

Now Here's the Proposition

ON THE HIGH COST OF SNUGGLING Now "snuggle" is a charming word with charming implications...

COUNT YOUR BLESSINGS

It seems that every town is charged with a considerable portion of its inhabitants as being a dead town where "nothing ever happens."

Buchanan is the headquarters and the residence of most of the membership of one of the best bands in southern Michigan.

No town in Berrien County has a finer community event, better patronized, than the weekly band concerts, financed by public funds.

Buchanan has a flourishing juvenile band that bids fair to be one of the best in southern Michigan.

Buchanan has two fine community playgrounds, one for the children at Kathryn Park and one for adults at the Athletic Park.

And, in closing, if there is any town in Berrien County which can present a more complete, better-balanced program of community recreation than the above, we stand corrected.

Rev. Liddicoat Leaves For Auto Trip About Lake

Rev. Henry Liddicoat and family left Tuesday afternoon for a three weeks motor trip around Lake Michigan, going by the southern end of the lake and stopping to visit Professor Charles King at Elmhurst, Ill.

Magles Straus is Wedded to Clayton Pitchford, July 7

Magles Straus, daughter of Mr. and Mrs. Clayton Straus of the Coveny District, was married at 3 p. m. Saturday to Emmett Pitchford, of Three Oaks, the ceremony taking place at South Bend.

Charles Mathie of Chicago Dies While Visiting Relatives

Charles Mathie, 56, brother of George Mathie and Mrs. A. G. Bower of Buchanan, died yesterday afternoon at the Clark Hospital while on a visit here from Chicago.

Cars of Stone Derailed Tuesday On Clark Switch

Ten carloads of stone destined for use on the Range Line road were derailed by the spreading of the track on the Michigan Central switch leading to the Clark Equipment Co. plant.

FRANK MARSH DROWNED IN CLEAR LAKE

Boy Not Missed Until Half Hour After Accident Had Occurred

IS FOUND ACCIDENTALLY

Pulmotor Is Rushed From Niles But Life Is Long Extinct

Frank March, six year old son of Mr. and Mrs. Andrew March of Bakertown, was drowned in Clear Lake Sunday when he fell unnoticed from the pier near the boat house at Fuller's resort, and was not missed until more than a half hour had elapsed.

Mrs. March and eight children had gone to the Lake in the afternoon, and were all in the water. The boy had been playing on the beach and in the shallow water with an inner tube about him.

When Mrs. March finally missed him, an alarm was given and fifty men and boys on the beach linked hands and started wading in a line back and forth along the beach. They had searched some time when the boy was found in an accidental manner.

Misses Dorothy Rochfuth and Clarice Banke had been diving off the end of the pier. On coming to the surface after a dive one of the girls apologized to the other for kicking her. The other girl denied that she had been kicked and insisted that she had struck her companion with her foot.

Wilbur Hildebrandt of Chicago was standing on the pier nearby and heard the girls talking. He surmised the facts and hastily slipped off the pier, locating the body at once and bringing it up.

Artificial respiration was resorted to, a call being sent to Niles for the pulmotor kept in the police department there. Patrolman Carl Voelkers and fireman Orin Glassner of that city made a neckbreaking run to Clear Lake with the pulmotor and worked for over an hour to no avail.

Dr. Snowden was also summoned from Buchanan and worked over the boy, but stated that there was practically no hope from the beginning, as the body showed evidences of having been in the water at least half an hour before recovery.

The boy is survived by his parents, Mr. and Mrs. Andrew March; by four brothers, Stanley, Chester, Joe and John; and by five sisters, Louise, Mary, Lucy, Ann and an infant.

While two accidental deaths have occurred at the lake in previous years, it is said that this was first to result from actual drowning.

HAZEL HOMEWOOD DIES THIS MORN CLARK HOSPITAL

Mrs. Hazel Homewood, 38, well known Buchanan woman, died at 11 a. m. today at the Clark Hospital, where she had been a patient for the past two weeks.

She is survived by her daughter, Mrs. Louis Dokey of Buchanan, and by two sisters and one brother.

Funeral arrangements have not been completed. Further particulars will be printed in next week's issue.

Charles Mathie of Chicago Dies While Visiting Relatives

Charles Mathie, 56, brother of George Mathie and Mrs. A. G. Bower of Buchanan, died yesterday afternoon at the Clark Hospital while on a visit here from Chicago.

Mathie was a fireman on a stationary engine in Chicago. He came here two weeks ago to spend his vacation visiting with his brother and sister and with his mother, Mrs. Mary Mathie, who lives with Mrs. Bower. About a week ago he was stricken with a cerebral hemorrhage. His nephew, Lee Mathie, is the proprietor of the Mathie Battery Service. In addition to the above named relatives, he is survived by two brothers in Chicago and a sister in Oklahoma.

The funeral will be held at 3 p. m. tomorrow from the home of George Mathie on Terre Coupe Road.

Cars of Stone Derailed Tuesday On Clark Switch

Ten carloads of stone destined for use on the Range Line road were derailed by the spreading of the track on the Michigan Central switch leading to the Clark Equipment Co. plant.

First Relay Boy Scouts Arrive at Black Hawk Camp

The first contingent of Boy Scouts to occupy the Black Hawk camp lately built by the Scout council of Aurora, Ill., arrived here Monday, comprising about 60 boys from Aurora and the same number from Chicago Heights.

The boys all came from Chicago to St. Joseph by steamboat. The Aurora scouts came from St. Joseph by two specially chartered busses, in charge of C. Edway Palmer, camp director, and Sylvester Miller, nature instructor. The Chicago Heights boys came from St. Joseph to Black Hawk by automobiles.

This contingent will remain two weeks and then make way for another relay.

EMPLOYEE CHAS. MUTCHLER STEALS CAR AND DECAMPS

TRUSTED LABORER RIFLES HOME OF EMPLOYER BEFORE LEAVING

Police of several states are on the lookout for Ted Garski, former farm laborer at the Charles Mutchler farm northwest of Buchanan, who decamped Tuesday afternoon taking with him his employer's Nash touring car, wrist watch, valued at \$55, \$6 in money, a credit slip for \$50 and a suitcase belonging to a guest at the home.

Mutchler went to the back end of his farm to work immediately after noon Tuesday, leaving Garski to work near the house. When he returned toward evening, the car was gone, and search revealed the loss of the other articles listed.

It is not known when Garski left but it is possible that he had been gone several hours before his departure was noted. He had worked for Mutchler since March and was considered by his employer a first rate hand. He claimed to have come from Kalamazoo.

FUNERAL OF MRS. ISAAC CLEVINGER HELD WEDNESDAY

RESIDENT OF BUCHANAN FOR PAST 36 YEARS; HAD MANY FRIENDS

Funeral services were held for Mrs. Isaac Clevinger at the home at 318 North Oak Street yesterday afternoon, with Elder A. E. Bloom, pastor of the Blessed Hope Advent Christian Church of Chicago in charge. Rev. Bloom was formerly pastor and neighbor to the Clevinger family while in Buchanan.

Charity Anna Hayes, daughter of George and Elvira Hayes, was born Sept. 22, 1864 on the home farm near Munica, Ind., being the only girl in a family of six.

She grew up in that home and on August 5, 1882 was united in marriage to Isaac Clevinger of the same county. In 1889 they moved to Michigan and here lived here ever since, spending 36 years in Buchanan.

To Mr. and Mrs. Clevinger were born three children: Myrtle, now Mrs. Richard Olmstead; Walter, who died Sept. 13, 1911 and Mable, now Mrs. Clyde Marble. There are three grandchildren, Lester Olmstead, Carlton and Jack Marble, also one little great-grandchild, Clarence Olmstead. There are three brothers of Mrs. Clevinger living, John of California; David, of Elvira, Kansas, and Isaac, of Buchanan, also several nieces and nephews.

Mr. and Mrs. Clevinger would soon have been privileged to celebrate the 46th anniversary of a happy marriage and the esteem in which they are held in this community has been evidenced during her illness of almost a year's duration.

She passed away on Sunday night, July 9, 1928, at the age of 63 years, 10 months and 14 days. Mrs. Clevinger was essentially a lover of home and most of her activities were rendered in the home circle, but she was ever ready to perform a kindly deed, or a neighborly act to any one of her friends and neighbors, or those in need. She will be greatly missed by those who knew her best, and the sympathy of the community goes out to the bereaved family and relatives.

A large number of most beautiful floral offerings testified to the esteem in which she was held. Mrs. Laura Hamblin and Pastor Bloom sang three beautiful and appropriate selections at the services, which were in charge of funeral director, Childs.

A large company attended the services and followed the deceased to her resting place in Oak Ridge cemetery, where she awaits the Resurrection call of the Redeemer.

Pastor Williams of the local Advent Christian Church pronounced the benediction at the cemetery. Mr. and Mrs. William Schlegel of Anderson, Ind., were present at the services.

Surviving are three brothers, two sisters, seven sons, and one daughter. John W. Montgomery is the only one of her children living in the east.

Woolsey Robinson, Former Resident, Dies in Oklahoma

The older residents of Buchanan will be interested to learn of the death of Woolsey Robinson, which occurred July 6 at his home at Tonkwa, Okla., at the age of 87. He was the last surviving brother of Mrs. Elizabeth Robinson Vorhees of Moccasin Avenue, Buchanan. Word was received by local relatives from his daughter, who wired that he had slept for nearly a week preceding his death. He was born at Circleville, Ohio, in 1841 and came to Buchanan as a boy, running the Ezra Wilson sawmill on the St. Joe river below Buchanan for many years, taking loads of lumber by boat to South Bend and Mishawaka.

LEVI BATTEN CALLED BY DEATH AT FARM HOME

WAS LIFELONG RESIDENT OF GALIEN TOWNSHIP AND BUCHANAN

Levi Batten, 75, resident of Galien Township and Buchanan all of his life, died at his farm residence between Buchanan and Galien at 5 p. m. Saturday, July 7.

Mr. Batten died on the farm on which he was born. The title to the place has resided in the family 77 years. He grew to manhood there, and in September, 1877, he married Miss Emma Best. To this union were born two sons, John of Galien Township and Theodor of South Bend, and one daughter, Mrs. LeRoy Bulhand of Buchanan. His wife and the three children survive him.

About eleven years ago Mr. and Mrs. Batten came to Buchanan, living several years on Portage Street and later at the home of their daughter, Mrs. Bulhand, at 502 Days Avenue. Mr. Batten worked a year at the Zinc Collar and Pad and seven years at the Clark Equipment Company.

Last April he tired of town life and returned to his farm, where he died.

Funeral services were held at the Latter Day Saints Church in Galien at 2 p. m. Tuesday, Elder McKnight officiating, and the body was taken to Chicago Wednesday for cremation at the Graceland crematory. Burial was made in Oak Ridge cemetery.

BLUES LOSE TO ELKHART MOOSE ON SUNDAY GAME

DEFEAT WAS FIRST MET BY THE LOCALS IN TWO MONTHS

The winning streak which the Buchanan Blues have experienced for the past two months was broken in the past week by a defeat at the hands of the strong Elkhart Moose team which handed the locals a 5-1 trimming on the local Athletic Field Sunday.

The fate of the Blues was not unimpaired with bad luck, Czar Nash, the star first baseman of the past eight weeks, being out of the lineup on account of injuries, necessitating an entire readjustment of the infield which threw the team off stride.

St. Joe Valley Shipping Assoc. Robbed Saturday

The till of the Buchanan branch of the St. Joe Valley Shipping Association was robbed of \$24 by an unknown man Saturday morning, when Manager Wesley Swartz, who opened the cash drawer and saw that the checks were disarranged. He found \$24 in bills gone. Another drawer containing \$19.55 in silver was pushed further back under the counter and evidently was not noticed by the thief in his haste.

Co. Farm Bureau And Grange Meet To Plan Picnic

The committee in charge of general arrangements for the county-wide Farm Bureau and Grange picnic, now scheduled to be held at Indian Fields, Berrien Springs, on August 1, are meeting tonight at Berrien Springs. The committee are: Mr. and Mrs. Wynn Armstrong of Niles, James Jakway of Benton Harbor, Fred Berg of Three Oaks, J. G. Boyle and James Richards of Buchanan, and Clyde Gunyon, the latter in charge of the sports program.

ODD FELLOWS GIVE COUNTY PICNIC SUN.

General Public Is Invited To Be Guests Of The Lodge

HELD AT INDIAN FIELDS

Fine Entertainment Card Includes Boxing And Baseball

The Berrien County Odd Fellows Association will be hosts to the public at the picnic grounds at Indian Fields, Berrien Springs next Sunday, July 15, a most cordial invitation being extended to everyone to be present on that occasion.

The events of the day will open with an indoor-outdoor baseball game between two Odd Fellow teams at 11:00 a. m.

Between 2,000 and 3,000 attended last year, and an even greater crowd is expected this year if the weather is favorable. The finest program in the history of the event has been prepared. It is as follows:

11 a. m. Indoor Base Ball Game (Two Odd Fellow Teams) 12:00 Noon, Dinner, 1:00 p. m. Band Concert 2:00 p. m. Base Ball Game (M. C. vs. Naval Reserves) 4:00 p. m. Boxing Contest Two good bouts—one six and one four round bout. Johnnie Reilly, America's most versatile comedy genius will entertain the crowd throughout the entire afternoon.

Kaai Hawaiian's will play for the dance in the evening.

ANNUAL REUNION POLLYWOG SCHOOL IS HELD SUNDAY

The eighth annual reunion of the teachers and former pupils of the Pollywog school was held Sunday at the home of Mr. and Mrs. O. B. York on Portage Prairie, over 50 guests partaking of the out-of-door dinner and listening to the program.

The principal address of the afternoon was made by Miss Mary Reynolds, Chicago school principal, who followed her talk by a reading. Another speaker on the program was Miss Enzie Mell, who taught at the school nearly 80 years ago. The oldest guest present was John Curran, aged 80, former director of the school and now living in South Bend.

At the business meeting of the following officers were elected: president, L. E. Rough, Portage Prairie; vice president, Lawrence House of Terre Coupe Prairie, Ind.; secretary, Mrs. O. B. York, Island Park, Niles, was selected as the place for the reunion next year.

The out-of-town guests were: Miss Mary Reynolds, of Chicago; Miss M. E. Curran, of Chicago; Mr. and Mrs. O. Kizer, of South Bend; Mr. and Mrs. Robert Maine, of South Bend; O. W. Brown, of South Bend; Miss Helen Maine, of South Bend; John Curran, of South Bend; Fred Housettler of South Bend; Mr. and Mrs. John McGowan, of Three Oaks, and Mrs. A. Mell, of Niles.

Berrien County Electric Shop Moves Location

Merson & Garron of the Berrien County Electric Shop, completed moving their stock Tuesday from their display room on Front Street to a new display room in connection with their warehouse at 310 Cecil Avenue, Liberty Heights. Some of the display stock being moved to the Sawyer store.

Sunday Evening Services Dropped At Meth. Church

All Sunday evening services are called off at the Methodist church for the coming three weeks during the absence of Rev. Liddicoat. Ralph Kean of Buchanan will preach at the morning service, on July 15, and Dr. W. E. Sargent will render vocal selections. Dr. R. E. Meador of Kalamazoo will speak at the morning service on July 29.

Highway Bridge Being Repaired

The highway bridge, over the Michigan Central Railroad tracks, about one mile south of the Melvin Eddy farm will be closed for about ten days. Men are repairing the bridge and will complete the work as soon as possible.

Mr. and Mrs. Richard Wentland and daughter Bonita were callers in Buchanan Wednesday.

BOOST BUCHANAN IT'S GOOD PRACTICE. TRY IT. At least, it doesn't cost anything.

**Mystery of Love.**  
No one can give a satisfactory explanation of a satisfactory explanation of love, remarks Grove Patterson. It depends on the individual temperament, the type, the point of view. Much that is mistaken for love is doubtless something else—instinctive and not discreditable, but much less fine than love.—Capper's Weekly.

**Gigantic Book**  
What is said to be the largest book in the British museum in London. It is a gigantic atlas and was presented to King Charles II. ruler of England in 1680, by the merchants of Amsterdam. It was a memento of Charles' visit to the Netherlands after the fall of the British monarchy.

**Dr. Frank Crane Says**

**YOU CAN'T HIT THE HIGH SPOTS ALL THE TIME**  
A young lady complained to me the other day that she had periods of depression. There were times when life seemed drab and uninteresting. And she couldn't see the vision nor envisage the ideal. Life was just plodding.  
Well, why not? That is the human lot and we had as well accept it. We are fortunate if we get the vision once in a while, if occasionally we stand on the mountain top, bathed in the sunlight, and look out over the future. Most of the time, we have to travel through the valley of the shadow.  
In most North temperate climates rain is intermingled with sunshine and, as the poet expressed it, "Into each life some rain must fall."  
Most of our course is to be made by dead reckoning. We cannot have the vision of the stars always, and life is mostly composed of future steps taken by faith in the dark. We are fortunate if once in a while the clouds sweep away and we can glimpse the goal.  
Life is rhythm. It has its ups and downs and the best thing we can do is to say in the language of the old negro hymn, "I'm sometimes up and sometimes down, but still my soul's heavenly bound."  
These moments of darkness, these uninteresting stretches of our life are our real test. Then is shown our staying quality and our ability to pursue a goal by faith and not by sight.  
We cannot have the glory and the ecstasy every moment. We cannot stand it. No man can live in a state of perpetual intoxication. He must get his feet down to the ground once in a while and just plod along.  
We have the comfort of knowing that nothing lasts forever and if our mood is depressed after a while it will pass away.  
You cannot hit the high spots all the time.  
Converts begin their religious life usually in a blaze of enthusiasm. They are keyed up to high pitch, and undergo an emotional ecstasy. It is afterward that the test comes. They are required to take up the affairs of daily life which are perhaps humdrum and uninteresting. They crave emotion, but emotion is an occasional experience and not permanent. In their daily life there must be steady application of the truths they have learned in those rare moments of ecstasy, so many of them backslide.  
In a quieting of enthusiasm very often we make a vow or sign a pledge in a moment of enthusiasm which is very hard to keep in the succeeding moments of drabness.  
The best moral quality is the quality of stick-to-it-iveness, the quality of hanging on and doing right when there are no drums beating nor horns blowing.  
So in the marriage relation, we begin in a burst of love and violent affection what must be kept up through days of perhaps uninteresting detail.  
So the Bible tells us that it is the overcomers who shall be given the reward.

**Ancient Jewish Tribunal**  
Sanhedrin was the name of the supreme judicial council of the Jews from the time of the Maccabees to the destruction of Jerusalem by the Romans under Titus in the year 70 A. D. This council consisted of 70 members, including the chief priests, elders and scribes, and was presided over by the high priest. Its jurisdiction extended to every Jewish settlement. After Judaea became a Roman province the power of inflicting the death penalty was taken from the Sanhedrin.

**Bag of Tricks**  
The "bag of tricks" story is the fable of the fox and the cat. The fox was commiserating the cat because she had only one shift in case of danger while he had a thousand tricks to evade it. Being set upon by a pack of hounds the fox was caught while puss ran up a tree and escaped. A man who boasts of a whole "bag of tricks" has numerous expedients to draw upon; his last trick, expedient, or "trump card," held in reserve for only great emergencies is called "the bottom of the bag."

**His Little All**  
"When I came to town, 20 years ago," said a prosperous man of ample waistcoat, "all my earthly possessions were wrapped up in a bandanna handkerchief."  
"And now you own 300 acres of land and that factory on the edge of town?"  
"Yes."  
"May I ask what you carried in the bandanna handkerchief?"  
"Six thousand dollars, in cash and bonds."

**Price of Gray's Elegy**  
When Thomas Gray's "Elegy" was first printed, in 1751, copies were sold for a shilling. These first editions have now become so rare that a copy recently sold in London for nearly \$5,000. The record price for a first edition was reached in 1924 when a purchaser paid more than \$7,000. The original manuscript of the "Elegy," together with the "Ode on a Distant Prospect of Eton College," is in the Eton College library.

**Mustard as Emetic**  
Mustard and water is an easy and mild emetic. A little mustard rubbed on the hands will at once move all smell of fish. To obtain the full flavor of mustard it should be mixed with a little salt and milk.

**Little Visible Charm**  
**in Captured Mermaid**  
That the belief in mermaids should have survived all these years is extraordinary; but there is another curious side to the matter—that each successive mermaid seen through the centuries seems to have been bigger than its predecessor.  
Of this there can be no doubt if one contrasts the description of the "mermaid" of the ancient Greeks with those of more recent times. In an account of a "mermaid" captured off the coast of Natal, a writer describes it as having screamed like a woman when caught, and goes on to state that it had seven ribs on each side, lungs, kidneys and a heart about the size of an ox heart. According to the writer, the "mermaid" was 11 feet long, had a huge tail instead of legs, lacked a tongue and teeth, but had a heavy chin, flat nose, eyes, and a kind of hair that grew in tufts. Not a very prepossessing "mermaid!"  
It is more than probable that this 300-pound monster was a dugong, which, though once a land dweller, is now an inhabitant of the sea and undoubtedly responsible for many of the "mermaid" legends.

**Childish Frankness**  
Speaking of embarrassing moments, Mrs. F. S. R. writes that she took her four-year-old daughter with her when calling one afternoon and they had not been in a woman's house long when the little one remarked:  
"You may as well start getting dinner, Mrs. Brown, 'cause daddy's out of town and if you ask us we can stay to dinner just as well as not."  
"Needless to say," adds Mrs. F. S. R., "we got the invitation and I was very much embarrassed."  
—Boston Transcript.

**Expensive Laugh**  
It is mighty pleasant to raise a laugh and to tingle to the applause of one's wit, says the modern philosopher, but there is no surer way of raising the late fog that will butt American Nazism.

**Weighted Silks**  
A certain amount of weighting is local in some silk fabrics. The substance used for weighting is stannic chloride in muriatic acid. Heavily weighted silk deteriorates and is lower in price.

**Fly a "Free Animal," Not Pest—in Italy**  
In Florence you get over expecting things to be done and learn to take what is given in a mild spirit of thankfulness and to let the rest go.  
The fly question is an example. We were Americans and we were determined that we were not going to be annoyed by flies, Italian flies at that. Lazy, insolent brutes unused to motestation. We combated them with screens, with sticky paper, with determined slaughtering. They merely returned in slow, persistent clouds the moment the holocaust was over. It seemed as though they were born both wise and wary, for screens could not keep them out nor fly paper entrap them. This was seemingly inexplicable until we discovered the kitchen windows invitingly open and Lizia placidly peeling potatoes with a sort of black halo roving about her head. She listened to the storm of exhortation unmoved and rather amused.  
"Ah, signora," she explained, "but there is no way to keep out a fly—a fly—he is a free animal."—From "Falling Seeds," by Elizabeth C. Chapman.

**Thinkers Have Ever Seen Trouble Ahead**  
We are all more or less nervous at times—especially when something goes wrong with us—about what is going to happen to the human race. The psychiatrists are particularly apprehensive. Dr. Max Shipp, for instance, told the Academy of Medicine at New York that he feared that the whole race of tomorrow would either be grossly damaged or lowered in general efficiency as a result of the high tension lives we lead—though, to be sure, all of us don't lead that kind of life. "I was ever thus. Greece saw trouble ahead; so did Rome. Those who watched the moths flutter round the Louis XIV candle in France were gravely apprehensive, and so were those who frowned on the gnomes of the court of Charles II in England. Trouble was ahead then as it is now. Some pretty bad messes followed, but humanity survived, and, on the whole, improved. But trouble is always ahead. We never catch up with the direst of it. Surely there is comfort in the thought that the worst is yet to come—and probably will never get here."—Indianapolis News.

**What She Wanted to Know**  
A woman called up the Times office the other day and asked the able and efficient young woman in charge of the telephone:  
"Is there a bureau of information in the Times office?"  
"What do you want to know?" asked the obliging woman.  
"That's what I want to know."  
"Well, but what do you want to know?"  
"That's what I want to know. Is there a bureau of—"  
"I know, but what do you want to know?"  
"That's what I want to know!"  
"There's no bureau of information, but if you'll tell me what you want to know I'll—"  
"Thank you. That's what I wanted to know." Good-by.—Leavenworth Times.

**Cannot Harden Rubber**  
The bureau of standards says when rubber is melted it is changed both chemically and physically. It cannot be hardened. Contrary to what seems to be the quite common impression, rubber goods are not cast by pouring the melted material into molds. Instead the crude rubber is worked between steam-heated rolls and at the same time the sulphur and other ingredients are mixed up. The warm, plastic mixture is then molded and heated to vulcanize the rubber—that is, cause the sulphur to combine with it.

**The Crisis**  
It is a common saying that men and women hate to pass forty and put on glasses.  
"There is a greater trial ahead of them; to have all their teeth out and buy a set of the kind that never looks natural."  
Baldness is so easily detected as a wig, but people are rather more careful for false teeth—somehow they expect a man to hold his face baldness.—B. W. Howe's Monthly.

**Sure Winner**  
Buddy Cohen was bragging about how much his father knew. "He knows everything," declared Buddy, but little Bertha was skeptical and finally Buddy did remember that he had asked his father a question or two that he couldn't answer.  
Still loyal to his argument, however, he finally said: "Well, my father may not know everything, but we've got a dictionary that knows the rest."

**Knowledge and Power**  
A great many people "know" many things they really don't know. Some one has said that what is not known would fill more books than ever have been printed. Human knowledge is limited, yet a little knowledge may exert tremendous power.—Grit.

**Soundproofing**  
The bureau of standards says that hair felt forms a very effective sound absorber. It should be placed on the room side of the wall, covering it completely.

America's Largest and Oldest Rubber Tree

HERE'S what horticulturists as- sert is the largest rubber tree on the North American continent. And the oldest as well for it is be- lieved to have been growing about the time Columbus discovered Am-

4 ARRESTED IN LIQUOR RAIDS

Four people from the south end of the county were held by sheriff's officers last week for violation of the liquor laws.

George Wedel and Otto F. Dickow each furnished \$1,000 bond for their appearance in circuit court, when they waived examination before Justice Joseph R. Collier Thursday.

Deputies Paul Arnold, Erwin Kubath, Dave Tyner and Tom Carpenter were the officers who made the raids after several complaints had been received at the sheriff's office.

At the Gordinez home, between Gallien and Three Oaks, on M60, the officers confiscated 25 gallons of potato wine and a quantity of alleged moonshine and beer.

At Gallien the officers raided Wedel's place where it was said several people had purchased liquor.

Wedel was said to be the owner of the place and Dickow was in his employ selling the drinks.

Instinct Makes Hubby Take Refuge in Lies

American husbands instinctively lie to their wives, contends Charles J. McQuirk in an article in Lib- erty. "Even in those circles that keep up the fiction of the supremacy of man," the writer maintains, "the influence of the American wife reaches, causing husbands to lower their voices and think up lies."

"For corollary to this tyranny, and chiefly responsible for it," the writer explains, "is the cowardice of the American husband. There isn't a normal married man in the United States, who has been that way for a year and upward, who won't cower and look guilty when suddenly asked a question by the woman he swore to love, cherish and protect."

"It makes no difference how innocent the question may be. Instinct and experience cause his mind to dive beneath the inquiry's surface in search of the ulterior motive that prompted it. Generally his answer is untruthful but highly exemplary. His motto is, Safety First."

"If you ask these husbands why they lie, they will tell you. 'To keep peace in the family.' That is true as far as it goes, but it doesn't go far enough. The real reason lies deep in their subconscious minds. It is an unconscious memory inherited from their millions of husband-ancestors. It is the instinctive knowledge that a wife will believe a lie quicker than she will the truth. She prefers fiction to fact."

Replenish Happiness

Happiness does not exist in this world in an unending supply. It must be constantly replenished. We have no more right to consume happiness without creating it than we have to use wealth without producing it.—Grit.

One of Lincoln's

Speaking of similes, here is one of Abraham Lincoln's. Of a windy speech, he said: "It was as thin as a homeopathic soup made by boiling the shadow of a pigeon that had starved to death."—Boston Trans- script.

Opposition to Census Traced to the Bible

During the census taking in Rus- sia, government officials charged with this task encountered strong and persistent opposition in cer- tain peasant districts against the count. They explained to the au- thorities that counting the human beings and the horses would bring bad luck and that this was an an- cient belief, which had many times been put to the test. This strange feeling of impending danger in the face of counting possessions is no restricted to these Russian peas- ants never count their sheep or geese nor any of their personal pos- sessions, in the belief that count- ing will bring an end to a run of good luck. The origin of this curi- ous belief, that seems so wide- spread, is to be found in the Bible. It will be recalled that David, the king of Israel, was severely pun- ished by the Lord for his census of the people. The Lord counted it as evidence of pride and insufficient trust in the strength of the pro- tector of Israel.—Pierre Van Paas- sen, in the Atlantic Constitution.

Cats Had Revenge?

A story that recalls Bishop Hat- to and other medieval legends comes from a small Hungarian town and is reported in the Pestl Hirlap. A man of seventy was found dead with a broken skull and his face horribly mangled. He was a recluse, had no friends and his only companions had been some tame pigeons, which he had treated with the greatest affection and care. On their behalf he waged a relentless war against the neigh- borhood's cats, whose cadavers he threw on the manure pile. His face was discovered in an almost un- recognizable state, bitten and scratched, and the nose had entire- ly disappeared. The peasants be- lieve that the cats took revenge, formed a stock battalion, attacked him en masse and did away with him.—Pierre Van Paassen, in the Atlanta Constitution.

Uncertainties Galore

Patient—"Doctor, I can't tell how I feel, I am anyhow, it took me suddenly. I don't know how—I am not very well. I can't tell you why." Doctor—"Take this pre- scription for I don't know what the chemist's take it. I don't know how many times a day and you will be cured—I don't know when."— Cincinnati Enquirer.

Past Offense

It is the withholding of forgive- ness that makes many who have done wrong and repented, fall again. Do the right thing and for- give.—Exchange.

Charted Course

"Anyone can see," said the wag- gish glazier as his assistant handed him a piece of glass he'd just rimmed, "that I've got my work cut out for me."—Farm and Fireside.

Grand Circuit Races At Kalamazoo July 16th to 20th

To every lover of horses and of horse racing, the week of July 16th to 20th will be a red letter one, as on that week will be held the only Grand Circuit Race Meet- ing to be given in Michigan this year at Kalamazoo.

For twenty-one years Kalamazoo has been holding Grand Cir- cuit Races, and that city is now the oldest in point of continuous meetings of any on the "Big Ring."

Manager William B. Engleman has built up an enviable reputa- tion among horsemen the country over for giving a meeting second to none in the country, and for fair and honorable dealing with the horsemen and public alike. They race for big purses at Kalamazoo, and the public is al- ways treated to a real horse race.

This year the program consists of 21 races, for purses totaling \$70,000.00, the headliner being the fifth renewal of the H. O. Reno Great American Pacing Derby for a purse of \$25,000.00. This race has always been a hot one, with big fields, and the entry to the event this year was a record breaker, 52 horses being named. This assures a large field of starters and the horses eligible

are the most evenly matched lot of stakes racers that ever faced a starter. This great race will be contested on Tuesday.

The Kalamazoo Exchange Club, 210 trot, to be raced on Wednes- day, carries a purse of \$10,000.00 and also drew a big entry. This race was won last year by Walter Cox with Sam Williams in 2:02 1/4, and that horse was sold this spring for \$25,000.00. This is the 21st renewal of this stake and winning it carries not only a large amount of money but high honor as well.

Thursday is Colt Day, and on that day will be raced the 2 year old, and 3 year old trots and the 3 year old pace, as well as the Park-American Hotel Stake for 2:08 class pacers. The fastest baby trotters and pacers in the world are entered and fast time will surely be in evidence.

Friday will no doubt produce one of the greatest exhibitions of speed ever seen at Recreation Park as the card for that day in- cludes the Kalamazoo Ice & Fuel Company Stake for 2:06 class trotters, the Trotting Horse Club Stake for Free-for-all Trotters and the famous Free-for-all Pace. Recreation Park is being put in fine shape, the painters are at work, and horse lovers will see a fine plant and will enjoy a won- derful week of sport.

RECORD LINERS PAY

LEVI BATTEN

Funeral services for the late Levi Batten, pioneer resident of Gallien township, were held at the Latter Day Saint church in Gallien Tuesday afternoon at 2 o'clock, July 10, 1928. Elder J. W. Mc- Knight officiating. The body was taken to the Graceland Crematory, Chicago for cremation and will later be interred in Oak Ridge cemetery where private services will be conducted.

Levi Batten, the son of John and Elizabeth Hardy Batten, was born in Gallien township, Mich- igan, June 8, 1853, and departed this life at his farm residence southwest of Buchanan Saturday evening at 5 o'clock, July 7, 1928, following an illness of heart trouble at the age of 75 years and 29 days.

Mr. Batten was born on the edge of Gallien township, which had been the family homestead for 77 years, and his entire life was spent there with the exception of the past twelve years which was spent in Buchanan, and six weeks ago he removed to Gallien town- ship.

On September 24, 1874, he was united in marriage to Miss Emma Best of Buchanan, and to this union three children were born. For nineteen years he served as a member of the district school board, and also held the office as township justice of peace for

eight years.

Mr. Batten was of a kindly and sympathetic disposition, and he was ever ready to lend his assis- tance to one in need, and his many acts of kindness can be recounted by those who mourn his departure.

Surviving are his wife, two sons, John of Gallien township; Theron of South Bend; a daugh- ter, Mrs. Roy Bulhand of Buchan- an, nine grandchildren, also one great grandchild, many other relatives and a wide circle of friends.

Guernsey Cattle To Be Shown At Eau Claire Wedn.

Don't forget the big County Guernsey Show, Wednesday, July 18, at Eau Claire. Everybody in- vited. Come early and bring sandwiches and one prepared dish for the pot luck dinner. Ice cream, lemonade and coffee will be free at the grove. Tell your neighbor. Bring your cattle as that is what we want to see. Let us make it a big show. The prizes that are being given by the banks and cooperative associations are really worth your time and trouble. Come early and enjoy the day with the Guernseys. John A. Stump, Secretary.

Europe is full of would-be Cae- sars.

Juvenile Band Plays Reveilles At Clear Lake Tues.

The bugles of the Buchanan juvenile band set the wild echoes flying at Clear Lake early Tues- day morning and incidentally al- most set some of the inhabitants of the resorts there flying to the woods, when their slumbers were broken by the strident reveilles of the youthful musicians.

The boys arrived at the lake by car at 6:30 a. m. under the direction of R. R. Robinson for their regular morning practice. Taking boat, they rowed out into the lake and played for a time. Reports that the surface of the lake was covered with stunned fish afterward are branded as un- true by the band members.

GALIEN

Mrs. Richard Wentland has re- turned home from Chicago where she went Tuesday to get several tenant children, who are spending a couple of weeks in Gallien en- joying wholesome country air. These children are given a vaca- tion somewhere in the country each summer by the United Charities. Those who are taking charge of the youngsters are: Henry Goodenough, Wm. Newitt, Henry Ingles, George Roberts and Ray Keiter.

Democrats Place Full Ticket In County Contest

The committee which was com- missioned by the Democratic caucus last week to place a full slate in the field for that party have reported the following candidates to contest the fall election:

- Congressman, Roman I. Jarvis, Benton Harbor. State senator, Leon B. Case, Watervliet. State representative, first dis- trict, Charles B. Schaeffer, St. Joseph. Probate judge, Attorney Ken- neth B. Wilkins, St. Joseph. Sheriff, Fred Franz, Niles. County clerk, Harry C. De- Fields, Coloma. Treasurer, George W. Lark- worthy, Benton Harbor. He for- merly was county clerk. Register of deeds, Arthur Carl- son, Jr., St. Joseph. Prosecutor, Attorney Harvey W. Holbrook, Niles. Circuit court commissioner, At- torney Albert D. Wing, St. Joseph. Coroner, A. D. Dormer, St. Joseph; Henry Price, Niles. Drain commissioner, Arthur Da- mon, Hager township.

Blues to Face Fast Nine Here Coming Sunday

The Buchanan Blues will face one of the strongest teams ap- pearing on the local diamond this season in their Sunday contest, when they cross bats with the Indiana & Michigan team from South Bend. This team is rated on its past record as stronger even than the Elkhart Moose nine which administered the first drub- bing the Blues had received in two months last Sunday.

Simpson and Kuspert will officiate on the mound and Zeigler behind the bat for the Blues.

Replenish Happiness

Happiness does not exist in this world in an unending supply. It must be constantly replenished. We have no more right to consume happiness without creating it than we have to use wealth without produc- ing it.—Grit.

Speaking of similes, here is one of Abraham Lincoln's. Of a windy speech, he said: "It was as thin as a homeopathic soup made by boil- ing the shadow of a pigeon that had starved to death."—Boston Trans- script.

Washes with hand carefulness

A LAUNDERING process which is too harsh for your dainty garments is also hard on coarse clothes. The Maytag washes dainty lingerie or coarse grimy work-clothes equally well. The clothes are cleaned by the action of hot, soapy water in a satin-smooth, cast-aluminum tub. It is gentle, but thorough—even the stubborn edge-dirt of collars and cuffs is washed out without hand-rubbing. A big tubful is washed clean in 2 to 7 minutes, as average washing in an hour.

The Roller Water Remover removes both soap and water evenly from all parts of the garment. The large, soft top roll working against a hard bottom roll does not harm buttons and buttons do not bite into the rolls. It has a Safety Feed, the drainboard reverses itself, and the tension adjusts itself.

PHONE for a Free Washing Experience the joy of a Maytag wash- hour, the handiest, fastest, most thorough washer—the washer that won world lead- ership. Test it, com- pare it in your own home. If it doesn't sell itself, don't keep it. Deferred Payments You'll Never Miss

By Arthur Brisbane

FARMERS AND ORGANIZATION

REAL MONEY. THROW OUT AMBITION? SPEND IN MOVIES.

Flour manufacturers, including Washburn-Crosby and Red Star, organized a \$50,000,000 combination, largest flour milling concern in the world.

That's in the line of modern methods, big units, small overhead, powerful marketing.

This news will interest farmers and make them wish somebody could show them how to organize. The first thing, and absolutely necessary, is to organize and intensify methods of production.

Childish talk of "necessary competition" and prattle about keeping business from getting "too big" are out of date.

Where nations combine to monopolize world business, great American units must combine for self defense.

Possibly some one will find a way to help our farmers form such a combination. They need it.

The French settle down courageously to the drastic new money rate. Four-fifths of its value is cut from their money as a result of a war WHICH THEY WON. They face that situation bravely.

In place of paper money, meaning little to peasants and working people, the French again will see gold and silver coins in circulation.

The "grosse piece, six and weight of our silver dollar, will not come back. Worth five francs before the war, it would be worth twenty-five francs now. But ten franc silver pieces worth forty cents will be coined, and the French will feel that they are working for REAL MONEY.

Stabilizing the franc is a boon to all Europe, ending financial disorder that has lasted ten years. It is a great achievement by Poincaré, worthy successor of Thiers, Turgot, Neckar, Solby, and a long list of brilliant French statesmen.

Sir James Berlie tells Rhodes "choirs not to try for greatness." The advice was humorous, probably. Trying for greatness produces desirable mediocrity. "You ain't high to shoot low" as the literature colored man said when he asked Grover Cleveland to make him Librarian of Congress. He really wanted a job as portier. It is a baby crisis for the moon and is satisfied with a cookie. Youth reaches for greatness and is content with modest achievement and a place on the golf course.

Winfield E. Sheehan, who knows about moving pictures, says screens will be much bigger for large sized theaters now building everywhere. That will make it necessary to revise production methods.

Most important for budding genius, he says the "talking movie" will create a new army of scenario writers, knowing how to make sound effective in pictures.

In a detective story, noise of a creaking board, or a shot, might be more effective than the hero's smile. Mr. Sheehan believes that the pictures with sound will double moving picture attendance.

In New York's brutal dancing contest—the dance to go on until all but one couple drop—the female dancers, nervously exhausted, slap their partners' faces. Then the man slaps the woman's face vigorously. The yahoos cheer "fans" looking on, struck with delight, as the half crazed dancers strike each other.

Such is our poor imitation of the Roman arena.

Easy Way Out. The lover seeks that deep gratification which he could only have obtained otherwise by long years of labor, of concentration and struggle, of good luck, and of repeated victories over himself and others. He expects the concrete reward not only for what he has done, but also for what he would like to be—exactly.

Guard Children's Health. Supervision of health of children from birth to five years of age, as well as during the school period, five to fourteen years, has been brought about in Middleborough, a manufacturing seaport town in Yorkshire, England, through co-operation of the education committee and the child welfare council.

Human Worker Forgotten. Machinery is producing more than hand labor ever did, and could produce, and it is producing many things that hand labor never did or could produce. We are perfecting mechanical civilization and very frequently the welfare of human workers is the last thing considered. International Labor News Service.

Dean Clark Has Painful Clash With Swarm Bees

While plowing for winter wheat at his farm on Mt. Taber district Tuesday, Dean Clark had a painful encounter with a large swarm of bees that came near cutting the hair of one of the horses and which resulted in his being badly stung himself. Clark had gone to the field early Tuesday and was passing with his plow under a wild cherry tree when one of the horses threw up its head and dislodged a swarm of bees the size of a half bushel which was hanging from a limb. The bees at once attacked the team and Mr. Clark. The team started and ran about ten rods when the middle horse fell and the two outside animals piled on top of it.

Clark had to work several minutes in cutting the harness and loosening the horses so that they might get on their feet, the bees stinging him severely all the time. He said that he experienced no bad after effects from the poison, but he was obliged to get a veterinary from Van Claire to save one of the horses.

Niles Head Is Leader in Milk Test for June

Warren Toney and Sons of Niles leads the South Berrien District Improvement Association for the month of June with an average production of 47.8 lbs. butterfat per cow.

The Toney herd of 13 pure bred Guernseys is one of the very best Guernsey herds in this county. Many a high priced animal has been sold out of this herd during the past year.

The second high herd honor goes to Tracy Dickey, Niles whose seven pure bred and grade Holsteins averaged 56.5 lbs. fat. Fred Gleason of Sodus takes the third place as his seven pure bred Guernseys averaged 55.2 lbs. fat for the thirty days period.

The two following were Henry Nemitz, a new member in Bridgman, with five cows averaging 42.6 lbs. fat, Frank Ream of Niles, 12 high grade Guernseys with a 41.1 lbs. fat average. Thirty herds with 333 cows were tested during the month. Of these 32 cows made better than 40 lbs. butter fat.

The leading cows in their respective classes are listed below: Two year class: E. Herman Niles, G. Guernsey, 942 lbs. milk and 50.9 lbs. fat.

Three year class: Warren Toney and Sons, Lily, P. B. Guernsey, 1341 lbs. milk and 53.3 lbs. fat on the test.

Four year class: Elvendale Farm, Niles, P. B. Holstein, 1809 lbs. milk, 56.1 lbs. fat. Mature class: Franz Bros., Niles, P. B. Holstein, 2472 lbs. milk and 57.7 lbs. fat.

Kaj Nielsen, Tester.

Geographic Boundaries

Various factors acting upon the primitive races of mankind influenced the using of boundaries. Men were originally nomads. They moved from place to place in search of food. During the various migratory favorable conditions of climate, soil productivity, etc., would induce them to settle in a certain locality, where they would have the opportunity to develop. These tribes generally established themselves in regions having definite geographic boundaries, such as mountains, rivers or seas, which could be easily defended from aggression. With the progress of civilization these boundaries became clearly defined.

Idea of Daylight Saving

Daylight saving was suggested as early as 1787 by an Englishman named William Willett. In his book entitled "Waste of Daylight," the following year a bill for daylight saving was introduced into the house of commons, but failed to pass. The subject was brought up in Germany in 1916, when the German Federal council passed a measure to set the clock ahead one hour. Within three months twelve European countries had followed, namely, Holland, Austria, Turkey, England, France, Norway, Sweden, Denmark, Italy, Switzerland, Spain and Portugal.

News

"News" is commonly believed to be formed from the initial letters of the four directions, north, east, west, and south, but it is authoritatively claimed that the interesting sameness is merely coincidence. There are synonymous foreign words "nova" and "nouvelle," which come very close to mean the same thing. In our own language the word was formed, spelled "news." It is likely that the German word "das neue" the origin of ours since their phrase, "Was gibt's neues?" means the same as our "What's the news?"

First Presbytery Meet

The first General Presbytery of America was organized in 1700 at Philadelphia by Francis Makemie, an Irish minister. He was chosen the first moderator.

Faith Must Be Certainty

We cannot live on probabilities. The faith in which we can live bravely and die in peace must be a certainty, so far as it professes to be a faith at all, or it is nothing.

Best Conductor

The best conductors of electricity are silver, copper, gold, zinc, Swedish iron and tin.

## WEST BERTRAND

Mr. and Mrs. Roy Hamilton, Mr. and Mrs. Jack Biller of South Bend were callers at the home of their parents, Mr. and Mrs. W. P. Cauffman, Monday.

Mrs. Belle Gogle and daughter, Gladys of Chicago returned home Sunday after visiting at the home of Mr. and Mrs. Chas. Foster and other relatives.

Mrs. Wm. Hanley and daughter, Julia spent Sunday at Niles, guests of Mr. and Mrs. Garland.

Mrs. M. E. Gilbert spent Friday afternoon with Mrs. Mona Dellinger at Buchanan, who is much improved from her recent illness.

Ross Linsenmier is spending several days with his grandparents, Mr. and Mrs. Fred Linsenmier.

Word has been received that Mrs. H. I. Cauffman is bedfast with rheumatism, at the home of her son at Jackson. Mrs. Blodgett of Detroit is caring for her. At this writing she is slightly improved.

Mr. and Mrs. James Keller returned to Chicago Sunday after spending several days at the home of Mr. and Mrs. J. H. Best and family.

Mrs. George Harmon and daughter Nadine of LaPorte were the guests Friday of Mrs. Sadie Redden.

Mr. and Mrs. George Russell and Imogene spent the Fourth with the latter's sister, Mrs. Chet Gadets and family at South Bend.

Mrs. Sadie Redden will entertain her mother, Mrs. Libbie Haslett of Three Oaks this week.

W. B. Dale went to Chicago Friday, returning Sunday when his son John returned with him. He had been visiting his aunt at Beverly Hills. His cousin, Leonard Luck came home with him for an indefinite visit.

Mr. and Mrs. Roy Travis and family spent Sunday at Three Oaks as guests at the Donner home.

Mr. and Mrs. Clarence Linsenmier entertained Mr. and Mrs. Marker of Mishawaka over the week-end. They spent Sunday at Judy Lake.

## Norman Post of Chicago called on friends over the Fourth.

The Ladies' Missionary society of the Church of Christ met Thursday at the home of Mrs. Albert Sherwood for an all day meeting with pot luck dinner served at noon. Thirty-three were present. Mrs. Estella Snodgrass assisted the hostess.

Mary Reynolds, Mrs. Nellie Curran of Chicago were guests of Mr. and Mrs. R. B. Franklin over the week-end. They also attended the Pollywog school reunion.

About fifty of the former pupils and teachers of the Pollywog school met at the home of Mr. and Mrs. O. B. York Sunday for an old fashioned get-together meeting. The weather and day was ideal for the occasion. Potluck dinner was served on the lawn. A special program had been prepared, which was enjoyed by all. The following officers were elected: president, L. B. Rough; vice president, Lawrence House; secretary, Mrs. O. B. York. Following this O. Warren of South Bend treated the party to ice cream. Next year the reunion will be held at Island Park, Niles.

Mrs. Mollie Frowd, Mrs. Ruby Dodge of Buchanan spent Friday afternoon with Mrs. Mac Best.

Mr. and Mrs. S. E. Engley and family spent Sunday at Tower Hill, near Sawyer.

Mr. and Mrs. Steman of St. Louis, Mo., are visiting at the home of Mr. and Mrs. Henry Gowland.

Bobbie and Keith Edwards of Chicago are spending several days with their grandparents, Mr. and Mrs. C. B. Rozell.

Mr. and Mrs. Wellington Best of Jackson attended the funeral of Levi Batten, returning to their home Tuesday.

### Water Power

The origin of the water wheel as a prime mover is lost in antiquity, but it was used in ancient Egypt, and the screw named after Archimedes is still part of the foundation of a modern turbine.

## The Road To Better Health

### The Value of Pollen Extracts

BY ARTHUR L. FORSTER

Last year, in these columns, I wrote a treatise on the prevention of Hay Fever which led many persons to carry out the suggestions contained therein, with results that were extremely gratifying. Complete relief or marked abatement in the symptoms was observed in 90 per cent of cases treated.

Pollen Extracts Proven Valuable

The hub of the treatment responsible for the above results was the desensitization of patients with pollen extracts.

A number of factors are responsible for the beneficial results following the use of these extracts at the present day. First, the improved methods of preparation now employed assure full potency, maximum stability, and uniform dosage. Second, the making of diagnostic skin tests determines—with absolute exactness—to which specific pollen the subject is sensitized, thus assuring the use of the correct extract for each individual case.

Contributing Causes Now Recognized

The important part which the various contributing factors play in the etiology of Hay Fever is now recognized, and means for their elimination constitute an essential part of the treatment. Attention to the removal of these accessory causes ranks second in importance only to the administration of the pollen extract. In fact, the results obtained from the use of the extract are governed to a large degree by the thoroughness with which contributing factors are deleted from the clinical picture.

The Detoxicating Treatment

A program having as its object the removal of all toxins from the system must be undertaken early in all cases. Every avenue of elimination must be opened. The skin must be kept in an active state by daily bathing in the morning and a brisk dry rub in the evening. The liver and kidneys must be kept "flushed out" by an intake of large quantities of water and alkalies.

The intestinal tract must be kept clear by transforming the flora and producing efficient daily evacuation. The nose, throat and sinuses—the respiratory channel as a whole—must be maintained

The immunity from each injection of pollen extract lasts about a week and then begins to diminish. For this reason the series of doses is so timed that the maximum dose will be administered at the beginning of the Hay Fever season. This maximum dose, to which the patient, has been gradually adapted by the graded doses previously given, is then repeated every five to ten days during the season.

How long the immunity thus conferred persists is not known so far as a specific case is concerned. However, it has been definitely determined that it does not extend into the next year, much less endure for three or four years, as some over-optimistic persons think. However, if one can keep himself free from symptoms by pollen extract desensitization during three successive seasons, it is highly unlikely that he will develop the disease again.

Improved methods of manufacture have brought the cost of pollen extract down considerably, and the simplified technique of its administration now takes less of the physician's time. This has made possible a substantial reduction in the fees for this service, bringing it well within the reach of any one.

### QUESTIONS AND ANSWERS

**Constipation**

A. H. writes: "My little girl, aged 28 months, has dark circles under her eyes, and is very thin. Her bowels have not acted properly for six months, and diet has not improved them. I give her laxatives continually. Does this harm her? What medicine can I give her to make her gain in weight?"

**Reply**

In most cases of this character the trouble is due to a three-fold cause: general muscular weakness; want of regularity in attending to the bowel function; improper food.

The remedy is likewise three-fold:

Give the little patient certain exercises, such as walking, passive movements of the legs, and abdominal massage. Have her go to the toilet the same time every day, letting nothing interfere with this.

Give her a diet which will leave sufficient residue in the intestine to constitute a good-sized stool; bran and agar are examples of what I refer to. Angier's Emulsion, being both a lubricant and a tonic, would in my opinion be the best preparation to adjust her bowels and increase her weight.

### Gem Worn by Musician

**Idea of Old Greeks**

When we sit at a concert listening to a great violinist, we are often diverted by the flash of a large diamond on one of the fingers of his bow hand. If we like the music and the artist we dismiss the impression with the thought that it is merely a bit of personal vanity on the part of the player.

But when we read that the practice of displaying handsome rings to the audience was in vogue at musical concerts 2,400 years ago, and learn that the eminent Greek lyre players of the time of Timotheus wore jewels on the right hand, the hand which held the plectrum and sounded the strings, we find that we are confronting a long tradition of professional practice.

Perhaps this persistent habit may be traceable to the Greek desire to discover and reveal beauty everywhere, and to harmonize gleams of color with musical tones, if such a combination is possible. (Granting that this was the aim of the Greek artist, we must then be dealing not merely with the momentary whim of a vain musician, but with traits of Greek character which are also human, showing themselves in similar guise wherever similar situations occur, and persisting, therefore, through long years in the practices of a guild—Charles Dutton Gulick, in "Modern Traits in Old Greek Life.")

### Rope-Making Plant

Much of the peninsula of Yucatan is very stony, and as there are practically no rivers, the planters depend on rain to irrigate their fields. Sisal hemp, or henequen, is the chief article of growth and export throughout the peninsula.

The sisal itself is an overgreen plant closely related to the century plant or American aloë. The fiber is extracted from the curving, swordlike leaves, which are cut at the end of the third or fourth year of growth. The leaves are macerated, or made into pulp, and the fibers torn apart by machine. The pulp is then washed away and the fibers dried and bleached by the sun, and when the process is completed this yellowish-white fiber ranks next to Manila hemp in making rope.—Washington Star.

### Egg Signifies Welcome

The gift of an egg is the usual form of greeting accorded visitors by the Draks of Borneo. This greeting holds true to the old primitive idea that a guest must be welcomed with a gift, says William Beebe in Liberty Magazine. Throughout the whole country, if you find favor in the eyes of a tribe you are formally presented with an egg on the day of your arrival in the village. And in the heart of Borneo, where food is, in the nature of things, a more or less undetermined quantity, the possession of an egg is a matter for profound congratulation.

### British Empire Largest

The British empire covers more territory than any other country in the world, comprising 13,226,740 square miles. France and her colonies comprise 5,570,461 square miles.

### Life Service

Marriage is the only life sentence that is suspended by bad behavior.—Louisville Times.

### Proper Time to Cut Hair

Haircuts should be avoided when the moon is full, according to a London seer, who declares that hair, like other vegetation, contains more "sap" at that time. It should be cut just before the new moon, he says, presumably because the sap is then in the head and not in the hair.—Elgin Record.

### WAGNER GRANGE TO ENTERTAIN TOMORROW EVENING

The Wagner Grange is host tomorrow night at an ice cream social to be given on the lawn at the home of Mrs. Bert Mitchell.

A program will be given in connection with the social, part of which will be furnished by the boy scout troop camping at Lake Madron, and the remainder given by Wagner grange talent under the direction of Miss Anita Boyle.

The social will begin at 8 p. m. and one of the good times for which the Wagner Grange is famous is assured. A cordial invitation is extended to the public.

RECORD LINERS PAY

### Buchanan Township Apiaries Burned For Foul Brood

Inspection of farm apiaries of Buchanan township for foul brood was completed last week by two deputy state bee inspectors, a large number of bees being burned. The apiary at the Dean Clark farm was found to be infected and was entirely destroyed. Inspection has been on for the past two years here, and a number of apiaries were destroyed last year.

**Summing It Up**

The kitchen is a country in which there are always discoveries to be made.

### Ind. & Mich. Co. Lowering Grade Of McCoy's Creek

A force of men has been engaged by the Indiana & Michigan Electric Company lowering the grade of McCoy's Creek which flows under the sidewalk in front of the offices in Buchanan. The level of the water had been raised by accumulations of rubbish until it broke into the basement.

**Paper Chairs**

A newspaper recently reproduced a photograph of a woman and her daughter sitting on chairs made entirely from old newspapers pressed into rolls and varnished.

### Easy Way to Dry Fish

Curious use is made of the rigging of a fishing schooner, putting out from Havana, Cuba, says Popular Mechanics Magazine. Instead of taking the catch ashore for drying, the fish are hung on the lines of the rig where they are safe, comparatively free from dirt and exposed to the sun at all times of the day.

### Bad Enough as It Is

At a commercial school pupils are taught to jazz the accompaniment of tango music. Employers are rather doubtful of the experiment, comments the London Opinion, and declare that too many typists indulge in syncope spelling as it is.

# NEW CHRYSLER PLYMOUTH

## 670 AND UPWARDS

Coupe	\$670
Roadster	670
2-Door Sedan	690
Touring	695
De Luxe Coupe	720
4-Door Sedan	725

All prices f.o.b. Detroit. Chrysler dealers are in a position to extend the convenience of time payments.

## A New Car.. A New Car Style.. A New Zenith of Low Priced Car-Luxury and Performance

New slender profile chromism-plated radiator.—Long, low bodies.—Generous room for 2 to 5 passengers, according to body model.—Luxurious deep upholstery and appointment detail.—New "Silver-Dome" high-compression engine, for use with any gasoline.—Smooth speed up to 60 and more miles an hour.—Chrysler light-action internal expanding hydraulic four-wheel brakes.—no other car of this price possesses this feature.

With the new Plymouth, Chrysler is the first to give, at so low a price, the advantages of performance, riding ease, dependability and full adult size which characterize fine cars of higher price.

It is so revolutionary an advance over other low priced cars, it is such conclusive evidence that the past year's strides in the science of manufacturing have multiplied the purchasing power of the motor car dollar, that you will surely want to see it and drive it.

A Plymouth ride is the best demonstration of the ease with which it leaps from 5 to 60 and more miles per hour—the quiet of its power and the smoothness of its flight. You yourself must put your foot

to the light-action internal hydraulic 4-wheel brakes to know the confidence of the fastest and safest deceleration you have ever experienced.

And above all, you must see its beautiful lines and finish, and stretch at ease in its deep-upholstered, full adult-size bodies, to comprehend how completely the Plymouth surpasses cars heretofore sold under \$1000.

Please see and ride in the Plymouth. We believe you will discover there has never been a car anywhere near its price that can approach the Plymouth for power, pick-up, smoothness, easy handling, safety, quietness and roominess—nor that can equal it in beauty and style.

Advent Christian Church Sunday School 10 A. M. Preaching Service 11 A. M. Subject: "Drifting."

Sunday School Lesson

THE CONVERSION OF SAUL Acts 22:6-16 Rev. Samuel D. Price, D. D., Associate General Secretary of the World's Sunday School Association

Life's entire viewpoint can be changed in a moment and all that remains in years is lived accordingly. It was just that way in the case of Saul of Tarsus who had been so ardent in persecuting the Christians in Jerusalem and vicinity.

Meandering with Marjorie

Many opportunities for varying the usual service of dishes often appearing at parties and luncheons are offered by the citrus fruits. Here are several suggestions to which you may add a number of others:

Thinking Out Loud

Three bands at the convention were playing different airs all at once, and many who accidentally tuned in to the convention on their radio thought they were having a program of modern jazz music.

SPECIAL Le Mur Steam Permanent Marcel at \$8.00 Expert Hair Cutting 35c All Work Guaranteed LOOK YEARS YOUNGER Have a Demilo Milk Mask—A real milk skin rejuvenator. Iris Beauty Shoppe 230 E. Front St. Phone 275

They called her a soulless 'gold-digger' but... DO you remember the sensational breach of promise suit, a few years ago, by a humble flower-girl against her young millionaire lover and his wealthy mother? At the trial many ugly charges were hurled at the girl. She was called a "gold-digger," a blackmailer; a shameless creature who loved only money and the luxury money could buy.

DO YOU KNOW THAT?

1. Cream soups may be prepared ahead of time and reheated in a double boiler just before serving. 2. Beating with a Dover egg beater while it is thickening will prevent white sauce from becoming lumpy.

The Helpers

By the time a man earns more money he has less time in which to spend it, but that is where the wife and daughters come to the rescue. Shoe and Leather Reporter.

BARR'S BUCHANAN - NILES Men's Suit Special Men's Underwear Work Pants Ladies' Shoes Men's Shoes Straw Hats

HARVEST OF WHEAT IS ON AT BUCHANAN The present state of advancement in Buchanan crops is indicated by the meeting of the Coveny district community threshing outfit which met last night at the Coveny school house, Bert Roundy in charge of the occasion.

Trombone Trio to Feature Concert Next Wednesday The usual crowd attended the Clark Band concert last night, fair weather again favoring the event. The following program was announced for next Wednesday's concert by director Arlie Meeker:

Photographing As He Goes Down THORNGS gathered for a monster air carnival at Berlin, Germany, were given a thrill in watching a noted balloonist taking air view pictures of scenes below while descending. Photo depicts him in a special harness attached to his balloon—clicking away with his camera as he slowly drifted down to earth.

Expensive Upkeep There are houses in England the windows of which have never been counted. These include Windsor castle and Wentworth Woodhouse. The Yorkshire home of Earl Fitzwilliam. A former duke of Marlborough said that putty for repairing the windows of Blenheim palace cost him £700 (\$2,500) a year.

Fish Has Odd Power to Benumb Opponent In the winter of 1882, when the writer was at work on the fishes of Key West, a tourist came to his office, bearing a small ray or skate of which he told a curious story. Seeing the little fish close to shore, he stabbed it with a pocket knife. At once he felt a sharp shock like that from a Leyden jar, which, for the moment, paralyzed his arm.

Once Sold Oil as Indian Cure-All Oil City, Pa.—Oil, once a founding of industry, started banistering tours with Indian medicine shows in the days of its poverty before it put millions of automobiles on the road.

Diagnosis From Film An American millionaire wanting a London surgeon to treat his child and being unable to persuade him to come to America, had a film of the child's activities made, from which the surgeon prescribed treatment. The method was successful.
