

PLAN IS BREWING TO BOOST BUCHANAN

70 BUSINESS MEN GATHERED AROUND FESTIVE BOARD TO DISCUSS PLAN AND ENJOY ENTERTAINMENT.

A Get-Together meeting was held at the Buchanan Inn last night, 70 men directly or indirectly interested in local retailing, gathering around the banquet board and thoroughly enjoying, not only the excellent spread but the entertainment features and the talks that followed.

At 7:30 the men who had gathered near the Inn marched in to music, Fred M. Moyer presiding at the piano. At the close of the dinner hour Glenn E. Smith, as master of ceremonies, put "Ginger" into the meeting by having everybody join in singing a number of popular songs. Mrs. G. E. Smith presided at the piano and Al. Charles acted as "pep" master. Everybody sang and liked it.

N. Beilharz, recognized by chautauqua managers as the world's best character impersonator, was next introduced and gave two humorous character sketches, which were enthusiastically received and roundly applauded.

Mr. Smith then stated the subject of the meeting: "To get local business men solidly behind a movement to better local business and stimulate it through an energetic co-operative campaign. He explained that at a preliminary meeting held Monday night a committee was appointed to devise a plan of action and he called on G. S. Easton as chairman of this committee to explain the plan, which, in brief, was the giving of \$2,000 in prizes, through a system of numbered coupons extending over a period of weeks. C. F. Pears was called on to explain the method of financing the plan and others who spoke in favor of it were A. F. Howe, D. L. Boardman, G. G. Rogers, Dan Merson and Jack Bishop.

Mr. Pears spoke of a merchandising plan that has been worked out in a small town in Missouri that has worked so successfully that business men's committees from many points in the United States have been sent there to investigate and copy. He suggested that a careful study of the plan be made and that it be followed in this "Boost Buchanan" campaign. An important element in the campaign under consideration was referred to by each speaker, the importance of thorough co-operation in every detail.

Mr. Smith asked for an expression from all present as to their wishes in adopting the plan of method. The vote was unanimous. On motion the chairman was instructed to appoint the necessary committees and on motion of A. F. Howe an advisory committee was named to assist in the selection of these committees, explaining that it was of the utmost importance that men be named to these committees who are best qualified to act in the capacity for which they may be chosen. The advisory committee appointed consists of C. F. Pears, D. L. Boardman and G. S. Easton.

It was explained that the local lodge of Odd Fellows were anxious to cooperate in any way they can to further every plan adopted by the business men and to assist in carrying it through to a successful conclusion. Roy Pierce and Arthur Johnson were present as official representatives of the lodge and Mr. Pierce stated the position the lodge would be glad to take. In behalf of the lodge he extended an invitation to the business men to make use of the lodge club room for the next meeting. The chairman fixed Monday night, August 1st, as the date. At this meeting the committees will be announced and the plan to be followed will be presented. It is expected that every local business man will be present.

M. L. Hanlin was next introduced and gave a splendid, interesting talk on business conditions general and local and explained some changes that must come before business comes back to a substantial basis. He was vigorously applauded.

The men then sang a couple of songs, smoked up a lot of Buchanan made cigars and adjourned to meet again next Monday night.

The promoters of the enterprise feel deeply appreciative of the courtesies contributing to the success of the affair extended by Mr. Beilharz, Mr. Hanlin, Mrs. G. E. Smith, Fred M. Moyer, who furnished the piano, E. C. McCollum who moved the piano, and to the proprietor of the Inn and his assistants.

DRINKS ACID BY MISTAKE, FARMER WILL RECOVER

Battle Creek.—Ray Rowden of the Hickley district, near Charlotte, is in a serious condition in the hospital as the result of drinking acid used in testing milk by mistake. Two operations have been performed and Rowden will likely recover, though he is unable to even partake of water.

DIAMOND LAKE MAN HELD AT SOUTH BEND ON U. S. CHARGE

Robert Brown, Diamond lake, is held by federal authorities at South Bend, Indiana, awaiting service of a warrant for his arrest on a charge of violating the Harrison act. It is alleged that he had illegal possession of eight ounces of morphine at Diamond Lake on July 16. He will be brought to Grand Rapids for examination before United States Commissioner Oscar E. Waer, who issued the warrant.

ROUGH TAKES AIR TRIP DE LUXE

J. C. ROUGH FLIES FROM ST. JOSEPH TO MILWAUKEE IN REDDEN'S MONSTER HYDROPLANE.

From St. Joseph via Racine and Kenosha to Milwaukee, a distance of 90 miles covered in exactly 69 minutes, is an experience thoroughly enjoyed by J. C. Rough Tuesday afternoon.

The Santa Maria, aerial cruiser de luxe, circled over St. Joseph at 1:17 Tuesday afternoon on a flight from Muskegon and four minutes later lay at anchor off the north pier. Among those to greet her arrival were Mr. and Mrs. J. C. Rough and Mr. and Mrs. G. E. Smith.

The Santa Maria is a member of a fleet of air cruisers owned and operated by the Antomarine Airways Co., Inc. of New York City; Chas. F. Redden, born in Buchanan and who grew up to manhood here, is organizer and president of the company.

The ship made the flight from New York following the St. Lawrence to the Great Lakes to Buffalo then to Cleveland, Detroit, and around the lakes with Chicago her destination where she will be on exhibition at the Pageant of Progress.

The Santa Maria can carry 15 passengers without baggage. On long flights the passenger list is necessarily cut down because of the weight of the baggage. On this flight she carries five passengers and a crew of three. With this load her total weight, including baggage carried is 15,000 pounds.

Among those taking the around-the-lake trip are: Lieut. Commander P. N. L. Bellinger, who piloted the NC-1 on its historic making flight across the Atlantic ocean and who is representing Secretary of the Navy Edwin N. Denby; Jack Binns of the New York Tribune and President G. F. Redden. The crew consists of Ed. Musick, pilot, Chas. Barbet, assistant pilot and Will Richards, mechanic. Two prominent men are invited to make the point to point flight.

The plane is propelled by two Liberty Motors of 400 horsepower each and is capable of making 100 miles per hour. Her average cruising speed is 70 miles per hour with a full load.

On her trips she flies about 15 feet above the water when the surface is calm. Approaching the shore line she is nosed up to an elevation of about 1200 feet, passing over the cities at about this altitude generally though she can go up till the earth drops from view if necessary.

The cabin is built of mahogany and is luxuriously fitted up with chairs and those things which make for comfort. Should an accident occur she can at once drop to the water and float along as well as any boat, the cabin being water tight.

ST. ANTHONY'S FIRST ANNUAL PICNIC

Members of St. Anthony's church with their friends, met at Clear lake Wednesday for a picnic supper. The entertainment committee arranged a very interesting and entertaining program of races and guessing contests, into which the children entered most enthusiastically, after an hour of swimming and play in the water.

A number of out-of-town guests including Rev. L. T. McQuellan of Three Oaks, and Father Leahy of Chicago was present.

This first picnic was so thoroughly enjoyed, both by grown-ups and children that it was voted to make it an annual affair. There were 80 people present.

BOY USES WIRE TO FLY KITE, IS ELECTROCUTED

Flint.—John Hawlyo, 12, died in Hurley hospital as a result of a shock and burns received when a fine copper wire he had been using for a kite string became entangled with a high tension cable of the Consumers Power company.

BURGLARS GET LOOT IN BENTON HARBOR HOME

Mrs. Louise Kilbourn of Benton Harbor, went to the Yellowstone Park and on her return Wednesday discovered that burglars had ransacked her home and carried away property valued at \$300.

SERIOUS FIRE IN DOWAGIAC

NILES AND CASSOPOLIS CALLED TO AID AS FLAMES SWEEP THRU CITY'S LARGEST STORE PROPERTY

Fire of an unknown origin swept through the George Little department store in Dowagiac Wednesday morning completely gutting the interior and doing damage estimated at \$100,000. But a small part of the loss is covered by insurance.

The fire was first discovered in one of the offices on the second floor at 5:30 a. m. and quickly burst its way through to the ground floor, completely gutting the building before it was extinguished.

Soon after the fire started it was apparent that the fire department would be unable to cope with it and a telephone call was sent to Niles and Cassopolis for aid and both places responded by sending chemical engines.

The building stands on one of the prominent corners in the business district. About a year ago Dowagiac had a fire in its downtown district nearly a block of property being destroyed.

Mr. Little has announced that the work of rebuilding the property would be started at once.

FARM BUREAU WILL PICNIC AT BERRIEN SPRINGS

Berrien County Farmers will swear off work and gather at Indian Field, Berrien Springs, on August 4th to attend the first annual Farm Bureau picnic. James Howard, president of the American Farm Bureau Federation and the biggest man in farm bureau affairs in America will be present and give the principal address.

No person, whether he is a farm bureau or not, who is interested in the betterment of farm conditions can afford to miss hearing Jim Howard. An excellent concert band has been engaged to furnish music throughout the day. There will be a full program of sports beginning at 10 a. m. These sports will include a horseshoe pitching contest, races for boys and for girls, for men and for women, and other contests. Substantial rewards are offered for the victors in each contest. In the horse shoe pitching contest the townships will be pitted against each other. The contestants will bring their own shoes and pegs. The day will close with a gall game between Berrien Springs and Glendora. Both are strong teams and the game will be worth witnessing.

While this is a farm bureau affair and none but farm bureau members and their families will be eligible to enter the sports, a cordial invitation is extended to all farmers and their friends to attend.

FOUNTAIN PEN MAKER PICKED UP FOR SPEEDING

Motor Cop Clarence Dunbar had a busy day Saturday and Sunday, finding it necessary to make several arrests of drivers who were turning the highways into speedways.

Sunday C. A. Shafer of Ft. Madison, Ia., manufacturer of the Shafer fountain pen was arrested for speeding. He was driving a Cadillac car at a 50 mile rate on the lake shore road. He sideswiped a Vele driven by J. S. Stover of Chicago and ruined a fender of the Vele. Shafer promptly paid the cost of a new fender and then presented Mr. Dunbar with a Shafer pen as a memento.

PLAYFIELD BRANCH OF AMERICAN LEGION WILL BE ORGANIZED

"LaSociete National des 40 Hommes at eight Chevaux" is a new American Legion activity in Michigan. Preliminary steps are being taken in Detroit for the organization of such a branch before the state convention of this Legion in Kalamazoo, Sept. 6 and 7, according to announcement from the state headquarters.

This division, known as the playfield of the American Legion, came into existence at the last national convention at Philadelphia and was sponsored by Cleveland Legionnaires who came to the convention in box cars, reminiscence of the coaches de luxe of the troop trains that arrived American soldiers from one French battlefield to another, labelled "40 Hommes et 8 Chevaux," translated "40 men or 8 horses." The new branch is expected to bear a similar relation to the main body that the Shrine does to Masonry or the Dokays to Pythianism. Its troops will be prisoners de guerre until they work their way thru the veil of mysteries to freedom.

State Adjutant Lyle D. Tabor, is in Kansas City, arranging accommodations for the Michigan delegation to the national convention, October 31 and November 1 and two. Prior to the state convention, district reunions will be held in all the Michigan districts.

CUTS DOWN BOUNTY PAID TO TRAPPERS

LEGISLATURE AMENDS LAW COVERING BOUNTIES ON PREDATORY ANIMALS; LESS REVENUE TO TRAPPERS.

Berrien county hunters and trappers, who have made good money in the past few years with traps and guns are to feel the pinch of tumbling revenues for the legislature has cut down the bounty fees on most predatory animals and birds.

The old law provided that a bounty of 50c should be paid on each weasel, wood chuck, certain kinds of hawks and owls and 25c on crows. Now a bounty will be paid on woodchucks and crows only, but at a 50 per cent off price—25c on each.

The amended law goes into effect August 18th and after this date no state bounty will be paid on any noxious bird or animal except woodchucks and crows.

The act also repeals the payment of bounties on wolves, wildcats, lynx and foxes. Quite a number in the vicinity of Buchanan have found the hunting and trapping of birds and animals on whose head a bounty rested, profitable in the past. Now the game will not be worth while.

MICH. HORT SOCIETY PLANS SUMMER TOUR

East Lansing.—A three-day tour of more than a score of western Michigan orchards will be taken by the Michigan Horticultural society on Aug. 2, 3, and 4. Members will assemble at the Graham experimental station at Grand Rapids at 1 o'clock, Tuesday, Aug. 2; then set out for Shelby, Hart, and the fruit district surrounding. The third day of the tour will carry them into Mason county. Plans are in charge of T. A. Farrand, extension specialist in horticulture at M. A. C., and secretary of the society.

PRIVILEGE TAX PUT ON THE GRILL

BATTLE CREEK COMPANY TO TEST LEGALITY OF CORPORATION TAX IN COURTS; SEEK ANNULMENT.

The attack against validity of the new state corporation tax law, begun Friday by the Union Steam Pump Sales company, of Battle Creek, will, if successful, make the state face a financial crisis.

The corporation law was passed by the 1921 legislature as an administrative measure and was advocated by Prof. David Friday, University of Michigan economist. It was regarded as the only means of providing the state with the necessary funds to carry it through the year.

Would Net Six Million The act provides for a fee of three and one-half mills on every dollar of paid-in capital and surplus. During July and August the state hoped to realize from \$5,000,000 to \$6,000,000 from its enforcement.

The Battle Creek corporation attacks the law as unconstitutional on three counts, that it attempts to divert state funds payable exclusively to the primary school interest and other educational funds into the general fund, that it violates the constitution by attempting to impose a specific tax which is not uniform upon the classes which it operates and that it is in conflict with the fourteenth amendment to the United States constitution, which prohibits the state from denying to any person within its jurisdiction the equal protection of the laws.

The Battle Creek concern proffered its report of its condition as of June 30 with a filing fee of \$2, but failed to tender the tax. The secretary of state returned the report and the company then filed in the supreme court a petition for a writ to compel the secretary of state to show cause why he should not accept the report.

ELEVENTH PERSON DROWNS IN PAW PAW LAKE WEDNESDAY NIGHT

Louis Naizel, 20, of Chicago, a resurter at Paw Paw lake, lost his life Wednesday night when canoeing with two other young men.

The boys were out in the center of the lake where the water was quite rough when the frail craft capsized in water said to be 100 feet deep. A rowboat nearby went to the aid of the boys but Naizel sank before the rescuers reached the spot.

LARGE CROWD ATTENDS WEDNESDAY NIGHT CONCERT

The largest crowd of the season was in town Wednesday night to shop and attend the band concert. Three Oaks, Galien, Glendora, Bridgman, Niles and South Bend were well represented. Buchanan's reputation as "a good place to trade, a good place to play" is rapidly spreading over a wide area.

MERCHANTS TO ENTERTAIN FARMERS AT BIG PICNIC

Portland.—All business will be suspended in Portland August 10, when merchants and professional men of that village will be hosts to farmers of the surrounding country and their families. The picnic will be held at the Portland municipal dam. There will be an athletic program, speeches, band concerts and a pot luck dinner.

PROSPECTS LOOK GOOD FOR LIONS CLUB HERE

St. Joseph men are feeling very happy over the successful organization of a Kiwanis club which has received its charter. Buchanan will soon have a Lion's club if a special dispensation can be secured. The rules of the national organization provide that no Lion's club shall be organized in a town of less than 5000 unless unusual conditions prevail and then only on special dispensation.

LET'S GET BEHIND AND BOOST IT OVER

"OVER THE TOP" IS SLOGAN OF CHAUTAUQUA FANS; ALL MUST HELP TO MAKE IT A SUCCESS.

The 1921 chautauqua, which opens in Buchanan Wednesday, August 17, for a seven day run, will offer the best program ever given in town, in the opinion of folks who know the talent to appear here.

Tickets are now on sale at \$2.20 for adult season ticket and \$1.10 for child's season tickets. Thirty-five persons have pledged themselves to pay the deficit, if any, that there may be brought to Buchanan the best in musical and literary talent. The contract provides that only the money received on the advance season tickets shall apply on the contract. After the chautauqua opens the season ticket sale and the single admission sale goes to the bureau with no credit to the local guarantors. It is only through such arrangements that Buchanan can have this annual entertainment feature.

Each of the persons named below must sell 20 season tickets before chautauqua opens to provide against a deficit. It is up to chautauqua fans to buy tickets now and thus assure the guarantors that they will not have to go down in their pockets and pay for the others' pleasure.

The Program of Talent The program follows: August 17—Afternoon: Wheelock's Indian orchestra; Dr. Stanley L. Krebs—"Two Snakes in Eden," a lecture as unusual and commanding as the title, by a psychologist of international reputation. A man to whom "Big Business" listens gladly.

Evening—Wheelock's Indian Orchestra—An unique organization, all full-blooded Indians—in unique program, including Indian dance in costume. A real orchestra. An hour of musical treat.

Harry Starnes—Special demonstration of electrical wonders, wireless operation of distant objects, high voltage, violet and x-rays. Expensive and special apparatus, fascinating and educational.

Aug. 18—Afternoon—Grand Concert Recital by Franklin Cannon, concert pianist, Edna Overby, reader. Oldest New York critic recently said, "never heard anyone whose touch on the piano was so much like the great master, Leschetizky."

Evening—World famous Prima Donna Soprano Ellen Beach Yaw. Grand concert program, including "The Sky Lark," for which she is famous on two continents. Franklin Cannon at the piano.

August 19—Afternoon: Virginia girls, singing orchestra, a full program of delightful melody, both instrumental and vocal; featuring the heart songs of the nation, special readings and some natty costumed numbers. Evening—Dr. G. Whitfield Ray—"Through Five Republics on Horseback." Fifteen years in the heart of South America. Great explorer brings thrilling tales of timely interest from jungle and mountain fastness. Aug. 20—Afternoon: Kaufman quartette and assisting artist. American's Premier Male Quartette. A foretaste of the evening's treat. Dr. Ira P. Berry—"Art, Travel and Patriotism," are all vividly portrayed by a master workman who wrought out the descriptions on the very presence of the marvels he desires. Evening: Kaufman Male Quartette in a wonderful program. Four of the greatest male quartette singers in the country, thoroughly blended, singing the master songs of the ages with an artistry unsurpassed. A rare treat. August 21: Afternoon: Earnest Toy Trio—A program of surpassing merit and interest. Dr. Gabriel R. Maquire, distinguished orator and explorer; seven years in Africa; thrilling experiences with beasts, cannibals and pigmies. Spontaneous humor. Go "With an Irishman thru the Jungles of Africa." Evening: Earnest Toy Artists' Trio. Great Australian violinist, assisted by Helen Riddell, lyri soprano and Mrs. Toy, concert pianist. A most satisfying program by a great trio, en tour to the Orient. Aug. 22—Afternoon: Wales Players—A sprightly program of choice selections. Josh Lee, reader and humorist, in a program that will keep you in good humor for weeks. Evening: The Wales Players will present that most popular play, "Pollyanna." New York and Chicago cast with Fifi Bergere in the title role. One of the cleanest and most satisfactory of dramatizations, beautifully enacted. Aug. 23 afternoon: Midland Metropolitanans—in a big three-part program that will appeal to everybody. Mirth, ballad and operatic selections. Featuring Edward Kirby, of New York, Professor Blum, and others. Beautiful voices, splendid ensemble. Evening: Midland Metropolitanans, Great, popular closing concert. Frank Dilnot of London England. An Englishman with humor and rare understanding of American audiences. Editor of London Globe; best known for his biography of Lloyd George. "Master Minds and Master Wits." "The Little Olde Folks Concert" will be given by the "Jolly Juniors at 4:30 p. m. on this date

PICNIC 4 WEEKS AWAY; LOOKS BIG

THE 45TH ANNUAL GATHERING OF YOUNG AND OLD SETTLERS TO ECLIPSE THE PAST EVENTS

Berrien Springs, July 29—While Berrien Springs has gained a reputation of being the "picnic town" of the county from the scores of organizations throughout the county and northern Indiana which hold their annual outings there bringing thousands of visitors, the two big events looked forward to by the entire population for nearly half a century past have been the annual reunions of the Old Settlers and the Young People. Until last year these events were held on separate days, the Old Settlers in June and the Young Folks in August, but last season, these two organizations combined for one big day and the affair was most successful.

Again this year, on Wednesday, August 10, these two organizations will hold a joint celebration in Berrien Springs and preparations are going forward to make it the biggest of all.

It's still too early to announce the complete program but the Legion boys in charge are talking aeroplanes, hydroplanes, and other attractions for amusement, besides races and various sports. Of course there will be band music all day, dancing at Fischers pavilion afternoon and evening, and probably some good speech-making.

The event will also be in the nature of a "home-coming" for former residents. Wherever they are, the old timers kept tucked away in their hearts fond memories of the town of their birth or former home and many of them will plan to be with us on picnic day to renew acquaintances and greet old friends.

From interest manifest thus early, it appears that Berrien Springs will entertain one of the largest crowds in its history, on August 10th. The public of this whole section is urged to lay aside their business cares on this day and go to Berrien Springs for a day's frolic on Berrien county's play ground.

It's going to be a "real circus," says the committee. Better go and see.

THE MRS. PIGS.

International disarmament is on the way. France has accepted President Harding's invitation to participate in a disarmament conference with a view to diminishing the heavy cost of armament, a cost that has from time immemorial weighed heavily about the necks of all peoples, and which has brought many nations to disaster. Lloyd George will be present at the Washington conference with Arthur Balfour and Winston Churchill. Big armies and powerful navies seem to be necessary under the present condition of world economics; but the nations are fast finding out that the policy of "Might Makes Right" is far too expensive under modern methods of militarism, and all nations are seeking a better way to preserve the peace of the world, and there seems to be no better course than to abandon militarism and seek justice before an international court.

Jobless men are becoming scarcer. The harvest fields have drawn heavily upon the surplus labor and when the harvesting is done there will be a chance for these men in the various branches of industry in the country. The wave of prosperity is rolling on, catching one industry after another in its flow and starting the wheels in motion, and with every turn the tinkle of dollars is heard throughout the land. Those dollars are going into the pockets of laboring men and women, and will soon be felt in every branch of business. The merchant will get many of them, and they will find their way into every business enterprise from the farm to the manufacturer, from the shoe-maker to the minister. They will go the rounds, making everybody richer and happier. Talk as you may that is what is coming.

Germany understands and is putting into practice a policy that all nations must learn sooner or later, and that is that prosperity comes by hard work, economy and good judgement. Germany is now a selling nation. Her people are busy and they are coming to the front line of commercialism with greater rapidity than any other nation of Europe. Germany is shipping to the United States much more than she is buying in return. Germany is not buying finished products. She is in the market for raw materials, and the labor of her own people adds new values that enable Germany to climb the ladder of prosperity.

Europe now owes the United States \$1,000,000,000 of interest money upon its indebtedness. There seems to be no immediate prospect of collecting it or any part of the principal.

DEATHS OF THE WEEK

Sarah D. Morris.
Sarah D. Morris was born at Marietta, Ohio, Feb. 23rd, 1845.
She was the oldest of eight children of George H. and Lucy A. Richards who came to Buchanan to make their home in the year 1854.

"Of all the Mrs. Pigs," said Mrs. Pink Pig, "I'm the prettiest and the nicest."

"Nonsense," said Pinky's mother. "I am."

"I am," said Mrs. Black Pig, who had come along for a talk.

"Grunt, grunt, I am," said Mrs. Pink Pig. "I know Mr. Pink Pig thinks so. He looked over all the pigs in the barnyard and then he looked at me and he said:

"I admire all pigs and I think they're all very fine, but you I admire the most of all."

"Ah," said Pinky's mother, "but I heard why he thought you were the best of all, or rather, why he admired you the most of all.

"He thought you were the biggest pig in the pen."

"That's a great compliment," said Mrs. Pink Pig. "I know of some creatures who'd rather have other compliments, but that one suits me perfectly."

"Just as well it does," said Pinky's mother, "for it's about the only one you'll ever have."

"I said I was the prettiest and the nicest of all the Mrs. Pigs," said Mrs. Pink Pig.

"So did I say so of myself," said Pinky's mother.

"And that was what I said of myself," said Mrs. Black Pig.

"But I am right, squeal, squeal," said Mrs. Pink Pig.

"None of you are pretty and none of you are so wonderfully nice," said Mrs. Ham.

"You're not members of a beautiful family in the first place and in the second place you aren't even particular of how you look and creatures must be neat to be pretty."

"Oh well," said Mrs. Pink Pig, "there was a reason for us talking as we did. We talked foolishly enough because we were waiting for our dinner, and when one is waiting for dinner one cannot think about anything else but food."

"To be sure one can talk of other matters a little bit, but one mustn't

"None of You Are Pretty."

talk of anything important, for it takes one's mind off the thought of food."

"And that would never do," said Pinky's mother.

"It would never do," said Mrs. Black Pig.

"We might just as well grunt and squeal about anything as long as it is so nearly meal time," said Mrs. Pink Pig. "It's not worth our while to start a talk about anything important."

"It most certainly is not worth our while to do that," said Pinky's mother.

"Most assuredly not," said Mrs. Black Pig.

"What do you consider important, besides food, in the way of talk?" asked Miss Ham.

"Back scratching," said Mrs. Pink Pig.

"Back scratching is right," agreed Pinky's mother.

"Grunt, grunt, back scratching is right," said Mrs. Black Pig.

"Well," said Miss Ham, "you are certainly foolish when you speak of prettiness and such talk!"

"But of course you're pigs, and no one expects much more of you."

"We don't fuss about payment and we don't strike for higher wages and we don't upset things at all," said Mrs. Pink Pig. "I think we're 'pretty superior'."

"So do I, grunt, grunt," said Mrs. Black Pig.

"I agree, squeal, squeal," said Pinky's mother.

"Wouldn't you strike for more food if you thought you could get it?" asked Miss Ham.

"Well, perhaps we would," said Pinky's mother.

"We might, that is true," said Mrs. Black Pig.

"Yes, it is true, we most certainly might," said Mrs. Pink Pig.

"Then you'd better not talk about being so superior," said Miss Ham.

"Let us not talk about anything," said Mrs. Pink Pig, "for here comes our dinner."

"We will talk of nothing for awhile now," said Mrs. Black Pig.

"We will simply eat and be happy," said Pinky's mother.

War Memorial in China.
At its last meeting the Shanghai war memorial committee considered the various suggestions for a civic memorial to those of the allied citizens who fought and died in the war, and it was unanimously agreed to erect a cenotaph at the junction of the Bund and Avenue Edward VII. The tram lines will have to be diverted to either side of the memorial. Shanghai architects are to be asked to submit designs for the cenotaph, and presumably they will base them upon home models, with due allowance for local conditions and space at command. Provision will of course be made for a roll of honor, as complete as it can possibly be made. The memorial will be paid for by public subscription, with the possible addition of grants from the foreign and French municipal councils.—North China Herald.

UNCLE SAM GATHERS HUGE SUM IN TAXES

GETS \$41,900,000 MORE FROM INCOME TAXES THIS YEAR THAN LAST IS OFFICIAL REPORT.

Washington.—The government obtained a total of \$1,269,000,000 in revenue from personal income taxes in 1919, an increase of \$441,900,000, compared with 1918, according to a preliminary report of income tax returns made public by Internal Revenue Collector Blair. The commissioner's report showed there were 51,332,760 personal returns filed in the calendar year, 1919, representing a growth of 907,646 from 1918, while the total amount of net income reported for 1919, was \$19,859,000,000, an increase of \$3,934,000,000 over the previous year.

The net income per return in 1919 was \$3,724.05, the average amount of tax \$238.08 and the average tax rate 6.39 per cent.

The report also showed that people making a million dollars or more net income are paying the government practically two-thirds of it in taxes.

Individuals having \$1,000,000 or more net income paid \$99,026,996 in income taxes to the federal government during 1919 on an aggregate net income of \$152,650,245. There were 65 of these tax payers paying an average of \$1,523,492 each, the average rate of tax being 64.87 per cent.

Individuals with net incomes of \$1,000,000 or more mounted from 60 in 1914 to 126 in 1915 and then to 206 in 1916. From that year they have decreased annually, there having been 141 in 1917, 67 in 1918, and 65 in 1919.

The preliminary statistics issued recently do not show the taxes in the classes above \$1,000,000, but the net income of individuals in the class from \$1,000,000 is given as \$41,668,433; from \$1,500,000 to \$2,000,000 as \$22,106,906 and \$1,000,000,000 and over as \$88,874,856. The 1918

returns showed the 67 individuals net incomes of \$6,000,000 or more to have included one with a net income of \$5,000,000 more, two with net incomes of \$4,000,000 to \$5,000,000; four with net incomes of \$3,000,000 to \$4,000,000; 11 with net incomes of \$2,000,000 to \$3,000,000; 15 with net incomes of \$1,500,000, to \$2,000,000 and 33 with net incomes of \$1,000,000 to \$1,500,000.

CODLING MOTHS OUT THREE WEEKS EARLY

East Lansing.—Final spray against codling moths, pests capable of inflicting great damage on Michigan fruit, must be applied about three weeks ahead of the normal dates in order to be effective this year, according to R. H. Pettit, head of the M. A. C. entomology department. The moths are emerging in the adult state weeks ahead of schedule, reports from 13 observing stations over the state indicate, and action must be speeded up.

Dates for spraying in various sections have been computed by Pettit and sent out to county agricultural agents. For the southern two tiers of Michigan counties, the optimum date for the final spray of the season against codling moth has been given as just somewhat according to local conditions as just before July 20. Dates for other sections of the state will vary somewhat according to local conditions.

STATE AND NATION TO BUILD 12 MILES OF EMMET ROAD

Petoskey.—Emmet county was promised about 12 miles of federal and state aided road construction by the state highway department, recently. The road from Pellston to Mackinaw City will be largely paid for by state and nation, being part of the Military road from the upper peninsula to Grand Rapids. Work will start soon and will be rushed to completion this year.

Work on the Levering-Cheboygan road was suspended this week, awaiting sale of more bonds. The road to Wallon lake will soon be completed.

CLASSIFIED ADVERTISING

"The Clearing House of Wants"

The Classified Want Ads of the Record perform a great service for Buchanan.

Many of the jobs are filled, many lost articles found, many rooms and houses rented, many pieces of valuable property and farm sold, many miscellaneous articles sold, many automobiles change owners and business opportunities have taken advantage of as a result of the Record Want Ads.

These are only a few of the thousand and one uses of classified advertising.

As "The Clearing House of Wants" the Want Ads will find practically any reasonable want that you may have. If you want to sell anything, offer your business services to the public, rent a house, find a lost article, or supply any other reasonable "want"—use Record classified advertising.

We will be glad to aid you in any way possible.

Boys Gladly Stay on OilPull Farms

Farm boys are not leaving modernized farms. They're leaving the "drudgery" farms that are still without the many modern conveniences that are at every farmer's disposal and within the reach of his pocketbook.

Probably nothing ties a boy to the farm more firmly than an OilPull tractor. It makes fun of hard work. It gets the work done in season. It gets a greater profit from the farm. It entirely changes the average boy's attitude toward farm life. For nowhere else in the entire tractor industry is there a tractor with a record of performance as great as the OilPull's. Its record of long life, of dependability and of economy has never been equalled.

Bring your boy in and we will tell him more about farming with an OilPull.

CLAUDE SWANK, Galien

Fordson TRACTOR

\$625 F.O.B. Detroit

"Yes I've more time for myself since I got a Fordson"

The Fordson Tractor is taking much of the drudgery out of farm life; it is solving the labor problem; it is reducing the cost of preparing land by almost one half of what it was with horses; and it is saving one third to one half of the farmer's time; and making farm life more attractive.

The Fordson will run your threshing machine—and at the most opportune time for you. It will operate the milking machines, saw your wood, fill your silo, pump the water, and take care of every kind of belt work.

And don't forget—it will plow six to eight acres in a ten hour day, handling two plows with ease.

Thus the Fordson is the ideal year-round tractor. It will pay for its fall and winter keep in many ways.

There's a big story to tell you about the Fordson—and a true one—come in and get the facts. Or, if you prefer, telephone or drop us a card and we will bring them to you.

Mr. and Mrs. Flowers and daughter of Chicago, who have been spending their summer vacation on their farm recently purchased in this vicinity expect to return to their city home the last of this week.

We have something in this vicinity which is out of the ordinary, that is five generations as follows: Mrs. Charlotte James takes the roll of great, great grandma, Mrs. Ed. Yaw as great grandma, Mrs. Claude Yaw as grandma, and Mrs. Tom Kane, mother and the baby, little Miss Chreda Marie Kane, of Three Oaks making the five generations.

This baby is also blessed with grandmas on the "other side of the house," namely Mrs. Mollie Kiefer great grandma, Mrs. Henry Heckerthorn, great grandma, and Mrs. Cyrus Kane grandma. Henry Heckerthorn, Cyrus Kane, Ed. Yaw and Claude Yaw are from great to just grandpas. Surely this little lady ought to be a model child having so many great and grand parents and parents to assist in shaping her life. We feel as if we ought to have a five generation picture of this sketch for the Berrien County Record. And now if we have overlooked or missed any name of great or grand parents in this affair we beg pardon for we have tried to get 'em all."

TRACEY'S FIRST SIGHT MUST HAVE BEEN THRILLER WHEN HE SAW WOMAN

Omaha.—Tracey Gills, older than Brigham Young when he took his third wife, has just let his eyes first see a woman. He also has had his first remembered view of a railroad train, a street car, a daily newspaper and a fiction magazine.

Upon seeing a woman for the first time, Gills visited a barber shop and had his long hair cut and his face shaved.

Gills is 83 years old. He was born in Chicago. His mother was an actress and his father a disciple of Moody and Sankey. But for a third of a century father and son, their Bible open to the chapter which tells of John the Baptist dwelling in the wilderness, have lived alone on a western Nebraska ranch, 40 miles from a railroad, with no stranger stopping within its fence posts.

George Gills, the father, died recently, two years short of the fourscore and 10 which he believed had been promised to him. Tracy, the son, buried the body on the ranch and went on with his farm work. Friday he came to Omaha on his pioneer journey with a load of cattle.

According to the young man's tale, the older Gills trafficked, with his neighboring farmers only on their property and never on his own, for fear his son's ears should pick up hints of civilization. The father fled to the west with his son to save him from the dancing, singing actresses in Chicago's old Haymarket theater.

"A devil lurks on every street corner, father taught me," Tracy Gills said. "He told me the sad story of my mother and told me to avoid all sinful men."

With the money from the sale of his cattle Gills changed his homemade garments for a suit of store clothes. He also bought a safety razor, a tube of tooth paste and two silk neckties. He is willing to admit that one glimpse of the city has demoralized him. In his plans for the future, which include continued residence on his secluded farm, he mentions a wife and a course in agriculture.

arranged for the fall and winter seasons. Clinicians will furnish their first year's work August 1, starting on the road again September 1.

To complete the future schedule of the clinic, local women's clubs, Red Cross chapters and other organizations under whose auspices clinics are held, are urged to make arrangements for reservation of dates immediately. In the past the clinic has been forced to turn down convenient routings which were received too late to be included.

Since September, 1920, the clinic has examined 7,474 persons in 38 counties and turned away a like number because of lack of time. The department expects to cover the remainder of the state during the coming year, in addition to holding several return clinics.

Besides the two main units of the clinic which specialize in examination of adults for tuberculosis and examination of children for remedial defects, the clinic holds special periods for thorough examination of ex-service men. Local physicians have approved the work of the clinic in every community visited.

METEORS FEED SUN GIVE UNUSUAL HEAT

The excessively warm weather of this summer is caused by an unusual downpour of meteors on the sun, increasing its radiation and effective surface temperature, is the belief of Prof. J. J. See, government astronomer at the Mare Island navy yard. He said it was based on extensive research work.

Citing the fact that unusually warm weather occurred every 10 or

11 years he said that "now for the first time, by profound researches, astronomers are able to throw some light" upon this great mystery.

"Since a mass of meteoric matter greater than our moon is falling into the sun every century," he said, "it is very improbable that the downpour proceeds at a uniform rate. If it comes down in gusts under the action of the chief planets, Jupiter and Saturn, then we should have sudden increases of the sun's radiation, just such as we now witness all over the world."

DRY WEATHER FAVORS LOCAL ALFALFA SEED

East Lansing.—Hot, dry weather this summer has made conditions unusually favorable for the setting of alfalfa seed in Michigan and in reply to a number of inquiries Prof. J. F. Cox of the farm crops department at M. A. C. has suggested that a sufficient acreage of the second crop be allowed to go to seed to furnish a supply for ample plantings on individual farms next spring.

"From two to four bushels may be expected where a heavy bloom is not ticed," says Prof. Cox. "It has not yet been demonstrated that alfalfa seed production may be placed on a commercial basis in Michigan, since one or more crops of hay which must be sacrificed are ordinarily worth more than the seed produced in average season. Seed should be harvested from fields of Grimm, Baltic, Cossack or common alfalfa when the pods are brown and when the seed is in the tough dough state. Ordinarily clover hullers may be used successfully in threshing alfalfa seed."

STATE FARM VALUE UP NEARLY 50 P. C.

ACREAGE SHOWS HEAVY INCREASE OVER 10 YEARS AGO; RATIO OF DEBT IS 34.6 PER CENT; SLIGHT INCREASE.

Lansing.—Mortgage indebtedness on Michigan farms has increased 92.2 per cent in the last 10 years according to figures compiled by Verne H. Church, agricultural statistician for Michigan. The ratio of debt is 34.6 per cent, as compared with 30.3 per cent 10 years ago, and Michigan's present ratio of indebtedness is 5.5 per cent greater than the average for the United States.

The figures indicated here represent only the mortgages on farms operated by their owners. No attempt was made to secure data on the indebtedness on rented farms. Eighty-two per cent of the farms in the state, or 159,406, are worked by their owners. More than half of them are mortgaged.

The average value of the mortgaged farms is \$6,264 and the average debt is \$1,168. The total valuation of mortgaged farms including buildings, is \$422,165,166 and the total indebtedness is \$146,075,042. Ten years ago the average value of mortgaged farms was \$3,654 and the average indebtedness was \$1,107. Although the ratio of indebtedness is 5.5 per cent higher in Michigan than the average for the country, the increase in other portions of the United States has been much more rapid in the past few years as indicated by the fact that the total percentage of increase for the United States in the past 10 years was 132.5 per cent against Michigan's 92.2 per cent.

Many of the newer mortgages in the state, according to Mr. Church, are probably due to a growing tendency toward larger holdings by the successful farmers. In 1910 there were 206,960 farms in Michigan and in 1920 the figure had dropped to 196,447. During the same decade the farm acreage increased from 18,940,614 to 19,134,204. During the same period the value of farms increased from \$901,138,299 to \$1,437,862,310, or about 60 per cent. The average value of all farms in the state is now \$7,319 and 10 years ago it was \$4,354. The corresponding advance in per acre value was from \$47.58 to 75.54.

FLIER HITS ARMY TRUCK AT NEW CARLISLE; DITCHED

The New York Central passenger train which leaves Chicago at 11:15 p. m., was derailed at the New Carlisle crossing Thursday morning at one o'clock when it struck a heavy army truck. The train was going down grade at a rapid speed when it struck the truck, and the engine and 12 cars left the track. The engineer and fireman were both seriously hurt, but of the several hundred passengers aboard none are known to have been seriously injured. Identity of the driver of the heavy army truck, which was enroute overland from Lima to Chicago, could not be learned, and nothing of his whereabouts could be ascertained by rail officials and other investigators. The man is said to have leaped to safety as his truck was directly in the path of the speeding train and is thought to have left the wreck scene immediately with Zachary Calim, of Indiana's Harbor, who was driving another giant motor to Chicago.

OLD VETERANS HOLD 17TH ANNUAL REUNION

The 17th annual reunion of civil war veterans was held at the home of Mr. and Mrs. Ashley Carlisle on Main street yesterday afternoon. There were about 120 present including veterans from Galien and South Bend. By special invitation the Spanish war veterans were present.

After dinner, which is always the main feature of the day, a business meeting was held and the following officers were elected: President, John Dick; vice president, George Hanley; secretary, C. E. Sabin and treasurer, Wm. Conrad. Edward Havens, of the state department at Lansing, gave a brief talk. The address of the afternoon was given by Rev. E. D. Riebel. Music consisted of old army songs in which all joined, and music by the fife and drum corps. Two deaths were reported since the last meeting. Newton Barnhart and Howard Smith.

GINGER

The foremost precious metals are platinum, gold, silver and GINGER. Of the four the most indispensable to man is ginger, for without it he is merely a Bag of Bones and a Hunk of Hair.

A lack of GINGER in a man's make-up is easily detected by a void of individuality and "pep."

You could not work such a man into a state of enthusiasm than you could convert a Bolshevik into an honest gentleman.

A personality with a lot of ginger is like a cake with a lot of spice, there is a snap to it that "Tastes like More." It is the GINGER that creates "Pep," that gives forth inspiration in Man to do big things.

You remember the one about the doctor who told the man he'd have to quit one of three things, Wine, Women or Song, and the fellow's reply—"I never did care much for Music any how." Get the resemblance.

**LITTLE HAPPENINGS
AROUND THE STATE**

**ITEMS OF INTEREST COMING
FROM OVER THE STATE OF
MICHIGAN; WHAT PEOPLE
ARE DOING**

Marquette.—The report of H. A. Biggins, of Chicago, an auditor who has been working on the books of the State House of Correction in Marquette since last fall, has been laid before the circuit court grand jury which is investigating the affairs of Alfred E. West, former business manager of the prison held on a charge of misappropriating about \$12,000 of the state funds.

The court has ordered that publication of Higgins' report, which is said to show shortages at the prison running to more than \$100,000, be withheld until the prosecuting officers have had a chance to examine it.

The grand jury also has received reports from Fred Griswold, state accountant, and Fred Z. Hamilton, a former auditor employed by the state, covering their periodical audits at the prison. The grand jury is expected to make its report this week.

**SMALL APPLE CROP IN
OTHER STATES WILL
BOOST MICHIGAN'S**

Lansing.—Michigan apples will be in greater demand this year than ever before if the conclusions reached by the Michigan Fruit Growers exchange, following a general survey of the crop, are correct.

Michigan will have, the survey indicates, 35 to 40 per cent of a crop. New York state will have but 25 to 30 per cent of a normal yield. Other central and midwest states will not have enough to meet their own re-

quirements, the survey found. Of all the big apple states only the northwest "boxed apple belt" is conceded a large crop. As a result, members of the Fruit Growers exchange assert, buyers are bidding strongly for the Michigan crop.

The predictions of the exchange are in effect that despite depressed conditions and meagre crops which would ordinarily spell hard times for the Michigan orchardist, this year may prove an exception and be an excellent year for the growers of this state.

Duchess apples are expected to start moving soon and the price, so the exchange forecasts, will be high. It is understood that one buyer has already placed contracts with Michigan growers for from 75,000 to 100,000 barrels of apples at prices ranging from \$2.25 to \$3 per hundred pounds.

**WILL MAKE SURVEYS OF
SOILS AND LIVESTOCK
CENSUS OF STATE FARMS**

Lansing.—Systematic soil surveys of Michigan's 14 state farms located at state institutions, including total acreage, and classes of tillable soils and pastures, a census of the livestock and other assets, will be started this summer by the Michigan department of agriculture, according to an announcement made by H. H. Halladay, commissioner of agriculture.

With a few exceptions the state farms raise registered cattle, yet on a number of the farms registration has been allowed to lapse, it is pointed out so that several hundred head of thoroughbreds are now of no more value than grade cattle. General breeding plans will be worked out for all livestock on the farms immediately emphasis being laid on the cattle, in order that particular strains may be developed more rapidly and efficiently than under the present haphazard system.

**COLLEGE OFFERS DOCTOR
OF DIVINITY DEGREES
FOR \$25 CONSIDERATION**

Alma.—Degrees of doctor or divinity are for sale for \$25 each, according to H. M. Crooks, president of Alma college, from several Michigan ministers who say they have just received notice of their election for the degree by the "Centennial State university," of Denver, which, according to the letterheads sent out by that institution, has been chartered by the state of Colorado.

The letters, signed by Edward Altman, registrar, say that as soon as \$25 is sent to cover the printing of the diploma will be sent to the print-

er to have the name engraved. It also calls attention to the fact that the formal presentation will take place "sometime in the future because there is no commencement at this time because of the vacation."

The registrar also requests that the money be sent at once, as he desires to have the printing work done before going on his vacation.

Dr. Crooks so far has been unable to discover that there is such a school.

**PLANS TO GIRDL GLOBE
AFOOT ON 6 YEAR'S TRIP**

Detroit.—At the tourists bureau of the Detroit Automobile club it was thought the variety of route maps

and other travel information could meet the needs of any applicant, be he motorist, aviator or a transcontinental pedestrian. But the dispensers of information and advice had

yet to meet W. G. Gray, who calmly announced he planned to girdle the globe on foot and wished a schedule laid out for him. It was too big an order. Gray has left Detroit, how-

ever, for Princetown, Mass., where he said he would begin the journey which he expects to take him about six years. Record Want Ads. bring results.
