

## BUCHANAN GETS SHARP ADVANCE IN FALL TAX RATE

### BUCHANAN'S TAX SET AT \$168,988

AN INCREASE OF \$4.73 PER  
\$1,000 OVER LAST  
1926 WINTER  
RATES

Buchanan township taxpayers will bear \$168,988.34 of the total levy of \$3,053,331.86 for the state, county and township winter taxes, as adopted by the Berrien county board of supervisors at the October meeting, which was concluded last Friday.

The levy was based on a valuation of \$94,231,600 for the entire county with Buchanan's valuation set at \$4,495,130.

Property owners of Buchanan will pay approximately \$4.73 more per \$1,000 per assessed valuation when the winter tax is collected in January over the tax rate for the winter tax of 1926.

This year's levy will be approximately \$36.20 per \$1,000, according to A. F. Howe, a member of the finance committee of the board. Last year the levy for Buchanan township was \$31.47 on each \$1,000.

Of the \$36.20 a large proportion of it goes toward the school tax. \$15.89 being set aside for that purpose.

The total of \$168,988.34 recommended as Buchanan's levy will be distributed as follows: State tax, \$15,089.50; county tax, \$11,921.14; township tax, \$9,400; school and one mill tax, \$60,675; road repair tax, \$2,000; highway improvement tax, \$4,500; county good roads district tax, \$4,691.53; county covert road tax, \$17,277.08; rejected state tax, \$62.51; rejected county tax, \$237.38; rejected town tax, \$427.11; individual drain tax, \$3,835.23; drain tax spread at large, \$1,633; indebtedness to county poor fund, \$990.21; covert road, township tax, \$26,158.91; individual covert tax, \$10,499.69.

Only four townships were voted tax decreases. They were Bertrand, Galien, Oronoko and Watervliet.

All requests for additional salaries were turned down by the board of supervisors.

The totals for the various townships and cities are as follows:

Fainbridge	\$4,201.03
Bertrand	40,338.52
Berrien	63,923.40
Benton twp.	162,585.55
Benton Harbor	595,144.24
Batoda	55,093.59
Buchanan	168,988.34
Chickaming	66,122.16
Coloma	71,834.40
Galien	46,129.94
Hagar	46,583.65
Lake	74,486.37
Lincoln	76,534.81
New Buffalo	79,024.01
Niles City	345,812.31
Niles Twp.	297,709.41
Oronoko	102,326.30
Ozpeston	78,440.15
Royalton	47,615.38
St. Joseph twp.	55,172.21
St. Joseph City	232,470.93
Watervliet City	48,121.92
Sodus	68,744.31
Three Oaks	91,031.21
Watervliet twp.	53,527.61
Weesaw	67,357.60

## BUCHANAN MEN GET PRISON SENTENCES

Three Buchanan men received prison sentences this week from Judge White of the circuit court. Warning was also given two of the offenders that the next offense would bring the men under the new criminal code of the state.

Del Bolster received a sentence of six months to two years in the state prison at Jackson for violation of the liquor laws. He was arrested this summer for the second time by Chief Dunbar. Bolster was warned that his next offense would bring him under the new criminal code which went into effect September 1.

Arthur Peterson of Buchanan, also received a prison sentence of from six months to two years for his violation of the liquor laws with the same warning given in regard to the criminal code. The next offense for both men would bring them under the new law, they were warned.

Harry Furdy was sentenced for chicken theft to Jackson state penitentiary for a period of from six months to one year.

## OFFICIALS O. K. WALTON PROJECT

MORE THAN FIFTY MILES  
INCLUDED IN THE  
APPROVED PRO-  
GRAM

More than 50 miles of roads will be constructed in Berrien county with the approval of the Board of Supervisors set to the program last Thursday for 1928 recommended by the highway commission.

Of the entire mileage, Covert roads will involve 46 miles of the proposed program. The cost for the construction of the roads is estimated at more than three-quarters of a million dollars.

Buchanan's special interest was in the Walton road, a member of the Covert group of roads planned to be constructed in the county.

This road would run thru Niles and Buchanan townships. Beginning at the Michigan Central depot in the village the road would follow Portage street north and along River street across the St. Joseph river, running through section 25 of Buchanan township and 19, 20, 17 and 16 of Niles township across Walton's crossing to M. 58 at the John Wynn filling station. The length of the road is estimated to be 5 1/2 miles and cost estimated at \$140,000.

All of the approved road program will not be carried out next year, numerous details in connection with obtaining right of way and other necessary action being necessary before building can begin.

The county board authorized the spreading of a five mill tax, the same as last year, for road purposes. This will provide revenue for an obligated indebtedness of \$381,380 and \$79,150 for maintenance work.

Supervisor John Warman of Watervliet township sought to table the commissioner's recommendations until the January session of the board but withdrew his motion when it was pointed out the solons had already approved and authorized spreading of the road tax.

## "MAIL EARLY," SAYS POSTMASTER

DISPATCHING AND RECEIVING LIST HAS BEEN POSTED BY BATH CHELOR

A schedule of mails received and dispatched through the Buchanan postoffice has been issued by Postmaster Batchelor.

"Mail early and often," said Mr. Batchelor in commenting on the facility with which mail is handled in the local postoffice.

"Your mail will go on the first available train but not until you have mailed it. If you mail it, we will see that it goes. Don't forget to mail early and often. If in the following information you do not find any question in regard to mails answered, inquire at the window."

Mail is dispatched on the following trains:

- Train 27. Mail closes at 6:10 a. m. Takes all mails for Chicago and West excepting registered mails. No local West mail.
- Train 2 closes at 9 a. m. All classes Eastern mail dispatched excepting registers. Western first class mail is also dispatched on this train. For re-dispatch from Niles on train 17 going through here at 1:50.
- Train 10 closes at 12 noon. Eastern first class mails only.
- Train 5 closes at 2:45 p. m. Dispatch of all classes of West mails.
- Train 14 closes 4:45 p. m. First class Eastern mails and perishable and special handling parcel post. Western first class mails in the office are also pouched at this time for dispatch via Niles and train 23.
- Train closes at 5:45 p. m. Dispatch of all first class mails in the office at time of closing.

Mails are received as follows:

- Trains 46 and 99. First class mails and papers received. Distributed by 7 a. m.
- Train 27. Parcel post mails received from both east and west. No first class except Niles letters. Distributed by 8 a. m. Rural carriers wait for this mail.
- Train 2 from west. Due at office at 9:50. No first class mails. A little parcel post but bulk of parcel post is received on train 27.
- Train 17 Eastern first class mail received. Distributed by 12:15 p. m.
- Train 10 western first class mails received. Distributed by 1:15 p. m.
- Train 5 distributed by 4 p. m. All classes Eastern mails received.
- Train 14 distributed by 5:30 p. m. First class and paper mail. No parcel post.

Sunday, letter mails received via trains 46 and 99. Distributed by 8 a. m. All special delivery mail received Sunday is delivered by 10 a. m.

Mail for East and West closes at 4 p. m.

Miss Tina Skeels has returned from East Lansing, where she visited over the week end.

## STARVED CATTLE ATE TREE BUDS DURING WINTER OF 1843 HERE

FREAKISH STORM OF FORTY  
YEARS AGO BROUGHT 3  
FEET OF SNOW IN  
2 HOURS

The publication of a story in last week's Record on an old-fashioned snow that fell here just 21 years ago set old-timers in this locality to reminiscing. Two stories that are hard to beat have come to us.

Eli Helmick, Civil war vet, recalls that the last winter he has ever seen in his 88 years of life in this vicinity. The year he says was 1843, twenty years before the Civil war when he was about three years of age.

His father had brought his family of children and household possessions to Buchanan from Ohio. The trip was made in two covered wagons drawn by horses. A few head of cattle were also brought along. Eli Helmick was born in the cabin erected in 1836.

The snow he recalls was four feet deep during that eventful winter, which snowbound life in this locality. The morning after the big snow Helmick remembers how he tagged behind his older brothers, driving the three cows through the path they had made to trees in the forest. Feed was so scarce he said that cows were compelled to eat buds from the trees to keep from starving.

Unusual care was taken by Eli's mother to see that the fire did not go out, it being necessary for him to go to the nearest neighbor, three-quarters of a mile away to borrow hot coals. He recalls many times how he was compelled to do this chore, his mother admonishing him to hurry. Matches were unheard of conveniences in those days.

F. G. Holmes, former Berrien county old timer tells of another storm of freshet nature which struck Buchanan about forty years ago. It hurled itself out of Lake Michigan striking Bridgman and stringing a white streak of snow across country to a point beyond Ligonier, Ind., and including Buchanan in its wake. The storm dropped three feet of snow in Buchanan in less than two hours but in Galien and Niles there fell barely enough to whiten the ground.

Buchananite who tried to go to Galien with a sleigh road on bare ground the last mile of the journey. The exact date could not be recalled by Mr. Holmes but recalls that the storm occurred sometime in the early eighties.

## READY THEATER OPEN TONIGHT

"SWIM, GIRL, SWIM" TO  
STAR BEBE DANIELS  
AND GERTRUDE  
EDERLE

A program of unusual type will mark the opening of the new Ready theater tonight at Niles when in addition to the vaudeville acts and special music by the new organ the feature picture, "Swim, Girl, Swim" will be shown.

Dashing Bebe Daniels plays the leading role in the bevy of hand-picked performers, among whom appears Gertrude Ederle herself.

Advance reports have it that this production is the best Miss Daniels has ever made and if facts mean anything, the reports cannot be exaggerated. The Campus Plir" was a knockout, but critics agree that "Swim, Girl, Swim" has it topped.

The story was written by Lloyd Corrigan, who knows everything about how a college story should be written with color, romance, thrills and laughs. It was directed by Clarence Badger and this man has never been known to miss.

It has a star particularly suited for just this sort of thing—fast moving comedy—and the cast is hand-picked. James Hall, Gertrude Ederle—yes the famous Trudy of English channel fame, is in the cast—Josephine Dunn, William Austin and James Mack are only a few of the names.

The story is about a girl who swims the channel and yet who is unable to swim. And that is a situation. There are races and chases galore, just one event after another. And, just to be sure that the college atmosphere was really there, Miss Daniels selected the University of California in Los Angeles for the location of the campus scenes. More than 200 students participate in the production.

"Swim, Girl, Swim" is the first picture Trudy has ever appeared in. Her role is a good one and she is seen as a player and also in her customary role of a swimmer.

**MANY FARMS ADD ELECTRIC LIGHTS**  
A late report states that 227, 442 farms in 27 states were receiving central station electric light and power service on Jan. 1, 1927, an increase of 86 per cent in three years.

Various authorities estimate that this number will be increased to 10,000,000 by 1933, so rapidly is this farm convenience and necessity coming into use.

One marked result of the installation of this type of power on farms is the rapid increase in household conveniences, in these farm homes. Water systems, electric washing machines, vacuum cleaners have been quick to follow the installation of electric power. One of the most common uses is to illuminate hen houses in the winter, thus increasing the "working day" for Biddy, with a consequent increase in egg production.

**DRAWN FOR JURY**  
F. W. Howe has been drawn for the November term of the Grand jury and will go to Grand Rapids Nov. 1. Mrs. Howe will visit her daughter in Otsego at the same time.

## RICH INVENTOR IN DIVORCE SUIT

PURCHASER OF WEAVER  
HOME NORTH OF BU-  
CHANAN IS IN-  
VOLVED

The six year old daughter of Mr. and Mrs. W. I. O. Twombly is figuring in Judge John J. Sullivan's court at Chicago, where a hearing was on motion to compel the inventor to pay \$15,000 alimony to his young, blonde wife this week.

Mr. Twombly purchased the William Weaver farm northwest of Buchanan this summer and has carried on several thousand dollars worth of improvements, including the building of a laboratory where he is now experimenting with television radio. He invented a radio tube for the Stewart Warner corporation. He is a former official of the Aeronautical society of America and received recognition for his submarine inventions.

With Dudley Field Malone engaged as the young wife's attorney along with Attorney George L. Schein the case is of unusual interest. Malone received wide publicity in both Paris courts and later in the famous trial of Dayton, Tennessee, when he offered his services to the school teacher Scopes contesting against the fundamentalism of William Jennings Bryan.

The hearing was on motion to compel Mr. Twombly to pay about \$15,000 back alimony, said to have accumulated since the separation suit in New York. The final divorce case is to be heard later.

The court history of the case involved the six year old child, whom it is charged Twombly said he did not want to see. The child's grandmother, Mary E. Long, of Syracuse, New York, mother of the young wife, swore to Twombly's behavior toward the child.

Malone is serving without fee, even helping to defray the little girl's school expenses, it is said. He told the court that Mrs. Twombly had been left destitute and had lived on borrowed money.

Twombly's attorney, Joel Baker, said his client was making no attempt to evade seeing the child but that it was impossible for the couple to live together in the future. Notoriety had hurt him in business, Mr. Twombly said, and declared it impossible to pay the \$15,000 alimony.

## CLARK DRILL UNLOCKS SAFE HOLDING PAYROLL

With a payroll of several thousand dollars locked in their safe and the combination broken, the Michigan Central Railroad officials at Niles appealed to the Clark Equipment company Saturday for help.

After attempting to discover some way to gain entrance to the safe experts finally came to the Buchanan firm. The fact that the money lay close to the outer wall prohibited them from using an acetylene torch due to danger of burning the money.

A flat sulphur drill was selected from the Clark stock and holes were made in the front of the safe large enough to allow the tumbler on the combination to be reached. The drilling thru the safe was an exceptionally hard test in the materials of the drills and was excellent proof of their ability to stand up under hard strain, according to Clark officials.

## DEDICATION DATE FIXED FOR CHURCH

HILLS CORNERS WILL HOLD GALA DAY FOR REBUILT EDIFICE UPON NOV. 20TH

Work on the remodeling of the Hills corners church building is progressing rapidly. This week the Good Samaritan class taught by Con Kelley, is lathing the inside. Plastering and interior decoration will follow soon.

Everyone is pointing forward to Nov. 20, when it is planned to hold the dedication service. Robert Hopkins, a former minister of the church, and now head of the Department of Religious Education of the United Christian Missionary society, plans to be here to lead the program of the day.

Mr. Hopkins' coming alone, would be worthy of wide attention, but when it is coupled with the dedication of rebuilt house of worship it has double interest.

In addition to this the annual church homecoming will be planned for the same day. All the members who are now residing away will be given an opportunity to rejoice with us in our accomplishment.

## CLOTHING DEMONSTRATION

The Postage Prairie Home Economics club met at the home of Mrs. J. W. Haas Wednesday afternoon for a clothing demonstration. A pot luck dinner was enjoyed after which a short business meeting was held at the corner of Dewey and Postage avenues he is said to have collided with a bar belonging to Ed. Leiter. The car was slightly damaged also.

## FINANCE AND ADVERTISING NECESSARY TO PROGRESS

BUCHANAN WOMAN HEARS  
CUBAN RADIO PROGRAM

The far-off strains of music from Havana, Cuba, were heard Monday night by Mrs. Nettie Lister on her radio in her home on Main street.

The program coming from the southern port consisted of Hawaiian music and a solo "Barcelona." The latter was exceptionally clear sounding as though the singing were in the room. The solo was by Yvka Havana.

The program was heard a few minutes before nine o'clock coming in on the same wave length as station WTAM of Cleveland. The latter station was silent at that time, being the reason Cuba could be heard. Immediately after the solo the station announcer spoke.

## C. OF C. POINTS WAY TO GROWTH

URGENT CITIZENS TO GIVE ACTIVE SUPPORT TO LOCAL BUILDING AND LOAN ASSOCIATION

A small group of men met in the Chamber of Commerce room Monday night and listened to a most interesting talk on "Community Progress" by Gardiner J. Oakes of Kalamazoo.

Mr. Oakes stressed the importance of co-operative effort if Buchanan is to make the most of the opportunity that is now hers for industrial and residential growth. He said that Buchanan, like most all communities, is too prone to set back and engage in thumb twiddling, accepting what comes, rather than to be a go-getter.

"Community progress is not an accident, but rather it is the cumulative effort of men to make things happen in a business way which effort inspires and forces community growth. Advertising is just as important for a town as it is for a store keeper. Neither town nor merchants gets very far without it."

Robert C. Dexter, secretary of the People's Saving association, of Kalamazoo, former state inspector and auditor of building and loan associations. He said that community growth is inseparably linked with building and loan associations, since without the aid of a building and loan to finance the building of homes no town can make much progress.

Mr. Dexter urged that the citizens of Buchanan get squarely behind their local association, invest their money in its stock and urge others to do so. This money is at once loaned out to build Buchanan homes, and, with an energetic association given community support, real progress begins.

Mr. Dexter said that should the demand for loans in Buchanan exceed the ability of the local association to care for, then his association stood ready to finance the building of thirty houses here. His talk gave the needed stimulus and inspired those present to exert real effort toward enlisting solid community support of the local building and loan association and to endeavor to keep Buchanan a money invested in Buchanan.

## PATRICIA HANLIN DIES SUDDENLY

COMMUNITY SHOCKED WITH DEATH OF YEAR OLD DAUGHTER OF DON HANLIN

Patricia Joan Hanlin, one year old daughter of Mr. and Mrs. Donald Hanlin, died Monday night at the Hanlin home on West Chicago street following an attack of acute indigestion.

Earlier in the evening she had been feeling unusually well and was taken ill suddenly shortly after nine o'clock. Death followed two hours later. She was one year old July 21.

In addition to her parents she is survived by a small brother, Merton, 3. Funeral services were held from the Hanlin home at 2 o'clock yesterday afternoon with the Rev. Harry Staver, pastor of the Presbyterian church, officiating. Burial was in Oak Ridge cemetery.

## TEA GIVEN HONORING BRIDE ELECT ON SATURDAY

A tea in honor of Miss Thelma Childs who was married to Lieut. Edwin Peck, yesterday afternoon, was given by Mrs. Jesse Viele on Saturday.

The table furnishings included many pieces used at the wedding of Mr. and Mrs. Viele. The centerpiece of a toy bride, crystal candlesticks and Japanese table linen were all used. Whit Drayden ware that was used at the earlier wedding again appeared at Saturday's tea.

A pure white effect was carried out with the cake decorated with a battleship. Guests including the immediate families of the bride and groom, numbered ten.

Chicagoan Buys Property Here for Summer Home

Harry Boyce announced yesterday that he had made a sale of a ten acre strip of land from the Wilson Hamilton farm, about one mile from Buchanan to a Mr. Swanson of Chicago.

The land located on the north side of the river is to be the site of a summer home which Swanson plans to build on the island included on the property. He plans to build a rustic bridge across the channel to the island, according to Mr. Boyce. The amount of money involved in the deal was not named.

## TWO CARS HIT

Tracy Neal suffered cuts from flying glass and his car was damaged in collision Tuesday morning early while on his way to work at the Clark plant. At the corner of Dewey and Postage avenues he is said to have collided with a bar belonging to Ed. Leiter. The car was slightly damaged also.

## STUDENTS ATTEND S. S. CONVENTION

EACH SCHOOL TO SEND DELEGATES, AND OTHERS TO HEAR NOTED SPEAKERS

Practically every phase of religious education will be discussed at the Sunday school convention for the county to be held next Tuesday and Wednesday at Berrien Springs.

The Rev. Camfield, pastor of the Evangelical church here, who is especially interested in this subject, describes the program as being practically as strong as any state convention, with its list of notable religious leaders scheduled. The Rev. Camfield also pointed out that the attendance this year will be unusually large not only because of the noted speakers but due to the location of the meeting place, Berrien Springs, being nearly the center of the county, geographically. Each school is sending one or two delegates along with all students and others who are interested in the work in Buchanan.

"The Teaching Ministry of the Church" is the general theme for the conference with speakers giving addresses all related to the general subject.

Among those who will appear on the two day program are: Dr. E. W. Cole of the First Christian church of South Bend, Dr. F. S. Goodrich, professor from Albion college, the Rev. E. L. Reiner, pastor of the Waveland Avenue Congregational church of Chicago, Miss Ione Catton, State Children's division worker from Lansing, Clara Boyma of Calvin college and Clinton Lehman, noted medical director from Chicago and others.

## ARRIVE FROM FLORIDA

Dr. George Boone, Malcolm Wills and Jimmy Osborn of Daytona Beach, Fla., arrived in Buchanan Wednesday evening for a visit of several days at the home of the former's parents, Mr. and Mrs. D. W. Boone. They made the trip in Mr. Boone's Nash, leaving Daytona Beach Monday morning and arriving in South Bend Wednesday afternoon at 3 o'clock. The young men will attend the Michigan-Ontario football game at Ann Arbor Saturday and from there will go to Detroit where the Dental Convention will convene. They expect to return to Buchanan before leaving for Florida.

### Primitive Man Wanted His Musical Instruments Decorated

**INLAIN AND ENGRAVED COSTUME OF TODAY BEGAN EARLY IN HISTORY**

Ever since man began to fashion instruments of melody he has been concerned with their appropriate decoration. Legend relates that Hermes found the body of a tortoise, bored holes in opposite edges of its armor and through each drove a cord in honor of the immortal nine. He did

not strike the tuneful strings, but gave this first harp to Apollo, the lord of harmony. Such was the "enchanted shell" to which the Passions listened.

From the hollowed reed to the modern radio, from the Pantheon pipes to the pipe organ, from reed to violin and from trumpet to saxophone, musical instruments have been fashioned for appeal both to the eye and the ear.

The rehab was a square wooden box with a stick at one end. On

top of the stick a string was stretched over which a bow made from the tail of a horse was drawn and the box amplified the volume of sound produced. Pretty primitive, but from this was developed those masterpieces of beauty from the great Italian craftsman, with boxes curved in undulating symmetry and a scroll head.

The carved and inlaid surfaces of some early spinets, pianos, organs, mandolins and guitars, chiefly those belonging to the royalty, are still among the most precious examples of the decorative arts applied to musical instruments that we have today. Modern inlay and plastic art is rapidly making every form of decoration for musical instruments available to the general run of buyers.

The most important recent application of the decorative arts to musical instruments is made possible by the use of a pyroxylin plastic called pyralin, which possesses an infinitely varied adaptability for surface decoration. By its use manufacturers of musical instruments today are able to ob-

tain any variety of color, combinations, and texture. The material forms an excellent joint with wooden surfaces and hence has special adaptability for ornamental edgings for violins, guitars, banjos, etc. Not only is the quality and volume of tone not injured by use of pyralin, it is actually improved thereby.

A banjo of elaborate and beautiful type has recently been added to the list of musical instruments in which the resonator is made entirely of pyralin. The same material is used to decorate the frets of the banjo, while a hand carved design on the back farther enhances the beauty of the instrument.

Mr. and Mrs. Dominic DiGiaco, who closed their store at Lakeside for the season Saturday night and have returned to Buchanan for the winter. Mr. DiGiaco reports a very satisfactory season's business. He will assist in the Roti shibe store during the winter months.

Fred DiGiaco of New York City is spending a short time with his son, Dominic DiGiaco.

He will later visit a son at Ludington and a daughter in Los Angeles. Mr. DiGiaco is past

80 years old and is as active as a man of fifty years. Mrs. Albert Wesner left Saturday for Crivitz, Wis., where she will be the guest of relatives for several weeks.

Oliver York and Donald Rhoads are enroute home from Watford City, N. D., where they went two months ago to thresh the grain on a ranch, belonging to Mr. York in that section. Raymond Linsen-

mier, who went with them, will visit in Canada before returning home. See Jonathans for \$1.25 bushel. See Longworth for winter apples. 411p

**NEW TROY**  
Mr. and Mrs. Gary Addison and daughter, Jane, now living in Wisconsin, spent the week end with the former's mother, Mrs. Flora Addison.

Preparations are being made to build on the lot recently purchased by Mrs. Caroline Findal. A well has been put down this week by Crawford and son.

Mrs. Robert McGann is spending a few days in Chicago, this week.

Mr. and Mrs. Charles Peterson and daughter, Alice, of Chicago, spent the week end at the S. McKeen home.

Mr. and Mrs. Paul Brodbeck entertained the young people's class of the M. E. church at their home Wednesday evening, Oct. 12. A social evening was spent. The main feature being the election of officers. The following being elected: President, Lois Wirth; vice president, Howard Conklin; secretary, treasurer, Orrin Penland.

It was decided to spend one meeting a month in social activity and Saturday night was chosen as some of the class who are attending college and teaching out of town could attend. Mrs. Brodbeck is the teacher.

Mrs. Flora Addison, Mr. and Mrs. George Daniels spent Sunday evening at the S. McKeen home.

Miss Edna Maxim of St. Joseph, spent Wednesday afternoon with her parents.

Mr. and Mrs. Paul Brodbeck and son, Richard, Mr. and Mrs. Will Blimka and Mr. and Mrs. Will Brown of South Bend, were dinner guests at the home of Mr. and Mrs. Bert Keith spent part of Saturday in the twin cities.

Ed. McKeen is having his house wired for electric lights.

Mrs. Elwin Ritchie and child, ren spent Saturday night and Sunday with her parents, Mr. and Mrs. Dick Mitchell. Mr. Ritchie spent Sunday there.

The Ladies' Aid society of the M. E. church will meet all day Wednesday at the home of Mrs. Flora Addison for the first meeting of the season.

The Trojan Women's club held their first meeting of the year on Friday afternoon at the Bert Keith home in Sawyer. There was a good attendance and a very pleasant time was had. During the business session a president was elected to take the place of Mrs. L. A. Boyd, who expects to leave soon with her daughter, Genevieve, for the West. The first vice president, Mrs. Ira Sizler, has gone on an auto trip to the Knight and Baker homes in Texas and will be gone some time and Mrs. Kenneth Bihl, mire was elected. Roll call, "Your definition of a home," was very interesting and many good things were brought out. A paper by Mrs. Burr Nelson was read which described the home of Dorothy Camfield Fisher. Refreshments were served by the hostess assisted by Mrs. Behnke.

Ed. Barnhart and daughter spent Saturday morning in Benton Harbor.

Mr. and Mrs. Floyd Maxim drove to Michigan City Sunday to visit friends.

Two automobiles, one a Ford touring car driven by Carl Haas, and other a Ford sedan, came together on the Galien road near the Weesaw cemetery, Sunday evening about 8 o'clock. Dr. Corey was called. No one was seriously hurt although some received minor cuts and bruises. The cars were badly damaged.

Mr. and Mrs. Peter Ritchie drove to South Bend Saturday morning and Mrs. Alfred Kahlum and two children came home with them for a visit.

Ira Ritchie of South Bend, visited his brother, Peter, and family Sunday.

Delegates from the M. E. Sunday school to the Berrien County Sunday school convention at Berrien Springs, are Mrs. P. Peterson and Mrs. Flora Daniels. Mrs. Paul Brodbeck's class of young people will attend in a body at one of the evening meetings.

The six new bungalows belonging to Marx & Marx are completed and are being occupied. Henry Johns of Baroda, moved in one of them Saturday. The factory is not running full blast as yet. Thirty more cottages are to be erected.

Mrs. Emma Morley, who has been invalid for a long time, is slowly improving. Her son and wife, Mr. and Mrs. Dean Morley, took her for an outing Sunday to South Bend and several other places. A picnic dinner was eaten in the car and the trip was very much enjoyed.

Rev. Bert Ede was a caller at the Fischnar-Casey home Sunday afternoon. Mrs. Fischnar is taking a vacation from her school duties in Buchanan until Nov. 1, because of illness.

The beautiful bouquet of dahlias brought to the M. E. church Sunday by Mrs. D. Peterson was very much enjoyed by those present. The flowers were sent to Miss Genevieve Boyd, who is convalescing from a long illness.

Mrs. Thos. Levin, who submitted to an operation for the removal of a cataract from her right eye at St. Joseph hospital at South Bend a few weeks ago returned to the hospital last Monday to have one removed from her left eye.

Mr. and Mrs. Ray Zimmerman, who have been taking a vacation returned to their home in Whit- ing, Sunday, taking their little daughter, Marjory Dean, who has been spending the week with her grandparents, Mr. and Mrs. John Wood.

Mr. and Mrs. Sam Wright entertained company from Dowagiac Sunday.

The pupils of Miss Hulda Borg furnished the program for the Parent-Teachers meeting held on Friday evening, Oct. 14.

Mr. and Mrs. Ervin Zurfley returned from their visit to Ohio, Thursday.

Mrs. Robert McGann, who has gone to Chicago to live, will return to her home here every two weeks on Saturday and will stay until Monday.

The contest in the high school classes for points in scholarship and Field day for six weeks ended Friday and was won by the Seniors, who had 20 points. The winners were to have the privilege of hanging their class colors in conspicuous places in the school building and the Senior colors of gray and old rose are now being displayed.

Mrs. Emma Scovern of Bridgeport, spent Tuesday with Mrs. Ida Phillips.

Mr. and Mrs. Chas. Morgan of Chicago, spent the week end at the Will Blimka home.

Miss Rebecca Barnhart of Battle Creek, spent the week end with her parents, Mr. and Mrs. Ed. Barnhart.

Ruth Decker, Verna Hanover and Hazel English gave a little exercise at the Brethren Sunday school Sunday which was very much enjoyed.

The Ladies' Aid society of the M. E. church has been presented with a beautiful quilt top by Mrs. Pierce who lived here until the death of her husband, William Pierce.

**OLIVE BRANCH**  
Mrs. Hattie Briney is on the sick list this week in the Joe Fulton home.

Miss Grace Marrs of near Dowagiac, spent Saturday evening with Gladys James.

Rev. J. A. Blickenstaff and wife spent Sunday in the H. D. Ingles home.

Mr. and Mrs. Chas. Smith and son, Paul, were guests last Sunday in the Frank Rumsey home in Buchanan.

Mrs. Emma Unruh has been on sick list recently.

Mrs. Ira Lee and Mrs. Russell McLaren and baby were in Buchanan Saturday.

Mrs. Mike Bowker and daughter, Myrtle, called on Mrs. Emma Unruh Saturday afternoon.

Mr. and Mrs. George Graffort and three daughters of Niles, spent Friday evening in the Chris. Andrews home.

J. O. Nelson, county S. S. secretary, called on the Rev. and Mrs. Blickenstaff Friday.

Mrs. Nathaniel Chapman, mother of Art Chapman, passed away at her home in Niles last Sunday. Funeral services were held at Niles Tuesday.

Mr. and Mrs. Ralph Landis and baby of Richmond, Ind., returned to their home last week after spending some time in the Mike Bowker home.

The U. B. Ladies' Aid met at the Ira Lee home last Thursday and had a very pleasant meeting. A delicious pot luck supper was served to 24 members. The November meeting will be held with Mrs. Dan Marble at Galien.

Mr. and Mrs. Art Chapman and children spent from Saturday till Monday in Niles, and made acquaintance of their new granddaughter, Norma Louise Frizzo born in the home of Mr. and Mrs. Peter Frizzo, last Tuesday.

SEAL. A true copy. Lillia O. Sprague, Register of Probate.
1st insertion Oct. 6; last Dec. 29 MORTGAGE SALE
Default having been made in the payment of money secured by a mortgage, made and executed by Elbert M. Blake, a single man, of the village of Buchanan, county of Berrien, state of Michigan, to the Industrial Building and Loan association, a corporation of the same place, said mortgage bearing date the 6th day of October A. D. 1926, and recorded in the office of the Register of Deeds of Berrien county, Michigan, in Liber 150 of mortgages on page 206, on the 15th day of October A. D. 1926.
Whereas, the amount claimed to be due on said mortgage for principal and interest at the date of this notice is the sum of seven hundred eighty-two dollars (\$782.00) together with an attorney fee of thirty-five dollars as provided in said mortgage and according to statute and no proceedings have been taken in law or equity to recover said debt or any part thereof.
Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage, it being expressly agreed by the terms of said mortgage that should default be made in any of the payments therein provided for a period of four months that the whole amount secured by said mortgage should become due and payable, and whereas said payments have not been made, so that the whole amount secured by said mortgage is now due and payable and said power of sale has become operative and by the statute in such cases made and provided, the said mortgage will be foreclosed by a sale of the mortgaged premises, at public auction to the highest bidder, at the south front door of the court house in the city of St. Joseph, Michigan, on the 3rd day of January, A. D. 1928, at ten (10) o'clock in the forenoon of said day. The land and premises described in the mortgage are situated in the village of Buchanan, county of Berrien, state of Michigan, to wit: Lot fifty six (56) Liberty Heights addition to the village of Buchanan, except a strip seven (7) feet wide across the rear end of said lot to be used for an alley.
Dated at Buchanan, Michigan, the 3rd day of October A. D. 1927.
Industrial Building and Loan association, Mortgagee.
Frank R. Sanders, Attorney for Mortgagee.
1st insertion Sept. 22; last Oct. 6 STATE OF MICHIGAN, The Probate Court for the County of Berrien.
At a session of said court held at the probate office in the city of St. Joseph in said county, on the 19th day of September A. D. 1927. Present Hon. William H. Andrews, Judge of Probate. In the matter of the estate of Gottlieb Hagley, deceased. Warren A. Hagley having filed in said court his petition praying that said court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit the real estate of which said deceased died seized.
It is ordered that the 17th day of October A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.
It is further ordered that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Berrien County Record, a newspaper printed and circulated in said county.

Max H. Cowen and Jessie V. Cowen, husband and wife, plaintiffs, vs. Richard Peckham, Jeremiah Palmer, Sarah A. Palmer, John J. Peckham, Sarah A. Peckham, Anna Kelsey, Amy Cohoe, Julia Peckham, Avis Peckham, Job Peckham, Isaac Peckham, Peter Peckham, Charles F. Howe, Morris Boss, Nelson Willard, Bertha M. Dunham, Bertha Dunham, Jirah A. Ketchell, Jirah A. Kitchell, Seneca Wire, Stephen M. Glidden and Ida Kitchell and his heirs or their unknown heirs, devisees, legatees or assigns of any of the parties made defendants hereto without being named herein, defendants.
To the circuit court for said county, in chancery.
Suit pending in said court on the 22nd day of September A. D. 1927. Present Hon. Charles E. White, Circuit Judge.
It appearing from the affidavit of plaintiffs' attorney on file in said cause, that the above named defendants are not residents of the state of Michigan, that it is not known whether the said defendants are living or dead and in what state or county they may reside, if living.
On motion of Rolland E. Barr, plaintiffs' attorney, it is ordered, that the said defendants and their unknown heirs, devisees, legatees and assigns, enter their appearance in said matter or cause the same to be entered therein within three months from the date of this order and that in default thereof plaintiffs' bill of complaint be taken as confessed by them and each of them.
It is further ordered, that within twenty days from the date hereof publication hereof be made in the Berrien County Record, such publication to continue once each week for six successive weeks.
CHARLES E. WHITE, Circuit Judge.
This suit affects lands and premises in the township of Chickaming, Berrien County, Michigan described as: Commencing at the quarter post between sections 17 and 20, in township 7 south, range 20 west, thence measure west on the section line 7 chains 63 links to the center line of the Lake Shore road, thence measure south 57 1/2 degrees west along the center line of the Lake Shore road 17 chains 91 links to the place of beginning of the land hereby described, thence north 57 1/2 degrees East along the center line of the Lake Shore road 182 feet thence north 59 1/2 degrees west 1091 feet more, or less to the waters of Lake Michigan, thence south westerly along the waters of Lake Michigan 166 feet 8 inches, more or less, to a point on the edge of the waters of Lake Michigan which is north 59 1/2 degrees west of the place of beginning of the land hereby described, thence south 59 1/2 degrees east 900 feet, more or less, to the place of beginning, and is brought to quiet title thereto.

Notice of Sale
In pursuance of a decree of the Circuit Court for the County of Berrien, in Chancery, made and entered on the eighteenth day of July, 1927, in the above entitled cause, I, the subscriber, a Circuit Court Commissioner of the County of Berrien, shall sell at public auction or vendue to the highest bidder, at the front door of the court house, in the city of St. Joseph, in said county of Berrien, on the first day of November, A. D. 1927, at 10 o'clock in the forenoon of that day, all those certain lands and premises situated and being in Berrien county, Michigan, described as follows, to-wit:
That part of the northeast fractional quarter of section twenty-five, township seven south, range eighteen west, described as follows, to-wit:
Commencing at the right bank of the St. Joseph river at the center of the east end of the Buchanan bridge, thence along said right bank up said river to east line of said fractional section; thence north along east line of said fractional section to center of highway running in a northwesterly and southeasterly direction through the east half of said northeast fractional quarter; thence northwesterly along center of said highway to center of that highway running southwesterly to said bridge; thence southwesterly along said last mentioned highway to the place of beginning, containing 25.75 acres less by overflow of pond on the Buchanan dam.
ARTHUR E. LECKNER, Circuit Court Commissioner.
1st insertion Sept 15; last Oct 20 STATE OF MICHIGAN, in the Circuit Court for the County of Berrien, in Chancery.
Charles Foster and Alma Foster, plaintiffs, vs. Barzilla Webb, P. W. Webb, and Epaphras Murwin, more commonly spelled Merwin, or their respective unknown heirs, devisees, legatees and assigns, defendants.
It appearing from the sworn bill of complaint filed in this cause, that after diligent search and inquiry, it cannot be ascertained whether said defendants are dead or alive, if alive, where they or either of them reside, and if dead, whether they or any of them have any personal representatives or heirs living, and if so, where such named defendants reside.
On motion of Wm. E. Stevens, Attorney for Plaintiff, it is ordered that each and everyone of said defendants enter appearance in this cause, on or before three

months from the date hereof; that within forty days from said date, plaintiff cause this order to be published in the Berrien County Record, a newspaper published in said county, once each week for six successive weeks.
This suit is brought to quiet title to lands situated in Royalton township in said county and described as: Commencing at a stone in the west line of section nine (9) township five (5) south, range eighteen (18) west; at a point eighteen (18) chains, eighty-eight (88) links south of the northwest corner of said section nine (9), said point being the northwest corner of land owned by said Foster; thence running east along the line of said Foster land fifteen hundred and eighty-five (1585) feet to the St. Joseph river; thence north along said river to intersect a line parallel to the first line run and distant therefrom two hundred and seventy-four (274) feet; thence west fifteen hundred and ninety-five (1595) feet to the west line of said section nine; thence south two hundred and seventy-four (274) feet to the place of beginning.
Dated this 15th day of August A. D. 1927.

FIVE-ACT VAUDEVILLE INCLUDES HEADLINER COMEDIANS, DANCERS

CLARK THEATER OBTAINED FOR OUTSTANDING DAMATIC EVENT NOV. 3

A rare evening of entertainment is being planned by the College Women's club for Nov. 3, when a five-act vaudeville public benefit performance will be staged at the Clark theater.

The whole range of stage people from talented dancers of fame to slap-stick comedians form the program. Entertainment to suit every taste will be included in the five acts of headliner numbers, running the whole gamut of footlight acts.

Two especially unusual out of town performers have been booked. Mary Grace Mohr, noted dancer who has appeared on the Hollywood and Chicago stages, will be here for the evening furnishing one of the acts of the bill.

Mrs. H. A. Harper, talented reader of Niles, has prepared a musical pantomime that is filled with surprise and performed before an unusual setting.

The other three acts are clothed in secrecy although the fun they will create, promises to surpass any performance presented here for many a month.

The vaudeville performance is being given by the College Wo-

MRS. H. W. HARPER men's club for the benefit of the scholarship fund, through which the college education of worthy girls from Buchanan is financed.

MRS. MARY MOHR Mary Grace Mohr, famed dancer who is to appear in the five act headliner vaudeville Nov. 3 at the Clark theater under the auspices of College Women's club.

tained at the home of Mrs. Emma Knight on the South Bend road.

Two papers of unusual interest were read on early history in this vicinity. Mrs. H. R. Adams discussed the early missions in this locality. The story of Father Marquette was especially interesting as was that of Father Allouez who came to Michigan in 1665 as a missionary among the Pottawatomie tribes. For two centuries a wooden cross marked the grave of Allouez, located on the river road out of Niles and in more recent times giving place to a stone cross, erected by the Women's Progressive League of Niles.

The beginnings of St. Mary's was also related, a convent and school being established in Bertrand by Father Sorin in early history and later removed to its present site on the outskirts of South Bend. The bell of the original convent was taken to Notre Dame university, where it remains today.

A mission was also established on the Niles Buchanan road, but later disappeared and the site has not been marked.

"Clark and the Hair Buyer" was the subject of an interesting paper by Mrs. Myrtle Kean. Roll call was answered by items from the early history of this vicinity. Guest day will be celebrated next Monday, Oct. 24, when members will meet at the home of Mrs. J. C. Rehm. The hostess on that day will be Mrs. Ruth Roe, Mrs. J. C. Rehm and Mrs. E. H. Wisner.

BUCHANAN SENDS DELEGATE TO W. C. T. U. CONVENTION

A wide range of subjects were discussed at the two day convention of the W. C. T. U. when white ribboners from six counties gathered at the First Christian church in Benton Harbor Tuesday and Wednesday, Oct. 18 and 19.

Counties uniting in the convention were Berrien, Cass, Van Buren, St. Joseph, Allegan and Kalamazoo.

"The Bible in the Schools" was the subject selected by County Commissioner, B. F. Egert, when he spoke Tuesday afternoon. The state president, Mrs. Elizabeth R. Perkins, spoke at Tuesday's meeting. Other Tuesday evening speakers were Mrs. A. L. Fisher from the Federation of Women's clubs, addresses of welcome from the churches by the Rev. R. C. Jarman and from the schools by Superintendent S. C. Mitchell.

"A Talk on Canadian Problems" was the subject of an address last night by Mrs. Ora Fox of Allegan, recording secretary for the district.

TRAVEL DAY CELEBRATED BY THIRTY CLUB MEMBERS

Travel Day was the theme for the Thirty club Monday afternoon when the group was entertained at the home of Mrs. Robert Franklin. Several interesting papers formed the entertainment for the afternoon.

Roll call was responded to by vacation memories and the songs "There's a Long, Long Trail" and "Highways are Happy Ways" were sung. Following the short business meeting papers were read.

The first four chapters of "American Government," the book to be studied by the club during the year, were reviewed by Mrs. W. B. Dale. Mrs. Glenn Smith gave an interesting paper on "Our National Trails" and Mrs. C. E. Peas provided a paper on "A Day on the Columbia River." She told of the salmon fisheries and habits of the fish. "A Trip to Alaska" was the subject of Mrs. Fred Howe's paper, based on the visit Mr. and Mrs. Howe had taken several years ago to that place. Mr. Howe kept a diary of places and events of interest during the tour.

Better Home Day will be the subject of the next meeting with Mrs. Vanderslice.

CHICKEN SUPPER SAT. EVE.

The Ladies Aid society of the M. E. church at Dayton will hold their annual chicken supper and bazaar Saturday evening, Oct. 22, at the home of Mrs. Burde, who lives next door to the Dayton store. The supper will be served cafeteria style, and those who have attended in previous years know that a chicken supper is a chicken supper when served by the Dayton ladies. There will be fancy work booths of all kinds and the early shopper will have a chance to make some selections for Xmas gifts.

W. B. A. CELEBRATES

The Women's Benefit association will meet Tuesday evening, Oct. 25, when a pot luck supper will be held at 6:30. The regular meeting will follow. Members will come to the meeting in costume.

The Ladies Aid of the Evangelical church will have a chicken supper at the church Saturday evening, Oct. 29th, commencing at 5 p. m. Cafeteria style. 4112p

The Masons and their families and the Eastern Stars and their families will have a pot luck supper and party Wednesday, Oct. 26 at 6:30 in the Masonic hall. Please bring your own dishes and silver and sandwiches for yourself and one other article.

The Jeannette Stevenson Guild of the Presbyterian church held their regular business and social meeting Tuesday evening at the home of Mrs. Glenn Sanford, with Mrs. Bernice Donley acting as assistant hostess. Eighteen members were present and following the business meeting a social hour was enjoyed. Dainty refreshments were served by the hostess.

AMERICAN INDIAN IS TOPIC AT PRESBYTERAN M. S. MEET

American Indians was the subject of the afternoon at the meeting of the Woman's missionary society of the Presbyterian church Friday afternoon at the home of Mrs. Chas. Tichenor. A paper on American Indians was read by Mrs. J. C. Rehm, work among the reservation at Wichita and Lawrence, Kansas, and also among the Indians of South Dakota being discussed. Lillian Hunter also read an article on the Indian question.

The afternoon program was preceded by a pot luck luncheon with about 20 women present.

LEGIONNAIRES MEET FOR FOURTH DISTRICT SESSION

The Fourth District annual meeting of Legionnaires of the state is scheduled for October 30 at Legion hospital, Camp Custer. The session beginning with a joint meeting at 11:30 will be followed by dinner an hour later and a business session in the afternoon at 2 o'clock. Announcements of the convention are being mailed through Howard Olson, Fourth District commander.

SOCIAL EVENTS

Mr. and Mrs. J. E. Goff, formerly of Buchanan, and the latter's brother, Kenneth Luckenbill, who is staying with his sister, entertained thirty guests at their home, two miles north of Pembine, Wis., on Wednesday evening, Oct. 12. The event was in honor of the latter's parents, Mr. and Mrs. A. Luckenbill of near Rochester, Ind., who have been spending the last nine days at the home of their daughter, Mr. and Mrs. Goff and little son, Don, moved to Pembine last July from Buchanan. Mr. Goff was formerly proprietor of the City Bakery. Games of all kinds were the main diversion of the evening. Refreshments were served after which they all departed wishing Mr. and Mrs. Luckenbill a safe journey back to their Hoosier home.

Mrs. Kathryn Rogers will be hostess to the Young Woman's Bible class of the Presbyterian church tomorrow evening.

Christian Science Society Sunday school at 9:45. Sunday morning services at 11. Subject, "Probation, After Death." Golden Text, Romans 10:9. "If thou shalt confess with thy mouth the Lord Jesus, and shalt believe in thine heart that God hath raised him from the dead, thou shalt be saved."

Wednesday evening meeting at 7:45. Reading room open from 2 to 4 every Wednesday afternoon

Hills Corners Church 10 a. m. Church school, 11 a. m. Worship and Communion service. The pastor will preach on the theme, "Reciprocity Faith."

7 p. m. Sunday Evening club. Subject for discussion, "Christian Endeavor in Other Lands," leader Mrs. J. G. Boye.

7 p. m. 1930 club. Rev. H. L. Barnett will lead the discussion. The 1930 club is planning a big Halloween Mask party to be held Saturday night, Sept. 5, at Wagner grange hall. Here all the young people of the community will gather to guess who is behind the many masks. Games! Special events! Refreshments! Transportation will be provided for those who have no way to get to Wagner.

Hubert L. Barnett, Pastor.

Advent Christian Church Sunday school at 10 a. m. Preaching at 11 a. m. Evening service at 7:30 p. m. W. O. Williams, Pastor.

Church of the Brethren Sunday school at 10. Preaching at 11 by the Rev. J. W. Grater, pastor. Church at the corner of Cayuga and Third.

Portage Prairie Church Preaching services at 10 a. m. Sunday school at 11 a. m. Young people's league at 7 p. m. Preaching at 7:30 p. m. Prayer meeting Thursday at 7:30 p. m.

St. Anthony's Church Mass at 10:30 the second and fourth Sundays of the month. Mass at 8:30 on the first, third and fifth Saturdays of the month. Rev. Louis Hammer, pastor.

GETS JAIL SENTENCES

Fred DeArmond was sent to the county jail Monday following his arrest on charges of assault and battery. Harry Smith was given 15 days following his arrest on drunken charge and 30 days were meted out to Lynn Farrell on the same charge.

See Longworth for winter apples, Jonathans for \$1.25 bushel on Saturday. 4111p

THE SOCIAL CIRCLE

CHURCHES - LODGES - CLUBS - SOCIETY

Formal Church Wedding Unites Popular Couple

Miss Thelma Childs and Lieut. Edwin Peck Married Wednesday afternoon in Church

One of the outstanding social events of autumn was celebrated last evening when the marriage of Miss Thelma Childs, daughter of Mr. and Mrs. T. D. Childs and Lieutenant Edwin Peck, son of Mrs. L. E. Peck, took place in the Presbyterian church on Front street.

The service was read by the Rev. Harry Staver in the cloistered auditorium of the city's new church and is the first wedding to be solemnized in the edifice. Following out the naval colors of blue and yellow, the auditorium was decorated with yellow chrysanthemums and palms.

The ushers, Ted Childs, brother of the bride, and Hubert Peck, brother of the groom, led the procession. Following them came the bridesmaids, Miss Helen Hubbard of Port Huron, Mich., and Miss Mary Symons of Chicago, wearing period dresses of pale green taffeta and tulle and silver hats and slippers. Doris Peck, sister of the groom as maid of a period dress of pale yellow taffeta, was next in order, wearing feta and tulle, and small gold hat and green and gold slippers. The bride's attendants carried Empire bouquets of yellow Pernet roses and lavender sweet peas, tied with green tulle. Next came the flower girl, Bonnie Jean Wells, of Chicago, in a dress of white tulle wearing a dainty little frock of green and yellow. She scattered yellow rose petals before the bride who entered on the arm of her father, Theron D. Childs. They were met at the altar by the groom and his best man, Harold B. Desenberg of Detroit. Lieutenant Peck was in uniform.

The bride wore a gown of white crepe Elizabeth, simple in design, with lace yoke and deep lace cuffs, the side drape of the skirt being caught with a white silk flower. Her veil of silk tulle, shirred into a frilled cap was held in place by orange blossoms with a cascade effect in ribbon at either side. Her slippers were white brocaded satin. She carried a shower bouquet of brides' roses and lilies of the valley. A pearl necklace, the gift of the groom completed her costume. The altar was decorated with palms and tall baskets of giant yellow chrysanthemums at either side. Preceding the ceremony Mrs

Josephine Kelley played Liebestrom, Dawn by Curron, I Love Thee by Grieg, At Dawning by Cadman, I Love You Truly by Bond, My Lover, He Comes on the Skee, a Norwegian Love Song by Clough Leighter and for the professional the bridal chorus from Longmire. During the ceremony Mrs. Kelley played softly strains from O Promise Me, A Perfect Day by Bond and Venetian Love Song by Nevin, drifting into Mendelssohn's Wedding March for the recessional. Immediately following the ceremony a reception was held at the home of the bride's parents. The color scheme of yellow and green was carried out, yellow Pernet roses being used.

After an Eastern trip Lieutenant and Mrs. Peck will reside temporarily at Philadelphia where Lieut. Peck is a commissioned officer on the Saratoga. The bride's traveling dress was of tan, frost crepe with velvet hat and accessories matching and a tan coat with a roll collar of beaver. Mrs. Peck is a graduate of Miami university, Oxford, Ohio, and a member of the American association of University Women. She received her musical training at Oxford college for Women and is gifted with a beautiful lyric soprano voice with which she has many times charmed Buchanan audiences. Lieut. Peck, who is in the Naval aviation service is a graduate of the United States Naval Academy from the class of 1923.

The out of town guests were: Mrs. Clara Brenner, Jeffersonville, Ind.; Mrs. Linda Smith, of South Bend; Dr. and Mrs. Robert Wells of Chicago; Don Peas, St. Joseph; Mr. and Mrs. O. D. Hicks, South Bend; Dr. and Mrs. E. R. Butts, Chicago; Mr. and Mrs. F. E. Schelley, Mr. and Mrs. G. L. Schelley, Mrs. Anna Dedrick, Mrs. Martha Ansley Mrs. H. L. Donner, and Mr. and Mrs. Clarence Drier, all of Three Oaks and Miss Christine Donner of South Bend.

FIGHTING SPIRIT SEEN AT DOWAGIAC

SHEER WEIGHT GIVES THE VICTORY AGAINST THE HARD BATTLING BUCHANANITES

Those who saw the Buchanan-Dowagiac game at Dowagiac last Saturday were pleased without a doubt to see B. H. S.'s "fighting outfit" hold Dowagiac to a 6 to 2 victory.

Dowagiac high school has always been one of the best noted for its linebacking, smashing offense. Dowagiac never did use a very heavy pass attack nor did they last Saturday.

Saturday's weather was just right for football, neither too warm nor too cold. There was a strong wind, however, which accounted for a mixed assortment of very good and extra bad punts.

Dowagiac started in as usual in the first quarter with one of the best assortment of line-backs that is to be seen in this part of the state, and as usual they made first downs until nearly the goal posts but there they stopped for Buchanan's line, which has improved to such a great degree over its former self, held them from scoring.

From then on until the end of the quarter the ball moved jumpily up and down the field. In the second quarter Dowagiac seemed unable to use those smashes of theirs to good advantage and time after time the Buchanan men would slip through their forward wall and bring down the Dowagiac backs before they could get started.

The third quarter was much the same as the first in style of play except that the odds seemed in favor of Buchanan. Then the last quarter Buchanan again outplayed its heavier opponents until the last three minutes of the game.

Undeclared football fans when the Niles high team will meet the undefeated St. Joseph eleven on Wells field this week end.

The northern team is leading the Little Thirteen eleven. A squad of 22 will make the trip to the north of the county.

The aim of the club is to acquaint students with the correct way to conduct meetings.

News of Buchanan Schools

VICTORIAN LIFE IS DRAMA THEME

SENIORS TO GIVE A VIVID PORTRAYAL OF ROMANCE DURING LAST CENTURY IN PRODUCTION

Those of you who have had the good fortune to have witnessed the production of "Smilin' Through" will be pleased with the announcement that the Senior class of the Buchanan high school will present it as its class play or about November 18th.

"Smilin' Through" has all the fine qualities of the best plays with that added something which is so hard to describe but which is so evident when the play is actually heard and seen.

Besides the beauty of the play itself, the costumes are of the mid-Victorian type in one act—the second. The lighting effects are the most beautiful of any production ever presented at this school.

The cast is as follows: Sarah Wayne, Mary Clare, John Carteret, Dr. Owen Harding, El. Ainley, Kenneth Wayne, Jeremiah son, Kathen Dunganon, Willie Wayne and Mooneyen Clare.

Students of the government class of the Three Oaks high school have organized a Students' Civic club.

Officers are: President, Rena Portinga; vice president, James McQuire; secretary, Lueta Unruh; treasurer, Margaret Donner.

BOOSTER DAY AND ANNUAL FRAY WITH NILES MAKE GALA EVENT

OCTOBER 29 TO BE A BIG DAY AMONG STUDENTS AND PEOPLE OF THE TOWN

B. H. S. will have its annual Booster Day, Oct. 29th. This will coincide with one of the season's most important football games—the encounter with our nearest neighbor, Niles.

GRADE NEWS

Misses Hopkins and Ekstrom attended the teachers' Institute of Northern Indiana, held in South Bend last Saturday. They report an excellent program.

Three new cars are being driven by members of the faculty. Miss Lois Milburn, one of the first grade teachers, attended the first number of the concert series held in Kalamazoo and heard a fine entertainment given by Marian Talley last Monday night.

All members of the faculty will go to Kalamazoo next Thursday and Friday to attend the annual district teachers' institute. Supt. Stark is much pleased over the 100 per cent registration.

New reference books are coming in for the use in the grades. The books are to be catalogued and kept where all teachers may use them.

Mrs. Nina Fischner of the second grade is still at her home in New Troy unable to teach, due to heart trouble. Mrs. Mary Zerbe is substituting for her.

Dee Weaver is much improved and no doubt will soon be back in Junior high.

Miss Hopkins has been making her own maps to be used in the machine, by means of a 4 by 4 pieces of glass and a pencil suitable for that work.

New pupils are being enrolled each week in the grades. There were four new ones last Monday morning.

Watch for the football results when the Junior high teams reach the field. The teams are improving a great deal, under the instruction of "Doc" Miller.

We invite all members of the school and the parents to high school auditorium next Friday night to enjoy "Alice in Mother Goose Land," given by the primary grades.

The two fifth grades held a candy sale Oct. 11. They sold delicious home made candy and cleared about \$14. This sale was to raise money to pay for their share of the playground equipment.

and Buchanan has always been tremendously keen. All this is ancient history now, but the same fierce competing spirit exists and a battle royal is assured from the first kickoff.

TWO HUNDRED CHILDREN TO STAGE DRAMA TOMORROW IN AUDITORIUM

PLAYGROUND EQUIPMENT IS TO BE PURCHASED WITH PROCEEDS OF PROGRAM

Two hundred shining faces and 400 nimble feet will bow from the footlights tomorrow night when every child in the first and second grades will stage a novel entertainment, "Alice in Mothergoosland" in the high school auditorium.

Alice, that fairhaired little girl, who had a weakness for wandering off into rabbit's holes and other strange places will go to Mother Goose land tomorrow night. With her will journey Bunny Bunting and old Mother Goose, herself, accompanied by her goose.

The whole evening's entertainment will be filled with unusual numbers, the kindergarten band beginning the program. Several special numbers will be included according to those in charge. Girl scouts will usher in the audience, the Junior high students are selling tickets and proceeds will go toward the purchasing of playground equipment.

PAUL KIZER LEADS BOOKKEEPING TEST

SARAH EARNST GETS SECOND AND ELIZABETH LONG FELLOW IS THIRD IN EXAM

Paul Kizer, Sophomore, received the highest average in the first test of the year, with a score of 105 from a possible score of 111; Sarah J. Earnst ranked second and Elizabeth Long followed third, with scores of 104 and 103 respectively.

This test, the first one in a series of five which are sent out annually by the South Western Publishing company, the firm from which the bookkeeping students purchase their supplies, is a test of knowledge of the fundamentals of bookkeeping.

The students were given thirty minutes to complete the test, which consisted of false and true statements and exercises concerning the journal and ledger.

Last year Marian VanEvery was awarded the prize for having the highest average in the five tests. We are wondering who the lucky student will be this year.

The report from Newman & Snell's bank regarding the school banking of last week in the Niles schools shows some interesting facts. Two thousand and ninety students have enrolled of which 1,886 banked \$260.43 last week.

SELF GOVERNMENT SUCCESS AT H. S.

DEPARTMENT AND TRUANCY ARE AMONG PROBLEMS TACKLED BY THE COUNCIL

The student council and what it has done for the high school was the theme of Friday's assembly when members of the group provided the program for the weekly meeting.

The idea of students governing themselves was discussed by various members of the council, when topics ranging from department in school to the staging of parties was discussed.

Student government was first instigated at the school three years ago, so that Seniors of this year have grown up from their Freshman years with the idea.

MICROPHONE STAFF GETS NEW WRITERS

STAGING OF SENIOR PLAY TAKES THE REPORTERS FROM PAPER FOR FIVE WEEKS

The Microphone for the next five weeks will be published by a new staff. Work on the Senior play necessitates this move as several members of the staff have heavy parts in the play.

The substitutes will have Miss Avis Moffett as its sponsor and will have as its members: Dorothy Charles, editor; Kathryn Allen, literary and society editor; Donald Wood, sport editor; Everdine Keating, routine editor.

Along with this staff will be the two remaining members of the old staff, Anita Boyle, exchange editor and Irene Imhoff, grade editor.

Next week's issue will be written and published entirely by this staff. We trust that the readers of this page will cooperate with them.

Max Klemm, football captain of St. Joseph high school was operated on last Friday morning. He was injured in the game with Grand Rapids Catholic Central high the preceding Saturday.

LITTLE "13" SCORES

Table with columns: School, W, L, T, Pct. Rows include Dowagiac, Buchanan, Niles, Three Rivers, St. Joseph, Paw Paw, Otsego, Coloma, Three Rivers, Vicksburg, Kalamazoo Central, Benton Harbor, St. Joseph, Paw Paw, Allegan, Benton Harbor, Niles, Dowagiac, South Haven, Plainwell, W. S. T. C. Preps, Buchanan, Three Oaks, Three Rivers.

LITTLE "13" STANDINGS

Table with columns: School, W, L, T, Pct. Rows include St. Joseph, Paw Paw, Allegan, Benton Harbor, Niles, Dowagiac, South Haven, Plainwell, W. S. T. C. Preps, Buchanan, Three Oaks, Three Rivers.

BOY SCOUTS GET BADGES

SEVERAL FROM BUCHANAN ATTENDED COURT OF HONOR AT BENTON HARBOR

A number of Boy Scouts received badges at the Court of Honor held at Benton Harbor on Monday evening.

At the Court of Review held last Thursday evening, Oct. 13, James O. Best, field executive reported the following as filling the requirements for second class rank: Richard Milner, Robert G. Gladwich, Jim Eisenhart, Robert Montgomery completing his first class requirements this week.

GAME SET FOR ARMISTICE DAY

DATE FOR KALAMAZOO NORMAL HIGH SCHOOL FRAY IS SET AHEAD

Armistice Day will be celebrated by the students and football enthusiasts with a gridiron game with Kalamazoo Normal high here.

The game scheduled for Nov. 12, was changed to the earlier date yesterday, according to information from the principal's office. The contest is expected to be one of the most remembered games of the season.

A return game will be played with that school next year according to the present schedules. It is expected that the townspeople will use this opportunity to see the local team in action as a proper way to celebrate the anniversary of the conclusion of the World war.

TEACHERS TO HEAR NOTED EDUCATORS

ENTIRE INSTRUCTING STAFF FROM BUCHANAN WILL ATTEND THE SESSIONS

Opportunity with a capital O will be offered to both the students and teachers of Buchanan high school, the former having a vacation from their studies and the latter having a chance to hear some of the noted men of the county in educational circles, when the Michigan Educational Association meets at Kalamazoo, next week end, September 27 to 29.

Speakers of national note are scheduled for addresses at each of the nine districts of the state. The programs in each district have been arranged with three main types of meetings: General sessions where lectures are provided upon topics of special interest and timeliness, without particular reference to the specialized field of education; division meetings for the formal discussion of problems pertaining to some of the broader departments of public education; and section meetings, which are designed to give groups of teachers occasion for the investigation and discussion of their special interests and which provide opportunity where, by every teacher may participate directly.

The speakers who are to address the three general sessions this year in all districts except the seventh are Oswald Ryan, Indiana orator, author and student of affairs; Maurice G. Hindus, lecturer and author and Edward C. Elliott, president of Purdue university.

Some of the speakers who will address the division meetings in the different districts are Miss Alice Temple of the School of Education, University of Chicago; William McAndrew, superintendent of schools, Chicago; Henry T. Moore, president Skidmore college, Saratoga Springs, N. Y.; W. C. Reavis, University of Chicago; Miss Florence Hale, State supervisor of rural schools, Augusta, Maine and Dr. Franklin Bobbitt of the University of Chicago.

Buchanan teachers will have part in the high school division of the association where round table discussions will be a special feature. Superintendent Stark will talk on "Supervision in the Small High School." Principal G. H. Ormiston will speak on "The Offering of Two Kinds of Diplomas."

THREE OAKS PLAYS MAROON MEN HERE

A LARGE ATTENDANCE OF STUDENTS AND TOWN PEOPLE EXPECTED SATURDAY

Football enthusiasts will have an opportunity to see the Buchanan high school squad play on its home field Saturday afternoon when Three Oaks comes here for a tilt at Athletic park.

Three Oaks is well toward the bottom of the Little Thirteen standings along with Buchanan, each having lost the equal number of games. In a recent game with Cassopolis the squad from the Featherstone city defeated the Cassopolis team to the tune of 7 to 3.

The annual classic with Niles high was staged last Saturday when the Redbirds defeated the Three Oaks by a bare 13 to 12. The game had been predicted as being close, both teams having been losers in this year's frays. The squad from the Western city made a fine showing as indicated by the final score.

NEWS OF BUCHANAN SCHOOLS

ENTIRE INSTRUCTING STAFF FROM BUCHANAN WILL ATTEND THE SESSIONS

### AN APPRECIATION

How many of us realize the full significance of the Microphone, a page of news written by the students of Buchanan high school? How many of us really appreciate what these boys and girls are doing?

In the first place, it is the only project of its kind in the state, so far as we know. Other papers have school columns. It is true; but none other, to our knowledge, has an entire page dedicated to school life. It is unique in that it is a paper within a paper.

The editorials written by the staff, say something, which ought to be given a second consideration, in this day when all editorials by any means do not provoke anyone to thought especially.

As for the news gathering, the staff has displayed the proper newspaper spirit in considering no activity too insignificant to record. They at the same time have done admirably with the problems of separating the important from the unimportant, selecting those news stories of the greatest interest to the greatest number of readers and writing of them in detail. It is no little trifle to select news, any more than it is to handle it in the proper manner. Just as a merchant must use knowledge in dealing in dry goods from his counter, so must a newspaper handle its commodity, facts.

The true significance of the Microphone, does not lie in the accomplishments of the past month but in the paper's relation to the future. Whether any member of the staff should go on with newspaper work or not, each is securing an experience that will prove of great value in future years.

Each one is learning to think clearer and quickly. Each is learning to discriminate and organize facts. Each is learning the beauty of expressing plain facts in plain words.

Each one is learning human nature in all its vagaries. Each is learning to deal with people—a commodity they must all deal with after theorems and historical dates and declensions are forgotten. Name, if you can, any other study that does all these things.

Is it not a lesson worth while? Is it not a project deserving of everyone's support? Let us be proud of the Microphone as we are of the football squad or any other phase of student life. The Microphone is a credit to the school and Buchanan.

### SALESMEN WANTED

"If Lincoln had only a dozen books and Garfield learned to read while riding a tow-path mule, what can the child today do with present school equipment—if he really wants to?"

We complain of high taxes but go merrily about the job of building up propaganda which leaves the child with the impression that school is a monster destroying its liberties.

Cartoons on the opening of school almost in every instance puts the wrong emphasis on what school really means to the child. While we are complaining of high taxes I wonder how much useless expense is caused by impressing upon the minds of children that school is destroying their liberties?

What does the mental opposition cost the country? How much worry does it cause the school authorities, while the kiddies are young, and to civic authorities as they grow older? Isn't it about time we all start "selling" the school idea to our children?

### CIVIC PRIDE

Civic pride. The coming generation in Buchanan will not be as devoid of it as some of the present generation are. Some of our boys and girls already have caught up and even out-distanced their elders in realizing the meaning of the two words. To many of the older ones the words are as far away as Helgoland.

If anyone is in doubt about the true meaning of the words ask your boy or girl or your neighbor's child. Somewhere close by there is bound to be one of the sixty-odd children who know all about the fun of feeling civic pride.

To them it is not something to depict in glowing words but is a concrete, actual thing.

They have begun on the churchyards of the town, attacking them with hoe and rake and mower. Every Tuesday they are giving their elders a laboratory demonstration of the two words.

Our churches have great possibilities for becoming surrounded with attractive and inviting premises. Large lots, ideal for landscape gardening, surround them. The two hours of work in each yard by the children has shown us the possibility at least of adding our churchyards to the attractive places of the town.

Our schools are set in the midst of unusual lawns and trees, described by many visitors as the most beautiful school yards in the state. Even our industrial life in Buchanan is made more of a pleasure by flowers and shrubbery. A painting-up of stores became a contagious fever this summer, nearly a dozen merchants brightening up their places of business.

Why should our church properties not now

be added to the list? With the building program, which two of the parishes have been carrying on, completed, why not profit by the lesson unconsciously taught us by the youngsters and follow up the good work they have begun?

### WATER—WHAT IS IT?

A drop of water is a mysterious thing. Magnify its diameter from an eighth of an inch to 100,000,000 miles in diameter, and the molecules of water would become visible, each made up of two atoms of hydrogen and one atom of oxygen, each atom a little solar system in itself, forever indestructible, and existing from all time, as far as we know.

Because of vast distances inside that drop, you would need a telescope. With it you could see inside of the atom electrons revolving around a nucleus at the center of each atom trillions of times in a second.

Water is mysterious and so is everything—matter, force and consciousness. Things we do not know are more numerous than those we do know. It is not certain that we actually know anything. We are here and don't know how we got here—must leave and don't know where we are going.

We harness and use the electricity, but don't know what electricity is, while we create it artificially with falling water or burning coal. We use a mind or soul and don't know what that is. We hope for immortality, but are not sure about it. We talk of solid matter and know that it is made up of infinitesimal aggregations of electric particles. Nevertheless, we get along fairly well.

### ON GUARD

The open shop or American plan of employment in industry is not understood by a great number of working men in Buchanan who should know just what these terms mean.

It is not a plan or scheme on the part of a group of selfish and unprincipled employers to keep wages low; to grind down the working man, nor to do anything that is not honest, fair and just to any man or group of men. It is not a conspiracy to dominate industry, nor is it a plot to make men who work with their hands the slaves of capital.

These are the things which the labor union agitator would like to have the public believe, and propaganda has been widely circulated which in some quarters has had this effect.

What the open shop advocates are earnestly endeavoring to do is to free industry from the grip of the unscrupulous agitator, the walking delegate and the labor demagogue, all of whose efforts are directed toward the sowing of discord and discontent in the minds and hearts of the men of brawn and sinew whose cooperation with capital makes possible the achievements which have gone so far to make this nation the most prosperous—both for the working man and the employer—of and country in the world.

### PUBLIC MANNERS

As winter draws near the schedule for public entertainments grows heavier and heavier. And with each assembly of crowds comes the opportunity to see "just what stuff people are made of."

Just as much as any private conversation, does our behavior in public denote our character. What one says and does unguarded in public places, is often more of a criterion of one's true self than any act behind four walls.

Of all public entertainments, nowhere is our true self depicted more clearly than at musical programs. If the entertainment is classical in nature and you are a jazz hound do you proceed to howl out your likes and dislikes in public?

Or do you simply sit and endure the entertainment to the end? Do you wait patiently silent for the concluding number?

If you do at least display the courtesy of silence you may be surprised to find yourself rewarded. Listen, and perhaps thru the route of patience and simple politeness you will be rewarded by finding something worthwhile in the musical masters.

### EDITORIAL STATIC

Four out of five of our married men are suffering from matrimonial dyspepsia. Their wives don't agree with them.

Seth Brown's son didn't miss his goal so very far. He intended to go to Europe on a scholarship—but went on a cattleship.

Here's a trio of verses from BH Helmick, far-famed Civil War vet, who is 88 and can still laugh:

### BILL VERSUS COO

They bill and coo before they're wed, They joy in lovers' laughter, But when the marriage words are said, It's mostly bill thereafter.

### HER REPLY

"The fools are not all dead," said he. Her answer took him quite aback "I am very glad of it," said she. "For I never did look well in black."

### DON'T FORGET

For it is better to buy a cheap bouquet and give your friend this very day. Than a bushel of roses which are intended to place on their casket when he is dead.

A scientist says that dark haired women marry first. An old bachelor tells us it is the light headed ones.

## MUSIC DETERS

### CRIME IN YOUTH

CHIEF OF POLICE SAYS LEARNING OF SUBJECT HAS INFLUENCE ON MORALS

Music's power as a crime deterrent was extolled by William P. Rutledge, commissioner of police of Detroit, in an address before the third annual convention of the Michigan Music Merchants' association, reports the Conn Music Center. The commissioner spoke on "Music in the Home Environment Versus Crime."

"The prime reason for criminals is due to the early bad environment during the stage of adolescence," said Commissioner Rutledge. "It is my opinion that music offers one means of helping to solve the crime problem through the fact that a child must practice many hours at home which would otherwise be passed in pool rooms, unsupervised dance halls and joy riding in autos."

Learning music in the home will not only keep the child under closer relationship with his parents, but it will help to develop the moral side of his life. Music enriches a child's life. It is spiritual—an expression of religion, if you please, and it becomes an intimate part of a child's life if it is properly administered. With modern methods for teaching music, children have found it a pleasure to learn and there is no joy greater than that of being able to produce music whether it be on a cornet, piano or other instrument.

"The 'problem child' can be reached through music which calls from within us the best there is. When one stops to consider the fact that last year there were 1,500,000 persons who went thru the courts of the nation and there were 500,000 sent to prison, a real problem faces us. If we are to overcome it, we must work thru the child and I feel that music is one of the best agencies. Music in the home makes a deeper impression upon the child with its fine qualities."

"Unless we impress the parents that closer home discipline is needed and proper supervision of idle time, the 'problem child' of today will become the delinquent of tomorrow and ultimately a member of the criminal class."

## THE NEW KINKS FOR THE KITCHEN CABINET

Children get the habit of eating unsuitable food because the busy mother has not time to plan and prepare two separate menus. It is relatively easy, however, to plan menus composed of foods which are suitable for children to eat, or to adapt the foods in the grown-up menu so that the children can eat them. For example, high flavoring and rich sauces may be omitted, fruits used instead of pastry, and milk desserts given frequently.

Few people realize the diversity of uses possible with cottage cheese. It is high in nutritive value, containing some of all the constituents of milk except the butterfat. Like milk, it is a source of protein, which is used to build and repair body tissue. In salads, deserts, or cooked dishes cottage cheese may be used to advantage, and also as a basis for the main dish of a meal.

Most people like plain uncooked cottage cheese. It is especially pleasing in summer and when blended with rich cream and a little salt it is enjoyed by many. It is often eaten with sugar and cream. When cream is lacking, whole milk is used to moisten the cheese and sugar. Not only sweet cream, but sour cream or melted butter added to cottage cheese improves its flavor and increases the food value.

Cottage cheese combines nicely with other things that give variety of flavor. Berries, peaches, or other fresh fruits may be used in this way, also canned fruits, raisins, cut dates or other fruits, brown sugar, honey, jam or marmalade, or chopped nuts.

Broken nut meats, chopped pimentos, finely cut green peppers, diced cucumbers or other crisp vegetables may also be mixed with the cheese. Horseradish, onion juice and parsley make a good combination.

Cottage cheese may be seasoned well, packed into a buttered earthen or enamel dish, chilled, turned out on a platter, and served in slices. Ground sage makes a good seasoning.

Mix with the cheese a small amount of ham or corned beef and season the whole with mustard. Serve in slices or turn out the molded cheese on a border of lettuce leaves.

Cottage cheese lends itself especially well to salads. If enough is used the salad may serve as the main dish of the meal. French mayonnaise, boiled dressings, go well with cottage cheese. The cheese may be formed into balls or slices, it may be molded in tiny cups or passed through a pastry tube. Foods that combine well with cottage cheese are crisp, fresh vegetables, cooked or canned vegetables, fresh, dried,

canned or preserved fruits, nuts, loaves, rice, potatoes. With the last two some highly flavored and bright garnish, like beets, pimentos or green peppers should be used and celery, cucumbers, green peppers, crisp lettuce or cabbage may be added to give succulence. Ground raw carrots and onions combine nicely with cottage cheese

Mr. and Mrs. R. J. Burrows and son and Miss Ruth Binns drove to Madison, Wis., Friday and attended the Wisconsin-Michigan football game Saturday.

### LIBRARY NOTES

A fine of three cents a day will be charged to all overdue books. This rule will hold good in eight as well as fourteen day books and will be rigidly enforced.

"We ought to feel a little civic pride in our library and not that

it is in good shape, we ought to endeavor to keep it so. All books must be returned when due or the fine will be imposed. More books will be given to the library if everyone obeys the rules. Anyone who donates reading material wants to feel sure that the books will be in safe keeping," said Mrs. G. H. Stevenson, a member of the library board.

Edna Ferber's "Show Boat" and Weissman's "Heredity" are two of the most valuable volumes that are missing.

The first volume of a biography of Aaron Burr and the following books are also among those missing: "Her Son's Wife," by Dorothy Camfield, "Sweepings," by Lester Cohen, and "Tomorrow Morning," by Anne Parish.

A number of new books have arrived and are being placed on the shelves of the township library. Among the outstanding additions are: Ludwig's "Napoleon" and T. E. Lawrence's "Revolt in the Desert." The new addition

will also include several books for children.

Several books of value have wandered from the shelves of the public library. Those who

are in the habit of patronizing the township shelves have been asked by the Library Board to return any books taken out without being charged or any that are long past due.

### WANT 13 MONTHS OF 28 DAYS EACH

#### BUSINESS MEN OVER THE COUNTRY WANT TO STRAIGHTEN OUT CALENDAR

More than 500 leading business men of the United States are in favor of the nation wide movement to straighten out the calendar.

A committee of the League of Nations threshed out the merits of 185 proposals of calendar changes that were presented from 38 nations. After examining these plans the League committee considered two that were practical. All nations, including the United States, will be invited to form national committees to decide upon the simplifying of the calendar.

George Eastman of Rochester, is giving his active support to the Moses B. Cotsworth plan for a calendar of 13 months of 28 days each. He has published letters from prominent men from all parts of the United States expressing their belief in the need of a new calendar. Mr. Eastman says the movement is "paralleling the efforts which were made in this country and throughout the world a little more than two decades ago when standard time was adopted universally."

He says that many business firms are already using a simplified calendar for cost accounting purposes. The United Fruit company of Boston is one of the big institutions of the country already using a simplified calendar and Victor M. Cutter, president of the company, has written Mr. Eastman stating that "the regularity and certainty of income with payments have a stabilizing effect upon business in general. The regularity of equal comparisons in fixed dates appears to be a decided advantage over the present calendar."

Wm. Wrigley declares that "the new idea makes a big hit with me. It is for it." Perry S. Du Pont, Irving Fisher, Robert Dollar, Chairman O'Connor of the Shipping Board, President Fiske of the Metropolitan Life Insurance company, and hundreds of other leaders of American opinion have given their endorsement to the plan for a new and better calendar. The statements made by these men have led Mr. Eastman to say that "I believe that we are in striking distance in the change in our calendar."

#### "WILL IT WASH" IS SIMPLE TEST OF CLOTH

When a woman asks the clerk at the cotton goods counter "Will it wash?" she usually refers to the fastness of the color. Neither she nor the clerk can be sure that the color is permanent unless a sample is washed under real laundering conditions. No one can tell by looking at a fabric whether or not it will run or fade. Even the so-called guaranty of a fast color may not mean much unless it has been given by a reliable manufacturer.

A washing test should show much more than fastness of color. It should tell whether the yarns will slip out of place when the fabric is laundered. Loosely woven materials often have this fault. It is the beauty of the fabric entirely due to the glossy finish? Will this be removed when the fabric is placed in water? Are the spots or figures put in by means of such short threads that will put out when the material is washed? Are they made of a paste which will be removed by washing?

These points can and should be determined by the purchaser herself. There are innumerable good fabrics available. Select a firm piece, well constructed in every detail and your cotton dress will not only wash but wear well. If you are unfamiliar with the wide range of cotton wash materials from which to choose, visit the nearest large department store and get a number of samples to try out at home before you make your purchases.

#### Facts About the Telephone

The new Stevens Hotel in Chicago has a switchboard sufficient for a city of 15,000 inhabitants.

It is estimated that well over 800,000 people have money invested in the telephone companies of the United States.

Over 1,000,000 miles of copper wire are used to carry the daily telephone conversations in the city of Rochester, N. Y.

Less than twenty years ago El Paso had but four telephone operators. Now 175 girls are needed to take care of the city's telephone calls.

In Arabic, when you give a telephone number, you don't say, for example "24-56." Instead, the usual method is to say "4 and 20, 5 and 50."

The London Correspondent of the Danish newspaper "Politiken" recently completed the first telephone call between London and Copenhagen, when he spoke to his head office.

#### LOCAL REPRESENTATIVE AT NATIONAL DENTAL MEET

Among those who will attend the annual congress of the American Dental Association in Detroit from Oct. 24 to Oct. 28, will be Dr. W. E. Sargent of Buchanan. Many notables will be present at the national convention, among them being Governor Green of Michigan, A. H. Lloyd, dean from the University of Michigan, officers of the American Dental Association and many dental authorities from various sections of the country.

The program consists of a great number of clinics, lectures and scientific sections for the discussion of dentistry. Technical exhibits will be housed in the General Motors building and motion picture programs of especial interest to the members of the association will also be included in the five day congress.

Mrs. Sargent will accompany Buchanan's representative. Leaving Saturday, they will attend the Ohio State game at Ann Arbor before going on to the convention.

H. W. Riley went to Detroit on Wednesday to attend a meeting of the directors of the Ward Electric Co.

### East Main GARDENS

### MOST HONEY USED BY LOCAL PEOPLE

TEN MILLION POUNDS OF HONEY EATEN BY BEE KEEPERS THEMSELVES

Two thirds of the 15,000,000 pounds of honey produced in Michigan annually is used in filling the sweet tooth of local people in the opinion of the entomology department at Michigan state college. The Thumb is the banner honey producing section of Michigan. It is estimated that 25 carloads of honey are stored each year by the bees owned in the north half of Huron county alone. The honey the eastern part of the state this crop was excellent all through season.

Bees are willing workers, but they must be properly cared for if any profit is to be made from their work. Many people believe that bees spend the winter asleep, but, unless 50 or 60 pounds of good white honey are left in each hive for winter food, the bees will starve.

The need of winter supplies for the bees probably caused the misconception that honey is often adulterated with sugar. Apiarists often feed bees sugar syrup and the material is used as food by the insects. Sugar is too expensive, however, to be used as an adulterant for market honey.

Colonies of bees should be protected from winter storms by packing the hives. Six inches of insulating material should be packed on the sides of the hives and a foot on top. Tar paper may be used to shed the rain, according to the M. S. C. men.

NEW COUNCIL CHAMBER FOR COLOMA LAWMAKERS

The village council of Coloma will occupy larger quarters, renting the rooms over the State bank for their regular meetings and for the office of clerk.

The old quarters that have been used by the council for over a quarter of a century have really been unfit for a meeting place for been considered unfit for a meeting place for many years. The new quarters are always well heated and lighted and will afford a fine place to transact the village business.

Village Clerk J. V. Thompson will be in the new office from 7 to 9 p. m. each Wednesday, and Friday evening to transact any business that any person may have with him.

Mr. and Mrs. E. C. Mogford and family spent the week end in Flint.

ATTENTION FARMERS

If you have any horses, cows or hogs you wish to have taken away for prompt disposal, call on my telephone charges. The New Carlisle Hide and Rendering Co., buyers of hides, furs, pelts, stallow, New Carlisle, Ind. Telephone 47 or 118-2. 4114c

Glenn Salisbury who has been visiting relatives in Buchanan and vicinity for a week, left for his home Friday in Dearborn.

# FARM NEWS

Stories Concerning Farm Activities and Crops, Farmers and Their Families

## SIX BEST HERDS NAMED BY TESTER

DAIRY ASSOCIATION HAS AN AVERAGE OF 503 POUNDS OF MILK FOR MONTH OF SEPTEMBER

Twenty-five herds totaling 291 cows were tested during the month of September, according to the report to the South Berrien Dairy Herd Improvement association by the tester, K. Nielson. Several farmers in this locality are members of the association. The average for the association was 503 pounds of milk containing 22.6 pounds of butterfat.

Owners of the six best herds were:

Warren Toney, 12 purebred Guernseys—645 pounds milk, 31.7 pounds fat.  
F. J. Plym, 20 purebred Holsteins—953 pounds of milk, 32.4 pounds fat.

Joe Parren, 13 mixed—764 pounds milk, 32.1 pounds fat.  
Adolph Knott, 13 purebred Guernseys—645 pounds milk, 31.7 pounds fat.

Fred Knott, 13 purebred and grade Guernseys—562 pounds of milk, 29.8 pounds fat.  
The best cows were:

Lady Sunbeam, pure bred Guernsey owned by S. Rosenberg—936 pounds milk, 66.5 pounds of fat.

Colantha, pure bred Holstein, owned by F. J. Plym—1,488 pounds milk, 59.6 pounds fat.

Snowball, grade Holstein owned by D. Straub—1,860 pounds milk, 59.5 pounds fat.

Lassy, purebred Holstein owned by D. Straub—1,824 pounds milk, 56.5 pounds fat.

Argie, pure bred Holstein, owned by F. J. Plym—1,548 pounds milk, 52.6 pounds fat.

No. 8, pure bred Holstein, owned by E. Franz—1,548 pounds of milk, 50.9 pounds of fat.

No. 14, owned by F. C. Franz—1,260 pounds milk, 50.4 pounds fat.

## DAIRY HERD IS FARM SECURITY

COWS ARE BEST INSURANCE AGAINST CROP FAILURE, GIVING STEADY INCOME

"If he's got milk splashed on his boots, make the loan!" That was one form of country banking "investigation" as to the ability of a farmer to come thru on a loan not so many years ago in a certain community in the Northwest. In other words, the banker knew his farmer was "insured" against crop failure and would have a steady cash income despite the whims of weather in the way of frosts, winds, floods, drought and hail. A herd of dairy cows spreads the risk over seven years; instead of gambling a year's work and cash outlay on one season's crops. For that reason it is not surprising to find dairy and poultry products leading the cash income of the U. S. farmer last year with \$3,754,000,000, more than two and a half times the income from grains and nearly three times the income from cotton.

Not only have both dairying and poultry raising had a big expansion since the war because of increased production to meet increased demand from consumers, but producers have been able to put this form of farming on a better business basis from the start and increase income from unit of stock than is the case with other crops. The Cow Testing associations have provided an avenue for weeding out losers and breeding up production from the highest producers. In poultry, the trap nest does the same thing so that intelligent management can work towards a continual increase per unit. Also, the testing association shows the way to better feeding, higher quality product and cost cutting by the introduction of the silo and ensilage cutter, individual drinking cups, feed and litter carriers, swinging stanchions, cement floors and managers, milking machines, efficient cream separators, feed grinders, pumps and water systems, etc.

## DEERS USED IN RESEARCH WORK IN FEEDING PRACTICES

About one section of land, conveniently located to the Reindeer Experiment Station at Fairbanks, Alaska, was recently transferred to the Bureau of Biological Survey of the United States Department of Agriculture for use in the reindeer grazing investigations that are being carried on by that bureau under the direction of L. J. Palmer, biologist.

New corrals and fences are being constructed, as well as new buildings in which feeding experiments can be conducted more satisfactorily. Several reindeer have recently been added to the herd, and good progress is being made in the study of feeding and management practices. W. B. Miller, assistant range examiner in Alaska, has been making surveys of grazing resources, coaching producers in improved methods, and establishing

new observation quadrats of plant growth, as well as studying the results obtained from those that have been under observation for some time.

**\$4,000,000,000 IN MACHINERY**  
More than four billions of dollars is now invested in farm mechanical equipment in this country, according to a council appointed by Secretary Jardine to study the subject. Over \$330,000,000 was expended for such equipment in 1925. Power and labor costs of farm crop production on the average make up about 60 per cent of the total costs. In view of these facts, even minor improvements in farm machinery will result in large savings.

## BORER EXTINCTION NOT A POSSIBILITY

CONTROL OF FARM PEST IS THE AIM OF THE CLEAN UP CAMPAIGN IN MICHIGAN

Control of the European corn borer and not the eradication of the pest is the primary aim of clean up measures and regulations, says Prof. R. H. Pettit, entomologist at Michigan state college.

Neither can the spread of the pest be prevented as the moths possess remarkable powers of flight and are able to fly at least 20 miles. To retard this natural spread is the best that can be hoped for, he says.

"Eradication of the corn borer is impossible," Professor Pettit states. "There is no more reason to expect the borer to be exterminated than there is to believe it possible to do away with numerous other insects. The pest will be present on the North American continent for a long time."

"The real purpose of clean up measures is to keep the numbers of the pest in check so that farmers may continue to grow corn at a profit. The campaign waged against the borer last spring has demonstrated that this can be accomplished."

"Continued clean up of the infested areas will reduce the borer population sufficiently to check its spread materially, and decrease the amount of damage done in the heavily infested areas."

**MORE SEED, MORE POTATOES**  
Recent results in potato production indicate that growers in general would profit by a more liberal use of seed, says the United States Department of Agriculture. The recent accomplishment of a firm of California potato growers in producing 1,038.3 bushels of potatoes on a measured acre and an average yield of 1,001 bushels on 9 acres would not have been possible if only the usual quantity of seed had been planted. Planting large sized sets insures a better germination and a larger set of tubers, and is, therefore, a desirable practice provided the resultant plants have an abundant supply of food and moisture.

**FORESTS PROHIBIT FLOODED ACREAGE**  
SCIENTISTS SHOW THAT WATER IS RETAINED LONGER ON TREE COVERED LAND

Soils in forested areas will absorb more water and will hold it longer than the soils in open areas unprotected by any kind of vegetation, according to scientific investigations recently completed. In the formulation of any comprehensive and long term plans

for the control of floods, it is important that this fact be considered and that the scientific data on the relation of forests to soil water be thoroughly reviewed, investigators urge.

Notable among the studies which have demonstrated the absorptive and retaining power of areas covered with forests, is the investigation made by Prof. I. T. Bode of the Department of Forestry, Iowa State college. Prof. Bode made his study on four small sites in "Backbone" state park, Delaware county, Iowa. Two of these sites had heavy timber growth, with a good layer of forest litter and decaying leaves, while the other two had been denuded of timber.

It was found that the average content of water of the soils in the timber covered area as well as both maximum and minimum contents were above those for soils on the unprotected area. The soils on the timber covered area were of a more sandy nature than those on the unprotected area in the sites selected. The great absorptive power of the soils in the area covered with timber was apparent, while the run-off of rainfall was found to be greater on the open slopes.

Investigations of the seepage of soil water on these sites showed that this was most rapid on the open slopes following a rain, while the seepage was greater in quantity, steadier and distributed throughout a longer period of time in the area covered with timber.

By thus absorbing more water, by holding it longer and by allowing it to seep out more gradually, areas covered with forest exert a considerable influence in the regulation of stream flow, tending to prevent high water and flooding following periods of heavy rainfall on the one hand, and drying up of streams during the dry season on the other.

Since in even a limited area the removal of the forest cover from one of the slopes had such a marked effect, says the Forest service, the influence of forests over large areas in maintaining more uniform stream flow must be regarded as an exceedingly important one.

Mr. and Mrs. Will Ashley, Mrs. Hannah James and Jeannette James of Pierceton, Ind., were the week end guests of the former's daughter, Mrs. Walter E. Shoop and family.

## LIGHTNING CAUSES MOST FARM FIRES

TWENTY MILLION DOLLARS LOST EACH YEAR ON PROPERTY OF FARMERS

Lightning, which causes, annually, large life and property losses is probably the chief cause of farm fires. Recently the seriousness of these losses caused the farm fire protection committee of the National Fire Protection association to give special attention to this problem. This committee recently gave out the following statement regarding lightning-caused losses on the farm:

"The annual farm property loss from lightning may be estimated at \$20,000,000 as a minimum. This loss can, in large measure, be prevented by proper lightning protection on buildings and by the simple expedient of grounding at reasonable intervals, all wire fences inclosing pastures or yards for livestock. The annual number of farm persons killed by lightning is between 400 and 500, and the number of such persons injured from this cause is more than twice the number of deaths.

"Available statistics indicate that lightning rods, both good and defective, as hitherto found on farm buildings have reduced lightning losses by about 85 per cent of the loss incurred from lightning on corresponding exposures of unrodded buildings, and that properly installed and well-maintained rods have shown an efficiency in the prevention of lightning damage of well nigh 100 per cent.

"A substantial metal rod with all parts thereof in good electric contact can, according to available evidence, be utilized as a part of the lightning-protection system for a building and thus in part be made to serve a double purpose. The cost of grounding and making other necessary electrical contacts with interior masses of metal is relatively small.

"The cost of lightning protection is more than justified when the added personal safety and avoidance of temporary deprivations, as well as the saving of property, are considered.

"The committee calls attention to a 'Safety code for protection of persons and buildings against lightning,' prepared by a committee working under the direction of the American Engineering Standards committee. This committee consists of representatives of the United States government and a number of national organizations. The code has been published in tentative form by the National Fire Protection association, Boston, Mass."

## FORESTS PROHIBIT FLOODED ACREAGE

SCIENTISTS SHOW THAT WATER IS RETAINED LONGER ON TREE COVERED LAND

for the control of floods, it is important that this fact be considered and that the scientific data on the relation of forests to soil water be thoroughly reviewed, investigators urge.

## AUCTION SALE

I am offering at public sale on my farm, south of Buchanan, 1 mile west of Chamberlain corner, 1/2 mile north and east of Bakers town on

**Thursday, Oct. 27, 1927**  
Commencing at 1 o'clock p. m. the following

**2 - Head of Cows - 2**  
1 Red Pole, 8 years old, bred Sept. 1, 3 gal. milk; 1 Guernsey, 8 years old, not bred, 3 gal. milk.

**Pigs**  
4 Duroc pigs, 4 months old; these are extra good stock.

**Farm Tools and Implements**  
Spring wagon with turntable, just the thing for fruit farming; extra fine wood rack, made of selected lumber for Levi Batten by E. Remington; cutter, pair of bobsleds, bolsters for hauling logs, Oliver walking plow, spring tooth drag, walking cultivator, Deering mower, hay rake, set wagon springs, buggy pole and pair shafts, Primrose separator, barrel churn, set buggy wheels, spring seat, 2 oil tanks, 15 oak 2x4's and 5 2x8's, saved to make double and single trees; 8 large hotbed sash.

**10 Bushels Seed Corn**  
This corn is 90 days yellow dent from seed that took blue ribbon prize State of Michigan, also 4 bu. rye.

**Household Goods**  
Double combination bookcase and writing desk with three drawers, single combination solid oak bookcase and writing desk, 4 rockers, 2 fireless cookers; china cabinet with 3 glass doors, 2 drawers, mirror; phonograph, plenty records, several gas light fixtures and mantles, several books and dishes and many other articles.

**TERMS OF SALE**—All sums of \$10 or under cash, over \$10, ten months time will be given on bankable notes without interest if paid when due, otherwise 7 per cent interest will be charged from date. 5 per cent discount will be given for cash on all sums of \$10 or over.

**RICHARD M. KEAN**  
Albert Seyfred, Auct. Albert E. Houswerth, Clerk.

## FARM AUCTION

Having decided to quit farming, I will sell at public auction, without reserve, on

**FRIDAY, OCTOBER 28, 1927**  
At 10 a. m. the following real estate and personal property:

**80 ACRES, STOCK, TOOLS, CROPS**  
Northeast 1/4 of southeast 1/4 and the northwest 1/4 of the southwest 1/4 in township 8, south range 19 west, containing 80 acres, more or less. Located 1 1/2 miles south of Galien, 5 miles north of New Carlisle on paved road No. 18 and being 18 miles northwest of South Bend, known as the Storm farm. This farm is a good quality of clay loam soil, gently rolling and very productive, is adapted principally for dairying and fruit, but will produce most any crop. Has 300 peach trees, 50 apple trees, 1/2 acre grapes, lots of small berries.

**Improvements**—Good 9 room, 1 1/2 story frame house, with basement and furnace. Good well of water and wind mill, good barn, 40x60, large tool house, granary, poultry house and other out buildings, all in good repair.

**Terms**—This farm will be sold subject to a Federal Loan of \$2900.00, 5 1/2 per cent, \$1000 day of sale, \$1000 when possession is given, balance can be arranged.

**PERSONAL PROPERTY**  
5 Head Horses—1 span of brown mares, 5 and 6 years old, weight 2200 lbs; 1 bay mare, 7 years old, in foal, weight 1250 lbs.; 2 mare colts, 4 months old, a fine pair.  
2 Milch Cows—1 Guernsey cow, 4 years, fresh; 1 Guernsey cow, 8 years old, giving milk.  
35 Chickens—30 Barred Rock spring chickens, 5 Buff Orpington hens.

**Implements**—John Deere 8-ft. cut grain binder, nearly new; 5-ft cut Deering mower, Sterling hay loader, Iron Age potato digger, Aspinwall potato planter, 12-disc Superior grain drill with fertilizer attachment; 14-inch Gale breaking plow, 14-inch 2 or 3 bottom John Deere No. 5 tractor plow, good as new; 25-tooth lever spring harrow, section International spike tooth harrow, walking corn cultivator, 5 shovel cultivator, 2-section steel land roller, barrel spraying outfit, complete; 3-inch tire wagon, hay rack, 10-inch Letz No. 130 feed mill with bagger, good as new; 50 ft. 6-inch endless belt, 30 ft extension ladder, 1000 lbs. platform scales, 1 1/2 h. p. gaso. line engine, woven wire fence stretcher, set double harness, set single harness, Elkhart sleigh, chicken crate, 25 potato crates, 12 grain sacks, power washing machine, (12.25) Waterloo Bay tractor, 1-ton Ford truck with stake body.

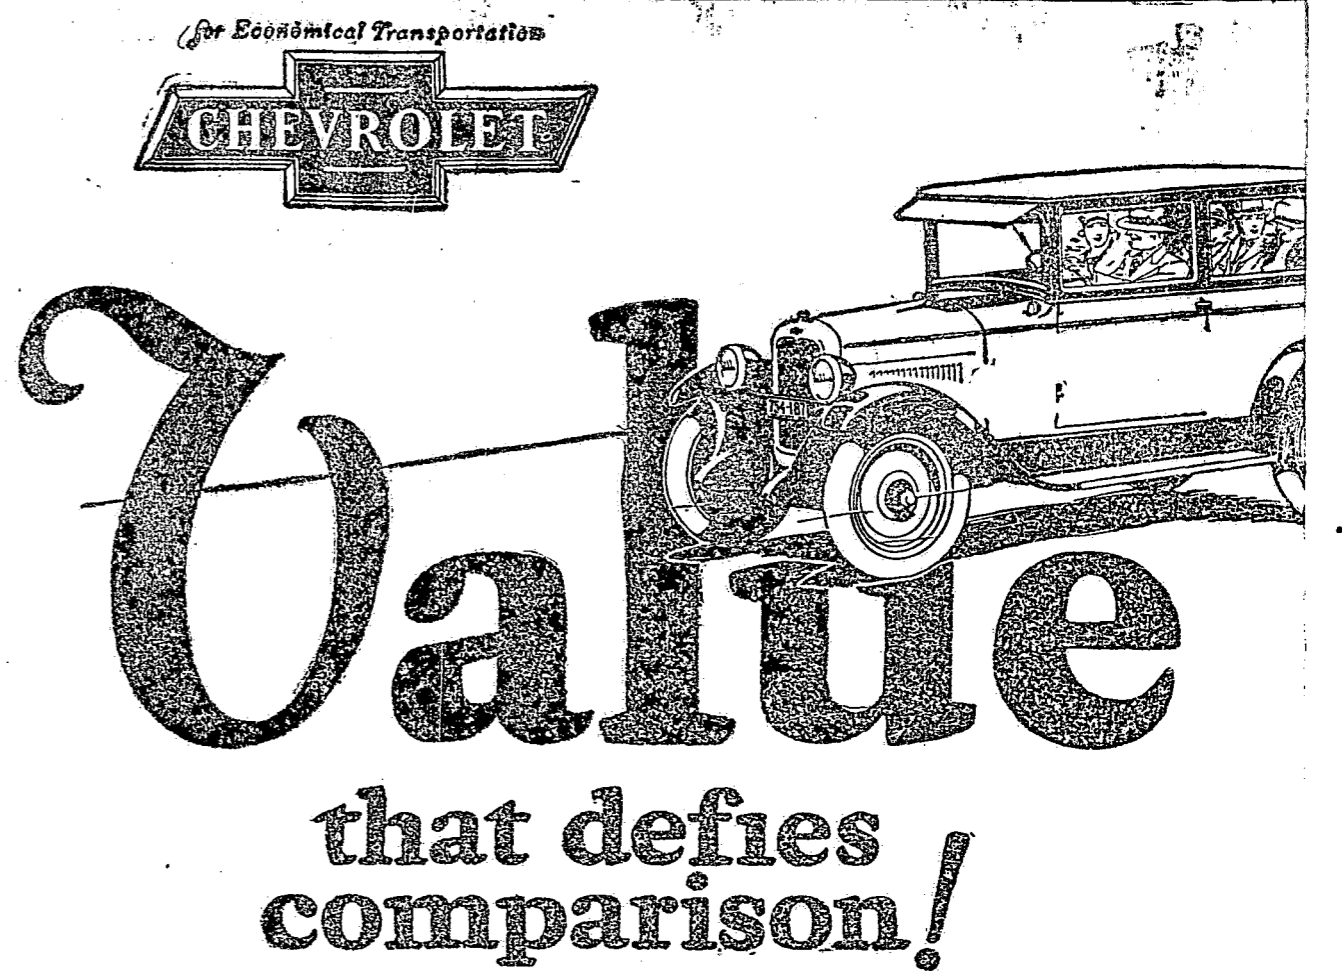

**Seeds**—25 bu. early seed potatoes, 25 bu. Rural Russet potatoes, 2 bu. Mammoth clover seed, 4 bu. Alsike and Timothy seed, Hay and Grain—15 tons mixed hay, 5 tons clover hay, 5 tons threshed hay in barn, 50 bu. oats.

**Household Goods**—South Bend Malleable steel range, bookcase, 5 straightback chairs, 5 rocking chairs, 2 wooden beds, 1 iron bed and other articles.

**Terms on Personal Property**—All sums of \$10 and under, cash; all sums over \$10, credit of 6 months, without interest if paid when due, if not paid when due, 7% interest from day of sale. Four per cent discount for cash over \$10. Settlement for property must be made before removal. Warm lunch served on grounds.

**OWNER AUGUST F. STORMS**

## AUCTION SALE

Having rented my farm, I will sell at public auction on the place located 6 north-west of Buchanan, on Madern lake, 3 1/2 miles east of Glendora, formerly known as the Mutchler farm, on

### WEDNESDAY, OCT. 26, 1927

Commencing at 10 o'clock

#### 4 - Head of Horses - 4

Bay gelding, weight 1550, 9 years old; black mare, weight 1400, 14 years old; mare, weight 1300, 9 years old; black mare, weight 1250, 13 years old.

#### 14 - Head of Cattle - 14

Roan cow, 6 years old, fresh by time of sale; registered Guernsey cow, 11 years with papers, fresh by time of sale; Guernsey cow, 6 years old, fresh Nov. 22; Guernsey cow, 6 years old, giving good flow of milk; Guernsey cow, 5 years old, bred 11; Guernsey, 3 years old, will be fresh in February; Guernsey, 8 years old, fresh date of sale; Jersey cow; brown Jersey, 8 years old, bred Sept. 10; Guernsey, 8 old, fresh soon; Guernsey, eligible to register, year old; Guernsey heifer, year heifer calf; Guernsey, 3 year old, bred June 26.

#### 30 - Head of Hogs - 30

Four brood sows, open; 26 pigs weighing about 125 pounds.

#### Hay and Grain

35 tons alfalfa in barn; 4 tons clover and timothy mixed; 450 bushel oats; 100 bushel barley.

#### Farm Implements

Deering binder, 7-ft cut, good as new; Deering mower, 5-ft cut, good as new; 405 walking plow, new 3 section spike tooth harrow, 2 section drag, dump rack ft.; disc harrow, 7 ft.; manure spreader, single shovel plow, hay tedder, Stout bob sled, wood rack, Weber wagon hay rack, 2 Oliver walking cultivators, Cult er, set wagon springs, new; Superior grain drill, Hayes corn planter, iron kettle, heavy work harness, cream separator, International 1 1/2 h. p. engine and other articles too numerous to mention.

**TERMS OF SALE**—Sums of \$10 and under, cash; over \$10 eight months time given on bankable note, with interest at 7 per cent. 4 per cent discount for

LUNCH WILL BE SERVED AT NOON

## M. LUNDGREN, Prop.

JOHN WOOD, Auctioneer A. F. HOWE,

THURSDAY HAPPENINGS HERE LONG AGO TOWN NEWS GLEANED FROM THE FILES OF BERRIEN COUNTY RECORD FIFTY AND TWENTY-FIVE YEARS AGO

TWENTY-FIVE YEARS AGO H. R. Adams, the hardware man, is giving his residence on bright red paint. It will present a very fine appearance when finished.

Letters unclaimed in the P. O. at Buchanan for the week: Mr. C. W. McDaniel and postal card, Jesse Boyle. G. W. Noble. P. M.

Grace Rouse has a lucrative position as stenographer at Michigan City.

Buchanan Markets: Butter 18 cents, eggs, 14 cents, cooking apples, 25 cents bushel, peaches \$1 bushel, potatoes 80 cents a bushel.

Monday at the home of Mr. and Mrs. Darius Smith there was a scene of much merriment, happy congratulations mingled with good wishes for the coming year.

Many years ago in Brewertown, New York, a young girl named Henrietta Coon was wooed and won by the gallant young man Darius Smith, and in 1852 these bright young lives were joined together and there has followed fifty years of wedded bliss.

To this couple were born six children: Byron, John, George, Fred, Henry and Addie.

To celebrate their golden wedding the family, relatives and friends gathered at the home. Not the least of the occasion were the beautiful presents: a gold headed cane, a gold headed umbrella, an easy rocker for each one, meat knife, fancy sups and saucers decorated with gold, tea set of cream pitcher, butter dish and sugar bowl, with gold trimmings, glass berry dish with gold trimmings, and a fine chiffon tie for Mrs. Smith. The table fairly groaned under the good things provided by host and hostess.

In the year 1836 about 66 years ago there came to the wilds of Michigan Jesse Helmick, a sturdy pioneer from Warren county, O. There came with him to share the labors of making a home his wife and three sons, John, Samuel and Hiram and two daughters, Mary and Sarah Jane.

In that year the family erected a log cabin 6 miles northwest of Buchanan and about four miles from Berrien Springs. Here there were born three sons, Eli, Jacob and Burns, and three daughters, Eliza Ann, Rachel and Alice.

Descendants from these pioneers gathered in the 4th annual Helmick reunion Sept. 20 at the Grange hall on the very ground first settled on by the family. There were about 80 present. Among them were: John S. Hel-

mick, Eli Helmick, Mrs. R. V. Clark, Allen Helmick, Mrs. R. D. Calk, Elmer Clark, Mrs. John Russell and family, of Buchanan and vicinity.

A. C. Roe was in Dowagiac this week attending the district convention of the Christian church.

FIFTY YEARS AGO Wolves are troubling the sheep in the vicinity of Edwardsburg. Some of them have been captured but some are still at large.

The Buchanan Dramatic club went to Berrien Springs last Monday evening with "Ticket-Of-Leave Man." They had a very fair crowd.

We would like a few loads of stove wood on subscriptions now before the road gets muddy.

At the last meeting of the village council after considerable debate on a petition to have the hitching posts and railings replaced on the business streets, it was decided that the business men of the village be permitted to put hitching posts with railings on top in front of their places of business to be not more than 4 by 4 inches and three feet high, the railings to take up not more than two-thirds of the street front opposite each place. We expect to soon see Front street fenced in again.

Who Can Beat It? Misses Eva Gauntt and Alice Hall of Weesaw township pared and dried ready for market, one hundred and two pounds of peaches in six days. They want to hear from someone who can do better.

On Monday last as Mr. J. J. Roe was driving along Roe street his horse started suddenly and threw Mr. Roe from the buggy. He was not badly hurt, however, for he was about town the next day.

The union picnic of the Red Ribbon club yesterday, was largely attended by members of reform clubs from all parts of Michigan. In the evening the Dramatic club played "A Drunkard's Warning," to a large and appreciative audience.

The programs in each district have been arranged with three main types of meetings, general sessions where lectures are provided upon topics of special interest and timeliness, without particular reference to the specialized field of education; division meetings for the formal discussion of problems pertaining to some of the broader departments of public education; and Section meetings, which are designed to

give groups of teachers occasion for the investigation and discussion of their special interests and which provide opportunity whereby every teacher may participate directly.

The speakers who are to address the three general sessions this year in all districts except the seventh are Oswald Ryan, Indiana orator, author and student of affairs; Maurice G. Hindus, lecturer and author and Edward E. Elliott, president of Purdue university.

Some of the speakers who will address the division meetings in the different districts are: Miss Alice Temple of the School of Education, University of Chicago; ent of schools, Chicago; Henry T. William McAndrew, superintendent, Moore, president Skidmore college, Saratoga Springs, N. Y.; W. C. Reavis, university of Chicago; Miss Florence Hale, state supervisor of rural schools, Augusta, Maine and Dr. Franklin Bobbitt of the University of Chicago.

Modern Magic In the Arabian Knights tales folks used to sit on magic carpets and make wishes that carried them off to distant lands, and their journeys were made in ease and comfort.

Accident insurance companies have a bitter hate for magic carpets in houses and homes, as they put out a great many thousand dollars each year for injuries received from slipping on rugs. An insurance magazine carries the picture of what is called the duPont rug anchor. It takes the magic and the tricks out of rugs and keeps them flat on polished floors, and prevents them from slipping. The anchor rug is placed between the rug and the floor and it creates a suction that makes the rug stay put. It is quiet, well behaved and does not injure the floor or the rug. And you never would know it was under the rug.

A letter may be posted in New York and the air plane mail will deliver it in San Francisco the following day. Bird men travel in airplanes "with the swiftness of the wind." There is no magic about it except the magic of electricity, gasoline and a scientific machine. Magic carpets are stupid in comparison.

There was magic in the history of Alladin's wonderful lamp. By

rubbing it and wishing wonders were performed. The magic of lamps of today unfold without even rubbing—you simply touch a button and electricity "lightens up everything about you. What is electricity? Edison says he does not know. Let's call it modern magic. Modern chemists do not need iron, wood or other raw materials to get together lamps, electric light switch wall plates or similar decorations. They make pyroxylin finishes that decorate

everything and are made to harmonize with beautiful color schemes. There was not enough magic in all of the ancient days to keep window shades clean. "Oh, what a dirty window shade" is an expression as old as the hills. But there is a recent invention known as a tontine window shade. You can turn the hose on it and wash it the same as one does a handkerchief or a shirt. It comes out perfect.

Cents for Safety advertisement featuring an illustration of a woman in a room with an extension telephone. Text: 'WHEN YOU'RE AT HOME ALONE do you enjoy that sense of security that is afforded by an extension telephone close at hand? Friends—or aid—can be summoned at an instant's notice, without going to another part of the house to telephone. MICHIGAN BELL TELEPHONE CO.'

Peanuts Shortly after the Civil war a confederate sea captain took a cargo of Virginia peanuts aboard and sailed for New York. He could find no sales for the Virginia goober peas in New York City.

In desperation he engaged a lusty lunged Italian to take some of his goods out on Broadway, and the curiosity of the throngs over the "hot roasted peanuts" brought them to taste and then to approve. That was in 1867 and the total crop of peanuts in the United States that year was 200,000 bushels. Today the peanut industry is rated in terms of millions.

Salted peanuts in individual bags have been known to the public for only a few years. In the beginning the manufacturer always split the nut and took out the kernel because it was bitter.

A dozen years ago an inventive genius in Suffolk, Va., started to put up the best Virginia "jumbos" in the full nut just as they came from the shell. It was a great idea and he made a million.

Peanuts were at one time left on the ground for the hogs, or sold over the counter at five cents a half.

Peanuts grow on vines and they are dug out of the ground the same as potatoes.

The biggest and the most attractive peanut grown on the American continent come from a small section of the country in the vicinity of Norfolk and Suffolk, Va., and extending into North Carolina.

Cottage cheese may be used as a sandwich filling. All kinds of bread lend themselves well to cottage cheese sandwiches. The cheese may be combined with nuts, grated hard cheese, pimen-

tos, horseradish, chopped or sliced olives, whole or chopped nuts, sliced celery, chives, Spanish onions, raisins, dates, prunes, fresh, crushed mint leaves, honey jelly or marmalade. These additions may be blended with the cheese or may be spread in a layer over it.

Waxing or varnishing is said to improve the appearance of linoleum and to make it last longer. Wax should be used on the inlaid and plain kinds and varnish on the printed ones for wax sometimes tends to soften the printed surface.

BUICK advertisement: 'Or has an engine Vibrationless beyond belief. BUICK'S remarkable freedom from vibration is due primarily to three vitally important factors. First—the inherent smoothness of the Buick Valve-in-Head six-cylinder engine. Second—rubber engine mountings, front and rear. And third—the scientific and almost perfect balance of the entire Buick crankshaft assembly. Only Buick enjoys these advantages. And only Buick provides the sikeen performance—the unvarying smoothness at all speeds—the longer life and greater serviceability of an engine vibrationless beyond belief. Sedans \$1195 to \$1995 Coupes \$1195 to \$1850 Sport Models \$1195 to \$1525. All prices f. o. b. Flint, Mich., government tax to be added. The G.M.C. financing plan, the most desirable, is available. BUICK for 1928 FORBURGER MOTOR CO. NILES, MICH.'

CHEVROLET USED CARS advertisement: 'Look For The Red "O.K." Tag. After we have thoroughly reconditioned a used car, we attach a red "O.K." tag to the radiator cap. This tag certifies that the vital units of the car have been gone over completely by expert mechanics and put in condition to give thousands of miles of additional service. It takes all the "guess-work" out of used car buying. Look for this tag when you buy a used car—for it is your guarantee of quality and value. CHEVROLET MOTOR SALES Buchanan, Mich.'

ROSS & CO. advertisement: 'READY FOR YOU. When you leave your car with us for service, you may count upon it being ready for you when promised. It is a part of the service you are paying for, and we see to it that every customer of ours gets full value for his money. ROSS & CO. Formerly Kolhoff's Garage. Phone 191 Days Ave.'

INDIANA & MICHIGAN ELECTRIC COMPANY advertisement: '"I admire the leaders of the electrical industry" Says William Green, President American Federation of Labor. "With a business sagacity which challenges our admiration, the leaders of the electrical industry adopt and put into force each new invention and discovery as soon as it is perfected and ready for the market. And I am certain no other industry is devoting so much time, money and effort to the successful expansion of its service and production." Do you recall the time, just a few years ago, when the only electrical service available was electric light—and it was a novelty? There are sixty-eight and a half million people in the United States living in electrically wired homes; thirty million electric horse power serving American industry; three million investors owning the companies furnishing electric power, heat and light. The rapidity of this expansion, and the universal benefit it has conferred, have been due primarily to the courage, initiative, and prophetic vision which have inspired the operations of the country's light and power companies. Complete text of Green's address will be furnished upon request. INDIANA & MICHIGAN ELECTRIC COMPANY'

Delco-Light advertisement: 'New Type Delco-Light a scientific marvel Does Everything but Think! All the advantages of an automatic Delco-Light combined with All the advantages of a storage battery Delco-Light. Operates from battery on small loads. Automatically switches to power for heavier service. Uses smaller battery—thus costs less. Requires less fuel. Demands practically no attention. This amazing achievement the result of 15 years' research by Delco-Light engineers. Approved by General Motors after 7 years of gruelling field tests. Now comes a new type Delco-Light Plant that astounds even those scientists and engineers who are in daily contact with the epoch-making achievements of electrical science. Write—or 'phone—and get full information about this new achievement of Delco-Light and General Motors. Or call on me personally, and see the evidence with your own eyes. And remember—if this newest model doesn't exactly suit your needs, there are many other Plants to choose from, now priced as low as \$225. Don't wait. Write or 'phone or call today. Walter E. Thaning DEALER Buchanan, Mich.'

# Congratulations and Best Wishes — to the — Clark Equipment Company

Your keen business acumen, foresightedness and energy in the manufacturing and marketing of superior products are contributing factors in making necessary the expansion in your manufacturing facilities. Your prosperity and growth will necessarily influence the prosperity and growth of Buchanan. It means better business for our business men, it means higher property values, and it makes necessary the building of hundreds more homes in our town, if Buchanan is to make the most of her opportunity.

We congratulate you upon what you have done and what you are doing, and express the hope that Buchanan may yield to the urge and provide sufficient homes for your employes, making it unnecessary for them to live in adjacent towns. With this accomplished more Buchanan earned money will be spent in Buchanan, and thus every business house and every property owner will receive material benefit. We pledge our support to any house building plan that may be offered.
