

Now Here's the Proposition

THE HOUSING SITUATION

It's a sin and a shame and an aggravation. The present status of the housing situation.

Not a hut or wigwam for a heart to throb in. Though you want to nest with the nesting robins.

SMALL OUTLAY WOULD TURN EYESORE INTO A SUNKEN GARDEN

With but a little outlay of expense and energy Buchanan might possess a little gem of scenic beauty in the heart of the town.

We mean the vacant lots between the Indiana & Michigan Electric building and the Hotel Rex. Here is a plot of ground possibly 200 feet wide and twice as long.

To clean out this debris, to plant the ground, to lawn grass, to erect seats when the lawn developed, would mean the outlay of comparatively few dollars, plus a little energy.

MRS. TWOMBLY TRIES RUSE TO SECURE ALIMONY

LEGAL ENTANGLEMENT BLOCKS CONSTRUCTION OF PORTAGE ST. PAVING

Failure to Provide For Financing Extra Ten Feet Is Bar

OFFICIALS HERE TODAY Contract Let on Project is Announced to Be Null and Void

What may prove to be a monkey wrench of some magnitude was thrown into the legal machinery of the Portage street paving through Buchanan last night.

The council was informed that if the legal formula of engineering plans, calling for objections, advertisement and creation and assessment of special district had not been provided for, the contract which was let was null and void insofar as the additional ten feet through part of the village is concerned.

Action was taken by the council to provide for the creation of the special assessment district and the spreading of the tax rolls preparatory to the installation of storm and sanitary sewers on Third and Portage streets, as defined in resolutions previously printed in the Record.

The only Easter Cantata presented this year drew a capacity congregation that filled the auditorium of the new First Presbyterian Church at the Vesper services Sunday afternoon.

An unusual feature, which commends itself as a permanent institution, took place at the conclusion of the church school session when each member of the school was given a living plant in token of the living Christ.

At the morning services the rite of baptism was administered to Jacqueline Valley and Joan Elizabeth, twin daughters of Mr. and Mrs. Cayo, of Benton Harbor.

The church was very prettily decorated with great palms and a profusion of Easter lilies, with smilax and other harmonizing flowers being worked into the decorative scheme.

A ringing speech by "Denny" Alward, native of Niles, secretary of the state senate and chairman of the State Central Republican committee. Alward predicted a sweeping Republican victory in the fall election throughout the nation.

JOHNNY HOEKSTRA WINS BY KNOCKOUT AT BENTON HARBOR

Johnny Hoekstra of Buchanan continued on his way to the welterweight title by the K. O. route when he laid Kid Kile of Mishawaka in the arms of slumber in the first of a scheduled eight round bout at Benton Harbor last night.

The sleeping potion was administered in the form of a one-two consisting of a hard left that rocked the Indian, followed by the right across to the jaw.

Ted Meyers of Grand Rapids, was scheduled to meet Hoekstra, but he developed pneumonia a few days ago, and Frank Kolski of the same city was substituted. But while en route to Benton Harbor for the fight, Kolski landed in the hospital with two broken ribs incurred in an auto wreck. Kyle was placed on the program as a pinch hitter at the last minute.

The Win-Won Sunday School class from the Niles Evangelical Church came in a delegation and spent Monday night at the skating rink.

AN APOLOGY

The new management of The Record wishes to offer an apology to their readers and contributors for the unintentional omission of various news and paid items last week. Because of the lack of familiarity with the mechanical details of the paper the layout did not include enough pages to accommodate all the news and paid notices received.

BONES OF IRATE SUBSCRIBER FOUND UNDER FLOOR

PRIVATE GRAVEYARD OF FORMER EDITOR IS DESECRATED

While excavating beneath the floor of the Record print shop in order to lay a concrete base for a Kelly Press, C. L. Wilcox, local cement man, unwittingly chanced upon the private cemetery of a former Record editor. Beneath the 50 year old floor Wilcox found a pile of bones resembling, in point of size, the bones of a human.

A Buchanan doctor, to whom the bones were taken for identification, stated that the joints were unlike those of a man, and that to the best of his belief the bones formerly belonged to a mule. "We must reject this theory from the fact that there is no precedent for the burial of a mule under the floor of a print shop.

LOSES FINGERS PLAYING WITH DYNAMITE CAP

Russell Dillavoux Blows Part of Hand Off Sun. Morning

Russell Dillavoux, 12 year old son of Mr. and Mrs. James Dillavoux, lost three fingers and part of the thumb from the left hand about 9:30 a. m. Sunday, when he exploded a dynamite cap which he was playing with in the kitchen of his home five miles northwest of Buchanan.

The boy had found the caps while playing on the premises of the Harry Place farm a half mile away. Place had laid in a supply of the caps while engaged in road work several months previously.

The mother saw the boy rubbing a match on the stove and asked him what he was doing. He told her that it was a burned match. Apparently the boy held the charred stub on the stove until it was hot and then inserted it into the cap, touching it off.

W. H. HARNER DIES FRIDAY AT HINCHMAN

W. H. Harner, 82, the father of Mrs. William H. Camfield, wife of the pastor of the Buchanan Evangelical Church, and one of the best known of Berrien County pioneers, died in his home in Hinchman, in which he had lived for 60 years, of bronchial pneumonia following an illness of several months. He was born in a log cabin near the present homestead, the son of John Harner, who came to Berrien county in 1830 from Pennsylvania, one of the county's first settlers and who cast ballots in Lake township's first election, in 1846.

Mrs. Harner, age 81, is in a very serious condition caused by shock and over exertion in caring for her husband in his last illness. The couple celebrated their 61st wedding anniversary last June, at which the entire community joined. The annual Harner-Feather family reunion is one of the county's big social events.

Surviving are the widow and the following children: Mrs. Geo. Sautter, wife of the county drain commissioner; Mrs. William H. Camfield, wife of the pastor of Buchanan Evangelical church; Mrs. June Caldwell, of Benton Harbor; Luther, of Berrien Springs; Joshua, of Hinchman; Mrs. George Stem, of Benton Harbor; and Mrs. George Moyer, of Berrien Springs.

MRS. CHARLES FRENCH OF PORTAGE PRAIRIE DIES LAST NIGHT

Mrs. Charles French, 34, died at 10 p. m. last night as a result of an illness of a month with Malta fever, complicated it is believed, with late developments of pneumonia.

She was born March 12, 1894, the daughter of Mr. and Mrs. A. J. Miles, in Day County, S. D. She came here with her parents when she was thirteen years of age. Here she married Charles French, and they made their home on a farm on Portage Prairie, a mile and a half south of Buchanan. A week ago she was brought to the home of her mother, Mrs. Nora Miles, 208 West Fourth St.

She is survived by her husband, by two daughters, Florence, aged 9 and Barbara, aged 5; by her mother, and by two sisters, Miss Mabel Miles, and Mrs. Earl Beck. Her father died eight years ago. The funeral will be held from the home on the farm at 2 p. m. Sunday.

BOY MALEFACTOR IS ARRESTED ON ANOTHER CHARGE

Alva Moss, 19, a juvenile delinquent of some previous reputation in Buchanan, was placed under arrest Friday by officer Fred French on a charge of assault and battery and was tried before Justice of the Peace Al Charles that evening, the evidence being found sufficient to bind him over to the district court, in spite of his plea of not guilty. He was taken to St. Joseph the same night by French and turned over to the authorities, who committed him to the county jail, from which he had been paroled a short time ago after conviction on a theft charge.

In the later commitment, he was accused of having repeatedly assaulted a younger and smaller boy who lived in the same neighborhood, finally carrying his offensive tactics to the point where the relatives of his victim intervened.

Twin City Growers' State Most Damage Done 2 Weeks Ago

APPLE CROP IS UNHURT

Wheat Crop Near Buchanan Good; Poor Over Most Of County

Elberta peaches, comprising by far the heavy end of the marketable peaches of the district were damaged possibly to the extent of 75 per cent by freezing temperatures of the past two weeks, according to reports from growers both here and at Benton Harbor.

The Stearns and Rochester and other harder varieties are unaffected, as are also the apple crops. Plums are considered as a doubtful quantity.

Alfred Hall, local apple grower, stated that his apple crop was not apparently affected. His orchard was visited last week by County Agent Lurkins and by Professor Petit, state entomologist, from Lansing, in search of traces of the European red mite, which is reported to be a menace in orchards of the county for the first time. Petit stated that he found only a few eggs of the European pest here, but that there were considerable manifestations in central and northern Berrien county.

A number of the Clover red mites, a related species, were found in the Hall orchard, but they are not so hard to combat. An oil emulsion is recommended for treatment.

The wheat crop in the immediate vicinity of Buchanan is reported as being promising, especially in case of the plantings made at the proper time during September.

Outside of a radius of a few miles from this city, the wheat is practically in the same condition as over the state, where the April prospects are reported as being the worst in the past ten years, due to lack of snow blanket and too much successive freezing and thawing during February and March. April wheat is reported to be 74 per cent over the state, as compared with a ten year average of 84.

Alfalfa around Buchanan, has been badly damaged by the same conditions, many of the fields being heaved so that the roots are lying exposed.

Wages being paid in Michigan for hired farm labor are practically the same as a year ago. Wages by the month were \$43.75 with board and \$58.75 without board. By the day the wages were \$2.50 with board furnished and \$3.20 without board. Farm laborers plentiful throughout most of the state this spring, but wages demanded are still higher than many farmers can afford to pay.

This cup has been furnished by the Buchanan State Bank, to be given annually to the member of either association whose herd tests best, with the provision that in case any dairyman wins it three years straight, he may retain it. To date no dairyman has won it even two years in succession.

All members of both associations and their wives are urged to be present, and a cordial invitation is likewise extended to anyone interested in cow testing association work.

An advance man representing the W. J. Long Construction Co. of Chicago was in Buchanan last week securing lodging reservations for 14 men, preparatory to beginning work on the contract for paving Walton Road from the Michigan central Crossing in Buchanan to the River Bridge, which they were awarded by the Road Commissioners in their meeting held at the John Wynn filling station on U. S. 31, March 30.

The W. J. Long Company secured a contract for the construction of that unit, comprising 1.40 miles, concrete base and asphalt top, for the sum of \$60,399.60.

The Gross Construction Company of LaPorte was awarded the contract for the remaining 4.25 miles of what is known as the Walton Road construction project, from the River Bridge to the Wynn filling station for \$82,400, to consist of macadam paving.

The W. J. Long Company plan to lay the concrete on the south end of their contract soon, to aid the Gross Construction Company in handling their crushed rock from the Railway. They will be delayed on the paving through town until the village can install the storm and sanitary sewers.

FILM BASED ON BARRIE PLAY AT PRINCESS TONIGHT

A great story and a great star, Marion Davies, are presented together in "Quality Street" the attraction at the Princess tonight and Friday. "Quality Street" is one of the most lavish films of the season and is based on the Sir James Barrie stage play which Claude Adams made famous on the American stage. Conrad Nizel plays the leading male role and the supporting cast contains many names rarely seen in minor roles.

Dog pictures always hold a particular appeal to children and what appeals to them usually proves equally as entertaining to the grown-ups. "Dynamite" a full blooded Belgian police dog plays the leading role in "Fangs of Destiny," the attraction coming Saturday afternoon and night, which by the way contains all the melodrama, action, thrills, suspense and heart interest that can be transposed to celluloid out of glassible story and plot.

Sunday night will be long night with R. G. Wodehouse, the early magazine sensation "The Small Bachelor" brought to the screen with winsome delightful Dorothy Kent in the leading role, supported by Anne Bangor, Lucien Littlefield, Vera Lewis, Gertrude Astor and others. Yes,

it is a whirl of good natured fun based on a bachelor's efforts in making the girl he loved and shaking the girl who claimed he deserted her with more funny twists than a corkscrew.

Tom Tyler and his pals, Little Frank Darrow, the pun and the horse are coming Monday in a fast moving, entertaining western entitled "Tom's Gang." An increasingly popular cartoon strip with Oswald, the lucky rabbit and the exceptionally exciting serial, Blake of Scotland Yard make up the evening's entertainment.

Gene Stratton Porter's greatest story "Freckles" starring Hobart Bosworth, John Fox, Jr., Eustace Jensen and Gene Stratton is being presented on Tuesday and Wednesday Love Javel of rank. Love-untiler of dreams, love—inspiration to mighty deeds of empire, to triumphs of imagination, is the theme, the song, the burden and refrain of this wonderful book that has been read by over ten million people. Whether you have read the book or not you will want to see this thrill-edged, breathless drama of youth winning its way to love and happiness.

Millions of Model T Fords are still in active service

FOR nearly twenty years, the Model T Ford led the motor industry and it still is used by more people than any other automobile. More than eight million Model T Fords are in active service today—an indication of their sturdy worth, reliability and economy.

Because of the tremendous investment which people have in these cars and because so many of them will be driven for two, three, and even five more years, the Ford Motor Company will continue to make replacement parts until, as Henry Ford himself says, "the last Model T is off the road."

For the Ford Motor Company has always believed that its full duty consists not only in making a good automobile at a low price, but also in keeping it running efficiently for you as long as possible at a minimum of expense.

No matter where you live, therefore, you can still buy Model T Ford parts with the same assurance as formerly, knowing that they will give you the kind of service you have a right to expect, and at the same time protect the money you have invested in your car.

All Ford replacement parts, as you may know, are made of the same materials and in the same way as those from which your car was originally assembled, and are low in price because of the established Ford policy.

So that you may get the greatest use from your Model T Ford over the longest period of time, we suggest that you take the car to the nearest Ford dealer and have him estimate on the cost of any replacement parts which may be necessary. You may find that a very small expenditure will maintain the value of your car and will be the means of giving you thousands of miles of additional service.

Farmers Ask Protection Other Interests Get, Says F. B. Head

SAYS FARMER WANTS ONLY FAIR SHARE

Politicians Flock to Aid During Presidential Campaign

"When I hear the politicians say that our proposals are economically unsound, I feel immensely amused," said M. S. Windsor, executive secretary of the American Farm Bureau at the formal opening of the St. Joe Valley Shipping Association building Tuesday night. "I am amused, because every measure of protection that has been awarded to the American manufacturer, the railroads, and to organized labor, has violated that very principle of supply and demand to which they refer."

"If we had real statesmen at the head of the American government, some provision would have been made for farm relief years ago. The oil-smeared politicians who are at the head have failed to sense the reality of the farm crisis. They say the farmers want a subsidy. The farmers do not want a subsidy. They merely want the measure of protection that is awarded to other interests. I am in favor of protection—but I want it to be universal."

In 1910 and 1920, the farmers comprised 20 per cent of the population of the United States, and they received 24 per cent of the income. In 1925, with practically the same percentage of the population, they received only 10 per cent of the income. In 1926, they received only 7.7 per cent.

The reason is that every other interest has been elevated by artificial means. When the manufacturing and industrial classes comprised only 3 per cent of the population, soon after the Revolution, that small fraction of the population by dint of organization, began to get protection. The haters of Danbury, Mass., got protection for their hats. That was the first tariff. Since that protection has been extended to cover all branches of manufacturing, it has been extended to organized labor. Through the federal reserve we protected financial institutions; through transportation acts the railroads.

"Because of that protection, we have created the American Standard, which means the finest living and social conditions to be found in the world."

Through the McNary-Haugen bill we are asking for the power of collective bargaining that will afford us the same protection. We must have obligatory cooperation. That is what the Equalization clause will secure. President Coolidge vetoed the bill on account of that clause.

"This is what it means. A, B, C and D have 1,000 bushels of wheat each. There is a home market for 3,000 bushels only. The world price is \$1. There is a 40 cent tariff. A, B, and C will say 'D: Sell your 1,000 bushels on the world market for \$1.'"

"Then they will sell their wheat for \$1.40 and will each give 10 cents for every bushel sold to D, to reimburse him for his loss; in that way they will overcome the obstacle of overproduction at home, and get the benefit of the tariff imposition, and each will get \$1.30 per bushel."

We are not pleading poverty for the American farmer. We are only pleading that he get his full recompense. Wealth and poverty are only comparative terms. The main reason why the standard of living should be maintained among the farmers is a social one. Of the 10,000 listed in the volumes of "Who's Who in America" 85 per cent were reared on the farms.

the other fellow is as well intentioned and as deserving as we. Too many people will go with you to the very end,—provided that you will go their way.

When we have fully learned the lessons of co-operation, farming will go forward to better times. Farming is at the dawn of a new day.

Other speakers of the evening were M. L. Noon, president of the state farm bureau, C. L. Brody, state secretary and general manager of the farm bureau, F. Thomas of Lansing, head of the supply department of the state farm bureau; Frank Harrington and Wesley Swartz, manager and assistant manager of the St. Joe Valley Shipping Association stores; Walter Shoop, of the First National Bank. Jesse G. Boyle, president of the Berrien County Farm Bureau, acted as chairman of the evening. Several well played selections were contributed by the high school orchestra.

300 ATTEND CO. GRANGE MEET AT BAINBRIDGE WED.

REPR. JESSE BOYLE SPEAKS ON FED. FARM LOAN MEASURE

Three hundred grange members from all parts of Berrien County attended the county-wide quarterly meeting of the organization held Wednesday of last week at the Bainbridge Grange Hall, the program of the day being headed by an address by State Representative Jesse G. Boyle on the Federal farm loan bill now before Congress.

It was shown that 100 new members had been added, and one new grange had been established at Twelve Corners. County Grange Master W. G. Armstrong opened the meeting. FIRE TRUCK FOR FARMS SUGGESTED BY CHIEF BUNKER

COMMUNITY PUMPER WOULD BE SAFETY MEASURE FOR RURAL DIST.

Five hazards in this district would be considerably reduced by the provision of a community fire truck, on a plan similar to that followed in a number of Michigan communities, according to Tenny Bunker, Buchanan fire chief, who presented his plan at the meeting of the village council held last week.

Bunker suggests the purchase of a new fire truck carrying a 500 gallon pumper, at an outlay approximately \$5,000. This truck would be housed and maintained by the village and would be manned by the village fire department in case of farm fires.

The winning side will be banqueted by the losing side at a later date.

Comedy, Mystery Mingle in Junior Plays Tomorrow

Three Coaches Work to Round Amateurs Into Form

THE PLOTS ARE VARIED

Curtain to Rise in School Auditorium at 8 p. m. Tomorrow Night

Juniors of Buchanan high school are appearing in their dramatic offering of the year at the high school auditorium tomorrow evening, their presentation taking the form of three one-act plays. The plays selected are among the most popular dramas suitable for high school presentation, and were selected with a view to securing a variety of themes.

The social drama is entitled

"Two crooks and a Lady" and deals with the mental perceptions of an invalid, who is bound hand and foot by illness, but who foils the machinations of dishonest retainers when she detects the entire plot through watching the actions of the crooks in a mirror, bringing them into the toll of the police. This play is in charge of Miss Avis Moffatt, instructor in foreign languages. The players are: Mrs. Simms, the invalid; Virginia Snowden Miller, the crook; Clem Savoldi Lucille, the housemaid, also a crook; Zella Schumaker Miss Jones, the maid; Marjorie Hickey Police Inspector Kenneth Dunbar Garrity; Fred Morris. The modern social comedy deals with a married woman, Henrietta Brewster, who becomes a "psychoanalysis" fan, and labors to convert her materialistic husband, Stephen Brewster and her sister, Mabel. Finally they succumb to her campaign of education, with the result that Mabel discovers she has "suppressed desires" to capture her sister's husband. When Henrietta is on the verge of losing her husband, she recovers from her lunacy on the subject. The coach for this

play is Mr. Ormiston. The cast of the play is as follows: Henrietta Brewster...Ruby Boltz Stephen Brewster...Play Wilcox Mabel (Henrietta's sister) Hazel Johnson In the drill on the Harlequinade entitled "The Wonder Hat," Professor Charles King is in charge. Must Walk the Straight and Narrow,---Ormiston

Principal Tells of Fate of Schools Breaking Ineligibility Rules

It's the straight and narrow path for Michigan high schools when it comes to matters of using ineligible men in games or otherwise kicking over the traces of the In-scholastic Association, according to E. H. Ormiston, representative of south western Michigan on the Council of the State high school Athletic Association, who attended a meeting of that body held week before last in Detroit. "There were two high school principals, representing the River Rouge high school of Detroit and the St. Paul Commercial high school, who appeared before the council to ask for reinstatement for their schools. Their predicament was a painful. The spokesman of the council called spades spades, telling them that through neglect of duty or for other reasons they had certified men as eligible who were ineligible. After several very embarrassing minutes they were granted reinstatement. The two schools were suspended in March and their reinstatement was to take place at the end of a month from the date of disbarment. These schools were obliged to forfeit every game in which these ineligible men were played. One school had an exceptionally fine team, which would have very likely been one of the teams seeded for the state tournament at Detroit, had they kept inside the law. So the advantages to be gained from non-observance of rules are negligible when compared with the liabilities. As a high school principal, I have to watch my step very carefully, for if my school should be cited for non-observance it would be a public disgrace, and the responsibility would come back on my head." The item of payment of expenses of school teams at the Detroit tournament was taken up and it was decided that the expenses of nine men should be paid in full; also that any deficit in a regional or district tournament would be met from the receipts of the state tournament. It was decided that the state high school meet would be held at Michigan State College at Lansing, the state tennis meet at the Ypsilanti, and the state high school golf meet over the Washtenaw course at Ypsilanti. Some fire was drawn when the subject of spring football was brought up. Several of the larger schools have adopted the instituted spring football practice, forcing other schools competing with them to follow suit. It was decided that the spring practice would be banned in the lower peninsula. The peninsula will take a referendum among the high school principals to decide. A number of the athletic association rules were revised with a view to making them clearer and more pertinent. Fabulous Facts An instructor in the biology department of a certain university found some unusual definitions in the examination papers he graded recently. One honest student said "homology" is the study of homes. Another defined "recapitulation" as the capture of insects by biologists. The depth of the ocean was estimated by a coed as about two feet, while another said the greatest depth was "nearly 25,000 miles. Cat's Rival He fired four times, each shot striking the prowler, and killing him.—Detroit paper.

NEW TROY SCHOOL NOTES

The following people were the Honor students in spelling last Friday: Violet Harroff, Doris Peterson, Elizabeth Schafer, Lena Thompson, Dorothy Schopbach, Evelyn Kempton, Orrin Penland, Irene Styburski, Philip Sexton, Oscar Hendrickson. A very exciting practice game was witnessed on the home diamond between Three Oaks and New Troy Wednesday afternoon. In spite of a light rain continuing throughout the game both teams played a good game of ball. Long hours of practice are being spent on the annual Senior play which is billed for the 20th and 21st of this month at the high school. The title of the play is: "The Dutch Detective," a comedy from beginning to end. Mrs. Broderick, the senior class advisor, is coaching the play. Parts are being assigned for the annual Minstrel Show which will be presented the latter part of April. The proceeds from the Minstrel Show are used to defray expenses of the judging team

FORMER RESIDENT GIVES IMPRESSION SOVIET RUSSIA

BUCHANAN RESIDENT SAYS TALES OF TERRIBLE CONDITIONS ARE EXAGGERATED

The interview printed below with C. R. Cady, formerly an official of the Clark Equipment Co., and a resident of Buchanan for several years, is taken from the Chicago Tribune. Mrs. Cady was for some years the secretary-treasurer of the Clark Equipment Co.

"What makes the biggest impression on me in this country are the films. I have been to a number of movies and all through the show I am invariably perplexed and worried as to how the hero is going to be extracted from the maze of misery and difficulties into which he is thrust."

"The answer is, they don't give him. They just leave him in it and at the end he is forced to blow his brains out or jump down a well or swallow poison; they don't insist on the 'happy ending' like in America."

That was the summing up of an interesting aspect of the Russian attitude by C. R. Cady of Hubbard Woods, Ill., who is in Moscow representing Frank D. Casse, Inc., engineers and architects of Chicago. This firm has signed a contract with the soviet government for the construction and installation of a factory for sewing machines.

2,400 Machines a Day. The new plant will have an output of 2,400 machines a day and will supplant the present Singer factory having a capacity of 800 machines a day, which henceforth will be used for storage purposes.

The present plant is at Podok, not far outside of Moscow, and the new one will be built right alongside it, Mr. Cady said. "I will return to Chicago in a few weeks with specifications to work out the plans; then the Russians will start work on the building in the spring, when the frost is out of the ground. We will arrange in Chicago for the purchase and shipment of the machinery which will be installed."

"I certainly have been surprised at what I have seen in Russia. I have been hearing all these years about what terrible conditions existed here and now I find everything going ahead smoothly and no trouble anywhere. They manage to get along under conditions which I think we could hardly overcome in America. They make excellent castings at the factory out of pig iron, which, analysis shows, is far from the required standard. They melt mix coal with their coke. But they turn out a very good looking product."

Interested in America. "The engineers are all high class chaps and are immensely interested in America and American methods. They read all our technical magazines and trade papers and show an amazing familiarity with conditions in the United States. Apparently the government officials stationed at the factory and in charge of the plant with the superintendent get along all right with the personnel and there is no friction. The workmen go about their jobs like men in an American factory and there seems the same atmosphere of hard work and good humor as one finds in a shop at home."

"Of course, these engineers receive very small salaries compared with those at home, but they have living quarters, the reduced prices of co-operative shops; they don't need to spend a lot of money on fine clothes, and not much for entertainment and pleasure, apparently."

"Some receive 250 rubles (\$125) a month and they consider that extremely high wages. The workmen in the plant get 120 rubles (\$60) a month and a small premium on production over a certain amount. I understand the small, hand operated sewing machines retail at about 75 rubles (\$37.50) and the larger ones, operated by the feet, for 125 rubles (\$62.50). The demand vastly exceeds the supply, and wherever the machines are offered they are snapped up immediately."

Business Not Politics. "The technical experts with whom I have been in contact don't talk much about politics or communism, but chiefly about business. They are greedy for information about American methods and appliances."

"Engineers of the factory have been extremely kind to me and accompany me home and arrange dinners and entertainments every evening."

"Only one complaint I have to make, and that is the slowness and delay. They take a couple of days to do anything we would do in America in a couple of hours. Everybody is happy go lucky and they don't seem to bother much about speed. However, I have since been told that this condition is pretty prevalent all over Europe."

The very old engineer I have met was an official under the former regime of the czar, and he entertained me at dinner at his home. He and his invalid wife and their two grown daughters are cooped up in a couple of rooms. He has to do his work in the din-

ing room and his desk also serves as dining table. His books and documents are piled about on the floor through lack of furniture and filing cabinets. However, he does not grumble and says he gets along all right. He explained to me that his lack of accommodation had no political significance, but that nearly every one, including communists, too, have difficulty obtaining sufficient lodging space owing to the overcrowded condition of the city."

Returning to Chicago in several weeks, Mr. Cady will come back to Russia in the late spring.

FIRST SHIPMENT WARD TELEPHONES GOING THIS WEEK

The first of the new Ward apartment telephones to be completed are now being assembled at the plant here, a shipment of 250 being contracted by April 14 and another of 750 by the end of the following week.

The product underwent a laboratory test in Chicago last week, with perfectly satisfactory results. The outfit has a loud speaker for installation in the vestibule of the apartment house, which enables anyone in that room to hear and be heard while standing several yards away from the instrument.

W. C. T. U. TO HIT TOBACCO USERS IN FILM SHOWN HERE

The monthly business meeting of the W. C. T. U. which was to have been held last Friday afternoon, was held Tuesday afternoon at the home of Mrs. Enos Schram, 212 Cecil Ave. The meeting was called to order about 2:15 p. m. with nine members and two visitors present. Roll call was answered by members giving reasons why we hate the liquor traffic, quotations taken from the National Enquirer by the late J. Frank Hanly, former governor of Indiana.

Plans were completed for the giving of the motion picture, "The Tobacco Plague," and "Alcohol destroys Life," two very interesting and instructive films that were shown at the State W. C. T. U. Convention that was held in Battle Creek last November.

Plans were also discussed for the County Convention that is to be held here in Buchanan, probably May 8th or 9th. It is to be an all day and evening session, with special speakers, and local people on the program. It is hoped that Congressman Ketchum and State President Mrs. Stella B. Roben will be on the program. Special music will also be a feature of the program.

"Volunteer Captains" were appointed to get ten new members each, in accordance with the state "Go Forward" campaign, from March 24th to May 18th. Each "Volunteer Captain" to have his name on a brick that goes into the "Wall of Defense" that is to be built at the State Convention to be held in Lansing, next fall. There were two hundred and eight "Volunteer Captains" in Michigan last year, making 2080 new members received.

One new member was taken at the meeting Tuesday. After the business session, a social half hour was enjoyed, after which delicious refreshments were served. The meeting adjourned, to meet April 27th at the home of Mrs. L. M. Otwell on River St.

The Women Know What It's All About!

THE Delco-Light Company ran an ad in the magazines that showed a lot of pictures of farm women. Then it told what all these women said about Delco-Light—how it saved money—increased egg production—lightened housework—made farm life pleasant and agreeable. It looked to me as though the women were as keen about Delco-Light as the men. So this is a special invitation to farm women to come in and find out how Delco-Light brings city comforts to the farm. Do Husbands Really Trust Their Wives?

HERBERT: (to Betty, his wife) I'm sorry, but you'll have to stop going to Guido Petri's studio. His affairs with women are the talk of the town.

Betty: That's silly. No matter what Guido's relations with other women may be, he is a perfect gentleman—with me. I shall continue my studies with him.

Weeks pass. Guido Petri and Betty are in the studio alone.

Guido: (drawing her to him) So beautiful you are. Soon we shall go abroad—just you and I.

Betty: But—my husband—

Guido: Bah! What does he know of your desires? So young you are—so lovely—

Suddenly he clasps her in his arms—kissing her with a fierce passion she is powerless to resist. Unheard by either, the door opens—someone.

Herbert: (lingering her aside) I'm through with you. I should have killed you as you lay in your lover's arms. Take what you want and get out.

What happens to Betty after she is driven from home by her husband, completes one of the most pathetic dramas ever enacted in real life. Don't miss "Hers in a Woman's Heart," in May True Story Magazine.

RECORD WILL STAGE PIN MEET APR. 28

First Pin Tournament to Be Held Here Now Under Way

CLOSES INDOOR SEASON

Prizes Hung Up For Both Male and Female Pinbusters

Arrangements are under way for Buchanan's first bowling tournament, to be held in the Bowling Club alleys April 28, under the auspices of the Buchanan Record, collaborating with the club management.

This is the first year in which an opportunity has been offered to the local public to learn the noble sport of maple busting, the Buchanan Bowling Club alleys having been first opened about the first of the year. Since that time the sport has attained the status of a fashion here, in the neighborhood of 200 men bowling regularly every week, in addition to a number of ladies.

While many of these bowlers are still in the novice stage, a number of proficient pin busters have developed who can be counted on to score close to the 200 mark, and of late the local teams have been playing outside teams on something like even terms.

The tournament will mark the culmination of the indoor sport season, and it is expected that not less than fifty of the most expert will enroll for the singles and doubles. Reasonable entry fees will be charged, the bulk of which will go to the provision of prizes. The tournament will in all likelihood be carried on through several nights. Prizes will also be offered for the best scores by ladies bowling in singles and doubles.

NAPPANEE 5 TAKE GRILL SCALPS IN GAME WEDN NIGHT

All the McCracken Grill team needed Wed. night was 255 more pins for a win over the crack Nappanee five, whom they played on the local alleys. Lacking that margin, the visitors left with the local scalps hanging on their belts, having tallied 2496 while the Grills were amassing 2242 points.
