COMMENCEMENT, 1928

By Haws

The decks are manned and the sails are set
For the bravest voyage chartered yet
And a valiant crew that mans her board—
Maidens like a flower and lads like a sword
For never sailed bark with a fairer freight
Than trod on the good ship Twenty-Eight
She's off and away and beyond the bar
With prov set hard by a merry star
And her pennons fixed and her flag nailed fast
To the topmost point of the mizenmast
And her white sails swelled with a crowding wind
The sea before and the port behind.
There's many a wreck that lies below
The course where the untrod ship shall go
And many a roaring breeze shall make
The foam flowers bloom in her flying wake,
And a myriad hungry waves shall bite
Her battered side ere the end's in sight.
But never a storm shall rouse the fears
In the hearts of the dauntless mariners
Till she ties at last when the course is through
Safe in the port of Dreams-Come-True.

AT STAG DINNERALMOST HUNDRED MEN WILL
BE PRESENT AT ORCHARD
HILLS COUNTRY CLUB

The first of a series of stag dinners to be held at the Orchard Hills Country Club during the coming season will be given there on Tuesday evening, June 12, when a committee representing the Clark Equipment Company of Buchanan, will be hosts to almost a hundred men from Buchanan, Niles, and other nearby cities.

A banquet will be served at 6:30, in charge of Quinn Waters, chef of the Clark cafeteria. Since Mr. Waters' ability as a caterer is widely known hereabouts, no further recommendation need be given as to the quality of the dinner to be served. Following the dinner a program and smoker will provide entertainment for the remainder of the evening. Lister on the committee's entertainment are various numbers by local talent while an added feature will be a popular broadcasting company who have been appearing regularly over station WSET, South Bend.

C. D. Arnold is chairman of the Clark Equipment committee in charge of the entertainment and A. S. Webb, a member of the committee will preside as toastmaster of the evening, introducing some of the original humor for which he has become so well known.

Announcement cards were mailed out to members of the club the first of June and already a large number have returned their reservations. The latter should be in not later than Saturday, June 9th in order to assure the committee ample time to provide table accommodations.

Tuesday evening's stag affair will prove to be a worthy forerunner of a series of five such events during the next few months when various companies whose executives are members of the club will entertain. On July 17 a committee representing the Kawner Company, Niles, will entertain. August 14th, a committee representing the French Paper Company, Niles will be the hosts. Sept. 11, the National Standard Company, Niles, and on October 16, the Board of Directors of the Orchard Hills Country Club, will provide the last of the stag entertainments. The membership is anticipating enjoyable affairs on each occasion.

Ormiston Calls For The
Pictures of Former
Graduates

In an address so full of sparkling wit and original turns of thought as to make it impossible to report in any adequate way, William McAndrews, noted American educator and former superintendent of Chicago schools held a capacity audience for an hour at the high school commencement last night.

The central idea of the address of McAndrews was the comparison of the public school system to a corporation, in which everyone, small and large, is a stockholder. Practically all are taxpayers, whether their names appear on the rolls or not, according to the speaker. Even the small boy who spends his money for candy is paying indirectly the tax on the merchant's stock of goods.

The idea of the high school graduate should be an adequate return to this corporation to which he owes his education, and not merely the securing of an advantage for himself. In this connection, Dr. McAndrews poked some fun at the old style high school class motives, such as "Knowledge is Power", and the like, as embodying a selfish and unworthy attitude toward education.

The end of education he defined as the attainment of power to serve the "Us Company of America."

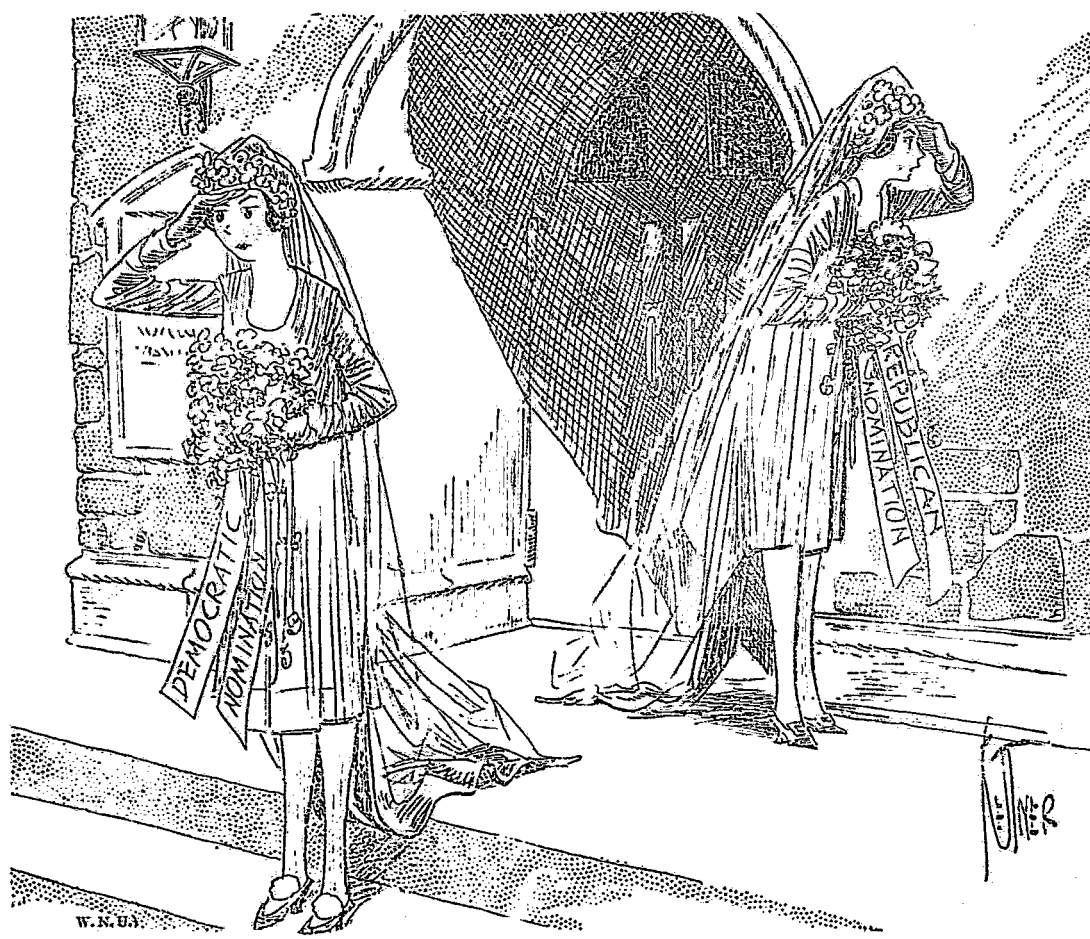

At the conclusion of his address, Frank Habicht of the local school board presented the diplomas to the graduates.

A number of musical selections were rendered by high school organizations.

In an interval of the exercises E. H. Ormiston, high school principal, announced that a picture of the first class ever graduated from the high school had been found, representing the class of 1877. The members were: Mrs. Emma Knight of Buchanan; Mrs. Lily Howe Smith of California; Mrs. Minnie Hamilton Elington of Chicago; Mrs. Fanny Woodworth Baker (deceased); Mrs. Nettie Bainton Snyder (deceased).

The picture was found at the home of Mrs. Fanny Woodworth Baker's daughter, Mrs. Arlie Lightfoot of 603 S. Portage. Principal Ormiston requested that any other pictures of former graduates that may exist, be turned in at the high school, to be preserved and mounted on the walls.

EXERCISES

The fifty-third annual baccalaureate address to the Buchanan high school was delivered last Sunday evening at the high school auditorium by the Rev. Harry W. Staver, pastor of the Presbyterian Church, to an audience that filled every seat and stood against the walls. His topic was, "Things that Count."

"Only the things that abide count supremely," declared Mr. Staver, and then quoted his text from the Thirtieth Chapter of First Corinthians, "Now abideth faith, hope and love, and the greatest of these is love."

Music was furnished by a male quartet composed of Hugh Pierce, Don Fette, Harold Pierce and Harry Banke, who sang, "Drink to me only with thine eyes," and by the Girls Glee Club, who sang an arrangement of the Twenty-third psalm for female voices. The prayer offered by the Rev. W. H. Canfield. The Rev. Henry Liddicoat presided, and the Rev. Herbert Barnett offered the closing (Continued on Page Five)

Partitions and fixtures are being installed this week at the Chamber of Commerce headquarters for the club room and women's rest room, contractor Hemphill having started work Monday on the construction of the partitions and the railings about the office spaces of Secretary Al Charles and F. W. Moyer.

Several chairs and couches have been installed, but the quarters are still short of rocking chairs and other seating accommodations and floor furnishings, according to Sec. Charles, who is making a call for public spirited people with furniture to spare to make a few contributions. Anyone who has any furniture to spare is invited to visit the rooms and see whether they can fill any of the needs.

Old Home Town

HELD ON H. S. GROUNDS

Local People Hosts To
Former Residents
For Afternoon

The Chicago-Buchanan Society, composed of about 150 former Buchanan residents, will hold its annual picnic in the home town for the first time, on June 23rd. Several local people attending the annual winter banquet of this organization held at Miss Hastings' Tea Room in Chicago on February 3rd extended an invitation to the members to meet here, assuring them that a hearty welcome would be given by all of the local folks. The invitation was accepted and the following general committee was appointed to make arrangements: Mr. and Mrs. C. F. Pears, Mr. and Mrs. Harry Brown, Mr. and Mrs. Chas. F. Boyle, Mr. and Mrs. M. J. Kelling, Mr. and Mrs. Geo. F. Dressler. The following committee from the chamber of commerce is cooperating: H. W. Riley, C. F. Miller, Al W. Charles.

It is planned to hold this affair at the High School and in case the weather is favorable the high school gymnasium will be used. The affair will be a basket picnic to which everyone is invited. Each party will bring food, silver for its own needs, dishes, the committee furnishing the coffee. An informal program is being arranged and a good time is assured. Dinner time will be at 5:30, so that our merchants and others who are busy on Saturday evenings may come and get back to their work by 7 o'clock.

The following committees have been appointed to attend to the necessary details: Program, Harry Brown, Chas. F. Pears, C. F. Miller, Mrs. Chas. F. Boyle, Publicity, Al Charles, Mrs. C. F. Pears; tables and entertainment, Mrs. Harry Brown, Mr. and Mrs. M. J. Kelling, Mr. and Mrs. Geo. F. Dressler.

The Chicago guests will arrive on Saturday and will be entertained over the week end by special committees.

The officers of Chicago-Buchanan Society are as follows: President, Mary Reynolds, vice president, Mrs. Winifred Noble Setchel, Secretary, Lee Mead, Treasurer, Henry Grover.

Carnival Shows
Here Under The
Auspices I. O. O. F.

Night life in Buchanan took on a Broadway aspect this week, with a round of commencement activities, and a carnival troupe operating at full blast with merry-go-round, Ferris wheel and everything.

The carnival troop set up in business on a vacant lot off N. Portage Street Monday night and will be running all this week. The carnival is listed as the Carl J. Folk Shows, and is running here under the auspices of the I. O. O. F., which is receiving a percentage of the gate.

Patrons of the shows are thereby assured that they are contributing to a worthy organization, while indulging in a harmless amusement. The entertainment features are unusually full and are being well patronized whenever the weather permits.

RECORD OFFICE IS PRESENTED RARE ORCHIDS

LYMAN CAMPBELL LOCATES HAUNT OF AN ALMOST EXTINCT FLOWER

The Record office was presented on Tuesday evening of this week with a fine bouquet of Northern Orchids, once commonly known as the lavender Lady's Slipper, the donor being Lyman Campbell of the Campbell Transmission Co.

Mr. Campbell is an orchid enthusiast, having become interested in the rare plants in the course of a business trip to France, at which time he spent some time with Orchid experts. The variety which he brought to the Record office is more common in the sand dunes toward the lake, but has been largely destroyed in closely settled communities, due to the fact that it takes a plant seven years from the germination of the seed to produce a blossom, and that the young plants are usually trodden to death by flower hunters in the places where they are known to grow. They

are now very rare here. The Northern Orchid or Lady's Slipper has a distinction not generally known, in that it is used as the basis for the breeding of all commercial orchids, according to Campbell. The rare orchids are brought from South America, Central America, Mexico, and India and are cross-pollinated with the Northern Orchid of this country in order to give them stamina and hardiness. No commercial orchids have ever been successfully developed that did not contain a strain of the local variety.

All orchids are known as "air plants," which will not grow in heavy soil, but require a porous medium, such as sand, peat, or moss in which to root. The commercial varieties are commonly grown in racks in green houses with no soil whatever about their roots. Rain water is placed in a vat beneath, into which the orchid bulbs are dipped whenever their color indicates that they need water. The plants may only be maintained by constant cross-pollination, as three years of self-pollination will cause the commercial species to revert to the hardy Northern Orchid ancestor.

By cross-breeding with foreign tropical orchids, the leafy par which surround the "moccasin part" of the flower, and which have little coloring in the Northern Orchid, become developed and highly colored.

The orchid plant may be divided every two years, and then the parts may be transplanted the second year after separation. The seed is in the form of minute spores, finer than snuff, and the young plants are very small during the first stages.

Orchids have lately become an object of extensive investigation. 1,500 distinct varieties having been found and catalogued. The Society of Orchid Growers of the United States was organized three years ago. The University of Missouri has made the greatest progress in the investigation of orchids and has the finest collection in the world.

NILES WOMAN NOTES BUILDING OF ORIOLE HOME

Here is the story of the home building of Lord and Lady Oriole, as it was witnessed by Mrs. Fred Coon, 529 Cedar St., Niles.

Or it might be more accurate to say, —the home building of Lady Oriole, since according to the sole witness, she did all the work.

Dr. and Mrs. Fred Coon have developed a veritable "bird haven" in the back yard of their home in Niles, by judiciously catering to the tastes of their feathered friends, and it has become a veritable hangout for the songsters of the city.

Thus it was that on May 18, Mrs. Coon saw from her post of observation on the back porch a pair of Baltimore Orioles showing all the symptoms of nest building. Already they had a cord looped over the pendulous branch of an elm that overhangs the back yard. Mrs. Coon at once conceived the idea of cooperating in the construction, with a view to learning the preferences of orioles in nest materials.

Accordingly she hung on the bushes beneath the chosen site bits of yarn and strips of muslin of varied colors, and pieces of cord. Lady Oriole at once showed her taste in materials by pouncing first on the white crocheted cotton, which she carried off as fast as it was put out for her to the extent of an entire ball. Next in her choices was the white muslin, which she did not carry off by the strip, but instead patiently unravelled and carried, thread by thread.

The white cord was also used, but the colored yarns and muslins were left for the less discriminate and more rough-shod architecture of the robins and catbirds.

Lord Oriole, according to the sole witness of the home building rites, took no part in the labor, save in an advisory capacity, limiting his efforts to driving away all blue jays, robins, or other intruders who appeared to be prospective lot jumpers.

After eight days of labor the nest was completed on Friday, May 26, and ready for occupancy. As a last decorative touch an entire strip of white muslin was twined about the top.

Then the jealous vigilance of Lord Oriole was somewhat abated and a robin and a catbird were allowed to come on the premises and get the left-over materials. They pounced without hesitation on the strips of colored muslin, not taking the trouble to unravel them, but first hauling them from the bushes and dropping them to the ground, and then hopping down and looping them up in their bills and flying away.

Another interesting nest construction was noted by Dr. and Mrs. Coon at their summer cottage at Smiley Lake, where on the occasion of their first visit in middle May, they found that a pair of robins had built a nest on a stovepipe which jutted from the side of the cottage horizontally, and then turned up in an elbow. The robins had started their summer housekeeping on top of the horizontal section, in the bend of the elbow.

Unwilling to roast the robin family, Dr. Coon installed an im-

tation stove pipe immediately beside their home site and carefully transferred the nest. His intervention was not taken in any good grace by the robins, who spent several hours looking at the transferred home with noisy denunciation. When Dr. and Mrs. Coon returned the next week, they had made another selection of their own on a shelf on the outside of the cabin, by a rear door. Here Lady Robin was already launched in the process of incubation.

At first she was frightened whenever the door opened, rising and wheeling a short distance from the nest whenever that occurred and then circling back. As her neighbor became more familiar to her, however, the circlings took a shorter range, until she at last resigned herself and remained on the nest.

A popular feature of the backyard of Dr. Coon is a bird bath, consisting of an old foundation of which the bottom has been cemented up to form a basin about three inches deep. Here, especially on warm days, the birds of all varieties come and drink and splash happily for hours. It is necessary for Mrs. Coon to fill the basin about every two days, during the past week the following varieties have been seen: robins, sparrows, blue jays, orioles, thrushes, rover birds, cat birds, cardinal birds, rose breasted grosbeaks, warblers of several varieties, wrens, blackbirds, humming birds, gold finches, white breasted sparrows, turtle doves.

During the winter storms, the birds are fed at the Coon home by strings of suet hung on the bushes and ground nuts placed on the window sills. Mrs. Coon will fill the palm of her hand with ground nuts and chickadees will alight on her fingers and eat, unless the morsels are too large when they will take piece by piece and fly away to some neighboring perch and pick them to pieces.

Local Fleet of Motor Boats Gets Several Additions

Buchanan's speed boat flotilla is receiving a number of additions this summer. Herbert Schimmerhorn and Bob Rinker having launched motor boats on the river Sunday, and Art Allen and Paul Wellbaum being engaged in installing a Ford engine converted into a marine engine in their boat on Clear Lake. Schimmerhorn's boat is an inboard motor type, while Rinker's is a Johnson outboard motor.

Ralph Allen has installed a new Ferro special marine motor in his houseboat on Clear Lake in addition to other improvements. The Allen house boat is now equipped with radio, electric

lights, running water and every modern convenience that can be installed, affording a delightful summer home. The Allen family will follow their usual custom of making their home this summer on the boat, driving back and forth to Buchanan.

Fishing Season to Be Opened June 16

The fishing season for other

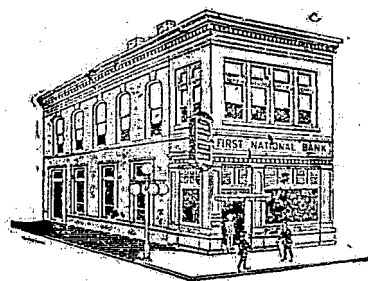

piscatorial game than trout opens here June 16, at which time it becomes lawful to fish for blue gills, calico bass, rock bass, and crappies, which are the fish most commonly found in the river. The rules which govern angling for the game fish prevalent here are as follows:

Blue gills: season, June 16 to March 31st inclusive; 6 inch long, 25 in one day, 25 in possession at any one time.

Calico bass, rock bass, crappies: season, June 16 to March 31 inclusive; size, 7 inches long, 25 of each in one day, 25 in possession at any one time.

White bass: may be caught at any season of year; size, 7 inches, 25 of each in one day; 25 in possession at any one time.

Sunfish: may be caught at any season during year; 5 inches in length, 25 in one day, 25 in possession at any one time.

BETTER BUSINESS ETHICS

It is a wholesome sign of the times that business and professional men are much concerned over the ethics of their own particular occupations. Many trade associations, service clubs and other commercial bodies have committees on business standards and printed codes of ethics to guide their members. Colleges and universities offer lecture courses on the subject, books are being written on it and there are organizations dedicated to the improvement of the standards of business conduct.

However, the public is not overly impressed by mere organization or printed codes, standards and platforms. It judges the ethics of a business by the ethics of the individual members of that business. It does not buy goods from trade associations, but from individual concerns. What really matters is not the publicly announced and purposely high-sounding and sonorous code of an impersonal association, but the actual everyday conduct of the individual business man, firm and corporation.

But there is not a consumer who has not convinced himself by

actual experience that merchants, especially, are doing more than talking about service. Modern business has learned that "honesty is the best policy" and that "the profits most who serves best." And it matters little to the consumer whether business is rendering better service for purely selfish reasons or because it has become morally conscious.

Profits are a worthy, honorable goal, but if they are the only aim of business, then the commercial system is doomed. And it follows naturally that, since the commercial system shows no evidence of decay, profits are not the one and only goal of modern business.

A FORTUNE IN THIS

Man's day is triple; a work day which has been shortened, a leisure day which has been correspondingly lengthened; and a sleep day which, so far as is definitely known, has been neither shortened nor lengthened with the progress of mankind.

Greater mental activity, artificial light, more diversions, and the noises and distractions of the city may have subtracted something from the sleep period of millions. But it may be that

modern man needs more sleep to knit up "the raveled sleeve of care," for the ravage is greater in this day of high-speed living than when man found it easier to make a living and less to do when he wasn't engaged in the actual business of earning money.

It would be interesting to know how many hours the savage sleeps as compared with the chemist who proposes a chemical substitute for sleep.

Science has come to look upon the body as a collection of elements whose reactions determine the physical state of man's being. This has led the chemist to consider the diet which may best supply what the body needs and has suggested to them the idea of discovering or creating a catalyst that will so resolve and recombine the elements which sleep has alone been able to convert from the poisonous to the benign that man may have longer days without lessened years.

No other discovery would work such a revolution in human society. It would fatigue the imagination to try to think of the social changes which would follow the discovery of a synthetic substitute for sleep.

Though man for ages has assumed that sleep was foreordained as a blessing to mankind, the scientist who makes sleep unnecessary will be blessed even more than "the man who" first invented sleep.

COATS AND 90 IN THE SHADE

Why is it required in summer time that a gentleman wear his coat everywhere except on the golf links or tennis court or in the swimming pool? Dignity demands it, some say.

Also, it has always been the mark of a gentleman to wear a coat, no matter how ridiculous he looks mopping his face and brow or fanning himself violently with straw hat or newspaper.

Sports costumes have emancipated women so far as summer apparel is concerned. Short sleeves, no collars, light and airy materials, loose-fitting, straight-line costumes, all help the female of the species, be she flapper or dignified matron, to look cool and comfortable in the eyes of sweltering man.

Why do not the men declare a little independence in this matter? Returning suspenders are to be worn beneath the shirt, so that dignity need not be sacrificed when the coat is removed. As an office uniform the coatless outfit should make for greater comfort, increased efficiency and smoother tempers. Why not discard the coat except when formality or comfort demand its use?

Although man never tires of bantering the opposite sex for being the slave of fickle fashion, there are good reasons for suspecting that men folk would cast aside the coat for the sake of comfort if it were not unfashionable. Men's wives for being so conventional and melt under a heavy coat merely because it is unconventional to remove it in the presence of others.

The late bird catches the sleep.

A low moral aim oft will hit the dollar mark.

Many persons are able to beat opportunity knocking.

Having to swallow insults is hard on a man's digestion.

Money may get a man into trouble, but it is usually more helpful in getting him out.

House Chose President

The house of representatives elected Thomas Jefferson President on February 17, 1801. The candidates in the popular election in November, 1800, were Jefferson, Aaron Burr and John Adams, but no candidate received a majority.

PRINCESS THEATRE

Let no one who enjoys real, rolling, rocking, rough-neck hilarity, stay away from the Princess tonight or Friday when Syd Chaplin appears in the big laugh thriller, "The Missing Link." It is an uproarious farce of African jungles with Syd as the fear smitten youth who is forced to act the bold hero in the African big game hunts. For chronic blues, melancholia, halitosis or what have you, take a tip and see "The Missing Link" and cure yourself with laughter.

Hoot Gibson is supported by one of the best casts to play in a Western type of picture in "A Trick of Hearts", coming Saturday afternoon and evening. Georgia Hale plays opposite Gibson. She is a very charming actress and a popular favorite, having played many important leads including the feminine lead opposite Charles Chaplin in "The Gold Rush."

Claire Windsor, a well remembered and beautiful actress appears as the alluring blonde in "Blondes by Choice," the attraction for Sunday. With her will be seen Walter Hiers, the portly gentleman who was until recently one of the most popular comedians on the screen.

Dynamite, Universal's wonder dog will further endeavor himself to his many fans when they see him Monday in "The Call of the Heart." Woven into the plot is a thrilling portrayal of the bitter war which was waged by cattieranchers against the inroads of the despised homesteaders. They forgot to reckon with the small, quiet dog, that suddenly changed into a ferocious brute, when he sized up the conspiracy. Action—it's nothing else but!

Pathos and drama intermingle with the laughs in the "Sky-

scraper", the attraction coming next Tuesday and Wednesday, featuring William Boyd. "The story of this picture deals with two steel workers who are buddies but who are constantly fighting with each other. Their idea of humor was to drop a red hot rivet into the pocket of the other when he was dreaming of the girl of his heart. It is a great picture drama of humble love and bravery and one would enjoy and talk about for weeks.

SEASON FOR SUMMER MUSHROOMS SOON DUE

The season for the summer mushroom is due to begin here in a few days, when the common field mushrooms become available. This species in its younger stages resembles the Delicious Morel, the spring variety most sought, according to fanciers here, and should be hunted when the shoots are young and still in the spike stage. When mature they become tough.

FROG FISHING LEGAL SPORT AFTER JUNE 1

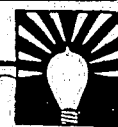

The season for frog fishing opened June 1, to continue until October 31. Among the few who follow the sport here is Deb Veehes, who advocates the use of a

NON-STOP FLIGHTS

THERE has been so much in the papers lately about non-stop flights that everybody yawns and says "Ho-hum" when they read about them.

But there's a non-stop flight story that never did get the publicity it deserves. It seems a man by the name of Maxwell flew into the Delco-Light home office and said, "Our Delco-Light has run a total of 20,075 hours. This is equivalent to 38 years of average farm service. This is such a remarkable record that I wanted you to know about it."

Let the non-stop boys try to beat that one. But then—you've got to expect such records with a Delco-Light.

reported to have shaded the Keith vaudeville circuit by several tints, both in sparkling interest and in striking scenic effects. Among the star performers were Miss Mary Joyce Allington, who impersonated a feminine physical director when she has lost her directions, Miss Hollis Clayton, who did an Annette Kellerman act, and Mrs. Blanche Heim, who dated up the styles several seasons to impersonate "The Spirit of 1938". The spread was prepared and served in the domestic science rooms and the entertainment was presented in the gymnasium.

Waldo Invited To Class Reunion In Va. Log Cabin

An invitation to a college class reunion in a historic log cabin more than a hundred years old, has been received by Dr. Ernest T. Waldo, Redden Block.

This class reunion will be one of the interesting highlights of a most unique home-coming when for ten days the osteopathic profession of the world celebrates the one-hundredth anniversary of the birth of their founder, Dr. Andrew Taylor Still.

Dr. Still was the son of a doctor-minister, and was born in a little log cabin near Jonesville, Va., August 6, 1828. The cabin was recently removed bodily to a little park at Kirksville, Mo., the town where Dr. Still spent the best part of his life and which is known as the home of osteopathy.

Dr. Waldo graduated from the Kirksville College of Osteopathy and Surgery in 1926.

Terrance Travis Of Bertrand Twp. Passes Away Thurs.

Terrance Joseph Travis, a farmer of 35 years residence in Bertrand township, was buried in Calvary cemetery, Niles, Monday, having passed away at noon Thursday at the home of his son, Ray Travis, four miles south of Buchanan.

Mr. Travis had been ill for three years from cerebral hemorrhage. He was born at Wakefield, Eng., August 26, 1851, being 76 years nine months and eleven days old. He came to Bertrand township 38 years ago, marrying Elizabeth Curran, daughter of a long established family of that section. Only one child was born, Ray Travis, who survives. Mrs. Travis preceded her husband five years ago this month.

The funeral service was held at 10 a. m. Monday from St. An-

thony's Church, Rev. Louis Ham-

mer, of Three Oaks, officiating.

Wrecked Tourist Finds Plenty of Accommodations

Service as is service was on tap Sunday, only in the reverse order, when John Alexander of Chicago crashed through the railing on the north side of the Orchard Hills Country Club entrance and emerged from his capsize machine to find a doctor and an undertaker waiting for him.

The reverse order lay in the fact that the undertaker got there ahead of the doctor. The undertaker was Carl Hamilton of Buchanan, the doctor a passing tourist. Finding that there was no need for either of them, they drove on, and the car was pulled from the ditch by Bert Hanson.

Alexander explained that he had been driving at a rapid rate, when his car struck a bump which deflected the wheels, causing him to momentarily lose control. After leaving the road, his car ploughed several rods in the ditch and then turned over on its side a few yards short of a telephone pole. In addition to Alexander there was another man and a small boy in the car, none of whom were hurt.

After Hanson had pulled the car out, it was found to be in good running order, practically unscathed by the accident and the party proceeded on their way to Chicago.

Former Buchanan Boy In Student Party to Orient

Mr. and Mrs. Arlin E. Clark have received word from John Milton Platts, a former Buchanan boy, telling of his contemplated trip to China, and Japan, as a member of a large study group.

Some of the principal cities they intend to visit are: Yokohama, Tokio, Nara and Kyoto in Japan; Shanghai, Peking and Tientsin in China; Mukden and Harbin in Manchuria and Seoul and Tusan in Korea.

They expect to sail from Seattle, June 17th and return about Sept. 4th.

Mr. Platts holds a responsible position in an Industrial College in Fresno, California.

Young Platts formerly made his home at Buchanan, his parents owning the farm on State Road M 60, immediately across from the Orchard Hills Golf Club.

Methodists Start Unique Observance For Memorial Day

A unique service was held Memorial Day at Oak Ridge cemetery under the auspices of the Methodist Church, when the members of that organization went in a body to the cemetery and decorated graves of former members. Eighty plots containing Methodist graves were discovered and decorated, the location being done by Mrs. Emma Knight and Mrs. Marietta Redden.

It is the plan of Rev. Liddicoat to enlarge the idea next year, marking all graves not already designated by a Methodist marker, bearing a cross and crown.

DeMolays Hold Annual Election

Buchanan members of the Niles DeMolay attended a meeting in the Niles Masonic temple last night, the occasion being the annual election of officers. Vine Cook, Master Councillor, became a past official of the order, having passed by order of succession through all the offices, and his place at the head of the order was taken by Bertram Brown of Niles.

Mesdames Edwin Steele, Frank Kean, and Milton Fuller are entertaining the ladies of the Royal Neighbors at the home of Mrs. Kean at 119 Roe, this afternoon.

Oh, but it's fun!

The little peeps are so amusing. They are no end of fun for the family, especially the children. And it's downright fascinating to watch the fluffy little fellows grow.

By keeping your own chickens

you can make good use of your kitchen scraps. That's a big saving. It converts what would otherwise be waste into something of value.

In a surprisingly short time

the male birds are big enough for Sunday dinners and picnic lunches. Then only a few weeks more it's time to start gathering eggs. Our chicks soon turn into fine fayers—and how! We have helped hundreds to find this pleasure. We will help you.

Poisonous Snakes
Not Found Here,
Vorhees Reports

Those who are barred from the pleasure of hiking through the woods of this district on account of fears of poisonous snakes are worrying without grounds, according to Deb Vorhees, who probably knows his woods better than anyone else in this part of the country. During his entire lifetime spent in the Buchanan district, Vorhees says that he has seen only one rattlesnake, and that only a foot long. A few rattlesnakes are known to exist in the marshy ground about the lakes in this district, but none have ever been seen in the uplands or along the river, according to Vorhees. The species which are most common here, including the blue racer, black snake, water moccasin and garter snake, are all harmless.

AUDITORIUM IS CROWDED FOR CLASS NIGHT

Seven hundred of the relatives and friends of the 1928 graduating class of the Buchanan high school packed the auditorium Tuesday night for the Class Day exercises, the seating capacity being taxed by 7:30 p. m.

The stage was beautifully decorated in the semblance of a garden, with two swings and seesaws contributing to the effect.

Robert French delivered the valedictory address with a well phrased appeal to his fellow students to maintain the pioneering spirit, fighting as primitive men fought, only using the weapons of civilized men.

In the intervals between the regular numbers, class songs were sung by the members of 1928.

GRADE NEWS

Miss Abel was absent from her duties Monday. Miss Whitman taught for her.

Our grade exhibit was well attended Friday afternoon and evening. Some rooms registered over one hundred parents during the opening hours. We feel that the effort put forth by both pupils and teachers was well repaid.

The style show directed by Miss Lina Speels drew a record house and judging by the hearty applause, the old and the new costumes were much appreciated.

Miss Irene Meyers and mother from Hartford, Mich., visited our schools Monday.

The members of the faculty enjoyed their last social gathering Monday evening in the Home Ec. department where a delicious dinner was served by a committee consisting of Mrs. Wilcox, Mrs. Heim, and Mrs. Muir. Later the gym was visited where Miss Allington and Mr. Bradfield took charge and which proved a happy ending to the last social event of the school year.

the school year.

During the school year 1927-28 the grade pupils have won the following rewards in Palmer penmanship: three finals, thirty-eight improvement certificates, forty-five progress pins, thirty-two Palmer Buttons, seventy-nine gold star buttons, and one hundred twenty-two silver star buttons.

Mrs. Heim is planning a field trip to look for birds and to the creek to find islands, peninsulas, gulfs and so forth, for her third grade.

The Turtle in Mrs. Fuller's fourth grade has been having a feast on tadpoles this past week. He had about fifty companions at the beginning of the week and now he has only one.

Louise Howe and Bernadine Reinke have been out of school with colds this past week.

Vivian Mogford is with us again after a siege of scarlet fever.

Cathleen Durgan is back in school again after a week's absence. She goes to Mrs. Zerbe's third grade.

This third grade have been competing among themselves, having a contest on the tables. The boys won.

On Tuesday morning of this week Miss Ream entertained the other grades with a very interesting grade assembly. Because of such a busy program during the last few months, there have been but few grade assemblies held.

Mrs. Stults visited our room Monday afternoon to hear the songs Miss Pears' pupils have learned this year.

Daisy Ross has left our school as she has moved to the country. The children in Miss Pears' room miss her.

In Miss Wilcox' room the second graders are finishing all reviews. The school year will close with a party in the room Friday forenoon.

Miss Irene Meyers and her mother visited Miss Milbourne's room Monday morning. She will teach in Buchanan next year.

The second grade under Mrs. Fischer's direction have finished their work on tables. Every boy and girl was perfect in the work. Elberta Maxson is the only one in Mrs. Fischer's room who has not missed a day in school this year.

Miss Clayton's fourth grade enjoyed a picnic this week. This was the party for the end of the year.

Michigan Ranks 3d Among States In Value Exports

For the first time in history, Michigan ranked third among the 48 states in the value of exports to foreign countries, according to official statistics covering 1927 just received from the Department of Commerce by O. M. Butler, district manager of the Detroit office of the Bureau of Foreign and Domestic Commerce.

"Although New York leads," states Butler, "a large proportion of the exports credited to that state are the products of other states, including Michigan-made merchandise that is shipped first to New York and there re-exported to points abroad. Texas ranked second because of its enormous shipments of raw materials, such as cotton and petroleum, and Michigan was a close third chiefly with manufactured articles."

"Only nine years ago Michigan ranked seventh, with New York, Louisiana, Pennsylvania, Texas, Maryland, and Massachusetts leading in the order named. Since the post-war depression in 1921, Michigan exports have increased steadily and rapidly from a total of \$177,901,000 in that year to \$326,880,000 in 1927. This growth, despite a slight recession in 1924, is the most rapid increase that has been registered by any state."

"The actual dollar increase over the period mentioned was \$150,000,000, of which \$55,000,000 was accounted for by the increase of 1927 exports over those of 1926. Preliminary returns covering the present year indicate that Michigan's foreign trade during 1928 will show a corresponding or even greater increase than that of last year."

"It is a current belief that Michigan's exports consist almost entirely of automobiles, but this is not correct. In addition to passenger automobiles which accounted for \$148,000,000, trucks and busses valued at \$44,000,000 and automotive parts at \$65,000,000 Michigan manufacturers exported a great variety of other merchandise, among which the following items figure most prominently:

Tractors and parts, \$12,640,000.
Machinery and parts, \$6,207,000.
Accounting and balancing machines, \$3,155,000.
Miscellaneous iron and steel products, \$3,500,000.
Vegetables, grains and prepared foods, \$4,714,000.
Meats and meat products, \$2,012,000.
Medicinal preparations, \$2,867,000.
Other chemicals and dyes, \$2,264,000.
Rubber tires, \$1,800,000.
Musical instruments, \$1,154,000.
Furniture, \$1,530,000.

"How many knew that Michigan was selling more than a million dollars worth of musical instruments in foreign countries each year, or that several Michigan manufacturers would be forced to close down nearly half their

plant and discharge almost half their employees if it were not for the orders they receive each year from abroad?"

"But our foreign trade today is only a fraction of what it will be a few years hence. Sales resistance in the United States is increasing as the markets become more intensively covered while the development of our foreign markets is just beginning. Our manufacturers are realizing this and are giving increasing attention to their export markets. The statement made a few days ago by an official of one of Detroit's largest industries that the company's export business in 1927 was equal to its domestic business ten years ago and that ten years hence it would equal the domestic business of today, is typical of the trend of thought among producers who are keeping abreast of modern day developments."

State Department Gives Advice On Rabies Prevention

For some months Rabies has been far more prevalent in this state than is usual. Past experience has shown conclusively that an increase in the prevalence of rabies in animals is soon followed by the occurrence of cases of rabies in human.

The State Department of Agriculture has the responsibility of the control of rabies among animals. Twenty counties have been placed under quarantine by the State Department of Agriculture to prevent the spread of the disease at this time. Dogs being carried about the state in automobiles may transport the disease to communities where it has not yet appeared.

It is essential for the protection of the health of the people in all communities of this state that the enclosed simple directions be followed, in case of dog bites or any other exposure to rabies.

Rabies is a disease which is spread by the saliva of the infected animal. Before the disease can be spread to another animal or person this saliva must be inoculated under the skin of the animal or person. This is usually done by the biting of a rabid dog, because the dog usually attacks by biting.

In addition to the protection that can be had by official action, each dog owner has a very definite responsibility. If each dog owner will keep his dog under close supervision at his own home, the opportunity for the dog to contract rabies will be very much diminished. The stray, unlicensed dog is the greatest menace in rabies. Police officers should capture all stray, unlicensed dogs, and dispose of them according to law.

During an epidemic of rabies among the animals of a community, the public is facing a serious situation. Proper, prompt and cool action on the part of public officials will do much to prevent hysteria on the part of the public.

In Case of Dog Bites—

1. Don't kill the dog unless it is necessary to effect capture.
2. Secure the dog with a light chain or wire.
3. Keep the dog in a comfortable place.
4. Treat the dog kindly, he is probably sick.
5. Give the dog plenty of food and drink.
6. Make sure that the dog does not escape.
7. Keep children and inquisitive adults away.

If the dog is alive after ten days, he was not rabid.
If the dog dies within ten days—

1. Cut off the whole head.
2. Put it in a tin pail with a cover.

3. Pack this pail in the middle of a wooden candy pail or box of similar size with $\frac{1}{4}$ sawdust and $\frac{1}{4}$ ice.

4. Ship at once by express to Pasteur Institute, Ann Arbor, Michigan, with letter giving full details.

5. The Pasteur Institute will give the further directions. If the dog must be killed to effect a capture—

1. Do not damage the head in any way.
2. Cut off the head, pack and ship it as described, at once.

What to do with the person bitten—

1. Take the person to a physician at once to have the wounds cauterized. Fuming nitric acid or full strength formaldehyde are the only effective means of cauterizing these wounds. This is of especial importance if the wounds are on the face or hands.

General considerations—

1. When you have a dog under observation for a ten day period, it is essential that you know that the dog you have is the dog that did the biting.

2. In case of any dog bite where it cannot be proved that the biting animal was not rabid, it is advisable to start Pasteur Treatment at once.

A Guest Room to Be Proud Of

Above is pictured a lovely guest room furnished with a charming group of furniture, "The Van Fassen," which we have just received from Holland, Michigan, famous as a center of skilled Dutch furniture craftsmen.

You would be proud to usher your guests into such a room. You could be sure of hearing them say many complimentary things about your taste. The design of the furniture is graceful and appealing, and the pieces are excellently made.

Choice walnut butts of selected figure are used on the fronts of the drawers and the panels of the beds, and these make a beautiful effect. Little oval panels of Carpathian Burl make a pleasing color contrast.

We cordially invite you to come in and see this furniture. You will be agreeably surprised at the moderate price, when you have examined its quality.

Touted Jamestown Nine Is Slaughtered In Slugfest SCORE IS 11 TO 3

A four base hit, three three-baggers, three two baggers and six singles tells the story of a pitchers' massacre which ensued when the Buchanan Blues trounced the Jamestown Tigers in a one sided baseball game on the Athletic Field Sunday, amassing 11 runs to 3 for the visitors.

The two teams played on even terms in the first frames, the score standing 2 to 1 in favor of the visitors at the end of the fourth, with Bradley shading Simpson in the pitching department. At that stage of the game, however, Simpson settled down and regained his usual control after allowing bases on balls in each of the first four innings. In the sixth the Blues located Bradley and circled the bases three times. In the eighth Cook was substituted and was slaughtered by the locals for a total of six runs.

The lineup and tally of the game was as follows: Jamestown Tigers AB R H PO A E Opelt, ss 5 0 1 1 4 1 Thary, 3b 4 0 2 1 1 1 V. Compiling Average Weights Average weights of men and women are usually compiled from insurance figures, and are merely what the adjective implies. Ideal weights differ somewhat. An authority on dietetics says that average and ideal weights are nearest together when individuals are between twenty and twenty-five years of age. HEAVY RAINS THIS WEEK HELP CROPS

Gallen District Visited By
Downpour; Cattle
Are Killed

PASTURES ARE HELPED

This section of southern Michigan was visited by a deluge Tuesday evening, the plug being pulled and the heavens drained to the extent of from one to three inches according to locality, in one grand precipitation about 10 p. m. Tuesday.

The heaviest rain was reported from the Gallen section, where three inches of water fell, accompanied by a heavy wind. The storm was accompanied in that vicinity by severe lightning, which struck a tree in the barnyard of the Carl Benzinger farm, killing four Guernsey cows. A number of telephones in that locality were put out of commission.

The deluge was preceded and followed by a steady drizzle, which has done much to alleviate crop conditions that had begun to affect crops, especially pastures and spring sowings of grain and plantings of corn.

Spring wheat and oats had been growing slowly on account of lack of moisture, and the germination of corn had been affected. Pastures to date have been shorter than usual from the same cause.

Giant Rooster Mothers Brood Of 25 Chickens

A fourteen pound Black Jersey Giant gentleman hen who brooded twenty-five two week old chicks, talking to them in the manner most approved in poultry feminine circles, was a feature that attracted more than a usual amount of attention in the display window of the Garlinger leather goods store on Main Street, Niles, Saturday.

The monster fowl first adopted his brood about two weeks ago, as the result of a successful experiment by Mr. Garlinger, who shut him up for two days with the chicks. A previous experience had resulted in failure when the

rooster consented to hover the chicks at night, but wandered around without brooding them during the day, allowing them to chill to death in the rain.

After the big fowl had been shut up for two days, he spent much of his time even during the day in hovering the chicks. He displayed great care in avoiding stepping on them, although, due to the narrow limits of his quarters, and to his great weight, he fatally hurt two in that manner. He fought for his brood savagely when Mr. Garlinger took them from him temporarily to transfer them to the store.

GRAPES AND PEARS BEST FRUIT BETS IN THIS SECTION

STRAWBERRY PICKING BEGINS THIS WEEK, BUT OF CROP NEXT WEEK

Fruit prospects for this section are brightest in the grape and pear lines, according to local growers, most of whom report normal crops of those articles.

George Paul, who has a 15 acre vineyard in the Glendon district, reports that only one acre was damaged in the May frosts, and that there is an excellent prospect of a crop on the remainder. Andrew Huss, who has a small vineyard north of the river, reports that his grape prospects are the best for three years.

Charles Bainton, who has a vineyard on the outskirts of Buchanan, states that reports from over the entire section indicate an 80 per cent grape crop here and 60 per cent further north where the frost had more teeth. Estimates of grape prospects in some of the vineyards around Buchanan run as high as five tons to the acre, although from two to three tons is considered a normal crop.

Pear trees are generally well loaded with excellent prospects of more than an average crop.

Strawberry picking starts. The first picking of strawberries for the market was made in the Andrew Huss patch Tuesday, but the bulk of the crop will not be on until the latter part of next week. The rains of the present week have delayed the crop, but will add to the size of the berries, according to Huss.

Cherries range from a partial crop of sour cherries to an entire failure. Winter apples are also generally reported to be a failure.

BERRIEN CO. COWS SET RECORD MARK AT M. S. C. AUCTION

At the fourth annual consignment sale of the Michigan Guernsey cattle, held at the Michigan State College, Friday, May 25, the highest prices paid for females went to two Berrien County cows. "Sister Sue of Orinac", a five year old cow owned by J. C. Hollenbeck of Berrien Springs, brought the top price of the sale, \$2200, going to Mr. Grisell of Flint, Michigan. "Rebecca's Orphan", an eight year old cow offered by Warren Toney & Sons of Niles, was the next highest female, bringing \$1000. The top price for bulls, \$1225, was paid for "Flemie's Sergeant of Brookwood" consigned by John Endicott of Birmingham.

55 animals sold for \$20,785.00. 4 bulls sold for an average price of \$511.25.

54 females brought an average of \$347.22. 15 Berrien County females averaged \$412.33.

39 females from balance of the state averaged \$322.18. The general average price for females was greatly reduced by the large offering of young heifers and heifer calves.

The greater demand for mature cows over younger animals was the unusual feature of this sale. Following is the list of Berrien consignments to the sale:

J. C. Hollenbeck, Berrien Springs; cow, \$2200.00. S. Rosenberg, Eau Claire; cow, \$2500.00; cow, \$2500.00. E. J. Smallidge, Eau Claire; cow, \$3000.00; heifer, \$185.00; heifer calf, \$135.00; heifer calf, \$130.00. Earl Hemmingsway, Sodus; heifer, \$3000.00. C. A. Hennessy, Watervliet; cow, \$500.00. F. E. Becker, Berrien Center; heifer, \$255.00; heifer, \$140.00; heifer calf, \$130.00; heifer calf, \$120.00. Warren Toney & Sons, Niles; cow, \$1000.00; heifer, \$190.00.

State Opens Office At B. H. for Berrien Co. Fruit Growers

The State of Michigan Dept. of Agriculture will start the 1928 fruit season in earnest in a few days, as usual intensive activities begin with the strawberry deal. For the benefit of growers who do not know that the department has a Branch Office located at 78 Elm St., Benton Harbor, Phone, Harbor 2557; the department desired to make this announcement, there is at all times some one in this office prepared to answer any question the grower may ask in regard to the grading and pack-

ing of fruits and the marking of packages, growers are urged to make use of this service, either by calling at the office or by phone or by letter.

Complaints received at this office or given direct to any of the department's inspectors shall be held strictly confidential.

Strawberry grades may be procured at office or will be mailed upon request. The department recommends the use of the U. S. grades for strawberries, in order to pack and mark as U. S. No. 1 the berries must not be less than 3/4 inch minimum and must be ripe but not over-ripe, and all poor berries must be culled out. To guard against slack pack each box should be shaken well during the process of packing and must be well filled. Excessive forcing will not be permitted as this practice is unfair to the consumer. The trade will welcome Michigan strawberries as we can put them on the market fresh and in a far better condition than states who have a longer distance to ship from. Growers must put up a nice and attractive pack if they expect to receive a fair return on them, as berries have been plentiful for the past three months, and the price has been only fair. This can be determined by visiting any store that handles strawberries. Fruit truckers are cautioned not to accept any packages for transit that are not marked, as they will be held responsible for each such package found in their possession, and violators shall be punished. Each package must be marked with the grower's name and address and net content before being removed from the premises where packed, if the berries are graded, then the name of the grade and

variety must also be stamped up on the package.

The department urges the use of ventilated crates wherever they are available as the fruit arrives at destination in a better condition and therefore better returns are received. Remember our service is at your request. Peter D. Dukeshorer, Director.

SPRING WHEAT CROP LIKELY TO EXCEED 1927'S

The average of private crop reports given out at the close of the week suggest 513,000,000 bu., against 486,000,000 bu. estimated by the government last month, and 552,000,000 bu. harvested last year.

Dry weather is needed for harvesting the winter wheat crop which has started in Texas, and is moving northward, and rain would be beneficial to the spring wheat crop in the American and Canadian northwest.

There has been no change in prospects east of the Missouri river, nor an improvement in the west. Estimates on spring wheat are for 253,000,000 bu., against 238,000,000 bu. a year ago, and a harvest of \$19,000,000 bu. last year. On the present basis of 765,000,000 bu. for all wheat, it suggests a good surplus for the United States, and compares with 872,000,000 bu. last year. Comparative Canadian Figures.

In western Canada estimates are for about 400,000,000 bu., compared with 414,000,000 bu. last year. The condition as given by Crop Expert Bryant is 97.6, and the acreage of 21,700,000 is 1.3 per cent larger than last year. The Canadian crop has had a good start, but conditions there are similar to those in the United States with a large deficit in sub-soil moisture, and good rains are necessary to make a large crop. Canada will have an unusually heavy carry-over from the old crop and United States is to have more old wheat to hold over than last year.

Should dry weather conditions dominate the entire northwestern crop situation, a decided change might come within the next 30 days in the way of general rains. In case of their failure a heavy reduction in the crop is to be expected. —Chicago Tribune.

CONGRESS MAKES MOVE TO ENDORSE WATER DIVERSION

Four recent moves on the part of congress and the executive department disclose a tendency on the part of the federal government to look more kindly on the middle west's fight for a practical lake to the gulf water-way, even if it means a continued water diversion from Lake Michigan.

While congress, in the absence of a Supreme court decision in the lake levels controversy, has not considered legislation granting a permanent water diversion through the Chicago sanitary canal, there have been affirmative steps indicating an apparent intention to pass such a law if required. Pro-nouncements from the war and

state departments also have reflected a favorable attitude.

Four favorable developments. Four recent federal acts support better transportation facilities by the lakes to the gulf route. They are:

The Deneen-Denison bill carrying \$10,000,000 for expanding the government's barge transportation facilities on the Mississippi and authorizing their extension to the Illinois river.

The favorable action by the powerful house rivers and harbors committee on the omnibus bill deepening the Mississippi to nine feet below Grafton, Ill., and authorizing construction of works in the St. Clair river to compensate for the losses to lake levels caused by the diversion of water by the Chicago sanitary district.

Recommendation by the war department for legislation building compensation works in the St. Clair river—a project repeatedly advocated by the Chicago sanitary district as a means of restoring the lake levels.

Assertion by Secretary of the State Kellogg in correspondence with the Canadian government on the St. Lawrence seaway project that the construction of compensation works for restoring lake levels is practical and should be undertaken at once.

See Congress in Favor of It. Illinois congressmen who have been fighting for years for practical water transportation between the lakes and the gulf interpret the passing of the barge bill as indicating a positive intention to make this waterway successful, even if the water diversion must be continued. Congress, in authorizing government barges on the Illinois river, knew that operation of the Illinois link to the gulf route was impracticable without a water diversion.

May Result in Six Years. "The Illinois river and Hennepin canal actions and the approval of the deepening of the Mississippi indicate that congress has determined it is necessary to have a waterway from Lake Michigan to the gulf," Representative W. E. Hull, (C. Rep., Ill.) asserted today. "I believe congress intends to complete the lakes-gulf route. I think we will be given the necessary channels within the next six years."

It is considered insignificant that the approved nine foot channel in the Mississippi between the Illinois river and St. Louis and the improving of the Illinois river channel are both predicated on a continuation of the present water diversion at Chicago. In the case of both projects the war department stated that changes in the construction plans would have to be made if the diversion were materially reduced at any later date.

Two Recent Actions Help. The Chicago sanitary district has long contended that the losses to lake levels caused by its water diversion could easily be remedied by compensating works in the St. Clair river. This year marked the first time that the war department has recommended legislation for constructing these works. It also marked the first time that the state department has taken such a firm stand in support of the contention that the United States and Canada should unite in building compensating works to offset all the diversion from the great lakes.

Contrary Motion. A contrary motion in music is when the parts proceed in opposite directions. For instance, if the treble part goes F G A B C and the alto, tenor, or bass proceed F E D C B at the same time the parts are said to proceed in contrary motion. Scales have to be played in this way for most examinations in piano playing.

First Anniversary Week

June 10th to 17th

One Year of Progress:

On June 10, 1927, we acquired ownership control of this company.

On January 1, 1928, we introduced the completely new line of Graham-Paige motor cars which we returned to the industry to build.

Within three months of their introduction, this company enjoyed the greatest single month's business in its eighteen years' history.

Sales for the last three months exceeded those for the entire year of 1927.

To the public, which has made this progress possible, we express our gratitude and sincere appreciation.

One year ago, in our initial message, we said:

"The public expects motor car executives to keep abreast of the times and make their product constantly better. We shall earnestly strive to do so."

We believe you will find Graham-Paige motor cars abreast of the times—in engineering, in fine appearance and finish, and in ability to deliver genuine satisfaction.

You will find in the four-speed transmission (with standard gear shift) an engineering advance which results in distinctly improved performance at all speeds—a new motoring experience.

We invite you to ride in and drive a Graham-Paige and form your own conclusions as to the quality and substantial value of these new motor cars.

News Around New Troy

Memorial Day was fittingly observed in New Troy by an excellently prepared program under the auspices of the Community Men's Club with S. E. Fletcher acting as chairman. The program was as follows:

Invocation by Rev. John English.

Music by the New Troy Band under the leadership of E. A. Keith.

Two fine selections by the male quartet from the Christian Church of Glendora.

Community singing—America.

Address by Attorney Willard J. Banyon of St. Joe. Mr. Banyon delivered a very eloquent and inspiring address in which he gave tribute to soldiers of the Civil, Spanish-American and World Wars, stating that to them this land owes a debt for safe-guarding the growth of American ideals established and fought for by the soldiers of the Revolution. He also stressed the responsibility of the schools and church in the up-bringing of the right sort of younger generation.

Three Civil War veterans are

left in Weesaw township but only one was present, William Hanover, Sr., of Glendora. He occupied a seat on the platform. The two others, J. Allison and James R. Gonder were out-of-town. As a unique feature John F. Koenig of Baroda, 101 years old, hale and hearty, was given a seat on the platform at the cemetery. The American Legion led by Lieut. E. C. Daniels, O. R. C. and E. L. Barnhart and followed by the children of the community marching to the strains of music by the band and decorated the graves with flags and flowers. The services were conducted at a mound dedicated to the Unknown soldiers by the American Legion Post of Three Oaks. Salutes were fired and taps sounded.

Mr. A. Bowerman field boss of the new school house was absent a few days this week attending the funeral services of a sister who lived up north.

Mr. and Mrs. Harry Boyce of Buchanan attended the services held here Decoration Day.

Mr. and Mrs. Gerald English are enjoying electric lights in their residence. The house was wired last week.

Mrs. J. Cranua is spending a few days in Chicago this week on business.

The last meeting of the M. E. Ladies Aid Society was held at the home of Mrs. Flora Addison, Friday. A very pleasant time was spent and a large amount of work finished. The next meeting of the year will be held in the latter part of August when the election of officers will be held. It will be strictly a business meeting. A great deal of work has been done this year and the society has been financially successful.

L. A. Richardson came from Vandallie Sunday. He has been there several weeks helping to take care of his son's affairs, who was hurt in an automobile accident.

Mrs. Ira Sizer of Sawyer was a caller at the Ed Barnhart home Monday evening.

Mrs. Ray Burlingame, who has been spending several months in Balboa, California, returned here to her summer home Monday evening.

making the trip by rail. Mr. Burlingame and little son Colin are motoring through and will arrive later.

Mr. and Mrs. Warren Spaulding came from Grand Rapids Monday to help observe Decoration Day. Their son Earl, who was a member of the National Army is buried here, also a daughter.

Mr. and Mrs. M. Clark of Michigan City attended the services Decoration Day.

Mr. and Mrs. J. Freeman are entertaining the former's brother, J. R. Royce and daughter of Chicago spent Decoration Day here.

Mrs. Will Short of Michigan City, her son and wife, Mr. and Mrs. C. Smith of Chicago visited with her mother, Mrs. Catherine Findal, Wednesday.

J. D. Rood took a trip to Chicago Tuesday.

J. Allison has returned from Hartford where he went to attend Decoration Day exercises.

Born to Mr. and Mrs. Ray Zimmerman, June 1st, at the Miller Hospital, a nine and one half pound boy. Mother and child are doing well.

The committee to look after the refreshments for the meeting of the Community Men's Club to be held Thursday evening, June 7th are: E. M. Berry, R. B. McKee, S. R. Ritchie and S. E. Fletcher.

Mr. and Mrs. A. J. Barnhart of Berrien Springs spent Sunday afternoon at the E. Barnhart home.

Mr. Carrie Morley and son Max of Galien attended church services at New Troy Sunday. Her mother, Mrs. Flora Addison returned to her home near Galien with her to remain as a guest until Tuesday, June 5th. They will attend the Weesaw Chickadee Republican Women's Club at the J. Smith home in Glendora.

Mr. and Mrs. Joe Wood entertained nine guests at dinner Sunday evening. Those out of town were: Mr. and Mrs. R. W. MacIntosh and two children of Michigan City.

Mrs. D. J. Mitchell will spend several days this week with her daughter and family, Mrs. E. Ritchie of Hammond, Ind.

on Decoration Day with a lovely dinner in honor of his birthday, and dessert was strawberry short-cake from his own patch.

Mrs. Walter Anderson had the following out-of-town guests on Friday: Mrs. John Anderson, Mrs. Richard Anderson, Mrs. Oscar Oleson, Mrs. Carl Anderson and Mrs. Henry Peterson, all of Benton Harbor.

Mr. and Mrs. Richard Anderson spent Sunday at the Walter Anderson home.

Mr. and Mrs. Ray Davis and family of Stevensville spent Friday night at the John Emlong home.

Mr. and Mrs. Gus Ott and family spent Sunday at the Paul Hoge home in Stevensville.

Mrs. Minnie Dalning spent Sunday at the George Ehler home.

Mr. and Mrs. Edward Storey and son Harry of Berrien Center and Mr. and Mrs. Ray Bachteal and family of Benton Harbor visited friends here Sunday.

Josephine and Wesley Kenney spent Sunday at the Marjory Vorhees home in Buchanan.

Miss Ruth Mathien visited her grandparents in St. Joseph last week.

Mr. and Mrs. Leonard Kipp spent Saturday in South Bend at the Thomas Kipp home.

Mrs. John Phiscator has been quite ill the past week.

Mr. and Mrs. Walter Anderson and Mrs. Raymond Myers called on friends in New Troy Sunday.

Mr. and Mrs. Ivan Smith and son Donald of Berrien Springs spent the week end at the Adrian Han home.

Ex-soldiers and sailors and the women of the Auxiliary organization dressed in white visited the cemeteries of Baroda and Edgeman on Memorial Day to pay the annual Memorial Day tribute. Many of the Baroda World War veterans belong to the Bridgman American Legion. Rev. George A. Critchett of St. Joseph was the speaker. Greenwood and California cemeteries of Bridgman and Ruggles and Hinman of Baroda were decorated. Taps were sounded at the grave yards.

Mr. and Mrs. Robert Nitz of St. Joseph entertained Mr. and Mrs. Carl Nitz and family, Mr. and Mrs. Herman Nitz and family, Mr. and Mrs. Albert Nitz and family and Mr. and Mrs. Nitz and daughter at a chicken dinner Sunday in honor of their infant son, Nelson, who was baptized Sunday at the Stevensville Church. Mr. Carl Nitz acted as one of the sponsors.

lands are probably as great as the total value for all commodities exported as shown by the statistics quoted above, yet only about 53 per cent of Michigan's exports are accounted for by automotive products. The remaining 47 per cent consists of a great variety of articles important among which are machinery, medicinal preparations, chemicals, foodstuffs, ores, and a great many other items in both the raw state and manufactured.

Big Lumber Industry

The largest lumbering operation in the world is conducted on the island of Anticosti, at the mouth of the St. Lawrence river. It supplies about 150,000 cords of pulpwood a year to American industries.

Old Abbreviation

The custom of abbreviating the name John "Jno." seems to be an ancient one. "Notes and Queries" of June, 1864, says: "Our forefathers wrote John oftener than John and the 'h' in former days frequently assumed the form of 'n'. John contracted into Jho and Jhon, and the 'h' as 'n' becomes Jno."

Her Dreadful Past

The Amazing True Story of a Girl Patricide

PERHAPS you recall reading in the newspapers the case of Gretchen, the girl who poisoned her father—and then, at her trial, refused to utter a word in her own defense. You read of her conviction and incarceration. There, apparently, the story ended. But really it was only the beginning of one of the most amazing human dramas ever enacted.

In prison Gretchen performed her duties in utter silence; nothing interested her; she kept to herself—an outcast branded for life.

Then Mary Howard came to the prison to teach. Her heart went out to the little daughter of the slums. She tried, by kindness and encouragement, to make Gretchen feel that she was not a pariah but a girl like other girls.

At first Gretchen feared and distrusted her, but later with her head in the kindly teacher's lap, her body wracked with sobs, she told for the first time the dreadful story which, had she told it to the jury, would probably have resulted in her acquittal.

The complete story of the events leading up to her dreadful crime, her trial, imprisonment, eventual parole, and the glorious success she is now making of her life, is entitled "Out of the Slums" and appears in July True Story Magazine—now on sale. Don't miss it!

The rates quoted above are Station-to-Station Day rates, effective from 4:30 a.m. to 7:00 p.m.

Evening Station-to-Station rates are effective from 7:00 p.m. to 8:30 p.m., and Night Station-to-Station rates, 8:30 p.m. to 4:30 a.m.

A Station-to-Station call is one that is made to a certain telephone rather than to some person in particular.

If you do not know the number of the distant telephone, give the operator the name and address and specify that you will talk with "anyone" who answers at the called telephone.

A Person-to-Person call, because more work is involved, costs more than a Station-to-Station call. The rate on a Person-to-Person call is the same at all hours.
