT MONDAY.

The annual golf tournament is now being played at the Country club. Much enthusiasm is being shown by club members participating. The first flight began last Sunday. Next Monday will mark the opening of the second flight, which will probably be finished about July 26.

The tournament is to be played as a handicap all the way through and silver cups are to be awarded to both ladies and gentlemen.

The Niles-Buchanan Golf association is developing some good players amongst its ranks. Representatives from the club nearly always carry off prizes in tournaments held at neighboring clubs. H. C. Chamberlain, Jack Koons and P. A. Graffort represented the Niles-Buchanan association at the annual tournament at Elkhart this week. Mr. Chamberlain captured the beautiful silver cup and Mr. Graffort a \$20 auto bumper. The loving cup won by Mr. Chamberlain is the first trophy of this type to be presented to the Niles-Buchanan Golf association. The cup is of hammered silver, gold lined and mounted on an ebony stand. It was obtained by Mr. Chamberlain winning first place in class C. Mr. Cuddy played for the Niles section and won a half dozen golf balls.

SPEED BOYS DEFEAT GALIEN

Benton Harbor ball team defeated Galien by one run in a game of 13 innings, Sunday. The games seemed marked for Galien's victory until the eighth inning when by dint of desperate playing and the good will of Lady Luck, Benton Harbor checked in two runs. In the ninth they scored four more, tying the game. There was no scoring until the lucky 13th, when the winning run was made by Burkam, who played center field for the Speed Boys.

GOOD RESULTS IN FARM BUREAU DRIVE

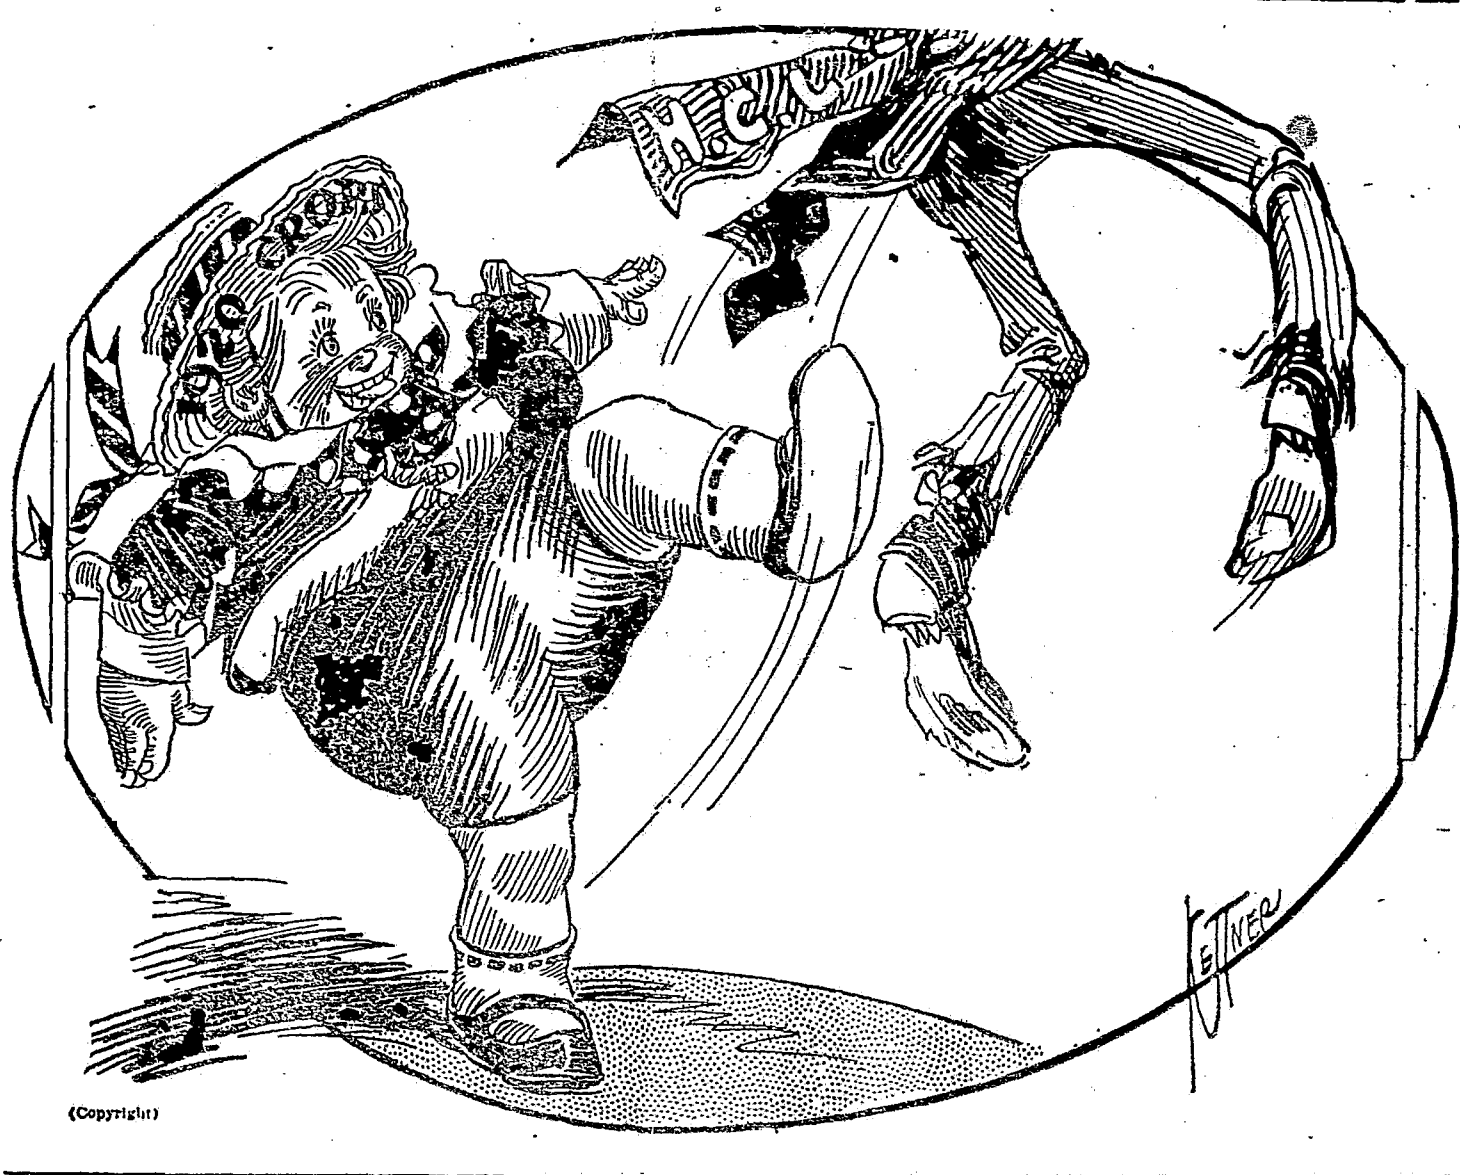

About 175 new members have been secured for the Berrien county farm bureau from the townships of Chikaming, Three Oaks, Pipestone, Royallton and Coloma since Tuesday, when the clean-up membership drive for the bureau was instituted. Sixteen townships remain to be canvassed.

W. H. Larrimer of the U. S. department of agriculture, will be in the county Wednesday of this week to investigate the Hessian fly situation here. He will make experimental wheat sowings in the vicinity of Niles as a part of his investigation.

Solicitors for the South Clear lake picnic have added 12 more merchants to their list of 32 from Buchanan who have subscribed to the prizes to be awarded in the contests. The picnic will be held on Aug. 11, and will be the 25th annual event of the kind.

Census returns announced this week include. Berrien county with a census for 1920 of 62,653, an increase of 9,031. This census includes the city of Benton Harbor with 12,233 inhabitants.

A Husky Youngster

TO REDISTRIBUTE SCHOOL LANDS

TOWN BOARD TO MEET JULY 28TH TO DETACH LAND FROM WEESAW AND BU- CHANAN DISTRICTS.

The township boards of Buchanan and Weesaw townships will hold a joint meeting at the Coveny schoolhouse, District No. 4, Buchanan township, on July 28th, at 2 p. m., (fast time), for the purpose of changing the boundary lines of the school districts.

As the districts are now divided, districts Nos. 1 and 4 of Weesaw township include a part of Buchanan township. The township boards propose to detach this land from the districts to which they now belong and attach them to District No. 4, Buchanan township.

This change is proposed by the board in order to equalize the school districts and so that the pupils will not have so far to go to school.

The meeting at Coveny schoolhouse will be open to all school patrons and the town boards wish an expression of opinion from all as to the redistricting of the land.

Notices have been posted on the schoolhouse doors of all the districts concerned, advising patrons of the proposed meeting.

COUNTY FEDERATION PICNIC TO BE HELD JULY 28TH

The annual picnic of the County Federation of Women's clubs will be held on August 28th, at Indian Field, Berrien Springs. All members of the federation are urged to be present and bring plate, napkin, silver and a picnic lunch. Coffee and ice cream will be served on the ground.

Good speakers have been engaged for the day and there will be a message of interest for every club woman of Berrien county. The question of planting forest trees as a memorial for service men who gave their lives in the World war will be taken up, as will also the question of a health officer for the county.

REST ROOM WILL OPEN SATURDAY

MORE FURNITURE NEEDED FOR ROOM; WHY NOT ADD A FEW COM- FORTS?

The ladies rest room above the Smith shoe store will be opened on Saturday of this week. The room has been thoroughly cleaned and is ready for furnishing. A few chairs have already been donated to the rooms, as have also the curtains for the windows. Mrs. Leon Campbell has supplied the material and Mrs. Chamberlain is now making the curtains. The room still needs rugs, stands, straight chairs and rockers. The committee will gladly see to the transportation of these articles if notified by those having them to give to the rest room. A large sign is to be painted and placed at the bottom of the stairs leading to the rest room, that strangers may know of its existence.

Now that the room is ready to be opened, couldn't someone supply a couple of potted plants, a couple of bright pillows, some magazines, or something else that is not strictly utilitarian? Remember that this room will still be in use during the cold winter months and there are farmer women who will have to spend hours waiting for friend husband to finish his business errands, and a few chery things and extra comforts will be much appreciated.

Mrs. Clarence Hess spent Wednesday in Galien.

LANDSLIDE AT DAYTON SIDING RESULTS IN DEATH OF WORKMAN

Workmen employed on the M. C. tracks being installed west of town met with a disastrous accident yesterday. At the noon hour the men at the siding between the Halloway bridge and Dayton were resting in the place where they were making excavations. A landslide falling upon them carried two of the men into a hole and threw them across a steam shovel. Oscar Owens, a Chicago man, had his back broken. Dr. Strayer was summoned, but found life already extinct. The second man buried by the landslide escaped uninjured. The body of Mr. Owens was brought to the Child's undertaking rooms where it is being cared for while an attempt is being made to locate family or relatives. The man was sent here to the construction company by an employment agency in Chicago. So far efforts to learn of his home have been unavailing.

COAL SUPPLY TO BE ADEQUATE

WHOLESALE COAL ASS'N SAYS SHORTAGE REPORTS ARE UNFOUNDED; PRODUC- TION AHEAD.

Geo. H. Cushing, managing director of the American Wholesale Coal association, Washington, declares reports concerning an impending coal shortage are unfounded. The public, he says, is panic stricken without reason or excuse.

"There is no shortage of coal," Mr. Cushing stated. "There is no danger of any such shortage. Therefore, there is a reason, but no excuse for the current high prices in the open market. The reason is that we have had too much government agitation of the danger of famine."

He declared that for the past eight months, "there has not been a day or even an hour when some government agency was not agitating about coal and predicting a famine."

Prices, he said, have reached the highest peace time level in history, because those who need coal are "frantically bidding against each other in every market."

Declaring that he had investigated nearly every alarmist report, Mr. Cushing said, not one of them will stand scrutiny or analysis."

He predicted that the consumption of bituminous coal during the "coal year" beginning last April 1 would not exceed 535,000,000 tons—10,238,000 tons a week.

RAY JOHNSON IS HELD TO THE CIRCUIT COURT

The case of Ray Johnson, alleged gunman and liquor smuggler, was heard yesterday before Justice Weldon of Benton Harbor. Johnson was bound over to circuit court for trial under a bond of \$1,500. Attorney J. J. Sterling conducted the examination.

Johnson was arrested the night of May 28 in Benton Harbor when he is alleged to have delivered a consignment of whisky to a house in which were Undersheriff Peaples and Deputy Albert Schramm of Sodus. The undersheriff testified that a six-shooter was found in Johnson's pocket.

The same night of the arrest Johnson was taken to Kalamazoo by Sheriff Hogue for the avowed purpose of obtaining \$500 bail but the sheriff returned without his prisoner and the next day declared he was held up near Kalamazoo by Johnson's pals and his prisoner taken from him by force. Johnson was later recaptured by a posse near Long Lake, Kalamazoo, and returned to Benton Harbor. He is also under indictment for the violation of the liquor laws.

LEGION PICNIC TO BE BIG AFFAIR

BERRIEN SPRINGS PLANS FOR CROWD OF 5,000; MANY PRIZES OFFERED CON- TESTANTS.

The American Legion picnic to be held tomorrow afternoon at Berrien Springs, is expected to draw a crowd of 5,000. The committee is planning a program which will contain interesting features for all. State officials are expected to be present. A picnic supper will be served and there will be dancing both afternoon and evening.

The Program.
Standing broad jump, two from each post.
Running broad jump, two from each post.
Running high jump, two from each post.

Shot put, two from each post.
One hundred yard dash, four from each post.

Javelin throw, two from each post.
Sack race, two from each post.
Three legged race, one team from each post.

Fat men's race, over 200 pounds, 50 yards.
Swimming race, two from each post.

Relay race, 100 yards, four from each post.
High dive.

Tug of war, eight from each post.
Woman's race, 50 yards, limited to wives of ex-service men.

Woman's race, 50 yards, limited to sweethearts of ex-service men.

Pie eating contest.
Boxing match.

Baseball game between Berrien Springs post and Buchanan post.

There will be dancing afternoon and evening at Fisher's Pavilion, and in the evening at the town hall.

In addition to prizes for athletic events, prizes will be awarded as follows:

Youngest service man present.
Best service man present.

Oldest G. A. R. veteran present.
Woman having greatest number of family in service.

Man with greatest number of wounds.

Prizes for all events will be furnished by merchants throughout the county.

A. H. Gannser, state commander of the American Legion will be present and give an address. There will be community singing, band concert, aero flight and fireworks in the evening, and everybody is urged to attend. It is not for legion members only. G. A. R. and Spanish War veterans are urged to be present.

ANOTHER ONE ON THE SUGAR MARKET

Cuban cane growers, sugar mill owners and brokers have formed a pool to hold back all sugar from sale until it brings 24 cents per pound wholesale. The combination already controls 2,180,000 sacks and expects in a very short time to tie up the rest of the unsold supply, which is somewhat less than the amount already pooled.

This gouge is no worse than many others, but somehow it hurts worse. The most irritating feature of the whole business is the suspicion, amounting almost to certainty, that American financiers are furnishing the capital to hold up the American public in this fashion.

MORE BALL GAME DATES FOR THE CLARKS

The Clark ball team have scheduled a game in South Bend with the Indiana Telephone company for August 8. On August 15, the South Benders will play here. Other dates are still open.

CHANGE OF TIME GIVES RISE TO COMPLAINT FROM LABORING MEN

Much complaint about the advanced time is being made by the laboring men and others who must keep early hours. At a meeting of the employees' council at the Clark Equipment plant last week, bitter complaint was made against the new schedule and it was learned that a number of the men who come from out of town had decided to quit. These men say they must arise at 4:30 in order to get to work in time and 4:30 on the advanced schedule is too early in the summer time.

Still, the fact remains that our manufacturers must do business with place like New York and Chicago. New York is ordinarily one hour faster than our time and since she has shoved her clocks ahead she is two hours faster than standard central time. Since most of her offices close at 4:00 p. m., or 2:00 by central time, this would allow only about one hour to transact business with the New York concerns.

VOTERS TO DECIDE ON FOUR QUESTIONS

FOUR AMENDMENTS TO STATE CONSTITUTION TO BE SUB- MITTED AT FALL ELEC- TION.

Four amendments to the state constitution are to be submitted to Michigan voters at the election on Nov. 2 this year. The last day for filing proposed amendments has passed. The "home rule" amendment, which was expected, was not filed.

One amendment, which it appears now, will be submitted to referendum is designed to empower the legislature to fix the compensation of the secretary of state, the state treasurer and the auditor general. Their salaries are now limited by the constitution to \$2,500 a year. It is the consensus of opinion about the state house that these officials are underpaid, with the cost of living at the present level.

In all three departments the deputies are paid higher salaries than heads. For those second in command \$3,500 is paid, while their superiors receive but \$2,500. Officials have found it impossible, however, to find competent men who will act as deputies for \$2,500.

The attorney general and governor receive \$5,000 while the superintendent of public instruction is paid \$4,000. There is some agitation in state circles to increase the superintendent's salary to \$10,000.

Voting Requirements.
The effect of the second amendment, which is proposed to be made to Article III, would be to provide that every male inhabitant of foreign birth, and the wife of such inhabitant, who, having resided in the state two years and six months before the eighth day of November, 1894, and having declared his intention to become a citizen of the United States two years and six months before that date, and who shall have completed his naturalization prior to Jan. 1, 1920, shall be an elector and entitled to vote; also to extend the privilege accorded to absent voters to include any person engaged in teaching in the public schools of the state, and in the immediate family of any member of the legislature during any session of the general assembly.

Would Regulate Hours.
Article V would be changed by the third proposal which in effect would empower the legislature to enact laws relative to the hours and conditions under which women, as well as men and children can be employed.

The last amendment, which is intended to change Article XIII, would empower the legislature to authorize municipalities of the state to condemn and take the fee to more land than is needed for acquiring, opening and widening parks, boulevards, public places, streets, alleys or for any public use, and to issue bonds therefor.

MILK WILL GO TO TWENTY CENTS IN FEW MONTHS IS PREDICTION

Members of the Michigan Allied Dairy association, in convention at Ottawa Beach this week, are predicting that milk will go to twenty cents a quart before many months. "Everyone interested in the dairy business and in dairy products, except the producers, is experiencing an unusual era of prosperity," said Mr. Overton, president of the association. "If we cannot make money now, we should go out of business. The producer is getting the short end of the profit, but his day is coming. We are paying \$3.20 per hundred weight at our Allean condensary—a record price—but it is apt to go to \$4 before long. The producer will get the benefit of this increase."

"When people learn that a quart of milk, even at 20 cents, is worth four times in food value a like amount of many other foods, then they will be willing to pay the price and will demand more milk. Then also will the producer be compelled to produce a sufficient supply of milk to meet the demand."

Mrs. E. C. Mogford and Mrs. Frank Habicht returned home Wednesday from Paw Paw lake for a short visit. Mr. Mogford, motored back to Paw Paw with them yesterday afternoon.

DISCUSS TWP DIVISION LINES

FARM BUREAU DISSATISFIED WITH NEW PRECINCTS AS PROPOSED BY TOWNSHIP BOARD.

Representatives from the township farm bureau met with the town board Tuesday evening to protest against the way the township is being redivided into voting precincts. It was argued by the farmers that a division of the township along the lines proposed by the town board would force farmers living in the northwestern part of the township to go an unnecessarily long distance to vote.

The town board contends that a section in the village of Buchanan is the logical one, because this will allow all voting places to be placed in the village. Marketing and business errands bring the farmers to town every week, anyway, and election day would not necessitate an extra trip. Besides, such a division as the farmers propose would place a preponderance of voters in three precincts and a very small number in the northwestern part of the township. The matter of good roads should also have its influence.

The meeting Tuesday evening lasted until late at night. Although no definite decision was reached, still the farmers were able to see the arguments in favor of the present division lines and it is believed they will remain as they are.

SOCIETY

The Best family reunion will be held at Clear Lake on Sunday, July 18.

Miss Beryl Loshbaugh entertained the T. D. D. club at the home of Miss Georgia Wilcox this week.

The N. C.'s held a wiener roast in the Vandervelde ravine last evening. Just ask 'em what N. C. stands for.

Mrs. L. B. Spafford entertained the Unique Bridge club at her home yesterday afternoon. Mrs. C. D. Kent won high honors. Mrs. Desenberg, who is visiting here from Texas, was the guest of honor.

Miss Elizabeth Rouse entertained a small party of friends at bridge Tuesday evening. The girls have proclaimed their intention of forming a club as soon as they can invent a name expressive enough to fit the organization.

Mr. and Mrs. A. C. Roe entertained the Berean class and their husbands at their home last Thursday evening. There were 60 members and guests present and a most enjoyable evening passed with music and games. Refreshments were served by the hostess.

Mrs. Sig Desenberg entertained Tuesday evening with a bridge party in honor of her sister-in-law, Mrs. Julian Desenberg, of Texas, who is visiting friends here. First prize was won by Mrs. Jake Rough, second by Mrs. C. D. Kent and Mrs. Desenberg received the guest prize.

Dutton-Sanford.

The marriage of Miss Lillian Sanford to Clark D. Dutton was solemnized at the bride's home on Saturday, July 10, Rev. Lathrop of Niles officiating. Miss Sanford has been employed as stenographer in the Clark Equipment offices for some time past. Mr. Dutton comes from Montana, where he and Mrs. Dutton will go next week to make their home on the groom's ranch. A host of young friends extend congratulations.

Housewarming for New Home.

Mr. and Mrs. E. B. Clark, who but recently moved into their new summer home near the Country club grounds, entertained Wednesday evening with a dinner party and dance, given as a house warming. The guest list included Mr. and Mrs. M. L. Hanlin, Mr. and Mrs. E. B. Ross, Mr. and Mrs. R. J. Burrows, Mr. and Mrs. Frank Habicht, Mr. and Mrs. R. J. Semple, Mr. and Mrs. A. O. Williams, Mr. and Mrs. E. C. Mogford, Mr. and Mrs. Mogridge, Mr. and Mrs. A. H. Kiehn, Mr. and Mrs. J. A. White, Miss Wren Watkins, L. J. Schneider, H. K. Traask, Miss Fitch of New York, Samuel Hale of Chicago.

A splendid orchestra furnished music for the evening, Mrs. Messick of South Bend, aiding.

Josephine's Horoscope.

Is there such a thing as seeing into the future? Yes. Here is one of the many testimonials to the solemn gift: "When the Empress Josephine of France was a girl in Martinique, an old colored woman, named Euphemie, 'told her fortune.' 'You will marry a fair man. Your star promises two alliances. With your first husband you will have a tragical lawsuit. Your second husband, a dark man of slender means, will fill the world with his fame and glory. You will be greater than 'queen.' You will die unhappy.' The entire prediction came true."

A. O. Williams entertained his Sunday school class of small boys at an outing party at Clear Lake last evening. About 20 boys were in the bunch.

THE BERRIEN COUNTY RECORD

G. S. EASTON, Publisher.

Founded by Daniel Wagner in 1867.

A consolidation of the Buchanan Record, the Buchanan Argus and the Galien Advocate.

Entered at the Buchanan postoffice at second class matter.

AN INDEPENDENT NEWSPAPER.

RAILROAD TRESPASS RULING.

The jury award of \$35,000 to a man who lost his leg when he was put off a moving train, on which he was stealing a ride, raises an interesting legal point. The man was stealing a ride. He had no right to be upon the train at all. The injury received while being ejected from the property was the result of his own violation of the law; but contingent circumstances in the case influence the award. The man was liable to arrest and prosecution. He was also liable to ejection from the train, but in being ejected he was not to be subjected to danger of life or limb and herein lies the point in the case that cost the railroad \$35,000 to establish a precedent that will govern future cases of trespass upon railroad trains.

The man was found by a brakeman on an Erie train at Waverly. He was ordered off the train while it was moving at a speed that made such action dangerous. The man refused to go and the brakeman hit him with his brake stick and knocked him from the train. He fell beneath the wheels and lost his right leg, and it was upon this use of force that the man's attorney won the verdict. He contended that, even though the man was violating the law in stealing the ride, even though he was trespassing, the owners' agent, the brakeman, should have waited until the ejection could have been accomplished without risk.

The jury concurred in this view of the matter, and the movement of the property differentiated the case from an ordinary one of trespass. The decision is one of great importance to railroads; for if they are liable for such injuries it means that henceforth those who steal rides must be allowed to remain on the trains until they can be put off in safety.

Those who steal rides are taking great chances, but the ruling of the court forbids that such malefactors be jeopardized in life or limb in the act of ejection.

ENTHUSIASM AND SALESMANSHIP.

The schools that teach the art of salesmanship, say a great deal about enthusiasm as a selling force. They maintain that a successful salesman is always one who has strong confidence in the merits of his goods. If he lacks that confidence, he makes few sales. He would better go to work on some other proposition, or else improve the goods so that he can show enthusiasm in selling them.

It is right here that one sees the reasons why the advertised store succeeds. The advertising store is always a confident, enthusiastic store. It has done its work with such skill and thoroughness that it knows beyond all possibility of error, that the goods are right and the price is right.

People who feel this enthusiasm about their goods, dislike to sit down in their swivel chairs and wait for trade to hunt them up. They feel sure that if the people only knew the facts as they know them, they would come in and buy freely. They feel that all that is necessary to sell their stock in short order, is to acquaint the public with what they have to sell and the prices. Hence it is natural for them to advertise freely, turn their stock over quickly, and get ready for the next thing.

The advertised store wins trade for two reasons: 1.—It should be able to sell at lower prices by doing a bigger business on a given overhead of cost. 2.—People have more faith in those who show enthusiasm and confidence than in those who do not. Of course, confidence and enthusiasm are not the only elements in success. There must be substantial value and service behind it. But other things being equal, the concern that has the confidence and enthusiasm to make known to the public what it is doing, is the one that gets the bulk of business.

THE BUSINESS OUTLOOK.

It is anybody's guess to forecast business conditions for the next few years. There are no parallels or precedents fitting the present case. The world has not been so upset since the Napoleonic wars. The troubles following the Civil war were relatively insignificant, since they affected one country only.

The situation is affected more than ever before by psychological conditions, by the mental attitude of the people. Abnormal conditions can not pass, while abnormal ideas are entertained by great masses of people.

Superficially the country is enjoying great prosperity, with everybody working, factories bustling. Nevertheless the stock market has been steadily dropping for months, registering the opinion of expert observers that this prosperity is not sound and normal.

The scarcity of capital is a dominating factor. At present high costs of material and labor it takes a great deal more money to finance any kind of enterprise. Business men who formerly paid five per cent for money, now pay about seven per cent. Many projects have been held up because it would be necessary to pay eight to ten per cent to get the necessary capital. The railroads are unable to secure the funds needed to buy the freight cars that absolutely must be

supplied to transport the country's products.

There is a limit to the rate of interest that business men will pay for their funds. If you charge eight to ten per cent for loans they could formerly have for five, a lot of them will curtail their operations rather than pay such exorbitant rates. Facing the possibility of a falling market, they will question whether they can make enough on their sales to pay anything more than interest on the money they must borrow.

ANOTHER FUTILE STRIKE.

The longshoremen, who have been on strike in the eastern cities, have voted to return to work on just the same wages and hours as they had when they went out. Thus another "out law strike" peters out, with nothing to show except a trail of loss for all concerned, and especially the public who had no real part in the controversy.

This has been one of the worst strikes in the past 15 years, so far as rioting and loss go. Philadelphia reports it the worst with one exception that the city ever had. Five lives were lost directly as the result of the rioting, more than 1200 were wounded, there were nearly 100 arrests and countless minor personal encounters. The sections where the men congregated became so dangerous that none ventured there except on the most urgent business.

The time must come and come soon, when some method of settling labor disagreements, other than a resort to strike, will be found. Compulsory arbitration may not be the best method, but some remedy must certainly come. We believe it is the duty of government to protect every man in his God-given right to labor and to protect the employer in the legitimate conduct of his business. The great public has rights that must not be interfered with, and any body of men who attempts it must be dealt with in the stern court of public opinion—the only court that always enforces its decrees.

NEWSPAPER MEN.

Both the candidates for president are newspaper publishers, in cities of moderate size, and both have the record of having built a great property from a small beginning. In this respect, they are typical successful American business men, so that the country should feel assured of an executive with genuine business ability for the next four years.

It is gratifying for the newspaper profession to feel that two of the number have been chosen by the two great parties as standard bearers. The newspaper has been called "the fourth estate," and sometimes it has been referred to, in a sneering way as "a half profession." But it is a fact that newspaper men who have been called to other spheres have almost invariably made good. It seems that an education in newspaper work fits a man for almost any line into which he may be thrust.

Neither Governor Cox or Senator Harding would call himself a "journalist." Each would hold to the plain, rugged title of "newspaper man." There are no frills on either man. Both came from the bottom, have been an honor to the profession that has many notable figures, are personally clean and upright. Differ as we may as to their fitness for the presidency, we cannot fail to respect them as typical Americans.

LET IT ALONE.

Stop. That is the word to those who would make any changes or so-called repairs to the old Liberty Bell. That article of bronze which pealed forth the first tidings that the "United Colonies are and of right ought to be free and independent states," is none the worse for the crack which has silenced its voice. Nay, if we may be permitted that much sentiment, the old bell has a right to silence, for its work as a bell is done—henceforth it is a sacred shrine for all generations.

Americans seem to have too little of the sentiment that is so prevalent in some races. Nothing appears sacred to us and many of the country's most valued historical spots have been desecrated in a manner that astonishes visitors. Let this one relic of the past stand as it is, forever silenced, yet ever speaking in a manner which reaches the hearts of men and carries a message that means freedom for everyone who comes under our flag and accepts the obligations imposed.

Germany has not yet complied with the terms of the peace treaty to reduce her military equipment to the required standard, and it may be there are reasons for her hesitation. Bavaria now refuses to disarm, regardless of the treaty and the central government. What may be taking place in other sections of Germany we do not know, but the Allies are united in their demand for disarmament. If Germany continues her defiance it may become necessary to finish the war that was prematurely interrupted by the armistice on Nov. 11, 1918.

Why should Woodrow Wilson bother about the presidency of the United States, with all the troubles and cares attending such a position, when he can have a much pleasanter job at better pay? The Philippine University offers Mr. Wilson \$100,000 yearly to become its president.

A lot of the people who complain that food prices are high, are the same ones who want the road money spent on pleasure boulevards, rather than on farm wagon routes.

A library worker inquires whether political platforms should be cataloged under Summer Fiction, Fairy Tales or Hot Air Apparatus.

Stars of "Dipper."
The stars of the "little dipper" are all constantly moving at tremendous velocities and mostly in different directions, say astronomers, but so vast is their distance from us that they have not changed their relative positions to any appreciable extent within the memory of man.

Something Like a Memory.
Billie was heard to say to his pal Jack: "I can remember everything I did since I was three weeks old." After some hesitation Jack replied: "Oh, that's nothing. I can remember from the time the doctor said to me: 'Stand up, Sonny, and have your eyes put in.'"

Famous American Journalist.
On the third of February, in 1811, Horace Greeley, the journalist, was born at Amherst, N. H. He was the son of a poor farmer. Greeley received all the school education he ever had at the village public school, and at the age of fifteen was apprenticed to a printer. Greeley founded the New York Tribune, and from 1850 to 1870, when he retired, he was the most influential editor in the United States. He died at Pleasantville, N. Y., in 1872.

who of all, has the finest control of himself.
I speak of the man with a clamp on his voice, whose talking is tight under lock;
The man with a muffler attached to his mouth—the man who refuses to knock.

The man who won't knock is a curious chap. He often goes out with the crowd
Where grouches are aired and the grievances bared in fault-finding candid and loud;
Where only his friends are around him to hear the hurts that he probably feels,
And everyone revels in woes and complaints and mention of villainous deals;
Where hammers go ringing with vigor and zest on anvils that shudder and rock;
Yet calmly and firmly he passes his turn, the man who refuses to knock.

ANNUAL STATE CROP REPORT

HESSIAN FLY HAS INJURED WHEAT; HOPPERS HAVE WROUGHT DESTRUCTION; CROPS ABOVE AVERAGE.

Crop prospects on July 1 are far better than would have been predicted a few weeks ago during the extremely dry weather prevailing. Good rains occurred in most sections during the month, being rather heavy in the eastern districts and quite light in some of the southwestern counties. Corn, potatoes, alfalfa, peas and all of the truck and fruit crops are above the average condition. The hay crop is light in many sections, and the damage to wheat by the Hessian fly is very severe in the southern four tiers of counties. Crops on light soils in the northwestern and west-central counties of the lower peninsula and in some sections of the upper peninsula have been severely damaged by grasshoppers. Inability to secure sufficient quantities of poison in time for use rendered farmers helpless in some sections to check their progress. These are some of the more important observations from the joint crop report issued by Verne H. Church, agricultural statistician, U. S. bureau of crop estimates, and Coleman C. Vaughan, secretary of state.

Wheat—The condition ranges from very poor to very good. Many fields are badly spotted and some are too poor to be worth harvesting. Some damage was done by winter-killing, but the Hessian fly has been very active and the extent of the injury done is now readily apparent by the considerable percentage of straw that has broken down. In the central districts there are many excellent stands of wheat, and the damage by fly is slight. The average condition is 73 per cent, or six per cent below normal. The forecast of production is 16,451,000 bushels, 30 per cent less than grown last year. The amount of the 1919 crop still on farms is estimated to be 931,000 bushels, a somewhat larger amount than in any recent year. The estimated number of bushels of wheat marketed during June is 140,000. The condition of spring wheat is 80 per cent, two per cent below that of the same date last year.

Corn—Notwithstanding the backward spring, the same acreage was planted as last year, and much of this acreage has made a satisfactory growth. There are some fields that are very backward and small, and some damage has been done by grasshoppers and cutworms. The average condition of 88 per cent is six per cent better than the 10-year average, but nine per cent lower than one year ago. The acreage is estimated at 1,650,000 and the production, based on the July 1 condition, is 66,628,000 bushels.

Oats—Oats suffered severely from the dry weather but have been improved considerably by the rains of the last two weeks. In the drier sections of the state they have headed on very short straw and in the northern districts they have suffered much damage from grasshoppers. The condition is placed at 84 per cent, three per cent below the 10-year average. The present condition forecasts a yield of 47,371,000 bushels, or nearly 25 per cent more than the extraordinarily light crop produced last year.

Potatoes—The acreage in the state is three per cent less and in the United States four per cent less than last year. Most of the crop was planted under favorable conditions and the present outlook is four per cent better than the 10-year average.

Barley—The condition declined seven per cent during June, reducing the prospective crop to 6,210,000 bushels. This condition of 83 per cent is five per cent below the average and is due to dry weather.

Rye—The crop maintained practically the same condition as that of one month ago, the estimated production being 11,768,000 bushels. Last year's crop was 13,500,000.

Hay—The hay crop varies from practically nothing in some localities to a good crop in others. On the whole it is a light crop, as the rains came too late to give it a normal growth. The condition is six per cent below the 10-year average, and the forecast is for a crop of 3,058,000 tons. The further important factor is that the United States crop is estimated at only 85,000,000 tons as compared with 109,000,000 last year, or nearly one-fourth less total production.

Wool—The average weight per fleece was found to be 7.6 pounds as compared with 7.4 pounds in 1919 and 1918. The increase may be attributed to the severe winter and slightly later shearing date due to the cold spring.

Beans—The estimated acreage is 273,000. This is 12 per cent less than last year but a larger acreage than intended earlier in the season. In a

few of the leading bean-producing counties the acreage is about equal to that of last year, but in most of the out-lying districts it is very light and some sections report no acreage. The condition on July 1 was 87 per cent.

Fruits—(Agricultural)—The condition of the apple crop is 82 per cent as compared with 53 per cent one year ago and a 10-year average of 64 per cent. The outlook for peaches is 70 per cent of a crop as compared with 32 per cent one year ago and a 10-year average of 50 per cent. Pears promise 77 per cent of a crop in comparison with 55 per cent one year ago and 63 per cent, the 10-year average. Grapes promise 92 per cent of a crop and blackberries and raspberries, 89 per cent.

Fruits—(Commercial)—The outlook is for a good crop of nearly all varieties of apples except on some of the trees that bore heavily last year. The June drop was rather heavy but in most cases beneficial, as considerable thinning will still have to be done. The weather has been ideal for spraying and a good quality is expected. The forecast of production, based on the present condition of 80 per cent, is 2,112,000 barrels.

The prospect for peaches is 75 per cent of a full crop. There was a further loss of trees from the severe winter thus reducing the crop possibilities. The commercial orchards are expected to produce 450,000 bushels this year.

The condition of pears is also 75 per cent of a crop; this represents a crop of 511,600 bushels from strictly commercial sources.

Cherries promised a very large crop early in the season. Through lack of proper fertilization of the bloom, the setting of fruit was smaller than expected. The weather has been favorable and the fruit is large and of good quality. Seventy per cent of a full crop is predicted.

HAIRY ELEPHANTS.
Historians tell us that, in prehistoric times, mighty mastodons and mammoths were covered from head to tail with a very coarse hair which, in many cases, grew long. So the elephant's forefathers had long hair but, as the world changed with regard to weather conditions, from the bitter frosty glaciers that were encountered to the modern climate of extreme heat and cold, the elephant gradually lost his overcoat. The hair sometimes seen on the top of his head alone remains as a reminder.

State of Michigan, the probate court for the county of Berrien.
At a session of said court, held at the probate office in the city of St. Joseph in said county, on the 7th day of July A. D. 1920.
Present: Hon. Frank L. Hammond, Judge of Probate.
In the matter of the estate of William H. Keller, deceased.
Hattie L. Keller having filed in said court her petition praying that said court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit the real estate of which said deceased died seized.
It is ordered, that the 2nd day of August A. D. 1920, at nine o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.
It is further ordered that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Berrien County Record, a newspaper printed and circulated in said county.
Frank L. Hammond, Judge of Probate.
Rex E. Lamb, Register of Probate.
(July 9-23.)

ALFALFA GROWING INCREASES IN STATE

FIRMLY PACKED SEED BED TO BE VITAL; MANY FARMERS PLANTING IN JULY.

That a firm packing of the seed bed before summer plantings of alfalfa often makes the difference between success and failure with the crop, is the statement of Prof. J. F. Cox, head of the farm crops department at M. A. C. Many Michigan farmers will seed alfalfa during July, and in lower Michigan during early August. These men cannot afford to overlook the importance of a carefully prepared seed bed.

"Alfalfa is being planted in Michigan at the present time with more success than ever before," says Professor Cox. "This is due to the fact that farmers of the state have learned the necessity of using northern grown seed, of using lime, of inoculating seed, and finally of preparing a firm, clean seed bed."

"Seed beds can usually be fitted in excellent shape for midsummer seedings. Were it not for the fact that midsummer droughts are quite frequent, late July seedings would be recommended above spring plantings. As it is, on ground which is foul with grass or weeds, opportunity is given to eradicate these pests before alfalfa is planted."

"Seed beds prepared during midsummer are likely to be dry and ashy, however, and since few packings rains, as compared with spring, can be counted on at that time, special care must be taken to pack the seed beds firmly with roller or with the cultipacker. A thorough firming of the seed bed often makes the difference between success and failure with the crop."

Detailed information in regard to securing a stand of alfalfa in Michigan may be had by writing to Director of Experiment Station, Michigan Agricultural College, East Lansing, and asking for Circular No. 97.

HOPPERS WORSTED IN FRAY BY COOTIES

Farmers in the vicinity of Reed City will vouch for the statement that the worst of the grasshopper troubles are over. The hoppers are not nearly as thick as they were two weeks ago and it is said that the lice have gotten on them and are rapidly exterminating the pests. It is said the lice "get" the hoppers every three years wherever they get abundant. Farmers there have not lost heavily this year.

FERTILIZER MUST BE ORDERED EARLY THIS YEAR

Because of a general shortage of materials and the uncertainty of the freight situation, farmers should order fertilizers for fall grains early this year. Acid phosphate is reported to be very scarce, and those who order later will not be able to obtain it at all, warns Dr. M. M. Cool, head of the soils department at the Michigan agricultural college.

State of Michigan, the probate court for the county of Berrien.
At a session of said court, held at the probate office in the city of St. Joseph in said county, on the 29th day of June A. D. 1920.
Present: Hon. Frank L. Hammond, Judge of Probate.
In the matter of the estate of Elizabeth Sheldon, deceased.
Charles B. Treat having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.
It is ordered, that the 26th day of July A. D. 1920, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.
It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Berrien County Record, a newspaper printed and circulated in said county.

Mortgage Sale.
Take notice. Default has been made in the payment of money secured by a mortgage dated April 23, 1914, given by Walter H. Fryman and Pearl M. Fryman, mortgagors, to John C. Fryman, mortgagee, and recorded in the office of the register of deeds of Berrien County, Mich., in Liber 123 of mortgages on page 277. The mortgagee hereby declares the full amount of principal and interest now due. The amount claimed to be due on the date of this notice is \$2,278.47, with costs of foreclosure including attorney fees. No suit or proceedings at law or in equity have been instituted to recover said sum or any portion thereof, whereby the power of sale in said mortgage has become operative. The description of the mortgaged premises substantially as therein described is as follows: The east half of the northeast quarter of section eleven, and the south fractional half of the west fraction of the northwest quarter of section twelve, all in township seven south, range eighteen west, excepting therefrom one acre situated in the northwest corner of the east half of the northeast quarter of section eleven, township and range aforesaid, and more particularly described as follows: Bounded on the east by the St. Joseph Valley railroad, on the north by the lands of Alvin Bates, on the west by public highway, and wide enough north and south to make one acre of land. Also, excepting right of way for railroad across said lands. Also excepting all that part of the above described lands which is now overflowed by the dam which has been constructed across the St. Joseph river in the village of Berrien Springs, Mich.
Said mortgage will be foreclosed by a statutory sale of said premises at the front door of the court-house in the city of St. Joseph in said

county on the 27th day of September, 1920, at 10 o'clock a. m.
Dated July 1, 1920.
John C. Fryman, Mortgagee.
A. A. Worthington, Attorney for Mortgagee.
Business address, Buchanan, Mich.

Mortgage Sale.
Take notice. Default has been made in the payment of money secured by a mortgage dated April 23, 1914, given by Walter H. Fryman and Pearl M. Fryman, mortgagors, to John C. Fryman, mortgagee, and recorded in the office of the register of deeds of Berrien County, Mich., in Liber 123 of mortgages on page 277. The mortgagee hereby declares the full amount of principal and interest now due. The amount claimed to be due on the date of this notice is \$2,278.47, with costs of foreclosure including attorney fees. No suit or proceedings at law or in equity have been instituted to recover said sum or any portion thereof, whereby the power of sale in said mortgage has become operative. The description of the mortgaged premises substantially as therein described is as follows: The east half of the northeast quarter of section eleven, and the south fractional half of the west fraction of the northwest quarter of section twelve, all in township seven south, range eighteen west, excepting therefrom one acre situated in the northwest corner of the east half of the northeast quarter of section eleven, township and range aforesaid, and more particularly described as follows: Bounded on the east by the St. Joseph Valley railroad, on the north by the lands of Alvin Bates, on the west by public highway, and wide enough north and south to make one acre of land. Also, excepting right of way for railroad across said lands. Also excepting all that part of the above described lands which is now overflowed by the dam which has been constructed across the St. Joseph river in the village of Berrien Springs, Mich.
Said mortgage will be foreclosed by a statutory sale of said premises at the front door of the court-house in the city of St. Joseph in said

legatees and assigns of each and any of them, defendants.
Suit pending in the circuit court for the county of Berrien in chancery at the city of St. Joseph, in said county, on the 7th day of June, 1920.
In this cause it appearing by affidavits on file that the respective places of residence of whereabouts of the unknown heirs, devisees, legatees and assigns of defendant Mark A. Price are unknown; that the place of residence of Lizzie A. David, if living, and her respective heirs, devisees, legatees and assigns, if dead, are unknown, and that the place of residence or whereabouts of any of the persons who are included in the bill of complaint herein without being named are also unknown.
Therefore, on motion of A. A. Worthington, attorney for plaintiffs, it is ordered that said defendants and each of them, cause their appearance to be entered herein within three (3) months from the date of this order and that in default thereof said bill will be taken as confessed by said defendants. And it is further ordered that within Twenty (20) days said plaintiffs cause a notice of this order to be published in the Berrien County Record, a newspaper published, printed and circulated in said county and that such publication be continued once in each week for six weeks in succession.
To each of said known and unknown defendants:
Take notice that the above entitled suit is brought for the purpose of quieting the title to the following described lands situate in the village of Buchanan in said county and state, to-wit:
The west half of the following: Beginning eleven rods north of the southwest corner of the northeast quarter of the southeast quarter of section twenty-six, town seven south, range eighteen west, thence east forty-seven and one-third rods; thence north eight and eighteen-hundredths rods, thence west forty-seven and one-third rods, thence south eight and eighteen-hundredths rods to place of beginning, excepting one rod of the south side for an alley.
Chas. White, Attorney for Plaintiffs.
A. A. Worthington, Circuit Judge.

A Life of Happiness
COMES into every home when the Buick Valve-In-Head motor car arrives.
Nearly three millions of people today enjoy the comfort and pleasure of the five hundred thousand Buick cars in operation.
Each trip, every tour, or spin to town and back makes each passenger grow more enthusiastic over Buick operation for it is built to fulfill all the needs of family usage—and yet so easily applicable to any business acquirement or special duty.
That is why you find Buick dealers booking orders for the summer and fall months from motor car purchasers who know how essential Buick cars are in their daily life.

Harvey Sherwood has accepted a position at the tool works and is working nights.

Ed. Herb returned from Decatur Saturday evening and left for Milwaukee, Wis., Sunday afternoon.

Mr. and Mrs. Jas. Snodgrass entertained at Sunday dinner the following guests: Mr. and Mrs. Wm. Sparks, Mr. and Mrs. Chas. Lightfoot and children of Buchanan, and Mr. and Mrs. Forrest Taft and two daughters of Ypsilanti and Mr. and Mrs. M. E. Gilbert.

Rebuilding Guatemala City.

Guatemala city, in the republic of the same name, which was the scene of one of the most violent earthquakes in Central American history, during the latter months of 1917 and the early part of 1918, is now being gradually rebuilt.

Guatemala was for centuries the home of the Maya-Quiche Indians. At Quirigua are located some of the most remarkable ruins in the Americas—monoliths resembling Egyptian obelisks, from the top of which gigantic faces stare at the intruder. Excavations in the vicinity have revealed the ground plan of what must have been a remarkable and imposing temple. A bulletin of the National Geographic society states that in the mountains of southwestern Guatemala live pure-blooded Indians who are known for their physique, cleanliness and scrupulous honesty.

Alpine Wonderland.

The Grisons, Switzerland's largest canton, may readily be described as an Alpine wonderland. It is broken by no fewer than 150 valleys, varying greatly in size, traversed by wild rushing torrents and streams and animated by roaring waterfalls and transparent mountain lakes. Dark green fir woods and velvety pastures cover the slopes and form the transition from the region of the hills to the realm of the high Alps. And in this radiant paradise of vales and mountains there stands on almost every height a little place of worship, an emblem of peace and good-will, sending greetings far and wide.

Record Printing Service. Price as low as honest work can be done for.

Use the Gashen flour. It is the cheapest and the best. 26B-3

George Ditto returned Wednesday evening from Twin Lakes, Ind., where he went to attend the funeral of his aunt, the late Mrs. Harriet Strawbecker.

Lombardi, Ltd., featuring Bert Lytell, is one of the best comedy dramas to be seen in pictures. At the Princess Monday afternoon and evening.

To get the best results on baking day, use the best flour. You can find nothing better anywhere than the Gerbelle Flour. Manufactured by the Goshen Milling Co., Goshen, Ind.

Mr. and Mrs. Alva Canfield are entertaining their aunt and uncle, Mr. and Mrs. J. Godfrey, of Waterbury, Conn. They were all guests of Mr. and Mrs. Noah Canfield Wednesday evening.

Elsie Clark is serving as substitute clerk in the Arney store during the absence of Hortense Squires, who is enjoying a much needed vacation to recuperate her health.

"The Bottom of the World" features Sir Edward Shackleton attempting to cross the south pole. Pictures were actually taken in the polar regions. At the Princess Wednesday afternoon and evening.

The Women's Auxiliary to the American Legion will be held Monday evening, July 19, at 7:30 o'clock. Papers on "Army Life at the Present Time" and "Army Life Twenty-five Years ago" will be given. Refreshments will be served.

Miss Lura Pears is home from Illinois for a vacation visit.

Mr. and Mrs. I. M. Barnes have moved from Main street to 306 S. Clark.

Mrs. F. S. Whitman and Miss Wilma-Roe were visitors in Niles yesterday.

Miss Mildred Frederickson of South Bend has been a guest at the C. F. Pears home since Wednesday.

The Campbell brothers were called to Grand Rapids Wednesday evening on account of the serious illness of a brother, M. V. Campbell.

Ralph Allen and family and Chas. Boyle and family, together with friends from Valparaiso, Ind., enjoyed a picnic in Michigan City one day this week.

G. A. R. ENJOYS ANNUAL REUNION AND PICNIC

Civil war veterans, their families and friends to the number of 100 gathered at the home of Ashley Carlyle yesterday afternoon for their annual picnic and reunion. The potluck dinner which was served was beyond comparison—everything from hot noodles, straight through to salads and cakes, to cold watermelon.

A short program was rendered in the afternoon. Rev. S. R. Welty had charge of the music and also gave a short address. Rev. Bloom and Rev. Rieble also spoke. Mrs. Rieble presided at the organ while the guests joined in singing patriotic songs. Miss Carolyn Layne and little Miss Mills rendered recitations and the latter hours of the afternoon were spent by the veterans in reminiscence of war days.

The following poem, composed by Winifred A. Layne, one of this year's high school graduates, was recited by a younger sister, Carolyn, and is published at the request of the veterans:

Boys of '61.
As I look into your faces
There is one face I miss today
There is one I miss from the ranks of men
Who fought with the Blue against the gray.

My grandfather used to tell me
How the Union men made their stand,
Far from their home and kindred
In the south's bright sunny land.

'Twas July twenty-first,
When McDowell with the Union men
And Beauregard with the gray,
Met at Manassas in Virginia
Where the Confederates won the day.
But when the fighting ceased that night,
On the fields of old Bull Run
The Union loss in battle
Was overshadowed by glory won.

Then in eighteen sixty-two
Fort Donelson was seized by Grant.
Foote sailed up the Tennessee
Capturing Fort Henry.
'Twas then that Grant sent word to the gray
Surrender unconditionally—no other way.

April six and seven
On Shiloh's grassy plain
North met south, blue met gray
Northerners were victors once again.
On through sixty-three and four,
And into sixty-five,
Men of honor bled and died,
That the Union might survive.

Now the Civil War is over
And all over our great fair land
The boys in blue and the boys in gray
Are joined by an unseen hand.

Their boys have fought together
One nation, one purpose true.
Their allegiance whole hearted
Their land undivided.
One flag and that Red, White and Blue.

Now, comrades of my soldier grandpa,
The days of your battles are passed,
The lives that were offered for Old Glory
Make stories that ever will last.
With hope march on to the future
Remember each one, have no doubt.
We kids are all soldiers by nature,
And will battle when you muster out.

Origin of the "Horn Book."
The horn book, invented in 1450 and used considerably up to the close of the eighteenth century, was the usual text book of the elementary schools. A thin slab of hard wood was covered with parchment on which were printed the capital and small letters, numerals, and some elementary syllables and words. Over this a thin sheet of transparent cow's horn was placed and firmly bound so that no moisture could penetrate.

Reflecting a Compliment.
A well-known member of the stock exchange, who is now giving up the close of a strenuous life to philanthropic efforts, was in his holiday a tremendous gambler in stocks, and, incidentally, he and his partner were rather expert in the gentle art of making enemies. One of these accosted him with the pleasant remark: "Look here, you are the biggest thief on the stock exchange." "Ah," was the answer, "it is evident you do not know my partner."—London Tit-Bits.

Snowstorms Form in Warm Climates.
Potentially snow storms form in general region of warmth, strange as it may seem. "The area of low barometric pressure, or storm sea, comes whirling eastward across the Gulf states and then generally takes a twist northward along the Atlantic seaboard. When sufficiently far north these warm air currents are chilled and the moisture becomes snow, very often being borne to the earth by the back draft of east wind.

So Driver Won't Mix His Dates.
A stop watch that has been invented for the interior of a closed automobile is electrically connected to one on the instrument board to remind the chauffeur of an engagement.

NEWS OF THE CHURCHES

Presbyterian Church Notes.
Church services at 10:30; Sunday school at 11:45.

St. Anthony's Church.
There will be mass each Sunday morning at 9:30 o'clock, fast time, until further notice.

Church of Christ.
Bible school at 10 a. m. Come and enjoy it. The subject for Sunday morning's sermon will be "Why Christians Should Not Observe the Sabbath." J. J. Terry.

Christian Science Church.
Sunday services at the church, corner of Dewey avenue and Oak street, at 10:45 a. m. Subject, "Life." Sunday school at 12. Wednesday evening testimony meeting at 7:45.

Advent Christian Church.
10:30 a. m., sermon, "Holding Fast;" 11:45 a. m., Sunday school; 7:30 p. m., song service; 8:00 p. m., sermon, "The Antics of a Madman." Midweek service Thursday evening at 7:30. Everybody cordially invited. A. E. Bloom, pastor.

Evangelical Church.
Sunday services: 10:30 a. m., morning service, "The Living Union;" 11:45 a. m., Sunday school; 8:45 p. m., Young People's Meeting; 7:30 p. m., evening service, "There is a Lad Here." Midweek prayer service, Thursday evening at 7:30.

Cling to Savage Customs.
Throughout the islands of the New Hebrides many of the primitive ceremonies are still performed. The "sing sing" ground is still kept in readiness for the periodical outbursts of feeling, when the islanders dance his wild and sacred dances to the ghastly music of the drums. Watching one of these weird revels followed by an orgy of eating, or more correctly stuffing, it seems to the observer that the New Hebrides race is destined to continue until it dies out a savage, or, at best, semi-civilized people.

Want the News? Get the Record.

Character Revelation.
Not merely speeches prepared, orations delivered, sermons preached, but what a man says and how he says it to his neighbors friend, to his acquaintance or customer, to his father or mother, his wife or child across the breakfast table; this is what counts, for it reveals him off his guard and taken unawares, not as he would wish to be, not even as he would wish to be thought to be, but as he actually is, and it marks him with an indelible mark.—Exchange.

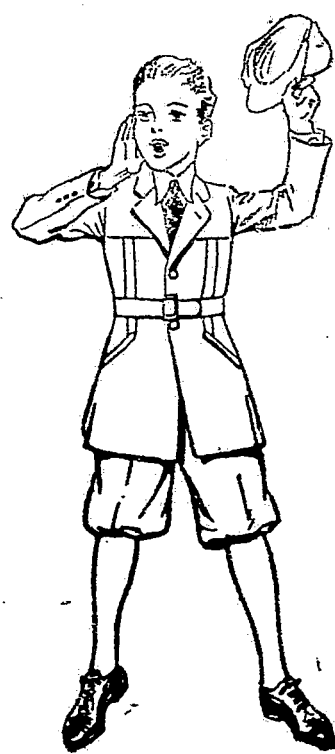

Chinese in Java.
The standard of living is probably higher in Java than any other Chinese community in the world. The houses are clean and well furnished, the people dress in European clothing, and every one has a great deal to say about dirt and sanitation. There are Chinese families in Java which have been there for five centuries, but the great majority of the 800,000 who live on the island have come there or are descended from those who came there in the last fifty years.

For State Builders.
They who preach patience to the peoples as the sole remedy for the ills by which they are oppressed, or who, while they admit the necessity of a contest, would yet leave the initiative to be taken by their rulers, do not, to my thinking, understand the state of things coming upon us. . . . It is not enough to precipitate a monarchy into a gulf; the gulf must be closed up, and a durable edifice erected on its site.—From "Faith and the Future," by Mazzini.

Henry M. Lee,
Directors.

STATE NEWS BRIEFS

ROUND ABOUT THE STATE IN A "COLYUM," WHAT OTHER CITIES AND RURAL DIS- TRICTS ARE DOING.

Ten vacation schools have recently been opened by the Kent county Sunday schools.

The peculiar rain season Manistee county is experiencing is preventing cherry pickers from gathering a large supply of the crop. Fungus, a disease commonly known in the form of brown spots on the cherries, is beginning to be feared.

Fred Breen of Cadillac, was elected president of the Michigan Association of Probate Judges at the closing session of the convention at Saginaw. Cadillac was awarded the 1921 convention. Edward Anneke of Bay City was named vice president and J. Lee Pitts of Ithaca, secretary treasurer. The association adopted resolutions condemning limitations on the admission of delinquents to the Adrian Girls' home.

In an effort to rid Muskegon of many old shacks located in residential districts, the city health department, working with the state fire marshal's office, will soon commence work to secure orders for the immediate destruction of many of these eye sores. It is claimed in many instances that the owners of these places are rich and could easily afford to remodel them.

Farmers near Leroy are having a mixed feeling of optimism and pessimism in this section. The rains have brought the crops through in fine shape and were just in time to save the oat crop. The rains also have killed off many grasshoppers. However, expressions are heard from several sources that the potato crop is going to be so good and the tubers so abundant that it is predicted they will sell for a meagre sum.

Thousands of dollars damage was done by the hail storm which swept over Kalamazoo county early Friday, leaving the ground covered white. Nearly every stalk of corn in a 34-acre field was cut to ribbons. Many farmers report hail had made it un-

necessary for them to thresh their wheat and oats. Cherries and grapes were seriously damaged, much of the fruit having been knocked off the trees and vines by the 10-minute bombardment.

After nearly five years of construction the breakwater at the entrance to Manistee harbor is at last completed. The present government crew, which has been working on it since May, 1919, has left for Ludington, where repairs will be made on a similar barrier. The breakwater is 1,200 feet long and at the farthest point out is 22 feet wide, tapering to 10 feet up shore. It extends inwardly 150 feet from the water's edge. A heavy flicker light is located at the extreme end.

PLAN TO AID VICTIMS OF T. B. C.

ONLY 46 EX-SERVICE MEN IN NEED OF HOSPITAL TREATMENT; TO BE CARED FOR AT GRAYLING.

Representatives of the American Legion, the Michigan Community Council Commission, the American Red Cross and the Michigan Anti-Tuberculosis Association met with Dr. Olin in a conference last week at Lansing to decide upon action to be taken for the care of tubercular ex-service men. The number of soldiers in Michigan in need of immediate hospital treatment was reduced to 46. At the close of the four-hour session, in which everyone talked to his heart's content, the conference passed four motions, as follows:

First—Accepting the governor's proposal to open the hospital at the Hanson military reservation near Grayling for treatment of 46 soldiers declared now to need hospitalization.

Second—Recommending to the governor that he ask the state department of health to lead in securing all the information desired about the present state of health of Michigan's 168,000 veterans of the world war, with special reference to those suffering from tuberculosis, with particular heed for the condition of the health, the home and mental condition of the soldiers, and all other information.

Also to invite the aid of welfare organizations represented, the American Legion, Red Cross, Michigan Community Council Commission, Community War Boards, Michigan Anti-Tuberculosis association and any other agencies the state department of health wants to invite, and to accept the report with power to act on such matters that came under jurisdiction of the state department of health, and to refer all other matters to the organization's representative for reference back to a conference to be called later.

Third—Asking the state representative health service to furnish the state natives of the United States public board of health with a list of the men shown on its records to have tuberculosis, and to ask the Washington office of the health service to supply such information in the future.

Fourth—Requesting the larger counties to aid the smaller counties in groups to avail themselves of the advantages of the law which empowers them to build tuberculosis sanatoriums.

ARREST OF MOONSHINERS SAVES THOUSANDS OF LIVES

In the arrest by federal secret service men of Harold Arnold, an engraver, and Sol Scamon and Isador Lurevitch, former owners of a window cleaning business, it is believed that the lives of thousands of Wolverines have been saved.

The three were preparing to put on the market 10,000 quarts of moonshine whiskey containing wood alcohol, which was to have been sold as bonded Imperial whiskey, manufactured by a Walkerville, Ont., distillery, it is charged.

In the house in which the men were arrested, were found 10,000 new bottles with corks, 10,000 counterfeit "Imperial Whisky" labels and 10,000 counterfeit Canadian government internal revenue stamps, together with 150 gallons of raisin whiskey, into which the men admitted they had mixed 15 gallons of wood alcohol.

Hot and cold lunches at all hours. Good eats at low prices.—Snyder & Kujawa.

HENPECKED

By GERALDINE CAMPBELL.

(© 1920, by McClure Newspaper Syndicate.)

"I tell you, Frank, it's the only life. No henpecked husband for yours truly!"

His companion smiled indulgently, and thought of a little square white box reposing in his inside pocket.

"Oh, I suppose it all depends on the way you look at it," replied he. "Just now I have a mighty different point of view from yours."

Tom Price, a hardened bachelor, gave him a quick, sharp glance. "Say, what's all this?" he demanded. "I've heard a lot about you and that darned Avis Dean, but I didn't believe you'd go with a girl like her. I hope none of those rumors I heard were true?" rather anxiously.

Frank grinned mischievously. "Oh, just wait a few days. Something may happen," thinking again of the little box. "And let me tell you, Tom, Avis may be a little of a vamp, and she may like to order a fellow around some, but for all that she's a nice girl."

"See here, Frank Carr, we've known each other since we were kids, haven't we, and always been the best of friends?" (A nod from Frank.) "Well, I want you to take my advice. You can't deny Avis Dean is a vamp. You can't deny she has a rather shady reputation. You can't deny that she (as you say) and all the rest of her family like to order a fellow around a little too much. And, finally, see what a life Dick Carter leads after marrying Avis' sister, who was just like Avis is now. Why, the poor fellow can't spend a cent but wife must know where it is gone—he can't leave the house but she knows where he is going. Talk about henpecked husbands! Take my advice, Frank, as you always have, and stay away from Miss Dean."

"Well I'll think about it," answered Frank with a twinkle which showed he hadn't the least idea that his friend was in earnest.

When Frank reached Avis' house, he went up the stone steps three at a time and rang the bell furiously.

A maid came to the door almost immediately. Yes, Miss Avis was at home and expecting him.

In 15 minutes Avis entered the room and something in her eyes as she joyfully greeted him put all Tom's cautions out of his mind.

A year later Mr. and Mrs. Carr were settled in a modern bungalow at one of the two beaches. The sewing circle to which Mrs. Carr belonged was to meet at her house that afternoon. All the ladies were to bring their babies, and, as Mrs. Carr said, they would have a real home afternoon. At 2 o'clock, however, the members of the circle unanimously decided that they liked the movies better than a hot house and fretful babies, so long suffering Mr. Carr was brought in and asked in honeyed tones by his wife if he wouldn't take care of the babies while they went to the nearest theater.

"Of course you will, my dear," said Mrs. Carr decidedly after a moment's pause, "you're used to things like that, aren't you?" laughingly.

He gave a short, sardonic laugh as he answered, "Yes, I'm used to things like that."

So the ladies went off to enjoy the latest seven-reel thriller, leaving their some twenty babies to the care of Mr. Carr. As they left the poor man looked hopelessly at the children. Then he went to the piano, shoved all the bric-a-brac from the top into the midst of the wondering babies and sat down to enjoy a magazine.

In 15 minutes, he was brought back to earth by the sound of 20 voices yelling lustily. He brought more bric-a-brac, he gave them his watch and all the small clocks in the house (having once heard that a watch amuses a baby when nothing else will), he took from the walls the pictures, he danced the squalling children by turns on his knee.

By the time the ladies of the Circle returned, Mr. Carr had given their children everything in the house but the heaviest of the furniture—and the babies were still crying. The outraged ladies quieted their children, put on their coats and hats and went to their respective homes, vowing that they would make Mrs. Carr resign from the Circle.

"Oh, Frank, do wake up! What is the matter with you?"

Frank Carr slowly opened his eyes, saw Avis looking even more lovely than ever, bending over him—and realized that he was not a henpecked husband—it was all a dream.

"Oh—er—er, I beg your pardon, Avis, er—I didn't mean to fall asleep—I—"

She laughed lightly.

"I know you didn't, poor boy, and it was really awful of me to take so long in getting ready."

"Well—er—er—I—er—I don't feel at all well, and I—er—think—I had better go home."

He grabbed his hat and coat and made a rush for the door.

Avis could only stare. Then she went to her window to watch him as he ran down the path. Just before he reached the gate, she saw him take from his pocket a small white box, open it and stand for a minute gazing at its contents. She drew in her breath sharply as she saw him flick the little ring in the air. She did not, however, hear him exclaim as he did so:

"No henpecked husband for yours truly!"

Hesitant Hubby.

"My little husband is really a nice man, but so vacillating."

"How do you know?"

"Myrtle says he spent a full hour yesterday trying to decide whether he would wash the cat, the dog, or the baby."—Judge.

Certainly is.

"Do you think a diamond engagement ring makes a girl more thoughtful of by her chums?"

"Well, it is a good thing to have on hand."

Building Character.
It's folly to build with neutral materials. Character demands touch with God and co-operation with one's fellows. There may be some with desire to be considered clever who dare to assume positions that throw them into the limelight and the ridiculous. They may conjure up cute-sounding phrases trimmed to capture itching ears without giving a thought to what real meaning they may convey. It's dangerous to vent wholesale disaster upon those of other faiths. If men be given to folly it's your part to lead them to the truth.—Grit.

Wanted Blame Properly Placed.

Rosemary, aged four, and her twin sisters, aged two, were left in the care of a friend who also had three children of about the same ages. During the afternoon the friend heard one of the children in her pantry and, thinking to frighten the child out of the pantry without going in, said: "I hear some one in my pantry." Rosemary quickly walked over to her and said: "It's not any of ours; it's one of your own."

VICTIMS RESCUED

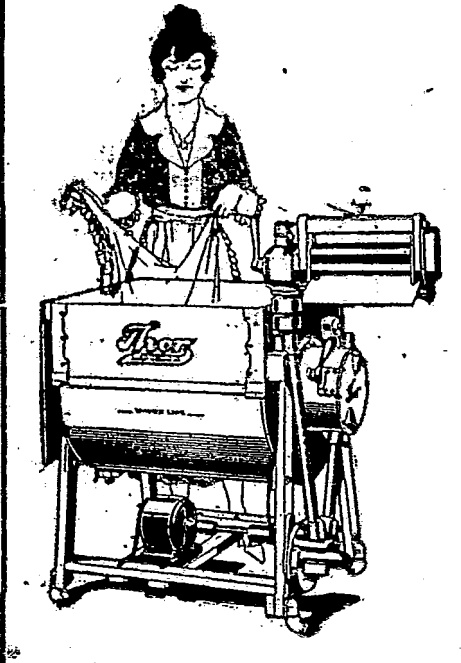

Kidney, liver, bladder and uric acid troubles are most dangerous because of their insidious attacks. Heed the first warning they give that they need attention by taking

The world's standard remedy for these disorders, will often ward off these diseases and strengthen the body against further attacks. Three sizes, all druggists. Look for the name Gold Medal on every box and accept no imitation.

There's a Reason Why She Prefers The Thor—

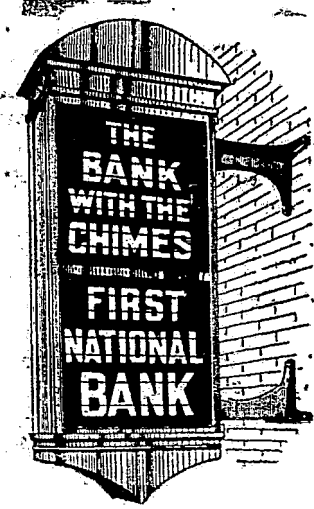

\$15 Down—Easy Monthly Payments

She knows it is a most sturdy, reliable, convenient electric washer—the easiest to operate. But above all, she knows it really washes the clothes sweet and clean without any wear or tear and without effort.

Let us show you its many desirable features. Phone for free demonstrations.

CALORIC WARNING

TO BUYERS OF HEATING PLANTS

There are makeshift imitations of the CalorIC Pipeless Furnace on the market that are offered at seemingly low prices, with the advice that engineering service is more needed for installing than when you set up a stove.

You may wisely beware of such advice, which can only lead to your disappointment and loss.

The CalorIC is today the most popular heating plant in the world—a proven success in over 125,000 homes—and sold on the written Guarantee of the buyer's satisfaction or his money back. CalorIC Engineering Service is one of the vital factors in this wonderful success.

To supply uniform heat throughout the building, the pipeless furnace must be installed with scientific accuracy in relation to air circulation in the particular building to be heated. And no one, unless thoroughly experienced in pipeless heating, can accurately plan such an installation.

CalorIC Engineers made pipeless heating successful—and the service of these engineers is yours without charge to insure the correct application of pipeless heating in your own building.

The CalorIC is scientifically designed for pipeless heating—and time has proven that its patents are basic essentials to highest heating efficiency. Protect your own interests by getting the genuine CalorIC. Bring or send a rough sketch of your floor plans, and we will show you engineers' blue prints of CalorIC installation in your home. No cost and no obligation to you.
