FIRE DANGERS JOHNSON BLDG. ON SATURDAY MORNING Fire which broke out in the L. W. Johnson building on Main street from falling sparks endangered the buildings in that vicinity for a short time Saturday morning until the fire department secured control.

The flames broke out at 8:45 a. m. and were seen at once by people on the street. The fire department made a quick run, and the flames were under control in a few minutes.

Business houses which were endangered were the E. H. Hatton Beauty Parlor and the Johnson second hand store.

MRS. NANCY EVANS AT DIES SUNDAY AT HER HOME HERE

Nancy Allen Evans, 69, died at her home at 406 1/2 Days avenue Sunday afternoon. Mrs. Evans was well known here, having been a resident of long standing. Her husband, who died a few years ago, was night watchman of Buchanan for several years.

FRED HEIMERT DIES OF SCARLET FEVER AT HOME

24 YR. OLD GALIEN YOUTH IS TAKEN BY MALADY YESTERDAY

Freddie Heimert, 24, died at 11 a. m. yesterday of scarlet fever at the home of his parents, Mr. and Mrs. George Heimert. He was the youngest son, and in addition to his parents, he is survived by one brother, Edwin, and by one sister, Mrs. Emily Drier of Three Oaks. The latter is now lying critically ill under the care of two nurses, and has not been notified of her brother's death.

The funeral will be held at 2 p. m. today from the home, with Rev. Louis Kling of Three Oaks, in charge. Burial will be made in the Galien cemetery.

KAZOO GLEE CLUB AT H. S. TOMORROW

The men's Glee club of the Western State college, Kalamazoo, will sing in the auditorium of the Buchanan high school tomorrow beginning at 11:30 a. m. A program of vocal and instrumental music will be given, including selections by a double vocal quartet, solos, string trios, and an eight piece orchestra. Professor Harver C. Maybee is the director.

IDE DE ARMOND DIES THIS MORN AT SOUTH BEND

Miss Ide De Armond, one time resident of Buchanan, died at 2 p. m. this morning at her home at 323 West Colfax avenue, South Bend, where she had lived with her sister, Mrs. Kate Hunt, since the family left here 38 years ago. She had been ill three months with heart trouble.

The De Armond family are well known to the pioneer residents here, having owned and lived in the property at Main and Dewey now occupied by Thomas Burk.

In addition to her sister, Miss De Armond was survived by two brothers, Frank De Armond of Blue Island, Ill., and Charles De Armond of Nevada.

Funeral services will be held here from the Childs' Funeral Home at 2 p. m. Saturday with Rev. H. W. Stayer of the local Presbyterian church in charge.

The regular meeting of the Epsilon chapter, B. G. U. will be held Tuesday evening at the home of Miss Bernice Lundgren, Dewey avenue.

Kazoo Coach Commends B. H. S. for Sportsmanship

A leaf was added to the laurels earned by the Buchanan high school basketball team in the recent tournament series by the following letter from Carl P. Schott, head of the department of Physical Training at Western State Teachers college, which was sent to Principal Ormiston, and read by him before the banquet tendered in honor of the team at the Methodist church.

The letter reads: "I want to congratulate you upon your victory here in Kalamazoo last week. It was well earned and there is no question in my mind but what the better team won. Your team had plenty of drive, splendid spirit, and a determination that was unparalleled in any of the contests here. When there were only three minutes left to play and Buchanan was leading by three points, it looked as if the game was all sewed up. Then this tall guard, who never makes baskets, or rarely ever, shot two long ones from near the middle of the court placing St. Augustine one point to the good with only a minute left to play. This would have been enough to have taken the fight out of any group, but not with Buchanan, as they came back with even more determination. What a game, the last five minutes of that game almost wore me out. It has been years since I got so interested in a game in which I had no particular interest one way or the other except that the better team should win. (We will never forget the way your little No. 1 battled through until the end.) I am certain that all Buchanan is mighty proud of the record that the team has made, and I am sure also that they will give credit to "Shorty" Bradford, who has done such splendid work for you. It was a pleasure at all times to officiate in the games in which Buchanan played. True they made many fouls, but they never complained. At all times the best of sportsmanship was in evidence. It is a great thing to win, but it is even a greater fact to win and play with such sportsmanship."

BUCHANAN AND GALIEN GIRLS IN CAR ACCIDENT

Miss Gale Pears was a member of an auto party which experienced a narrow escape Sunday night, when the Ford roadster in which they were returning from Lansing left the road when the steering gear broke. The gear broke as the car dropped into a rut. The machine then left the road and struck a stump turning entirely over once and landing on its side. The occupants of the car managed to escape through the back curtain and found themselves unharmed. The car was demolished. The accident occurred on M-40 about a mile out of Dowagiac. They were going between 30 and 35 miles an hour at the time. Others involved in the accident were Leonard Hoerner of Lansing and Bonita Wentland of Galien.

Double Golden Wedding is Celebrated by Pioneer Couples

BERL HANSEN SHOWS UP AT HOME OF HIS MOTHER IN CHICAGO

The uneasiness which had been created here by the disappearance of Berl Hansen Sunday night was dismissed Wednesday morning when news came that he was visiting at the home of his mother in Chicago. Young Hansen went to Niles Sunday night to visit at the Vanderbeck home. He left there shortly after midnight and did not return home. Police were scouring this section on the theory of possible foul play.

ANNUAL C. C. DINNER SET FOR MARCH 29TH

FORMER DIRECTOR SESQUI-CENTENNIAL EXPOSITION TO BE SPEAKER

Arrangements have been completed by Secretary Al Charles for the annual dinner of the Chamber of Commerce, to be held Thursday evening, March 29, at the Clark cafeteria, with that caterer among caterers, Quinn Waters, as field marshal of the menu.

The chief feature of the evening's program will be an address on some appropriate subject by Dr. John H. Burns, who served as chief of the Foreign and Civic department at the Sesqui-Centennial Exposition at Philadelphia, and also as state director of commercial organizations in Colorado and Wyoming. Dr. Burns is a noted speaker on civic subjects, and his talk will be worth while.

LITTLE DAUGHTER FAYE STUTTSMAN DIES SUDDENLY

Among the matters of chief interest which were not included in last week's issue, due to mechanical troubles, was the death of little Catherine Louise Stuttsman, infant daughter of Mr. and Mrs. Faye Stuttsman, 408 Days ave., which occurred Monday morning, March 12.

The baby was found dead in its crib Monday morning when the parents woke up about 8 a. m. While it had been suffering from a cold for several days, the parents had no suspicion that its illness was dangerous. Physicians called afterward stated that in all probability death was due to pneumonia which developed suddenly. It was 4 months and 9 days old. The body was taken to Dowagiac and the funeral was held from the home of the mother's parents, Mr. and Mrs. Wilford Castle, and burial was made in a cemetery there.

MRS. E. JOHNSON DIES AT SON'S HOME

Mrs. Emily Johnson, 60, died at 3 a. m. Saturday at the home of her son, 307 N. Portage street, after an illness of two months. Mrs. Johnson and husband, Emil Johnson, lived on a farm three miles northwest of Buchanan, but she was brought to town when she became ill, to be near medical attention. She was stricken with several attacks of paralysis.

Mrs. Johnson was born in Sweden, Nov. 16, 1867. She came to Buchanan 8 years ago from Rensselaer, Mr. Johnson buying the George Hess farm.

She is survived by her husband and several children of whom the following two live here: Ray Anderson, 307 N. Portage and Miss Josephine of the Clark Equipment Co. plant.

A prayer service was held at 9 a. m. at the Anderson home, after which the body was taken to Rensselaer, Ind., for funeral and interment.

J. M. CLARK HONORED AT CORNELL UNIVERSITY J. M. Clark, of Buchanan, son of E. B. Clark, president of the Clark Equipment Co., has been appointed to the Sophomore Smoker committee at Cornell university, according to an announcement made by L. P. Sells, president of the Student Council. This committee has complete charge of the traditional event, which is the most important Sophomore class function.

NEW CITY DADS TAKE OFFICE AT THURSDAY COUNCIL SESSION

All Members of Administration are Qualified for Office by Reason of Previous Experience

The incoming members of the city board of trustees were inducted into the dignities and responsibilities of office; and the outgoing officers returned to the peace and quietude of private life at a special council meeting held Thursday night. Some thoughtful citizen "said it" with a sumptuous bouquet of roses, though whether it was intended as a token of welcome or as an "in memoriam," there was nothing to indicate.

After the short ritual of taking oath had taken place there was a conference while former president, Harry Brown, informed the new members as to some matters of unfinished business. The outgoing councilmen held a short session with the "hangover" members to defray election bills and other unpaid accounts which they were responsible for.

BARRS TO SHOW ROBIN HOOD AT THE PRINCESS

Arrangements have been made by Barrs store to present Douglas Fairbanks' great film spectacle, "Robin Hood," to the children of Buchanan, free of charge on March 31. The Central Shoe company of St. Louis supplies the film, which is one of Fairbanks' greatest screen successes and of immense value from an educational and historical standpoint, to dealers who carry their Robin Hood shoes.

Plenty of protection for the little tots is promised at the theater and parents are assured that everything is being done to insure their safety. Barrs has rented the Princess theater for the performance which will be given at 9 a. m.

A child from the public school will take the part of Robin Hood in an interesting prologue and epilogue to the film. Community recitations will feature the program and souvenirs will be given to every child that attends the show. In addition, several prizes will be offered for the children whose tickets bear the lucky numbers.

Tickets for this excellent performance will be given out at Barrs on Tuesday, March 27. Children who wish to attend this show have only to come to the store at that time and receive tickets free of charge. As the capacity of the theater is limited, the children are urged to come for tickets promptly at the appointed time as "first come first served" will be the policy.

FIRE DESTROYS HOUSE ON PEARS FARM THURSDAY

The fire modern home on the Charles Pears farm on the River road five miles north of Buchanan was destroyed Thursday afternoon by fire starting in a defective flue. Howard Smith, tenant, and family were at home at the time, but the fire had made such progress at the time it was discovered that they were unable to check it, and they devoted their energies to saving the furniture, all of which was rescued.

Calls were sent to neighbors, but all living near had gone to a farm sale, and they were unable to get aid. The loss, estimated at \$6,000, is covered by insurance. A small house on the same farm was destroyed by fire three years ago.

The A. C. Store, which has conducted a men's furnishing business on Days avenue for the past six months, is closing out its stock in a special sale and will leave Buchanan, according to the announcement of the company, by April 1.

DOUGLAS FAIRBANKS' FINEST FILM TO BE SHOWN FREE MAR. 31

Arrangements have been made by Barrs store to present Douglas Fairbanks' great film spectacle, "Robin Hood," to the children of Buchanan, free of charge on March 31. The Central Shoe company of St. Louis supplies the film, which is one of Fairbanks' greatest screen successes and of immense value from an educational and historical standpoint, to dealers who carry their Robin Hood shoes.

GRESS WATSON HOME DAMAGED BY ROOF FIRE

Buchanan had its second roof fire within two days Sunday, when flames apparently having their beginning in sparks falling among leaves in the eaves spout caught the south side of the roof of the Gress Watson home, causing damage estimated at \$200 before being put out.

Mr. Watson had gone from town to a garage shortly before noon, returning at 12 o'clock. As he drew near his home he noticed smoke, and saw the flames on the roof. The fire department was called and made a quick run, turning the chemicals on and soon bringing the fire under control. The building was saved from water damage by the fact that under the shingle roof which was on fire, there is a second older tin roof, which caught all the water, so that it was dipped out without damage afterwards. Several yards of the roof will have to be replaced, including both shingles and rafters.

LOCAL MAN'S SON COMMENDED FOR SERVICE IN NAVY

George McDonald, local builder and contractor, is a proud father these days, no, not that. It's all on account of a son 25 years of age, who has just received special commendation for standing continuous duty for an 18 day shift as a radio operator during the operations of the "battle fleet" of the United States navy, from Dec. 29 to Jan. 16.

Young Elmer M. McDonald is a radio dispatcher on the Battleship Idaho. He enlisted, as a lad of seventeen, and is now starting on his third four year enlistment, with two bars on his service ribbon, to show that he has never been once cited for misconduct during the eight years. He is now taking special work to prepare himself for promotion to naval officers rank.

DOUBLE GOLDEN WEDDING IS CELEBRATED

Continued from page 1

over the state. Monday the news was flashed over the United Press wires to hundreds of papers all over the United States.

The ceremony was fully up to anticipations in dignity and impressiveness. Fifty-two relatives attended in addition to the two couples and all enjoyed a fine dinner at beautifully appointed tables. Cakes for the occasion were baked by the pastry cook at the Central Plaza Hotel in Chicago. The table at which Mrs. Rapp and Mr. and Mrs. Rapp were seated was especially beautiful. Other occupants of this table were the children—Clarence Ranner of Buchanan and Louis O. Ranner of Chicago.

After the dinner was served, the two couples adjourned to the parlor of the home for a ceremony in keeping with the occasion. Rev. and Mrs. Liddicoat had arrived from Buchanan in the afternoon to participate. The two couples stood up together, as they stood up 50 years before. A strange coincidence was the fact that another brother of Mrs. Ranner, William Rapp, of Vicksburg, who had stood with them on the occasion of the original marriage, stood with them again. His wife, who had also acted as witness at the first wedding, passed away a few months ago. Had she lived, all of the original party would have been present except the minister.

The two couples joined hands, and the two ministers present, Rev. R. B. Cilley of Vicksburg, and Rev. Henry Liddicoat of Buchanan, stood in front of them, crossing their arms and resting their hands on those of the two couples, so that a triangle was formed. Rev. Cilley then read most of the marriage ritual, only the "acceptance" clauses. Rev. Liddicoat then rendered a prayer. At the beginning of the ceremony, a wedding march was played by Mrs. Louis O. Ranner of Chicago, and the selection, "Oh Promise Me!" was sung by the same lady.

A musical and literary program was then presented by relatives present. After the program, an open house was held from 4 until 8 p. m.

Many beautiful gifts were received by the two couples, Mr. and Mrs. Ranner receiving \$92 in gold coins, and the home was filled with flowers, some of which came from California by air mail.

Mrs. Bloyd Shire has returned to her work as stenographer in the office of the county highway commissioners at St. Joseph, after spending several days at her home here.

READY THEATRE, NILES

What is no doubt the highest

saluted vaudeville act that ever made appearance in Niles comes next Sunday for one day only in the person of Charley Straight and his famous Brunswick Recording orchestra. You have heard them on the air, you have enjoyed their records and now is the one opportunity to see and hear them in person. They are the headline feature on a big Keith Orpheum vaudeville bill that will no doubt draw a turn-away patronage. In a talk with Manager Templin he said: "It is but another proof that we are striving very hard to give our friends in Niles and surrounding territory the best—not only on the screen, but clean certified stage entertainment the equal or better of any talent offered hereabouts. The response of our neighboring cities and rural friends has been great and we are certainly grateful to all of them. However, I would warn all those to whom it is convenient, to attend the Sunday matinee afternoon shows for the patronage assured for this big attraction will be so great I fear will not be able to care for the Sunday evening crowds. But as always in the past—we will do our best. The Ready theater, under W. S. Butterfield's guidance, has become the talk of the St. Joe valley because of its splendid entertainment and its clean, cozy, welcome environment."

RECORD LINERS PAY

How Does a Checking Account Earn Its Way?

That is a question we are often asked—and the answer is an interesting one. The cost of extending the checking privileges is met by the ability of the bank to safely loan a part of the average balance maintained by the customer in his account.

For instance, a bank cannot loan all of its deposits. A conservatively managed bank usually loans 80 per cent of its deposits and holds the other 20 percent in reserve in cash.

In other words, in the case of a \$100 Checking Account the bank would loan \$80 at an average of 5 per cent interest which would create an income of \$4 per year. And out of this \$4.00 it would pay its expenses.

Obviously there is a figure below which the balance cannot earn sufficient income to offset the cost of checkbooks, statements, clearance and general bank operating overhead.

But, here in Buchanan, we have found that most all of our depositors endeavor to be fair with their bank and do not abuse the checking privilege by depositing one day and withdrawing the next. They usually maintain a fair average balance.

COLORS radiant as the Rainbow

Spring beckons! And Buick owners will greet the season in cars which take first place in rich, alluring beauty.

Gloving colors—colors that rival the exquisite hues of the rainbow—colors as distinctive as the fleet, low lines of Buick bodies by Fisher.

Not only in beauty, but in performance, too, Buick leads the way. Its famous Valve-in-Head six-cylinder engine provides the thrilling abilities so highly desired on tempting Spring days.

Visit our showroom and see the most colorful cars Buick has ever built. Their beauty will captivate you—and a demonstration will make Buick your choice.

What do you look for in a car... a single emphasized element such as style... size... performance? Such as comfort... stamina... price? Or do you look for that combination of qualities called value? If you prefer a "one-sided" car we haven't got what you want. But if value comes first, you'll choose an All-American Six.

For here is style attained only in bodies by Fisher. Long, low lines. Smart colors. Grace, poise and swank. Here is size that results from 117 inches of wheelbase... and from Fisher construction famed for scientific distribution of space.

Performance from a whispering brute of an engine... 212 cubic inches in displacement... with a 79-lb. crankshaft and the G-M-R cylinder head. Speed... power... snap... and flexibility. An All-American change of pace.

Thus this General Motors Six leads its field in value... providing everything that everybody wants. If you're going to buy a car for what it will give you, come in and see the All-American Six.

Special Sport Equipment Available on all body types: six wire wheels with tires... special front fenders with tire wells... special tire locks and locking rings... collapsible trunk rack... \$100 extra on open cars... \$110 on closed cars... six disc wheels with same equipment, \$75 on open cars... \$85 on closed models.

CHEVROLET

Genuine Duo Finishes
All Chevrolet models are finished in modern shades of genuine Duo—the original, modern motor car finish which does not check or crack and which maintains its lustrous new car beauty indefinitely.

Crankcase Breathing System
A ventilating system which clears the crankcase of vapors prior to condensation, minimizes oil dilution, and adds materially to the long life of the motor.

AC Oil Filter
The crankcase oil that is circulated by the self-priming pump is constantly forced through an AC oil filter which strains out dirt and foreign material, thereby increasing the life of all moving parts inside the motor.

AC Air-Cleaner
An AC Air-Cleaner is another motor safeguard which removes dust and grit from the air drawn into the carburetor—a modern feature which adds to car life and operating efficiency by reducing internal wear.

Semi-Elliptic Shock Absorber Springs
Comfort and safety over all roads is assured by Chevrolet's semi-elliptic shock absorber springs set parallel to the frame. These are 84% as long as the wheelbase and are made of fine chrome vanadium steel.

Safety Gasoline Tank
All Chevrolet models have a safety gasoline tank in the rear and a vacuum fuel system, which assures positive gasoline supply even on the steepest hills. The tank is protected by a heavy steel cross-member and is provided with a gasoline gauge.

Adjustable Valve Tappets
The improved valve-in-head motor of the new Chevrolet has adjustable valve tappets—a feature which assures continued motor efficiency and quietness and prevents gradual loss of power and acceleration as the car is used.

Rugged One-Piece Rear Axle
The rear axle of the Chevrolet is a unit proved by millions of miles of use. The differential mechanism and side gears are securely mounted, while the housing is the one-piece type fitted with an inspection plate for convenient, inexpensive adjustment.

"Invar Strut" Pistons
Constant clearance alloy pistons, designed with "invar struts" in each, make the Chevrolet motor smoother, snappier and more powerful. The costly "invar struts" minimize expansion and contraction, permitting close fitting pistons to insure quietness and efficient operation.

Ball Bearing Steering Gear
The new Chevrolet handles with marvellous ease and surety for the worn and gear steering mechanism is fitted with ball bearings throughout, even at the front axle knuckles.

Non-Locking Four-Wheel Brakes
The new Chevrolet's emergency brake Chevrolet's four-wheel brakes were developed in cooperation with General Motors engineers. They are non-locking, have an area of 189 sq. in., and are separate from the emergency brake.

Embodiment of every modern feature of Advanced Automotive Design!

The Bigger and Better Chevrolet embodies every modern feature and completeness of detail demanded in the world's finest motor cars.

No matter what price you pay for an automobile, you cannot buy more modern design, more proved performance or more advanced engineering. Every unit of this remarkable car has been developed by engineers and scientists who are specialists in that particular technical field, and its quality, stamina and performance have been proved by tens of thousands of miles of testing at the General Motors Proving Ground!

Come in and see for yourself! The more you know about engineering—the more quickly you will be convinced that here is quality in design, materials and construction never before available at such low prices!

**PLAINWELL NOSES OUT BUCHANAN
IN 1ST ROUND OF TOURNAMENT**

**PIERCE AND MORSE CHOSEN
ON SECOND STATE
TEAM CLASS C**

Buchanan's fast finishing basketball outfit was caught slightly off balance, after going strong for five straight tournament games and bested by the Plainwell five in the first round of the state elimination at Northwest, era high, Detroit. The score, 25 to 28, rightly indicates the class game that was played.

Though the affair last Thursday evening did not show the Maroon's playing basketball equal to the high standard which they had achieved at Niles and Kalamazoo, yet they were not playing a poor game either. Buchanan had control of the ball its full share of the time but were unable to make good on actual tries at the net while the Plainwell crew seemed to possess an amazing ability to hit the hoop from almost any angle.

Even with Dame Fortune seemingly on the side of the upstarters, the contest was as close as anyone could wish to have it. Whichever team was favored with the final gun was to be the winner and had the game lasted 30 seconds longer, no doubt B. H. S. would have gone into the semifinals instead of Plainwell.

Plainwell took a two-point lead in the first minutes of play and was able to hold it thru the entire game. The score was 5 to 3 at the quarter, 14 to 12 at the half, 19 to 17 at the third and this lead was also retained by them during the final period.

Fourteen of the 23 points were secured equally by Pierce and Morse. These two men were given honorable mention on the all-state class C squad and though they were unable to make the first team they are considered second best of the state in their class.

Desn was the big gun of the opposition. Buchanan lost to an excellent team which is a consolation and one might say that Plainwell won because they were "Playin' well."

Hopes are high for another championship five next year. Nearly the same squad will return to B. H. S. next fall.

spend the week ends in New Troy. Mrs. Fischnar has the sympathy of the members of the faculty and also of her many friends here in Buchanan.

Mrs. Heim entertained the grade teachers last Thursday afternoon school in her room by putting on a reading demonstration, using regular fourth grade material. Her class of third graders handled the work very well. Later Mrs. Heim served delicious refreshments.

Dee Weaver, a member of the Junior High had a painful accident last Saturday near his home on Alexander street. While playing a stubble or twig entered his knee cap and before strict measures could be taken, it is feared a considerable amount of joint fluid was lost. Dr. Wallace succeeded in reducing the pain after taking an x-ray. Dee is also suffering with an ear affliction.

Marjorie Campbell and Charlotte Arnold went to Glendora Friday to help on a program given by the P. T. A. for the younger pupils of the school.

This week the kindergarten is making a flower garden, turning the soil and seeds in the enclosure used heretofore as a sand table.

Miss Conant enrolled Lillian Hartline in the kindergarten this week.

Several pupils are absent from the primary grades. This means much to these little ones. The work is now fairly well advanced and each day's absence tells heavily on their final grade.

Mrs. Wilcox, teacher of the second grade is using for her language work the interesting subjects of birds and flowers.

Miss Milburn, much to the delight of her first graders, took pictures of the sticking dolls made by her little ones Monday. The dolls not completed were left until some future time.

Easter rabbits are being made and pictures drawn by the second graders this week under the supervision of Mrs. Stark in Mrs. Fischnar's absence.

The fourth grade has begun to

write news and editorials for our newspaper which we will print following spring vacation.

The children are reviewing and writing mid-semester examinations. They are looking forward to spring vacation so are working hard.

Those who received a grade of 100 in Spelling examination were Maxine Barnes, Dorothy Brown, Helen Liddicoat and Virginia Walter.

The 4th grade boys and girls, taught by Mrs. Fuller, are keeping a bird calendar, writing the names of the birds seen and when they arrived from the southland.

The 4th grade girls won by having a higher per cent of perfect spelling records than the boys last week.

Miss Hopkins reports 14 one hundreds in the mid-semester test in Spelling.

Some interesting work has been done in Miss Hopkins' room in paper tearing. Flowers and letters have been made by this method.

A beautiful picture done in oil by Miss Abell, teacher of the 6th grade, has been finding its way around to the different rooms

this last week. This picture was copied from the cover of a Literary Digest and consists of a sunset in the gloaming, with the shepherd and sheep in the foreground, slowly winding their way toward the fold.

TO THE VILLAGE FIRE DEPT.

We wish to extend hearty thanks to fire chief, Tenny Bunker, to the other members of the fire department, and to the many friends who aided us on the occasion of the fire which threatened our home Sunday, March 18. Mr. and Mrs. Cress Watson.

GRADE NEWS

Our last Palmer report showed that the following had won improvement certificates: Dorothy Bailey, Marie Maxson, William Zachman, Gerald Hemphill and August Topash.

Mr. Norton visited us again last week. He gave demonstrations in three rooms, using phonics drills and simple number combinations. Mr. Norton is from Kalamazoo, but is now making different schools in the state in the interest of the Beacon system.

Mrs. Fuller and Miss Clayton, our two fourth grade teachers, spent a day last week visiting in the Dowagiac schools.

Our combined efforts have reached nearly the \$5000 mark in the school saving account. To date we have \$4877.56 to our credit. Interest last week amounted to \$28, and our last pass book was numbered 4571. We hope the parents understand how much their encouragement helps this effort on the part of both pupil and teacher.

The topic of the day is, "Was it easy?" This applies to the tests given this week all through the grades, including the Junior high.

One day last week, Robert Montgomery brought to history class a Confederate bill, valuation \$100. This bore the date of July 28, 1862, and was in a splendid state of preservation.

John Nelson from the Citchell district entered our Junior high Monday, bringing the enrollment up to 151.

Last Wednesday night the 8th grade girls trimmed the 7th grade girls in basket ball to the tune of 16 to 6.

The primary grades are making use of the pussy willow project in language work as well as in numbers.

Mrs. Stark taught Monday and Tuesday for Mrs. Fischnar, whose aunt passed away last Sunday morning in New Troy. Just a short time ago Mrs. Fischnar lost an aunt, sister to the one who passed away Sunday. The three ladies had lived together for some time in the New Troy home. Mrs. Fischnar, when in Buchanan, makes her home with Mrs. Ruth Roe, but has been able to

NEW FRUITS FOR AMERICA

Expert scientists from the department of agriculture at Washington have traveled through many foreign countries hunting plants and fruits that might be brought to this country and grown here.

Among the fruits in the experimental garden are: the kappel tree fruit, a native of Java; the lack fruit, relative of the bread fruit, which grows to 25 pounds in weight.

In addition to the list of fruits scientists have brought a number of plants for experimental tests in the gardens, trees from tropical forests, bushes that bear their annual crops, and a number that have important chemical qualities with which the scientists want to make a series of experiments.

THE HALL OF SHAME

No crime wave this country ever has had has been as dangerous to governmental and public interests as the debauchery wave in public life that has been in evidence in recent years in many states.

That is the conclusion of Prof. Gulick, who is directing the National Institute of Public Administration at Columbia University. He has made a national survey of disservice and debauchery in all branches of government, declared that faithlessness is in evidence in cities and states covering half of the country.

The willingness of men to take graft, directly and indirectly, has been made so plain that the situation, the professor says, is one to arouse, even alarm, the thoughtful citizen.

He found many instances of laxity and unwillingness in the enforcement of law, even against those known to be guilty of wrongdoing against the public. He looks to the oil exposures under way at Washington as promising good results.

It was not a pleasant picture he painted, was an ugly story he told, but both are true to life and in harmony with the facts. They may be kept in front of the nation so long as the voters are careless in the selection of officials or too indifferent to take part in the nomination and election of men to run their departments of government.

THE PUBLIC SCHOOLS

Dr. Henry Van Dyke says there comes to him a feeling of great joy when he hears that his books are being used in the work of the public schools, or read by school children. That is the field he would choose first of all in which to have his books circulated.

Youngsters meet there, for the first time outside the home, guidance and direction, leaders and instructors. There they receive their first training for life, those important lessons, outside book knowledge.

It is there, he says, that the children of American parents learn to see and know and understand, to conceive, bring forth, recognize and follow a native aristocracy of leadership.

In recent articles for educational magazines he has written a critical review and spirited defense of the public school system. He terms the schools the developers of democratic aristocracy, admits their imperfection at places, can understand they are overloaded with non-essentials where a leader has given way to unwise enthusiasm, but insists the schools, as they are, are worth far more to the country and to all republics than fort- and navies.

FIGHTING THE CORN BORER

Members of the appropriations committee of the house at Washington were told recently that the department of agriculture had abandoned all hope of eradicating the corn borer and would give all efforts to a campaign to minimize losses from that source.

There is a difference of opinion among agricultural leaders in Michigan and other states where the borer has been doing damage. When the federal government outfitted its army of workers last year for the campaign against the borer, equipment was purchased in a wholesale manner and indications pointed to a campaign over a term of years.

Scientists have insisted the actual elimination of the corn borer is a task surrounded with tremendous difficulties. But they have been firm in insisting that active work can be done and the pest held within limitations. The borer threatens an important food crop, its operations are of public importance.

Tolerance is the watchword and we should never condemn a fellow creature for falling from grace without giving full consideration to all the circumstances, and we often wonder as we lie awake at night listening to the howling, if the way the cats carried on all the time he was at sea didn't account in a large measure for the amazing number of drinks old Noah seems to have taken in quick succession shortly after landing.

While we accept the germ theory in a general way, we often think the danger is considerably exaggerated and the little girls are chewing one another's gum and the big girls are using one another's lip sticks and most of them seem to have pretty good health.

A middle aged man often finds himself wondering if the girls of his day were really better looking than the ones he sees now or if the latter would be just as pretty if they had all their clothes on.

Our thoughtful government is going to reduce the size of the \$1 bills first and maybe we can still make it look like we had quite a roll, if we can get hold of a five for the outside.

We have no idea when it's going to happen but we feel pretty sure that the development of the installment plan will elect a Democratic president sooner or later.

Middle age is that period in life when you don't look nearly so well in your new spring suit as you thought you were going to.

Charles A. Lindberg impresses us as a young man who wouldn't care very much about whether his socks and tie matched or not.

Our personal taste in social circles inclines to the kind that refers to making a faux pas as pulling a bond.

MEN MADE OF METAL THE GENEROSITY OF NATURE PLANT IDLE? CERTAINLY. A GOOD ITALIAN LAW.

R. J. Wensley, inventor of a mechanical man that unveiled a statue of George Washington, believes that men made of metal will liberate us from industrial slavery, as Washington liberated us from European tyranny.

Workers need not fear that metallic "robots" will ruin the labor market. Long ago mechanical men and women made their appearance in machinery of all kinds, driven by steam and electricity. One machine does the knitting for ten thousand women, one locomotive pulls the load of a thousand stage coaches, replacing 1,000 drivers.

The perfected machine will not be an imitation man standing upright on two legs. That position man achieved to look out over high grass for enemies and prey, in the beginning, and to look up at the stars later.

From a big orange tree in Southern California the Riverside Chamber of Commerce sends 126 oranges to as many newspaper editors. The tree is one of the two imported from Brazil by the United States Department of Agriculture.

Similarly, a few cherry trees, brought by Lucullus from his wars in Asia, are the ancestors of millions of cherry trees that small American boys climb every year. Such are the wealth and generosity of Nature.

Mr. Rogers at Muscle Shoals inspects with his mournful cowboy eye a \$150,000,000 plant

built by the people to produce nitrogen to supply cheap fertilizer for farmers, and explosives in case of war.

Mr. Rogers remarks that such a plant lying idle is enlightening. It means that the Government isn't quite ready to deliver the plant over to the power trust.

And until the power trust gets it, that trust won't let anybody else use the Muscle Shoals plant.

Thanks to Mussolini's common sense, a new law compels merchants in Italy to mark prices plainly and stick to the prices. That will increase foreign buying, especially by Americans, who do not like to pay double or devote half an hour to bargaining over a trifle.

Merchants in Italy won't like it, but their business and prosperity will increase.

Machinery will be devised eventually to do the so-called back-breaking farm work that proud

United States citizens, no longer will do. But nothing should be done so suddenly, unless the Government is willing to precipitate hard times over a wide area.

Newspapers tell of a baby "dead ten times." Ten times in its short five weeks of life the baby's heart stopped beating in a struggle against pleuro-pneumonia.

ja. Ten times it was revived and it probably will live. The doctors did wonders.

There is just a line about the mother. Still weak, following the baby's birth, she gave her blood in transfusion to save her baby's life. Her name is Mrs. G. E. Olmstead, and what she did ten million mothers would do, gladly.

CITY OF NILES IS NAMED AFTER FAMED NEWSPAPER

The interesting reproductions of Niles' Register as shown in Tuesday's issue of the Daily Star doubtless brought to mind many bits of early history for the "old times" residents of this community. But there are not many in the St. Joseph valley now who can remember back for 94 years to 1835. Even the tales and traditions as told by our pioneer fathers are now more or less vague.

Here is a picture to hold in mind. Back in 1835, Niles had only recently taken on a new name. For years and years it had been known along the river and lake routes of transportation and on the Indian trails as Pa-ating, the Big Ford, then as Carey and finally as Niles.

The naming of our city in honor of the editor of "Niles' Register" of Baltimore came about in 1829 when S. B. Walling and Elijah and Ephraim Lacey purchased the land on which the present city is situated from a William Justice, who in turn had purchased it at a government land sale held at Monroe, Mich., the previous year. The first piece of land sold out of this new plot went to Alamanzo Huston who erected a tavern upon it.

In 1835 the new village of Niles had its first newspaper, a weekly edited by H. Barnes and known as the "Gazette and Advertiser."

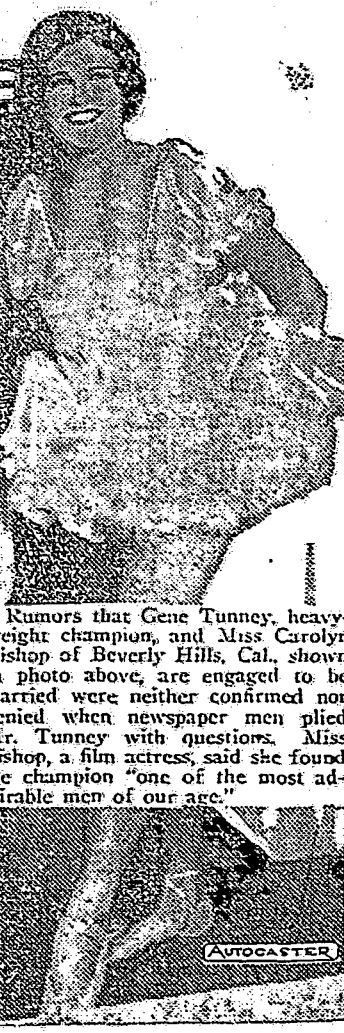

Holding court was an event in those days. A justice of the supreme court of the Territory of Michigan came to Niles once a year and held forth until the difficulties of the whole community were settled.

But to get back to the article in "Niles' Register" about the new town which had been named for the editor: Mr. Niles replies to his friend, the editor of the Steubenville Herald, that he had heard with pleasure that "the town of Niles is in a very prosperous condition and inhabited by a highly respected population—owing to its own happy location and to the spirit of enterprise that belongs to its worthy inhabitants."

Surely the editor of the Niles' Register was a true prophet. For a certainty it has been "its own happy location and the spirit of enterprise that belongs to its worthy inhabitants" that has brought Niles to the front rank among the important municipalities in the great state of Michigan.—Niles Star

PRINCESS THEATRE

Good citizens laugh often, remarked a sage long ago. They get their funnings tonight and tomorrow at the Princess theatre. For four characters a dozen complications and a veritable hurricane of fun make up the details of "Baby Mine," the second hilarious vehicle for the comedy team of Karl Dane and George K. Arthur, who were hurled to fame by a gale of merriment that greeted "Rookies."

"Baby Mine" is just one guffaw after another. Besides the great fun-making duo of stars, they have with them Charlotte Greenwood, lanky comedienne of "So Long Letty," and other famous stage shows. It is her debut on the screen, but the laugh she gets insures it will not be her last start by a long shot. The play is solely to make people laugh, and it does. There's not a serious instant in it.

Lovers of Westerns will be delighted to see their old favorite, Hoop Gibson, the ace of riding stars, who comes again to the Princess Saturday in a new feature, "Gallop and Giddy," which has all the earmarks of being Gibson's best to date. Peter B. Kyme wrote the story, and it was published under the title, "The Tidy Toreador." The play was directed by Reeves Eason, made famous by directing the chariot race sequence in "Ben Hur," one of the most thrilling of scenes ever filmed. In the cast are such notables as Otis Harlan, Sally Rand, Pewee Holmes. The picture will appeal to the lovers of strong drama, as it is much more than a mere western.

Sunday brings Lew Cody and Alleen Pringle in "Wickedness Preferred," a brilliant comedy. Dull husbands learn from this story. If your circulation is a

little sluggish you will find a good remedy in seeing Al Wilson Monday in "Sky High Saunders."

Two Arabian Knights, brings one of the screen's most popular actors, William Boyd, with Mary Astor and Louis Wolheim. The two doughboys forget the war and indulge in a private scrap and are captured, which brings out intense American humor—the crystallization of native wit, resource, daring and paradox.

Wolheim was the original Captain Flagg in the stage play, "What Price Glory," and appears as the hard boiled army sergeant character with Boyd, the other of the two "Knights," who loves adventure most heartily, and leads the sergeant into a series of amazing escapades in France, Germany and Arabia. Although it is a post-war picture, most of the war is left out.

TWO MORE BOY SCOUT TROOPS IN PROSPECT HERE
Scout Executive Charles F.

Spur, of the St. Joseph-Benton Harbor region, is optimistic that two more Boy Scout Troops may be organized at Buchanan soon, one at the Church of Christ, where there is a large number of boys of eligible age, 12 to 18, and the other at the Evangelical church, where Troop 42 was formerly located, but was given up, because no leader could then be found, the troop now being at the Presbyterian church, but without a Scoutmaster as yet.

BOY SCOUT PLANS FOR NEXT SUMMER

The Boy Scouts of Troop 41 are preparing for an active spring and summer. Five new applicants for the Tenderfoot rank are preparing for their first examinations. Plans are being made for each member to start a camping savings account, in order that each one may have enough money saved up from his own earnings for the two-weeks of training under specialists during the summer vacation.

In Death's Shadow

Julia Palmer McDonald, former Mount Vernon, N. Y. debutante, is under sentence of death together with her husband, George McDonald, for the murder of a Montreal taxi driver.

BENJAMIN FRANKLIN FISK

Benjamin Franklin Fisk was born one mile east of Buchanan, on what was then the Elijah Plattis farm, on May 21, 1840. He was the oldest child of David and Lucinda Plattis Fisk, and one of a family of eight children, five daughters and three sons. At the age of 15 the left limb was amputated near the hip, which incapacitated him for many kinds of labor. He taught school in his younger years, near Buchanan.

He was married to Amanda Bacheller July 1, 1874; the ceremony being performed by the late Rev. Bartmess.

The wife still survives. He has outlived his entire family, save one brother, C. L. Fisk, of Portland, Oregon. He was very much in love with his violin and up to the last few weeks was able to recall with much enthusiasm the tunes of long ago.

He has been an invalid for many months, even years, gradually losing his hold on life, and found the rest

that remaineth on Sunday morning, March 11, 1928, at the age of 87 years, nine months and 20 days.

He served Buchanan village and township in offices of trust and responsibility, was always to be found on the side of right and a staunch defender of justice.

There remain to mourn their loss a few nephews, nieces, and a great many friends.

The funeral service was conducted at the home on 405 Days avenue, by Rev. H. Liddleat. The deceased was laid to rest by the side of his father in Oak Ridge cemetery, March 13.

It is a tender and comforting thought that after the wanderings of this earthly life, those of one family can rest together, till the glad day of God's time. After a long and kindly life he sleeps well.
